- 6079 1880-O MS64 Prooflike NGC. CAC.** Micro O. The New Orleans Mint has a reputation for soft strikes, but the present brilliant near-Gem is intricately impressed. The fields provide pleasing reflectivity, and although faint marks are present, none are obtrusive. Census: 21 in 64 Prooflike, 1 finer as Prooflike, 34 as 64 Deep Prooflike with none finer (12/12). NGC ID# 2543, PCGS# 7115, CoinPlex ID# M\$M1880OPL

Remarkable MS68 1880-S Dollar

- 6080 1880-S MS68 PCGS. Large S.** This fully struck and highly lustrous Superb Gem has gorgeous preservation and only a whisper of tan toning. A marvelous and virtually unimprovable silver type coin that somehow survived in nearly immaculate condition despite its production for circulation. Encapsulated in a green label holder.
Ex: Jimmy G. PCGS Registry Collection (Heritage, 2/2008), lot 1156, which realized \$5,175. PCGS# 7118, NGC ID# 2544, CoinPlex ID# M\$M1880S

MS68 1880-S Silver Dollar

- 6081 1880-S MS68 PCGS. CAC. Medium S.** This magnificent silver type coin boasts dazzling cartwheel luster and nearly immaculate surfaces. Faint grazes on the portrait and upper reverse field are all that deny perfection. Essentially untoned though the reverse displays a trace of golden patina. The centers show only minor inexactness of impression. PCGS# 7118, NGC ID# 2544, CoinPlex ID# M\$M1880S
- 6082 1880/9-S MS67 PCGS. VAM-11. A Hot 50 Variety. Medium S.** Die fill within the 0 has led some numismatists to assign overdate status to the VAM, since a number of Philadelphia and Carson City overdate VAMs exist with an 1880 date. The present lightly toned and lustrous Superb Gem has a full strike and potent luster. The fields are essentially immaculate and the portrait displays only minor marks. PCGS# 7122, CoinPlex ID# M\$M18809S
- 6083 1881 MS66 NGC.** A lovely Premium Gem with plenty of eye appeal, this coin exhibits brilliant surfaces and a bold strike on both sides. Other than minor grazes, this example is almost entirely void of contact marks. Census: 49 in 66, 4 finer (12/12). NGC ID# 2546, PCGS# 7124, CoinPlex ID# M\$M1881
- 6084 1881 MS66 NGC.** The surfaces of this Premium Gem are refreshingly free from abrasions on this attractive piece. The obverse is deeply toned in a variety of shades with iridescent blue-green serving as the predominant color, while the reverse is brilliant and highly lustrous. Census: 49 in 66, 4 finer (12/12).
Ex: Columbus Central States Signature (Heritage, 4/2002), lot 4159; Pittsburgh Signature (Heritage, 8/2004), lot 6804. From The Steve Reed Collection. NGC ID# 2546, PCGS# 7124, CoinPlex ID# M\$M1881

Gorgeous Superb Gem 1881 Dollar No Numerically Finer Examples at NGC or PCGS

- 6085 1881 MS67 NGC.** Both sides of this Superb Gem display tremendous eye appeal. The silver-white surfaces on this marvelous coin are completely devoid of color. Radiant cartwheel luster proceeds from softly frosted, satiny surfaces. Only a few, very minor surface marks appear. Neither NGC nor PCGS has assigned a higher numeric grade to a single example (11/12).
From The Steve Reed Collection. NGC ID# 2546, PCGS# 7124, CoinPlex ID# M\$M1881

Deep Mirror Prooflike 1881 Morgan, MS65 No Numerically Finer NGC or PCGS Examples

- 6086 1881 MS65 Deep Mirror Prooflike NGC.** Save for a slight amount of field chatter that is scarcely visible, this coin at first glance could be mistaken for a true proof. The silver-white surfaces are completely untuned, except for a thin ring of gold around the extreme rim. Liberty's cheek is mostly pristine, save for a couple of small abrasions noted under a loupe. Census: 12 in 65 Deep Mirror Prooflike, 0 finer (11/12).
Ex: M.L. Moser Collection, #1 NGC Morgan Dollar Set. NGC ID# 2546, PCGS# 97125, CoinPlex ID# M\$M1881DMPL
- 6087 1881-CC MS66 PCGS.** This Premium Gem is well defined, including strong delineation in the hair above Liberty's ear. Both sides are untuned and lustrous. A few light grazes are within the parameters of the designated grade. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC
- 6088 1881-CC MS66 PCGS.** When rotated under a light source, the reverse of this well-struck Premium Gem is particularly attractive, with frosted devices and boldly reflective fields providing a prooflike appearance. The surfaces display copper and peach color almost entirely throughout along with areas of red and bright green at the outer edges. Mottled toning in similar shades appears on the obverse. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC
- 6089 1881-CC MS66 PCGS.** The design elements are well impressed, including the hair above Liberty's ear and the eagle's breast feathers. Untuned surfaces are highly lustrous and minimally marked. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC
- 6090 1881-CC MS66 PCGS.** This lovely Premium Gem Carson City representative displays great luster on untuned, semiprooflike surfaces. Some light grazes are in keeping with the designated grade. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**1881-CC Morgan Dollar, MS67
Well-Preserved and Lustrous**

- 6091 1881-CC MS67 PCGS.** The 1881-CC Morgan dollar was a well-produced issue, from a small mintage of just 296,000 pieces. This spectacular Superb Gem displays flawless creamy surfaces that radiate vibrant cartwheel mint luster on both sides. Visual appeal is stunning. PCGS and NGC have combined to certify only five numerically finer coins (12/12). PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**Superb Gem 1881-CC Morgan Dollar
Only Three Finer PCGS Coins**

- 6092 1881-CC MS67 PCGS. CAC.** A magnificent Superb Gem from the famous Carson City Mint, this coin displays razor-sharp definition on all design elements, and the virtually pristine surfaces radiate vibrant frosty mint luster. The 1881-CC claims a tiny mintage of 296,000 pieces, but the issue was heavily represented in the government sales of the 1960s. PCGS has graded only three numerically finer specimens (11/12). PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**1881-CC Morgan Dollar, MS67
Only Three Finer at PCGS**

- 6093 1881-CC MS67 PCGS. CAC.** The surfaces are expectedly clean on this Superb Gem, but it is the exceptional cartwheel luster that gives it the extra boost. Only tiny luster grazes appear on the cheek, but there are no outright abrasions, and the silver-white surfaces reveal few distractions of any size. Faint roller marks appear on the ear and extend upward into the hair. PCGS has graded only three finer (12/12). PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

1881-CC Morgan Dollar, MS65 DMPL

- 6094 1881-CC MS65 Deep Mirror Prooflike PCGS. CAC.** A few trivial reverse scrapes prevent a higher grade to this stunning Gem Morgan silver dollar. The Carson City series combines the charm of the old west with the popularity of the Morgan silver dollars to create a wonderful subset. This beautiful Gem has fully mirrored fields and highly lustrous devices with exceptional contrast. PCGS has only certified 48 finer DMPL examples (12/12). PCGS# 97127, NGC ID# 2547, CoinPlex ID# M\$M1881CCDMPL

- 6095 1881-O MS65 PCGS.** The 1881-O Morgan can be located through the Gem level with a bit of patience and searching, but is rare any finer. Indeed, PCGS has certified just 13 examples finer. The brilliant surfaces of this Gem display pleasing luster and well struck design elements. A few minute marks preclude a higher grade. PCGS# 7128, NGC ID# 2548, CoinPlex ID# M\$M1881O

- 6096 1881-O MS65+ PCGS. CAC.** This high-end Gem displays sharply detailed design elements, unusual for a New Orleans issue, with a mixture of vibrant satiny mint luster and prooflike reflectivity in the fields. PCGS has graded only 13 numerically finer examples (12/12). PCGS# 7128, NGC ID# 2548, CoinPlex ID# M\$M1881O

- 6097 1881-O "So-Called O/S" MS63 PCGS. VAM-5.** A Hit List 40 Variety. This sharply detailed Select specimen shows an artifact inside the primary mintmark that resembles an undertype S, but is probably a prior O punch. In addition, the second 1 in the date is repunched. This coin displays vibrant mint luster on brilliant surfaces, with a few minor contact marks that explain the grade. Population: 13 in 63, 9 finer (12/12). PCGS# 134050

**Gem Deep Mirror Prooflike 1881-O Morgan
Tied for Finest Known**

6098 1881-O MS65 Deep Mirror Prooflike PCGS Secure. The 1881-O Morgan dollar, from a mintage of 5.7 million pieces, is available in most grades. Although examples with prooflike surfaces are also seen with some frequency, the coins are generally plagued with bagmarks, rendering them less attractive. Thankfully, this exquisite Gem Deep Mirror Prooflike coin displaying sharply struck design elements is an exception, exhibiting only minor abrasions, primarily light grazes that do little to diminish the considerable eye appeal. Neither PCGS nor NGC has awarded a higher numeric grade to a single example. Population: 12 in 65 Deep Mirror Prooflike, 0 finer (11/12). PCGS# 97129, NGC ID# 2548, CoinPlex ID# M\$M1881ODMPL

6099 1881-S MS67 ★ NGC. CAC. Classically colorful with wild bands of blue-green, mint, gold, orange, violet, and azure sweeping across each side. Beneath the toning is an immensely lustrous and carefully preserved Superb Gem. This piece exhibits superior eye appeal. *Ex: Chicago Signature (Heritage, 8/2011), lot 4515, which realized \$1,750.* NGC ID# 2549, PCGS# 7130, CoinPlex ID# M\$M1881S

**1881-S Morgan Dollar, MS68
Among the Finest Certified at NGC**

6100 1881-S MS68 NGC. The 1881-S Morgan dollar is known as a well-produced issue, but few survivors can match the quality and appeal of the present coin. This spectacular MS68 specimen is patinated in shades of gray, lavender, and champagne-gold, with most of the color on the obverse. The design elements are sharply detailed, and frosty mint luster shines through the toning. NGC has graded no coins in higher numeric grades (11/12). NGC ID# 2549, PCGS# 7130, CoinPlex ID# M\$M1881S

**MS68 1881-S Morgan Dollar
Only Two Numerically Finer Coins at PCGS**

6101 1881-S MS68 PCGS. This magnificent MS68 Morgan dollar displays razor-sharp definition on all design elements, and the fields show a mixture of vibrant frosty mint luster and prooflike reflectivity. A few hints of golden-tan toning are present on the obverse, while the reverse exhibits spectacular arcs of lime-green, violet, and cobalt-blue. Eye appeal is terrific. Population: 97 in 68 (2 in 68+), 2 finer (11/12). PCGS# 7130, NGC ID# 2549, CoinPlex ID# M\$M1881S

**1881-S Morgan Dollar
Deep Mirror Prooflike Superb Gem**

6102 1881-S MS67 Deep Mirror Prooflike NGC. Spectacular and deeply mirrored with substantial mint frost over the devices. At first glance, one thinks this is a brilliant coin but closer examination reveals slight haziness at the top of the obverse and a couple of light spots of color on the reverse. The design elements are sharply struck, with no areas displaying hints of softness. Well-preserved surfaces are seen over each side. The 1881-S Morgan is normally associated with abundance and high quality, but as well produced as this early S-mint issue normally is, only a tiny percentage survives in Superb Gem Deep Mirror Prooflike condition. Census: 7 in 67 Deep Mirror Prooflike, 2 finer (11/12). *From The Steve Reed Collection.* NGC ID# 2549, PCGS# 97131, CoinPlex ID# M\$M1881SDMPL

- 6103 1882 MS66 PCGS. CAC.** Flashy cartwheel luster is semireflective on the silver reverse. Quality detail is yet another asset for this eye-appealing Premium Gem. PCGS# 7132, NGC ID# 254A, CoinPlex ID# M\$M1882

**1882 Silver Dollar, MS66 Prooflike
Tied for Finest Certified**

- 6104 1882 MS66 Prooflike NGC.** This is the highest certified grade for a prooflike 1882 Morgan Dollar, and each grading service has encapsulated just one example (11/12). Both sides of this Premium Gem are fully brilliant with light cameo contrast and the devices are sharply defined.
From The Steve Reed Collection. NGC ID# 254B, PCGS# 7133, CoinPlex ID# M\$M1882PL

- 6105 1882-CC MS65 Deep Mirror Prooflike PCGS.** This flashy and brilliant Carson City type coin possesses an intricate strike and nearly mark-free fields. Delicate contact on the cheek corresponds to the grade. Certified in a green label holder. PCGS# 97135, NGC ID# 254B, CoinPlex ID# M\$M1882CCDMPL

Lovely Gem Deep Mirror Prooflike 1882-O Morgan

- 6106 1882-O MS65 Deep Mirror Prooflike PCGS.** This coin displays a sharp strike that further adds to the attractiveness of this nicely contrasted example. The fields exhibit a number of the minor hairlines and contact marks generally seen on these large pieces. Population: 20 in 65 Deep Mirror Prooflike, 1 finer (11/12).
From The Steve Reed Collection. PCGS# 97137, NGC ID# 254C, CoinPlex ID# M\$M1882ODMPL

- 6107 1882-O/S Strong MS64 PCGS. VAM-4.** A Top 100 Variety. Most O over S examples are VAM-4, known as the "Recessed" overmintmark with the center of the S lower (relative to the O) than on the scarce VAM-3. The obverse displays rich golden-brown, sea-green, and plum-mauve patina. PCGS# 7138, NGC ID# 254D, CoinPlex ID# M\$M1882OS

- 6108 1882-O/S MS64 PCGS. VAM-4.** A Top 100 Variety. This well struck silver dollar was made at the New Orleans Mint though the reverse die was originally intended for San Francisco. Lustrous, sharply struck, and nearly untoned. Coined from rusted dies, as always for VAM-4. PCGS# 7138, NGC ID# 254D, CoinPlex ID# M\$M1882OS

- 6109 1882-O/S Weak MS64 PCGS. VAM-5.** A Top 100 Variety. Aquamarine and orange-gold dominate the obverse. The reverse is mostly brilliant though the border displays peach shades. Lustrous with a good strike and unobtrusive obverse contact. Population: 22 in 64, 1 finer (12/12).
Ex: San Francisco ANA Signature (Heritage, 7/2005), lot 6780, which realized \$1,610.
From The Steve Reed Collection. PCGS# 87138, CoinPlex ID# M\$M1882OSWEAK

**MS68 ★ 1882-S Dollar
No Finer Examples Graded by NGC or PCGS**

- 6110 1882-S MS68 ★ NGC.** In Mint State, the 1882-S (9.2 million pieces produced) is the least common of the 1879-1882 Morgan Dollars from the San Francisco Mint. Of course, this date is nowhere near as rare as, say, the 1883-S or 1884-S, and high-grade examples are still obtainable with patience. Among the finest coins known to NGC and PCGS, this snow-white Superb Gem is bursting with frosty mint luster. The strike is expectantly sharp for the issue, and the surfaces are virtually devoid of coin-to-coin contact. Perfect for high-quality type purposes. Census: 87 in 68, 0 finer (11/12). NGC ID# 254F, PCGS# 7140, CoinPlex ID# M\$M1882S

- 6111 1882-S MS65 Deep Mirror Prooflike NGC.** This brilliant Gem exhibits richly mirrored fields and noticeable cameo contrast, especially on the reverse. As is usual for the San Francisco Mint of the era, the central strike is precise. Census: 72 in 65 (1 in 65+) Deep Mirror Prooflike, 9 finer (12/12).
From The Steve Reed Collection. NGC ID# 254F, PCGS# 97141, CoinPlex ID# M\$M1882SDMPL

**1883 Silver Dollar, MS67
Only Two Finer at PCGS**

- 6112 1883 MS67 PCGS. CAC.** *Ex: Gold River.* An important condition rarity in the Morgan series, with just two finer examples certified by PCGS. This Superb Gem is fully brilliant with frosty silver surfaces and excellent design definition. Population: 83 in 67 (5 in 67+), 2 finer (12/12). PCGS# 7142, NGC ID# 254G, CoinPlex ID# M\$M1883

1883 Morgan Dollar
Rare Prooflike Premium Gem

6113 1883 MS66 Prooflike PCGS. CAC. The 1883 Morgan dollar is one of the most available issues of the decade, from a mintage of 12.3 million pieces. Few examples can match the quality of the coin offered here, however. This spectacular Premium Gem exhibits sharply detailed design elements and reflective fields that show a few hints of golden-tan and blue toning. Population: 3 in 66 Prooflike, 0 finer (11/12). PCGS# 7143, NGC ID# 254G, CoinPlex ID# M\$M1883PL

6114 1883 MS65 Deep Mirror Prooflike PCGS. This Gem is stunningly reflective with appreciable contrast on both sides. An area of golden-brown and gray-blue toning appears near the border of the upper left section of the obverse. The reverse displays toning at the extreme outer edge largely appearing under ONE DOLLAR, with the colors including shades of golden-brown and iridescent bright turquoise. Minor contact marks appear on both sides. Population: 81 in 65 (2 in 65+) Deep Mirror Prooflike, 9 finer (12/12). *From The Steve Reed Collection.* PCGS# 97143, NGC ID# 254G, CoinPlex ID# M\$M1883DMPL

1883-CC Dollar, MS67
Dappled Toning, Superior Mint Luster

6115 1883-CC MS67 NGC. Flashy cartwheel luster races around the fields with a degree of reflectivity on each side. The solidly struck obverse offers dappled blue-green and gold toning, while the reverse is nearly brilliant. A carefully preserved and undeniably appealing survivor, tied for numerically finest graded at NGC (11/12). *Ex: Baltimore Signature (Heritage, 3/2009), lot 1292; Summer FUN Signature (Heritage, 7/2009), lot 866.* NGC ID# 254H, PCGS# 7144, CoinPlex ID# M\$M1883CC

1883-CC Dollar, MS67 ★
Impressively Preserved for a CC Dollar

6116 1883-CC MS67 ★ NGC. A constant in numismatics is that every series has issues that are considered common dates. While this 1883-CC dollar is not a common date among all Morgan dollars, it is one of the most common dates among Carson City Mint Morgan dollars. What is not common about this is the quality. Nearly all Mint State CC dollars surviving today are from the GSA sales of the 1970s, or from the earlier Treasury release. These coins were stored in Treasury vaults since the time of issue and were stored in cloth bags. Each year, an inventory was required, an enormous task. Every time an inventory was taken, these bags were moved and shuffled, creating bag marks on the surface of each individual coin. Very few of the coins in those mint bags remained in pristine condition. Examples exceeding the Gem MS65 grade are seldom seen today, and in Superb Gem quality, these coins are major rarities, regardless of the date. This example is fully brilliant with snow-white surfaces and thick, frosted luster. The fields are moderately mirrored with highly lustrous devices. These surfaces are nearly pristine. *Ex: Palm Beach Signature (Heritage, 11/2004), lot 9490.* *Ex: M.L. Moser Collection, #1 NGC Morgan Dollar Set.* NGC ID# 254H, PCGS# 7144, CoinPlex ID# M\$M1883CC

Deep Mirror Prooflike MS66
1883-CC Dollar, VAM-5A

6117 1883-CC MS66 Deep Mirror Prooflike NGC. CAC. VAM-5A. The N from IN is clashed in front of Liberty's neck. The present high grade Carson City representative is of greater interest for its remarkable field reflectivity and attractive peripheral golden-brown and cobalt-blue toning. Housed in a former generation holder. Census: 41 in 66 Deep Mirror Prooflike, 7 finer (12/12). NGC ID# 254H, PCGS# 97145, CoinPlex ID# M\$M1883CCDMPL

**1883-O Morgan Dollar, MS67
Tied for Finest Certified**

- 6118 1883-O MS67 PCGS.** There are many condition rarities among the so-called common dates, and the 1883-O is one of those coins, with a combined population of only 68 Superb Gem MS67 coins, and none finer. This gorgeous piece has a sharp strike with satin luster and brilliant, untoned silver surfaces. Population: 36 in 67 (1 in 67+), 0 finer (12/12). PCGS# 7146, NGC ID# 254J, CoinPlex ID# M\$M1883O

**Superb Gem 1883-O Morgan
Among the Finest Graded**

- 6119 1883-O MS67 NGC.** The New Orleans Mint produced 8.7 million Silver Dollars in 1883, a significant total for any era. Since many of these coins were preserved in federal vaults, this issue is among the most common Morgan Dollars in Mint State. Nevertheless, the certified population of the '83-O drops off rapidly above the MS66 grade level. This is a beautiful coin whose thickly frosted surfaces are boldly struck, with some obverse and reverse central weakness, and all but distraction-free. Both sides are further enhanced with a crescent of deep multicolored hues. Census: 32 in 67, 0 finer (11/12). Ex: *Central States Signature* (Heritage, 5/2003), lot 6488; *Palm Beach Signature* (Heritage, 11/2004), lot 9494. From *The Steve Reed Collection*. NGC ID# 254J, PCGS# 7146, CoinPlex ID# M\$M1883O

**Choice 1883-S Morgan Dollar
Conditionally Rare in Higher Grades**

- 6120 1883-S MS64 PCGS.** The 1883-S Morgan dollar is surprisingly difficult to locate in high grade, and most examples seen suffer from extensive bag marks. This attractive Choice example is refreshingly free of large or distracting marks and exhibits well-detailed design elements and vibrant mint luster, as well. A few hints of golden-tan toning add to the considerable eye appeal. PCGS has certified only 17 numerically finer specimens (12/12). PCGS# 7148, NGC ID# 254K, CoinPlex ID# M\$M1883S

Near-Gem 1883-S Dollar

- 6121 1883-S MS64 PCGS.** As opposed to its 1878 to 1882 San Francisco predecessors, the 1883-S is scarce in Mint State. This lovely near-Gem displays potent luster and an attractive patina that includes attractive shades of gold, peach, and ice-blue. Minor contact marks prevent a Gem evaluation. Nearly uncollectible above the MS64 level, with PCGS having assigned higher numeric grades to a mere 17 pieces (11/12). PCGS# 7148, NGC ID# 254K, CoinPlex ID# M\$M1883S

**Prooflike Select 1883-S Dollar
Peripheral Multicolor Toning**

- 6122 1883-S MS63 Prooflike NGC.** Lovely sun-gold, forest-green, and plum-red toning is confined to the margins on this flashy and nicely struck better date silver dollar. One minor mark on the cheek precludes a higher grade. The 1883-S is far scarcer in Mint State than prior San Francisco dates of the series. Certified in a former generation holder. Census: 11 in 63 Prooflike, 5 finer (11/12). NGC ID# 254K, PCGS# 7149, CoinPlex ID# M\$M1883SPL

Superb Gem 1884 Morgan Dollar

- 6123 1884 MS67 NGC.** An impressive coin, this piece displays a smooth, unblemished cheek, bright mint luster, colorful patina, and a sharp strike. A medium overlay of reddish-golden color deepens toward the peripheral areas. Census: 36 in 67, 2 finer (11/12). Ex: *Palm Beach Signature* (Heritage, 11/2004), lot 9506. From *The Steve Reed Collection*. NGC ID# 254L, PCGS# 7150, CoinPlex ID# M\$M1884

- 6124 1884-CC MS66+ PCGS. VAM-2.** Though available from GSA distribution, VAM-2 is nonetheless interesting for its repunching on the 18 in the date. Highly lustrous and beautifully preserved with a good strike and faint mint-made roller marks on the cheek. PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC

6125 1884-CC MS66+ PCGS. VAM-2. Light golden patina visits the lower reverse, but this lustrous high grade Carson City type coin is otherwise brilliant. Boldly struck and carefully preserved. The 18 in the date is clearly repunched. PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC

6126 1884-CC MS66+ PCGS. CAC. VAM-2. The 18 is clearly repunched. Vertical bands of powder-blue and rose-gold adorn the left obverse margin of this otherwise brilliant high grade Morgan dollar. Well struck and lustrous with minimal marks. PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC

6127 1884-CC MS66+ PCGS. CAC. An attractive high-end Premium Gem, this piece displays bright rainbow toning in the shape of a large crescent on the obverse that covers more than half the surface. The coin exhibits a sharp strike, further adding to the visual appeal. PCGS has awarded higher grades to only 67 examples (11/12). PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC

6128 1884-CC MS66+ PCGS. CAC. VAM-3. The date is repunched, but collectors will sooner notice the magnificent rainbow toning on the left obverse. Cherry-red, lemon-gold, and sea-green bands take turns until Liberty's ear is surpassed. A loupe reveals only moderate marks on the nose and forehead. PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC

MS67 ★ 1884-CC Dollar VAM-3 Repunched Date

6129 1884-CC MS67 ★ NGC. CAC. VAM-3. The date is lightly repunched, most noticeable on the first two digits. This virtually brilliant Superb Gem Carson City type coin has dazzling luster and a needle-sharp strike. Both fields appear pristine, and the eye appeal is exceptional. Census: 6 in 67 ★, 3 finer with a Star designation (12/12).

Ex: M.L. Moser Collection, #1 NGC Morgan Dollar Set. NGC ID# 254M, PCGS# 7152, CoinPlex ID# M\$M1884CC

1884-O Morgan, MS67

6130 1884-O MS67 PCGS. The lustrous surfaces of this Superb Gem exhibit well-struck devices, and are minimally abraded. Generally New Orleans dollars are not well struck, however the 1884-O is the exception to the rule and this is a lovely example. A scattering of light gray freckles is somewhat more apparent on the reverse. Population: 57 in 67, 1 finer (11/12).

Ex: Long Beach Signature (Heritage, 2/2009), lot 1766. PCGS# 7154, NGC ID# 254N, CoinPlex ID# M\$M1884O

6131 1884-O MS67 NGC. Well-defined and essentially untoned, this Superb Gem offers impressive, creamy luster and displays exceptional eye appeal. NGC has graded only 1 numerically finer example (12/12).

Ex: FUN West Palm Beach Signature (Heritage, 7/2009), lot 887, which realized \$2,300. NGC ID# 254N, PCGS# 7154, CoinPlex ID# M\$M1884O

6132 1884-S AU58 PCGS. CAC. A lovely near-Mint State example, the reverse displays booming luster while the obverse luster is close to complete. This conditionally rare '84-S dollar exhibits rich tobacco-brown toning and only a whisper of wear at the centers. PCGS# 7156, NGC ID# 254P, CoinPlex ID# M\$M1884S

1884-S Dollar, MS61 Excellent Mint Luster, Sharply Defined

6133 1884-S MS61 NGC. No trace of handling friction can be found on either side of this strictly Uncirculated example of this major condition rarity in the Morgan series. Most of each side is brilliant, but there is just the slightest trace of golden patina if one examines the coin closely. The central devices are sharply struck, and the coin's lower Mint State grade is derived from a number of small to medium-sized abrasions. NGC ID# 254P, PCGS# 7156, CoinPlex ID# M\$M1884S

1885 Deep Mirror Prooflike Morgan, MS67

6134 1885 MS67 Deep Mirror Prooflike NGC. This piece displays exceptional eye appeal, with brilliant and deeply mirrored fields along with a moderate amount of mint frost over the devices. The surfaces are exceptionally clean, as expected at this grade level, and the coin displays a sharp strike on both sides. Census: 4 in 67 Deep Mirror Prooflike, 1 finer (11/12).

Ex: Santa Clara Signature (Heritage, 11/2002), lot 6548. From The Steve Reed Collection. NGC ID# 254R, PCGS# 97159, CoinPlex ID# M\$M1885DMPL

6135 1885-CC MS66+ PCGS. Vibrant cartwheel luster, bright surfaces, and well-struck design elements combine to provide this high-end Premium Gem with nice eye appeal. A few flecks of toning appear on the obverse. The surfaces exhibit minor marks. PCGS has graded only 48 numerically finer examples (12/12). PCGS# 7160, NGC ID# 254S, CoinPlex ID# M\$M1885CC

6136 1885-CC MS66 PCGS. CAC. Strong luster shows through the layer of light patination, which on the obverse is delicate orange-gold, and bluish-purple on the left reverse that transitions to orange-gold on the right reverse. A well directed strike leaves strong definition on the design elements. A few light ticks on the obverse may well prevent an even finer grade. PCGS# 7160, NGC ID# 254S, CoinPlex ID# M\$M1885CC

**1885-CC VAM-4 Morgan, MS66
Doubled Dash Below Second 8**

- 6137 1885-CC MS66+ PCGS. CAC. VAM-4.** A Hot 50 Variety. The dash below the second 8 is heavy and easily visible without magnification. This amazing Premium Gem combines a Plus designation with a CAC sticker, exhibiting frosty silver luster and bold design motifs. This is clearly a borderline Superb Gem that will appeal to the advanced Morgan specialist. PCGS# 7160, NGC ID# 254S, CoinPlex ID# M\$M1885CC

**Snow-White MS67 1885-CC Dollar
Hot 50 VAM-4 'Dash' Variety**

- 6138 1885-CC MS67 NGC. VAM-4.** A Hot 50 Variety. First reported by *Coin World* in 1975, this VAM is noteworthy for its thick "dash" beneath the second 8 in the date. The present brilliant and lustrous Superb Gem has a precise strike and pristine fields. The low mintage 1885-CC appeared in quantity in the GSA auctions but rarely in the present exceptional quality. NGC ID# 254S, PCGS# 7160, CoinPlex ID# M\$M1885CC

**1885-CC Silver Dollar, MS67
Only One Finer at PCGS**

- 6139 1885-CC MS67 PCGS.** The 1885-CC has a low mintage of 228,000 coins, but nearly every one of those dollars was held in the Treasury, with countless specimens included in the GSA sales of the 1970s. The result is an issue that is easily obtained in grades from MS60 through MS65. Circulated examples are rare, and higher Mint State grade specimens are also rare. PCGS has certified more than 21,000 examples of this issue, but only 50 of those are Superb Gems. This piece has frosty luster with a crescent of blue and russet toning at the upper obverse, with the balance of the obverse and the entire reverse untuned. Population: 47 in 67 (1 in 67+), 1 finer (12/12). PCGS# 7160, NGC ID# 254S, CoinPlex ID# M\$M1885CC

**Superb Gem 1885-CC Morgan Dollar
Low-Mintage Carson City Issue**

- 6140 1885-CC MS67 PCGS.** The 1885-CC Morgan dollar claims a low-mintage of 228,000 pieces, and the issue is always in demand. Fortunately, the 1885-CC was heavily represented in the GSA sales, so the date is more available than the small production figure suggests. The present coin is a magnificent Superb Gem, with vibrant frosty mint luster and well-detailed design elements. The obverse is essentially brilliant while the reverse has a small crescent of pale gold toning along the left border. The well-preserved surfaces show no mentionable flaws, even on close inspection. This coin is one of the finest surviving examples of this sought-after issue. Population: 47 in 67 (1 in 67+), 1 finer (11/12). *From The Steve Reed Collection.* PCGS# 7160, NGC ID# 254S, CoinPlex ID# M\$M1885CC

- 6141 1885-CC MS64 Deep Mirror Prooflike PCGS.** This near-Gem displays appreciable contrast between the frosty devices and mirrored fields. Small areas of tobacco-brown toning appear on the obverse along with a number of grazes. This piece exhibits a bold strike. PCGS# 97161, NGC ID# 254S, CoinPlex ID# M\$M1885CCDMPL

**Stone-White Deep Mirror Prooflike
Gem 1885-CC Silver Dollar**

- 6142 1885-CC MS65 Deep Mirror Prooflike PCGS. CAC.** A brilliant and flashy Gem that boasts a sharp strike and minimal indications of contact. The 1885-CC is the lowest mintage Carson City Morgan issue and only a small fraction of the former GSA auction examples show comparable white-on-black contrast. Encapsulated in a first generation holder. PCGS# 97161, NGC ID# 254S, CoinPlex ID# M\$M1885CCDMPL

**1885-O Morgan Dollar, MS68
None Certified Finer**

- 6143 1885-O MS68 NGC.** Simply phenomenal quality. This is a coin that has to be seen to be fully appreciated. The surfaces of this piece show thick, satiny mint luster and are essentially flawless. The reverse is brilliant, but the obverse is spectacularly toned in iridescent rows of rainbow coloration. Census: 9 in 68, 0 finer (11/12). *From The Steve Reed Collection.* NGC ID# 254T, PCGS# 7162, CoinPlex ID# M\$M1885O

- 6144 1885-S MS65 PCGS.** The untoned surfaces of this Gem yield semiprooflike fields that offer mild contrast with satiny devices. This is a well struck and minimally marked example. PCGS# 7164, NGC ID# 254U, CoinPlex ID# M\$M1885S

- 6145 1885-S MS65 PCGS.** Strong luster shows through the layer of medium-intensity multicolored toning. This is a well struck and minimally marked piece. Difficult to locate any finer. PCGS# 7164, NGC ID# 254U, CoinPlex ID# M\$M1885S

**1886/1886 Morgan Dollar, MS63
Rare VAM-20 Repunched Date**

- 6146 1886/1886 MS63 NGC. VAM-20.** A Hot 50 Variety. The entire date has been repunched, with the undertype seen most easily at the base of the 1 and inside the lower loop of the 6. According to VAMWorld.com, "...probably less than ten currently known. Currently ultra-rare and getting enormous premiums on the few reported sales." This attractive Select specimen is sharply detailed, with brilliant lustrous surfaces. PCGS# 134000

- 6147 1886 MS67+ PCGS. CAC.** This high-end Premium Gem exhibits sharply detailed design elements and lustrous surfaces, with dark blue and gold peripheral toning. PCGS has graded only three numerically finer specimens (12/12). PCGS# 7166, NGC ID# 254V, CoinPlex ID# M\$M1886

**1886 Morgan Dollar, MS66 Deep Mirror Prooflike
None Certified Finer at PCGS**

- 6148 1886 MS66 Deep Mirror Prooflike PCGS.** The mirrored fields of this impressive Premium Gem offer a pleasing contrast with the mildly frosted motifs. The design elements are sharply struck, except for traces of weakness on the hair above Liberty's ear, and the surfaces are nearly untuned, save for wisps of light tan color on portions of the central devices. A couple of minor luster grazes on each side are not in the least bothersome. In this outstanding condition, the common date status of the 1886 Dollar can be tossed out the window. Population: 27 in 66 Deep Mirror Prooflike, 0 finer (11/12). *From The Steve Reed Collection.* PCGS# 97167, NGC ID# 254V, CoinPlex ID# M\$M1886DMPL

**Superb Gem 1886 Morgan Dollar
Elusive Deep Mirror Prooflike Example**

- 6149 1886 MS67 Deep Mirror Prooflike NGC.** The 1886 Morgan dollar was produced in large numbers, but quality control was not a priority, resulting in typically dull, grainy surfaces with subpar mint luster. Coins with Deep Mirror Prooflike surfaces are quite elusive. This incredible Superb Gem displays sharply detailed frosty devices that stand out boldly against the deeply reflective pristine fields. Census: 1 in 67 Deep Mirror Prooflike, 3 finer (11/12). *From The Steve Reed Collection.* NGC ID# 254V, PCGS# 97167, CoinPlex ID# M\$M1886DMPL

Select Mint State 1886-O Dollar

- 6150 1886-O MS63 NGC.** The 1886-O Morgan dollar is a rare issue in higher Uncirculated grades. This impressive Select example is well-detailed, with just a touch of the usual softness on the hair above the ear. The surfaces are lightly marked, but there are no abrasions worthy of mention. A hint of pale pink appears on this bright piece. *From The Richmond Hill Collection.* NGC ID# 254W, PCGS# 7168, CoinPlex ID# M\$M1886O

Select 1886-O Morgan

- 6151 1886-O MS63 NGC.** A sharply detailed Select specimen, both sides display unbroken satiny mint luster, with a few hints of golden-tan toning. There are surface marks and grazes as expected at this grade level however, none is severe. The 1886-O is seldom encountered in high grade, despite its large mintage of 10.7 million pieces. NGC ID# 254W, PCGS# 7168, CoinPlex ID# M\$M1886O

1886-O Morgan Dollar, MS63 Conditionally Scarce in Higher Grades

- 6152 1886-O MS63 NGC. CAC.** Most Morgan dollar issues were stored in Mint and Treasury vaults for decades before they were eventually released to collectors. However, a few issues actually entered circulation soon after they were minted, and the 1886-O is one of those. For that reason, despite a mintage in excess of 10 million coins, the '86-O is a rarity in Mint State grades. Minor grazes, including those on Liberty's cheek, contributed to the grade of this brilliant piece.
From The Richmond Hill Collection. NGC ID# 254W, PCGS# 7168, CoinPlex ID# M\$M1886O

Vibrant Near-Gem 1886-O Dollar

- 6153 1886-O MS64 PCGS.** Despite the mintage of more than 10.7 million pieces, the 1886-O Morgan dollar is a scarce issue in MS64 condition, and only three examples have achieved higher grades from PCGS (12/12). This well-detailed Choice example displays vibrant mint luster and minimal abrasions. PCGS# 7168, NGC ID# 254W, CoinPlex ID# M\$M1886O

- 6154 1886-S — Altered Surface — PCGS Genuine. Unc. Details.** This better date silver dollar is thoroughly lustrous and nicely struck. Marks are minor and confined to the left obverse. The lower left obverse quadrant is minutely granular.
From The Gensch Numismatic Trust Collection. PCGS# 7170, NGC ID# 254X, CoinPlex ID# M\$M1886S

- 6155 1886-S MS65 NGC.** A semiprooflike Gem, this representative is from a lower mintage and better date San Francisco issue. Crisply struck and close to brilliant, with only minor abrasions appearing in the field and none affecting Liberty's face. NGC has awarded higher numeric grades to only 18 pieces (11/12). NGC ID# 254X, PCGS# 7170, CoinPlex ID# M\$M1886S

- 6156 1886-S/S MS65 PCGS. VAM-2.** A Top 100 Variety. The mintmark was initially entered with a strong tilt to the right. The die worker entered the mintmark again, this time in the proper position, but the errant serifs from the initial impression remain. Lustrous with light gold toning and scattered small marks. PCGS# 7170, NGC ID# 254X, CoinPlex ID# M\$M1886S

- 6157 1886-S/S MS65 PCGS. VAM-2.** A Top 100 Variety. The mintmark serifs are repunched. The 1886-S is a lower mintage issue and becomes a better date in grades as low as VF. Gems are very scarce. This lustrous and nicely struck example has splendidly smooth surfaces and peripheral peach-gold toning. PCGS# 7170, NGC ID# 254X, CoinPlex ID# M\$M1886S

Gem 1886-S Silver Dollar VAM-2, Top 100

- 6158 1886-S MS65 PCGS. CAC. VAM-2.** A Top 100 Variety. Both serifs of the mintmark are nicely repunched. The variety is undesignated on the PCGS insert. This highly lustrous Gem exhibits golden-brown and apple-green peripheral toning. The fields are beautifully preserved and the strike is good. Faint facial marks are all that limit the grade. PCGS# 7170, NGC ID# 254X, CoinPlex ID# M\$M1886S

MS65 Deep Mirror Prooflike 1886-S/S Dollar

- 6159 1886-S/S MS65 Deep Mirror Prooflike ANACS. VAM-2.** A Top 100 Variety. The mintmark was initially entered with a tilt to the left, then carefully repunched in the proper position. Traces of the serifs remain from the first impression. Due to the low mintage of the 1886-S dollar, however, any die variety is desirable, especially as a Gem with flashy fields. Sharply struck and exceptionally unabraded with vibrant luster and peripheral lilac-red and forest-green toning.
From The Steve Reed Collection. NGC ID# 254X, PCGS# 97171, CoinPlex ID# M\$M1886SDMPL

Prooflike Gem 1887/6 Morgan

- 6160 1887/6 MS65 Prooflike PCGS. VAM-2.** A Top 100 Variety. A curved remnant of the base of a 6 underdigit is visible on both sides of the base of the 7. Long entrenched in the *Guide Book*, the variety is very scarcer with a prooflike finish. The present stone-white and flashy Gem is nicely struck and offers beautifully preserved fields. Population: 15 in 65 Prooflike, 2 finer (12/12). *From The Steve Reed Collection.* PCGS# 7175, NGC ID# 254Z, CoinPlex ID# M\$M1887OVR6PL

Partial E Clash, VAM-1B Hot 50 1887 Silver Dollar, AU53

- 6161 1887 Partial E Reverse AU53 PCGS. VAM-1B, R.6.** A Hot 50 Variety. A partial E from LIBERTY is clashed left of the wreath bow. This category of clash is of great interest to Morgan dollar specialists. The borders display attractive peach-red toning. Two thin marks are noted in front of the mouth and on Liberty's jaw and neck. This elusive VAM is virtually unknown in Mint State. Population: 3 in 53, 3 finer (12/12). PCGS# 134003

1887 Dollar, MS67 Prooflike Among the Finest Certified

- 6162 1887 MS67 Prooflike NGC.** The Prooflike fields of this Superb Gem display noticeable contrast with the motifs, especially when the coin is rotated slightly beneath a light source. Sharply struck design elements, including virtually full central detail, further enhances the coin's overall appearance. A couple of minor grazes on Liberty's cheek do not disturb in the least. Census: 6 in 67 Prooflike, 0 finer (12/12). *From The Steve Reed Collection.* NGC ID# 254Y, PCGS# 7173, CoinPlex ID# M\$M1887PL

Near-Mint 1887/6-O Dollar

- 6163 1887/6-O MS64 PCGS. VAM-3.** A Top 100 Variety. Discovered later than the 1887/6, the 1887/6-O is scarcer, especially in better Mint State grades. This lustrous near-Gem has glimpses of butter-gold near the rims but is primarily toned dusky silver-gray. The strike is good and no marks are distracting. *From The Steve Reed Collection.* PCGS# 7178, NGC ID# 2553, CoinPlex ID# M\$M18876O

- 6164 1887-O MS65 PCGS.** The obverse of this Gem includes an attractive assortment of apricot, ice-blue, russet, bright green, and lilac hues. The reverse remains almost entirely untuned. Well-struck and minimally abraded, this is a lovely example. NGC has awarded higher numeric grades to a mere 3 pieces (11/12). PCGS# 7176, NGC ID# 2552, CoinPlex ID# M\$M1887O

- 6165 1887-O MS64 Deep Mirror Prooflike PCGS. CAC.** A flashy and virtually brilliant New Orleans dollar. Smooth for the grade despite minor hairlines on the field near the left (facing) wing. The centers show moderate softness typical for the Southern facility. Housed in a green label holder. PCGS# 97177, NGC ID# 2552, CoinPlex ID# M\$M1887ODMPL

- 6166 1887-S MS65 NGC. VAM-2A.** A Top 100 Variety. The mintmark is blatantly repunched within the loops. A trace of honey-gold toning visits this fully struck Gem. Dynamic luster sweeps nearly pristine fields. A tick on the eagle's belly and minor grazes above the mouth account for the grade. *Ex: Silver Fox Collection (Heritage, 7/2007), lot 1457, which realized \$2,070.* NGC ID# 2554, PCGS# 7180, CoinPlex ID# M\$M1887S

- 6167 1888 MS66 PCGS. CAC.** Broad cartwheel luster is essentially silver with just a hint of frostiness. The hair over Liberty's ear is softly struck, but the detail is better elsewhere. PCGS# 7182, NGC ID# 2555, CoinPlex ID# M\$M1888

Superb Gem 1888 Morgan Dollar No Finer Examples at PCGS

- 6168 1888 MS67 PCGS.** From a huge mintage of more than 19 million pieces, the 1888 Morgan dollar is a plentiful issue in lower grades, but Superb Gems are very scarce, and finer specimens are virtually unobtainable. This magnificent example is sharply detailed throughout, with vibrant mint luster and brilliant unmarked surfaces. Population: 16 in 67, 0 finer (12/12). PCGS# 7182, NGC ID# 2555, CoinPlex ID# M\$M1888

**Premium Gem 1888 Morgan
Deep Mirror Prooflike**

- 6169 1888 MS66 Deep Mirror Prooflike NGC.** Gorgeous contrast appears between the fields and the devices on this Premium Gem. The bright piece exhibits a few hints of champagne color. Overall, this example displays minimal contract marks. An as-made planchet streak, most visible near the eagle's neck, runs across the reverse. Census: 7 in 66 Deep Mirror Prooflike, 3 finer (11/12).
Ex: M.L. Moser Collection, #1 NGC Morgan Dollar Set. NGC ID# 2555, PCGS# 97183, CoinPlex ID# M\$M1888DMPL

- 6170 1888-O MS66 PCGS.** The well-preserved surfaces of this delightful Premium Gem are brightly lustrous, with just a few touches of light gold toning. The design elements are well-detailed and eye appeal is quite strong. PCGS# 7184, NGC ID# 2556, CoinPlex ID# M\$M1888O

- 6171 1888-O MS66 PCGS Secure.** This well-struck Premium Gem exhibits attractive luster. Areas of toning are concentrated at the rims. Among the colors present are russet, vibrant orange, lemon, hot pink, bright turquoise, and plum. PCGS has not awarded a higher numeric grade to a single example (12/12). PCGS# 7184, NGC ID# 2556, CoinPlex ID# M\$M1888O

**Impressive 1888-O Deep Mirror Prooflike Dollar, MS66
Tied for Finest Known**

- 6172 1888-O MS66 Deep Mirror Prooflike NGC.** This amazing, well-struck 1888-O dollar displays fully brilliant obverse and reverse surfaces with deeply mirrored fields and satiny silver devices. This is an extremely rare issue in deep mirror prooflike format, with neither NGC nor PCGS having awarded a higher numeric grade to a single example (11/12) and this piece is tied with only three others for finest known at NGC.
From The Steve Reed Collection. NGC ID# 2556, PCGS# 97185, CoinPlex ID# M\$M1888ODMPL

- 6173 1888-SMS65 ★ NGC.** The sharply struck obverse has flashy, deeply reflective mirrors, while the reverse displays vibrant cartwheel luster. Nicely struck and mostly brilliant through the right borders show lilac shades. NGC has graded only 13 numerically finer pieces (12/12).
Ex: Long Beach Signature (Heritage, 3/2008), lot 2533, which realized \$2,300. NGC ID# 2557, PCGS# 7186, CoinPlex ID# M\$M1888S

Prooflike Premium Gem 1889 Morgan

- 6174 1889 MS66 Prooflike NGC.** This piece displays flashy, untuned surfaces that provide tremendous eye appeal. The design elements exhibit a bold strike. Uncirculated 1889 silver dollars will always be plentiful, however Prooflike pieces are scarce, and Gems with reflective fields are undeniably rare. Census: 3 in 66 Prooflike, 0 finer (11/12).
From The Steve Reed Collection. NGC ID# 2558, PCGS# 7189, CoinPlex ID# M\$M1889PL

**1889 Morgan Dollar, MS66 Prooflike
Beautiful Silver-White Surfaces
One of the Four Finest**

- 6175 1889 MS66 Prooflike NGC.** Beautiful silver-white surfaces with their mild field-motif contrast stand out on this Premium Gem Prooflike Morgan. Prooflike examples of the 1889 are uncommon, especially in the lofty grade of Premium Gem. Indeed, NGC and PCGS combined have graded only four MS66 coins in this finish and none finer.
From The Steve Reed Collection. NGC ID# 2558, PCGS# 7189, CoinPlex ID# M\$M1889PL

- 6176 1889-CC VF30 PCGS.** A moderately worn example of this important issue. The gray-gold surfaces display some handling marks consistent with time spent in circulation. PCGS# 7190, NGC ID# 2559, CoinPlex ID# M\$M1889CC

- 6177 1889-CC VF30 PCGS.** An attractive midrange piece with a strong "outlining" effect with deep gold-influenced charcoal shadings around medium-gray devices. A handful of light abrasions affect the portrait and fields, but the eye appeal is strong. A great choice for this key date. PCGS# 7190, NGC ID# 2559, CoinPlex ID# M\$M1889CC

- 6178 1889-CC XF40 ANACS.** Splashes of buff and gold color, primarily on the reverse, provide this piece with attractive highlights. Moderate wear appears consistent with the grade, and there are a number of minor, scattered marks. This is an appealing collector-grade example of one of the key dates in the series and is housed in a small-format ANACS holder. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

- 6179 1889-CC — Environmental Damage — NGC Details. AU.** Rarest of the Carson City Morgans, the 1889-CC is typically encountered in VF condition. The present AU example is sharply defined but the obverse is minutely pitted throughout from exposure to the elements.
From The J.D. Tanner Collection. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

Near-Mint 1889-CC Morgan Dollar
Most Elusive Carson City Morgan

6180 1889-CC AU58 NGC. The irrelevant mintage of the 1889-CC is given as 350,000 pieces, but it appears that most were melted later, either at Carson City or perhaps in the Pittman Act furnaces. What is *highly* relevant today, however, is the popularity of the issue with legions of Morgan dollar collectors, as the foremost and undisputed key to the Carson City series. Low-grade pieces abound, along with some remarkable high-grade Mint State specimens, including Prooflike or even Deep Mirror Prooflike examples. But problem-free pieces in the higher circulated grades can prove quite a challenge for budget-minded series fans.

The present coin is an attractive near-Mint specimen with just a touch of wear on the high points of the sharply detailed design elements. The lightly marked surfaces show a combination of satiny mint luster and prooflike reflectivity, with exceptional eye appeal for the grade.

From *The Teich Family Collection*. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

Uncirculated 1889-CC Silver Dollar

6181 1889-CC MS61 ANACS. VAM-3. Designated by VAM on the ANACS insert, VAM-3 has a far date obverse and a series of die cracks on the upper reverse legends. Unlike most Carson City Morgan dollar issues, the 1889-CC was a no show in the GSA auctions, and also failed to emerge in quantity from the Redfield holdings. The 1881-CC and 1885-CC have lower mintages but are common in Mint State relative to the elusive 1889-CC, which is typically encountered as a cleaned XF. The present Uncirculated example is silver-gray with glimpses of straw-gold. The strike is intricate for the Western facility and marks are surprisingly minimal, though the surfaces lack the luster associated with higher grades. An opportunity to acquire a fully detailed example for an affordable price. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

**1889-O Morgan Dollar, MS65
Only Nine Finer at PCGS**

6182 1889-O MS65 PCGS. Ex: The Shrike Set. Although the hair over Liberty's ear shows typical weakness, the overall strike of this Gem New Orleans Morgan dollar is finer than usual. This piece has fully brilliant satin luster with silver-white surfaces and trivial marks of no consequence. A lovely example. PCGS has only certified nine finer specimens (12/12). PCGS# 7192, NGC ID# 255A, CoinPlex ID# M\$M1889O

6183 1889-S MS65 PCGS. A lovely Gem representative of this low-mintage issue, this example displays sharply detailed design elements and vibrant cartwheel mint luster along with hints of lilac on the obverse. Only a few minor obverse contact marks prevent an even higher grade. PCGS# 7194, NGC ID# 255B, CoinPlex ID# M\$M1889S

6184 1889-S MS65 NGC. The lovely surfaces on this Gem 1889-S are far above-average, somewhat prooflike and highly reflective, with faint rose hues. The surfaces exhibit only minor marks. NGC has awarded higher numeric grades to only 26 examples (11/12). From *The Richmond Hill Collection*. NGC ID# 255B, PCGS# 7194, CoinPlex ID# M\$M1889S

**1889-S Morgan Dollar, MS65 Deep Mirror Prooflike
Tied for Finest Certified at NGC**

6185 1889-S MS65 Deep Mirror Prooflike NGC. According to Mint records, only 700,000 Morgan dollars were struck at the San Francisco Mint in 1889, and examples in Gem condition, with Deep Mirror Prooflike surfaces, are extremely rare. This incredible Gem displays startling contrast between the deeply mirrored fields and the well-detailed frosty devices, with just a few minor contact marks discernible on close inspection. Census: 2 in 65 Deep Mirror Prooflike, 0 finer (11/12). From *The Steve Reed Collection*. NGC ID# 255B, PCGS# 97195, CoinPlex ID# M\$M1889SDMPL

6186 1890 MS65 PCGS. This sharply detailed Gem displays brilliant surfaces, with vibrant mint luster and few signs of contact. PCGS has certified only a single coin in a higher numeric grade (12/12). PCGS# 7196, NGC ID# 255C, CoinPlex ID# M\$M1890

6187 1890 MS65 PCGS. The 1890 Morgan dollar is easy to locate in Mint State, but most examples are softly struck, with subdued luster. This delightful Gem is a welcome exception as it exhibits vibrant luster and well-detailed devices. Nearly uncollectible any finer. PCGS# 7196, NGC ID# 255C, CoinPlex ID# M\$M1890

6188 1890 MS65 NGC. The 1890 Morgan dollar is a prime condition rarity in grades above the Gem level. This lovely Gem is well-detailed and lustrous. Wisps of orange-gold color appear on the obverse along with faint spots of sage-green and orange-brown. The reverse displays subtle shadings of green and lavender. NGC and PCGS combined have graded only six numerically finer examples (11/12).

From *The Steve Reed Collection*. NGC ID# 255C, PCGS# 7196, CoinPlex ID# M\$M1890

6189 1890 MS65 PCGS. CAC. Colorful with green-gold and blue shadings enriching the obverse and even more eye-popping toning in similar hues over the reverse. Well-preserved with swirling luster, and a condition rarity any finer. PCGS# 7196, NGC ID# 255C, CoinPlex ID# M\$M1890

**Gem Deem Mirror Prooflike 1890 Morgan Dollar
Rarely Encountered**

6190 1890 MS65 Deep Mirror Prooflike NGC. The crisply struck devices display impressive cameo frost, and the mirrored fields confirm the DMPL designation. Further, Liberty's cheek and neck are undisturbed. Stone-white, with nary a wisp of toning. The 1890 is a high mintage issue and is common in typical Mint State grades, but Gems are rare, with or without reflective fields. Deep Mirror Prooflike Gems are extremely rare. The population data has not changed since this coin appeared at auction in 2005. Census: 2 in 65 Deep Mirror Prooflike, 0 finer (11/12).

Ex: *ANA San Francisco Signature (Heritage, 7/2005)*, lot 6870. From *The Steve Reed Collection*. NGC ID# 255C, PCGS# 97197, CoinPlex ID# M\$M1890DMPL

6191 1890-CC Tail Bar MS62 PCGS. VAM-4, R.5. A Top 100 Variety. One of the few VAMs that can be identified with the unaided eye, due to the "huge die gouge" (per VAMworld.com) beneath the left end of the tailfeathers. This lustrous Carson City dollar has a good strike and clean fields. A glimpse of ruby-red toning adorns the upper obverse border. PCGS# 87198, CoinPlex ID# M\$M1890CCTB

- 6192 1890-CC MS64 PCGS. CAC.** Blazing luster, a sharp strike, brilliant surfaces, and clean fields combine to provide irrefutable eye appeal. Minor grazes on the cheek are suitable for the grade. The 1890-CC appeared less often in the GSA sales than most of the Carson City Morgan issues. Housed in a green label holder.
Ex: Denver Signature (Heritage, 8/2006), lot 3015, which realized \$1,955. PCGS# 7198, NGC ID# 255D, CoinPlex ID# M\$M1890CC

**1890-CC Gem Dollar
Very Rare Any Finer**

- 6193 1890-CC MS65 PCGS.** Dusky golden-gray patination blushed with whispers of yellow-green and red runs over both sides of this Gem, each of which displays soft luster. This well struck piece shows partial delineation in the hair over Liberty's ear. Close examination reveals no significant marks. Very rare any finer. PCGS# 7198, NGC ID# 255D, CoinPlex ID# M\$M1890CC

- 6194 1890-O MS65 PCGS.** A very attractive Gem, this piece exhibits bright cartwheel luster and a well-executed strike. The surface marks consist primarily of grazes and they do little to diminish the tremendous eye appeal of this coin. Only 19 examples have achieved higher numeric grades from PCGS (12/12). PCGS# 7200, NGC ID# 255E, CoinPlex ID# M\$M1890O

- 6195 1890-O MS65 PCGS. CAC.** The 1890-O Morgan dollar is an elusive date in Gem condition, and finer specimens are quite rare and expensive. This example is softly struck at the extreme centers, but the details are well-defined elsewhere. Muted and iridescent toning in a range of colors appears on both sides. PCGS# 7200, NGC ID# 255E, CoinPlex ID# M\$M1890O

- 6196 1890-O MS65 PCGS. CAC.** Bright, lustrous surfaces along with hints of lilac provide this Gem with a lovely appearance. Contact marks appear on both sides and a small strike-through area appears near 12 o'clock on the obverse. PCGS has assigned higher numeric grades to only 19 pieces (11/12). PCGS# 7200, NGC ID# 255E, CoinPlex ID# M\$M1890O

**Premium Gem 1890-O Dollar
Beautifully Struck**

- 6197 1890-O MS66 NGC.** This Premium Gem exhibits tremendous eye appeal and has a far finer strike than is usually encountered on the 1890-O, with nearly full hair detail over the ear. Both sides are brilliant with satiny silver luster and are untoned. Very few contact marks appear. This attractive piece is tied for the finest certified. Census: 3 in 66, 0 finer (11/12).
From The Steve Reed Collection. NGC ID# 255E, PCGS# 7200, CoinPlex ID# M\$M1890O

**1890-O MS65 Prooflike Dollar
Only Two Finer**

- 6198 1890-O MS65 Prooflike PCGS.** The 1890-O dollar is scarce in the better grades of Mint State with a Prooflike finish. The striking is often soft on the Prooflike examples, however this coin displays only a minor degree of softness in the design. The piece is pleasingly mirrored for the issue, minimally toned, and is a gleaming, gorgeous Gem. PCGS and NGC have awarded higher numeric grades to only 2 examples combined. Population: 21 in 65 Prooflike, 1 finer (11/12). PCGS# 7201, NGC ID# 255E, CoinPlex ID# M\$M1890OPL

**1890-O Dollar, MS65 Deep Mirror Prooflike
Sharply Struck and Contrasted**

- 6199 1890-O MS65 Deep Mirror Prooflike NGC.** The deep mirrored fields highlight the motifs of this Gem at all angles. The only toning clings to the margins and consists of light magenta and cobalt-blue. A solid strike emboldens the design elements, including the hair over the ear and the breast feathers. This is a very handsome piece. Census: 10 in 65 Deep Mirror Prooflike, 0 finer (12/12).
From The Steve Reed Collection. NGC ID# 255E, PCGS# 97201, CoinPlex ID# M\$M1890ODMPL

- 6200 1890-S MS65+ PCGS. CAC.** Lightly frosted on the devices with smooth, bright cartwheel luster around. Essentially untuned and carefully preserved even by Gem standards. PCGS# 7202, NGC ID# 255F, CoinPlex ID# M\$M1890S

- 6201 1891 MS64+ PCGS. CAC. VAM-2.** A Top 100 Variety. Liberty's ear is clearly die doubled. The variety is undesignated on the holder. This stone-white near-Gem is thoroughly lustrous and is smooth save for minor grazes on the left obverse. PCGS# 7204, NGC ID# 255G, CoinPlex ID# M\$M1891

**1891 Morgan, MS65
Attractively Toned**

6202 1891 MS65 PCGS. The 1891 Morgan is a scarce issue in high grades, despite a mintage of more than 8.5 million coins. Arcs of vibrant, iridescent rainbow colors appear on both sides of this Gem. PCGS and NGC combined have awarded higher numeric grades to a mere 5 examples (12/12). PCGS# 7204, NGC ID# 255G, CoinPlex ID# M\$M1891

6203 1891 MS63 Deep Mirror Prooflike ANACS. Silver interiors with gold rims and an additional arc of blue at the top of the reflective obverse. Frosted devices complete the Deep Mirror Prooflike appearance. Housed in a small-format holder. NGC ID# 255G, PCGS# 97205, CoinPlex ID# M\$M1891DMPL

6204 1891-CC MS64 PCGS. CAC. A sharply detailed near-Gem from the famous Carson City Mint, this coin displays creamy unmarked surfaces, suggestive of a higher grade. Vibrant mint luster adds to the terrific eye appeal. PCGS# 7206, NGC ID# 255H, CoinPlex ID# M\$M1891CC

6205 1891-CC MS64 PCGS. CAC. The untuned surfaces of this near-Gem display well struck design elements and pleasing luster. Some scattered light grazes determine the grade. PCGS# 7206, NGC ID# 255H, CoinPlex ID# M\$M1891CC

6206 1891-CC MS64+ PCGS. CAC. VAM-3. A Top 100 Variety. The popular "Spitting Eagle" variety, perhaps of greater numismatic interest for its lightly repunched mintmark and minor die doubling on Liberty's profile. The 1891-CC is scarcer than the 1882 through 1884 run of Carson City issues. The present near-Gem is lustrous with light gold toning and minor facial grazes. PCGS# 7206, NGC ID# 255H, CoinPlex ID# M\$M1891CC

Gem 1891-CC Morgan Dollar

6207 1891-CC MS65 PCGS. Bright, lightly frosty surfaces with subtle hints of peach toning provide eye appeal to this Gem. The coin is well-struck, including the center areas. Contact marks appear on both sides of this piece. Only 29 examples have received higher numeric grades from PCGS (12/12). PCGS# 7206, NGC ID# 255H, CoinPlex ID# M\$M1891CC

Patinated Gem 1891-CC Dollar

6208 1891-CC MS65 PCGS. VAM-3. A Top 100 Variety. The "Spitting Eagle" though undesignated as such on the PCGS insert. Deeply dappled sea-green, lavender, and golden-brown colors embrace this well struck later date Carson City Dollar. The lustrous fields are undisturbed. Carefully preserved, and not often encountered as a fully toned Gem.

Ex: Palm Beach Signature (Heritage, 11/2004), lot 9719, which realized \$3,910.

From The Steve Reed Collection. PCGS# 7206, NGC ID# 255H, CoinPlex ID# M\$M1891CC

**1891-CC Morgan Dollar
Rare Choice Deep Mirror Prooflike Example**

6209 1891-CC MS64 Deep Mirror Prooflike NGC. The richly frosted design elements of this impressive Choice example stand out boldly against the deeply reflective prooflike fields, creating a high degree of field/device contrast not usually seen on the 1891-CC. A few hints of apple-green and lavender patina add to the outstanding eye appeal. Census: 23 in 64 Deep Mirror Prooflike, 1 finer (12/12). NGC ID# 255H, PCGS# 97207, CoinPlex ID# M\$M1891CCDMPL

**1891-O Morgan Dollar, MS65
Above-Average Strike
Rare Any Finer**

6210 1891-O MS65 PCGS. The typical 1891-O Morgan dollar shows extreme weakness over Liberty's ear, but this particular Gem displays at least partial detail. Both sides are untuned and fully lustrous, and just a few minute grazes occur on Liberty's cheek. The 1891-O is available through near-Gem; Gems are more difficult to locate, and finer specimens are virtually unobtainable. Population: 87 in 65 (1 in 65+), 0 finer (12/12). PCGS# 7208, NGC ID# 255J, CoinPlex ID# M\$M1891O

- 6211 1891-S MS65 ★ NGC. CAC.** Rich frost on the central devices is key to this Gem's Star-designated eye appeal. Flashy luster around has considerable reddish-orange toning draping much of the peripheral zones. NGC ID# 255K, PCGS# 7210, CoinPlex ID# M\$M1891S

Lovely Premium Gem 1891-S Dollar

- 6212 1891-S MS66 PCGS Secure.** Although the 1891-S Morgan can be located with little difficulty through the Gem level, Premium Gems are scarce, and higher-grade coins are extremely rare. This well-preserved piece exhibits blazing luster on the untuned surfaces. The design elements display strong detail, including the hair over the ear and the eagle's breast feathers. Population: 57 in 66 (1 in 66+), 7 finer (11/12). PCGS# 7210, NGC ID# 255K, CoinPlex ID# M\$M1891S

- 6213 1891-S MS64 Deep Mirror Prooflike NGC.** Dazzling field reflectivity and a sharp strike ensure the eye appeal of this San Francisco near-Gem. The borders display caramel-gold and navy-blue patina. Housed in a former generation holder. Census: 34 in 64 Deep Mirror Prooflike, 6 finer (12/12). *From The Steve Reed Collection.* NGC ID# 255K, PCGS# 97211, CoinPlex ID# M\$M1891SDMPL

Beautifully Toned Gem 1892 Morgan Dollar

- 6214 1892 MS65 PCGS.** Attractive toning rings both sides of this bright and appealing Gem. The colors are more pronounced on the obverse and display many shades of the rainbow, including a gorgeous shimmering sea-green. Only three examples have received higher numeric grades from PCGS (11/12). *From The Steve Reed Collection.* PCGS# 7212, NGC ID# 255L, CoinPlex ID# M\$M1892

**1892 Silver Dollar, MS65
Faint Gold Toning**

- 6215 1892 MS65 PCGS. CAC.** After years of large-scale silver dollar production, Philadelphia began to reduce mintage of the denomination in 1892, a trend that would continue through 1895. The 1892 is a better date in Mint State and very scarce as a Gem. This lustrous example is minimally toned and nicely struck. Only minor grazes preclude a finer grade. Housed in an old green label holder. PCGS# 7212, NGC ID# 255L, CoinPlex ID# M\$M1892

- 6216 1892 MS63 Deep Mirror Prooflike PCGS.** Mint State 1892 Morgan dollars are scarce; Gems are rare, and Deep Mirror Prooflike pieces are far more elusive. The fields are highly reflective on this example and the devices display frost. Contact marks appear on both sides. The obverse exhibits the usual incompleteness of strike over Liberty's ear. Population: 14 in 63 Deep Mirror Prooflike, 31 finer (12/12). *From The Steve Reed Collection.* PCGS# 97213, NGC ID# 255L, CoinPlex ID# M\$M1892DMPL

**Choice 1892 Morgan Dollar
Rare Deep Mirror Prooflike Example**

- 6217 1892 MS64 Deep Mirror Prooflike PCGS.** From a smallish mintage of just over 1 million pieces, the 1892 Morgan dollar is seldom encountered with Deep Mirror Prooflike surfaces. This well-detailed Choice example features richly frosted design elements that show a high degree of contrast with the deeply reflective fields. Population: 26 in 64 Deep Mirror Prooflike, 5 finer (12/12). PCGS# 97213, NGC ID# 255L, CoinPlex ID# M\$M1892DMPL

- 6218 1892-CC MS62 NGC.** The two in the date looks slightly doubled on this sharply detailed Morgan dollar, but there is also an artifact between the bottom of the 2 and the upper loop, with some interesting die cracks through the stars on the right. The surfaces are mostly brilliant, with a few hints of golden-brown toning. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

- 6219 1892-CC MS62 NGC.** Lustrous surfaces show well defined design elements and are devoid of toning. Scattered obverse marks limit the grade. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

- 6220 1892-CC MS62 NGC.** Luminous untuned surfaces exhibit fairly strong detail in the hair over Liberty's ear and on the breast feathers, though the leg feathers are inexact. Grazes on Liberty's cheek and neck determine the grade. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

6221 1892-CC MS63 NGC. VAM-4B. The mintmark is repunched and the letter N from IN is multiply clashed near Liberty's neck. Lustrous and nearly brilliant with a smooth reverse and wispy grazes on the left obverse.

From The Richmond Hill Collection. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

6222 1892-CC MS63 NGC. An attractive Select specimen, with well-detailed design elements that show the typical softness on the hair above the ears, this coin displays lightly marked surfaces, with traces of lilac toning. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

6223 1892-CC MS63 NGC. Light frost sparkles on the high points of the devices. Interiors are silver with only a couple of small dots of deep toning for exceptions. A great late-date Carson City dollar. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

6224 1892-CC MS63 PCGS. CAC. VAM-8A. This VAM has a double clashed N from IN in front of Liberty's neck, and the 2 in the date features a large die chip. A highly lustrous better date Carson City dollar. The strike is good and no marks are of singular consequence. Housed in a first generation holder. PCGS# 7214, NGC ID# 255M, CoinPlex ID# M\$M1892CC

6225 1892-CC MS64 NGC. VAM-8A. The die state with the N in IN clashed in front of Liberty's neck. A brilliant and lustrous scarcer date Carson City Morgan with unusually mark-free surfaces for the MS64 level. The strike is good despite slight blending at the centers. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

**1892-CC Dollar, MS64+
Brilliant and Intensely Lustrous**

6226 1892-CC MS64+ NGC. This 1892-CC is certainly atypical for the issue, one that is known for abundant abrasions. Each side is remarkably clean for a CC dollar, and especially for this issue. Additionally, both sides are completely brilliant and show the high degree of mint frost that is characteristic of Carson City dollars. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

**Choice 1892-CC Silver Dollar
Repunched Mintmark, VAM-4B**

6227 1892-CC MS64 NGC. CAC. VAM-4B. The diagnostics for this VAM include a multiply clashed N in IN, and a tilted field die break at the top of the first S in STATES. The second C in the mintmark is sharply repunched. A hint of rose-gold toning adds to the visual appeal of this nearly brilliant coin.

From The Richmond Hill Collection. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

**1892-CC Silver Dollar, MS64
Absent from GSA Sales**

6228 1892-CC MS64 PCGS. CAC. A brilliant near-Gem with flashy fields and a crisp strike. The centers display only a hint of incompleteness of strike, and the only mark worthy of mention is located on the chin. The vast GSA hoard greatly increased demand for Carson City Morgan dollars, but since the '92-CC was absent from the GSA offerings, the supply of quality examples is limited. PCGS# 7214, NGC ID# 255M, CoinPlex ID# M\$M1892CC

**1892-CC Dollar, MS65
Challenging Any Finer**

6229 1892-CC MS65 PCGS. Pleasing luster shows through the layer of medium intensity gray, grayish-violet, and greenish-yellow toning. The design features are well brought up. A few minute marks are concealed within the toning. Faint horizontal roller marks are barely visible in the hair above Liberty's ear. This issue is challenging any finer. PCGS# 7214, NGC ID# 255M, CoinPlex ID# M\$M1892CC

Gem 1892-CC Morgan Dollar

- 6230 1892-CC MS65 NGC. CAC.** High-grade examples of the 1892-CC Morgan dollar are scarce today, due at least in part to the fact that the Treasury releases of the 1960s did not include as many pieces as some other Carson City issues. This attractive Gem displays sharp details, vibrant mint luster, and brilliant surfaces that exhibit only a few minor contact marks. PCGS has graded 25 numerically finer examples (11/12). NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

- 6231 1892-S AU50 PCGS.** This lightly circulated better-date dollar has faint almond-gold toning and substantial luster. Wispy field abrasions are noted, but no marks merit individual mention. Certified in an older generation holder. PCGS# 7218, NGC ID# 255P, CoinPlex ID# M\$M1892S

Important Borderline Uncirculated 1892-S Morgan

- 6232 1892-S AU58 NGC.** One of the most notable condition rarities in the Morgan dollar series, the 1892-S starts the AU range as an ordinary date at the AU50 level but is genuinely scarce by the near-Mint or AU58 state. This lightly toned example displays a pale pink hue and just a trace of friction on its softly struck high points. The fields retain bold reflectivity and both sides exhibit minimal minor abrasions. Only 45 examples have received higher grades from NGC (11/12). NGC ID# 255P, PCGS# 7218, CoinPlex ID# M\$M1892S

- 6233 1892-S Doubled Date AU50 PCGS. VAM-2.** A Top 100 Variety. Any 1892-S dollar in AU is a find, but VAM-2 is the best for the issue, as it shows clear repunching on the date. The present piece has substantial luster, medium olive-gold toning, and a broad mark on Liberty's neck. Population: 8 in 50, 6 finer (12/12). PCGS# 133941

- 6234 1893 MS64 PCGS.** The obverse is dusky sun-gold and stone-gray, but the reverse exhibits vibrant electric-blue, plum-red, and peach-gold patina. Lustrous and nicely struck. A lower mintage Philadelphia issue. Encased in a green label holder. PCGS# 7220, NGC ID# 255R, CoinPlex ID# M\$M1893

- 6235 1893 MS64 PCGS. CAC. VAM-2.** The peak of the 3 is repunched. Liberty's chin and lips are lightly die doubled. A thoroughly lustrous near-Gem of this low mintage Philadelphia issue. Minimally abraded, even by the demanding standards of the MS64 level. PCGS# 7220, NGC ID# 255R, CoinPlex ID# M\$M1893

Gem 1893 Morgan Dollar Brilliant Surfaces

- 6236 1893 MS65 PCGS. CAC.** A well-struck, better date silver dollar with brilliant surfaces that display blazing cartwheel luster. A few minor grazes do little to detract from the eye appeal of this gorgeous Gem. PCGS and NGC have each only awarded higher numeric grades to 3 examples (12/12). PCGS# 7220, NGC ID# 255R, CoinPlex ID# M\$M1893

Fully Brilliant MS65+ 1893 Dollar

- 6237 1893 MS65+ PCGS. CAC.** Fully brilliant, this Morgan dollar is a lovely representative of a difficult year in the series. The Philadelphia Mint product is more plentiful than any of the branch mint issues for this date, yet it is still elusive in high grades. This high-end Gem example displays light silver surfaces with a sharp strike, minor contact marks, and no evidence of toning. PCGS and NGC combined have assigned higher numeric grades to only 6 pieces (12/12). PCGS# 7220, NGC ID# 255R, CoinPlex ID# M\$M1893

**1893 Morgan Dollar, MS62
Rare Deep Mirror Prooflike Example**

6238 1893 MS62 Deep Mirror Prooflike ANACS. The 1893 Morgan dollar is an elusive date in the context of the series, due to the small mintage of 378,000 pieces. Production totals were down at all the U.S. mints in 1893, and the coins were not well-produced, as a general rule. The 1893 is known for weak strikes and excessive bagmarks, and the issue is particularly rare with prooflike surfaces.

The present coin is a welcome exception to the rule, as the design elements are well-detailed and the surfaces show a scattering of minor contact marks, all consistent with the grade. The fields are deeply reflective, in contrast to the frosty devices, and display hints of champagne-gold and lavender toning. We expect spirited competition from series enthusiasts when this lot is called.

From The Steve Reed Collection. NGC ID# 255R, PCGS# 97221, CoinPlex ID# M\$M1893DMPL

**1893-CC Morgan, MS61
Semikey Date With Vibrant Luster**

6239 1893-CC MS61 NGC. A semi-key Carson City dollar, this coin possesses vibrant luster and only a hint of golden toning at the outer edges. The reverse is well-preserved and the obverse displays the many small marks associated with the MS61 level. The centers exhibit a typical strike. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

Lovely MS62 1893-CC Dollar

6240 1893-CC MS62 NGC. This semi-key Carson City dollar possesses vibrant luster and exhibits only the faintest hint of rose toning. The reverse is well preserved, while the obverse displays the many small marks and grazes associated with this grade level. The centers exhibit a typical strike. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

**1893-CC Morgan, MS63
Semiprooflike Appearance**

6241 1893-CC MS63 NGC. This semi-key Carson City dollar displays highly reflective fields and lightly frosted devices that provide attractive contrast and lead to a semiprooflike appearance. The usual incompleteness of strike appears at the centers. Minor surface marks held this lovely example from a higher grade. *From The Richmond Hill Collection.* NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

**Choice-CC 1893 Morgan Dollar
Dark Multicolor Toning**

- 6242 1893-CC MS64 PCGS.** This impressive Choice Morgan dollar represents the last year of coinage at the Carson City Mint, with a mintage of just 677,000 pieces. The lightly marked surfaces are darkly toned in shades of green, gray, crimson, and blue, with vibrant mint luster under the patina. PCGS has graded only 11 numerically finer examples (12/12). PCGS# 7222, NGC ID# 255S, CoinPlex ID# M\$M1893CC

1893-O Dollar, MS62

- 6243 1893-O MS62 PCGS.** The 1893-O Morgan dollar is a low-mintage issue that is seldom encountered in high grade. The gray patina mutes the luster somewhat on the obverse, but the reverse remains brilliant and reflective. This example displays more detail than often seen, however there is minor softness at the centers. The piece is minimally abraded other than a long scratch to the right of Liberty. PCGS# 7224, NGC ID# 255T, CoinPlex ID# M\$M1893O

- 6244 1893-S AG3 PCGS.** The 1893-S is the most elusive business-strike issue of the Morgan dollar series, and even well-worn examples are avidly collected by series enthusiasts. The rims are worn flat in places on this example, but the date, mintmark, and major design features remain intact, at least in outline form. A small area of rim damage appears near 11 o'clock on the reverse. This piece could potentially be a candidate for a low-ball Registry Set. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

- 6245 1893-S Good 6 PCGS.** Rich peach overtones infuse the medium-gray surfaces of this well-worn but readily collectible key-date dollar. The rims are on the verge of merging in places, but the date and mintmark remain clear. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

- 6246 1893-S — Reverse Graffiti — NGC Details. VG.** A few faint letters are lightly and inconspicuously pincratched on the field between STATES and IN GOD WE TRUST. One small obverse rim ding is noted at 4 o'clock and both sides are lightly hairlined. A cream-gray representative of this desirable key date. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

**1893-S Morgan Dollar, VG10
Nice Surfaces for Grade**

- 6247 1893-S VG10 PCGS.** The fields and interstices of this Choice VG key date Morgan display light bluish-gray toning that highlight the lighter silver-gray design elements. This is an appropriately detailed example that shows no more marks than might be expected for a large, heavy silver coin that saw moderate to heavy circulation. It will fit comfortably in a low- to mid-grade Morgan dollar set. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

Fine Details 1893-S Dollar

- 6248 1893-S — Obverse Scratched — NGC Details. Fine.** Although its obverse is stone-gray, the present key date dollar exhibits almond-gold and powder-blue across most of the reverse. Slightly glossy, and a straight thin abrasion on the right obverse field is just deep enough to merit the NGC designation. The 1893-S has the lowest mintage of any business issue of the series, and is much scarcer than its closest competitor, the 1894. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

**1893-S Morgan Dollar, Fine 12
Evenly Worn, Attractive Surfaces**

- 6249 1893-S Fine 12 NGC.** Although most Morgan dollars only experience true demand in top grades, the 1893-S is popular with collectors in all grades, including pieces worn nearly smooth. The design elements display even wear on this coin, retaining all major features and much interior detail intact. This pewter-gray specimen is problem free, save for grade-consistent circulation marks. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

Fine Details 1893-S Dollar

6250 1893-S — Improperly Cleaned — NGC. Fine Details. Both sides are hairlined, but the lower half of the eagle's wings display plentiful plumage. Small marks are distributed, but none are of any significance. Mostly pearl gray though straw-gold visits portions of the margins and motifs. Although cleaned, this coin will complete many business strike sets of the popular 19th century series. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

1893-S Morgan Dollar, Fine 12 Key Business-Strike Issue

6251 1893-S Fine 12 PCGS. CAC. The 1893-S Morgan dollar is the low-mintage business-strike key to the series, and the issue is prized by collectors in all grades and conditions. This well-worn but lightly abraded specimen retains all major design detail in outline, and some interior detail is still intact. The surfaces show pleasing dove-gray patina, with a few hints of lavender and gold. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

Rare 1893-S Dollar, Fine 12 Problem-Free Surfaces

6252 1893-S Fine 12 PCGS. CAC. A worn, but problem-free example of the most sought-after date of the series, this Fine 12 example will be a welcome addition to an otherwise high-grade collection of Morgan dollars. The surfaces are lightly abraded, and display light pinkish-gray patina, with subtle hints of gold. Housed in a first generation holder. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

Choice Fine 1893-S Dollar

6253 1893-S Fine 15 NGC. The 1893-S and the 1894 have similar business strike productions, but since they were struck on opposite coasts, their distributions differed. Many more examples of the 1894 were set aside, both in circulated grades and Mint State. The present 1893-S is generally stone-gray though the margins display butter-gold. The surfaces are unblemished save for a patch of thin marks beneath the base of the left (facing) wing. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

VF Sharpness 1893-S Dollar

6254 1893-S — Improperly Cleaned — NGC Details. VF. A cream-gray representative of the most coveted regular issue Morgan dollar. Many collectors have come close to finishing a business strike collection but lack the 1893-S. This well defined example displays ample glimpses of luster in protected areas. The surfaces are hairlined and a pair of small marks are noted on Liberty's jaw. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

1893-S Dollar, VF20 Details

6255 1893-S — Cleaned — ANACS. VF20 Details. Glimpses of sun-gold toning visit the margins of this predominantly stone-gray key date Morgan dollar. A patch of hairlines is noted on the field near Liberty's forehead, where a prior owner tried to remove an area of natural charcoal-gray toning. A trio of faint hair-thin marks near the ear are of little relevance. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

**1893-S Morgan Dollar, VF Details
Important Key Date**

- 6256 1893-S — Cleaning — PCGS Genuine. VF.** For some reason, the great majority of 1893-S Morgan dollars are found in VF condition. The present coin shows the typical amount of wear for this important key issue, and the surfaces show only minor abrasions, with a few hints of champagne-gold toning. The fields display an unnaturally bright sheen, the result of a light cleaning in the past. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

Series Key 1893-S Morgan, XF40

- 6257 1893-S XF40 PCGS.** A near-perfect Extremely Fine representative of the well-known key to the Morgan dollar series. The surfaces are an attractive gunmetal-gray and retain part of the original luster in the recessed areas. The surface marks are consistent with the grade. The diagnostic die line through the T of LIBERTY is clearly visible. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

Lovely XF40 1893-S Dollar

- 6258 1893-S XF40 PCGS.** Mint luster remains particularly visible in the protected areas of this moderately circulated piece. Although largely gunmetal-gray in color, attractive toning appears on both sides and includes shades of gold and apricot. The surface marks are consistent with the grade. The diagnostic die line through the T of LIBERTY remains visible. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

**1893-S Morgan Dollar, XF40
Better-Than-Average Condition**

- 6259 1893-S XF40 PCGS.** The 1893-S is an important key date, usually found in VF condition. This attractive XF40 specimen is a step up from the typical example seen, with light wear on the design elements and hints of lavender and pale gold toning on the mostly brilliant surfaces. Only minor abrasions are evident and the surfaces retain much of their original mint luster. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

**XF Sharpness 1893-S Dollar
Dusky Gray Toning**

- 6260 1893-S — Improperly Cleaned — NGC Details. XF.** Dusky walnut-brown and stone-gray toning embrace this well defined key date Morgan. No marks are consequential aside from a single hair-thin diagonal pinscratch on the cheek. Mildly cloudy from cleaning but a desirable example to most collectors of this widely held series. *From The J.D. Tanner Collection.* NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

1893-S Dollar, XF Details

- 6261 1893-S — Obverse Scratched, Cleaned — NGC Details. XF.** Medium wheat-gold and cream-gray toning embraces this mildly bright and moderately hairlined key-date silver dollar. A slender scratch on the field near the chin explains the NGC designation. A sharp example with nearly complete plumage definition on the wings. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

Choice XF 1893-S Dollar

- 6262 1893-S XF45 PCGS.** The 1893-S has the lowest mintage of any business issue of the series, and is much scarcer than its closest competitor, the 1894. This moderately circulated Morgan retains luster and displays areas of copper, gold, and silver colors. A strike through appears between Liberty's cheek and jaw. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

AU Sharpness 1893-S Dollar

- 6263 1893-S — Improperly Cleaned — NGC Details. AU.** A caramel-gold and slate-gray example of this famous key date. Both sides are somewhat glossy from cleaning, particularly on the eagle's belly, but there are no obvious areas of smoothing. One small spot is at 7:30 on the reverse rim. The well-known diagnostics on the RT in LIBERTY are present. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

- 6264 1894 VF35 NGC.** Faintly luminous with medium-gray surfaces that show a number of light abrasions and a few rim bumps but surprisingly little wear for a VF-level coin. Just 110,000 business strikes were produced for this low-mintage Philadelphia issue. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6265 1894 AU53 NGC.** Peach peripheral toning takes on a violet tint at the upper right reverse. Silver interiors have a medium-gray cast but considerable remaining luster. Solid eye appeal for this famous date. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6266 1894 AU55 NGC.** The silver-white surfaces of this Choice AU retain luster in the recesses and reveal just a few minor circulation marks. The design features are appropriately defined. *From The Richmond Hill Collection.* NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6267 1894 AU55 PCGS.** Among the lowest mintage issues of the series, the 1894 is an important acquisition for the advanced date and mintmark collector. The present Choice AU representative has essentially full satin luster and a brilliant reverse. The central obverse displays minutely granular medium russet-brown toning. In a green label holder. PCGS# 7228, NGC ID# 255V, CoinPlex ID# M\$M1894

- 6268 1894 AU55 NGC.** This example has a very nice appearance for the grade, displaying even wear and nice color. Minor incompleteness of strike appears at the centers. Although surface marks are present, they are not overly distracting. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6269 1894 AU55 NGC.** Among the lowest mintage issues of the series, the 1894 is an important acquisition for the advanced date and mintmark collector. This piece retains pleasing luster and displays small areas of toning at the periphery. The surface mark on the eagle's breast poses minimal distraction. *From The Hilltop Collection.* NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6270 1894 AU55 NGC.** The 1894 claims the lowest business-strike mintage of any Philadelphia Morgan dollar, and Choice AU examples are always in demand. This well-detailed specimen is lightly abraded and retains much original mint luster. A small rim ding appears near 12 o'clock on the obverse. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6271 1894 AU55 PCGS.** Lightly gray-toned across still-lustrous surfaces with touches of yellow near the rims. Scattered wispy abrasions but solid eye appeal for this issue of just 110,000 business strikes. PCGS# 7228, NGC ID# 255V, CoinPlex ID# M\$M1894

- 6272 1894 AU58 PCGS.** Generous cartwheel luster remains on this lightly rubbed but pleasing example from the famously low-mintage 1894 Philadelphia issue. A spot of deep toning appears where the eagle's right (facing) wing meets the body. Wispy abrasions and a few small digs account for the grade. PCGS# 7228, NGC ID# 255V, CoinPlex ID# M\$M1894

- 6273 1894 AU58 NGC. CAC.** Straw-gold toning lightly embraces this coruscating and nicely struck near-Mint better date silver dollar. The reverse is impressively devoid of marks, and the obverse displays only distributed unobtrusive contact. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6274 1894 — Improperly Cleaned — NGC Details. Unc.** The cartwheel luster is unbroken on this low mintage Philadelphia Morgan dollar. Straw-gold and lilac shades on the upper obverse overlie mildly glossy surfaces. The cheek displays moderate abrasions. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

- 6275 1894 — Altered Surfaces — PCGS Genuine. Unc. Details.** Booming luster sweeps this chestnut-gold and steel-blue key Philadelphia silver dollar. The strike is good and marks are minimal except on the upper cheek and near the right (facing) wing. No signs of doctoring are readily evident. PCGS# 7228, NGC ID# 255V, CoinPlex ID# M\$M1894

1894 Silver Dollar, MS63 Key P-Mint Business Strike

- 6276 1894 MS63 PCGS.** Peach-gold toning invigorates the borders of this highly lustrous and nicely struck representative. Marks are surprisingly few aside from a solitary faint slide mark on the cheek. A much better Philadelphia date with a commercial mintage of only 110,000 pieces. Housed in a green label holder. PCGS# 7228, NGC ID# 255V, CoinPlex ID# M\$M1894

Attractive Select Mint State 1894 Dollar

- 6277 1894 MS63 NGC.** This key Philadelphia Mint business strike, from a production of only 110,000 pieces, displays blast-white surfaces. Other than the '93-S, this is the lowest mintage regular issue of the type. The satiny silver luster and bold design motifs provide lovely eye appeal to this Select Mint State coin. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

Choice 1894 Morgan Dollar Above Average Strike, Quality

- 6278 1894 MS64 PCGS.** A lovely Choice Mint State key Morgan, the obverse exhibits brilliant silver luster with frosty, untuned surfaces, the reverse showing exquisite light gold toning splashes over frosty mint brilliance. Both sides are sharply detailed and present exceptional eye appeal. The strike is clearly finer than usual, with exceptional design details over Liberty's ear and on the eagle's breast feathers. Minimal contact marks are barely sufficient to keep this from the Gem grade category. PCGS has only certified 24 finer examples of this scarce issue (11/12).
Ex: A.H. Blauvelt Collection (*Stack's*, 11/1959), lot 247.
From The Teich Family Collection. PCGS# 7228, NGC ID# 255V, CoinPlex ID# M\$M1894

Lustrous 1894-O Morgan, MS64

- 6279 1894-O MS64 PCGS. CAC.** Light caramel-gold and pale pink toning encircles the periphery of this lustrous and conditionally rare New Orleans silver dollar. The centers display a soft strike, as is typically seen, and the surface marks are minor. PCGS and NGC combined have graded only 16 finer examples (11/12). PCGS# 7230, NGC ID# 255W, CoinPlex ID# M\$M1894O

- 6280 1894-S MS64 PCGS.** Extensively toned peach, blue, and gray but luminous on the obverse with considerable underlying flash to the reverse. The plastic holder has several scratches that should not be interpreted as damage to the coin. PCGS# 7232, NGC ID# 255X, CoinPlex ID# M\$M1894S

1894-S Morgan, MS65

- 6281 1894-S MS65 PCGS.** The 1894-S Morgan dollar was a well-produced issue, and collectors expect high quality and exquisite eye appeal from examples of this date. This delightful Gem displays sharply detailed design elements and vibrant mint luster, with minimally abraded surfaces. Light areas of golden toning appear at portions of the periphery on both sides, with a spot of toning appearing near 12 o'clock on the obverse. The 1894-S is quite elusive in MS65 condition. Only 12 pieces have achieved higher numeric grades from PCGS (11/12).
From The Steve Reed Collection. PCGS# 7232, NGC ID# 255X, CoinPlex ID# M\$M1894S

- 6282 1895-O AU55 NGC.** Tiny shimmers of peach patina visit still-lustrous silver surfaces that offer occasional flash. A lightly abraded but quality example of this semikey issue. NGC ID# 255Y, PCGS# 7236, CoinPlex ID# M\$M1895O

- 6283 1895-O AU55 NGC.** A medley of electric-blue, crimson, orange-gold, and gray toning runs over both sides of this Choice AU, each of which retrains ample luster. A few minuscule marks are undisturbing. NGC ID# 255Y, PCGS# 7236, CoinPlex ID# M\$M1895O

Uncirculated Sharpness 1895-O Dollar Rarest New Orleans Issue

- 6284 1895-O — Improperly Cleaned — NGC Details. Unc.** This key date New Orleans dollar is mostly brilliant, but the obverse margin is golden-brown and small areas of dark toning are on the obverse rim beneath the date and on the reverse rim at 12:30. Cartwheel luster is substantial albeit subdued across the open obverse field. Both sides reveal faint hairlines when studied at length beneath a light and loupe. NGC ID# 255Y, PCGS# 7236, CoinPlex ID# M\$M1895O

**Near-Mint 1895-S Dollar
S Over Horizontal S VAM-4**

6285 1895-S AU58 NGC. VAM-4. A Top 100 Variety. The “S over Horizontal S” repunched mintmark. Morgan dollar mintages plunged dramatically in the wake of the repeal of silver purchase legislation in 1893. The proof-only 1895 is the best known rarity from the era, but the 1895-S is also rare, and key to a date set of Morgan dollars. The present example is graded AU58, which makes it a great alternative to a Mint State coin for the series enthusiast. Light golden overtones visit strongly reflective and flashy fields. Just a touch of rub appears on the high points. NGC ID# 255Z, PCGS# 7238, CoinPlex ID# M\$M1895S

6286 1895-S AU58 NGC. Great remaining luster, peach-splashed silver with just a touch of friction. Two long lines of reed marks meet at a point just southwest of Liberty's ear. NGC ID# 255Z, PCGS# 7238, CoinPlex ID# M\$M1895S

**1895-S Dollar, MS63
Low-Mintage Issue**

6287 1895-S MS63 NGC. A low-mintage date, the 1895-S Morgan dollar is prized by collectors, especially in high grade. This Select Mint State example exhibits only the slightest trace of wear on the design elements and the surfaces, particularly on the reverse, retain much original mint luster. The reverse is relatively free of the bagmarks this issue is known for. NGC ID# 255Z, PCGS# 7238, CoinPlex ID# M\$M1895S

Exceptional 1896 MS67 ★ Dollar

6288 1896 MS67 ★ NGC. As was the case when this coin appeared at auction in 2005, this remains one of only three coins that have been awarded the ★ designation by NGC, with none finer (11/12). The coin is brilliant and displays flashy mint luster with a hint of reflectivity in the fields. Well, but not fully struck, there are no notable abrasions on either side of this intensely lustrous and attractive dollar.

Ex: ANA San Francisco Signature (Heritage, 7/2005), lot 6948.

From The Steve Reed Collection. NGC ID# 2562, PCGS# 7240, CoinPlex ID# M\$M1896

6289 1896-O MS62 PCGS. VAM-7. The base of the 96 in the date is nicely repunched. Rich aquamarine and gunmetal-gray toning embraces this satiny New Orleans dollar. The obverse has inconspicuous abrasions but the reverse is smooth save for a small mark above the eagle's head. PCGS# 7242, NGC ID# 2563, CoinPlex ID# M\$M1896O

6290 1896-O MS62 NGC. A lovely light pink cast covers the majority of both sides of this piece. Grazes and other small marks limited the grade along with portions of fingerprints on the obverse. This piece displays a high degree of reflectivity and the reverse is quite attractive. *From The Richmond Hill Collection. NGC ID# 2563, PCGS# 7242, CoinPlex ID# M\$M1896O*

6291 1896-O MS62 PCGS. CAC. Attractive toning appears on both sides of this example. The colors on the obverse appear primarily at the periphery, lending additional eye appeal to this piece. The hues include teal, copper, russet, red, and plum. Brilliant golden-orange color covers large portions of the reverse, with many of the obverse colors making repeat appearances. The piece is well-struck overall. Both sides exhibit surface marks. PCGS# 7242, NGC ID# 2563, CoinPlex ID# M\$M1896O

1896-S Dollar, Bright MS63

6292 1896-S MS63 NGC. The bright, lustrous finish on this piece is characteristic of 1896-S dollars. Each side is frosted and brilliant with just a touch of light pink-gray patina in the fields. The strike is strong, but not entirely complete in the centers. Each side displays abrasions, as expected at this grade level, however there are no singularly mentionable marks. NGC ID# 2564, PCGS# 7244, CoinPlex ID# M\$M1896S

**Gem 1896-S Silver Dollar
Comprehensive Iridescent Toning**

- 6293 1896-S MS65 PCGS.** Many issues in the Morgan dollar series are condition rarities, commonplace in lower grades but rare in higher grades. The 1896-S, from a mintage of 5 million coins, is one of them. Examples are easily found in grades through VF, but XF examples are elusive and Gems are decidedly rare. The present coruscating representative displays dramatic dappled sea-green, lilac-red, and golden-brown toning. The reverse is principally pumpkin-gold though glimpses of powder-blue and forest-green are also present. Careful inspection beneath a lens reveals a nearly pristine reverse and a smooth obverse field. Liberty's cheek and neck display moderate contact. Population: 61 in 65 (3 in 65+), 4 finer (12/12). PCGS# 7244, NGC ID# 2564, CoinPlex ID# M\$M1896S

Gem Deep Mirror Prooflike 1897 Morgan

- 6294 1897 MS65 Deep Mirror Prooflike PCGS.** Although the 1897 Morgan dollar issue is plentiful even in the higher Mint State grades, its availability in Deep Mirror Prooflike is quite the opposite. This example is well-struck with deeply reflective fields. A few contact marks appear, primarily on the obverse. Population: 26 in 65 Deep Mirror Prooflike, 2 finer (11/12).
From The Steve Reed Collection. PCGS# 97247, NGC ID# 2565, CoinPlex ID# M\$M1897DMPL
- 6295 1897-O MS62 NGC. CAC.** The 1897-O, like a handful of other Morgan dollar issues, is frequently seen in circulated grades but rarely in Mint State. This attractive example is fully lustrous with frosty white surfaces and no evidence of toning on either side. Minor contact marks appear on both sides.
From The Richmond Hill Collection. NGC ID# 2566, PCGS# 7248, CoinPlex ID# M\$M1897O
- 6296 1897-S MS66+ PCGS. CAC.** This high-end Premium Gem is well-detailed and brightly lustrous, with virtually pristine brilliant surfaces and outstanding eye appeal. PCGS has graded only 22 numerically finer specimens (12/12). PCGS# 7250, NGC ID# 2567, CoinPlex ID# M\$M1897S
- 6297 1898-O MS67 PCGS.** Displaying tremendous eye appeal, this Superb Gem has bright surfaces, a well-executed strike, and minimal contact marks. The usual weakness appears over Liberty's ear, however the hair is sharper than often seen. PCGS has graded no finer examples, while NGC has only assigned a higher grade to one piece (11/12). PCGS# 7254, NGC ID# 2569, CoinPlex ID# M\$M1898O

**Superb Gem 1898-O Morgan Dollar
Exquisite Deep Mirror Prooflike Surfaces**

- 6298 1898-O MS67 Deep Mirror Prooflike NGC.** While a common coin in MS65 and lower grades, the 1898-O is rarely located in Superb Gem condition. Additionally, it is very rare with deeply mirrored prooflike fields. When those two qualifiers are applied, the 1898-O is a condition rarity among late-date dollars. This is the only NGC-certified MS67 DPL, and PCGS has only graded two pieces with one finer (11/12). This is an absolutely stunning coin. Brilliant throughout, the surfaces are virtually perfect with no mentionable abrasions. The striking details are sharp, with pinpoint definition over the ear of Liberty as well as on the eagle's breast. Noticeable cameo contrast is also apparent between the fields and devices.
From The Steve Reed Collection. NGC ID# 2569, PCGS# 97255, CoinPlex ID# M\$M1898ODMPL

6299 1898-S MS65 NGC. Golden-brown, plum-red, and jade-green embraces the margins. A semiprooflike Gem with well preserved fields and exceptional eye appeal. Certified in a former generation holder. NGC ID# 256A, PCGS# 7256, CoinPlex ID# M\$M1898S

6300 1898-S MS65 PCGS. CAC. A sharply detailed Gem Morgan dollar, with brilliant surfaces that show few signs of contact and vibrant, frosty mint luster. This coin possesses terrific eye appeal. PCGS# 7256, NGC ID# 256A, CoinPlex ID# M\$M1898S

**Premium Gem 1898-S Morgan Dollar
Only Three Numerically Finer PCGS Examples**

6301 1898-S MS66 PCGS. This spectacular Premium Gem Morgan dollar displays sharply detailed design elements and smooth, brilliant surfaces with just the slightest hint of color. The coin is minimally abraded and has plenty of eye appeal. Population: 66 in 66 (2 in 66+), 3 finer (11/12). PCGS# 7256, NGC ID# 256A, CoinPlex ID# M\$M1898S

6302 1899-O MS67 PCGS. A bright and attractively toned Superb Gem, this piece displays golden-caramel and russet shades at the outer peripheries of both sides, with small splashes of red on the obverse. The coin is well-struck overall, with only a few minor grazes appearing on each side. Population: 93 in 67 (2 in 67+), 1 finer (11/12). PCGS# 7260, NGC ID# 256C, CoinPlex ID# M\$M1899O

6303 1899-O MS67 PCGS. CAC. This turn-of-the-century Morgan dollar displays virtually pristine surfaces, with vibrant mint luster and well-detailed design elements. Just a few accents of golden-tan toning enhance the considerable eye appeal. Population: 93 in 67 (2 in 67+), 1 finer (12/12). PCGS# 7260, NGC ID# 256C, CoinPlex ID# M\$M1899O

**Top 100 Micro O VAM-32
1899-O Silver Dollar, MS62**

6304 1899-O Micro O MS62 PCGS. VAM-32, R.6. A Top 100 Variety. Die cracks along the tops of STATES OF attribute this better VAM variety. Most 1899-O dollars instead have a Medium O. The present lustrous silver dollar is brilliant and shows incompleteness of strike at the centers. Pinpoint marks on the cheek are all that denies a higher grade. PCGS# 87260

6305 1899-S MS65 PCGS. Both sides of this example display shimmering iridescent hues of light gold, orange, and red, with a few splashes of bright lime-green when the coin is rotated. This Gem displays a bold strike. Contact marks appear on both sides. *From The Steve Reed Collection.* PCGS# 7262, NGC ID# 256D, CoinPlex ID# M\$M1899S

**1899-S Morgan Dollar, MS66
Only Eight Finer at PCGS**

6306 1899-S MS66 PCGS. An amazing Premium Gem with reflective obverse and reverse surfaces, fully white obverse brilliance, and faint traces of gold toning splashed on the reverse. Aside from typical weakness over the ear, the strike is exceptional for the issue. PCGS has only certified eight finer examples (11/12). PCGS# 7262, NGC ID# 256D, CoinPlex ID# M\$M1899S

**Choice 1899-S Morgan Dollar
Stunning Deep Mirror Prooflike Surfaces**

6307 1899-S MS64 Deep Mirror Prooflike PCGS. A stunning brilliant near-Gem with deeply mirrored fields and exceptional cameo contrast. Few 1899-S Morgan dollars can match the quality of this Choice example, and rarely is a finer piece certified with such amazing eye appeal. A few scattered surface marks are reflected in the fields, but they influence the technical grade far more than the eye appeal. Population: 23 in 64 Deep Mirror Prooflike, 6 finer (11/12). *From The Steve Reed Collection.* PCGS# 97263, NGC ID# 256D, CoinPlex ID# M\$M1899SDMPL

**1899-S Silver Dollar
MS65 Deep Mirror Prooflike**

- 6308 1899-S MS65 Deep Mirror Prooflike NGC.** The San Francisco Mint paid out countless 1899-S Morgan dollars in the 1940s and 1950s, and those coins survive today. The result is a plentiful issue through the MS65 level, despite a modest mintage of only 2.562 million coins. Many of those dollars were prooflike examples, and such pieces are plentiful today. However, Deep Mirror Prooflike pieces remain elusive, and Gems are rarely encountered. Only five DMPL Gems and four finer pieces are certified at NGC and PCGS combined.

A sliver of electric-blue and russet patina clings to the rim areas of the present MS65 DMPL coin, and an attentive strike nicely defines the design features, including partial detail in the hair over Liberty's ear and on the breast feathers. A few minor grade-consistent marks are visible, more so on the reverse. NGC ID# 256D, PCGS# 97263, CoinPlex ID# M\$M1899SDMPL

**Gem 1900 Morgan Dollar
Unusual Prooflike Example**

- 6309 1900 MS65 Prooflike PCGS.** The well-preserved reflective surfaces of this impressive Gem show a few hints of apple-green and lavender patina, with only minor signs of contact. The design elements are well-detailed and frosty. Housed in a green label holder. Population: 22 in 65 Prooflike, 5 finer (12/12). PCGS# 7265, NGC ID# 256E, CoinPlex ID# M\$M1900PL

**1900 Morgan Dollar
Prooflike Premium Gem**

- 6310 1900 MS66 Prooflike PCGS.** A sharply detailed Premium Gem, with reflective unmarked surfaces that give this specimen extraordinary eye appeal. Attractive hints of gold and lavender toning enhance both sides and no mentionable distractions are evident. Population: 5 in 66 Prooflike, 0 finer (11/12). *From The Steve Reed Collection.* PCGS# 7265, NGC ID# 256E, CoinPlex ID# M\$M1900PL

**Gem Deep Mirror Prooflike 1900 Dollar
Tied for Finest Known**

- 6311 1900 MS65 Deep Mirror Prooflike NGC.** The population data has not changed since this coin appeared at auction in 2005. The 1900-P is a significant rarity as DMPL. Only a handful of Gems have been certified. This is a glassy, untoned example with a bit of natural haziness, as struck, at the margins. Population: 3 in 65, with no numerically finer pieces at either major service (11/12). *From The Steve Reed Collection.* NGC ID# 256E, PCGS# 97265, CoinPlex ID# M\$M1900DMPL

**1900-O Morgan Dollar, MS67
Tied for Finest Certified**

6312 1900-O MS67 PCGS. CAC. There are a number of reasons to appreciate this Superb Gem, including its bold strike with sharp hair detail over the ear, and its silver brilliance with satin luster and fully white, untoned surfaces. This piece is tied for the finest certified at PCGS and NGC. A remarkable specimen for the connoisseur. Population: 34 in 67 (1 in 67+), 0 finer (12/12). PCGS# 7266, NGC ID# 256F, CoinPlex ID# M\$M1900O

**1900-S Morgan Dollar, MS66
Only One Numerically Finer Coin at PCGS**

6316 1900-S MS66 PCGS. The 1900-S Morgan is scarce in Premium Gem and extremely rare any finer. The lustrous surfaces of this delightful Premium Gem are essentially untuned and exhibit well-struck design features. Impeccable preservation rounds out the pleasing eye appeal. Population: 99 in 66 (3 in 66+), 1 finer (11/12). *From The Steve Reed Collection.* PCGS# 7270, NGC ID# 256H, CoinPlex ID# M\$M1900S

**White MS66 1900-O/CC Dollar
VAM-8, Top 100**

6313 1900-O/CC MS66 PCGS. VAM-8. A Top 100 Variety. A lovely high grade example of this popular overmintmark variety. Well struck with booming luster and impressively smooth surfaces. Close to brilliant though the cheek has a hint of gold toning. The Carson City Mint closed in 1893, and eventually leftover dies were shipped to Philadelphia and overmintmarked as an economy measure. Population: 83 in 66, 2 finer (12/12). *From The Steve Reed Collection.* PCGS# 7268, NGC ID# 256G, CoinPlex ID# M\$M1900OCC

6314 1900-S MS65 PCGS. CAC. Hints of rose-gold toning appear on the obverse of this brilliant Gem. The coin is well-struck with minor incompleteness in the hair above the ear. Roller marks appear on Liberty's nose. PCGS# 7270, NGC ID# 256H, CoinPlex ID# M\$M1900S

**Premium Gem 1900-S Morgan Dollar
Only One Finer at PCGS**

6315 1900-S MS66 PCGS. A gorgeous Premium Gem example of this S-mint dollar issue, with mildly reflective fields and only trivial obverse grazes that prevent an even higher grade. The coin is generally well struck, although the hair above Liberty's ear lacks definition. All S-mint dollars from the 1900s are scarce. Population: 99 in 66 (3 in 66+), 1 finer (11/12). PCGS# 7270, NGC ID# 256H, CoinPlex ID# M\$M1900S

**Bright MS65 1900-S Deep Mirror Prooflike Dollar
Tied for Finest Known**

6317 1900-S MS65 Deep Mirror Prooflike NGC. Prooflike coins are very rarely encountered among the 1900-S survivors from this series. When seen, they exhibit low contrast, as evidenced by this piece. The primarily silver-white surfaces display deep reflectivity and there is a high degree of striking sharpness. Although surface marks appear, they do little to diminish the attractiveness of this high-grade piece. Neither NGC nor PCGS has assigned a higher numeric grade to a single example. Both services combined have graded a total of 3 coins at this grade level (11/12). *From The Steve Reed Collection.* NGC ID# 256H, PCGS# 97271, CoinPlex ID# M\$M1900SDMPL

MS61 1901 Morgan Dollar

- 6318 1901 MS61 PCGS.** One of the great mysteries of the Morgan dollar series is the rarity of the 1901 business strike in Mint State. The surfaces of this example exhibit a somewhat muted gray color, particularly on the reverse. Small areas of coppery-gold toning appear on the obverse, while subtle hints of gold color grace the reverse. PCGS# 7272, NGC ID# 256J, CoinPlex ID# M\$M1901

1901 Dollar, MS62 Challenging Condition Rarity

- 6319 1901 MS62 PCGS.** The 1901 is one of the premier condition rarities in the Morgan series, an issue that seems to have been "struck in AU." This is a solid Uncirculated example with pleasing, bright satiny mint luster. The strike is almost complete in the centers, and there are a few grade-limiting abrasions on each side. PCGS# 7272, NGC ID# 256J, CoinPlex ID# M\$M1901

1901 Morgan Dollar, MS62 Challenging Issue in High Grade

- 6320 1901 MS62 PCGS.** Nearly 7 million Morgan dollars were struck at the Philadelphia Mint in 1901 but, while coins in lower grades are easily located, the issue is one of the most challenging in the series in high grade. This well-detailed MS62 specimen displays lustrous surfaces under shades of champagne-gold, lavender-gray, and amber toning. PCGS# 7272, NGC ID# 256J, CoinPlex ID# M\$M1901
- 6321 1901 Doubled Die Reverse AU50 PCGS. CAC. VAM-3.** A Top 100 Variety. The 1901 dollar is challenging enough in high circulated grades, but the Doubled Eagle is decidedly more difficult. This is a quality silver-gray example with considerable remaining luster. Border colors include arcs of peach-orange and dots of deep color at the L and P of PLURIBUS. PCGS# 7302, CoinPlex ID# M\$M1901DDR

Very Scarce 1901-O Morgan, MS65 Deep Mirror Prooflike Specimen

- 6322 1901-O MS65 Deep Mirror Prooflike NGC.** This Gem is untuned and remarkably bold for this often poorly struck New Orleans issue, with numerous fine striations in the fields that impart a glassy brilliance. As can be expected of the issue, there is very little frost on the devices and, as a result, contrast is relatively limited. Trivial contact marks are generally confined to the area of Liberty's cheek and the field to her left. Only a tiny percentage of '01-O Dollars exhibit deeply mirrored fields and even fewer still survive in Gem condition. The population data remains the same as it did when this coin was last offered. Census: 22 in 65 Deep Mirror Prooflike, 1 finer (11/12).
Ex: New York Signature (Heritage, 7/2002), lot 7110; ANA San Francisco Signature (Heritage, 7/2005), lot 6969; Long Beach Signature (Heritage, 9/2005), lot 6144.
From The Steve Reed Collection. NGC ID# 256K, PCGS# 97275, CoinPlex ID# M\$M1901ODMPL

- 6323 1902 MS64 Prooflike PCGS.** As with many of the Prooflike examples of the 1902 Morgan dollar, this coin does not exhibit pronounced contrast. The design elements display sharp detail, but are not heavily frosted, and the surfaces are moderately reflective, with a few hints of champagne-gold toning. Population: 29 in 64 Prooflike, 23 finer (11/12). PCGS# 7279, NGC ID# 256M, CoinPlex ID# M\$M1902PL
- 6324 1902-OMS64 Deep Mirror Prooflike ANACS.** A strongly mirrored near-Gem, though as is often the case for this O-mint issue, contrast is minimal. This coin is sharply impressed with a uniformly reflective finish. The piece displays light toning, especially at the borders and is housed in a small format holder. PCGS and NGC combined have assigned higher numeric grades to only 16 examples (12/12).
From The Steve Reed Collection. NGC ID# 256N, PCGS# 97281, CoinPlex ID# M\$M1902ODMPL

Bright Gem 1902-S Dollar

- 6325 1902-S MS65 PCGS. CAC.** Swirling cartwheel luster envelops both sides of this lovely Gem 1902-S, an issue seldom seen in finer grades. The silver-white surfaces on both sides are almost completely devoid of perceptible color. There are few visible abrasions, with the only mark of note appearing above the stars to the right of the date. PCGS has certified only 37 submissions numerically finer (11/12). PCGS# 7282, NGC ID# 256P, CoinPlex ID# M\$M1902S

**Seldom Encountered MS65 Deep Mirror Prooflike
1903 Morgan Dollar**

6326 1903 MS65 Deep Mirror Prooflike NGC. The 1903 dollar, with a mintage of 4.652 million circulation strikes, is a readily available issue, even in the better Mint State grades. Prooflike specimens are more challenging, but can be acquired with patience and diligent searches, especially through the near-Gem level of preservation. Deep Mirror Prooflike coins, on the other hand, are extremely difficult to locate, as evidenced by the population data. NGC and PCGS combined have certified a total of 6 examples at this level, with none finer (11/12).

This coin displays brilliant surfaces. The few surviving examples do not exhibit high contrast, as is the case with this piece. Well-struck, this coin displays strong definition on the design elements, including the hair over Liberty's ear and the eagle's breast feathers. A few minor surface marks appear.

From The Steve Reed Collection. NGC ID# 256R, PCGS# 97285, CoinPlex ID# M\$M1903DMPL

**Superb Gem 1903-O Morgan Dollar
Among the Finest Certified at PCGS**

6327 1903-O MS67 PCGS. Once a great rarity in the series, the 1903-O Morgan dollar became a great story coin when large numbers of the issue surfaced in the Treasury releases of the 1960s. Few survivors can match the quality of this magnificent Superb Gem, with well-detailed design elements, vibrant mint luster and outstanding eye appeal. Population: 62 in 67, 0 finer (12/12). PCGS# 7286, NGC ID# 256S, CoinPlex ID# M\$M1903O

Attractive AU58 1903-S Dollar

6328 1903-S AU58 PCGS. The 1903-S Morgan dollar is surprisingly difficult to locate for an issue with a mintage of more than 1.2 million pieces. As a result, collectors often choose to acquire an attractive AU or near-Mint example as part of an otherwise high-grade collection since Mint State specimens are so elusive and expensive. The present coin is a lustrous, lightly circulated example displaying nice details and few signs of actual wear. PCGS# 7288, NGC ID# 256T, CoinPlex ID# M\$M1903S

1903-S Morgan Dollar, MS64

6329 1903-S MS64 NGC. The obverse of this Choice Mint State scarcity is fully brilliant and lustrous with a frosty and mostly untoned surface, save for faint champagne toning. The reverse also exhibits frosty silver luster that shines through lovely gold toning. A splendid near-Gem specimen for an advanced collection of Morgan dollars. *From The Teich Family Collection.* NGC ID# 256T, PCGS# 7288, CoinPlex ID# M\$M1903S

**1903-S Morgan Dollar, MS64
Elusive Date in Higher Grades**

- 6330 1903-S MS64 PCGS.** Lovely caramel-gold and peach toning appears on this above average near-Gem with potent luster and a crisp strike. This much better date 1903-S Morgan dollar displays only a few light abrasions, primarily in the fields, with Liberty's face exhibiting only minuscule marks. PCGS# 7288, NGC ID# 256T, CoinPlex ID# M\$M1903S

**Gem 1903-S Morgan Dollar
Seldom Encountered in Higher Grades**

- 6331 1903-S MS65 PCGS.** From a smallish mintage of 1.2 million pieces, the 1903-S Morgan dollar is a scarce date in the context of the series. This attractive Gem exhibits sharply detailed design elements and vibrant cartwheel mint luster over unmarked brilliant surfaces. Eye appeal is outstanding. PCGS has graded only 38 numerically finer coins (11/12).
From The Steve Reed Collection. PCGS# 7288, NGC ID# 256T, CoinPlex ID# M\$M1903S

**Rare Small S 1903-S Dollar
AU53, VAM-2, Top 100**

- 6332 1903-S Small S AU53 PCGS. VAM-2.** A Top 100 Variety. The small mintmark punch was designed to be used on Barber quarters, but an incorrect selection by a mint worker led to the present variety. Of course, any 1903-S dollar is valuable at the AU53 level, even with the usual Large S mintmark. This minimally abraded example has a pearl-white obverse and a straw-gold and stone-gray reverse. Luster glimmers from the legends and motifs. Population: 6 in 53, 5 finer (11/12). PCGS# 7306

- 6333 1904 MS65 PCGS.** Broadly swirling luster with just a few hints of blue and peach. This well-struck Gem was a "final-year" piece for the design until the interim coinage of 1921. PCGS# 7290, NGC ID# 256U, CoinPlex ID# M\$M1904

- 6334 1904 MS65 PCGS.** The obverse of this Gem features a golden-gray patina that includes areas of copper and plum in the fields, with highlights of iridescent light teal hugging the outer edges. The reverse is essentially untuned. The coin is well-struck overall and displays a limited number of surface marks as expected at this grade level. PCGS has awarded higher numeric grades to only 15 examples (12/12).

From The Steve Reed Collection. PCGS# 7290, NGC ID# 256U, CoinPlex ID# M\$M1904

**1904-O Morgan Dollar, MS67
Attractively Toned**

- 6335 1904-O MS67 PCGS.** The reverse has mellow orange and rose-gray patina with a touch of cherry-red and violet. The obverse, on the other hand, is highly lustrous beneath patches of electric blue, reddish-orange, aqua, and plum, as well as a diagonal streak of brilliance. Nicely struck and eminently appealing. Population: 30 in 67, 0 finer (12/12). PCGS# 7292, NGC ID# 256V, CoinPlex ID# M\$M1904O

- 6336 1904-O MS67 NGC.** Gleaming white luster emanates from both sides of this Superb Gem. The piece is well-struck with minor incompleteness at the centers and exhibits only very minor grazes. Census: 85 in 67 (1 in 67+), 0 finer (12/12). NGC ID# 256V, PCGS# 7292, CoinPlex ID# M\$M1904O

- 6337 1904-O MS67 NGC.** Although slightly weak at the centers, this Superb Gem displays a better strike than most, with frosty silver luster and exceptional eye appeal. Both sides are fully brilliant with no evidence of toning. This piece is tied for the finest certified at NGC and PCGS. Census: 87 in 67 (1 in 67+), 0 finer (12/12).
From The Steve Reed Collection. NGC ID# 256V, PCGS# 7292, CoinPlex ID# M\$M1904O

Lovely 1904-S Dollar, MS62

- 6338 1904-S MS62 NGC. CAC.** Light golden toning, primarily at the outer edges, enhances the visual appeal of this lovely example. The coin is well-struck overall, displaying the typical incompleteness of strike at the centers. The piece exhibits vibrant mint luster and remarkably few abrasions for the grade.
From The Richmond Hill Collection. NGC ID# 256W, PCGS# 7294, CoinPlex ID# M\$M1904S

Attractively Toned, Near-Gem 1904-S Morgan

- 6339 1904-S MS64 PCGS.** The 1904-S is scarce in the better grades of Uncirculated, and especially so in MS64 or better grades. Vibrant cartwheel mint luster is present on this coin. Attractive toning rings the obverse and includes shades of champagne-gold, orange, aqua, and blue. The reverse displays golden-brown toning at the periphery. The design elements are well-detailed on this near-Gem example. PCGS# 7294, NGC ID# 256W, CoinPlex ID# M\$M1904S

1904-S Morgan Dollar, MS64

- 6340 1904-S MS64 NGC.** All San Francisco Morgan dollars struck near the turn of the century are scarce in Mint State. The 1904-S is the second rarest within that group, trailing only the 1903-S. This near-Gem example retains cartwheel luster and exhibits bright, untoned surfaces. The coin is well-struck overall and displays minor contact marks. NGC ID# 256W, PCGS# 7294, CoinPlex ID# M\$M1904S

**Choice 1904-S Morgan Dollar
Attractive Multicolor Toning**

- 6341 1904-S MS64 PCGS. CAC.** The 1904-S Morgan dollar is a better date in the series, with a mintage of 2.3 million pieces and relatively few examples saved by contemporary collectors. This well-detailed Choice example shows just a touch of softness on the hair above the ear, with attractive shades of golden-brown and violet toning and strong mint luster underneath. PCGS# 7294, NGC ID# 256W, CoinPlex ID# M\$M1904S

**1904-S Morgan Dollar, MS64+
Semiprooflike Surfaces, Multicolor Toning**

- 6342 1904-S MS64+ PCGS. CAC.** The silver dollars of 1904 were supposed to be the last issue of the Morgan design, but the series was renewed for one year in 1921, before the Peace dollar design was adopted. This high-end Choice example displays shades of green, gray, gold, and violet toning, over lustrous surfaces that show prooflike reflectivity in many areas. The 1904-S is an elusive issue in the context of the series. PCGS# 7294, NGC ID# 256W, CoinPlex ID# M\$M1904S

**1904-S Silver Dollar, MS64+
Brilliant and Untoned**

- 6343 1904-S MS64+ PCGS. CAC.** Just shy of Gem quality, this important S-Mint Morgan dollar has brilliant silver surfaces with satin luster and above average design definition, showing the usual central weakness on each side. Faint vertical lines on each side are remnants of the minting process, seen frequently on the early 20th century S-Mint Morgan dollars. PCGS# 7294, NGC ID# 256W, CoinPlex ID# M\$M1904S

- 6344 1921 MS64 Deep Mirror Prooflike NGC.** Unlike most years of production, the 1921 issue is seldom found with the Deep Mirror Prooflike fields. This near-Gem is sparkling and bright, with the devices displaying attractive frost and the fields exhibiting strong reflectivity. The untoned piece exhibits excellent surfaces leading to lovely eye appeal. Census: 52 in 64 Deep Mirror Prooflike, 6 finer (12/12).
From The Steve Reed Collection. NGC ID# 256X, PCGS# 97297, CoinPlex ID# M\$M1921DMPL

Rarely Encountered MS65 DMPL
1921 Morgan Dollar

- 6345** 1921 MS65 Deep Mirror Prooflike NGC. Although 1921 Morgan dollars are known to be common in Mint State, only a tiny fraction of those pieces possesses deeply reflective fields. This near-Gem is brilliant and intricately struck, displaying contrast between the fields and devices. A few minor contact marks appear. Census: 6 in 65 Deep Mirror Prooflike, 0 finer (11/12).
From The Steve Reed Collection. NGC ID# 256X, PCGS# 97297, CoinPlex ID# M\$M1921DMPL

1921 Morgan Dollar, MS65 Deep Mirror Prooflike
None Certified Finer

- 6346** 1921 MS65 Deep Mirror Prooflike NGC. This spectacular Gem represents the last year of the Morgan dollar design, making it an important issue for type purposes. The design elements are sharply detailed throughout and the devices display rich frosty luster that contrasts boldly with the reflective prooflike fields. The surfaces are devoid of mentionable imperfections and eye appeal is terrific. NGC ID# 256X, PCGS# 97297, CoinPlex ID# M\$M1921DMPL
- 6347** 1921-D MS66+ PCGS. CAC. Brilliant pristine surfaces and sharply detailed design elements are the calling cards of this exceptional Morgan dollar. This high-end Premium Gem also radiates vibrant mint luster on both sides creating outstanding eye appeal. PCGS has certified only five numerically finer examples (12/12). PCGS# 7298, NGC ID# 256Y, CoinPlex ID# M\$M1921D

1921-D Morgan Dollar
MS65 Deep Mirror Prooflike

- 6348** 1921-D MS65 Deep Mirror Prooflike NGC. A deeply mirrored, no-contrast prooflike dollar with myriad die striations in the fields that are responsible for imparting the reflective sheen on this coin. We believe this must be true from the small numbers known, that prooflike 1921-D dollars are more a matter of chance rather than intention; meaning, that they are probably a result of the use of new dies rather than polishing previously used ones. This is a very flashy coin whose only faults lie in a few small obverse marks and a less-than-full strike. Census: 4 in 65 Deep Mirror Prooflike, 0 finer (11/12).
From The Steve Reed Collection. NGC ID# 256Y, PCGS# 97299, CoinPlex ID# M\$M1921DDMPL

Gem DMPL 1921-D Morgan Dollar

- 6349** 1921-D MS65 Deep Mirror Prooflike NGC. Bright honey-brown toning graces the obverse periphery while gray and russet colors occupy the outer edges of the reverse. The surfaces are brilliant, leading to nice eye appeal. The strike is somewhat incomplete at the centers, but not overly so. A few minor surface marks appear. Census: 4 in 65 Deep Mirror Prooflike, 0 finer (11/12).
From The Steve Reed Collection. NGC ID# 256Y, PCGS# 97299, CoinPlex ID# M\$M1921DDMPL
- 6350** 1921-S MS65+ PCGS. CAC. Bright, satiny surfaces and minimal grazes combine for tremendous eye appeal on this high-end Gem. This attractive piece represents the final date of the Morgan dollar design. PCGS has assigned higher grades to only 29 examples (11/12). PCGS# 7300, NGC ID# 256Z, CoinPlex ID# M\$M1921S

**1921-S Morgan Dollar, MS66
None Certified Finer at PCGS**

- 6351 1921-S MS66 PCGS.** The 1921-S Morgan dollar enjoyed a huge mintage of 21 million pieces, but it is still seen with less frequency than the Philadelphia and Denver issues of this date. This exquisite Premium Gem features well-detailed design elements and virtually pristine brilliant fields, with vibrant mint luster on both sides. Population: 29 in 66, 0 finer (11/12). PCGS# 7300, NGC ID# 256Z, CoinPlex ID# M\$M1921S

1921-S Morgan Dollar, MS66

- 6352 1921-S MS66 NGC.** A lovely Premium Gem representative of the final date of the Morgan dollar design, this piece is sharply detailed. Mint luster remains visible beneath the attractive sage-green, gray, fiery-orange, and gold toning. Census: 56 in 66 (2 in 66+), 1 finer (11/12).
From The Steve Reed Collection. NGC ID# 256Z, PCGS# 7300, CoinPlex ID# M\$M1921S
- 6353 1921-S MS63 Prooflike NGC.** Flashy and Prooflike, this piece is untoned, albeit showing some cloudy patina in the field areas, and has a few minor, yet grade-limiting contact marks and pinscratches, mostly on Liberty's cheek and in the left obverse field. Die striations (as struck) are prominent on both sides of the piece. Census: 10 in 63 Prooflike, 6 finer (12/12).
From The Steve Reed Collection. NGC ID# 256Z, PCGS# 7301, CoinPlex ID# M\$M1921SPL

PROOF MORGAN DOLLARS

**Patinated Choice Proof
Eight Tailfeather 1878 Dollar**

- 6354 1878 8TF PR64 NGC. VAM-14.3.** Relative to other proof Morgan dollar dates, the 1878 8TF appears to offer excellent value. It is a single-year design subtype and the mintage of 500 pieces is lower than any other date, except the Second and Third Reverse 1878 varieties and the unofficial 1921 proofs. The present 8TF specimen displays deeply blended sea-green and golden-brown toning. The strike is needle-sharp and the sole remotely mentionable imperfection is a small spot between the AR in DOLLAR. NGC ID# 2572, PCGS# 7311, CoinPlex ID# M\$P18788TF

**1879 Morgan Dollar
Attractive PR63 Example**

- 6355 1879 PR63 PCGS.** Honey-gold toning graces the borders of this carefully preserved and pleasing Select proof. The fields are highly reflective and the devices display even frost, although the obverse contrast falls shy of securing a Cameo designation. A good strike, with slight inexactness noted on the hair above the ear. PCGS# 7314, NGC ID# 272Z, CoinPlex ID# M\$P1879

**1879 Silver Dollar, PR63
Morgan Design**

- 6356 1879 PR63 PCGS. CAC.** A delightfully toned Morgan dollar, the obverse showing a clear vertical dividing line, with gold, violet, and lime-green to the left, brilliant blue-green to the right. The central and upper reverse display heather toning with intense cobalt-blue over the remaining reverse.
Ex: T.K. Harvin Collection (Stack's, 6/1959), lot 1131.
From The Teich Family Collection. PCGS# 7314, NGC ID# 272Z, CoinPlex ID# M\$P1879

**1879 Dollar, PR66
Modest Contrast**

6357 1879 PR66 PCGS. CAC. Light reddish-gold toning clings to the obverse margin, while deeper purple, cobalt-blue, and orange spread over the reverse. The hair above Liberty's ear is inexact, which is typical of most proofs. Both sides show modest field-device contrast. Housed in a green label holder. Population: 11 in 66, 7 finer (12/12). PCGS# 7314, NGC ID# 2722, CoinPlex ID# M\$P1879

6358 1880 PR62 PCGS. The design elements are well-defined overall on this representative from a proof mintage of 1,355 pieces in 1880. The surfaces exhibit a few minor contact marks, including a very faint scratch that runs horizontally across Liberty's cheek. PCGS# 7315, NGC ID# 2724, CoinPlex ID# M\$P1880

**1881 Morgan Dollar, PR67
Iridescent Toning**

6359 1881 PR67 NGC. Lightly toned silver splashes appear at the right and left obverse, and around the right (facing) wing on the reverse. The balance has deep blue and iridescent toning of varying degree. Deeply mirrored fields and considerable contrast remains visible on both sides. Census: 10 in 67, 6 finer (11/12). NGC ID# 2725, PCGS# 7316, CoinPlex ID# M\$P1881

Patinated PR66 1882 Morgan

6360 1882 PR66 NGC. CAC. Growing collector interest in proof-only Trade dollars increased sales of the 1882 sets, but the proof silver dollar is nonetheless very scarce relative to its business strike counterpart. The present specimen is iridescently toned in rich shades of rose-red, navy-blue, and caramel-gold. No surface imperfections are noted beneath the blanket of vibrant colors. NGC ID# 2726, PCGS# 7317, CoinPlex ID# M\$P1882

**1882 Morgan Dollar, PR65 Cameo
Pleasing Eye Appeal**

6361 1882 PR65 Cameo PCGS. This Gem proof is essentially untoned and displays strong contrast between the mirrored fields and frosty design features, all of which are exquisitely delineated. Both sides have been very well cared for. These characteristics add up to pleasing overall eye appeal. Population: 12 in 65 (2 in 65+) Cameo, 8 finer (12/12). PCGS# 87317, CoinPlex ID# M\$P1882CA

**1883 PR66 Toned Morgan Dollar
Problem-Free Early Date in the Series**

6362 1883 PR66 PCGS. The mintage for 1883 proof Morgans was a substantial 1,039 pieces; however, few have survived without having been cleaned over the past 130 years. This is an exceptionally attractive, toned dollar. Each side displays multiple layers of pinkish-red, blue, and faint golden. The colors are lighter on the reverse, and as a result the mirrored fields are brighter there as well. Population: 14 in 66, 3 finer (11/12). *From The Teich Family Collection.* PCGS# 7318, NGC ID# 2727, CoinPlex ID# M\$P1883

1883 Morgan Silver Dollar, PR66 Cameo

- 6363 1883 PR66 Cameo PCGS.** The 1883 is one of the better produced early Morgans in proof format. It is also one of the more available dates with a production run of 1,039 pieces. More than half of that mintage total was produced in the first three months of the year. All proofs are from a single die pairing that shows a "wart" on the cheek of Liberty (actually a small pit mark in the die). This piece is brilliant throughout and has bright, frosted devices that contrast sharply against the illimitable depth of reflectivity in the fields. Population: 6 in 66 Cameo, 0 finer (12/12). PCGS# 87318, CoinPlex ID# M\$P1883CA

1883 Morgan Dollar, PR67 Cameo

- 6364 1883 PR67 Cameo NGC.** An amazing example of the issue, this piece displays exceptional eye appeal. The fields have extraordinarily deep mirrors with highly lustrous and sharply defined devices. The obverse exhibits excellent cameo contrast, and the reverse easily qualifies as deep or ultra cameo. The surfaces on both sides are entirely brilliant and untuned. Mint records indicate that 1,039 Proof Morgan Dollars were coined in 1883. Census: 10 in 67 Cameo, 2 finer (11/12).
Ex: Palm Beach Signature (Heritage, 3/2005), lot 6385. PCGS# 87318, CoinPlex ID# M\$P1883CA

**1884 PR65 Morgan Dollar
Deeply Toned With Nice Contrast**

- 6365 1884 PR65 PCGS.** Deep cobalt-blue and gray patination blankets both sides of this Gem proof, joined by a blush of scarlet on the reverse. A good amount of semi-brilliance peeks through the toning, which in turn yields mild field-motif contrast when the coin is rotated under a light source, somewhat more so on the reverse. A solid strike imparts full definition to the design features, and close examination reveals no marks worthy of note. Population: 22 in 65, 12 finer (12/12). PCGS# 7319, NGC ID# 27ZB, CoinPlex ID# M\$P1884

**Select Proof 1886 Morgan Dollar
886 Pieces Struck**

- 6366 1886 PR63 PCGS Secure.** The proof mintage of Morgan dollars was oddly similar to the date in 1886, with 886 pieces struck. This impressive Select example displays sharply detailed design elements and deeply mirrored fields, with attractive accents of champagne-gold toning on both sides. Population: 58 in 63, 77 finer (11/12). PCGS# 7321, NGC ID# 27ZF, CoinPlex ID# M\$P1886

**1886 Silver Dollar, PR64
Ex: Milton Holmes Collection**

- 6367 1886 PR64 PCGS. CAC.** Delicate ivory surfaces host light gold and iridescent toning that is just sufficient to prevent a deserved Cameo designation on this lovely Morgan dollar. Population: 41 in 64, 36 finer (11/12).
Ex: Milton A. Holmes Collection (Stack's, 10/1960), lot 2340.
From The Teich Family Collection. PCGS# 7321, NGC ID# 27ZF, CoinPlex ID# M\$P1886

**Premium Gem Cameo 1886 Silver Dollar
Stone-White, Repunched Date**

- 6368 1886 PR66 Cameo NGC. VAM-15.** The 18 in the date is lightly repunched, and the second 8 has a small dash beneath it. A brilliant and fully struck Premium Gem with blatant white-on-black contrast and flashy unperturbed fields. Census: 6 in 66 Cameo, 7 finer as Cameo, 2 finer as 67 Ultra Cameo (11/12).
Ex: South Beach Collection (Heritage, 1/2005), lot 11958, which realized \$6,900. PCGS# 87321, CoinPlex ID# M\$P1886CA

**1886 Morgan Dollar, PR66 Cameo
Only One Finer at PCGS**

- 6369 1886 PR66 Cameo PCGS.** The 18 in the date is lightly repunched, and the second 8 has a small dash beneath it. Silvery centers cede to pinkish-amber rim patina on both sides of this well-contrasted Premium Gem dollar. The reverse appears to verge on the Deep Cameo contrast level. Population: 5 in 66 Cameo, 1 finer (12/12).
PCGS# 87321, CoinPlex ID# M\$P1886CA

**PR64+ Cameo 1888 Silver Dollar
Repunched and Misplaced Date**

- 6370 1888 PR64+ Cameo PCGS. VAM-25.** The date is obviously repunched, and the top of a misplaced 8 lurks in the dentils beneath the final 8 in the date. All 1888 proofs were struck from the same obverse die. The obverse is close to brilliant and displays strong cameo contrast. The reverse has dappled olive-green toning with hints of chestnut patina near AMERICA. The strike is good though the obverse center retains hints of the granular planchet surface. PCGS# 87323, CoinPlex ID# M\$P1888CA

**1889 Silver Dollar, PR64+ Cameo
Ex: Milton Holmes Collection**

- 6371 1889 PR64+ Cameo PCGS. CAC.** Here is an impressive near-Gem Cameo proof with brilliant and untuned silver surfaces, the fields deeply mirrored and the devices satiny and lustrous. A bold strike shows only slight weakness over Liberty's ear, as usual. Population: 20 in 64 (2 in 64+) Cameo, 15 finer (11/12).
Ex: Milton A. Holmes Collection (Stack's, 10/1960), lot 2348. From The Teich Family Collection. PCGS# 87324, CoinPlex ID# M\$P1889CA

- 6372 1890 — Altered Surfaces — PCGS Genuine. Unc. Details.** A boldly struck but somewhat glossy specimen that displays vertical hairlines on both sides. Faint almond-gold toning is consistent throughout. A mere 590 proofs were coined. PCGS# 7325, NGC ID# 27ZK, CoinPlex ID# M\$P1890

**1890 Morgan Dollar, Fully Struck PR65 Cameo
Dazzling Brilliance, Sharply Contrasted**

- 6373 1890 PR65 Cameo PCGS. CAC.** Only 590 proof dollars were struck in 1890, and the unfortunate trend of soft strikes continued, a trait that began in 1888. This is not one of those softly struck proofs. All the definition is present that was engraved into the die over the ear of Liberty as well as the eagle's breast feathers. Each side shows dazzling brilliance with flashy mirrors in the fields and a strong presence of mint frost over the devices. Population: 9 in 65 Cameo, 12 finer (11/12).
From The Teich Family Collection. PCGS# 87325, CoinPlex ID# M\$P1890CA

**Brilliant Premium Gem Proof 1890 Morgan Dollar
Beautifully Preserved Cameo Surfaces**

- 6374 1890 PR66 Cameo NGC.** With just 590 Proofs struck, the 1890 is the second lowest Proof production of any Morgan Dollar, behind only the 1878 issue. This well-struck example displays outstanding contrast, and is on the border of the Deep or Ultra Cameo designation. The surfaces are fully brilliant and provide amazing eye appeal. Census: 44 in 66 Cameo, 36 finer (11/12).
Ex: Dallas Signature (Heritage, 12/2005), lot 2648, which realized \$8625. PCGS# 87325, CoinPlex ID# M\$P1890CA

**Low-Mintage 1891 Dollar, PR66
Deeply Toned**

- 6375 1891 PR66 PCGS.** Charcoal-gray toning imbued with crimson near the centers covers this Premium Gem proof, leaving a small area of brilliance in the central obverse. Close inspection of this well struck example reveals no significant marks. From a low mintage of 650 pieces. Population: 22 in 66, 3 finer (12/12). PCGS# 7326, NGC ID# 27ZL, CoinPlex ID# M\$P1891

Brilliant 1891 PR66 Cameo Morgan

- 6376 1891 PR66 Cameo NGC.** Contrast between the frosted devices and the mirrored fields is evident on this attractive example. A lint mark in the vicinity of the curl near Liberty's ear provides the appearance that a strand of hair has worked itself loose. As is often the case, the strike is a bit weak at the centers. Census: 26 in 66 Cameo, 34 finer (11/12). PCGS# 87326, CoinPlex ID# M\$P1891CA

Attractive PR63 1892 Dollar

- 6377 1892 PR63 PCGS.** A light golden color envelops both sides of this well-struck example that exhibits a strong level of detail even at the centers. A few small freckles appear on the reverse. Liberty's cheek is refreshingly free of marks. This is an impressive coin for the grade. PCGS# 7327, NGC ID# 27ZM, CoinPlex ID# M\$P1892

**1892 Silver Dollar, PR65 Cameo
From the Wolfson Collection**

- 6378 1892 PR65 Cameo PCGS. CAC.** A stunning Gem Cameo proof, this 1892 dollar has gorgeous original gold, green, and violet toning over deeply mirrored fields and lustrous devices that present impressive contrast. The toning is sufficiently deep to prevent a Deep Cameo designation. Population: 5 in 65 Cameo, 12 finer (11/12).
Ex: Samuel W. Wolfson Collection, Part II (Stack's, 5/1963), lot 1482. From The Teich Family Collection. PCGS# 87327, CoinPlex ID# M\$P1892CA

Select Proof 1894 Silver Dollar

- 6379 1894 PR63 PCGS.** This intricately struck Select specimen displays a trace of gold patina. The reverse exhibits cameo contrast, but Liberty's cheek and neck lack frost. The glassy fields are minimally hairlined and offer mildly subdued reflectivity. A scant 972 proofs were produced. Housed in an old green label holder. PCGS# 7329, NGC ID# 2577, CoinPlex ID# M\$P1894

**1894 Morgan Dollar, PR62 Cameo
Lightly Toned**

- 6380 1894 PR62 Cameo PCGS.** The 1894 proof dollar has always been a premium date because of the scarcity of high-grade business strikes. In spite of the PR62 grade, this coin is more attractive than one would think. It is only when magnification is used that several small imperfections can be observed that explain the grade. The fields are deeply mirrored and significant contrasting mint frost is seen across the devices on each side. Light golden toning is present on both sides, deepening slightly around the margins.
From The Teich Family Collection. PCGS# 87329, CoinPlex ID# M\$P1894CA

**1896 Morgan Dollar, PR64 Cameo
Profound Field-Device Contrast**

- 6381 1896 PR64 Cameo PCGS. CAC.** The 1896 proof Morgan dollar claims a mintage of just 762 pieces, and high-grade examples with cameo surfaces are quite elusive. This sharply detailed Choice specimen exhibits richly frosted design elements that provide stunning cameo contrast with the deeply reflective fields. A few hints of pale green and turquoise toning highlight the pleasing surfaces. Population: 20 in 64 Cameo, 14 finer (11/12).
Ex: Samuel Wolfson Collection, Part II (Stack's, 5/1963), lot 1495, flip accompanies the lot.
From The Teich Family Collection. PCGS# 87331, CoinPlex ID# M\$P1896CA

**1896 Morgan Dollar, PR65 Cameo
Only 762 Examples Struck**

- 6382 1896 PR65 Cameo NGC.** The deeply mirrored fields of this attractive Gem contrast boldly with the frosty devices to produce a delightful cameo effect. The design elements are sharply detailed throughout and the unmarked surfaces are enhanced by shades of lavender-gray toning. From a proof mintage of just 762 pieces. Census: 22 in 65 Cameo, 70 finer (11/12). PCGS# 87331, CoinPlex ID# M\$P1896CA

**1896 Silver Dollar, PR65 Deep Cameo
Registry Set Bound**

- 6383 1896 PR65 Deep Cameo PCGS.** The proof mintage of 1896 Morgan dollars was only 762 pieces, but production values were extremely high. This date is known as a vast improvement over the earlier proofs of the decade, which were often weakly struck. The present coin is a case in point, as all devices display razor-sharp definition and pronounced frosty texture. The immaculate fields show fathomless depth of reflectivity, with highlights of light gold toning. The field/device contrast provides a bold cameo flash. This coin should find a home in a fine collection or Registry Set. Population: 3 in 65 Deep Cameo, 19 finer (12/12). PCGS# 97331, CoinPlex ID# M\$P1896DC

- 6384 1897 PR62 PCGS.** The fields are brilliantly mirrored on this lovely piece, with the devices displaying light frost. A very light scratch appears running down Liberty's cheek, however this coin displays few other marks. Subtle lilac-apricot hues cover much of the coin. This piece has a very lovely appearance. PCGS# 7332, NGC ID# 27ZV, CoinPlex ID# M\$P1897

1897 Dollar, Brilliant PR63

- 6385 1897 PR63 PCGS.** Struck from heavily polished dies that imparted deep mirroring in the fields. The devices are significantly frosted, and the combination produces a slight cameo effect. The 1897 is one of the three best-produced proof dollars struck during the 1896-1898 timeframe. As a result, when one begins with a superior product, even a few hairlines only marginally diminishes the grade and appearance. Brilliant throughout.
From The Teich Family Collection. PCGS# 7332, NGC ID# 27ZV, CoinPlex ID# M\$P1897

- 6386 1898 PR62+ Cameo PCGS.** Obvious hairlines are noted on each side of this Cameo proof, preventing a higher grade. However, this is a highly attractive piece with impressive contrast between the lustrous devices and mirrored fields. Population: 4 in 62 (1 in 62+) Cameo, 24 finer (11/12).
From The Teich Family Collection. PCGS# 87333, CoinPlex ID# M\$P1898CA

**Gem Proof 1898 Morgan Dollar
Spectacular Ultra Cameo Specimen**

- 6387 1898 PR65 Ultra Cameo NGC.** Only 735 proof Morgan dollars were struck in 1898, but the issue is known for the high quality of its survivors. This spectacular Gem exhibits richly frosted design elements that stand out dramatically against the deeply reflective fields. The unmarked surfaces show a few hints of champagne-gold toning, with exceptional eye appeal. Census: 26 in 65 Ultra Cameo, 54 finer (11/12). PCGS# 97333, CoinPlex ID# M\$P1898DC

**1899 Near-Gem Proof Morgan Dollar
Deeply Toned With Some Brilliance
Fully Struck**

- 6388 1899 PR64 PCGS.** Deep bluish-gray and reddish toning covers much of this near-Gem proof but leaves windows of brilliance in the central areas. Moreover, much field-motif contrast still shows, especially on the reverse. The design elements are fully struck, adding to the coin's eye appeal. PCGS# 7334, NGC ID# 27ZX, CoinPlex ID# M\$P1899

**Gem Proof 1899 Morgan Dollar
Stunning Cameo Example**

- 6389 1899 PR65 Cameo PCGS.** The 1899 proof Morgan dollar is always popular because of its turn-of-the-century date. The proof mintage was about average, at 846 pieces, but the business-strike emission was a paltry 330,000 coins. Accordingly, there has always been a strong date-collector demand for proofs. This spectacular Gem exhibits vivid shades of cobalt-blue and dark green toning at the rims, with mostly brilliant centers. The design elements display razor-sharp definition throughout, and the rich mint frost contrasts profoundly with the deeply mirrored fields. Population: 5 in 65 (1 in 65+) Cameo, 13 finer (11/12).
Ex: Jim S. White Collection (Stack's, 2/1960), lot 804, flip accompanies the lot.
From The Teich Family Collection. PCGS# 87334, CoinPlex ID# M\$P1899CA

-
- 6390 1900 — Altered Surfaces — PCGS Genuine. Proof, Unc. Details.** A loupe reveals faint parallel hairlines beneath the suspicious ocean-blue and canary-gold toning. Sharply struck and undeniably scarce, as it is one of only 912 proofs issued. PCGS# 7335, NGC ID# 27ZY, CoinPlex ID# M\$P1900

- 6391 1900 PR62 PCGS.** Delicate straw-gold toning adorns this precisely struck specimen. Cameo contrast is considerable though the cheek lacks sufficient frost to ensure the designation. Light hairlines determine the grade. Certified in a green label holder. PCGS# 7335, NGC ID# 27ZY, CoinPlex ID# M\$P1900

**1901 Cameo Near-Gem Dollar
Dazzling and Deeply Mirrored**

- 6392 1901 PR64 Cameo PCGS. CAC.** The 1901 is doubly popular with collectors because of the date pressure created by the scarcity of high-grade business strikes, and also this being the final year proofs were intentionally made with cameo contrast. Of the 813 proofs struck, remarkably few are known in high grade and with cameo features. This is a brilliant coin with deep, watery fields and definite contrast seen against the frosted devices. Problem-free for the grade, as underscored by the CAC endorsement. Population: 9 in 64 Cameo, 17 finer (11/12).
Ex: T. K. Harvin Collection (Stack's, 6/1959), lot 1168, flip included.
From The Teich Family Collection. PCGS# 87336, CoinPlex ID# M\$P1901CA
-

**1901 Morgan Dollar, PR66 Cameo
Only One Finer Coin at PCGS**

- 6393 1901 PR66 Cameo PCGS.** The 1901 Morgan dollar claims a business-strike mintage of nearly 7 million pieces, but few examples were saved by contemporary collectors, and the date was not well represented in the Treasury releases of the 1960s. It is likely that many of the coins were melted under the provisions of the Pittman Act in 1918. As a result, high-grade business-strike coins are rarely encountered, and date collectors often pursue a proof example to fill the space in their sets. This increased demand puts a lot of pressure on the small supply of proofs, from a mintage of just 813 pieces.

This impressive Premium Gem displays razor-sharp definition on all design elements, with deeply mirrored fields that contrast starkly with the frosty devices. A few wisps of champagne-gold toning add to the tremendous visual appeal. Population: 7 in 66 Cameo, 1 finer (12/12). PCGS# 87336, CoinPlex ID# M\$P1901CA

- 6394 1902 PR62 PCGS.** This brightly mirrored proof displays the all-brilliant finish that the Mint began using in 1902. The design elements are sharply detailed, and a few minor hairlines and contact marks explain the grade. PCGS# 7337, NGC ID# 2822, CoinPlex ID# M\$P1902

1902 Morgan Dollar, Attractively Toned PR64

- 6395 1902 PR64 PCGS. CAC.** Struck in the memorable amount of 777 proofs, the intent beginning in 1902 was to match the brilliant finish on the devices with the fields. In the case of this coin (and most others of this date) that attempt was successful. Both sides display light golden-brown toning that deepens around the margins. No overt marks can be seen on either side just light hairlining, which explains the grade.

Ex: Powers Collection (Stack's, 12/1959), lot 572, flip included.
From The Teich Family Collection. PCGS# 7337, NGC ID# 2822, CoinPlex ID# M\$P1902

- 6396 1903 PR62 PCGS.** The Mint used an all-brilliant finish on proof coins in 1903 and the deeply reflective surfaces of this attractive PR62 example show a mixed patina of gold, pink, blue, and green, with only minor signs of contact. Sharply detailed design elements add to the visual appeal.

Ex: T.K. Harvin Collection (Stack's, 6/1959), lot 1171, flip accompanies the lot.
From The Teich Family Collection. PCGS# 7338, NGC ID# 2823, CoinPlex ID# M\$P1903

**1904 Morgan Dollar, PR63
Only 650 Pieces Struck**

- 6397 1904 PR63 PCGS.** 1904 was the final date of true proof production, though rare special finish Chapman and Zerbe pieces were struck in 1921. The present 1904 specimen displays highly reflective surfaces, with freckling noted primarily on the obverse. Areas of golden-champagne add to the attractiveness along with hints of red. PCGS# 7339, NGC ID# 2824, CoinPlex ID# M\$P1904

**1904 Morgan Dollar, PR64
Variegated Toning**

- 6398 1904 PR64 PCGS. CAC.** Final year of the regular production Morgan dollars, only 650 proofs were struck. This coin was struck in the no-contrast method of proofing that began in 1902. Each side displays variegated dabs and streaks of golden-russet, blue, and hazy brilliance. The devices are fully struck and there are no obvious defects on either side.
From The Teich Family Collection. PCGS# 7339, NGC ID# 2824, CoinPlex ID# M\$P1904

PEACE DOLLARS

- 6399 1921 MS65 PCGS. VAM-1A, R.6.** A dramatic VAM variety. A vertical die break on the right reverse field is accompanied by coarse polish lines, all as made. Lustrous and close to brilliant with delicate honey toning noted here and there. PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921
- 6400 1921 MS65 PCGS. VAM-1D, R.5.** VAMworld.com describes the variety as a "flat top die flake at [the] junction of temple and hair" although we would describe the flake position as the field near the upper forehead. Lightly toned almond-gold and powder-blue. The centers show blending customary for the single-year high relief type.
Ex: Long Beach Signature (Heritage, 6/2006), lot 2801, which realized \$1,725. PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921
- 6401 1921 MS65 PCGS. VAM-1F.** Struck from the die pair used to produce matte proofs, though the present Gem shows cartwheel luster and is unquestionably a business strike. Dappled wheat-gold toning overlies the pristine reverse and the lightly marked obverse.
Ex: Baltimore Signature (Heritage, 7/2003), lot 8992, which realized \$2,300. PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921
- 6402 1921 MS65 PCGS.** The high relief design elements show the usual softness on Liberty's hair, but the devices are well-detailed in other areas. Shades of golden-brown, lavender, and amber patina enliven the well-preserved surfaces PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921
- 6403 1921 MS65 PCGS. CAC.** Medium butter-gold toning adorns this coruscating and well preserved Gem. Dappled cobalt-blue toning visits the central reverse. Nicely struck for the high relief date. Housed in a first generation holder. PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921
- 6404 1921 MS65 PCGS. CAC.** An unusually attractive specimen of the first Peace dollar issue, with well-detailed high relief design elements and vibrant mint luster on both sides. Just a trace of pale gold toning adds to the considerable visual appeal. PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921

**1921 Peace Dollar, MS66
Only Six Finer at NGC**

- 6405 1921 MS66 NGC. CAC.** The 1921 Peace dollar is a one-year curiosity as it is the only 20th century silver coin struck in high relief. Just over 1 million pieces were produced, and a paltry 13 coins combined, as graded by NGC and PCGS, are finer than this Premium Gem example (11/12). The surfaces are brilliant, particularly on the reverse, and the coin exhibits only minor abrasions. The reverse displays a better strike than the obverse with its usual slight softness in the center. NGC ID# 2U4E, PCGS# 7356, CoinPlex ID# P\$M1921
- 6406 1922-S MS65 PCGS.** This well-detailed Gem displays subtle satiny mint luster, under shades of golden-brown and lavender toning. PCGS has certified only seven coins in higher numeric grades (12/12). PCGS# 7359, NGC ID# 257E, CoinPlex ID# P\$M1922S
- 6407 1922-S MS65 PCGS. CAC.** Medium chestnut-gold toning fails to deny the shimmering cartwheel luster that sweeps both sides of this delightful Gem. The piece is void of abrasions, and the strike shows only minor incompleteness at the centers. Population: 286 in 65 (4 in 65+), 7 finer (11/12).
Ex: Orlando FUN Signature (Heritage, 7/2010), lot 4304. PCGS# 7359, NGC ID# 257E, CoinPlex ID# P\$M1922S
- 6408 1922-S MS65 PCGS. CAC.** A sharper-than-usual strike is apparent on the well-detailed design elements of this delightful Gem, with brilliant surfaces and vibrant mint luster. Eye appeal is terrific. PCGS has graded only seven coins in numerically finer grades (12/12). PCGS# 7359, NGC ID# 257E, CoinPlex ID# P\$M1922S

**Premium Gem 1923-D Peace Dollar
Tied for Finest Certified**

- 6409 1923-D MS66 NGC.** A high mintage of 6.8 million coins was sufficient to supply collectors over the next nine decades, and examples remain plentiful in lower Mint State grades. However, this Premium Gem is one of only 99 similar examples at NGC and PCGS, and it is tied for finest certified. Both sides are brilliant and sharply struck with untuned, satiny white surfaces. Census: 23 in 66, 0 finer (12/12). NGC ID# 257G, PCGS# 7361, CoinPlex ID# P\$M1923D

**1923-D Peace Dollar, MS66
Tied for Finest**

6410 1923-D MS66 PCGS. CAC. Here is a sensational 1923-D Peace dollar that exhibits brilliant silver surfaces with sharp design motifs and frosty, untoned white surfaces. Although a few trivial marks are evident on each side, the surfaces are pristine and the eye appeal is grand. Population: 76 in 66 (1 in 66+), 0 finer (12/12). PCGS# 7361, NGC ID# 257G, CoinPlex ID# P\$M1923D

**1923-S Peace Dollar, MS65
Only One Finer Coin at NGC**

6411 1923-S MS65 NGC. This well-detailed 1923-S Peace dollar is an exception to the rule, as most examples seen are weakly struck. This coin is better than average, with some softness on the eagle's feathers. The lustrous surfaces show a few streaks of apple-green toning. Census: 77 in 65, 1 finer (12/12). NGC ID# 257H, PCGS# 7362, CoinPlex ID# P\$M1923S

**Gem 1923-S Peace Dollar
Frosted Mint Luster**

6412 1923-S MS65 PCGS. CAC. This Gem has surfaces that exude bright, coruscating mint frost, a trait common to this issue. Additionally, each side is notably free from abrasions. The strike is a bit soft in the centers, another trait common to this well-known strike rarity in the Peace dollar series. PCGS has assigned higher grades to a mere 3 examples (11/12). PCGS# 7362, NGC ID# 257H, CoinPlex ID# P\$M1923S

**1924-S Peace Dollar, MS65
Rarely Found Finer**

6413 1924-S MS65 PCGS. A few trivial marks are evident in the fields of this frosty, original Peace dollar. Both sides of this condition rarity are fully lustrous with splashes of gold and iridescent toning near the borders, around the silver devices. Population: 75 in 65 (1 in 65+), 5 finer (12/12). PCGS# 7364, NGC ID# 257K, CoinPlex ID# P\$M1924S

**Gem 1924-S Peace Dollar
Challenging Issue in High Grade**

6414 1924-S MS65 PCGS. CAC. The 1924-S Peace dollar is one of the most challenging issues of the series in high grade. This attractive Gem displays well-detailed design elements and vibrant mint luster, with just a hint of pale gold toning. The smooth surfaces are free of mentionable distractions. Population: 75 in 65 (1 in 65+), 5 finer (12/12). PCGS# 7364, NGC ID# 257K, CoinPlex ID# P\$M1924S

**1924-S Dollar, MS65
Only Five Numerically Finer PCGS Examples**

6415 1924-S MS65 PCGS. CAC. The 1924-S is an elusive issue, especially in high grade. This lovely Gem example is well-detailed, with vibrant mint luster along with subtle hints of rose-pink color. Minor surface marks appear on each side. Population: 74 in 65 (1 in 65+), 5 finer (11/12). PCGS# 7364, NGC ID# 257K, CoinPlex ID# P\$M1924S

**1925 Peace Dollar, MS67
Only One Finer at PCGS**

6416 1925 MS67 PCGS. This amazing Superb Gem has brilliant silver surfaces with satin luster and sharp design motifs, showing no strike weakness on either side. This untoned Peace dollar is likely headed into a world-class Registry collection. Population: 75 in 67, 1 finer (12/12). PCGS# 7365, NGC ID# 257L, CoinPlex ID# P\$M1925

6417 1925-S MS64+ PCGS. CAC. An appealing high-end near-Gem, this key date piece displays brilliant, lustrous surfaces. These are challenging to locate in a nice Uncirculated condition. PCGS has assigned higher numeric grades to only 36 examples (11/12). PCGS# 7366, NGC ID# 257M, CoinPlex ID# P\$M1925S

6418 1925-S MS64+ PCGS. CAC. Though softly struck, this piece retains attractive luster and nice eye appeal. A few small marks and scrapes preclude Gem status. PCGS has assigned higher numeric grades to only 36 examples (12/12). PCGS# 7366, NGC ID# 257M, CoinPlex ID# P\$M1925S

6419 1926 MS66 PCGS. Vibrant mint luster and sharply detailed design elements are the hallmarks of this spectacular Premium Gem. Just a wisp of light gold toning is evident on both sides. PCGS has graded no examples in higher numeric grades (12/12). PCGS# 7367, NGC ID# 257N, CoinPlex ID# P\$M1926

6420 1926 MS66 PCGS. CAC. A delightful Premium Gem, with vibrant mint luster and sharply detailed design elements. A few specks of light gold toning enliven the pristine surfaces. PCGS has graded no coins in higher numeric grades (12/12). PCGS# 7367, NGC ID# 257N, CoinPlex ID# P\$M1926

**1926-D Peace Dollar, MS66
Only Eight Finer at PCGS**

6421 1926-D MS66 PCGS Secure. CAC. The mintage of 1926-D Peace dollars was a modest 2.3 million coins, and survivors are generally found in low Mint State grades. This Premium Gem, with its satin luster and silver brilliance, is a beautiful coin for a top Registry set. Both sides are untuned with pristine surfaces showing only minuscule, scattered marks. PCGS has only certified eight finer examples (12/12). PCGS# 7368, NGC ID# 257P, CoinPlex ID# P\$M1926D

**Gem 1927-D Peace Dollar
Just Three Finer Coins at NGC**

6422 1927-D MS65 NGC. Among Denver Mint Peace dollars, the 1927-D is the second-rarest issue in high grade, as most Uncirculated examples were indifferently stored and display bagmarks. This impressive Gem is sharply struck and lustrous with pleasing shades of peripheral golden-brown toning. Housed in a prior generation holder. Census: 74 in 65, 3 finer (11/12). NGC ID# 257T, PCGS# 7371, CoinPlex ID# P\$M1927D

Well-Struck Gem 1927-D Dollar

6423 1927-D MS65 PCGS. CAC. Caramel-gold and pearl-gray are prevalent with the former color more prominent at the margins. This lustrous Gem has an exemplary strike and only minor marks. A low mintage issue that is collectible in typical Uncirculated grades but becomes very scarce at the MS65 level. PCGS# 7371, NGC ID# 257T, CoinPlex ID# P\$M1927D

6424 1927-S MS64 PCGS. The 1927-S Peace dollar boasts a low mintage of 866,000 pieces. This lovely near-Gem displays a number of olive-green and dark gray freckles, primarily on the obverse. Only 66 pieces have achieved higher numeric grades from PCGS (11/12). PCGS# 7372, NGC ID# 257U, CoinPlex ID# P\$M1927S

Brilliant Gem 1928 Silver Dollar

6425 1928 MS65 PCGS. CAC. The 1928 has an enduring popularity with collectors of this short series. Only 340,649 pieces were struck, the lowest mintage in the series. This is a lovely, original coin with above-average mint luster. Faint shades of pink and apricot appear. PCGS and NGC combined have assigned higher numeric grades to a mere 13 examples (11/12). PCGS# 7373, NGC ID# 257V, CoinPlex ID# P\$M1928

6426 1928-S MS64 PCGS. CAC. This well-detailed near-Gem Peace dollar exhibits vibrant mint luster under attractive shades of golden-brown patina. PCGS has graded 48 numerically finer examples (12/12). PCGS# 7374, NGC ID# 257W, CoinPlex ID# P\$M1928S

Well-Struck MS66 1934 Silver Dollar
Excellent Eye Appeal

6427 1934 MS66 NGC. Rich golden-brown, jade-green, and powder-blue toning fills the margins of this lustrous and sharply struck Premium Gem. Exceptionally devoid of contact, and an ideal selection for the collector who seeks a desirable piece at a reasonable price. The low mintage 1934 is readily secured in the MS64 grade, but Premium Gems are very scarce. Certified in a former generation holder. Census: 35 in 66, 5 finer (11/12). NGC ID# 257X, PCGS# 7375, CoinPlex ID# P\$M1934

6428 1934-D MS65 PCGS. Medium D. The obverse shows light chestnut-gold and ice-blue toning, but the reverse has a prominent central vertical streak of rich cobalt-blue, plum-mauve, and autumn-brown patina. Crisply struck and lustrous with nearly pristine fields and only faint facial grazes. PCGS# 7376, NGC ID# 257Y, CoinPlex ID# P\$M1934D

Two-Toned Premium Gem 1934-D Dollar

6429 1934-D MS66 PCGS. Ex: Larry Shapiro. Micro D. Autumn-gold and ice-blue toning graces this lustrous, well preserved, and boldly struck Premium Gem. Excluding the non-collectible 1964-D, the 1934-D is the only Denver issue struck after 1927. The typical example grades MS63, and few pieces compare favorably with the present nearly pristine lot. Population: 58 in 66, 2 finer (12/12). PCGS# 7376, NGC ID# 257Y, CoinPlex ID# P\$M1934D

1934-D Peace Dollar, MS66
Only Two Finer at NGC

6430 1934-D MS66 NGC. Mintages dwindled at the end of the Peace dollar series, with no issues after 1926 reaching 2 million coins. This Premium Gem is a lovely specimen with pale champagne toning over brilliant surfaces. Minimal surface marks are evident. Census: 28 in 66, 2 finer (12/12). NGC ID# 257Y, PCGS# 7376, CoinPlex ID# P\$M1934D

Attractive Near-Gem 1934-S Peace Dollar

6431 1934-S MS64 PCGS. The 1934-S Peace dollar is an important key, from a mintage of just over 1 million pieces. This delightful near-Gem offers well-detailed design elements and vibrant mint luster on both sides. The coin exhibits minimal abrasions and has a very attractive appearance. PCGS# 7377, NGC ID# 257Z, CoinPlex ID# P\$M1934S

6432 1935 MS66 NGC. A frosty example from the last year of production with bright silver luster. The obverse has only a few shallow luster grazes, though a vertical line is noted on the lower edge of the eagle's wing. NGC ID# 2582, PCGS# 7378, CoinPlex ID# P\$M1935

EISENHOWER DOLLAR

Superb Gem 1978-D Eisenhower
Tied for Finest Known

6433 1978-D MS67 NGC. Frank Gasparro designed the Eisenhower dollars. Casinos were among the intended recipients of these pieces. Not surprisingly given the amount of surface area, many of the coins exhibit bagmarks, particularly the earlier dated examples. Lustrous apricot-gold surfaces appear on this Superb Gem along with areas of red, bright yellow, and silver blue-green colors. The piece displays a well-executed strike. Although contact marks are present, none are worthy of individual mention. NGC has awarded the MS67 grade to only three other examples and PCGS has graded a single example at this level, with neither service having awarded a higher numeric grade to a single example (12/12). NGC ID# 258R, PCGS# 7426, CoinPlex ID# I\$M1978D

PROOF EISENHOWER DOLLAR

Perfect PR70 Deep Cameo 1976-S Dollar
Silver, Type One Bicentennial Striking

- 6434** 1976-S Silver, Type One PR70 Deep Cameo PCGS. A perfect proof 1976-S 40% silver Eisenhower dollar, with incredible field/device contrast on both sides. The surfaces are brilliant throughout. The Type One issue features thick reverse lettering on the reverse, and on the obverse Eisenhower's neck lacks a crease that is seen on the Type Two issue. Population: 16 in 70 Deep Cameo (11/12).
Ex: Central States Signature (Heritage, 4/2008), lot 3131; FUN Signature (Heritage, 1/2010), lot 3142, where it brought \$4,600.
PCGS# 97436, NGC ID# 258Y, CoinPlex ID# 1\$P1976SSILVDC

COMMEMORATIVE SILVER

1893 Isabella Quarter, MS66
Four Points Above Average

- 6435** 1893 Isabella Quarter MS66 PCGS. Offered at the same event, the Isabella quarter was originally priced at \$1.00, as was the Columbian half dollar, and for that reason, the half dollar appeared to be a better buy. However, for later collectors, that meant that the half dollars were common, and the quarters were scarce. The same holds true today. This delightful Premium Gem has frosty luster beneath rich gold toning, the borders hosting blue and iridescent accents. PCGS# 9220, NGC ID# 28HR, CoinPlex ID# COM1893ISABELLA

1893 Isabella Quarter, MS66
Design by Charles Barber

- 6436** 1893 Isabella Quarter MS66 PCGS. Although Bertha Palmer, head of the Board of Lady Managers, would have preferred that a woman prepare the design, the art was accomplished by Charles Barber, the reverse based on a sketch by George T. Morgan. This Premium Gem nicely illustrates the design, with frosty luster beneath gold and iridescent toning. PCGS has only certified 37 finer examples (12/12). PCGS# 9220, NGC ID# 28HR, CoinPlex ID# COM1893ISABELLA

Premium Gem 1893 Isabella Quarter
First Commemorative Quarter

- 6437** 1893 Isabella Quarter MS66 PCGS. CAC. This lovely Gem is flowing with satin luster that is uninhibited by mentionable abrasions or grazes. Sharply struck, both sides are lightly patinated in pale-gold hues. From a small distribution total of 24,214 pieces. PCGS has certified 37 numerically finer specimens (12/12). PCGS# 9220, NGC ID# 28HR, CoinPlex ID# COM1893ISABELLA

- 6438** 1900 Lafayette Dollar MS64 NGC. DuVall 1-B. Rich peach-red and forest-green alternate across this lustrous and crisply struck silver dollar. The surfaces are smooth aside from minor marks on the reverse field and Washington's portrait. NGC ID# 28N8, PCGS# 9222, CoinPlex ID# COM1900LAFAYETTE

- 6439** 1900 Lafayette Dollar MS64 PCGS. DuVall 2-C. Delicate chestnut-tan toning enriches this lustrous and sharply struck near-Gem. Minimally abraded except for inconspicuous marks on the jugate portraits. All Lafayette dollars were coined on a single day, the exact centennial of Washington's death.
From The Big E Collection. PCGS# 9222, NGC ID# 28N8, CoinPlex ID# COM1900LAFAYETTE

- 6440** 1900 Lafayette Dollar MS64 PCGS. DuVall 2-C. This is a common variety with the second S in STATES repunched. A Choice Mint State example, this commemorative was minted in December 1899. Both sides are frosty and lustrous with brilliant silver surfaces beneath champagne toning, with splashes of gold. PCGS# 9222, NGC ID# 28N8, CoinPlex ID# COM1900LAFAYETTE

**Gem 1900 Lafayette Dollar
First Silver Dollar Commemorative**

- 6441 1900 Lafayette Dollar MS65 PCGS. DuVall 1-B.** Attractive shades of apple-green, violet, and lavender-gray toning blanket the surfaces of this charming Gem in a delightful play of colors. The design elements are sharply detailed throughout and the well-preserved surfaces show only insignificant signs of contact. Eye appeal is outstanding. PCGS# 9222, NGC ID# 28N8, CoinPlex ID# COM1900LAFAYETTE

- 6442 1921 Alabama MS65 PCGS. CAC.** Thomas Erby Kilby, the governor of Alabama in 1921, became the first living person to appear on a U.S. coin when he appeared with predecessor William Wyatt Bibb on the Alabama half. This lustrous and smooth Gem offers delicate ice-blue and almond-gold shades. Certified in a green label holder. PCGS# 9224, NGC ID# 28HT, CoinPlex ID# COM1921ALA

**1921 Alabama Half, MS66+
Only Two Finer at PCGS**

- 6443 1921 Alabama MS66+ PCGS Secure.** Ex: Bruce Scher. The late Bruce Scher assembled a remarkable collection of commemorative coins with an emphasis on toning and originality. This Premium Gem Alabama half dollar is just one example with frosty silver luster. The obverse has delicate gold and heather toning, while the reverse enjoys traces of champagne toning on brilliant silver surfaces. Population: 84 in 66 (4 in 66+), 2 finer (12/12). PCGS# 9224, NGC ID# 28HT, CoinPlex ID# COM1921ALA

- 6444 1921 Alabama 2x2 MS65 PCGS.** At the time of issue, these pieces were not popular with collectors and most were sold to the general public. As a result, fewer high-grade examples survived compared to some of the other Commemorative issues. Rich satin luster emanates from both sides of this bright well-struck and well-preserved Gem. Splashes of wine and sage-green toning appear primarily at the outer edges at the top of the obverse. Minor surface marks appear. PCGS# 9225, NGC ID# 28HS, CoinPlex ID# COM1921ALA2X2

- 6445 1936 Albany MS67 PCGS.** Beautifully struck, this lustrous example is largely ringed by deep gold toning, including shades of green and deep red. Only a few minor abrasions appear. PCGS has assigned a higher numeric grade to only one example (11/12). PCGS# 9227, NGC ID# 28HU, CoinPlex ID# COM1936ALBANY

- 6446 1936 Albany MS67 PCGS.** Although 25,013 pieces were struck, 7,342 were melted, limiting the distribution to 17,671 examples. Areas of toning appear along the peripheries on both sides of this lustrous example, with the colors considerably bolder on the obverse. Green, red, yellow, blue-green, and orange are among the hues and splashes of color are intermingled in some areas, creating lovely visual appeal. Surface marks are present, including in the obverse field between the figures. PCGS has only assigned a higher numeric grade to a single example (12/12). PCGS# 9227, NGC ID# 28HU, CoinPlex ID# COM1936ALBANY

- 6447 1936 Albany MS67 PCGS. CAC.** Olive-gold and ice-blue shades endow this lustrous and boldly struck high grade commemorative type coin. Virtually unobtainable any finer. Housed in a green label holder.

Ex: Orlando FUN Signature (Heritage, 1/2004), lot 9340, which realized \$1,380.

From The Big E Collection. PCGS# 9227, NGC ID# 28HU, CoinPlex ID# COM1936ALBANY

- 6448 1936 Albany MS67 NGC. CAC.** Portions of both sides of this Superb Gem display brilliant toning, including shades of bright green and pink. Dark gray freckles also cover portions of the coin. NGC and PCGS combined have awarded higher numeric grades to only 6 pieces (11/12). NGC ID# 28HU, PCGS# 9227, CoinPlex ID# COM1936ALBANY

- 6449 1937 Antietam MS67 PCGS.** Iridescent toning almost entirely rings both sides of this well-struck piece. The colors range from golden-pink to bright sea-green, with splashes of deep pink, dark aquamarine, and reddish-purple also appearing. This is a lovely Superb Gem example. PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM

- 6450 1937 Antietam MS67 PCGS. CAC.** This well struck Superb Gem is fully patinated in lemon-gold, lime-green, and steel-gray shades. Lustrous and close to pristine. A popular Civil War type. Encapsulated in a green label holder. PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM

- 6451 1937 Antietam MS67 PCGS. CAC.** An exemplary Antietam, this Superb Gem displays plenty of eye appeal. Iridescent amber patina at the outer edges, along with traces of vibrant red, enhances the appearance of the bright, frosted luster. PCGS has graded only 15 numerically finer examples (11/12). PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM

**1937 Antietam Half, MS68
Tied for Finest at PCGS**

- 6452 1937 Antietam MS68 PCGS.** Ex: Bruce Scher. This piece is tied for the finest that PCGS has certified, exhibiting a remarkable display of emerald and iridescent toning over frosty silver luster. A sharply defined piece, this half dollar exhibits considerable silver brilliance on the reverse. Population: 15 in 68 (3 in 68+), 0 finer (12/12). PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM

6453 1935-D Arkansas MS67+ PCGS Secure. Ex: Bruce Scher. Approximately two-thirds of the obverse rim exhibits bold toning in shades of iridescent brilliant deep yellow, gold, red, sage-green, and light teal. A smaller area of yellow, gold, and red appears at portions of the reverse periphery. The surfaces display only a few minor contact marks. Population: 44 in 67 (5 in 67+), 1 finer (12/12). PCGS# 9234, NGC ID# 28HX, CoinPlex ID# COM1935DARK

**1935-S Arkansas Half Dollar, MS67
Tied for Finest Certified**

6454 1935-S Arkansas MS67 PCGS. CAC. Exceptionally clean surfaces for this normally heavily abraded issue. Both sides are lightly covered with gentle silver-gray toning, golden-russet accents are at the borders. A must-see coin for the commemorative specialist and well worth stretching to acquire. Population: 17 in 67 (1 in 67+), 0 finer (11/12). From *The Big E Collection*. PCGS# 9235, NGC ID# 28HY, CoinPlex ID# COM1935SARK

6455 1936-D Arkansas MS67 PCGS Secure. Ex: Bruce Scher. Powder-blue, jade-green, and straw-gold encompass the obverse. The reverse displays pastel lilac and caramel shades. Coruscating and well struck with exemplary preservation. Population: 24 in 67, 1 finer (12/12). PCGS# 9238, NGC ID# 28J2, CoinPlex ID# COM1936DARK

**Superb Gem 1936-S Arkansas Half
Ex: Bruce Scher**

6456 1936-S Arkansas MS67 PCGS Secure. Ex: Bruce Scher. Orange patina at much of the borders frames richly toned, smoothly lustrous silver-gray on the interiors. Only a few small, stray marks affect each side, none of them seriously influencing the eye appeal. A great condition rarity. Population: 12 in 67 (1 in 67+), 0 finer (12/12). PCGS# 9239, NGC ID# 28J3, CoinPlex ID# COM1936SARK

**1937-D Arkansas Half Dollar, MS67
None Certified Finer at NGC**

6457 1937-D Arkansas MS67 NGC. From a low distribution total of 5,505 pieces, the 1937-D Arkansas half dollar was produced to a higher standard of quality than earlier dates of this issue, which was first struck in 1935. The present coin is a pleasing Superb Gem, with sharply detailed design elements and flawless surfaces that show a few hints of gold and lavender toning. Census: 11 in 67, 0 finer (11/12). NGC ID# 28J5, PCGS# 9242, CoinPlex ID# COM1937DARK

Satiny MS67 1937-D Arkansas Half

6458 1937-D Arkansas MS67 NGC. The net distribution of the 1937-D Arkansas half issue was only a pinch more than 5,500 coins, and this Superb Gem is among the few finest survivors, even though there is one MS68 at PCGS. The surfaces still present largely as gray, with a satiny appearance and a tinge of pinkish tone and a thin ring of deeper amber near the rims. There are no troublesome marks. Census: 11 in 67, 0 finer (12/12). NGC ID# 28J5, PCGS# 9242, CoinPlex ID# COM1937DARK

**MS67 1937-D Arkansas Half
Only One Numerically Finer Coin at PCGS**

6459 1937-D Arkansas MS67 PCGS. This spectacular Superb Gem displays razor-sharp definition on all design elements, with vibrant satiny mint luster and subtle hints of golden-brown toning. Only 5,505 examples of the 1937-D were actually distributed, and the issue is quite rare in Superb Gem Condition. Population: 17 in 67 (1 in 67+), 1 finer (12/12). PCGS# 9242, NGC ID# 28J5, CoinPlex ID# COM1937DARK

6460 1938 Arkansas MS66+ PCGS. CAC. Thin areas of deep toning largely frame the lustrous satin surfaces, particularly on the obverse. The color includes beautiful iridescent rainbow hues on this well-struck coin. Population: 90 in 66 (5 in 66+), 7 finer (12/12). PCGS# 9245, NGC ID# 28J7, CoinPlex ID# COM1938ARK

**1939 Arkansas Half Dollar, MS66+
Only 2,104 Pieces Distributed**

6461 1939 Arkansas MS66+ PCGS. Ex: Bruce Scher. The net distribution figure for the 1939 Arkansas half dollar was a meager 2,104 pieces, one of the smallest totals in the silver commemorative series. This high-end Premium Gem is sharply detailed and lustrous, with a few hints of apple-green toning and exceptional eye appeal. Population: 37 in 66 (4 in 66+), 2 finer (12/12). PCGS# 9249, NGC ID# 28JA, CoinPlex ID# COM1939ARK

6462 1939-D Arkansas MS66+ PCGS. CAC. Areas of toning in shades of brown and yellow, with a few flecks of bold blue, green and fuchsia mixed in, appear at portions of the outer edges on this high-end Premium Gem. The piece displays attractive luster and is minimally abraded. Only 7 examples have been awarded higher numeric grades by PCGS (12/12). PCGS# 9250, NGC ID# 28JB, CoinPlex ID# COM1939DARK

**1939-D Arkansas Half Dollar, MS67
Only One Certified Finer**

6463 1939-D Arkansas MS67 PCGS. Mintages dwindled at the end of the Arkansas series, as few contemporary collectors had an interest in such pieces. Of course, that means that today's collectors are challenged to find nice examples such as this Superb Gem. Only one finer example has been certified, and few others could possibly match the quality of this brilliant and highly lustrous beauty, with its delicate peripheral gold toning. Population: 6 in 67 (1 in 67+), 1 finer (11/12). PCGS# 9250, NGC ID# 28JB, CoinPlex ID# COM1939DARK

6464 1936-S Bay Bridge MS67 PCGS. Areas of deep rainbow toning encompass the fields and legends on the obverse, however the bear remains largely free of toning other than his ears and a small portion of his left rear leg. The intricate reverse design displays an appealing light champagne cast. Only 9 pieces have achieved higher numeric grades from PCGS (11/12). PCGS# 9254, NGC ID# 28JD, CoinPlex ID# COM1936SBAYBRG

6465 1936-S Bay Bridge MS67 PCGS. CAC. Subtly frosted luster swirls on each side. The obverse remains largely silver-gray with gold, steel-blue, and claret border-toning, but those hues embrace the entire reverse. Conditionally rare any finer. PCGS# 9254, NGC ID# 28JD, CoinPlex ID# COM1936SBAYBRG

**1935 Boone Half Dollar, MS67+
Tied for Finest at PCGS**

6466 1935 Boone MS67+ PCGS. CAC. This Superb Gem carries the PCGS Plus designation and a CAC sticker for its incredible eye appeal. Both sides exhibit frosty mint brilliance at the centers, with peripheral russet, violet, blue, and green. A remarkable presentation. Population: 40 in 67 (3 in 67+), 0 finer (12/12). Ex: *Stack's-Bowers (11/2010), lot 4464*. PCGS# 9258, NGC ID# 28JF, CoinPlex ID# COM1935BOONE

**Superb Gem 1935-S Boone Half Dollar
Only One Numerically Finer Coin at PCGS**

6467 1935-S Boone MS67 PCGS. CAC. This spectacular Superb Gem is sharply detailed and lustrous, with light shades of champagne-gold patina and terrific eye appeal. The 1935-S Boone half dollar claims a small distribution of 5,005 pieces. Housed in a green label holder. Population: 19 in 67 (1 in 67+), 1 finer (12/12). PCGS# 9260, NGC ID# 28JH, CoinPlex ID# COM1935SBOONE

6468 1935/34-D Boone MS67 PCGS. CAC. The 1935/4-D Boone half is the single lowest-mintage classic silver commemorative issue with a mintage of only 2,003 pieces. The creamy, pristine surfaces of this Superb Gem are virtually untuned and unperturbed, save for a thin ring of amber-gold at the extreme rims. Population: 54 in 67 (1 in 67+), 7 finer (12/12).

Ex: *Long Beach Signature (Heritage, 2/2010), lot 774, which realized \$2,990*. PCGS# 9263, NGC ID# 28JK, CoinPlex ID# COM1935OVR34DBOONE

**1935/34-D Boone Half Dollar, MS68
None Certified Finer at PCGS**

6469 1935/34-D Boone MS68 PCGS Secure. Ex: Bruce Scher. The Daniel Boone commemorative half dollar was originally issued in 1934 to celebrate the 200th anniversary of the famous scout's birth. The coins were issued again in 1935, with that date in the exergue and a small 1934 in the field to preserve the commemorative character of the issue. Only 2,003 examples of the 1935/34 issue were struck at the Denver Mint.

The present coin is an incredible MS68 specimen, with sharply detailed design elements and vibrant satiny mint luster. A few hints of champagne-gold and lavender patina grace the virtually pristine surfaces, adding to the tremendous eye appeal. Population: 7 in 68, 0 finer (12/12). PCGS# 9263, NGC ID# 28JK, CoinPlex ID# COM1935OVR34DBOONE

**Superb Gem 1935/34-S Boone Half Dollar
Only Two Finer at PCGS**

6470 1935/34-S Boone MS67 PCGS. Rich russet, green, and iridescent toning at least partially frames each side. Only the wispiest frost breaks on the frontiersman's cheek reveal contact of any sort. Quite scarce in this near-ultimate condition. Population: 16 in 67, 2 finer (12/12). PCGS# 9264, NGC ID# 28JL, CoinPlex ID# COM1935OVR34SBOONE

6471 1936-D Boone MS67 PCGS. The lustrous surfaces of this Superb Gem display a swath of medium intensity multicolored toning at the upper obverse border and possess well-struck design features. A few minor obverse marks are noted. Population: 25 in 67 (2 in 67+), 0 finer (12/12).

Ex: ANA Fort Worth Signature (Heritage, 3/2010), lot 1761. PCGS# 9267, NGC ID# 28JN, CoinPlex ID# COM1936DBOONE

6472 1936-D Boone MS67+ PCGS. Beautiful lime-green, caramel-gold, and steel-gray toning visits lustrous and pristine surfaces. Fully struck, as usual for the Boone type. Population: 25 in 67 (2 in 67+), none finer (12/12). PCGS# 9267, NGC ID# 28JN, CoinPlex ID# COM1936DBOONE

MS67+ 1937 Boone

6473 1937 Boone MS67+ PCGS. CAC. A lovely high-end Superb Gem, this piece displays areas of light gold and peach toning around portions of the outer edges. The obverse exhibits a deep satin luster, while the reverse displays more brilliance. Only a few extremely minor contact marks appear. Population: 76 in 67 (2 in 67+), 3 finer (11/12). PCGS# 9270, NGC ID# 28JR, CoinPlex ID# COM1937BOONE

6474 1936 Bridgeport MS67 PCGS. The obverse features a portrait of P.T. Barnum while the reverse exhibits an art deco-style eagle. This Superb Gem displays lustrous, minimally marked surfaces. Scattered flecks of golden-brown toning appear primarily on the obverse. Population: 62 in 67 (2 in 67+), 0 finer (12/12). PCGS# 9279, NGC ID# 28JX, CoinPlex ID# COM1936BRIDGEPT

**1925-S California Half, Toned MS67
Bright Underlying Mint Luster**

- 6475 1925-S California MS67 PCGS.** Bright sparkling mint luster and rich, multicolored toning are the dual characteristics of this Superb commemorative half. As one would expect from the lofty grade, the surfaces do not display any noticeable abrasions. The irregular, textured fields are an interesting design feature of the California half.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9281, NGC ID# 28JY, CoinPlex ID# COM1925SCALIF

- 6476 1936-D Cincinnati MS66 PCGS.** The Cincinnati ranks among the lowest mintage types, despite an equal division into three mintmark varieties. Pastel caramel-gold and powder-blue shades endow this lustrous and intricately struck example. Pristine aside from a graze to the right of the harp. Housed in a green label holder. PCGS# 9284, NGC ID# 28K2, CoinPlex ID# COM1936DCINCI

- 6477 1936-D Cincinnati MS66+ PCGS. CAC.** A desirable low mintage type, this example features iridescent honey-gold, bright orange, and light mint-green toning along the reverse periphery, encircling the personification of Music. The obverse includes shades of lilac, dusty-pink, yellow and light russet. This well-struck piece is quite pleasing. PCGS# 9284, NGC ID# 28K2, CoinPlex ID# COM1936DCINCI

- 6478 1936-D Cincinnati MS66+ PCGS. CAC.** Small areas of toning in a variety of colors, including cherry-red, iridescent lime-green, ice-blue, and golden-orange appear on both sides. The neck and face exhibit minor contact marks. A total of 14 examples have received the 66+ grade from PCGS, with 34 finer (12/12). PCGS# 9284, NGC ID# 28K2, CoinPlex ID# COM1936DCINCI

**MS67 1936-D Cincinnati
Only One Finer**

- 6479 1936-D Cincinnati MS67 PCGS.** An appealing Superb Gem, this piece exhibits uncommonly powerful luster and above-average definition for this infamous Denver commemorative issue. Dappled silver-gray, golden-tan, and rose patina visits each side, and the overall visual appeal is remarkable for this well-preserved survivor. Population: 33 in 67, 1 finer (11/12).

Ex: FUN Signature (Heritage, 1/2008), lot 2309. PCGS# 9284, NGC ID# 28K2, CoinPlex ID# COM1936DCINCI

- 6480 1936 Columbia MS67+ PCGS Secure.** Ex: Bruce Scher. Toning largely covers the legends at the outer rings on both sides of this high-end Superb Gem. The colors include varying iridescent shades of yellow, orange, red, and green. The central fields and devices display minor amounts of toning. Population: 62 in 67 (4 in 67+), 0 finer (12/12). PCGS# 9291, NGC ID# 28K5, CoinPlex ID# COM1936COLUMBIA

- 6481 1936 Columbia MS67+ PCGS. CAC.** The 1936 Columbia half dollar claims a distribution total of 9,007 pieces. The issue was well-produced, and this magnificent example displays razor-sharp definition on all of the design elements, with ample satiny mint luster. A pleasing ring of champagne-gold toning appears at the extreme peripheries. Population: 61 in 67 (4 in 67+), 0 finer (11/12). PCGS# 9291, NGC ID# 28K5, CoinPlex ID# COM1936COLUMBIA

- 6482 1936-D Columbia MS67+ PCGS. CAC.** Toning at the extreme outer edges provides attractive visual appeal to this high-end Superb Gem that displays a full strike and satiny luster. A few small freckles appear throughout. PCGS has only awarded the 67+ grade to 7 other examples, with 20 finer (11/12). PCGS# 9292, NGC ID# 28K6, CoinPlex ID# COM1936DCOLUMBIA

- 6483 1892 Columbian MS66 PCGS. CAC.** Delicate iridescent blues, greens, golds, and reds enrich both sides of this lustrous Premium Gem. The obverse displays a high degree of reflectivity. PCGS has assigned higher numeric grades to only 13 examples (11/12). PCGS# 9296, NGC ID# 26H5, CoinPlex ID# COM1892COLUMBIAN

1892 Columbian Half, MS66+

- 6484 1892 Columbian MS66+ PCGS. CAC.** The first of two Columbian Exposition half dollars, this Premium Gem has frosty silver luster on both sides, exhibiting sharp central details within a frame of blue, green, and gold toning. PCGS has only certified 13 finer examples of this commemorative issue (12/12). PCGS# 9296, NGC ID# 26H5, CoinPlex ID# COM1892COLUMBIAN

**1892 Columbian Half Dollar
Attractively Toned Superb Gem**

- 6485 1892 Columbian MS67 NGC.** Cream-gray enriches the portrait and obverse field, while the margin is bathed in blue-green. The reverse is about evenly divided into caramel-gold, lime-green, and stone-gray. This Superb Gem is precisely struck, and is pristine aside from faint contact on the rightmost sail. Census: 30 in 67, 0 finer (11/12). NGC ID# 26H5, PCGS# 9296, CoinPlex ID# COM1892COLUMBIAN

- 6486 1893 Columbian MS66+ NGC. CAC.** Attractively toned, this piece displays shades of lavender-blue and golden-brown. The mint luster is vibrant and the surfaces of this high-end Premium Gem are pristine, with the design elements displaying bold detail. Although the mintage for this date was over 1.5 million, only 23 examples have received higher grades from NGC (11/12). NGC ID# 26H6, PCGS# 9297, CoinPlex ID# COM1893COLUMBIAN

**1893 Columbian Half Dollar, MS67
Fully Prooflike Fields**

6487 1893 Columbian MS67 PCGS. CAC. Wafts of aquamarine and lavender mix with the light gold and silver-gray toning that envelops the obverse, while the reverse shows a lovely ring of purple and electric blue around a medium-gray center. The fields are intensely prooflike, and this piece was likely struck soon after the initial run of just over 100 proofs. In fact, it would not surprise us to learn that this piece was once offered as a proof. The strike is razor-sharp, and there are just a few nearly microscopic marks. Population: 11 in 67 (2 in 67+), 0 finer (12/12). PCGS# 9297, NGC ID# 26H6, CoinPlex ID# COM1893COLUMBIAN

6488 1935 Connecticut MS67 ★ NGC. Attractive luster, particularly on the obverse, adds to the visual appeal of this lovely example. Vivid toning largely frames the obverse, and includes iridescent shades of golden-orange, red, fuchsia, sea-green, and russet. Census: 13 in 67★, none finer with a Star designation (12/12). NGC ID# 28K8, PCGS# 9299, CoinPlex ID# COM1935CONN

6489 1936 Delaware MS67 PCGS. CAC. A lovely lustrous and frosty Superb Gem, this example displays subtle toning in shades of orange, peach, ice-blue, and silver. Areas of vibrant orange and iridescent shades of brilliant green, yellow, and red appear at the obverse periphery. Flecks of golden-brown toning are more numerable on the reverse. Both sides exhibit minimal contact marks. Population: 85 in 67 (8 in 67+), 1 finer (12/12). PCGS# 9301, NGC ID# 28K9, CoinPlex ID# COM1936DELAWARE

**MS67 ★ 1936 Delaware Half
Dramatic Tab-Toned Reverse**

6490 1936 Delaware MS67 ★ NGC. CAC. A remarkable tab-toned Superb Gem. Rich cherry-red and jade-green adorn the reverse margin and center, but a donut-shaped area of brilliance is also present, where the coin was protected for many years by an original holder (not included). The obverse displays rose-red and olive-green shades that moderately deepen near the rims. Census: 33 in 67 ★, 2 finer with a Star designation (11/12). NGC ID# 28K9, PCGS# 9301, CoinPlex ID# COM1936DELAWARE

6491 1936 Elgin MS67 PCGS. Areas of slightly subdued iridescent color appear along portions of the periphery on this Superb Gem. The coin displays an attractive satin luster. PCGS and NGC combined have awarded higher numeric grades to only 5 examples (11/12). PCGS# 9303, NGC ID# 28KA, CoinPlex ID# COM1936ELGIN

6492 1936 Gettysburg MS67 PCGS. Light areas of toning, primarily in shades of gray and brown, appear around the periphery of this Superb Gem. The piece displays only a few minor abrasions and exhibits attractive eye appeal. Population: 88 in 67 (3 in 67+), 2 finer (11/12).

From The Richard P. Ariagno, M.D. Collection. PCGS# 9305, NGC ID# 28KB, CoinPlex ID# COM1936GETTYSBURG

6493 1922 Grant No Star MS66+ PCGS. CAC. Deep vibrant luster adds to the visual appeal of this high-end Premium Gem. Subtle toning is present primarily at the outer edge of both sides in shades that include copper-gold, russet, dark denim-blue, olive-green, teal, and lilac. Only 38 examples have received higher numeric grades from PCGS (12/12). PCGS# 9306, NGC ID# 28KD, CoinPlex ID# COM1922GRANT

6494 1922 Grant With Star MS64 PCGS. This near-Gem Grant Star half dollar has the typical satin luster that results from extensive die polish in the fields. Hints of gold and blue toning enhance the eye appeal of the brilliant silver surfaces.

From The Teich Family Collection. PCGS# 9307, NGC ID# 28KC, CoinPlex ID# COM1922GRANTSTAR

**1922 Grant Half Dollar, MS65
Variety With Star**

6495 1922 Grant With Star MS65 PCGS. This delightful Gem exhibits well-detailed design elements, with just a touch of the typical softness on Grant's hair. The brilliant surfaces radiate vibrant mint luster and no mentionable distractions are evident. A few wisps of pale gold toning add to the terrific eye appeal. PCGS# 9307, NGC ID# 28KC, CoinPlex ID# COM1922GRANTSTAR

**1922 Grant Half Dollar, MS65
Popular With Star Variant**

- 6496 1922 Grant With Star MS65 PCGS.** From a small distribution total of 4,256 pieces, the Grant With Star half dollar is a scarce issue in MS65 condition, and finer examples are rare. This well-detailed specimen shows subtle hints of champagne-gold toning on both sides, with vibrant mint luster underneath. PCGS# 9307, NGC ID# 28KC, CoinPlex ID# COM1922GRANTSTAR

**Sharp 1922 Grant With Star Half Dollar, MS65+
Attractively Toned**

- 6497 1922 Grant With Star MS65+ NGC.** The Grant With Star at the Gem level is a key coin in a key grade, with few certified finer and much more expensive when found. This piece has the satiny luster and heavy die polish that is characteristic of genuine specimens. Attractive, deep rainbow toning appears around the outer edges of the obverse of this lovely example. Toning rings the reverse as well, with the rainbow colors concentrated near the bottom portion. NGC ID# 28KC, PCGS# 9307, CoinPlex ID# COM1922GRANTSTAR

**MS65+ 1922 Grant Half Dollar
With Star Obverse**

- 6498 1922 Grant With Star MS65+ PCGS. CAC.** Faint champagne toning appears on both sides of this lovely Gem Grant with Star half dollar, a rare variety in the commemorative series. Heavy die polish in the fields of this issue is common to all known examples, imparting a slightly reflective appearance entirely unlike the Grant No Star pieces. PCGS has only certified 39 finer examples of this variety (12/12). PCGS# 9307, NGC ID# 28KC, CoinPlex ID# COM1922GRANTSTAR

- 6499 1928 Hawaiian — Improperly Cleaned — NGC Details. Unc.** A sharply struck stone-gray representative of the scarcest silver commemorative type. The obverse displays delicate hairlines beneath a loupe, but there are no visible abrasions. NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

- 6500 1928 Hawaiian MS62 PCGS.** An untuned and sharply struck representative of this desired commemorative type, this piece displays fewer abrasions than expected for the grade, however the luster is somewhat subdued.

Ex: Dallas Signature (Heritage, 12/2005), lot 2834. PCGS# 9309, NGC ID# 28KE, CoinPlex ID# COM1928HAWAIIAN

- 6501 1928 Hawaiian MS62 ANACS.** This piece exhibits brilliant luster and a deep champagne-gold patina, with a few flecks of more vivid colors appearing primarily near the bottom margin of the reverse. Juliette May Fraser (1887-1983), a Honolulu native, designed these commemoratives. She had an interesting career as a painter, muralist, and printmaker. Among her many credits, she painted murals for the 1939 Golden Gate International Exposition. NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

**1928 Hawaiian Half Dollar, MS63
Sesquicentennial of Discovery**

- 6502 1928 Hawaiian MS63 NGC.** Soon after it was minted, the 1928 Hawaiian sesquicentennial half dollar was recognized as a key issue from a mintage of only 10,000 coins. Unlike many other commemoratives that were issued in multiple years from multiple mints, the Hawaiian half dollars were only coined at Philadelphia, and only in a single year. This Select Mint State piece has light silver-gray surfaces with delicate peripheral blue toning. A brilliant and satiny specimen. NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

Select 1928 Hawaiian Half

- 6503 1928 Hawaiian MS63 NGC.** Only the slightest hint of pale rose color appears on this lovely Select Mint State example. The satiny surfaces display only a few scattered, minor marks for the grade. The key to the 50-piece classic silver commemorative type set, much scarcer than the Hudson and Spanish Trail despite similar mintages. NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

**1928 Hawaiian Half, MS63
Bold Strike**

6504 1928 Hawaiian MS63 NGC. Only 9,958 Hawaiian Sesquicentennial half dollars were distributed in 1928, most examples going to noncollectors in the Hawaiian Islands. The issue is quite scarce in high grades today, and attractive MS63 examples are prized by collectors. This well-struck Select example exhibits bright mint luster and attractive light gold and ice-blue toning. NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

**Gem 1928 Hawaiian Half
Bright, Satiny Surfaces**

6505 1928 Hawaiian MS65 PCGS. Struck to commemorate the sesquicentennial of the "discovery" of the Hawaiian (or Sandwich) Islands by James Cook in 1778. Gems are elusive and have long been considered a key to the commemorative series. The surfaces display the usual bright, satiny luster and there is just a hint of light golden color present. From *The Teich Family Collection*. PCGS# 9309, NGC ID# 28KE, CoinPlex ID# COM1928HAWAIIAN

1928 Hawaiian Half Dollar, MS65

6506 1928 Hawaiian MS65 PCGS. Both sides of this Gem exhibit satiny silver-gray luster with hints of golden-brown toning, additional iridescence on the reverse. This is a splendid representative of the popular, low-mintage Hawaiian half dollar. Higher grade examples are rarely seen in the marketplace. From *The Big E Collection*. PCGS# 9309, NGC ID# 28KE, CoinPlex ID# COM1928HAWAIIAN

**1928 Hawaiian Half, MS65
Attractive Gem Example of This Key Issue**

6507 1928 Hawaiian MS65 PCGS. Long recognized as a key to the commemorative series, Gem Hawaiian halves are especially sought after by collectors. This high-grade example has bright, satiny mint luster with subtle shadings of color on each side and yet still retains much underlying brilliance. No noteworthy abrasions can be found. From *The Richard P. Ariagno, M.D. Collection*. PCGS# 9309, NGC ID# 28KE, CoinPlex ID# COM1928HAWAIIAN

Gem 1928 Hawaiian Half

6508 1928 Hawaiian MS65 NGC. The Hawaiian is the most desirable type among the fifty pieces required to complete a collection of classic silver commemoratives by design. Peach-gold toning enriches the obverse of this well impressed and lustrous Gem. Close to unabraded, this piece displays only minor contact beneath TRUST and on the cheekbone and thigh appearing when closely examined. Ex: *Long Beach Signature (Heritage, 5/2009)*, lot 1308. NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

6509 1935 Hudson MS65 PCGS. This low mintage commemorative type coin offers exemplary luster and only a glimpses of golden toning. The fields are pristine, though minor grazes on the whale decide the grade. Certified in a green label holder. From *The Big E Collection*. PCGS# 9312, NGC ID# 28KE, CoinPlex ID# COM1935HUDSON

6510 1935 Hudson MS65 PCGS. CAC. Delicate straw-gold toning embraces the borders of this otherwise untuned Gem. This lovely piece exhibits the typical soft strike. PCGS# 9312, NGC ID# 28KE, CoinPlex ID# COM1935HUDSON

6511 1935 Hudson MS65 PCGS. CAC. A lustrous and beautifully preserved Gem of this low mintage type. Pastel honey-gold and ice-blue patina visits smooth surfaces. Among the more fanciful silver commemorative designs. PCGS# 9312, NGC ID# 28KE, CoinPlex ID# COM1935HUDSON

6512 1935 Hudson MS65 PCGS. CAC. Tobacco-brown hues cover much of this Gem, with scattered small splashes and freckles of color along with an area of vivid orange toning near the bottom of the reverse. This piece displays attractive satin luster on both sides, creating nice eye appeal. PCGS# 9312, NGC ID# 28KE, CoinPlex ID# COM1935HUDSON

6513 1935 Hudson MS66 NGC. The gray-toned surfaces display rainbow colors at the extreme edges on this luminous Premium Gem example and the piece is remarkably smooth. The typical soft strike is noted. Seldom encountered in a higher grade, this is a solid example. NGC ID# 28KE, PCGS# 9312, CoinPlex ID# COM1935HUDSON

6514 1935 Hudson MS66 NGC. Areas of champagne toning highlight this Premium Gem. The surfaces exhibit a lovely lustrous, frosty appearance. Small gray toning spots appear primarily at the outer edges of the obverse. Only 28 numerically finer examples have been graded at NGC (11/12). NGC ID# 28KF, PCGS# 9312, CoinPlex ID# COM1935HUDSON

6515 1935 Hudson MS66 NGC. Scattered areas of iridescent green, orange, yellow, and pink appear throughout on this attractive Premium Gem. The piece displays deep satin luster overall and has a very attractive appearance. Both sides exhibit minor surface marks. NGC has awarded higher numeric grades to only 28 examples (12/12). NGC ID# 28KF, PCGS# 9312, CoinPlex ID# COM1935HUDSON

6516 1935 Hudson MS66 PCGS. CAC. Blue and green-to-gold overtones enrich the luminous surfaces of this Premium Gem. The Hudson pieces are considered one of the three rare type examples from the era of the classic commemoratives, with the other two being the Hawaiian and the Spanish Trail. PCGS has awarded higher numeric grades to only 7 examples (11/12). PCGS# 9312, NGC ID# 28KF, CoinPlex ID# COM1935HUDSON

6517 1935 Hudson MS66 PCGS. CAC. Brilliant satin luster adds to the visual appeal of this Premium Gem at a glance. Freckles of tobacco-brown toning adorn the rims. PCGS has awarded higher numeric grades to only 7 pieces (12/12). PCGS# 9312, NGC ID# 28KF, CoinPlex ID# COM1935HUDSON

Superb Gem 1935 Hudson Half Dollar None Certified Finer

6518 1935 Hudson MS67 NGC. Attentively struck for this normally soft issue with crisp details throughout, fine satin luster, and attractive speckles of golden patina evenly distributed across both sides. A wonderfully appealing Superb Gem, and surely among the most attractive examples known of this low mintage commemorative type. Census: 28 in 67, 0 finer (12/12). NGC ID# 28KF, PCGS# 9312, CoinPlex ID# COM1935HUDSON

1935 Hudson Half Dollar, MS67 Ex: Gregg Bingham Collection

6519 1935 Hudson MS67 NGC. Ex: Bingham Collection. The Bingham name needs no introduction to commemorate specialists. Possessing a remarkable eye for quality, Gregg Bingham assembled impressive collections of commemoratives and Morgan dollars. This Hudson half from his collection has frosty silver-gray luster with gold and iridescent toning that results in incredible eye appeal. Census: 28 in 67, 0 finer (12/12). NGC ID# 28KF, PCGS# 9312, CoinPlex ID# COM1935HUDSON

1935 Hudson Half Dollar, MS67 Low Mintage Issue

6520 1935 Hudson MS67 NGC. Luminous apricot patina hugs the borders, while the centers have pearl-gray color with faint streaks of golden-brown iridescence. A lustrous Superb Gem with a good strike and attractive preservation. The Hudson, Hawaiian, and Spanish Trail types have the lowest mintages in the silver commemorative series with 10,008 pieces each. Census: 28 in 67, 0 finer (12/12). NGC ID# 28KF, PCGS# 9312, CoinPlex ID# COM1935HUDSON

6521 1924 Huguenot MS67 NGC. The surfaces display gorgeous satin luster on this beautifully struck Superb Gem example. Vivid toning in shades of deep lime-green, red, orange, and pink frames the outer edges. There are no surface marks worthy of mention. Census: 38 in 67, 0 finer (12/12). NGC ID# 28KG, PCGS# 9314, CoinPlex ID# COM1924HUGENOT

6522 1946 Iowa MS68 NGC. A boldly struck example with swirling mint luster, this lovely piece displays tremendous eye appeal. Areas of rainbow toning reside at the outer edges of the obverse and scattered gold and peach colors appear at the reverse periphery. Census: 36 in 68, 2 finer (11/12). NGC ID# 28KJ, PCGS# 9316, CoinPlex ID# COM1946IOWA

1936 Long Island Half Dollar, MS67 Incredible Multicolor Toning

6523 1936 Long Island MS67 NGC. Both sides of this Superb Gem Long Island are characterized by deep orange-purple patina, accented with jade, blue, and traces of canary more prominent near the rims. Excellent luster nonetheless radiates from beneath the moderate toning, and the eye appeal is startling. Perhaps improvable some day from a numeric standpoint, but the toning and eye appeal are unique. Census: 55 in 67, 3 finer (11/12). NGC ID# 28KL, PCGS# 9322, CoinPlex ID# COM1936LONGISL

**Tab-Toned Lynchburg Half Dollar, MS67+
Tied for Finest at PCGS**

- 6524 1936 Lynchburg MS67+ PCGS.** Splendid tab-toning graces this high grade Lynchburg half dollar. Deep orange-red and apple-green embrace the obverse margin where the coin reposed during its long stint within an original cardboard holder. The obverse center is brilliant, as are the two "tab" border areas at 1 and 7 o'clock. The reverse toning pattern is less dramatic but the colors are similar and just as attractive. Population: 69 in 67 (4 in 67+), 0 finer (12/12). PCGS# 9324, NGC ID# 28KM, CoinPlex ID# COM1936LYNCHBURG

**MS67 ★ Lynchburg Commemorative
Beautifully Toned Obverse**

- 6525 1936 Lynchburg MS67 ★ NGC. CAC.** Attractive iridescent rainbow toning appears on the obverse of this Superb Gem. The reverse displays pale yellow color overall, with patches of russet and areas of dark gray freckles. The obverse design features Carter Glass (1858-1946), the 47th U.S. Secretary of the Treasury, and perhaps the best-known Lynchburg native son. Census: 93 in 67, 3 finer (11/12). NGC ID# 28KM, PCGS# 9324, CoinPlex ID# COM1936LYNCHBURG

- 6526 1920 Maine MS66 PCGS. CAC.** Both sides of this Premium Gem display rich, brilliant luster. This well-struck piece is essentially untoned. Only 21 examples have been awarded higher numeric grades by PCGS (12/12). PCGS# 9326, NGC ID# 28KN, CoinPlex ID# COM1920MAINE

- 6527 1934 Maryland MS67 PCGS. CAC.** Unlike his bust left appearance on the rare silver Maryland pieces from the Colonial era, the portrait of Cecil Calvert faces front on these commemoratives. This is a lustrous Superb Gem displaying small, scattered areas of rainbow toning, primarily at the outer edges of the obverse, with light areas of olive and forest-green surrounding the portrait. The design is boldly impressed and the surfaces are splendidly smooth. Population: 48 in 67 (2 in 67+), 0 finer (11/12). PCGS# 9328, NGC ID# 28KP, CoinPlex ID# COM1934MARYLAND

- 6528 1921 Missouri MS65 PCGS.** This Gem represents the Plain variety of the 1921 Missouri half dollar, without the 2★4 notation in the field. The lustrous frosty silver surfaces display shades of pink and blue toning. PCGS has certified only 32 coins in higher numeric grades (7/12). PCGS# 9330, NGC ID# 28KS, CoinPlex ID# COM1921MISSOURI

- 6529 1921 Missouri MS65 PCGS.** Deep old silver surfaces are covered with a slight overlay of golden patina on each side. Obviously original and untampered, the coin shows a remarkable state of preservation for a pre-1930 commemorative half. The Missouri halves are always a collector favorite because of their absolute as well as condition rarity.
From The Big E Collection. PCGS# 9330, NGC ID# 28KS, CoinPlex ID# COM1921MISSOURI

- 6530 1921 Missouri MS65 PCGS.** This Gem displays above-average quality for this popular early commemorative. A uniform coating of olive-gray patina fails to diminish the frostiness of this well preserved Missouri half dollar. The strike is typically lacking on the highpoints of the major devices and a vertical mark is noticed on the frontiersman's cheek. Only 32 examples have achieved higher numeric grades from PCGS (12/12).
Ex: ANA Milwaukee (Heritage, 8/2007), lot 1244. PCGS# 9330, NGC ID# 28KS, CoinPlex ID# COM1921MISSOURI

- 6531 1921 Missouri MS65 PCGS. CAC.** The Plain variant of the 1921 Missouri half dollar claims a distribution total of 10,428 pieces. This impressive Gem displays attractive shades of pale gold and lavender toning, with vibrant mint luster underneath. The design elements are sharply detailed and eye appeal is outstanding. PCGS# 9330, NGC ID# 28KS, CoinPlex ID# COM1921MISSOURI

- 6532 1921 Missouri 2x4 MS65 NGC.** An attractive Gem representative of the popular 2x4 variant of the 1921 Missouri half dollar, this piece exhibits attractive design elements and the lustrous surfaces display only subtle toning. NGC ID# 28KR, PCGS# 9331, CoinPlex ID# COM1921MISSOURI2X4

- 6533 1921 Missouri 2x4 MS65 PCGS. CAC.** Chestnut-gold and forest-green toning visits this coruscating and well defined Gem. The reverse is essentially pristine and the obverse displays only minuscule contact. The Plain and 2x4 varieties are similarly scarce though the 2x4 is traditionally regarded as more elusive. Certified in a green label holder.
From The Big E Collection. PCGS# 9331, NGC ID# 28KR, CoinPlex ID# COM1921MISSOURI2X4

**1921 Missouri Half Dollar, MS66
Popular 2★4 Variety**

- 6534 1921 Missouri 2x4 MS66 PCGS.** Approximately 9,000 Missouri commemorative half dollars were produced with a 2★4 inscribed in the field to indicate Missouri's status as the 24th state to enter the Union. This well-detailed MS66 specimen is patinated in shades of champagne-gold and lavender, with satiny mint luster and outstanding eye appeal. Population: 27 in 66, 0 finer (12/12). PCGS# 9331, NGC ID# 28KR, CoinPlex ID# COM1921MISSOURI2X4

- 6535 1923-S Monroe MS65 NGC.** An attractive lilac-gray patina envelops both sides of this well-struck example. A lesser-known fact about the Monroe commemoratives is that the California film industry issued them. NGC ID# 28KT, PCGS# 9333, CoinPlex ID# COM1923SMONROE

- 6536 1923-S Monroe MS65 PCGS.** Frosty luster with aspects of gold and even amber enriching parts of otherwise silver surfaces. A delightful Gem example of an issue that is famously elusive so fine. PCGS# 9333, NGC ID# 28KT, CoinPlex ID# COM1923SMONROE
- 6537 1923-S Monroe MS65 PCGS. CAC.** Areas of iridescent rainbow colors appear along portions of the rims on this Gem. Elsewhere, engaging luster emanates from beneath rose-gray surfaces. PCGS# 9333, NGC ID# 28KT, CoinPlex ID# COM1923SMONROE
- 6538 1923-S Monroe MS65 PCGS. CAC.** Light areas of golden-yellow toning appear on both sides of this example, with the reverse exhibiting color at South America and the field to the right. This lustrous Gem is an attractive representative. PCGS# 9333, NGC ID# 28KT, CoinPlex ID# COM1923SMONROE
- 6539 1923-S Monroe MS65+ NGC. CAC.** Engaging luster emanates from beneath the many iridescent shades appearing on this example. The colors include bright turquoise, sea-green, red, and deep orange. Quantities of unsold examples were released at face value directly into circulation. NGC ID# 28KT, PCGS# 9333, CoinPlex ID# COM1923SMONROE

**Appreciably Toned MS66
1923-S Monroe Half**

- 6540 1923-S Monroe MS66 PCGS.** In lower grades, the Monroe half dollar is plentiful, but in grades better than MS65, it is a major condition rarity as evidenced by the PCGS population data. This Premium Gem has frosty luster beneath splashes of iridescent toning. Population: 59 in 66 (1 in 66+), 5 finer (12/12). PCGS# 9333, NGC ID# 28KT, CoinPlex ID# COM1923SMONROE
- 6541 1938 New Rochelle MS67 PCGS.** Deep golden-yellow, lime-green, and vivid red toning appears along portions of the obverse periphery along with a small area on the reverse. This well-struck Superb Gem displays subtle hints of color as well. Light contact marks appear. PCGS has awarded higher numeric grades to a mere 2 pieces (12/12). PCGS# 9335, NGC ID# 28KU, CoinPlex ID# COM1938NEWROCHELLE
- 6542 1938 New Rochelle MS67 PCGS. Ex: Heller.** Both sides of this thoroughly lustrous and impeccably preserved Roanoke are lightly patinated in golden-gray peripheral tints.
Ex: Orlando FUN Signature (Heritage, 1/2004), lot 9513, which realized \$1,150.
From The Big E Collection. PCGS# 9335, NGC ID# 28KU, CoinPlex ID# COM1938NEWROCHELLE
- 6543 1936 Norfolk MS68 PCGS.** Vibrant mint luster and sharply detailed design elements combine for excellent eye appeal on this MS68 piece. A few splashes of champagne-gold toning add to the attractiveness. PCGS and NGC have each only graded one numerically finer example (11/12). PCGS# 9337, NGC ID# 28KV, CoinPlex ID# COM1936NORFOLK

- 6544 1936 Norfolk MS68 PCGS. CAC.** Rich tan, lavender, and russet patina drapes the outer edges of this appealing classic commemorative. Small, subtle areas of color appear throughout the obverse. The piece displays a bold strike and pristine surfaces.
From The Big E Collection. PCGS# 9337, NGC ID# 28KV, CoinPlex ID# COM1936NORFOLK
- 6545 1926-S Oregon MS67 PCGS. CAC.** An attractive Superb Gem, this impressive piece displays patination in attractive shades of dark green, lavender, and amber, with sharply detailed design elements and vibrant mint luster. PCGS has graded only five numerically finer coins (11/12). PCGS# 9341, NGC ID# 28KX, CoinPlex ID# COM1926SOREGON
- 6546 1926-S Oregon MS67 PCGS. CAC.** Bold iridescent toning in shades of yellow, orange, red, and green covers the obverse of this lustrous Superb Gem, adding to the eye appeal of this piece. The reverse displays small areas of color. Only 5 examples have received higher numeric grades from PCGS (12/12).
From The Big E Collection. PCGS# 9341, NGC ID# 28KX, CoinPlex ID# COM1926SOREGON

**Superb Gem 1926-S Oregon Trail
Dramatic Multicolor Patina**

- 6547 1926-S Oregon MS67 NGC. CAC Gold Label.** Dramatic sea-green, sun-gold, and ruby-red toning endows both sides of this lustrous and nearly unabraded Superb Gem. Minor incompleteness is relegated to the back of the wagon and the second T in STATES. The Oregon Trail was the longest-lived commemorative type, struck intermittently between 1926 and 1939. Encapsulated in a prior generation holder. NGC ID# 28KX, PCGS# 9341, CoinPlex ID# COM1926SOREGON
- 6548 1933-D Oregon MS67 PCGS. CAC.** Excellent eye appeal is exhibited by this Superb Gem that displays small splashes of color in shades of orange, gold, yellow, and peach. Deep satin luster and an attractive strike are among the attributes of this piece. Population: 83 in 67 (4 in 67+), 0 finer (12/12). PCGS# 9343, NGC ID# 28KZ, CoinPlex ID# COM1933DOREGON
- 6549 1936-S Oregon MS67+ PCGS. CAC.** Well-struck and beautifully preserved, this MS67+ example displays satiny surfaces and areas of light toning, primarily at the rims. This piece is one of only 6 in 67+ as graded by PCGS, with 4 finer (11/12). PCGS# 9346, NGC ID# 28L4, CoinPlex ID# COM1936SOREGON

**1936-S Oregon Trail Half Dollar, MS68
None Certified in Higher Numeric Grades**

- 6550 1936-S Oregon MS68 PCGS Secure.** The Oregon Trail commemorative half dollar was voted best design of the series by the Society for U.S. Commemorative Coins, and the issue is always in demand from commemorative type collectors, seeking an example of this popular design. The 1936-S claims a low distribution total of just 5,006 pieces, but some high-quality examples were saved by contemporary collectors, like the coin offered here. This magnificent MS68 specimen is sharply detailed throughout, with virtually pristine surfaces that radiate vibrant satiny mint luster. Both sides are blanketed in shades of lavender, green, and champagne-gold patina. Eye appeal is terrific. Population: 4 in 68 (1 in 68+), 0 finer (11/12). PCGS# 9346, NGC ID# 28L4, CoinPlex ID# COM1936SOREGON

**1938 Oregon Half Dollar, MS67+
Only Two Finer at PCGS**

- 6551 1938 Oregon MS67+ PCGS. CAC.** Wisps of gold and iridescent toning at the upper obverse and reverse borders enhance the amazing eye appeal of this frosty and highly lustrous piece with its silver brilliance. Only two examples at PCGS and two others at NGC have been certified in finer grades. Population: 80 in 67 (7 in 67+), 2 finer (12/12). PCGS# 9348, NGC ID# 28L6, CoinPlex ID# COM1938OREGON

- 6552 1938-D Oregon MS67+ PCGS. CAC.** The Oregon Trail half dollar is acknowledged as one of the most beautiful designs of the commemorative series and was the longest-running design of the series. Apricot, golden-brown, and olive-green tints along with spots of fiery-red add to the eye appeal of this Superb Gem. PCGS has only assigned higher numeric grades to 37 pieces (11/12). PCGS# 9349, NGC ID# 28L7, CoinPlex ID# COM1938DOREGON

Border-Toned MS68+ 1938-D Oregon Half

- 6553 1938-D Oregon MS68+ PCGS Secure.** Ex: Bruce Scher. An exquisitely preserved and profoundly appealing piece with pale steel-gray shadings across most of each side but colorful bands, orange on the right reverse reverse with that color as well as lavender and plum on the corresponding area of the obverse. The mintage was 6,000 pieces plus assay coins. Population: 35 in 68 (3 in 68+), 2 finer (12/12). PCGS# 9349, NGC ID# 28L7, CoinPlex ID# COM1938DOREGON

- 6554 1939 Oregon MS67 PCGS. CAC.** A somewhat subtle iridescent luster covers both sides of this lustrous Superb Gem, with a few areas of darker color hugging the rims on both sides. The well-struck piece has a pleasing appearance. Population: 85 in 67 (2 in 67+), 4 finer (12/12).
From The Big E Collection. PCGS# 9352, NGC ID# 28L9, CoinPlex ID# COM1939OREGON

- 6555 1939-D Oregon MS67 PCGS. CAC.** Fully struck with satiny, smooth, seemingly pristine surfaces, this Superb Gem displays tremendous eye appeal. Attractive hints of color appear on both sides, with areas of small freckles appearing primarily at the outer edges of the reverse. PCGS has assigned higher numeric grades to only 19 examples (12/12).
From The Big E Collection. PCGS# 9353, NGC ID# 28LA, CoinPlex ID# COM1939DOREGON

- 6556 1939-S Oregon MS67+ PCGS. CAC.** An original, high-end Superb Gem Oregon Trail half dollar from the final year of the long series, this piece has attractive satin luster with peripheral iridescence. Population: 87 in 67 (1 in 67+), 8 finer (11/12). PCGS# 9354, NGC ID# 28LB, CoinPlex ID# COM1939SOREGON

**Matched 1939 Oregon PDS Set
MS67 CAC, Lowest Mintage of Type**

- 6557 1939 Oregon PDS Set MS67 PCGS. CAC.** The three holders have consecutive certification numbers. The grades and CAC seals are identical for each coin. The set includes: **1939**, golden-brown, apple-green, and ruby-red peripheral toning, fully struck; **1939-D**, sea-green, lilac, and lemon-gold patina, a good strike; and a **1939-S**, lavender and forest-green toning near the rims, crisply struck. The 1939 PDS set has the lowest mintages of the Oregon type. (Total: 3 coins) PCGS# 9355, CoinPlex ID# COM1939PDSOREGONSET

- 6558 1915-S Panama-Pacific MS65 NGC. CAC.** A well-detailed Gem, this 1915-S Panama-Pacific half dollar displays a mix of golden-brown and lavender-gray patina, over vibrant mint luster, with ample eye appeal. NGC ID# 26H7, PCGS# 9357, CoinPlex ID# COM1915SPANPAC

**Premium Gem 1915-S Panama-Pacific Half
Light Overall Patina**

- 6559 1915-S Panama-Pacific MS66 PCGS.** Light warm tones such as apricot, peach, and yellow are scattered across each side of this Panama-Pacific Premium Gem silver half. Brownish echoes of the familiar "ring toning" appear at parts of the margins. Uncommonly smooth for the issue, though the luster is understated as usual. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC

1915-S Pan-Pac Half, MS66

- 6560 1915-S Panama-Pacific MS66 NGC.** Rose, peach, and violet hues cover the obverse of this well-struck example and areas of primarily golden-brown color ring the reverse. The bottom portion of the obverse includes attractive areas of bright, iridescent blue-green. This piece displays the typical satin finish these halves are known for. NGC ID# 26H7, PCGS# 9357, CoinPlex ID# COM1915SPANPAC

**Premium Gem 1915-S Panama-Pacific Half
Distinctive Multicolor Toning**

- 6561 1915-S Panama-Pacific MS66 PCGS.** Five coins were issued during the Panama-Pacific Exposition to commemorate the opening of the Panama Canal, including the 1915-S commemorative half dollar, with a distribution of 27,134 pieces. This impressive Premium Gem displays the satiny, slightly granular surfaces seen on all examples of this issue, with well-detailed devices and dusky golden-brown and pink patina. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC

1915-S Panama-Pacific Half Dollar, MS66

6562 1915-S Panama-Pacific MS66 PCGS. CAC. Pink, sage, and aqua-olive hues compete for territory on this Premium Gem 1915-S Pan-Pac half dollar, with considerable luster apparent despite the moderately intense coloration. The surfaces show a typical satiny appearance, and a loupe reveals few marks other than a tiny tick on one of the cherub's buttocks. The softness on the eagle feathers on the reverse is a universal design flaw rather than strike weakness. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC

Premium Gem 1915-S Panama-Pacific Half Dollar

6563 1915-S Panama-Pacific MS66 PCGS. CAC. Unlike other legislation, the Congressional Act dated January 16, 1915, specified that the Panama-Pacific coinage was to be struck at the San Francisco Mint. Most commemorative coinage bills specified the "Mints" of the United States. This Premium Gem is a remarkable example of the S-Mint Panama-Pacific coinage with frosty silver luster and pleasing peripheral greenish-gold toning. Some strike weakness is typical. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC

**1915-S Panama-Pacific Half
Patinated MS66, Repunched Mintmark**

6564 1915-S Panama-Pacific MS66 PCGS. CAC. FS-501. Blended powder-blue, chestnut-gold, and lilac-rose toning embraces this lustrous and well struck high grade commemorative. One subtle and slender vertical streak of cobalt-blue traverses the left obverse. Neither side shows any remotely consequential contact. Ex: *Dallas Signature (Heritage, 10/2008)*, lot 1696, which realized \$3,335. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC

**Superb Gem 1915-S Panama-Pacific Half, MS67
Few Certified Finer**

6565 1915-S Panama-Pacific MS67 PCGS. FS-502. Light caramel-gold and lime-green toning adorns coruscating fields and motifs. Nicely struck, and rotation beneath a loupe fails to locate any remotely mentionable contact. The mintmark is lightly repunched north. The Panama-Pacific is conditionally scarcer than most commemorative half dollar issues with a median certified grade of MS64. Population: 79 in 67 (3 in 67+), 2 finer (11/12). From *The Richard P. Ariagno, M.D. Collection*. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC

**MS67+ 1921 Pilgrim Half Dollar
Ex: Bruce Scher**

6566 1921 Pilgrim MS67+ PCGS Secure.. Ex: Bruce Scher. Deep umber and tan-orange shadings visit the upper obverse and lower reverse borders, while the remainder of this piece is smoothly lustrous silver-gray with occasional blue or peach accents. Well-defined with only a few wispy faults, most visibly to the right of the pilgrim's shoulder. PCGS# 9360, NGC ID# 28LD, CoinPlex ID# COM1921PILGRIM

**1937 Roanoke Half Dollar, MS68
Ex: Bruce Scher, None Certified Finer**

6567 1937 Roanoke MS68 PCGS Secure. Ex; Bruce Scher. This incredible MS68 specimen is among the finest known examples of this issue, from a limited distribution of 29,030 pieces. The design elements display razor-sharp definition throughout, and the pristine surfaces radiate vibrant mint luster. Attractive lime-green toning is evident in a tab pattern on the obverse and entirely blankets the reverse. Population: 12 in 68, 0 finer (11/12). PCGS# 9367, NGC ID# 28LH, CoinPlex ID# COM1937ROANOKE

6568 1935-S San Diego MS67 PCGS. The centers retain an attractive satin luster and remain largely untuned. The peripheries display toning in pleasing iridescent rainbow colors. PCGS and NGC combined have awarded higher numeric grades to only 7 examples (11/12). PCGS# 9371, NGC ID# 28LK, CoinPlex ID# COM1935SSANDIEGO

6569 1935-S San Diego MS67+ PCGS. The attractiveness of this example cannot be fully appreciated until it is studied under magnification, with a wealth of colors appearing including pastel shades of peach, blue, silver, and lavender. Areas of bold iridescent deep gold, red, bright green, and aquamarine color are also present on the reverse. The surfaces exhibit only a few minor marks. This is one of only 7 examples graded 67+ by PCGS with 3 finer (12/12). PCGS# 9371, NGC ID# 28LK, CoinPlex ID# COM1935SSANDIEGO

6570 1926 Sesquicentennial MS65 NGC. The obverse features conjoined portraits of George Washington and Calvin Coolidge. These coins were produced while President Coolidge was in office, which was the only reason his image was included. The designs on both sides are simple as compared to most of the other commemoratives and were struck in low relief, leading to their lack of popularity with collectors. This Gem features areas of champagne toning, with flecks of color in hues of brown near the outer edges. Surface marks appear, including on Washington's cheek. NGC has awarded higher numeric grades to only 12 examples (12/12). NGC ID# 28LM, PCGS# 9374, CoinPlex ID# COM1926SESQUI

6571 1926 Sesquicentennial MS65 PCGS. Light green-gold and pale blue tints enrich broadly lustrous surfaces on this Sesquicentennial half dollar Gem. A shallow mark on Washington's cheek is within bounds for the grade but precludes a finer designation. The issue is a condition rarity any better. PCGS# 9374, NGC ID# 28LM, CoinPlex ID# COM1926SESQUI

6572 1926 Sesquicentennial MS65 NGC. Areas of gold and dark gray toning around much of the peripheral legends on the obverse lends an attractive look to the low-relief design of this well-struck Gem. Hints of pink and lilac appear on the reverse. NCG has awarded higher numeric grades to only 12 examples (11/12). NGC ID# 28LM, PCGS# 9374, CoinPlex ID# COM1926SESQUI

6573 1926 Sesquicentennial MS65 PCGS. Uncommonly abrasion-free for the issue, this beautifully preserved example displays soft silver-gray iridescence in the centers that yields to olive-russet shadings at the rims. A couple of insignificant ticks in the centers hardly inhibit the pleasingly lustrous, Gem quality sheen. Only 8 examples have received higher numeric grades from PCGS (12/12).
Ex: Long Beach Signature (Heritage, 6/2004), lot 10167.
From The Big E Collection. PCGS# 9374, NGC ID# 28LM, CoinPlex ID# COM1926SESQUI

1926 Sesquicentennial Half, MS66 None Certified Finer at PCGS

6574 1926 Sesquicentennial MS66 PCGS. The 1926 Sesquicentennial half dollar was struck to commemorate the 150th anniversary of American independence. The obverse features profiles of George Washington and Calvin Coolidge, the president at the time the coins were issued. The reverse portrays the Liberty Bell. Records indicate 141,120 examples were eventually distributed at the cost of \$1 each. Many more specimens were not sold and were returned to the Mint to be melted.

The present coin is a delightful Premium Gem, with well-detailed design elements and vibrant mint luster on both sides. A few hints of champagne-gold toning grace the well-preserved surfaces. Population: 8 in 66, 0 finer (12/12). PCGS# 9374, NGC ID# 28LM, CoinPlex ID# COM1926SESQUI

6575 1935 Spanish Trail MS63 NGC. An attractive Select Mint State example, this piece displays satiny luster and remarkably smooth surfaces, providing lovely eye appeal. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

6576 1935 Spanish Trail MS65 NGC. CAC Gold Label. The Spanish Trail ranks among the lowest mintage silver commemorative types. This lustrous and nearly brilliant example is intricately struck and lacks relevant marks. Certified in an old pre-hologram NGC holder.
From The SPQR Collection of CAC Gold Sticker Coins. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

6577 1935 Spanish Trail MS66 PCGS. This lovely Premium Gem exhibits champagne and iridescent toning on the obverse, with gray and iridescent reverse toning.
From The Teich Family Collection. PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

6578 1935 Spanish Trail MS66 NGC. This is a lovely Premium Gem representative with frosty satin luster and well-detailed design elements. Areas of toning appear at the extreme outer edges. The fields exhibit only a few scattered minor marks. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

6579 1935 Spanish Trail MS66 NGC. Subtle hints of toning appear on this lustrous Premium Gem. A minor contact mark in the left obverse field is likely all that held this attractive piece from a higher grade. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

6580 1935 Spanish Trail MS66 PCGS. CAC. Small streaks and splashes of yellow-brown and bright yellow toning appear on both sides of this Premium Gem. The surfaces display a satiny luster and reveal few contact marks.
From The Big E Collection. PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

6581 1935 Spanish Trail MS66 PCGS. CAC. Faint apricot patina confirms the originality of this satiny and nearly unabraded Premium Gem. The strike is exacting, and the eye appeal is undeniable. A scarce and low mintage type. PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

6582 1935 Spanish Trail MS66 PCGS. CAC. This lovely Premium Gem displays the satiny luster these pieces are known for. Areas of gray and lilac appear along the periphery on the obverse. The reverse exhibits a few small toning spots. The few, small contact marks are not distracting. PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

6583 1935 Spanish Trail MS66 PCGS. CAC. A thin layer of gold-gray covers each side, providing a pearly luster in places, with more pronounced luster radiating from beneath. This piece displays attractive eye appeal.
Ex: Long Beach Signature (Heritage, 6/2007), lot 1906, which realized \$1,955. PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

6584 1935 Spanish Trail MS66+ NGC. CAC. Golden-brown toning, along with a few splashes of red highlights, appears primarily at the outer edges of the reverse with areas of light toning seen at the outer peripheries of the obverse. This is an attractive, high-end Premium Gem. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

6585 1935 Spanish Trail MS66+ NGC. CAC. As one of the three rare type examples from the era of the classic commemoratives, with the other two being the Hawaiian and Hudson pieces, the Spanish Trail half dollar is always in demand. This sharply detailed piece displays vibrant mint luster on both sides, with a few hints of light gold toning. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

1935 Old Spanish Trail Half, MS67 Sharply Detailed, Attractively Toned

6586 1935 Spanish Trail MS67 PCGS. Sponsored by L.W. Hoffecker, the 1935 Old Spanish Trail half dollar claims a small distribution of 10,008 pieces. This magnificent Superb Gem is sharply detailed throughout, with vibrant mint luster under light shades of golden-brown toning. PCGS has certified only two numerically finer specimens (12/12). PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

Superb Gem 1935 Spanish Trail

6587 1935 Spanish Trail MS67 NGC. This Spanish Trail half is well-defined for the series and displays luminous gold, orange, and tan toning overall. Glimpses of green and blue are also visible. The fields and devices are equally smooth. Among the lowest mintage silver commemorative types. Census: 97 in 67 (2 in 67+), 5 finer (12/12). NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

1935 Old Spanish Trail Half, MS67 Only Two Finer at PCGS

6588 1935 Spanish Trail MS67 PCGS. CAC. Edmund J. Senn, the artist who modeled the Spanish Trail half, is best known as having been unemployed at the time L.W. Hoffecker gave him the commission. Classically trained and Austrian-born, the sexagenarian Senn died in 1938, just three years after his brush with the commemorative world. This silver-gray Superb Gem has subtle pink accents and a touch of orange patina at the rims. Well-defined and carefully preserved with a single spot of deeper toning above the L of LIBERTY. PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

- 6589 1925 Stone Mountain MS67 PCGS. CAC.** Ex: JFS Collection. Waves of dusky apricot, mauve-rose, ocean-blue, and golden-brown patina attest to the originality of this shimmering Superb Gem. Fully struck and exceptionally preserved, the obverse in particular is immaculate. An exemplary representative of this important Civil War type.
Ex: *Long Beach Signature Sale (Heritage, 10/2001)*, lot 9213, which realized \$3,220.
From *The Big E Collection*. PCGS# 9378, NGC ID# 26H8, CoinPlex ID# COM1925STONEMTN

**1925 Stone Mountain Half Dollar, MS68
Among the Finest Certified**

- 6590 1925 Stone Mountain MS68 NGC.** Rich, dusky colors swarm the outer zones on this exquisitely preserved Stone Mountain half, with gold, orange, and rose shadings predominant. Small windows of dove-gray are present at the centers as well. Not only one of the best-preserved Stone Mountain halves known, but also one of the most beautiful. Census: 9 in 68, 0 finer (12/12). NGC ID# 26H8, PCGS# 9378, CoinPlex ID# COM1925STONEMTN
- 6591 1938 Texas MS67 ★ NGC.** Beautiful honey-gold, brilliant olive-green, russet, ruby-red and lemon toning envelops the majority of both sides of this high-grade piece. This is a beautifully struck example of one of the most elaborate designs in the commemorative series. Census: 47 in 67, 1 finer (12/12). NGC ID# 28M2, PCGS# 9394, CoinPlex ID# COM1938TEXAS
- 6592 1938 Texas MS67 PCGS. CAC.** Ex: Gutttag Family. From a low distribution figure of 3,780 pieces, the 1938 Texas commemorative half dollar is seldom encountered at the Superb Gem level. This smooth piece is sharply detailed and lustrous with delicate olive-green and pearl-gray toning. Population: 41 in 67 (1 in 67+), 1 finer (11/12). PCGS# 9394, NGC ID# 28M2, CoinPlex ID# COM1938TEXAS
- 6593 1938-D Texas MS67 PCGS.** This is an appealing, well-struck Superb Gem example of one of the most ornate designs among the Classic Commemorative Series. Areas of iridescent toning that include a variety of attractive shades of gold, orange, sea-green, and splashes of vibrant red appear. PCGS# 9395, NGC ID# 28M3, CoinPlex ID# COM1938DTEXAS
- 6594 1938-D Texas MS67 PCGS. CAC.** Frosty and gorgeous, this piece is well-defined and is tied for numerically finest known at PCGS. Population: 77 in 67 (4 in 67+), 0 finer (11/12). PCGS# 9395, NGC ID# 28M3, CoinPlex ID# COM1938DTEXAS

- 6595 1938-D Texas MS67 NGC. CAC.** The obverse of this attractive Superb Gem exhibits liberal splashes of color, including several shades of green and russet, with straw-gold toning along with hints of red and sage-green along the outer edges. The reverse displays iridescent shades of orange, yellow, green, and red. Census: 93 in 67 (4 in 67+), 3 finer (12/12). NGC ID# 28M3, PCGS# 9395, CoinPlex ID# COM1938DTEXAS
- 6596 1938-D Texas MS67 PCGS Secure. CAC.** This is a lovely Superb Gem representative. The vivid bright yellow, orange, and red toning that hugs the outer edges of the obverse creates exceptional visual allure. Areas of toning also appear along portions of the reverse edges. Population: 77 in 67 (4 in 67+), 0 finer (12/12). PCGS# 9395, NGC ID# 28M3, CoinPlex ID# COM1938DTEXAS
- 6597 1938-D Texas MS67+ NGC. CAC.** The obverse of this high-end Superb Gem displays shades of olive-green and golden-brown color along with a few splashes of red-pink. The toning is more pronounced on the back, with deep hues of light golden-brown along with iridescent reds, oranges, and greens. Census: 93 in 67 (4 in 67+), 3 finer (12/12). NGC ID# 28M3, PCGS# 9395, CoinPlex ID# COM1938DTEXAS
- 6598 1938-S Texas MS67 PCGS.** Ex: Richard Jewell. Almond-gold and pearl-gray alternate across this satiny, immaculate, and nicely struck Superb Gem. The Richard Jewell Collection was auctioned by American Numismatic Rarities in March 2005, though the present coin did not appear in that catalog.
From *The Big E Collection*. PCGS# 9396, NGC ID# 28M4, CoinPlex ID# COM1938STEXAS
- 6599 1938-S Texas MS67 PCGS.** An attractive Superb Gem, this intricately designed commemorative displays sharp definition, and light gray patina on highly lustrous surfaces. Both sides are devoid of mentionable marks. Population: 57 in 67 (2 in 67+), 1 finer (12/12). PCGS# 9396, NGC ID# 28M4, CoinPlex ID# COM1938STEXAS
- 6600 1938-S Texas MS67 NGC. CAC.** This Superb Gem displays attractive satin luster and a bold strike. Deep violet and brown-green toning covers approximately half of the outer edge of the obverse. A similar area of color appears on the reverse and includes shades of red, purple, and orange. Census: 79 in 67, 7 finer (12/12). NGC ID# 28M4, PCGS# 9396, CoinPlex ID# COM1938STEXAS
- 6601 1946-D Booker T. Washington MS67 PCGS. CAC.** Gorgeous toning, particularly on the reverse, adds to the attractiveness of this Superb Gem. The colors primarily consist of iridescent hues of yellow, green, and red. The patina masks the few contact marks that appear on this well-struck piece. Population: 40 in 67 (4 in 67+), 0 finer (11/12). PCGS# 9405, NGC ID# 28M8, CoinPlex ID# COM1946DBTW

1947 Booker T. Washington Half Dollar, MS67
None Certified Finer, Ex: Bruce Scher

6602 1947 Booker T. Washington MS67 PCGS Secure. Ex: Bruce Scher. The 1947 Booker T. Washington halves from all Mints are among the most heavily melted classic commemoratives by percentage; out of an original mintage of 100,000 pieces each plus assay coins, only about 6,000 sets were sold, with the rest melted—over 90% of the original mintage! This Philadelphia Superb Gem is among the finest survivors for its issue, fantastically lustrous beneath dappled gold, lilac, and rose toning that is deeper on the obverse than on the reverse. The design elements are sharply detailed and vibrant mint luster shines through the patina. Population: 5 in 67, 0 finer (12/12). PCGS# 9408, NGC ID# 28MA, CoinPlex ID# COM1947BTW

Superb Gem 1947-D Half Dollar
Booker T. Washington Commemorative
Tied for Finest Certified

6603 1947-D Booker T. Washington MS67 PCGS. After the initial production of Booker T. Washington half dollars in 1946 saturated the market, sales dropped dramatically in later years, with the result that such pieces are rarely seen today. The distribution from each mint in 1947 was just 100,017 pieces, the odd 17 coins reserved for the annual assay.

This amazing Superb Gem has a bold strike with full obverse and reverse design elements. The surfaces are brilliant and frosty with silver-white luster and no evidence of toning. Here is a remarkable specimen, tied for the finest certified at PCGS or NGC. Population: 3 in 67, 0 finer (12/12). PCGS# 9409, NGC ID# 28MB, CoinPlex ID# COM1947DBTW

**1947-D Booker T. Washington Half, MS67
Tied for Finest Certified**

- 6604 1947-D Booker T. Washington MS67 PCGS Secure.** Ex: Bruce Scher. Congress authorized as many as 5 million Booker T. Washington half dollars in legislation that was approved on August 7, 1946, and that none of the coins could be issued after August 7, 1951. During that period, a little less than one-third of the total was actually distributed, including only 6,000 examples of the 1947-D. This Superb Gem, tied for the finest certified, is sharply detailed with stunning pinkish-lilac toning over brilliant and frosty silver luster with pristine, nearly flawless surfaces. Population: 3 in 67, 0 finer (11/12). PCGS# 9409, NGC ID# 28MB, CoinPlex ID# COM1947DBTW

**1947-S Booker T. Washington Half
Condition Rarity Superb Gem**

- 6605 1947-S Booker T. Washington MS67 PCGS Secure.** Ex: Bruce Scher. One of several lots in this auction that testify to the late Mr. Scher's incredible eye for commemorative coinage. Broad, flashy luster enhances surfaces that are pale blue at the margins with a faint canary tinge at the interiors. Even the lower part of Washington's face is not so rough as usual. Population: 12 in 67, 0 finer (12/12). PCGS# 9410, NGC ID# 28MC, CoinPlex ID# COM1947SBTW

**1948 Booker T. Washington Half Dollar, MS67
Tied for Finest Certified at PCGS**

- 6606 1948 Booker T. Washington MS67 PCGS.** Only 8,005 examples of the 1948 Booker T. Washington half dollar were distributed to the public, and this incredible Superb Gem is one of the finest survivors. The design elements are sharply detailed and the brightly lustrous surfaces show attractive hints of golden-brown and lilac toning. Population: 2 in 67, 0 finer (12/12). PCGS# 9412, NGC ID# 28MD, CoinPlex ID# COM1948BTW
- 6607 1948-D Booker T. Washington MS67 PCGS Secure.** Ex: Bruce Scher. A delicately toned Superb Gem with robin's-egg-blue outer patina and pale canary-yellow gracing the interiors. Broad luster has both subtle notes of both frost and quicksilver. Remarkably free of the planchet flaws so often seen on the portrait. Population: 12 in 67, 0 finer (12/12). PCGS# 9413, NGC ID# 28ME, CoinPlex ID# COM1948DBTW
- 6608 1948-D Booker T. Washington MS67 PCGS. CAC.** Gorgeous luster emanates from both sides of this well-struck Superb Gem, providing this piece with exceptional eye appeal. Population: 12 in 67, 0 finer (12/12). PCGS# 9413, NGC ID# 28ME, CoinPlex ID# COM1948DBTW

**1948-S BTW Half Dollar, MS67+
Tied for Finest at PCGS**

- 6609** 1948-S Booker T. Washington MS67+ PCGS. CAC. Dappled-toned blue-violet and gold-gray across most of the obverse, while the reverse has only the latter color and sometimes not even that. Incredibly well-preserved, though the inevitable planchet roughness is noted on Washington's jaw. Population: 12 in 67 (2 in 67+), 0 finer (12/12). PCGS# 9414, NGC ID# 28MF, CoinPlex ID# COM1948SBTW

**1949 Booker T. Washington Half
MS67, Tied for Finest Certified**

- 6610** 1949 Booker T. Washington MS67 PCGS Secure. Ex: Bruce Scher. Bruce Scher's silver commemorative type Registry Set is ranked #3 All-Time Finest, and was auctioned by Heritage in February 2005. The present Superb Gem half dollar exhibits dynamic cartwheel luster and light caramel-gold toning. Essentially pristine, though the cheek retains minor planchet striae, customary for the BTW type. Population: 11 in 67, 0 finer (12/12). PCGS# 9416, NGC ID# 28MG, CoinPlex ID# COM1949BTW

- 6611** 1949-D Booker T. Washington MS67 PCGS. The obverse of this Superb Gem exhibits just a hint of pink near the rims, while the reverse offers a hint of olive and gold, and yet the surfaces are basically untuned on this Superb Gem. Population: 16 in 67 (1 in 67+), 0 finer (12/12).

Ex: ANA Fort Worth Signature (*Heritage*, 3/2010), lot 1819. PCGS# 9417, NGC ID# 28MH, CoinPlex ID# COM1949DBTW

- 6612** 1949-D Booker T. Washington MS67+ PCGS Secure. Ex: Bruce Scher. Small, scattered areas of gray toning appear primarily at the outer edges of this lustrous piece. The design elements exhibit bold detail, particularly the cabin. This is the highest-graded PCGS example, with NGC not having assigned a higher numeric grade to a single example either. Population: 16 in 67 (1 in 67+), 0 finer (12/12). PCGS# 9417, NGC ID# 28MH, CoinPlex ID# COM1949DBTW

- 6613** 1949-S Booker T. Washington MS67 PCGS Secure. Ex: Bruce Scher. Deeply lustrous surfaces and boldly struck design elements create exceptional eye appeal for this Superb Gem. Population: 27 in 67, 0 finer (12/12). PCGS# 9418, NGC ID# 28MJ, CoinPlex ID# COM1949SBTW

**Superb Gem 1950-D Half Dollar
Desirable Registry Coin**

- 6614** 1950-D Booker T. Washington MS67 PCGS. A coin for the Registry enthusiast, this is a beautiful and partly toned Booker T. Washington half dollar from an issue of just 6,000 coins plus assay pieces. The obverse is largely light silver-gray, while a pale canary overtone enriches the central reverse. Both sides have arcs of rich reddish-orange, upper-right on the portrait side and lower-right where from the corner of the cabin to the second M in MEMORIAL. Luster is soft yet pleasing, and the strike is quality despite the presence of minor planchet roughness on the jaw (as usually seen). Population: 6 in 67, 0 finer (11/12). PCGS# 9421, NGC ID# 28ML, CoinPlex ID# COM1950DBTW

**1950-D Booker T. Washington Half, MS67
Among the Finest Certified Examples, Ex: Scher**

6615 1950-D Booker T. Washington MS67 PCGS. Ex: Bruce Scher. According to the 2013 *Guide Book*, the 1950-D Booker T. Washington commemorative half dollar had a distribution total of just 6,004 pieces. The issue was not well-produced, with many examples showing weak strikes and excessive bagmarks. As a result, the 1950-D Booker T. Washington half is seldom encountered in high grade today.

The present coin is a spectacular Superb Gem that shows none of the problems often associated with this issue. The design elements are sharply rendered, and the lustrous surfaces show no mentionable flaws. Deep emerald-green toning, with a few hints of lavender and amber, encircle the brilliant center on the reverse, while the obverse shows just a touch of champagne-gold and pink. Population: 6 in 67, 0 finer (11/12). PCGS# 9421, NGC ID# 28ML, CoinPlex ID# COM1950DBTW

6616 1950-S Booker T. Washington MS67 PCGS. CAC. This spectacular Superb Gem displays sharply detailed design elements and vibrant mint luster, with light touches of lilac and gold patina. Population: 25 in 67 (2 in 67+), 0 finer (12/12). PCGS# 9422, NGC ID# 28MM, CoinPlex ID# COM1950SBTW

**1951 Booker T. Washington
Deeply Toned Superb Gem**

6617 1951 Booker T. Washington MS67 NGC. Both sides of this attractive piece display a high degree of luster beneath deep rainbow toning. The census data remains unchanged since this piece appeared at auction in early 2010. Census: 8 in 67, 1 finer (11/12). Ex: *Long Beach Signature* (Heritage, 2/2010), lot 859. NGC ID# 28MN, PCGS# 9424, CoinPlex ID# COM1951BTW

6618 1951-D Booker T. Washington MS67 PCGS Secure. Ex: Bruce Scher. This Superb Gem displays tremendous eye appeal with boldly defined design details and lustrous, untoned surfaces that are almost entirely pristine. Population: 12 in 67 (1 in 67+), 0 finer (12/12). PCGS# 9425, NGC ID# 28MP, CoinPlex ID# COM1951DBTW

6619 1951-D Booker T. Washington MS67 PCGS. CAC. A magnificent MS67 example, with sharply detailed design elements and especially vibrant mint luster, this coin shows just a few accents of apple-green toning. Population: 12 in 67 (1 in 67+), 0 finer (12/12). PCGS# 9425, NGC ID# 28MP, CoinPlex ID# COM1951DBTW

6620 1951-S Booker T. Washington MS67+ PCGS Secure. Ex: Bruce Scher. A truly outstanding representative, this high-end Superb Gem displays brilliant, highly lustrous surfaces. The beautifully struck coin exhibits bold details. Population: 31 in 67 (1 in 67+), 0 finer (12/12). PCGS# 9426, NGC ID# 28MR, CoinPlex ID# COM1951SBTW

**1951 Washington-Carver Half, MS67
Important Condition Rarity**

6621 1951 Washington-Carver MS67 NGC. There is little doubt that the 1951 Washington-Carver half dollar is a common issue, with a mintage of 110,000 pieces, third highest in the series. This Superb Gem is anything but common at this grade, and is tied for finest certified. Both sides exhibit frosty luster beneath intermingled golden-brown, pale blue, and violet toning. Census: 3 in 67, 0 finer (12/12). NGC ID# 28MS, PCGS# 9430, CoinPlex ID# COM1951WASHCARVER

**Superb Gem 1952-S Washington-Carver Half
Tied for Finest Certified**

- 6622 1952-S Washington-Carver MS67 PCGS Secure.** Ex: Bruce Scher. Deeply toned in a partial concentric pattern with greens, blues, and tans prevailing. Swirling luster shimmers underneath. A few light streaks of silvery toning on the portraits might suggest abrasions to the careless eye, but close examination reveals the devices are essentially untouched. Population: 5 in 67, 0 finer (12/12). PCGS# 9436, NGC ID# 28MX, CoinPlex ID# COM1952SWASHCARVER

**1953-S Washington-Carver, MS67
None Finer at NGC or PCGS**

- 6623 1953-S Washington-Carver MS67 NGC.** Superb Gem Washington-Carver half dollars rank among the rarest of all commemorative issues. A mottled green-brown and gray patina covers the majority of both sides of this example. When examined closely, smaller splashes of blue-green, russet, and red-orange appear. Census: 12 in 67, 0 finer (11/12). NGC ID# 28N2, PCGS# 9440, CoinPlex ID# COM1953SWASHCARVER

- 6624 1954-D Washington-Carver MS66 PCGS. CAC.** Small, subtle areas of light toning appear on this lustrous Premium Gem. An issue of 12,000 pieces, the 1954-D Washington-Carver commemorative half dollar is undervalued in relation to its small mintage. Population: 32 in 66, 0 finer (11/12). PCGS# 9443, NGC ID# 28N4, CoinPlex ID# COM1954DWASHCARVER

- 6625 1936 York MS67+ ★ NGC. CAC.** A tab-toned York commemorative with exquisite ruby-red, orange-gold, and apple-green patina on the obverse. The reverse is brilliant aside from a hint of peripheral sun-yellow toning. Lustrous, fully struck, and pristine. Census: 1 in 67+ ★, 7 finer with a Star designation (12/12). NGC ID# 28N7, PCGS# 9449, CoinPlex ID# COM1936YORK

**1936 York Half Dollar, MS68
Tied for Finest Certified**

- 6626 1936 York MS68 PCGS.** Ex: Heller. Full, rich luster is evident beneath a thin layer of silver-gray patina. A small trace of russet toning is evident at the rims. The surfaces are mark-free, and this is about as pristine an example as could exist. Population: 24 in 68, 0 finer (11/12).
From The Big E Collection. PCGS# 9449, NGC ID# 28N7, CoinPlex ID# COM1936YORK

COMMEMORATIVE GOLD

- 6627 1903 Louisiana Purchase/Jefferson MS65 PCGS.** A lovely Gem representative of these pieces that were promoted by famed numismatist Farran Zerbe. Unfortunately, things did not work out as he had hoped and his reputation was affected by the disaster. Despite the events at the beginning of the 20th century, today's collectors are enthusiastic about these pieces. This example displays excellent color and minimal minor marks. PCGS# 7443, NGC ID# 26HA, CoinPlex ID# CGM1903JEFF

- 6628 1903 Louisiana Purchase/Jefferson MS65 PCGS. CAC Gold Label.** The present auction has a remarkable quantity of Gold CAC lots, and most are from the same consignor, who must have searched far and wide for the highly elusive pieces. This lustrous and unmarked Gem has gorgeous orange-gold centers and sea-green margins. Housed in a first generation holder.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 7443, NGC ID# 26HA, CoinPlex ID# CGM1903JEFF

- 6629 1903 Louisiana Purchase/McKinley MS65 PCGS.** Boldly struck on the political portrait with shimmering apricot-to-yellow luster around. A popular and relatively accessible issue, the Louisiana Purchase/McKinley gold dollar is a good starting-point for a high-grade commemorative gold collection. PCGS# 7444, NGC ID# 26HB, CoinPlex ID# CGM1903MCKIN

- 6630 1903 Louisiana Purchase/McKinley MS66 PCGS.** A lovely Premium Gem, this specimen displays lustrous, yellow-gold surfaces with subtle greenish undertones along with a few, small scattered splashes of russet. The design features are well impressed, and there are no mentionable marks to report. A minute die crack is evident between the rim and the second I in LOUISIANA.
From The Richard P. Ariagno, M.D. Collection. PCGS# 7444, NGC ID# 26HB, CoinPlex ID# CGM1903MCKIN

- 6631 1904 Lewis and Clark MS64 PCGS.** This first-year Lewis and Clark dollar was struck from relatively eroded dies, which appears in the texture and yellow-gold luster. Decently detailed for the type, this is an attractive near-Gem. PCGS# 7447, NGC ID# 26HC, CoinPlex ID# CGM1904LANDC

- 6632 1904 Lewis and Clark MS64 PCGS. CAC.** Bright swirling luster on each side with a touch of green to the gold. Both portraits are well-defined with just a hint of frostiness on the faces. Eye appeal is outstanding. PCGS# 7447, NGC ID# 26HC, CoinPlex ID# CGM1904LANDC

1904 Lewis and Clark Commemorative Dollar, MS66
Difficult in the Better Grades of Mint State

- 6633** 1904 Lewis and Clark MS66 PCGS. Although 25,000 examples dated 1904 were struck, only 10,025 pieces were reported sold. The 1904 Lewis and Clark is more difficult to obtain in the better Mint State grades than most other gold commemorative coins struck from 1903 to 1926. Whispers of soft mint-green visit the yellow-gold lustrous surfaces of this Premium Gem. This is a well struck piece with no marks of consequence. PCGS has seen only 17 specimens finer. PCGS# 7447, NGC ID# 26HC, CoinPlex ID# CGM1904LANDC

MS65 ★ 1905 Lewis and Clark Gold Dollar

- 6634** 1905 Lewis and Clark MS65 ★ NGC. The original legislation authorizing these pieces allowed coinage of up to 250,000 of these commemorative gold dollars at the request of the Lewis and Clark Centennial and American Pacific Exposition and Oriental Fair Company, and the legislation also provided that exposition and award medals would also be supplied by a Mint at cost.

This lovely Gem has pristine yellow-gold surfaces with satin luster and excellent eye appeal, despite a slightly deficient strike that shows some weakness of the hair detail on each side. NGC ID# 26HD, PCGS# 7448, CoinPlex ID# CGM1905LANDC

- 6635** 1915-S Panama-Pacific Gold Dollar MS65 NGC. A charming Gem specimen of the Panama-Pacific gold dollar, with sharply detailed design elements and brightly lustrous lemon-yellow surfaces. Only 15,000 examples were distributed. NGC ID# 26HE, PCGS# 7449, CoinPlex ID# CGM1915SPANPAC

- 6636** 1915-S Panama-Pacific Gold Dollar MS65 PCGS. CAC. A lovely Gem, this honey-gold example from the Panama-Pacific Exposition exhibits flawless fields and an intricate strike. PCGS# 7449, NGC ID# 26HE, CoinPlex ID# CGM1915SPANPAC

- 6637** 1915-S Panama-Pacific Gold Dollar MS66 PCGS. Well-defined with satiny, almost mattelike surfaces, this is an attractive Premium Gem. Areas of orange-gold and subtle green-gold tints add to the visual appeal. A minute speck appears on the cap. From *The Richard P. Ariagno, M.D. Collection*. PCGS# 7449, NGC ID# 26HE, CoinPlex ID# CGM1915SPANPAC

- 6638** 1915-S Panama-Pacific Gold Dollar MS66 PCGS. An attractive Premium Gem, this coin displays consistent, frosty straw-gold surfaces on each side. Even when viewed under magnification, no mentionable distractions appear. Only 51 examples have received higher numeric grades from PCGS (12/12). Ex: *Denver Signature (Heritage, 8/2006)*, lot 3963. PCGS# 7449, NGC ID# 26HE, CoinPlex ID# CGM1915SPANPAC

1915-S Panama-Pacific Gold Dollar, MS67
Tied for Finest Certified

- 6639** 1915-S Panama-Pacific Gold Dollar MS67 NGC. CAC. This desirable and unimprovable Superb Gem has light khaki-gold toning. The strike is intricate across all design details, and both sides lack any indication of contact. The obverse portrait represents a worker on the Panama Canal, although myriad collectors have undoubtedly identified him as a baseball player. Census: 61 in 67 (1 in 67+), 0 finer (11/12). NGC ID# 26HE, PCGS# 7449, CoinPlex ID# CGM1915SPANPAC

- 6640** 1915-S Panama-Pacific Quarter Eagle AU58 NGC. A lightly circulated example, this piece displays deep honey-gold color. Minor surface marks appear primarily in the obverse fields. NGC ID# 26HK, PCGS# 7450, CoinPlex ID# CGM1915SPANPAC

Near-Gem 1915-S Two and a Half
Panama-Pacific Exposition

- 6641** 1915-S Panama-Pacific Quarter Eagle MS64 PCGS. Net mintages for the various Panama-Pacific commemoratives fell as the denominations rose, and the quarter eagle saw just 6,749 pieces sold. This is a quality near-Gem, softly struck as usually seen. Although some pieces display a grainy luster, this example exhibits an attractive satiny luster. PCGS# 7450, NGC ID# 26HK, CoinPlex ID# CGM1915SPANPAC

1915-S Panama-Pacific Quarter Eagle
Lustrous Gem Example

- 6642** 1915-S Panama-Pacific Quarter Eagle MS65 NGC. Struck to celebrate the opening of the Panama Canal, the 1915-S Panama-Pacific quarter eagle was one of five coin types, from half dollar to fifty dollar denominations, produced to commemorate the event. This well-detailed Gem displays satiny mint luster and lightly marked yellow and rose-gold surfaces, with ample eye appeal. NGC ID# 26HK, PCGS# 7450, CoinPlex ID# CGM1915SPANPAC

**1915-S Panama-Pacific Quarter Eagle, MS66
Rarely Finer**

- 6643 1915-S Panama-Pacific Quarter Eagle MS66 PCGS. CAC.** This Premium Gem is fully brilliant with splendid yellow-gold surfaces and frosty luster. Delicate splashes of pale blue toning adds to the visual appeal of this lovely commemorative gold piece. PCGS has only certified two dozen finer Panama-Pacific quarter eagles, all in MS67 (12/12). PCGS# 7450, NGC ID# 26HK, CoinPlex ID# CGM1915SPANPAC

**Semifrosted MS66+ 1915-S
Panama-Pacific Two and a Half
Offered With Vintage Envelope**

- 6644 1915-S Panama-Pacific Quarter Eagle MS66+ NGC. CAC.** Semifrosted luster is a touch pale, mostly light yellow-gold. Columbia's face shows typical striking softness, but the surfaces are carefully preserved, almost to Superb Gem levels. This piece is offered with a vintage Panama-Pacific quarter eagle sales envelope, folded with underlines in red ink but entirely legible. NGC ID# 26HK, PCGS# 7450, CoinPlex ID# CGM1915SPANPAC
- 6645 1916 McKinley MS66 PCGS.** Primarily apricot-gold but with substantial peach elements. A few tiny flecks add character to each side, and the surfaces are surprisingly well-preserved. Finer examples are scarce in the combined certified population. PCGS# 7454, NGC ID# 26HF, CoinPlex ID# CGM1916MCKIN
- 6646 1916 McKinley MS66 PCGS.** Swirling, occasionally flashy luster with a subtle apricot overtone. The details on the portrait are a trifle soft, but the all-around preservation is solid for the grade. PCGS# 7454, NGC ID# 26HF, CoinPlex ID# CGM1916MCKIN
- 6647 1917 McKinley MS65 PCGS.** A beautiful apricot-gold color, this Gem boasts lustrous and virtually unmarked surfaces. This example of the scarcer of the two dates displays an intricate strike at the centers with a hint of incompleteness on the peripheral legends. *From The Richard P. Ariagno, M.D. Collection.* PCGS# 7455, NGC ID# 26HG, CoinPlex ID# CGM1917MCKIN

- 6648 1917 McKinley MS66 PCGS.** This Premium Gem commemorative gold dollar emits ebullient luster. The surfaces display attractive toning in shades of orange, mint-green, and lilac on the obverse and the first two colors on the reverse. The piece is exquisitely struck. A thin vertical line appears in the field to the left of McKinley's nose.

Ex: Long Beach Signature (Heritage, 2/2010), lot 886. PCGS# 7455, NGC ID# 26HG, CoinPlex ID# CGM1917MCKIN

- 6649 1917 McKinley MS66 PCGS.** The light yellow-gold surfaces of this attractive Premium Gem show a few hints of rose, with satiny mint luster and well-detailed design elements. Eye appeal is outstanding. PCGS# 7455, NGC ID# 26HG, CoinPlex ID# CGM1917MCKIN

- 6650 1922 Grant No Star MS65 PCGS.** Lemon-yellow surfaces with orange toning accompany the bold design motifs and frosty luster of this Gem. An exceptional example for the connoisseur. *From The Teich Family Collection.* PCGS# 7458, NGC ID# 26HJ, CoinPlex ID# CGM1922GRANTNS

- 6651 1922 Grant No Star MS65 NGC.** A gorgeous apricot-gold Gem. Lustrous and devoid of contact. The sole imperfection is slight inexactness of strike on the tree trunk left of the frame house window. Housed in a prior generation holder. NGC ID# 26HJ, PCGS# 7458, CoinPlex ID# CGM1922GRANTNS

- 6652 1922 Grant No Star MS65 PCGS. CAC.** This yellow-gold Gem appears immaculate aside from two brief hair-thin marks, one above the frame house door and the other on Grant's forehead. Sharply struck save for the inevitable incompleteness on the tree trunk near the window, which is opposite the highpoint of Grant's hair. Encapsulated in a green label holder. *Ex: Long Beach Signature (Heritage, 2/2010), lot 888, which realized \$3,105.* PCGS# 7458, NGC ID# 26HJ, CoinPlex ID# CGM1922GRANTNS

**1922 Grant Gold Dollar, MS66+
No Star Variety**

- 6653 1922 Grant No Star MS66+ NGC.** This high-end Premium Gem exhibits pinpoint definition on all design elements and vibrant mint luster radiates from both sides. The lemon-yellow surfaces are virtually free of distractions and eye appeal is tremendous. The No Star variety had a net distribution total of 5,000 pieces. NGC ID# 26HJ, PCGS# 7458, CoinPlex ID# CGM1922GRANTNS

**Premium Gem 1922 Grant No Star Dollar
Pleasing Color and Strike**

- 6654 1922 Grant No Star MS66 NGC. CAC.** A light yellow-gold example of the No Star variant for this popular gold dollar issue. Overall detail is above-average with only a tiny “bald spot” on the back of Grant’s head. A minor coppery area appears in the right obverse field between grant’s nose and the second A of AMERICA. NGC ID# 26HJ, PCGS# 7458, CoinPlex ID# CGM1922GRANTNS

- 6655 1922 Grant With Star MS65 PCGS.** This Gem Grant Star gold dollar combines light yellow and lemon surfaces with sharp details and frosty luster. An attractive piece for an advanced collection. *From The Teich Family Collection.* PCGS# 7459, NGC ID# 26HH, CoinPlex ID# CGM1922GRANTSTAR

- 6656 1922 Grant With Star MS65 PCGS.** Both sides of this Gem example display rich orange-gold color. Small splashes of vibrant ice-green, silver, ice-pink, and lilac appear, primarily on the obverse, when the piece is rotated under a light source and examined with a loupe. This is a very attractive representative. PCGS# 7459, NGC ID# 26HH, CoinPlex ID# CGM1922GRANTSTAR

- 6657 1922 Grant With Star MS65 PCGS.** Uncommonly bright luster gleams on this With Star gold dollar. Detail on Grant’s portrait is uncommonly strong. Housed in a green label holder. PCGS# 7459, NGC ID# 26HH, CoinPlex ID# CGM1922GRANTSTAR

**Gem 1922 Grant With Star Gold Dollar
Gold CAC Endorsement**

- 6658 1922 Grant With Star MS65 PCGS. CAC Gold Label.** A shining yellow-gold example with surface quality that clearly surpasses that of a “mere” Gem. Well-defined overall with the level of detail on Grant’s hair particularly noteworthy. Housed in a green label holder that bears a CAC gold label, a suggestion of higher quality that is most agreeable.
Ex: Coinfest Signature (Heritage, 10/2010), lot 4467, where it brought \$2,760.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 7459, NGC ID# 26HH, CoinPlex ID# CGM1922GRANTSTAR

**1922 Grant Gold Dollar, MS66
Popular With Star Variant**

- 6659 1922 Grant With Star MS66 PCGS. CAC.** The 1922 Grant With Star memorial gold dollar was the first version of the type, the star later being removed. Bright luster endows this Premium Gem that displays pretty peach-gold color. Additionally, a solid strike imparts strong definition to the design elements. An inoffensive alloy spot occurs on each side. PCGS# 7459, NGC ID# 26HH, CoinPlex ID# CGM1922GRANTSTAR

**1922 Grant With Star Dollar, MS67
Only One PCGS Finer**

- 6660 1922 Grant With Star MS67 PCGS. CAC.** An incredible Superb Gem featuring highly lustrous light yellow-gold surfaces with fully detailed design motifs on both sides. Faint traces of light orange toning further accent the designs on this example. Though this issue is available in MS67, PCGS has only graded one coin at a higher level (11/12). PCGS# 7459, NGC ID# 26HH, CoinPlex ID# CGM1922GRANTSTAR

- 6661 1926 Sesquicentennial MS65 PCGS.** A brilliant Gem, this Sesquicentennial quarter eagle has bright yellow-gold surfaces with frosty luster and orange and silver accents. A few small marks appear. PCGS# 7466, NGC ID# 26HL, CoinPlex ID# CGM1926SESQUI

PATTERNS

Gobrecht 1838 Silver Half, PR63

Judd-73 Restrike

- 6662** 1838 Half Dollar, Judd-73 Restrike, Pollock-77, R.5, PR63 NGC. The obverse, once attributed to Chief Engraver William Kneass, is more likely the work of assistant Christian Gobrecht. It depicts a large draped bust of Liberty facing left. A level flying eagle faces left, dominating the reverse. A restrike with several different die cracks on the reverse. Struck in silver with a reeded edge. Better struck than usual for Judd-73, though the prominent neck curl and the eagle's breast are incompletely brought up. Attractively toned in powder-blue, olive-green, and peach-gold shades. PCGS# 11288, CoinPlex ID# PAT1838J73RES

Annular Billon 1850 Cent

Judd-119 Original, PR63

- 6663** 1850 One Cent, Judd-119 Original, Pollock-134, Low R.6, PR63 NGC. Ex: Exemplar Collection. Eagle Eye Photo Seal, card included. The obverse displays the denomination CENT at the top, the date 1850 at the bottom, two rosettes at the sides, and a perforation in the center. The shattered reverse has the inscriptions USA and ONE TENTH SILVER around. Struck in billon (10% silver, 90% copper) with a plain edge and medal turn. According to USPatterns.com, the billon strikings with a central perforation are originals. Well struck and satiny with sea-green and straw-gold toning. No detractions are readily evident. PCGS# 11511, CoinPlex ID# PAT1850J119ORIG

Choice Proof 1850 Cent Pattern

Judd-124 Restrike

- 6664** 1850 One Cent, Judd-124 Restrike, Pollock-139, Low R.7, PR64 PCGS. CAC. Eagle Eye Photo Seal, card included. Non-perforated annular small cent pattern, simply laid out with *CENT*1850 on the obverse, and on the reverse USA ONE TENTH SILVER. Struck in copper-nickel with a plain edge. The extensive die breaks on the reverse indicate the restrike status of this piece, of which only a half dozen or so are known. The apricot-gold and powder-blue surfaces are satiny and free from mentionable detractions. Housed in a green label holder. Population: 6 in 64, none finer (11/12). PCGS# 11532, CoinPlex ID# PAT1850J124RES

1854 Seated Liberty Cent

PR64 Red and Brown, Judd-159

- 6665** 1854 One Cent, Judd-159, Pollock-186, High R.7, PR64 Red and Brown NGC. Ex: Empire Sale / Exemplar Collection. Eagle Eye Photo Seal, card included. Pollock believes that the obverse die was created from a crudely reduced 1851 Seated Dollar die using the portrait lathe. The reverse features a prominent "1 CENT" denominational legend within a wreath of oak leaves and acorns. Struck in copper with a plain edge. The present Choice example has substantial mint red, perhaps more than any other example of Judd-159. The color has slightly mellowed to lilac on the central reverse, and minor gray spots are near the cap and star 7. PCGS# 11655, CoinPlex ID# PAT1854J159RB

**No Stars 1854 Cent Pattern
PR63 Brown, Gold CAC
Judd-161 Original**

6666 1854 One Cent, Judd-161 Original, Pollock-187, R.4, PR63 Brown PCGS. CAC Gold Label. The design is similar to that on production large cents except the diameter is close to a quarter dollar, there are no stars on the obverse, and the wreath is proportionately smaller. Struck in copper with a plain edge. The surfaces are still nicely reflective through the aquamarine and ruby-red toning that covers each side. The fields are slightly granular but there are no contact marks and the strike is precise. Housed in an old green label holder.

From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 11663, CoinPlex ID# PAT1854J161ORIGBN

**Gem Proof 1857 Cent Pattern
Judd-186, Liberty Obverse**

6667 1857 One Cent, Judd-186, Pollock-222, High R.7, PR65 PCGS. Eagle Eye Photo Seal. The obverse depiction of Liberty is the same as on the 1865 three cent nickel, but stars replace the peripheral legend. The reverse features the denomination within a wreath. UNITED STATES OF AMERICA does not appear on this very rare pattern. Struck in copper-nickel with a plain edge. The obverse die was also used to produced a quarter eagle pattern, J-189. The reverse die was earlier used on an 1853 pattern cent. The attractive caramel-gold surfaces are nicely mirrored and display only minor obverse carbon. The die rotation is close to metal turn. Housed in an old green label holder.

Ex: New York Signature (Heritage, 7/2004), lot 7891. PCGS# 11815, CoinPlex ID# PAT1857J186

**Flying Eagle 1858 Cent Pattern
Judd-192, Choice Proof**

6668 1858 Flying Eagle Cent, Judd-192, Pollock-235, Snow-PT13, R.5, PR64 PCGS. CAC. Eagle Eye Photo Seal, card included. The obverse is the familiar Small Letters 1858 cent. The pattern reverse is similar to the 1860 regular issue reverse, but the wreath is nearly closed with no shield separating the ends. Struck in copper-nickel, with a plain edge, from moderately rotated dies. Crisply struck and unmarked with scattered unimportant carbon. Population: 21 in 64 (1 in 64+), 7 finer (11/12).

Ex: Long Beach Signature (Heritage, 2/2007), lot 4159, which realized \$2,990. PCGS# 11842, CoinPlex ID# PAT1858J192

**Paquet 1858 Flying Eagle Cent
Gem Proof, Judd-206**

6669 1858 Flying Eagle Cent, Judd-206, Pollock-242, R.5, PR65 PCGS. Snow-PT16. Die Pair 2 with the Type Two over Type Three reverse (open E in ONE rehubbied with the near-closed E). Paquet's Small Eagle obverse is paired with the regular issue Low Leaves reverse. Struck in copper-nickel with a plain edge. Intricately struck and flashy with dusky peach-gold toning. Free from post-strike contact, though a mint-made lintmark and a faint fingerprint fragment are on the field above the eagle. Population: 3 in 65, 1 finer as 65 Cameo (11/12). PCGS# 11877, CoinPlex ID# PAT1858J206

**Judd-208 1858 Indian Cent
MS66, Rounded Bust Tip**

6670 1858 Indian Cent, Judd-208, Pollock-259, R.5, MS66 NGC. Snow-PT28. Die Pair 2. An Indian cent pattern with the adopted design of 1859, but dated a year earlier. Struck in copper-nickel with a plain edge. The wreath on the reverse has clusters of five rather than six leaves, and the bust tip is rounded or blunt instead of narrow. The fields are moderately prooflike and the surfaces display peach-gold and steel-blue shades. Void of contact, and only minuscule carbon can be found beneath a lens. Census: 1 in 66, 0 finer (12/12).

Ex: Columbus Central States Signature (Heritage, 4/2006), lot 1815. PCGS# 11884, CoinPlex ID# PAT1858J208

**PR64 Cameo 1858 Indian Cent
Judd-211, Oak Wreath Reverse**

- 6671** 1858 Indian Cent, Judd-211, Pollock-262, Snow-PT26, R.5, PR64 Cameo NGC. Ex: Exemplar Collection. Eagle Eye Photo Seal, card included. Centered Date, Broad Bust Point. The obverse is an 1858-dated transitional issue similar to the 1858 circulation issue. The reverse bears a heavy oak wreath, different from the more-delicate laurel wreath adopted the next year but not that different from the wreath introduced in 1860. The O in OF is repunched. Struck in copper-nickel with a plain edge. Satiny and devoid of marks with minimal carbon specks. The obverse field is mostly wheat-gold though lilac-gray is evident near the profile and on the reverse. PCGS# 11893, CoinPlex ID# PAT1858J211

**1858 Indian Cent, Wreath Reverse
Choice Cameo Proof, Judd-213**

- 6672** 1858 Indian Cent, Judd-213, Pollock-252, Snow-PT30, R.5, PR64 Cameo NGC. Ex: Exemplar Collection. Eagle Eye Photo Seal, card included. A regular issue reverse is paired with an obverse identical to the issued 1859 Indian cent except dated 1858. The Low Date, Narrow Bust Point, Low Leaves die variant. Judd-213 is R.5 overall but Snow-PT30 is R.7, since most examples of Judd-213 are the Broad Bust Point variety. Fully struck and flashy with orange-gold and olive-green toning. Census: 12 in 64, 4 finer (11/12). PCGS# 11897, CoinPlex ID# PAT1858J213

**1859 Copper-Nickel Cent Pattern
Judd-228, Bright MS65**

- 6673** 1859 Indian Cent, Judd-228, Pollock-272, R.1, MS65 PCGS. This transitional pattern combines the standard Indian Head cent obverse with the adopted reverse design of 1860 with the shield at the top of that side. Struck in copper-nickel with a plain edge. The Judd-228 is one of the more obtainable patterns and also one of the few struck as in business strike format. The surfaces are bright and retain almost all of the original "whiteness" of the copper-nickel alloy. Close examination shows three tiny specks on the obverse and none on the reverse. From The Teich Family Collection. PCGS# 11932, CoinPlex ID# PAT1859J228

**MS65 Transitional Judd-228
1859 Shield Reverse Indian Cent**

- 6674** 1859 Indian Cent, Judd-228, Pollock-272, Snow-PT4, R.1, MS65 NGC. Ex: Exemplar Collection. Eagle Eye Photo Seal, card included. Identical to the issued shield reverse 1860 Indian cent except dated 1859. Struck in copper-nickel with a plain edge. The left reverse has a wire rim. A semiprooflike sun-gold Gem that is well struck aside from the upper right portion of the shield. Only a few tiny light gray spots deny perfection. Census: 42 in 65 (1 in 65+), 8 finer (11/12). PCGS# 11932, CoinPlex ID# PAT1859J228

**Transitional 1859 Indian Cent, Judd-228
MS65+, Shield Reverse**

- 6675** 1859 Indian Cent, Judd-228, Pollock-272, Snow-PT4, R.1, MS65+ NGC. Ex: Exemplar Collection. Eagle Eye Photo Seal, card included. A popular transitional Indian cent pattern. The obverse has the regular issue 1859 Indian cent obverse design, and the reverse displays the issued 1860 Indian cent reverse. Struck in copper-nickel with a plain edge. Boldly struck and lustrous with apricot, rose, and olive tints. Void of contact aside from a minute obverse rim nick at 7 o'clock. The upper reverse is lightly strike doubled. PCGS# 11932, CoinPlex ID# PAT1859J228

**Gem Proof Shield Reverse
1859 Indian Cent, Judd-228**

- 6676** 1859 Indian Cent, Judd-228, Pollock-272, Snow-PT4, R.1, PR65 PCGS. CAC. Snow-PT4. The transitional Pointed Bust Type of 1860 but with date 1859. The reverse displays the oak wreath and shield design first struck for circulation on 1860 cents, instead of the simpler laurel wreath reverse used on business strike 1859 cents. Struck in copper-nickel with a plain edge. This nicely struck Gem is satiny and nearly mark-free with only a few trivial flecks. The wheat-gold obverse has lighter color than the peach-tinged reverse. PCGS# 11934, CoinPlex ID# PAT1859J228

**1859 Judd-234, Pollock-281 Quarter, PR65
Anthony Paquet Reverse**

- 6677** 1859 Quarter Dollar, Judd-234, Pollock-281, Low R.7, PR65 PCGS. The obverse features the regular design for the year; the reverse is a pattern design by Anthony Paquet. It features a perched eagle in a plain field surrounded with Paquet's distinctive tall letters on UNITED STATES OF AMERICA and the denomination QUARTER DOLLAR below. Struck in silver with a reeded edge. This Gem has nice contrast between its lustrous, sharply defined devices and fully mirrored fields, all beneath attractive gold and iridescent toning. Population: 2 in 65, 0 finer (12/12). PCGS# 11958, CoinPlex ID# PAT1859J234

**PR64 Brown 1859 Half Dollar
Judd-238, Struck in Copper**

- 6678** 1859 Half Dollar, Judd-238, Pollock-294, R.5, PR64 Brown PCGS. The "French Head" of Liberty faces right with laurel and vine in her hair. A ribbon below her bust is inscribed LIBERTY, with UNITED STATES OF AMERICA around, and the date below. The reverse resembles the issued 1860 Seated dime though in larger format with the denomination changed to HALF DOLLAR. Struck in copper with a reeded edge. This chocolate-brown specimen has an intricate strike and is void of contact marks. One small spot is on the upper right obverse field. Housed in a first generation holder. PCGS# 11968, CoinPlex ID# PAT1859J238BN

**1859 'French Head' Half Dollar in Copper
Judd-240, PR66 Brown**

- 6679** 1859 Half Dollar, Judd-240, Pollock-296, R.5, PR66 Brown NGC. On the obverse Liberty faces right with laurel and vine in her hair. A ribbon below the bust is inscribed LIBERTY, with UNITED STATES OF AMERICA around, and the date below. The reverse has an agricultural wreath around the denomination 1/2 DOLLAR. The wreath contains various products of the nation's farmers, including corn, wheat, cotton, tobacco, and sugar cane. Struck in copper with a reeded edge. This is one of the more frequently encountered early patterns with some 30 individual pieces believed to exist. The fields show heavy die striations and are well-mirrored. The obverse is deep blue and brown, while the reverse is mostly brilliant with just a hint of pale blue color present. As one would expect from a PR66, there are no obvious contact marks. PCGS# 11974, CoinPlex ID# PAT1859J240BN

**Select Proof Judd-249
Silver 1859 Half Dollar**

- 6680** 1859 Half Dollar, Judd-249, Pollock-288, High R.7, PR63 NGC. The Paquet Liberty Seated obverse. She supports a fasces and a legend-free shield. An olive branch and three arrowheads rest near the base of the shield. Thirteen stars encircle the rim. The reverse depicts the cereal wreath from issued Seated coinage with the denomination inside the wreath expressed in the tall, thin letters typical of Paquet's style. Struck in silver with a reeded edge. Like all known examples, the reverse displays extensive speckles of die rust, as made. Well struck and nicely mirrored with attractive peripheral ocean-blue and tan-gold toning. PCGS# 12000, CoinPlex ID# PAT1859J249

**PR64 Brown Judd-283 Copper
1861 Half Eagle Pattern**

- 6681** 1861 Five Dollar, Judd-283, Pollock-336, Low R.7, PR64 Brown PCGS. The obverse depicts a bust of Liberty facing right with thirteen stars arranged around the periphery. Liberty wears a cap ornamented with three stars, over her right shoulder is a ribbon inscribed LIBERTY. The date 1861 is at the bottom. An eagle with outstretched wings and a shield on its chest dominates the reverse. The eagle grasps a scroll inscribed E PLURIBUS UNUM in its beak, the legend UNITED STATES OF AMERICA and the denomination FIVE DOLLARS are arranged around the border. Struck in copper with a reeded edge. Richly patinated cherry-red, lilac, peach-gold, and sea-green. The strike is needle-sharp and a lens reveals only minor field imperfections. Though Judd-283 is designated as Low R.7, a combined total of just five pieces is certified by NGC and PCGS. PCGS# 12118, CoinPlex ID# PAT1861J283BN

**1862 God Our Trust Half, PR64 Cameo
Judd-295, Pollock-353**

- 6682** 1862 Half Dollar, Judd-295, Pollock-353, R.5, PR64 Cameo PCGS. The obverse is the regular-issue Seated Liberty half dollar, while the reverse, left over from 1861 pattern strikes, has GOD OUR TRUST in the field above the eagle's head. The motto is set directly into the field with no scroll. Struck in silver with a reeded edge. A stunning near-Gem, this Cameo proof has a bold strike with old blue toning and hints of iridescence. PCGS# 60445, CoinPlex ID# PAT1862J295

**1863 Copper With Motto Half Dollar
Judd-343, PR63 Red and Brown Cameo**

- 6683** 1863 Half Dollar, Judd-343, Pollock-415, R.7, PR63 Cameo Red and Brown NGC. The obverse die is the design used on regular-issue half dollars in 1863. The reverse features the normal perched eagle design, with the addition of the scroll and motto IN GOD WE TRUST above the eagle's head. Struck in copper, with a reeded edge. According to USPatterns.com, Judd-343 was a restrike issue, created for sale to collectors in the 1870s. The coins were typically offered with other denominations as year sets. An early auction appearance of such a set was in the Woodside Collection (New York Coin & Stamp, 4/1892), lot 131. The Woodside sale also included complete sets in silver and aluminum. The issue is rare, with an estimated population of about one dozen survivors. Sharply struck, with all features intricately detailed. Lovely, bright orange-red luster shows just a bit of spotty darkening on the reverse. Deeply reflective fields and thickly frosted devices. The only factors limiting the grade are some carbon spots and handling marks (possibly fingerprints) in the obverse fields. An attractive example of a rare and popular pattern.
Ex: DEA and Marshal's Services Sale (Heritage, 12/1988), lot 1881; Lemus Collection / Queller Family Collection Part Two / FUN Signature (Heritage, 1/2009), lot 1611. PCGS# 70505, CoinPlex ID# PAT1863J343RB

**1864 Copper Cent Striking, No L Dies
Judd-356A, MS62 Brown**

- 6684** 1864 One Cent, Judd-356A, Pollock-427, Low R.6, MS62 Brown PCGS. Struck from regular-issue plain edge No L dies, but in copper on a thick planchet. A dozen or so pieces are believed known, and this issue is rarely seen with any remaining red color. In the past some have been identified as having bronze composition, but they are most likely error strikings. The surfaces are glossy mahogany-brown and show a couple of grade-limiting ticks on the cheek. The obverse die is misaligned, causing a railroad rim between 11 and 3 o'clock.
Ex: Long Beach Signature (Heritage, 2/2007), lot 4168. PCGS# 60525, CoinPlex ID# PAT1864J356ABN

1864 Dime in Copper, Maybe a Dozen Known
Judd-381, PR66 Red

- 6685** 1864 Ten Cents, Judd-381, Pollock-449, R.7, PR66 Red NGC. Regular die trials issue for the Seated dime. Struck in copper with a reeded edge. The various denominations dated 1864 are actually backdated novodels, according to USPatterns.com. Pieces were struck in copper, aluminum, and nickel. The copper strikings are by far the most easily found, but still only about a dozen are known. This is a deeply mirrored example with even reddish-orange color. A number of light spots are scattered over each side. PCGS# 80552, CoinPlex ID# PAT1864J381RD

PR64 1864 Seated Quarter Pattern
Judd-384, Paquet Reverse

- 6686** 1864 Quarter Dollar, Judd-384, Pollock-452, Low R.7, PR64 NGC. The obverse is the regular-issue Seated Liberty design of 1864. Paquet's reverse features an eagle and shield, olive, and arrows in the claws. Around, the legend UNITED STATES OF AMERICA with the denomination QUARTER DOLLAR below. Struck in silver with a reeded edge. A pale champagne overtone is most prominent at the rims of this near-Gem specimen with Paquet's signature narrow lettering on the reverse. Contrast is mild. PCGS# 60555, CoinPlex ID# PAT1864J384

PR62 Red and Brown Judd-403
Thick Planchet 1865 Indian Cent

- 6687** 1865 One Cent, Judd-403, Pollock-471, High R.7, PR62 Red and Brown PCGS Secure. Eagle Eye Photo Seal, card included. Plain 5. From regular issue dies, and coined in the usual bronze alloy with a plain edge, but on a thick planchet. Per USPatterns.com, "these may simply be mint errors struck on wrong thickness stock. Only 2 or 3 are believed to exist." The present fully struck specimen has a rose-red obverse and a lilac and jade-green reverse. The fields are nicely mirrored, and both contact and carbon are absent. PCGS# 70579, CoinPlex ID# PAT1865J403RB

Reeded Edge PR64 1865 Indian Cent
Copper-Nickel, Thick Planchet, Judd-405

- 6688** 1865 One Cent, Judd-405, Pollock-474, High R.7, PR64 PCGS. Eagle Eye Photo Seal, card included. Struck from regular issue Plain 5 obverse and reverse dies, but on a thick copper-nickel planchet with a reeded edge. A thin planchet variant of Judd-405 also exists. The present boldly struck near-Gem features radiant sun-gold and lime-green fields. The devices are tan-gold. A loupe reveals only a couple of trivial flecks that do not appear to limit the grade. PCGS# 60582, CoinPlex ID# PAT1865J405

1865 Transitional Nickel Pattern, PR63
Judd-416, Pollock-488

- 6689** 1865 Shield Five Cents, Judd-416, Pollock-488, High R.6, PR63 NGC. This transitional pattern has the designs of the 1866 Rays nickel issued for circulation, but is dated 1865. The series was introduced to replace silver half dimes hoarded from circulation. Originals and Restrikes may exist. This sharply detailed specimen displays moderately reflective fields with mostly brilliant surfaces and a few smudges of amber on the reverse rims. PCGS# 60598, CoinPlex ID# PAT1865J416

Copper-Nickel 1866 Indian Cent
Judd-456, PR63

- 6690** 1866 One Cent, Judd-456, Pollock-530, Low R.7, PR63 PCGS. Eagle Eye Photo Seal. Struck from regular issue plain edge Indian cent dies, but in copper-nickel instead of bronze. This satiny representative is nicely struck though the two uppermost feather tips lack a complete impression. Sea-green, rose-red, and peach-gold shades enrich smooth surfaces. Population: 3 in 63, 5 finer (11/12). PCGS# 60651, CoinPlex ID# PAT1866J456

**1866 Five Cent Pattern, PR63 Red
Judd-468, One Finer Red Coin at PCGS**

- 6691** 1866 Five Cents, Judd-468, Pollock-561, R.7, PR63 Red PCGS. The obverse bears a bust of a pigtailed George Washington facing right, with IN GOD WE TRUST over his head at the rim. The reverse is a tall 5 in a wreath (olive or laurel, with berries) joined by a bowknot, UNITED STATES OF AMERICA around. There is no denominator. Struck in copper with a plain edge. The Judd pattern reference lists the copper issue as R.8, but www.USPatterns.com lumps the "copper and/or bronze" Judd-468 and 469 patterns together, saying "about a half-dozen known" and giving an R.7 listing.

This piece is fully Red within the context of early copper, with attractive pinkish-orange coloration on both sides and splendid luster. Population: 1 in 63 Red, 1 finer (12/12).

Ex: Long Beach Signature (Heritage, 9/2008), lot 3436. PCGS# 80664, CoinPlex ID# PAT1866J468RD

**1866 Shield Nickel Pattern
Judd-489, With 'Dutch' 5, PR64**

- 6692** 1866 Shield Five Cents, Judd-489, Pollock-577, Low R.6, PR64 PCGS. CAC. The obverse has a shield design similar to that adopted for the regular issue Shield nickel, except that the motto IN GOD WE TRUST is expressed in smaller letters and the date is divided by the ball at the base of the shield. On the reverse, the "Dutch" 5 is surrounded by a laurel wreath, with the legend UNITED STATES OF AMERICA around the rim. Struck in nickel with a plain edge. This popular pattern shows a die cutting error, the motto at the top of the obverse having been started way too far right and the remnant of the final T in TRUST still visible in the field. The surfaces are brilliant and nicely reflective, except in places on the reverse where shallow planchet flaking interrupts the mirroring. From The Teich Family Collection. PCGS# 60685, CoinPlex ID# PAT1866J489

**White PR66 Cameo Judd-489
1866 Shield Nickel Pattern**

- 6693** 1866 Shield Five Cents, Judd-489, Pollock-577, Low R.6, PR66 Cameo NGC. CAC. Five-cent pattern with an obverse similar to the adopted Shield nickel design, but the ball at the bottom of the shield divides the date. A blundered letter T, partly effaced, is at 1:30. The reverse features a "Dutch" numeral 5 inside a laurel wreath. Struck in nickel with a plain edge. A flashy and untuned Premium Gem. Well struck and essentially as made, with hints of the planchet surface retained on the fields, particularly within the wreath. PCGS# 60685, CoinPlex ID# PAT1866J489

**Choice Proof 1867 Nickel Pattern
Struck in Aluminum, Judd-561**

- 6694** 1867 Five Cents, Judd-561, Pollock-622, R.5, PR64 PCGS. CAC. A Liberty head on the obverse faces left. She wears a headdress with four feather, four stars, and a ribbon inscribed UNION & LIBERTY. Below the bust is LONGACRE F. The reverse has an ornate shield superimposed with a large V. Statutory legends complete the design. Struck in aluminum with a plain edge. Most brilliant though a glimpse of gunmetal-gray is near AMERICA. Well struck and undisturbed with faint vertical die polish lines on both sides. PCGS# 60771, CoinPlex ID# PAT1867J561

1867 Longacre-Designed Nickel in Aluminum
Judd-561, PR65

- 6695** 1867 Five Cents, Judd-561, Pollock-622, R.5, PR65 NGC. The central obverse device is a head of Liberty facing left, wearing a headdress of four large feathers and a ribbon with the inscription UNION AND LIBERTY. Resting in the hair in front of the ribbon are four large stars. The chief engraver's name LONGACRE F. is stylishly displayed at the truncation of the neck. The legend UNITED STATES OF AMERICA around, with the date in the exergue. The reverse features a Roman numeral V over an ornate shield, with IN GOD WE TRUST at the top. Struck in aluminum with a plain edge. Possibly as many as 100 of these patterns were struck according to J. Colvin Randall. Far fewer exist today, and this is one of the finest. The surfaces are bright with deeply reflective fields and significantly frosted devices. PCGS# 60771, CoinPlex ID# PAT1867J561

1867 Five Cent Mule, PR61
Judd-582, R.8

- 6696** 1867 Five Cents, Judd-582, Pollock-642, R.8, PR61 PCGS. A muling of the design that was adopted for the three cent nickel, but here adapted to the size of a nickel. Paired with the regular No Rays reverse. Struck in nickel with a plain edge. These pieces are believed to have been struck outside the Mint from dies sold as scrap, perhaps by Joseph Mickley. The reverse on this piece shows pronounced double striking. Presumably, the hammer (reverse) die rotated approximately ten degrees between strikes while the anvil (obverse) die was stationary. A pearl-gray specimen that displays delicate hairlines and a couple of small gray spots. Only one other example of Judd-582 is certified, as PR50 by PCGS. Ex: Crosby Collection (John Haseltine, 6/1883), lot 1803, where it brought 75 cents; Lenox Lohr (Empire Fixed Price List); Tramonta Collection (Bowers and Merena, 10/2005), lot 7345, which realized \$8,050. PCGS# 60794, CoinPlex ID# PAT1867J582

**Very Rare 1868 Five Cent Pattern
Judd-634, PR64 ★ Brown**

- 6697** 1868 Five Cents, Judd-634, Pollock-706, High R.7, PR64 ★ Brown NGC. CAC. The overall design is similar to the circulating three cent nickel, in larger format and with a V in the central reverse to indicate a five cent piece. But Liberty has a small star on her coronet, and the date 1868 is in exergue. The reverse has a wreath with small Maltese cross atop, surrounded by a scroll bearing IN GOD WE TRUST. Struck in copper with a plain edge. This is a flashy Choice proof with a precise strike and parallel hairlines on the central reverse field. Attractively toned with aquamarine fields and cherry-red borders. PCGS# 60852, CoinPlex ID# PAT1868J634BN

**1868 Five Cent Pattern in Copper
Judd-634, PR63 Red and Brown**

- 6698** 1868 Five Cents, Judd-634, Pollock-706, High R.7, PR63 Red and Brown NGC. Ex: Exemplar Collection. The obverse design is that of the three cent nickel, as adopted, but on a larger planchet, with minor design modifications appropriate to the larger diameter. The reverse features a Roman numeral V in the center, with a wreath encircling, scroll with IN GOD WE TRUST and Maltese cross above. Struck in copper with a plain edge. All the known copper examples are of the high date variety, unlike the nickel strikings that come in both high and low date variants. The fields are remarkably bright and mirror-like, serving to enhance the rich brown and blue patina on each side. A few shallow pin scratches are randomly placed and are well-concealed by the color. PCGS# 70852, CoinPlex ID# PAT1868J634RB

**Aluminum 1868 Liberty Eagle
Gem Proof, Judd-664**

- 6699** 1868 Ten Dollar, Judd-664, Pollock-739, Low R.7, PR65 PCGS. The regular dies for the 1868 eagle, struck in aluminum with a reeded edge. There are two distinct ten dollar patterns in aluminum for 1868, and the Judd-664, made with regular dies, is rarer than the Judd-663 (which bears an experimental design). The Judd reference lists the Judd-664 as a "Low R.7," which would imply a known population of close to a dozen pieces, but USPatterns.com states "about a half dozen are known." At least four pieces were issued as part of complete denomination aluminum pattern sets. This is a fully struck and pristine specimen with faint chestnut toning over moderately mirrored surfaces. When viewed at select angles, a pair of slender mint-made die lines become prominent near Liberty's profile. PCGS# 60882, CoinPlex ID# PAT1868J664

**1869 Three Cent Pattern, PR66 Cameo
Judd-676, Finest Certified at PCGS**

- 6700** 1869 Three Cent Nickel, Judd-676, Pollock-753, R.4, PR66 Cameo PCGS. CAC. The design resembles the regular dies, with Liberty wearing a coronet on the obverse, surrounded by UNITED STATES OF AMERICA, and the date below. The reverse is known in two varieties, with this coin representing the more common variety, with a low laurel wreath surrounding the denomination III, and short dentils. This sharply detailed Premium Gem exhibits frosty design elements that contrast boldly with the deeply mirrored fields. Eye appeal is exceptional. Population: 1 in 66 Cameo, 0 finer (12/12). PCGS# 60901, CoinPlex ID# PAT1869J676

PR64 Judd-684 1869 Nickel

- 6701** 1869 Five Cents, Judd-684, Pollock-763, R.5, PR64 NGC. Reminiscent of the contemporary three cent nickel, but Liberty's coronet has a star, the Roman numeral V replaces the Roman III, and a Maltese cross and a scroll bearing the motto closes the reverse wreath. Struck in nickel with a plain edge. The present satiny and untuned near-Gem is essentially free from spots, contact, or strike-throughs. Due to an incomplete strike, the centers retain traces of the planchet texture. PCGS# 60909, CoinPlex ID# PAT1869J684

**1869 Standard Silver Ten Cents, PR66
Judd-709, Tied for Finest Certified**

- 6702** 1869 Standard Silver Ten Cents, Judd-709, Pollock-788, High R.6, PR66 PCGS. This Standard Silver design variety has only one star at the front of Liberty's head on the obverse. The reverse has 10 CENTS in the center, crowded by a wreath of oak and laurel, with STANDARD SILVER 1869 around the margin. Struck in silver with a plain edge. This delightful Premium Gem displays dark shades of golden-brown, dusky gray, and cobalt-blue patina over well-detailed design elements and reflective surfaces. Population: 2 in 66, 0 finer (12/12). PCGS# 60934, CoinPlex ID# PAT1869J709

**Nickel 1869 Seated Dime, Judd-720, PR64
Ex: Queller Family Collection**

- 6703** 1869 Ten Cents, Judd-720, Pollock-801, High R.7, PR64 NGC. Struck from regular issue dies, but in nickel with a reeded edge. The obverse is well struck except for Liberty's foot, though the peripheries of the wreath show softness, likely due to the hardness of the nickel planchet. Void of abrasions, and carbon is absence except for one small spot on the base of the D in UNITED. Ex: Queller Family Collection Part Two (Heritage, 1/2009), lot 1698. PCGS# 60947, CoinPlex ID# PAT1869J720

**1869 Copper Standard Silver Quarter
Judd-723, PR65 Red and Brown**

- 6704** 1869 Standard Silver Quarter Dollar, Judd-723, Pollock-804, R.6, PR65 Red and Brown PCGS. Liberty faces right on the obverse and wears a cap ornamented with three stars. The center of the reverse reads 25 CENTS and is surrounded by an oak and laurel wreath with STANDARD SILVER above and the date below. Struck in copper with a reeded edge. Copper-red color dominates the well struck and essentially unmarked surfaces, although some small spots and an area of ebony patina are present on the obverse. Ex: Palm Beach Signature (Heritage, 11/2004), lot 7313. PCGS# 70950, CoinPlex ID# PAT1869J723RB

**1870 Standard Silver Ten Cents, PR64
Judd-843, Pollock-942**

- 6705** 1870 Standard Silver Ten Cents, Judd-843, Pollock-942, Low R.6, PR64 NGC. The obverse features a head of Liberty with no stars on the tiara, UNITED STATES OF AMERICA above, and the motto on a scroll below. The reverse has the date and denomination encircled by an open agricultural wreath, with STANDARD above. Struck in silver, with a reeded edge. This sharply detailed Choice example displays champagne-gold and violet patina over deeply mirrored fields. PCGS# 61087, CoinPlex ID# PAT1870J843

**1870 Pattern Quarter, PR65 Red and Brown
Judd-879, Pollock-976, Standard Silver**

- 6706** 1870 Standard Silver Quarter Dollar, Judd-879, Pollock-976, R.7, PR65 Red and Brown NGC. William Barber's Seated Liberty design for the Standard Silver series, posed with shield, pole, and tiny cap. The reverse carries the denomination inside a wreath of corn and cotton with STANDARD above. Struck in copper with a plain edge. The obverse of this mirrored Gem proof is brown with blue patina. The reverse is nearly full orange mint color with delicate bluish-brown on the high points. Census: 3 in 65 Red and Brown, 0 finer (11/12). PCGS# 71123, CoinPlex ID# PAT1870J879RB

**Gem Proof 1870 Standard Silver Quarter
Judd-889, Struck in Silver**

- 6707** 1870 Standard Silver Quarter Dollar, Judd-889, Pollock-988, Low R.7, PR65 PCGS. A bust of Liberty wearing a cap ornamented with three stars facing right, the legend UNITED STATES OF AMERICA surrounds the figure, and a scroll with IN GOD WE TRUST is below. The reverse reads 25 CENTS 1870 in the center and is surrounded by a wreath of cotton and corn. Struck in silver with a plain edge. About a dozen examples are believed known of this Standard Silver variant, which was also struck in copper, nickel, and aluminum. A moderately mirrored pearl-gray Gem with a full strike and a pair of tiny strike-throughs (as made) near the profile. PCGS# 61133, CoinPlex ID# PAT1870J889

**Red and Brown Choice Proof
1870 Standard Silver Quarter
Judd-897, High R.7**

- 6708** 1870 Standard Silver Quarter Dollar, Judd-897, Pollock-1004, High R.7, PR64 Red and Brown PCGS Secure. CAC. Ex: Stonewall Collection. A bust of Liberty faces right with UNITED STATES OF AMERICA around and IN GOD WE TRUST on a ribbon below. Liberty wears a diadem inscribed LIBERTY. The reverse shows 25 CENTS and the date 1870 within a wreath of cotton and corn with the inscription STANDARD above. Struck in copper with a plain edge. The obverse is bright red with deeply mirrored fields and exceptional eye appeal. The reverse is mostly orange-gold with an area of steel-gray toning near the date. A fully struck specimen of this rare Standard Silver entry. Ex: Classics Sale (American Numismatic Rarities, 9/2003), lot 15; St. Louis Central States (Heritage, 5/2005), lot 8322. PCGS# 71141, CoinPlex ID# PAT1870J897RB

**1870 Aluminum Half Dollar, PR65 Cameo
Standard Silver Series
Judd-943, Pollock-1071**

- 6709** 1870 Standard Silver Half, Judd-943, Pollock-1071, High R.7 PR65 Cameo PCGS. CAC. The Standard Silver reverse paired with a Liberty cap-and-stars portrait on the obverse. For the specific set of dies, the curl of the cap ends between the ES in STATES. Struck in aluminum with a reeded edge. The experts at USpatterns.com suggest "2 or 3 known" as a population for this aluminum delicacy, though perhaps a couple more than that exist. This is the single finest example certified by PCGS (7/12), though of course it has little competition for the title. Well-preserved aluminum surfaces are minimally toned with excellent contrast. Struck from moderately rotated dies. PCGS# 61189, CoinPlex ID# PAT1870J943

**1870 Standard Silver Half Dollar, PR66
Judd-957, Only One Finer Coin at PCGS**

- 6710** 1870 Standard Silver Half Dollar, Judd-957, Pollock-1108, R.5, PR66 PCGS. CAC. A bust of Liberty faces right and is surrounded by UNITED STATES OF AMERICA. She wears a headband inscribed LIBERTY, and has a large star on her forehead. IN GOD WE TRUST is below on a banner. The reverse features 50/CENTS/1870 within a wreath of cotton and corn. STANDARD is centered above the wreath. Struck in silver with a reeded edge. Rotation of this richly patinated pattern reveals golden-brown and olive-green borders. The portrait is dove-gray and the obverse field is aquamarine. The reverse center is orange-gold and electric-blue. Population: 1 in 66, 1 finer (12/12). PCGS# 61203, CoinPlex ID# PAT1870J957

**1870 Standard Silver Half in Silver
Judd-958, Richly Toned PR64**

- 6711** 1870 Standard Silver Half Dollar, Judd-958, Pollock-1109, High R.6, PR64 PCGS. Standard Silver design showing Liberty wearing a coronet inscribed LIBERTY in raised letters. The reverse reads 50 CENTS 1870 in the center and is surrounded by the usual wreath of cotton and corn. Struck in silver with a plain edge. While the centers have the slight softness of definition that is characteristic of this higher relief type, the surfaces are carefully preserved beneath the vivid rose, gold, cobalt-blue, and salmon iridescence. PCGS# 61204, CoinPlex ID# PAT1870J958

**1870 Standard Silver Half Dollar, PR61
Judd-963, Pollock-1059**

- 6712** 1870 Standard Silver Half Dollar, Judd-963, Pollock-1059, Low R.7, PR61 PCGS. The central obverse features a capped head of Liberty with two stars, UNITED STATES OF AMERICA above, and the motto in a banner below. The reverse shows an open oak and laurel wreath surrounding the denomination, with Standard Silver above, the date below, and two stars separating the date and legends. Struck in silver, with a reeded edge. This sharply detailed example displays brilliant mirrored fields, with an odd, paper-clip shaped strike through on the reverse. PCGS# 61209, CoinPlex ID# PAT1870J963

**PR66 Red and Brown Judd-965
1870 Standard Silver Half**

- 6713** 1870 Standard Silver Half Dollar, Judd-965, Pollock-1061, High R.7, PR66 Red and Brown NGC. The obverse with Liberty in exaggerated Phrygian cap with two stars visible, UNITED STATES OF AMERICA around above, IN GOD WE TRUST on scroll below. The reverse has the usual Standard Silver appearance with wreath, 50 / CENTS within, date below. Struck in copper with a reeded edge. This specimen is satiny and intricately struck with no indication of carbon or contact. Considerable copper-pink and peach color remains, though glimpses of lavender, blue, and violet grant this well-preserved Standard Silver pattern additional eye appeal. PCGS# 71211, CoinPlex ID# PAT1870J965RB

**1870 Standard Silver Half Dollar, Judd-978
PR64 Red and Brown**

- 6714** 1870 Standard Silver Half Dollar, Judd-978, Pollock-1090, R.7, PR64 Red and Brown PCGS. CAC. A bust of Liberty faces right on the obverse with the motto IN GOD WE TRUST on a scroll below. Liberty wears a cap that is ornamented with two stars, and a ribbon that crosses her shoulder is inscribed with LIBERTY in raised letters. The initial B is seen within the folds of the ribbon behind Liberty's cap, and the legend UNITED STATES OF AMERICA is at the upper periphery. On the reverse, the denomination 50 CENTS is expressed within a wreath of oak and laurel. The date 1870 is below, the word STANDARD is above. Struck in copper with a plain edge. This is a scarce Standard Silver series with only a half dozen or so believed known. The obverse is deep orange-red while the reverse displays jade-green, rose-red, and olive-green toning. We note a few small spots on the portrait and delicate hairlines on the reverse. PCGS# 71224, CoinPlex ID# PAT1870J978RB

**Gem Cameo Proof Judd-980
Aluminum 1870 Standard Silver Half**

- 6715** 1870 Standard Silver Half Dollar, Judd-980, Pollock-1093, R.8, PR65 Cameo PCGS. CAC. A bust of Liberty faces right on the obverse with the motto IN GOD WE TRUST on a scroll below. Liberty wears a cap that is ornamented with two stars, and a ribbon that crosses her shoulder is inscribed with LIBERTY in raised letters. The initial B is seen within the folds of the ribbon behind Liberty's cap, and the legend UNITED STATES OF AMERICA is at the upper periphery. On the reverse, the denomination 50 CENTS is expressed within a wreath of oak and laurel. The date 1870 is below, the word STANDARD is above. Struck in aluminum with a plain edge. Two variants are known of this design. This piece is from the second set of obverse dies and shows the tip of the cap below the E in STATES and Barber's initial in the folds of the ribbon. This is a lovely aluminum striking that shows no oxidation. The surfaces are nearly defect-free and the reverse fields display pronounced die striations. Judd-980 is extremely rare and once this specimen is sold to a collector it could be many years before another example emerges. PCGS# 61226, CoinPlex ID# PAT1870J980

**1870 Standard Silver Half in Copper
Judd-990, PR66 Brown**

- 6716** 1870 Standard Silver Half Dollar, Judd-990, Pollock-1119, High R.7, PR66 Brown NGC. Standard Silver design with Liberty facing right wearing a headband with a star, a scroll below, and UNITED STATES OF AMERICA above. The reverse has 50 CENTS in the center and is surrounded by a wreath of oak and laurel with 1870 below and STANDARD SILVER above. This design is similar to that used in 1869. Probably fewer than a half dozen are known of this variant. Struck in copper with a plain edge. While labeled as a Brown coin, there is significant underlying mint red remaining on the obverse. The reverse is several shades darker with little red apparent. The fields are nicely reflective. Numerous lint marks are seen scattered over the reverse. PCGS# 61236, CoinPlex ID# PAT1870J990BN

**Barber Design 1870 Silver Dollar
Judd-1002, PR63**

- 6717 1870 Dollar, Judd-1002, Pollock-1134, Low R.6, PR63 PCGS.** The William Barber Seated Liberty design. A seated Liberty faces left, with 13 stars ringing the rim and the date 1870 in exergue. She holds a shield with her right hand and an olive branch in her left. A cap rests atop a Liberty pole, and a scroll crosses the shield with LIBERTY raised above the ribbon. Regular issue Seated silver dollar reverse. Struck in silver with a reeded edge. Fully struck, satiny, and mostly untoned despite scattered pale gray freckles on the reverse. Nearly imperceptible obverse hairlines determine the grade. PCGS# 61249, CoinPlex ID# PAT1870J1002

**William Barber 1870 Dollar in Copper
Judd-1005, PR65 Brown**

- 6718 1870 Dollar, Judd-1005, Pollock-1137, Low R.6, PR65 Brown NGC.** The William Barber obverse design showing Liberty seated holding a laurel branch in her left hand, right hand resting on a shield and scroll with a Liberty pole and cap in the background. The reverse is from the regular dies for the Seated dollar of this year. Struck in copper with a plain edge. The fields show moderate reflectivity and are deeply toned in olive-brown shades with deep blue and streaky red accents on both sides. A well-defined and problem-free example of this popular and rare Seated dollar pattern. Ex: *Portland Signature* (Heritage, 3/2004), lot 6668; *FUN Signature* (Heritage, 1/2011), lot 6621. PCGS# 61252, CoinPlex ID# PAT1870J1005BN

**1871 Five Cent Pattern in Nickel
Three Cent Nickel Design on the Obverse
Judd-1050, PR67 Cameo**

- 6719 1871 Five Cents, Judd-1050, Pollock-1184, Low R.6, PR67 Cameo NGC.** Ex: Exemplar Collection. The obverse bears a portrait of Liberty similar to that on the adopted three cent nickel piece. The date is below and UNITED STATES OF AMERICA is above the central device. The reverse depicts a reversed Roman numeral five (backward) and the word CENTS is within a wreath. Struck in nickel with a plain edge. There was an attempt in 1868 to produce a uniform design for minor coins, and examples were struck in the cent, three cent nickel, and nickel five cent denominations. However, only the three cent nickel remained in production. The nickel composition of this pattern are relatively common, in pattern terms. This is a mostly all-brilliant example with good reflectivity in the fields and noticeable cameo contrast against the devices on each side. There are no post-striking defects, as one would expect from a PR67. PCGS# 61309, CoinPlex ID# PAT1871J1050

**Aluminum 1871 Five Cent Pattern
Judd-1052, Bright PR65**

- 6720 1871 Five Cents, Judd-1052, Pollock-1186, Low R.7, PR65 NGC.** Ex: Exemplar Collection. The obverse repeats a familiar pattern with the devices closely resembling that on the adopted three cent nickel, and the reverse has a backward V in the center with CENTS below, surrounded by a laurel wreath. Struck on a regular sized planchet and struck in aluminum with a plain edge. Also struck in nickel and copper. The surfaces are bright and unoxidized. The only "flaws" are Mint-created planchet laminations that run horizontally across each side. We have to think these laminations are a result of the primitive method of extraction of aluminum from this time period. PCGS# 61311, CoinPlex ID# PAT1871J1052

**Choice Proof Judd-1354
Silver 1874 Twenty Cent**

- 6721** 1874 Twenty Cents, Judd-1354, Pollock-1498, Low R.7, PR64 PCGS. CAC. Ex: Denali Collection. The central figure of the obverse is a seated Liberty facing left, with Liberty pole and globe. The globe is inscribed LIBERTY. The figure is surrounded by two bales of cotton, a tobacco plant, and a sheaf of wheat. An arc of 13 stars surrounds the figure above, with the date below. The reverse die is similar to the design adopted for regular issue coinage except for minor differences in leaf position, and the second arrowhead points above the T in TWENTY. Struck in silver with a plain edge. Frosty stone-gray motifs rise above unblemished glassy fields. The obverse has lilac, peach, and plum-red shades that deepen near the rim. The reverse is mostly fire-red with a partial band of cobalt-blue at the margin. Population: 2 in 64, 1 finer (12/12). PCGS# 61658, CoinPlex ID# PAT1874J1354

**Red and Brown Choice Proof
Judd-1355 1874 Twenty Cent
Bailey's Seated Liberty**

- 6722** 1874 Twenty Cents, Judd-1355, Pollock-1499, R.6, PR64 Red and Brown PCGS. Ex: Denali Collection. The Bailey design obverse with a glum-faced Liberty seated, holding a pole with a Liberty Cap above and the other hand resting on a globe. This is paired with a reverse that is only a minor variation from the regular die adopted in 1875. The same reverse die also struck several 1875 patterns: Judd-1399 through Judd-1402 and Judd-1411 through Judd-1413. Struck in copper with a plain edge. Boldly struck and satiny with deep cherry-red and ruby toning. Careful examination reveals only minor contact on the right obverse field. PCGS# 71659, CoinPlex ID# PAT1874J1355RB

**Sailor Head 1875 Twenty Cent
Silver, Judd-1392, PR63**

- 6723** 1875 Sailor Head Twenty Cents, Judd-1392, Pollock-1535, Low R.6, PR63 PCGS. CAC. Ex: Denali Collection. Designed by William Barber and nicknamed the Sailor Head design, it is nearly identical to the design of certain 1875 half eagle and eagle patterns. A coronet inscribed LIBERTY adorns a head of Liberty, her hair tied back with a ribbon. The reverse has a shield with 20 and the word CENTS at the lower border. Arrows, leaves, and a glory of rays embellishes the shield with UNITED STATES OF AMERICA around. Struck in silver with a plain edge. A brilliant representative that exhibits moderate white-on-black contrast, though to a degree insufficient for a Cameo designation. The strike is needle-sharp and the fields are only mildly subdued. PCGS# 61699, CoinPlex ID# PAT1875J1392

**Judd-1393 1875 Twenty Cent
Sailor Head, PR63 Red and Brown**

- 6724** 1875 Sailor Head Twenty Cents, Judd-1393, Pollock-1536, Low R.7, PR63 Red and Brown PCGS. William Barber's "Sailor Head" obverse design that shows Liberty facing left, wearing a coronet, her hair tied in the back with two ribbons trailing, thus resembling a sailor's cap. The reverse has a three-pointed shield as the central motif with 20 sunken in the middle, and UNITED STATES OF AMERICA / CENTS around the margins. Struck in copper with a plain edge. Orange-gold, plum-red, and lavender compete for territory across this intricately struck and contact-free specimen. Neither side shows any spots. The present design would have worked better than the issued types, since no one would have confused the denomination with a Seated quarter. PCGS# 71700, CoinPlex ID# PAT1875J1393RB

**Gem Cameo Proof Judd-1395
1875 Sailor Head Twenty Cent
Struck in Nickel**

6725 1875 Sailor Head Twenty Cents, Judd-1395, Pollock-1538, High R.7, PR65 Cameo PCGS. Ex: Denali Collection. The popular Sailor Head design of William Barber, here on a pattern for a twenty cent piece. The reverse has a "spade-type" shield with 20 incuse, rays above the shield, two arrows, and an olive branch at the lower shield border. UNITED STATES OF AMERICA / CENTS encircles the rim. Struck in nickel with a plain edge. A boldly struck Gem that boasts luminous motifs and smooth mirrored fields. Medium wheat-gold toning overlies both sides with occasional streaks. The finer of only two Judd-1395 specimens certified by PCGS. The NGC Census lists just two additional examples. Ex: *Rarities Sale (Bowers & Merena, 8/1998)*, lot 2027; *San Francisco Rarities Sale (Bowers & Merena, 7/2005)*, lot 2401. PCGS# 61702, CoinPlex ID# PAT1875J1395

**Gem Proof 1875 Twenty Cent Pattern
Judd-1396, 'Liberty at the Seashore'**

6726 1875 Twenty Cents, Judd-1396, Pollock-1539, High R.7, PR65 PCGS. CAC. Ex: Denali Collection. The obverse features the figure of Liberty at the seashore, similar to the Trade dollar motif, but with Liberty seated on a globe, with different objects surrounding the central figure, and a steamship in the background. The reverse displays an open wreath surrounding the denomination 1/5 OF A DOLLAR, with UNITED STATES OF AMERICA / TWENTY CENTS around. Struck in silver, with a plain edge.

This impressive Gem exhibits sharply detailed design elements and deeply mirrored fields, under attractive shades of lavender-gray, cerulean-blue, and champagne-gold toning. No mentionable distractions are evident. Population: 2 in 65, 2 finer (12/12).

Ex: *Rarities Sale (Bowers and Merena, 7/2005)*, lot 2402. PCGS# 61703, CoinPlex ID# PAT1875J1396

Red and Brown Gem Proof
Judd-1397 1875 Twenty Cent
Liberty at the Seashore

6727 1875 Twenty Cents, Judd-1397, Pollock-1540, High R.7, PR65 Red and Brown PCGS. Ex: Denali Collection. The obverse is the well known "Liberty at the Seashore" design. Liberty is seated and extends an olive branch. She is accompanied by a globe, flags, and a bale of wheat. In the background is the ocean and a sailing vessel. The reverse depicts a laurel wreath with bow, surrounded by legends that include the denomination expressed in two different ways. Struck in copper with a plain edge. This intricately struck Gem is rich golden-brown with sea-green and straw-gold undertones. Void of detractions save for two tiny spots near the left leaf trio of the olive branch. PCGS# 71704, CoinPlex ID# PAT1875J1397RB

Choice Cameo Proof Judd-1398
Aluminum 1875 Twenty Cent
Liberty at the Seashore

6728 1875 Twenty Cents, Judd-1398, Pollock-1541, High R.7, PR64 Cameo PCGS. CAC. Ex: Denali Collection. The popular "Liberty at the Seashore" design shows Liberty in the foreground with a Rigged Steamship in the background. The reverse is the popular 1/5 OF A DOLLAR design with that denomination in the center, surrounded by a laurel wreath, UNITED STATES OF AMERICA / TWENTY CENTS at the margin. Struck in aluminum with a plain edge. A fully struck, flashy, and untuned near-Gem. Identifiers for this attractive specimen include a small retained lamination southeast of the fraction and hair-thin parallel retained laminations within TWENTY, all as made. PCGS# 61705, CoinPlex ID# PAT1875J1398

**Gem Proof Silver Judd-1399
1875 Twenty Cent Pattern**

- 6729** 1875 Twenty Cents, Judd-1399, Pollock-1542, Low R.6, PR65 PCGS. CAC. Ex: Denali Collection. The popular "Liberty at the Seashore" obverse design with an arc of 13 stars above and the date below. Liberty is seated facing left and holds an olive branch in her right hand and rests her left hand on a globe with the word LIBERTY inscribed. A steamship is seen in the distance, and behind Liberty a wheat sheaf and two flags can be seen. The reverse is similar to the design used for regular coinage, except for minor leaf position changes. Struck in silver with a plain edge. The present needle-sharp Gem possesses deep jade-green, cobalt-blue, lilac-red, and orange-gold patina. No imperfections are evident beneath the palette of colors. Population: 3 in 65, 0 finer (12/12). PCGS# 61706, CoinPlex ID# PAT1875J1399

**PR66 Red Judd-1400
1875 Twenty Cent Pattern
Only Certified Full Red Specimen**

- 6730** 1875 Twenty Cents, Judd-1400, Pollock-1543, R.7, PR66 Red PCGS. Ex: Denali Collection. The obverse represents Liberty seated at the seashore, with an "illogical steamship" (Judd)—sails billowing before, steam blowing behind. The reverse is similar to the adopted twenty cent design of 1875, with several minor positional differences. Struck in copper with a plain edge. The present lot is the only example of Judd-1400 certified as full Red by either NGC or PCGS. The orange-gold and rose-red fields are radiant and free from contact marks. The strike is needle-sharp. Minor gray spots on the breast and the E in STATES will identify any future auction appearances. PCGS# 81707, CoinPlex ID# PAT1875J1400RD

**Extremely Rare PR66 Cameo
Judd-1402, Liberty at Seashore
1875 Twenty Cent Pattern**

6731 1875 Twenty Cents, Judd-1402, Pollock-1545, R.8, PR66 Cameo PCGS. CAC. Ex: Denali Collection. The Bailly-designed obverse featuring the popular "Liberty at the Seashore" design, with Liberty seated, holding a pole with a Liberty Cap above and the other arm resting on a globe. This is paired with a reverse very similar to the regular issued design. Struck in nickel with a plain edge. Light chestnut-gold shades overlie the mirrored surfaces. A needle-sharp and flawless Premium Gem of this extremely rare pattern. In recent decades, only two different examples have appeared at auction, the first of which is the present piece:

1) PR66 Cameo PCGS. Portland ANA (Heritage, 8/1998), lot 5150; Sacramento ANA (Heritage, 3/1999), lot 5732.

2) Gem proof. Dr. Walter Lee Crouch Collection (Superior, 6/1977), lot 377; Byron Johnson Collection (Robert L. Hughes, 1/1979, lot 47); Randolph S. Rothschild Collection (Stack's, 10/2003), lot 1060. PCGS# 61709, CoinPlex ID# PAT1875J1402

**Liberty at the Seashore Judd-1403
Silver 1875 Twenty Cent, PR63**

6732 1875 Twenty Cents, Judd-1403, Pollock-1546, High R.6, PR63 PCGS. CAC. Liberty is seen on the obverse seated upon a globe with the word LIBERTY on it. Holding a small branch, Liberty is facing out to sea with a steam ship in the distance. The design is encompassed by thirteen stars and the date rests below it. A laurel wreath wraps 20 CENTS into the design on the reverse. The words UNITED STATES OF AMERICA also adorn the reverse periphery. Struck in silver with a plain edge. Sharply struck and flashy with dappled lilac, aquamarine, and peach-gold toning. A pair of intersecting roller marks at the reverse center are of mint origin, as is a curly lint mark near star 11. Population: 3 in 63, 5 finer (12/12). PCGS# 61710, CoinPlex ID# PAT1875J1403

**PR65 Red and Brown
Liberty at the Seashore
Judd-1404 1875 Twenty Cent**

6733 1875 Twenty Cents, Judd-1404, Pollock-1547, High R.6, PR65 Red and Brown PCGS. CAC. Liberty is seated by the seashore on the obverse with a steamship in the left background. She holds an olive branch in her outstretched right hand, her left hand rests on a globe inscribed with LIBERTY. The date 1875 is in the exergue below, 13 stars are arranged around the border. On the reverse, the denomination 20 CENTS is within an olive wreath with the legend UNITED STATES OF AMERICA at the border. Struck in copper with a plain edge. Orange-gold dominates both sides though splashes of sea-green and lilac-red are also present. The strike is razor-sharp and the unabraded surfaces display only unimportant carbon. PCGS# 71711, CoinPlex ID# PAT1875J1404RB

**PR66 1875 Twenty Cent Pattern
Judd-1405, Liberty at Seashore**

- 6734** 1875 Twenty Cents, Judd-1405, Pollock-1548, Low R.7, PR66 PCGS. Ex: Denali Collection. Seated Liberty at the seashore with 13 stars surrounding and the date 1875 in the exergue below. She holds an olive branch with her right hand and rests her left hand on a globe inscribed LIBERTY. A steamship with sails can be seen to the left. It is often noted that the smoke trails behind the ship, but the sails are billowed in the forward direction. The reverse displays the denomination 20 CENTS within an olive wreath and UNITED STATES OF AMERICA around. Struck in aluminum with a plain edge. This is a hairline-free and fully struck specimen with delicate tan-gray toning. A loupe reveals a few unimportant spots on the rims and minor retained reverse laminations at 1, 4, and 8 o'clock. Ex: *Rare Coin Review* #24 (Bowers and Ruddy, 1974), page 59. PCGS# 61712, CoinPlex ID# PAT1875J1405

**1875 Twenty Cent in Silver, Judd-1407
PR64, Formerly in the Denali Collection**

- 6735** 1875 Twenty Cents, Judd-1407, Pollock-1550, Low R.6, PR64 PCGS. CAC. Ex: Denali Collection. The obverse is similar to the adopted die, but LIBERTY is incused rather than raised as on the regular-issue coins, and the date digits are a touch smaller. The unadopted pattern reverse expresses the denomination twice, TWENTY CENTS and 1/5 OF A DOLLAR. The redundant legend combined with UNITED STATES OF AMERICA on the reverse forces a simple motif of a wreath tied with a bow, similar to that of the issued three cent nickel. Struck in silver with a plain edge. This is a beautiful near-Gem with silvery areas remaining against charcoal, violet, and electric-blue accents. Population: 9 in 64, 1 finer (12/12). PCGS# 61714, CoinPlex ID# PAT1875J1407

**Finest Certified PR66 Brown Judd-1408
1875 Twenty Cent Pattern**

- 6736** 1875 Twenty Cents, Judd-1408, Pollock-1551, Low R.7, PR66 Brown PCGS. Ex: Denali Collection. The obverse is similar to the as-issued design, except the date is smaller and LIBERTY is incuse. The reverse features a wreath, and expresses the denomination with two different legends, TWENTY CENTS and 1/5 OF A DOLLAR. Struck in copper with a plain edge. A fully struck and deep mahogany-brown specimen without any indication of contact beneath the toning. Listed as Low R.7 in the tenth edition of Judd but more likely mid-R.7 given the paucity of certified examples. The present piece is the single finest certified at either major service. PCGS# 61715, CoinPlex ID# PAT1875J1408BN

**Eliasberg's PR64 Judd-1411
Silver 1875 Twenty Cent Pattern**

- 6737** 1875 Twenty Cents, Judd-1411, Pollock-1554, Low R.7, PR64 PCGS. CAC. Ex: Eliasberg, Denali. The obverse is similar to the regular twenty cent design, but LIBERTY is incused as on other Seated denominations. The reverse is also much like the regular issue, but the leaves in the branch differ, and the stars between the legend and denomination are smaller. Struck in silver with a plain edge. This sharply struck Choice specimen is deeply patinated in aquamarine shades. The fields display only trivial imperfections beneath the toning. Population: 3 in 64, 0 finer (12/12). Ex: *Louis E. Eliasberg, Sr. Collection* (Heritage, 10/2007), lot 1517, which realized \$7,187.50. PCGS# 61718, CoinPlex ID# PAT1875J1411

**PR63 Brown Judd-1412 Copper
1875 Twenty Cent Pattern**

- 6738** 1875 Twenty Cents, Judd-1412, Pollock-1555, High R.6, PR63 Brown PCGS. Ex: Denali Collection. The designs are close to the issued twenty cent piece, though LIBERTY is incuse instead of raised, and the leaves and arrows are arranged slightly different. The reverse die was used on a number of pattern twenty cent varieties and can be identified by broad repunching on the final A in AMERICA. Struck in copper with a plain edge. The present deep lavender-brown Select specimen has smooth surfaces and excellent eye appeal given its conservatively assessed third party grade. PCGS# 61719, CoinPlex ID# PAT1875J1412BN

**Judd-1413 Aluminum PR63
1875 Twenty Cent Pattern
Sole PCGS Specimen**

- 6739** 1875 Twenty Cents, Judd-1413, Pollock-1556, High R.7, PR63 PCGS. CAC. Ex: Denali Collection. The obverse is similar to the regular Seated Liberty twenty cent piece, but the date is smaller and LIBERTY is incuse on the shield, rather than raised. The reverse is also similar to the adopted design, but the end leaves of the olive sprig overlap, and there are several other minor variations. Struck in aluminum with a plain edge. Judd-1413 is very rare. The present lot is the sole specimen graded by PCGS. It is crisply struck and has good field reflectivity. A lens reveals only faint marks near spots beneath the 1 in the date and above the TE in STATES. Ex: Gainsborough II Sale (*Superior*, 2/1997), lot 2651. PCGS# 61720, CoinPlex ID# PAT1875J1413

**1877 'Sailor Head' Ten Cent in Copper
Judd-1498, PR64 Brown**

- 6740** 1877 Sailor Head Ten Cents, Judd-1498, Pollock-1651, Low R.7, PR64 Brown NGC. The obverse portrait, designed by William Barber, is similar to the Sailor Head design made famous two years earlier, but with smaller lettering on the coronet and lacking the so-called sailor collar. The reverse uses the regular issue dies. Only eight examples are believed known of this rare pattern, and at least two of those are silver-plated. The coin is technically illegal as UNITED STATES OF AMERICA does not appear on either side. This needle-sharp specimen has vivid orange, ruby-red, aquamarine, and electric-blue hues. An important, pedigreed example of this notable pattern.

Ex: ANA Signature (*Heritage*, 8/2004), lot 8007; FUN Signature (*Heritage*, 1/2007), lot 1534; Bob Simpson Collection, Part I / Los Angeles Signature (*Heritage*, 8/2010), lot 5716, where it brought \$6,325. PCGS# 61833, CoinPlex ID# PAT1877J1498BN

**1879 Goloid Metric Dollar in Goloid
Judd-1626, PR60, Gold CAC Sticker**

- 6741** 1879 Goloid Metric Dollar, Judd-1626, Pollock-1822, R.4, PR60 PCGS. CAC Gold Label. William Barber's design for the Goloid Metric dollar with a capped head of Liberty on the obverse, paired with a reverse that carries the statutory as well as elemental inscriptions. A circle of stars about the central inscriptions breaks the otherwise continuous wording. Struck in goloid (a silver alloy that includes a small portion of gold) with a reeded edge. The surfaces are mostly brilliant with just a hint of color visible when closely examined. The fields are nicely mirrored. As expected from a Gold Sticker CAC coin, this piece delivers more visually than the stated grade might indicate.

From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 62004, CoinPlex ID# PAT1879J1626

1881 Transitional Liberty Nickel in Aluminum
Judd-1673, PR64+

- 6742** 1881 Liberty Head Five Cents, Judd-1673, Pollock-1874, Low R.7, PR64+ NGC. Ex: Exemplar Collection. The obverse of this five cent pattern features the as-issued Liberty Head design by Charles Barber, surrounded by UNITED STATES OF AMERICA, the date 1881 below. The reverse has a large V in the center for the denomination, surrounded by an open wreath of wheat, cotton, and corn. Struck in aluminum with a plain edge. While fairly common in nickel, the copper and aluminum strikings are much scarcer. Only an estimated half dozen are believed known in aluminum. The fields show evidence of heavy die striations, which in turn give the piece a bright mirror-like finish. Few defects can be located on either side of this attractive pattern. PCGS# 62069, CoinPlex ID# PAT1881J1673

1882 Liberty Nickel Struck in Nickel
Judd-1687, PR64 Cameo

- 6743** 1882 Liberty Head Five Cents, Judd-1687, Pollock-1889, Low R.6, PR64 Cameo NGC. Ex: Exemplar Collection. Similar to the adopted design of 1883 No Cents nickel, with the addition of the motto IN GOD WE TRUST at the upper obverse border. The obverse stars are also arranged differently. Struck in nickel with a plain edge. This transitional nickel is primarily found in nickel, as seen here, but it is also known in copper (unique) and aluminum. Each side is hazy gray with a touch of golden. The fields are remarkably deep and set up strong contrast against the frosted devices. Tiny flecks of oxidation are seen on each side, the only singularly mentionable one is located in the right obverse field. PCGS# 62092, CoinPlex ID# PAT1882J1687

1882 Pattern Liberty Nickel, PR65
Judd-1690, Pollock-1892

- 6744** 1882 Liberty Head Five Cents, Judd-1690, Pollock-1892, R.5, PR65 PCGS. Extremely popular as a transitional pattern, Judd-1690 employs an obverse similar to the adopted 1883 Liberty Head nickel, with a slightly different arrangement of the stars. On Judd-1690, the stars behind Liberty's head seem slightly wider spaced than on the adopted design. The reverse is the same as the regular issue of 1883, the infamous No CENTS variety. Struck in nickel with a plain edge. This nickel-gray Gem proof has sharp design motifs with nice mirrors and satin devices. PCGS# 62095, CoinPlex ID# PAT1882J1690

1882 Transitional Liberty Nickel in Copper
Judd-1691, PR64 Red and Brown

- 6745** 1882 Liberty Head Five Cents, Judd-1691, Pollock-1893, R.6, PR64 Red and Brown PCGS. Known as the "Exact Type of 1883," but in reality this pattern differs slightly with a different arrangement of the obverse stars. Still, it is a popular precursor to the adopted Liberty nickel of 1883. Struck in copper with a plain edge. Copper strikings are relatively common, and this design was also struck in aluminum. Most of each side retains original red, but it is slightly mellowed and there is a faint lime-green accent here and there. PCGS# 72096, CoinPlex ID# PAT1882J1691RB

1882 Transitional Shield Nickel in Aluminum
Judd-1695, Cameo Gem Proof

- 6746** 1882 Shield Five Cents, Judd-1695, Pollock-1897, Low R.7, PR65 Cameo NGC. Ex: Exemplar Collection. Effectively regular Shield nickel dies, except that the ball on the bottom of the shield has been replaced with a point. Struck in aluminum with a plain edge. Also struck in copper and white metal (if it really exists, it is unique). About a half dozen aluminum pieces are believed known of this design type. This is a fabulous aluminum pattern. The fields are exceptionally deep and each side shows just the slightest oil-slick iridescence. The devices are heavily frosted, explaining the Cameo designation. PCGS# 62101, CoinPlex ID# PAT1882J1695

1883 Liberty Nickel Struck in Nickel
Judd-1712, PR65 Cameo
33 N. / 67 C. Reverse

- 6747** 1883 Liberty Head Five Cents, Judd-1712, Pollock-1916, Low R.6, PR65 Cameo NGC. Ex: Exemplar Collection. The obverse is the regular issue Liberty Head nickel. The reverse is the traditional wreath of corn, cotton, maple, and wheat, with 33 N. / 67 C. in the center. FIVE is at the top rim and CENTS at the bottom rim, with seven stars left, six right. Struck in nickel with a plain edge. The strike is remarkably complete for a nickel product, and the fields show surprising depth of mirroring which establish the Cameo effect against the frost over the devices. Possibly as many as two to three dozen pieces exist of this popular transitional nickel pattern. Ex: M.A.N.A. Auction (Hollimbeck-Kagin's, 11/1973), lot 492, flip included. PCGS# 62129, CoinPlex ID# PAT1883J1712

1883 Liberty Head Nickel in Aluminum
Judd-1713, PR65

- 6748** 1883 Liberty Head Five Cents, Judd-1713, Pollock-1917, High R.7, PR65 NGC. Ex: Exemplar Collection. The obverse closely resembles that of the regular issue Liberty nickel, except that the stars have been replaced with the legend UNITED STATES OF AMERICA. The reverse has a wreath similar to that on the Liberty Nickel, except it has been reduced in size and is bookended by stars. The inscription 33 N./67 C. is inside the wreath. Struck in aluminum with a plain edge.

Struck in nickel in the composition stated on the reverse, and also struck in a 25% nickel / 75% copper composition. Then there are about a half dozen, like this piece, struck in aluminum. Struck on a highly striated planchet. There are a few tiny lint marks scattered about, but we only see one spot and that is located in the left obverse field out from the chin of Liberty. PCGS# 62130, CoinPlex ID# PAT1883J1713

**1883 Judd-1714 Nickel Pattern, PR65 Cameo
Liberty Head, No CENTS Reverse**

- 6749** 1883 Liberty Head Five Cents, Judd-1714, Pollock-1919, Low R.6, PR65 Cameo PCGS. CAC. The design is similar to the regular-issue 1883 No CENTS Liberty nickel, but LIBERTY is absent on the coronet, instead spread across the upper obverse rim. The stars are smaller and arranged 6 x 7. The No CENTS reverse is from the same die used to strike Judd-1690, identified by the widely repunched S in PLURIBUS. Struck in nickel with a plain edge. Although a couple dozen examples of this pattern variety survive, few can match this piece for aesthetic appeal. Both sides are untuned light gray with excellent field-to-device contrast. Population: 6 in 65, 1 finer (12/12). PCGS# 62131, CoinPlex ID# PAT1883J1714

**Silver Annular 1885 Cent
PR66, Judd-1740**

- 6750** 1885 One Cent, Judd-1740, Pollock-1950, High R.6, PR66 NGC. Ex: Exemplar Collection. Eagle Eye Photo Seal, card included. This annular pattern cent has a central perforation, as always for Judd-1740. The obverse has UNITED STATES OF AMERICA above with the date 1885/3 at the bottom of that side. On the reverse, ONE CENT is in large letters at the top with a small shield below flanked by laurel sprigs. Blended apple-green and golden-brown toning graces satiny, fully struck, and undisturbed surfaces. Struck in silver with a plain edge. PCGS# 62181, CoinPlex ID# PAT1885J1740

**Choice Proof 1896 Nickel Pattern
Judd-1770, Barber Design**

- 6751** 1896 Five Cents, Judd-1770, Pollock-1987, Low R.6, PR64 NGC. This Charles Barber design uses a Federal shield as its primary motif. Behind the shield are two crossed poles bearing a liberty cap and eagle. A scroll passing in front of the shield is inscribed LIBERTY. The denomination 5 CENTS is centered within a curved olive sprig on the reverse. Struck in a nickel alloy with a plain edge. A fully struck, glossy, and satiny specimen that exhibits light almond-gold toning. The fields show moderate flash and are without visible detractors. PCGS# 62224, CoinPlex ID# PAT1896J1770

GOLD DOLLARS

- 6752** 1849 No L MS64 NGC. The debuts of the gold dollar in 1849 and the double eagle in 1850 were precipitated by the California Gold Rush. This lustrous yellow-gold near-Gem 1849 dollar is nicely struck and devoid of significant marks. The first year of issue. *From The Flagg Family Collection.* NGC ID# 25B7, PCGS# 7501, CoinPlex ID# G\$M1849NOL
- 6753** 1849 Open Wreath MS64 PCGS. With James Longacre's initial L on the bust truncation. This Choice Mint State piece, housed in a green-label PCGS holder, has frosty luster and bold design motifs with a few scattered marks in the left obverse field that prevent a higher grade. *From The Flagg Family Collection.* PCGS# 7502, NGC ID# 25B9, CoinPlex ID# G\$M1849

**Gem 1849 Open Wreath Gold Dollar, Breen-6002
Repunched Star, Ideal First-Year Type**

- 6754** 1849 Open Wreath MS65 NGC. Breen-6002. Distant Stars subtype. The Breen variety is identified by the broad repunching on the obverse star near the rim at 5 o'clock. This Gem example boasts exuberant luster over even yellow-gold surfaces that show few marks of any size. The prodigious quantities of freshly mined California gold beginning in 1849 were responsible for the introduction of new smallest and largest gold denominations, the one dollar and twenty dollar, in 1849 and 1850 respectively. A super first-year type coin. Census: 40 in 65, 11 finer (12/12). NGC ID# 25B9, PCGS# 7502, CoinPlex ID# G\$M1849

- 6755 1849-D — Improperly Cleaned — NGC Details. AU. Variety 1-A.** The obverse is lime-green with peripheral glimpses of pumpkin-gold. The reverse has rich orange toning with hints of olive-green. Circulation wear is trivial but the moderately abraded surfaces are mildly glossy. NGC ID# 25BD, PCGS# 7507, CoinPlex ID# G\$M1849D

**1850 Gold Dollar, MS65
Only Four Finer Coins at NGC**

- 6756 1850 MS65 NGC.** This boldly detailed Gem 1850 gold dollar has frosty luster with rich yellow-gold surfaces. It is an attractive Gem example and elusive in such high grade. Despite a mintage approaching half a million coins, few have survived in Gem or finer condition. Census: 12 in 65, 4 finer (11/12).
From The Ives Devos Collection. NGC ID# 25BF, PCGS# 7509, CoinPlex ID# G\$M1850

- 6757 1850-O AU58 PCGS. Variety 1.** Other Type One New Orleans issues have substantial mintages, but the production of the 1850-O was limited to 14,000 pieces. This fully struck orange-gold Borderline Uncirculated representative has lustrous margins and smooth surfaces. Population: 11 in 58, 18 finer (11/12). PCGS# 7512, NGC ID# 25BJ, CoinPlex ID# G\$M1850O

**Mint State 1850-O Gold Dollar
Only 14,000 Pieces Issued**

- 6758 1850-O MS61 PCGS. Variety 1.** An intricately struck sun-gold representative of this scarce low-mintage New Orleans issue. Booming luster traverses the legends and devices. Careful rotation reveals minor marks on the cheek and left obverse field. The New Orleans Mint struck fewer coins in 1850 than in surrounding years, as West Coast gold was primarily destined for Philadelphia to coin double eagles. Population: 5 in 61, 13 finer (11/12). PCGS# 7512, NGC ID# 25BJ, CoinPlex ID# G\$M1850O

Elusive MS62 1850-O Gold Dollar

- 6759 1850-O MS62 NGC. Variety 1.** Doug Winter wrote concerning this issue, "The 1850-O is easily the scarcest of the five Type One New Orleans gold dollars. It is the only issue that is hard to locate in the lower Uncirculated grades and it is quite rare above MS62." This boldly struck example shows considerable luster and a few wispy pinscratches on each side. An abrasion on Liberty's head, to the right of her crown, has acquired a covering streak of dark coloration. Census: 19 in 62, 6 finer (12/12).
Ex: Houston Signature (Heritage, 11/2007), lot 61474, which realized \$4,312.50. NGC ID# 25BJ, PCGS# 7512, CoinPlex ID# G\$M1850O

**1850-O Gold Dollar, MS62
Low-Mintage Issue**

- 6760 1850-O MS62 PCGS. CAC. Variety 1.** The 1850-O is the lowest-mintage New Orleans issue of the gold dollar series, with about one-fourth the production of the higher-priced Type Two 1855-O. The present satiny caramel-gold representative is fully struck and limited in grade solely by a thin mark above the A in DOLLAR. Population: 5 in 62, 8 finer (11/12). PCGS# 7512, NGC ID# 25BJ, CoinPlex ID# G\$M1850O

**Brilliant Gem 1851 Gold Dollar
Preferred Type Issue**

- 6761 1851 MS65 NGC. CAC.** A simply lovely example, this boldly struck Gem has brilliant yellow luster with pristine surfaces. The 1851 gold dollar was produced in large quantities and type collectors seeking an example of the Type One design prize the date. NGC has assigned higher numeric grades to only 23 examples (11/12).
From The Ives Devos Collection. NGC ID# 25BK, PCGS# 7513, CoinPlex ID# G\$M1851

Coruscating MS66 1851 Gold Dollar

- 6762 1851 MS66 PCGS.** A lustrous green-gold Premium Gem of this available Type One issue. The hair near the ear is well defined though just shy of complete. Peripheral details are sharp except for the two stars near the bust tip. Though Type Three dates are regularly seen in high grades, the 1851 is rare at the lofty MS66 level. Certified in a green label holder. Population: 24 in 66, 9 finer (11/12). PCGS# 7513, NGC ID# 25BK, CoinPlex ID# G\$M1851

Fully Struck Premium Gem 1851 Gold Dollar

- 6763 1851 MS66 NGC.** Despite the large mintage exceeding 3.3 million pieces, the 1851 gold dollar is seldom seen in the Premium Gem condition of the present example, a fully struck coin with rich luster over deep orange-gold coloration. There are simply no marks of any import. NGC has seen only 16 at this level with nine finer (12/12). NGC ID# 25BK, PCGS# 7513, CoinPlex ID# G\$M1851

Near-Mint 1851-C Gold Dollar Sharply Struck

- 6764 1851-C AU58 PCGS. CAC. Variety 1.** A band of bright luster encompasses the margins of this scarce date near-Mint Charlotte Mint gold dollar. Each side has a small mark or two but the sharply struck surfaces provide good eye appeal. The usual reverse for the issue, Variety 1 has a die crack between F AM and at least three overlapping clash marks of Liberty's profile on the reverse field. PCGS# 7514, NGC ID# 25BL, CoinPlex ID# G\$M1851C

1851-C Gold Dollar, Mint State Variety 3 With Early-State Reverse Die Crack

- 6765 1851-C MS61 PCGS. Variety 3.** This variety is the scarcer of the two known, with a die crack slanting upward diagonally from the second S in STATES to the rim, here still in an early stage, as examples are known with the crack much heavier. The C mintmark is lower and somewhat left of the center of the bowknot. The 1851-C gold dollar saw a fairly plentiful mintage of 41,267 pieces. This example shows softly lustrous yellow-gold surfaces with the scattered surface ticks expected at this grade level, but there are no singular abrasions. A small copper alloy spot appears beneath the date. Population: 11 in 61, 47 finer (12/12). PCGS# 7514, NGC ID# 25BL, CoinPlex ID# G\$M1851C

- 6766 1851-D XF45 PCGS. Variety 3-E.** This is the common die marriage of 1851-D gold dollars with a light die crack through the I of AMERICA. Housed in a green-label PCGS holder, this Choice XF specimen has faint bluish toning over green-gold surfaces, with delicate orange accents. PCGS# 7515, NGC ID# 25BM, CoinPlex ID# G\$M1851D

1851-D Gold Dollar, AU58 Extensive Clash Marks

- 6767 1851-D AU58 PCGS. CAC. Variety 3-E.** The 1851-D gold dollar claims a mintage of 9,882 pieces and the surviving population numbers no more than 150-175 examples in all grades. This well-detailed near-Mint example displays pleasing yellow-gold surfaces, with bright mint luster and some interesting clash marks on the reverse. Population: 25 in 58, 20 finer (12/12). PCGS# 7515, NGC ID# 25BM, CoinPlex ID# G\$M1851D

**Richly Lustrous 1851-D Gold Dollar, MS62
Sharply Struck and Boldly Die-Clashed**

6768 1851-D MS62 PCGS. Variety 3-E. An upward-facing leaf just left of the wreath bow points to the center of the last 1 in the date, identifying the 3-E variety. On this richly lustrous yellow-gold piece, a bold die crack runs from the 51 in the date, through the wreath, just left of the 1(CA), and thence to the rim. A couple of the obverse stars are boldly clashed on the lower reverse. The obverse shows few obvious signs of clashing. A few scattered marks account for the grade, but the eye appeal is excellent on this boldly struck piece. The mintage of the 1851-D gold dollar was only 9,882 pieces, and this MS62 coin is one of 12 such at PCGS, with nine finer (12/12). PCGS# 7515, NGC ID# 25BM, CoinPlex ID# G\$M1851D

6769 1852-C AU55 NGC. Variety 2. An original green-gold Choice AU example that displays minor wear on the high points of the curls. Minimally abraded, and luster emerges from the legends, stars, and wreath. Another challenging Charlotte gold dollar issue, as only 9,434 pieces were issued. NGC ID# 25BR, PCGS# 7518, CoinPlex ID# G\$M1852C

6770 1852-D — Improperly Cleaned — NGC Details. AU. Variety 4-F. This straw-gold Dahlonega dollar is finely hairlined throughout but has full design detail. Unabraded save for a couple of brief pin scratches on the obverse field. Only 6,360 pieces were struck for this elusive Southern gold issue. *From The Ives Devos Collection.* NGC ID# 25BS, PCGS# 7519, CoinPlex ID# G\$M1852D

**1853 Gold Dollar, Fully Struck MS66
Great Type Coin**

6771 1853 MS66 NGC. The 1853 gold dollar is the single most available issue among all gold dollars, but its very availability makes it a perfect selection for inclusion in a type set. Even so, few make the Premium Gem level of this piece, a fully struck coin with great apricot-gold color and a complete absence of mentionable contact. Census: 39 in 66 (1 in 66+), 8 finer (12/12). NGC ID# 25BU, PCGS# 7521, CoinPlex ID# G\$M1853

Frosty Premium Gem 1853 Gold Dollar

6772 1853 MS66 NGC. Frosty luster covers the surfaces of this Premium Gem which shows lavish reddish-gold color with a sharp strike and no marks worthy of mention. The 1853 gold dollar issue is one that type collectors gravitate to both for its good production as well as the occasional availability of high-grade examples such as this piece. Census: 39 in 66 (1 in 66+), 8 finer (12/12). NGC ID# 25BU, PCGS# 7521, CoinPlex ID# G\$M1853

Rare 1853-D Gold Dollar, AU53

6773 1853-D AU53 PCGS. CAC. Variety 5-G. Considerable bright luster fills the peripheries of this attractive apricot-gold Dahlonega example. The curls near the ear display minor wear, but the remainder of the design is crisp. Faint marks are noticeable only on the left obverse field. From a low mintage, as always for the facility and denomination combination. PCGS# 7523, NGC ID# 25BW, CoinPlex ID# G\$M1853D

**1853-D Gold Dollar, AU55
Elusive Issue in High Grade**

6774 1853-D AU55 NGC. Variety 5-G. From a mintage of 6,583 pieces, the 1853-D gold dollar has a surviving population of 110-120 examples in all grades. This well-detailed specimen offers bright mint luster and lightly abraded yellow-gold surfaces, with strong eye appeal. Census: 20 in 55, 81 finer (11/12). *From The Ives Devos Collection.* NGC ID# 25BW, PCGS# 7523, CoinPlex ID# G\$M1853D

Uncirculated 1853-D Gold Dollar
Mintage of 6,583 Pieces

6775 1853-D MS61 PCGS. Variety 5-G. All Dahlonega gold dollar issues are rare, and the 1853-D is no exception, as it has a mintage of just 6,583 pieces. The present representative has an unabraded appearance and exhibits consistent honey-gold toning. The strike is sharp aside from the hair above the ear. Population: 3 in 61, 9 finer (11/12). PCGS# 7523, NGC ID# 25BW, CoinPlex ID# G\$M1853D

6776 1854 Type One MS64 PCGS. CAC. This impressive near-Gem Type One gold dollar exhibits brilliant yellow mint luster with frosty surfaces with faint orange overtones. The obverse has several cracks and die polish lines, and the reverse has clash marks. From *The Richard P. Ariagno, M.D. Collection*. PCGS# 7525, NGC ID# 25BY, CoinPlex ID# G\$M1854TY1

Mint State 1854-D Gold Dollar
Very Rare in High Grade

6777 1854-D MS61 NGC. Variety 6-H. The 1854-D gold dollar boasts a low mintage of 2,935 pieces, with a single die variety known for the date. Doug Winter estimates the surviving population at 85-95 examples in all grades, and Mint State specimens are very rare.

The present coin shows the raised die lines on both sides that are seen on most specimens of this issue. The surfaces are a pleasing orange-gold color, with a few lilac highlights. The design elements are well detailed, with definition sharper on the obverse. A few spots of darker color are evident on the obverse stars and the date. Census: 14 in 61, 7 finer (11/12).

From *The Ives Devos Collection*. NGC ID# 25BZ, PCGS# 7526, CoinPlex ID# G\$M1854DTY2

6778 1854 Type Two MS60 NGC. Frosty and bright with luster that ranges from yellow to orange. No trace of wear, though the surfaces show a number of what would be regarded as hairlines on proofs. A dig is noted on the left reverse rim. NGC ID# 25C3, PCGS# 7531, CoinPlex ID# G\$M1854TY2

1854 Type Two Gold Dollar, MS62
In-Demand Type Issue

6779 1854 Type Two MS62 PCGS. The 1854 Type Two gold dollar is, along with the 1855 Philadelphia, the most frequently chosen issue for type purposes. This MS62 PCGS example shows a few light scuffs and minor hairlines in the obverse fields that determine the grade, although there are few singular marks on either side. Attractive yellow-gold color and bright luster are pluses. PCGS# 7531, NGC ID# 25C3, CoinPlex ID# G\$M1854TY2

6780 1855 MS61 NGC. The peach-gold surfaces of this MS61 1855 gold dollar display only slight disruption in the luster flow. A noteworthy Mint State representative of the short-lived Type Two dollar issue that is a strong candidate for the type collector. NGC ID# 25C4, PCGS# 7532, CoinPlex ID# G\$M1855TY2

1855 Type Two Gold Dollar, MS62
Excellent Type Coin

6781 1855 MS62 NGC. CAC. As the second year of the short-lived Type Two design, the 1855 gold dollar is extremely important for type purposes. This well-detailed MS62 survivor displays clash marks on both sides, with the marks particularly pronounced on the obverse. The lovely light yellow and faint olive-green surfaces exhibit only minor contact marks. From *The Ives Devos Collection*. NGC ID# 25C4, PCGS# 7532, CoinPlex ID# G\$M1855TY2

**Reddish-Orange 1855 Gold Dollar
Sharply Struck MS64**

- 6782 1855 MS64 PCGS.** This near-Gem 1855 Type Two gold dollar is sure to garner significant attention from the numismatic community, as one of the key issues in a complete gold type set and a grade point that is still relatively affordable. Gem Type Twos are seen far less often, and even when found, they will prove far more expensive. The 1855 issue is preferred by some collectors over the 1854 for various reasons. This piece displays deep reddish-orange color and only minor signs of clashing on the obverse, where marks are also minimal. The reverse shows localized strike weakness confined largely to the 8 in the date and LL in DOLLAR, as often seen, yet this piece is better-struck than most survivors. PCGS has seen only 54 submissions finer (12/12). PCGS# 7532, NGC ID# 25C4, CoinPlex ID# G\$M1855TY2

Choice VF 1855-C Gold Dollar

- 6783 1855-C VF35 PCGS. Variety 2.** The apricot-gold surfaces show only a few minor marks and are mildly bright. The fields are clashed, usual for the issue. The strike is good except on the dentils. Traces of luster are present in the legends. The only Type Two Charlotte issue, and elusive due to a low mintage of 9,803 pieces. PCGS# 7533, NGC ID# 25C5, CoinPlex ID# G\$M1855CTY2

**AU Sharpness Type Two
1855-C Gold Dollar**

- 6784 1855-C — Cleaned — ANACS. AU50 Details. Variety 2.** Careful rotation reveals faint parallel hairlines on each side, but this khaki-gold representative would please many collectors. No abrasions are noticeable, and the scattered minute granularity is from the planchet prior to the strike. The sole Charlotte Mint issue of the Type Two design. A mere 9,803 pieces were struck. NGC ID# 25C5, PCGS# 7533, CoinPlex ID# G\$M1855CTY2

1855-D Gold Dollar, AU Sharpness

- 6785 1855-D — Mount Removed — NGC Details. AU. Variety 7-1.** Type Two gold dollars are much scarcer than the other gold dollar subtypes, and among the Type Two issues, the 1855-D is by far the rarest. The sole Dahlonega issue of the design, limited to 1,811 pieces. On the present piece, the edge and rim are discolored and damaged at 11:30 on the obverse and opposite at 5 o'clock on the reverse. Glossy and hairlined from cleaning, and the rims display file marks. Nonetheless a sharp example of this key Dahlonega date. NGC ID# 25C6, PCGS# 7534, CoinPlex ID# G\$M1855DTY2

- 6786 1855-O XF45 PCGS. CAC Gold Label. Variety 1.** Housed in a green-label PCGS holder, this New Orleans gold dollar boasts a CAC gold sticker, attesting to its exceptional quality. Faint green overtones appear on the still lustrous yellow-gold surfaces of this scarce Type Two gold dollar. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 7535, NGC ID# 25C7, CoinPlex ID# G\$M1855OTY2

- 6787 1855-O AU50 NGC. Variety 2.** An important meeting of Type Two gold dollar design and Southern gold. Apricot-gold surfaces with a few coppery areas at the margins show considerable remaining luster at certain angles to the light. NGC ID# 25C7, PCGS# 7535, CoinPlex ID# G\$M1855OTY2

Near-Mint 1855-O Gold Dollar

6788 1855-O AU58 NGC. Variety 1. Two reverse dies are known for the sole New Orleans Type Two issue. They show slight differences in the date and mintmark locations. The present wheat-gold example has a smooth appearance. The strike displays softness only on the 8 in the date and the N in UNITED. NGC ID# 25C7, PCGS# 7535, CoinPlex ID# G\$M1855OTY2

6789 1856-S Type Two AU50 PCGS. The 1856-S Type Two gold dollars are the only Type Two S-mint gold dollars of any date, providing collectors an exciting niche opportunity. This lightly worn yellow-orange example retains considerable luster in the fields. PCGS# 7536, NGC ID# 25C8, CoinPlex ID# G\$M1856STY2

6790 1856-S Type Two AU50 NGC. The 1856-S Type Two gold dollars were the last of their design, struck a full year after the other Mints transitioned to the Type Three. This lightly worn yellow-orange example retains considerable luster in the fields, which are occasionally reflective. NGC ID# 25C8, PCGS# 7536, CoinPlex ID# G\$M1856STY2

6791 1856 Upright 5 MS64 PCGS. CAC. This is a lustrous and well-struck near-Gem. Light marks in the hair above the temple determine the grade. The Upright 5 is an unappreciated variety that is significantly scarcer than its Slanted 5 counterpart, particularly in Mint State. Population: 20 in 64 (2 in 64+), 5 finer (12/12). PCGS# 7541, CoinPlex ID# G\$M1856TY3UP5

6792 1856-D — Filed Rims — PCGS Genuine. Variety 8-K. The PCGS number ending in .82 suggests Filed Rims as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of an XF specimen that was formerly used as jewelry. The orange-gold surfaces are glossy and luminous from cleaning. The obverse edge is discolored and tooled at 2:30, 9:30, and 8 o'clock. The reverse rim is tooled and discolored at 10 o'clock. PCGS# 7543, NGC ID# 25CC, CoinPlex ID# G\$M1856D

1856-D Gold Dollar, AU55 A Key Date in the Series

6793 1856-D AU55 PCGS. Variety 8-K. The sole variety. The 1856-D gold dollar, from a mintage of 1,460 business strikes, is a key date in the gold dollar series in all grades. Fewer than 100 coins are known, most of which are seen in the Very Fine and Extremely Fine levels of preservation. Only about 10 or so are estimated to be in Mint State. This Choice AU example displays attractive orange-gold surfaces that retain ample luster. The design elements are strongly impressed, save for the usual weakness on the U of UNITED and on the lower left reverse wreath. Population: 10 in 55, 19 finer (11/12). *From The Ives Devos Collection.* PCGS# 7543, NGC ID# 25CC, CoinPlex ID# G\$M1856D

Conditionally Scarce 1857-C Gold Dollar, AU55
Above-Average Production Quality

- 6794 1857-C AU55 PCGS. Variety 1.** The only known dies. The 1857-C gold dollar is readily obtainable in VF and XF grades, but becomes very scarce in AU. In Mint State it is among the rarest Charlotte gold dollars. This Choice AU specimen displays bright yellow-gold surfaces on a rather nice planchet, an unusual attribute of this issue that typically reveals planchet flaws. The design elements are also better struck than usually seen, though portions of Liberty's hair are soft. A linear mark in the lower-left field is not serious. Population: 12 in 55, 10 finer (11/12). PCGS# 7545, NGC ID# 25CE, CoinPlex ID# G\$M1857C

1857-D Gold Dollar, AU55
Underrated Low-Mintage Issue

- 6795 1857-D AU55 NGC. CAC. Variety 9-L.** The availability of the 1857-D gold dollar is quite limited, as the low mintage of 3,533 pieces would suggest. Possibly 120-130 examples remain extant in all grades today. This attractive Choice AU specimen offers well-detailed design elements, with a touch of wear on the high points, and lightly abraded yellow-gold surfaces.
From The Ives Devos Collection. NGC ID# 25CF, PCGS# 7546, CoinPlex ID# G\$M1857D

Near-Mint 1858-D Gold Dollar

- 6796 1858-D AU58 PCGS. Variety 10-M.** The Georgia gold fields were largely played out by 1858, and just 3,477 gold dollars were coined at Dahlonega that year. The present yellow-gold representative has an above average strike and shows only trivial contact. The line at 2 o'clock on the reverse is a strike-through, as made. Closely spaced clash marks of the profile near the D in DOLLAR further increase the charm of this late antebellum example. Population: 30 in 58, 27 finer (11/12). PCGS# 7549, NGC ID# 25CJ, CoinPlex ID# G\$M1858D

Choice AU 1859-C Gold Dollar

- 6797 1859-C AU55 NGC. Variety 1.** The final-year Charlotte Mint gold dollar issue, the 1859-C has a mintage of only 5,235 pieces. With only a single die variety known, this entire issue exhibits poor striking characteristics, including an overall weak obverse. This Choice AU example displays lovely yellow-gold color with a hint of rose at the bottom of the Indian's hair. Only very minor surface marks are present. Census: 12 in 55, 48 finer (12/12). NGC ID# 25CM, PCGS# 7552, CoinPlex ID# G\$M1859C

Mint State 1859-D Gold Dollar

- 6798 1859-D MS61 PCGS. Variety 11-N.** Two die varieties are known despite a meager mintage of 4,952 pieces. The other reverse is rare and shows a date position further to the right. This yellow-gold example has a pleasing strike given its Dahlonega origin, though the central reverse shows minor softness. Neither side has any visible marks, and luster is particularly prominent on the legends and motifs. Population: 9 in 61, 16 finer (11/12). PCGS# 7553, NGC ID# 25CN, CoinPlex ID# G\$M1859D

Scarce 1860-S Gold Dollar, MS62

- 6799 1860-S MS62 NGC.** A representative from the last issue of gold dollars at the San Francisco Mint for a decade, this piece is one of only 13,000 coins struck. Brilliant luster and attractive yellow-gold color combine for nice eye appeal on this example. Census: 7 in 62, 9 finer (12/12). NGC ID# 25CT, PCGS# 7557, CoinPlex ID# G\$M1860S

**1860-S Gold Dollar, MS64
Rare in Mint State**

6800 1860-S MS64 PCGS. The 1860-S gold dollar, from a small mintage of 13,000 pieces, has a low survival rate. Having been put into circulation soon after production, the vast majority of survivors are in circulated grades. Consequently, relatively few Mint State pieces, estimated to be in the 35 to 45 range, exist today. Intense luster radiates from both sides of this near-Gem example, each of which displays apricot-gold color blushed with whispers of mint-green. A solid strike delivers strong definition to the design elements, and the few minute marks seen do not detract from the coin's nice overall eye appeal. Population: 3 in 64, 1 finer (11/12). PCGS# 7557, NGC ID# 25CT, CoinPlex ID# G\$M1860S

**Superb Gem 1862 Gold Dollar
Ideal Civil War-Era Type Coin**

6801 1862 MS67 NGC. The 1862 gold dollar makes an ideal Civil War-era type coin, as examples are not difficult to locate in attractive Mint State condition. The date is definitely rare at the MS67 level, however. This spectacular Superb Gem is sharply detailed with vibrant mint luster and satiny yellow and greenish-gold surfaces. Census: 9 in 67, 1 finer (11/12).
From The Ives Devos Collection. NGC ID# 25CW, PCGS# 7560, CoinPlex ID# G\$M1862

**1862 Gold Dollar, MS67
An Excellent Type Coin**

6802 1862 MS67 NGC. CAC. With a huge mintage exceeding 1 million circulation strikes, the 1862 is one of the most common dates of the series. It is estimated that 3,000 to 4,000 Mint State examples are extant, making this issue important for type collectors. Superb Gems such as the present offering are rare; NGC and PCGS combined have certified only 13 pieces in MS67 and one finer. The yellow-gold surfaces are partially prooflike and yield mild field-motif contrast, especially when the coin is tilted under a light source. The design elements are sharply struck, and both sides are impeccably well-preserved. Moderate clash marks are visible on the obverse. Census: 9 in 67, 1 finer (11/12). NGC ID# 25CW, PCGS# 7560, CoinPlex ID# G\$M1862

6803 1864 MS62 PCGS. CAC. Apricot-gold luster is generous with touches of peach. The wreath offers impressive detail, though the leading edge of Liberty's hair displays softness. Population: 9 in 62, 26 finer (12/12). PCGS# 7563, NGC ID# 25CY, CoinPlex ID# G\$M1864

6804 1869 MS63 PCGS. This sharply detailed Select Mint State gold dollar exhibits brilliant yellow surfaces with reflective, mirrored fields. Surface marks on each side are consistent with the grade. Population: 13 in 63, 26 finer (12/12).
From The Flagg Family Collection. PCGS# 7568, NGC ID# 25D5, CoinPlex ID# G\$M1869

**Superb Gem 1869 Gold Dollar
Only Two Finer Coins at PCGS**

- 6805 1869 MS67 PCGS. CAC.** The 1869 gold dollar had a business strike mintage of 5,900 pieces and is generally available in AU and in the lower Uncirculated grades. Higher Mint State grades are considerably more challenging, especially in Premium Gem and above.

This amazingly well-preserved example displays beautiful brass-gold surfaces that radiate vibrant luster and a sharp strike. Close examination reveals no mentionable flaws. As is typical of business strikes, this specimen exhibits extra outlines on the obverse peripheral letters, a “teardrop” chip below the right corner of the eye, and a die file mark through the ear. Population: 9 in 67, 2 finer (11/12). PCGS# 7568, NGC ID# 25D5, CoinPlex ID# G\$M1869

**Rare 1870-S Gold Dollar, MS61
Wonderfully Toned**

- 6806 1870-S MS61 NGC.** The 1870-S is the last gold dollar struck at a branch mint. With a mintage of 3,000 pieces, this is a popular issue and a true rarity. Only about 125 to 170 specimens are estimated to have survived to the present day, 35 to 50 of which are Mint State. Most of the latter are in the MS60 to MS62 range. Deep orange-gold patina blushed with lavender and sky-blue graces the lustrous surfaces of this MS61 example, and the strike is sharp throughout. A series of moderate-size contact marks in the right obverse field are all that stand in the way of a higher grade. Census: 11 in 61, 19 finer (11/12). NGC ID# 25D7, PCGS# 7570, CoinPlex ID# G\$M1870S

**1870-S Gold Dollar, MS61
Only Post-Civil War Mintmarked Gold Dollar**

- 6807 1870-S MS61 NGC. CAC.** The reported mintage of gold dollars at the San Francisco Mint was a meager 3,000 pieces, but many of these apparently lacked the S mintmark, because the letter was inadvertently omitted from the first set of dies sent from the Philadelphia Mint. This well-detailed Mint State example shows a touch of softness on DOLLAR, but the pleasing yellow and rose-gold surfaces display only a few minor contact marks. Census: 11 in 61, 19 finer (11/12).
From *The Richmond Hill Collection*. NGC ID# 25D7, PCGS# 7570, CoinPlex ID# G\$M1870S

Near-Gem Prooflike 1871 Gold Dollar

6808 1871 MS64 Prooflike NGC. The circulation-strike mintage for this issue was only 3,900 pieces (with a proof mintage of 30). Liberty displays a frosted appearance against the reflective fields on this near-Gem example. A few tiny copper spots appear on the obverse. The OLLA of DOLLAR exhibits "Longacre doubling." Census: 4 in 64 Prooflike, 2 finer (12/12). PCGS# 77571

6809 1873 Open 3 MS65 PCGS. CAC. This green-label PCGS certified Gem displays frosty mint luster with brilliant yellow surfaces and faint overtones of orange and blue-green. The fields are reflective, adding to the eye appeal. Population: 42 in 65 (2 in 65+), 12 finer (12/12). From *The Richard P. Ariagno, M.D. Collection*. PCGS# 7573, NGC ID# 25DB, CoinPlex ID# G\$M1873OP3

6810 1873 Open 3 MS66 PCGS. CAC. A boldly impressed example of the Open 3 type, this Premium Gem is impressively lustrous with canary-yellow and sun-gold hues on each side. As expected at this grade level, there are only a few tiny disturbances visible in the fields, and the eye appeal is spectacular. The PCGS Population data has not changed since this coin was offered in June 2010. Population: 11 in 66, 1 finer (11/12). Ex: *Long Beach Signature* (Heritage, 6/2010), lot 1500. From *The Ives Devos Collection*. PCGS# 7573, NGC ID# 25DB, CoinPlex ID# G\$M1873OP3

6811 1874 MS66 NGC. Smooth yellow-gold surfaces radiate pleasing luster and possess well struck design elements, though only the first two letters of LIBERTY show, albeit faintly, as often seen. A planchet flaw below the chin has subsequently toned. Census: 52 in 66 (1 in 66+), 38 finer (12/12). NGC ID# 25DC, PCGS# 7575, CoinPlex ID# G\$M1874

Superb Gem 1874 Gold Dollar

6812 1874 MS67 PCGS. Superb Gem and finer gold dollars are conditionally scarce regardless of the date, as even the most-common issue, the 1853, has only a handful of examples at that level. This Superb Gem 1874 boasts blazing luster over pristine surfaces with rich orange-gold color. An unimprovable coin. Population: 32 in 67 (1 in 67+), 0 finer (12/12). PCGS# 7575, NGC ID# 25DC, CoinPlex ID# G\$M1874

Near-Mint 1875 Gold Dollar Famous Low-Mintage Issue

6813 1875 AU58 NGC. CAC. All gold denominations except the double eagle saw extremely limited mintages in 1875, with the gold dollar claiming only 400 pieces struck. This lightly circulated specimen shows the slightest touch of wear on the high points of the well-detailed design elements and the greenish-gold surfaces are partially prooflike. Census: 5 in 58, 13 finer (11/12). From *The Ives Devos Collection*. NGC ID# 25DD, PCGS# 7576, CoinPlex ID# G\$M1875

Mint State 1875 Gold Dollar Celebrated Elusive Date

6814 1875 MS61 NGC. With just 400 business strikes produced, the 1875 is the lowest-mintage gold dollar of the post-Civil War era, and an example in any grade is a prize. This MS61 piece shows a degree of reflectivity, not at all unusual for the low-mintage, later-date gold dollars. Sharply struck with a few abrasions in the yellow-gold fields that account for the grade. Census: 4 in 61, 6 finer (11/12). From *The Ives Devos Collection*. NGC ID# 25DD, PCGS# 7576, CoinPlex ID# G\$M1875

**1875 Gold Dollar, MS63
Only 400 Pieces Struck**

- 6815 1875 MS63 PCGS.** Gold coinage at the Philadelphia Mint in 1875 had a laserlike focus on double eagles. Doubtless the facility produced more double eagles in one day than it did all other gold denominations combined; there were no business strike 1875 three dollar gold coins, only 100 such eagles, and just 200 half eagles. By those standards, the 400 coins struck for the gold dollar and quarter eagle seem downright generous. This is a well-defined (though not too well-defined) Select example of the business strike, pale yellow with watery but incomplete reflectivity in amply lustrous fields. Population: 5 in 63, 17 finer (11/12).
From The Ives Devos Collection. PCGS# 7576, NGC ID# 25DD, CoinPlex ID# G\$M1875

**1875 Gold Dollar, Appealing Low-Mintage Date
MS61 Prooflike**

- 6816 1875 MS61 Prooflike NGC.** The 1875-dated gold coins of all denominations, save for the sole exception of the double eagle, are extremely low-mintage coins, including the proof-only three dollar gold. The gold dollars saw 400 circulation strikes produced. The Prooflike surfaces on this piece are no surprise, given the minuscule coinage, but the quality of the surfaces for the grade is a pleasant surprise. Only tiny contact marks appear, none worthy of mention, on appealing medium reddish-gold surfaces that are brightly reflective. Census: 4 in 61 Prooflike, 7 finer (11/12).
From The Flagg Family Collection. PCGS# 77576

- 6817 1876 MS63 PCGS.** Highly reflective surfaces display a degree of rose-gold toning. A pleasing example with plenty of eye appeal. Population: 29 in 63, 45 finer (12/12). PCGS# 7577, NGC ID# 25DE, CoinPlex ID# G\$M1876

**Superb Gem 1879 Gold Dollar
None Certified Finer**

- 6818 1879 MS67 NGC.** This Superb Gem is a splendid little two-toned jewel, perfect for a type set or high-grade date set. Given the low mintage of only 3,000 pieces in 1879 (and for many similar issues of the era), we feel these gold dollars in high grade could be considerably underrated. Hazel and rich orange-gold grace both sides of this coin in about equal measure, an unusual but elegant treat for the eyes. Evidence of die clashing appears on the reverse. Census: 9 in 67, 0 finer (11/12).
From The Ives Devos Collection. NGC ID# 25DH, PCGS# 7580, CoinPlex ID# G\$M1879

**1879 Gold Dollar, MS67 ★
Deeply Mirrored Obverse**

- 6819 1879 MS67 ★ NGC.** Even though the mintage was remarkably low with only 3,000 pieces struck, a considerable number of Uncirculated 1879 gold dollars are known today. However, this is one of only nine MS67 pieces so graded at NGC, and three with the Star designation (11/12). Prooflike and Deep Prooflike coins have also been certified of this date, and this piece is close to a Prooflike designation with just a bit of cartwheel evident on the reverse. The obverse fields are deeply mirrored, and frosted devices are obvious on each side. Even orange-gold color is seen across the surfaces, and only minor surface flaws can be seen with a magnifier, including an area of porosity toward the top of the reverse. NGC ID# 25DH, PCGS# 7580, CoinPlex ID# G\$M1879

**Superb Gem 1880 Gold Dollar
Only 1,600 Pieces Minted**

- 6820 1880 MS67 NGC.** Just 1,600 business strikes were coined of the 1880 gold dollar. A portion of the production must have been secured by local coin dealers, since several hundred Uncirculated examples survive. Those seldom match the quality of the present Superb Gem, which is razor-sharp and has smooth apricot surfaces. Census: 60 in 67 (2 in 67+), 17 finer (11/12).
From The Ives Devos Collection. NGC ID# 25DJ, PCGS# 7581, CoinPlex ID# G\$M1880

- 6821 1881 MS65 NGC.** Strongly struck with a considerable but unevenly reflective gleam to yellow-gold fields. A few small marks are scattered on each side, but these do not pose an obstacle to the Gem designation. NGC ID# 25DK, PCGS# 7582, CoinPlex ID# G\$M1881

**Premium Gem 1881 Gold Dollar
Low-Mintage Collector Favorite**

- 6822 1881 MS66 NGC. CAC.** Shades of yellow-gold and peach coloration blanket the unmarked surfaces of this well-struck Premium Gem. Lightly frosted motifs stand out against the semiprooflike fields, with outstanding visual appeal. A nicely preserved coin, from a business-strike mintage of 7,620 pieces.
From The Ives Devos Collection. NGC ID# 25DK, PCGS# 7582, CoinPlex ID# G\$M1881

- 6823 1882 MS63 PCGS. CAC Gold.** A well-defined apricot-gold piece with generous swirling luster, housed in a small-format PCGS holder with CAC gold label. Clearly better than a “mere” Select coin, though a shallow line is noted to the right of the wreath-bow. A copper-rose area graces the left reverse margin. PCGS# 7583, NGC ID# 25DL, CoinPlex ID# G\$M1882

- 6824 1882 MS65 NGC. CAC.** This flashy Gem displays pretty brass-gold color and modest contrast between the semiprooflike fields and frosted devices. Both sides are quite well struck and have great overall eye appeal. NGC ID# 25DL, PCGS# 7583, CoinPlex ID# G\$M1882

**1882 Gold Dollar, MS67 Prooflike
Among the Finest Certified at NGC**

- 6825 1882 MS67 Prooflike NGC.** A simply gorgeous and technically outstanding representative of this low mintage gold dollar issue, which Garrett and Guth refer to as a “hoard” date. The design elements are reproduced with razor-sharp precision down to the last denticle, although DO in DOLLAR and the lower loops of both 8s and 2 in the date are filled. A shimmering, frosty, near-flawless Superb Gem with noteworthy reflectivity in the fields, as attested by NGC’s Prooflike designation. Census: 3 in 67 Prooflike, 0 finer (11/12).
From The Ives Devos Collection. PCGS# 77583

- 6826 1883 MS64 NGC.** Frosty luster, well-defined design elements, and attractive green and orange patination all add up to pleasing eye appeal. A tiny spot or two on each side does not unduly detract. NGC ID# 25DM, PCGS# 7584, CoinPlex ID# G\$M1883

- 6827 1883 MS66 PCGS.** Stunning apricot-gold and green patina resides on the lustrous surfaces of this Premium Gem. This is a sharply struck example except for inexactness in a couple of letters of LIBERTY. PCGS# 7584, NGC ID# 25DM, CoinPlex ID# G\$M1883

- 6828 1883 MS66 NGC. CAC.** An impressive Premium Gem with brilliant light yellow luster, this piece exhibits bold design motifs and satin luster. A dark copper spot is noted at the center of the obverse. From *The Richmond Hill Collection*. NGC ID# 25DM, PCGS# 7584, CoinPlex ID# G\$M1883

**Superb Gem 1883 Gold Dollar
Only Nine Numerically Finer Coins at NGC**

- 6829 1883 MS67 NGC.** Exceptional mint brilliance accents the sharply struck design features of this Superb Gem gold dollar. Outstanding peach-gold surfaces of virtually pristine quality reveal only a few faint, inoffensive ticks. A remarkable example. A small dark speck is visible over the D of UNITED. NGC has graded only nine numerically finer coins (11/12). From *The Ives Devos Collection*. NGC ID# 25DM, PCGS# 7584, CoinPlex ID# G\$M1883

**Select 1884 Gold Dollar
Spectacular Deep Mirror Prooflike Example**

- 6830 1884 MS63 Deep Mirror Prooflike NGC. CAC.** From a business-strike mintage of 5,230 pieces, the 1884 gold dollar has been a collector favorite from the time it was issued. This impressive Select example exhibits deeply mirrored greenish-gold fields that are deeply reflective on both sides. The design elements are sharply detailed and eye appeal is extraordinary. Census: 2 in 63 Deep Mirror Prooflike, 3 finer (11/12). From *The Richmond Hill Collection*. PCGS# 97585

1885 Gold Dollar, Orange-Gold Premium Gem

- 6831 1885 MS66 PCGS. CAC.** This orange-gold Premium Gem 1885 gold dollar boasts plenty of eye appeal, one of the finest survivors of the original mintage of only 11,000-plus coins. The surfaces are virtually unmarked, although there is some evidence of die fatigue in the form of crumbling at IC(A). Population: 28 in 66, 14 finer (12/12). The strike is as bold as the dies could muster, with excellent central detailing on each side. PCGS# 7586, NGC ID# 25DP, CoinPlex ID# G\$M1885

**Superb Gem 1885 Gold Dollar
Vibrant Luster, Outstanding Eye Appeal**

- 6832 1885 MS67 NGC.** A delightful survivor, vibrantly lustrous with generally orange-gold surfaces that show glimpses of pink and yellow. Decisively struck with fabulous eye appeal. Despite a low mintage, this later gold dollar issue is available in most Mint State grades, though Superb Gems remain conditionally rare. Census: 25 in 67 (1 in 67+), 4 finer (11/12). From *The Ives Devos Collection*. NGC ID# 25DP, PCGS# 7586, CoinPlex ID# G\$M1885

**1886 Gold Dollar, MS67
None Certified Finer**

- 6833 1886 MS67 NGC.** Another low mintage date, as just 5,000 pieces fell from the dies. That omits the 1,016 proofs struck, many of which were made into love tokens, a popular fad of the era. The present coin is neither a proof nor a love token. It is a Superb Gem, and as one should demand from such a grade, the surfaces are lustrous, well struck, and virtually pristine. Lightly toned in caramel shades. Census: 14 in 67, 0 finer (11/12). From *The Ives Devos Collection*. NGC ID# 25DR, PCGS# 7587, CoinPlex ID# G\$M1886

Gorgeous Superb Gem 1887 Gold Dollar

- 6834 1887 MS67 PCGS. CAC.** This brilliant Superb Gem has light yellow surfaces with frosty luster and bold design features. While the mintage was extremely small, with just 7,500 pieces minted, many have survived in Mint State grades due to hoarding activities in the late 19th century. However, few are the equal of this coin. Since this coin's last auction appearance with us, only one additional example has reached this grade level and the number of finer examples has increased from 1 to 2 (11/12). Ex: *FUN Signature (Heritage, 1/2010)*, lot 3807. From *The Ives Devos Collection*. PCGS# 7588, NGC ID# 25DS, CoinPlex ID# G\$M1887

1888 Gold Dollar, MS67
Only Three Finer Coins at NGC

6835 1888 MS67 NGC. Vibrant luster and bright sunset-gold color combine with nearly flawless preservation to merit distinction as a Superb Gem. Well struck, since only the C in AMERICA lacks exquisite definition. The dies are moderately rotated counterclockwise. High grade Mint State pieces are scarce due to a low mintage of 15,501 pieces. Census: 37 in 67, 3 finer (11/12). From *The Ives Devos Collection*. NGC ID# 25DT, PCGS# 7589, CoinPlex ID# G\$M1888

6836 1889 MS64+ PCGS. CAC. Light pink and apricot tints prevail on this pleasingly preserved final-year gold dollar. Well-defined with a swirl to the luster, this coin is the next-best thing to a Gem. PCGS# 7590, NGC ID# 25DU, CoinPlex ID# G\$M1889

6837 1889 MS65 NGC. This wheat-gold Gem displays mild contrast between fields and devices when the coin is tilted under a light source. Both sides are well-defined, except some letters in LIBERTY are weak, as is often the case on this issue. NGC ID# 25DU, PCGS# 7590, CoinPlex ID# G\$M1889

6838 1889 MS65 NGC. Strongly detailed on both portrait and wreath, this Gem is carefully preserved and in a transitional luster-phase between the reflectivity so common to the issue and a frosty swirl. High eye appeal. NGC ID# 25DU, PCGS# 7590, CoinPlex ID# G\$M1889

6839 1889 MS65 PCGS. CAC. This final-year Gem gold dollar has a frosty texture that makes it a no-questions Mint State piece. Great yellow color and all-around eye appeal. From *The Richard P. Ariagno, M.D. Collection*. PCGS# 7590, NGC ID# 25DU, CoinPlex ID# G\$M1889

Last-Year 1889 Gold Dollar, MS67

6840 1889 MS67 NGC. CAC. Both sides of this lovely Superb Gem possess frosty luster and a delicate blend of yellow-gold, mint-green, lilac, and apricot patina. An impressive strike imparts sharp delineation to the design elements, and immaculate preservation shows on the mark-free surfaces. All of these attributes contribute to the coin's outstanding eye appeal, as intimated by the CAC green label. Ex: *Baltimore Signature (Heritage, 3/2009)*, lot 2560, which realized \$4,312.50. From *The Ives Devos Collection*. NGC ID# 25DU, PCGS# 7590, CoinPlex ID# G\$M1889

PROOF GOLD DOLLARS

Choice Proof 1858 Gold Dollar
Only Two Finer Cameo Coins at PCGS

6841 1858 PR64 Cameo PCGS. The number of proof gold dollars minted in 1858 is unknown. Jeff Garrett and Ron Guth (2006) estimate the mintage to be "around 25 or so coins," with "probably 15 to 20 coins still in collectors' hands." David Bowers (2008) estimates the same number of extant specimens. PCGS and NGC have graded a total of 30 pieces, a number of which are undoubtedly resubmissions or crossovers.

The present near-Gem Cameo displays yellow-gold surfaces splashed with whispers of apricot on the obverse. A decisive strike emboldens the design features, all of which stand out against the mirrored fields. A few trivial handling marks barely prevent the attainment of Gem status. This is a super coin for the proof gold specialist, as it is hard to imagine locating a specimen with the superior technical quality and aesthetic appeal possessed by this example. Population: 1 in 64 Cameo, 2 finer (11/12). Population: 1 in 64 Cameo, 2 finer (11/12).

From *The Ives Devos Collection*. PCGS# 87608, NGC ID# 25DZ, CoinPlex ID# G\$P1858CA

**1860 Gold Dollar, PR64 Cameo
Heavily Melted Issue**

- 6842 1860 PR64 Cameo NGC.** The 1860 proof gold dollar claims a mintage of 154 pieces, but it is unlikely that collector demand for proofs was high enough to absorb such a quantity at that time. Undoubtedly, some of this production went unsold and was melted after the end of the year. Only 25-30 examples are extant today in all grades. This highly contrasted Choice example features deeply mirrored fields and sharply detailed design elements with few signs of contact. Census: 6 in 64 Cameo, 10 finer (11/12).
From The Ives Devos Collection. NGC ID# 25000, PCGS# 87610, CoinPlex ID# G\$P1860CA

**1870 Gold Dollar, PR62
Only 35 Pieces Struck**

- 6843 1870 PR62 NGC. CAC.** Just 35 proof gold dollars were minted at the Philadelphia Mint in 1870, and the present light yellow-gold representative is one of only 15 to 20 survivors. The surfaces are lightly hairlined with a few original lint marks. This is a pleasing example, seldom seen in the marketplace. Census: 2 in 62, 2 finer (11/12).
From The Ives Devos Collection. NGC ID# 25ED, PCGS# 7620, CoinPlex ID# G\$P1870

**1879 Gold Dollar, PR64
Just 30 Specimens Coined**

- 6844 1879 PR64 PCGS.** The 1879 proof gold dollar is a tricky issue. Only 30 proofs were struck, and apparently the same dies were used on both proofs and business strikes. As a result, the apparent availability of this date is skewed by old auction appearances when first-impression business strikes were offered as proofs. When viewing this coin, there is absolutely no doubt about its proof status. The fields are deeply mirrored on each side, with strong mint frost over the devices giving the coin a notable (although unacknowledged) cameo contrast. Close examination with a magnifier reveals a few wispy hairlines, a couple of tiny planchet flaws, and rich orange-gold color interspersed with the occasional dash of lilac. Population: 3 in 64, 2 finer (11/12).
From The Ives Devos Collection. PCGS# 7629, NGC ID# 25EN, CoinPlex ID# G\$P1879

**Select Proof Ultra Cameo 1881 Gold Dollar
Amazing Contrast**

- 6845 1881 PR63 Ultra Cameo NGC.** Only 87 proof gold dollars were coined in 1881, and about half of those survive, including a small percentage of cameo pieces. This Select Ultra Cameo proof has some scuffs in the reverse field, but both sides show the watery surfaces associated with 19th century gold proofs. This piece has fully mirrored fields with excellent contrast, and will nicely represent the design in a gold type set. Census: 2 in 63 Ultra Cameo, 18 finer (11/12).
From The Ives Devos Collection. NGC ID# 25ER, PCGS# 97631, CoinPlex ID# G\$P1881DC

1882 Gold Dollar, PR66 Cameo
Ex: Alto, Bass

- 6846** 1882 PR66 Cameo PCGS. Ex: Bass Collection. Bright apricot patina enriches this gorgeously preserved Premium Gem proof. The strike is nearly unimprovable, and the devices have impressive contrast with the mirrored fields. A tiny lintmark (as made) on the lower portion of Liberty's cheek serves as a pedigree identifier. The 1882 proof had a mintage of 125 pieces, although there has been much confusion over the years between proofs and prooflike business strikes. The obverse die for the present specimen has a solitary striation (as made) that connects the bases of ES in STATES. On the reverse, diagonal die polish marks fill the upper loop of the second 8 in the date. The date has a slight but noticeable upward slope. Ex: Alto Collection (*Stack's*, 12/1970), lot 48, which realized \$290; Harry W. Bass, Jr. Collection, Part III (*Bowers and Merena*, 5/2000), lot 70, where it realized \$10,370; New York Signature Auction (*Heritage*, 11/2003), lot 7111. From The Ives Devos Collection. PCGS# 87632, NGC ID# 25ES, CoinPlex ID# G\$P1882CA

PR66+ Ultra Cameo 1882 Gold Dollar

- 6847** 1882 PR66+ Ultra Cameo NGC. CAC. Only 125 proof coins were struck for this issue, with perhaps only half that number surviving today. The fields are brilliant and deeply reflective and the devices display a thick layer of mint frost on this high-end Premium Gem, producing pronounced contrast. Not surprisingly with this issue, a lint mark appears near the first T in STATES. Although NGC has graded a number of examples, PCGS has assigned grades to only three pieces at the PR66 level and none finer. Census: 24 in 66 (4 in 66+) Ultra Cameo, 8 finer (12/12). NGC ID# 25ES, PCGS# 97632, CoinPlex ID# G\$P1882DC

1884 Gold Dollar, PR64 ★ Ultra Cameo
1,006 Pieces Struck

- 6848 1884 PR64 ★ Ultra Cameo NGC.** Repunching shows on the 18 of the date, as usually seen. The splendid yellow-gold surfaces show only a few stray contact marks, none large, but collectively determining the grade. The appeal is high, however, with excellent contrast and eye appeal well deserving of the Star designation. From a proof mintage of slightly more than 1,000 pieces. Census: 1 in 64 ★ Ultra Cameo, 2 finer (11/12).
From The Ives Devos Collection. NGC ID# 25EU, PCGS# 97634, CoinPlex ID# G\$P1884DC

Cameo Choice Proof 1885 Gold Dollar
Spectacular Contrast

- 6849 1885 PR64 Cameo NGC. CAC.** A reported mintage of 1,105 proof gold dollars was accomplished in 1885, but the majority of these pieces were never distributed, and most were melted after the end of the year. This delightful Choice example displays stark cameo contrast between the sharply detailed frosty devices and the deeply mirrored fields. Census: 36 in 64 (2 in 64+) Cameo, 68 finer (11/12).
From The Ives Devos Collection. NGC ID# 25EV, PCGS# 87635, CoinPlex ID# G\$P1885CA

Select Proof 1886 Gold Dollar
Bold Cameo Specimen

- 6850 1886 PR63 Cameo PCGS. CAC.** The 1886 proof gold dollar is much more difficult to locate than its reported mintage of 1,016 pieces would suggest. This impressive Select specimen offers deeply mirrored fields and sharply detailed design elements that contrast boldly in a dramatic cameo effect. The vivid orange-gold surfaces show a few hairlines and minor contact marks that explain the grade. Population: 1 in 63 Cameo, 12 finer (11/12).
From The Ives Devos Collection. PCGS# 87636, NGC ID# 25EW, CoinPlex ID# G\$P1886CA

1887 Gold Dollar, PR63 Cameo
Well-Contrasted Late-Series Issue

- 6851 1887 PR63 Cameo NGC. CAC.** This late-series Type Three proof gold dollar was struck to the extent of 1,043 pieces at a time when these coins were popular as Christmas gifts. The present Select proof is an unmistakable example with good field-device contrast over medium yellow-gold surfaces that show a few minor signs of contact. Two dark spots appear to the left of the date on the reverse. The obverse displays well, despite a couple of minor field marks.
From The Richmond Hill Collection. NGC ID# 25EX, PCGS# 87637, CoinPlex ID# G\$P1887CA

Choice Proof 1887 Gold Dollar
Attractive Cameo Example

- 6852 1887 PR64 Cameo NGC.** The 1887 gold dollar had a proof mintage of 1,043 pieces. Q. David Bowers states that only a small portion of this mintage was saved by numismatists, and estimates a surviving population of 110-140 pieces today. There has always been pressure on this small population because the business strike mintage was only 7,500 coins, making the issue scarce in all grades and formats. This is an especially attractive example that shows stark contrast between the "white" devices and unfathomably "black" fields. A few light contact marks account for the PR64 grade. Census: 30 in 64 Cameo, 46 finer (11/12).
From The Ives Devos Collection. NGC ID# 25EX, PCGS# 87637, CoinPlex ID# G\$P1887CA

1887 Gold Dollar, PR66 Cameo
Splendid, Sharply Contrasted Surfaces

1888 Gold Dollar, Gem Proof Ultra Cameo
Strongly Contrasted

6853 1887 PR66 Cameo PCGS. The later-date gold dollar proofs were popular as Christmas gifts and saved in far greater numbers than their earlier counterparts. Astute dealers and numismatists also foresaw the series' end and ordered specimens directly from the Mint or in aftermarket sales. Nonetheless, few high-grade examples show the marked cameo contrast between fields and devices of the present Premium Gem. The sparkling mirrors are covered with deep orange-gold on each side. The official mintage for proofs in this year is 1,043 pieces, typical for the 1884-88 timeframe in the series. Population: 5 in 66 Cameo, 2 finer (11/12).

Ex: ANA Signature (*Heritage*, 7/2005), lot 7321.

From *The Ives Devos Collection*. PCGS# 87637, NGC ID# 25EX, CoinPlex ID# G\$P1887CA

6854 1888 PR65 Ultra Cameo NGC. If there are any good values, perhaps even undervalued coins among proof gold, it would certainly be in the gold dollar series. While the mintage was substantial, only 150 to 200 examples are estimated extant today. Most, however, do not exhibit the strong field-device contrast seen on this piece. In fact, only six such pieces have been certified by NGC with 10 finer (11/12). This is an unquestioned proof striking with no hint of cartwheel in the fields. Each side exhibits rich orange-gold color and heavily frosted devices. Several curious die striations are seen in the upper obverse field, and a couple of minor lint marks are on the reverse.

From *The Ives Devos Collection*. NGC ID# 2B9B, PCGS# 97638, CoinPlex ID# G\$P1888DC

EARLY QUARTER EAGLES

Choice Fine 1805 Two and a Half
BD-1, Green Label Holder

- 6855** 1805 Fine 15 PCGS. CAC. BD-1, R.4. Since pre-1834 gold coins had a bullion content in excess of face value, most did not circulate extensively. They were usually exported to Europe as a unit of gold, then melted for recoinage in local denominations. The present quarter eagle, though, managed to remain in commerce, or perhaps it was a favored pocket piece. It is toned olive-gold and shows only a couple of relevant marks, on the cap and eagle's neck. Encased in a green label holder. PCGS# 7653, NGC ID# 25F9, CoinPlex ID# G2E1805
-

1806/4 Quarter Eagle, 8x5 Stars, BD-1, AU

- 6856** 1806/4 8x5 Stars AU50 ANACS. BD-1, High R.4. Bass-Dannreuther Die State a+/b. This obverse die was overdated from an unused 1804 die, while the reverse die did hard duty striking all quarter eagles from 1805 through 1807, plus well over 100,000 1807-dated silver dimes. The obverse on this coin nonetheless shows just the start of a die crack joining LI, a state we call "a+." The obverse is still far from the state b as Bass-Dannreuther describe it. This medium orange-gold piece shows a number of crisscrossing adjustment marks in the central obverse, and the strike is correspondingly weak on the central reverse area. Although there is wear consistent with the grade evident, there are few signs of contact on this appealing AU example. NGC ID# 25FA, PCGS# 7654, CoinPlex ID# G2E1806OVR4
-

Scarce 1807 Quarter Eagle
BD-1, AU Sharpness

6857 1807 — Tooled — PCGS Genuine. AU Details. BD-1, R.3. The sole dies for the date. This final-year Bust Right quarter eagle has a wavy right obverse field. The reverse field is also wavy beneath the right (facing) wing and within the lower half of the shield. Although bent, the sun-gold coin exhibits substantial luster and shows no obvious marks or evidence of smoothing. PCGS# 7656, NGC ID# 25FC, CoinPlex ID# G2E1807

AU Details 1827 Quarter Eagle
Appealing BD-1 Variety, R.5

6858 1827 — Improperly Cleaned — NGC Details. AU. BD-1, R.5. Bass-Dannreuther Die State a/c. This piece may have been lightly wiped in the past, but it still offers much attractive appeal and is a rare early 19th century issue, to boot. Only a single die pair was required to coin the minimal extent of 2,800 circulation strikes. There is no obvious die clashing or lapping on the reverse. The surfaces are a medium orange-gold with a decent strike and no major marks, save for a small scrape on the left side of the shield. An excellent representative of the issue, sure to spur considerable collector interest despite the NGC caveat. NGC ID# 25FJ, PCGS# 7666, CoinPlex ID# G2E1827

1833 Quarter Eagle, BD-1, XF
Reverse Die Carried Over From 1830-32

6859 1833 XF40 NGC. BD-1, R.5. Bass-Dannreuther Die State a/c. Only a single die combination was needed, understandably so, to coin the meager 4,160 reported examples of the 1833 quarter eagle, and only a single die state is known for those pieces, the BD state a/c. The c reverse die state is attributed to that die's reuse from coining the quarter eagles of 1830, 1831, and 1832, all in virtually the same state. This XF example shows some moderate wear on each side consistent with the grade, but the only singular marks are a couple of scrapes on Liberty's lower neck and a vertical mark between the 3s in the date. A diagonal scrape runs through the eagle's shield and onto the neck. Prevailing amber-gold color deepens near the rim to a brownish-gold. NGC ID# 25FP, PCGS# 7673, CoinPlex ID# G2E1833

CLASSIC QUARTER EAGLES

- 6860** 1834 Classic AU55 PCGS. Breen-6138, Variety 1, R.1. The Small Head variety, likely the first issued Classic quarter eagle design. A well struck and flashy representative with peach toning at the margins. Light marks are scattered but none require singular mention. Encapsulated in an old green label holder. PCGS# 7692, NGC ID# 25FS, CoinPlex ID# G2E1834CLASSIC
- 6861** 1834 Classic AU58 NGC. Breen-6140, Variety 2, R.3. AM are widely separated on this plentiful Large Head variety. A trace of wear appears on the light yellow surfaces, with minuscule rim marks on the reverse. Nearly full luster remains. NGC ID# 25FS, PCGS# 7692, CoinPlex ID# G2E1834CLASSIC
- 6862** 1835 AU55 NGC. Breen-6141, Variety 6, R.2. Bright luster illuminates the borders, plumage, and hair of this Choice AU Classic type coin. The centers show slight softness though peripheral elements are crisp. No marks are individually noticeable. NGC ID# 25FT, PCGS# 7693, CoinPlex ID# G2E1835

Select 1835 Two and a Half Very Scarce Variety 7

- 6863** 1835 MS63 NGC. Breen-6141, Variety 7, R.5. Most 1835 quarter eagles are Variety 6, which has a berry on the eagle's branch, a wide AM in AMERICA, and other differences from the present very scarce marriage. Variety 7 does not have a berry but does show characteristic die cracks, from star 6 through the portrait and throughout STATES OF. Though this Select example has lightly impressed centers, the remainder of the design is well struck. The rose-gold surfaces are minimally abraded and show vibrant luster throughout the margins and motifs. Census: 11 in 63, 7 finer (11/12). NGC ID# 25FT, PCGS# 7693, CoinPlex ID# G2E1835

- 6864** 1836 Block 8 AU58 NGC. Large Head of 1834, Breen-6142, Variety 8, R.3. Breen's "Large Head of 1834." Deep orange and reddish-gold patina resides on the well-impressed surfaces of this near-Mint State quarter eagle. A few obverse marks do not detract. A nice-looking piece. PCGS# 97694, CoinPlex ID# G2E1836BL8
- 6865** 1837 AU53 PCGS. Breen-6145, Variety 16, R.2. We surveyed the Heritage Permanent Auction Archives in preparation of our online guide to Classic quarter eagle varieties, and found that 85 of the 86 coins surveyed were examples of Variety 16. This one has light wear with brilliant yellow surfaces and trivial marks, while retaining excellent luster and eye appeal. Population: 15 in 53, 49 finer (12/12). PCGS# 7695, NGC ID# 25FX, CoinPlex ID# G2E1837
- 6866** 1838 AU58 NGC. CAC. Breen-6146, Variety 19, R.2. This is the sole variety known for 1838 quarter eagles, and examples are plentiful in circulated grades, scarce in Mint State. This borderline Mint State specimen has light yellow luster with trivial marks consistent with the grade. NGC ID# 25FY, PCGS# 7696, CoinPlex ID# G2E1838
- 6867** 1838-C — Rim Damage, Cleaned — NGC Details. AU. Breen-6147, Variety 20, R.3. A straw-gold example of the introductory Charlotte quarter eagle issue. Thickly hairlined, and the obverse rim is damaged at 6:30, but only moderate wear is evident. NGC ID# 25FZ, PCGS# 7697, CoinPlex ID# G2E1838C

Borderline Uncirculated Low-Mintage 1839 Two and a Half

- 6868** 1839 AU58 NGC. A single die pair is known from the low production of 27,021 pieces. The present butter-gold Borderline Uncirculated example is well struck at the centers though the reverse peripheral legends show incompleteness. Luster is prevalent on design elements. Both sides are smooth except for a few moderate marks beneath OF. Census: 16 in 58, 9 finer (12/12). NGC ID# 25G2, PCGS# 7698, CoinPlex ID# G2E1839

**Lustrous AU58 1839-C Quarter Eagle, Variety 22
Boldly Cracked Late Reverse Die State**

- 6869 1839-C AU58 NGC. Breen-6150, Variety-22, R.4.** Intense mint luster remains on each side of this near-Mint State 1839-C quarter eagle, one that shows excellent eye appeal. The yellow-gold surfaces deepen to amber near the obverse stars, and the few ticks and scrapes visible are not overly distracting. A small planchet void at star 13 appears to be as struck. The late-state reverse shows two bold die cracks, one paralleling the eagle's left (facing) wing, the second running from the left shield point upward into the field. Census: 61 in 58, 17 finer (12/12).
From *The Flagg Family Collection*. NGC ID# 25G4, PCGS# 7699, CoinPlex ID# G2E1839C

**AU 1839-O Quarter Eagle
High Date, Wide Fraction**

- 6870 1839-O AU50 NGC. Breen-6152, Variety 27, R.3.** Hints of luster glimmer from the eagle, curls, and legends of this unblemished straw-gold representative. The denomination is faintly entered due to an area of material on the die, but the remainder of the design is evenly defined. The only New Orleans issue of the Classic type. NGC ID# 25G7, PCGS# 7701, CoinPlex ID# G2E1839O

**1839-O Two and a Half, AU50
First New Orleans Gold Issue**

- 6871 1839-O AU50 NGC. Breen-6152, Variety 27, R.3.** The High Date, Wide Fraction variant of the sole Classic Head issue from the New Orleans Mint. This bright sun-gold two and a half is nicely struck and without any mentionable marks. A late die state with lapping on the fraction and branch stem. The three die cracks from the corners of the 1 in UNITED are bold. NGC ID# 25G7, PCGS# 7701, CoinPlex ID# G2E1839O

LIBERTY QUARTER EAGLES

**1840-D Quarter Eagle, AU55+
First D-Mint Liberty Quarter Eagle**

- 6872 1840-D AU55+ NGC. CAC. Variety 1-A.** Liberty quarter eagles were struck at the Dahlonega Mint for the first time in 1840, with a small mintage of 3,532 pieces. The coins circulated widely at the time of issue, and the survival rate for the 1840-D is quite low, especially in high grade. Probably no more than 60-80 specimens survive today in all grades, and the 1840-D is probably the rarest coin of the Dahlonega series in grades above AU50.

The present coin is an attractive high-end Choice AU specimen, with a better-than-average strike that shows just a touch of softness on the obverse stars and eagle's claws. The light green and rose-gold surfaces show a few traces of prooflike reflectivity in sheltered areas. Census: 6 in 55+, 6 finer (11/12). NGC ID# 25GC, PCGS# 7719, CoinPlex ID# L2M1840D

- 6873 1842-D — Surface Damage — PCGS Genuine. AU Details. Variety 3-E.** The early die state with the date boldly repunched south. This honey-gold Dahlonega quarter eagle is well-defined and displays glimmers of luster but is minutely granular throughout. Pinpoint marks are unevenly distributed. PCGS# 7725, NGC ID# 25GJ, CoinPlex ID# L2M1842D

**Scarce 1842-O Two and a Half
Choice AU, Smooth Surfaces**

- 6874 1842-O AU55 NGC. Variety 1.** A scarce New Orleans issue from a stingy mintage of 19,800 pieces. This butter-gold Choice AU representative displays interesting die cracks on the reverse periphery. The fields are unmarked, although a couple of slightly bright areas appear in front of the nose and above the eagle's head. NGC ID# 25GK, PCGS# 7726, CoinPlex ID# L2M1842O

**Lovely AU53 1843-C Quarter Eagle
Large Date, Plain 4**

- 6875 1843-C Large Date, Plain 4 AU53 NGC. Variety 1.** Only one die variety is known for this issue; among the characteristics is doubling of the date. This piece displays deep gold color and exhibits the typical incompleteness of strike at the centers of both sides. Only minor surface marks appear, adding to the attractiveness of this example. Census: 28 in 53, 61 finer (12/12). NGC ID# 25GN, PCGS# 7728, CoinPlex ID# L2M1843CLD

**Mint State 1843-C Two and a Half
Large Date, Plain 4**

- 6876 1843-C Large Date, Plain 4 MS60 NGC. Variety 1.** The Large Date 1843-C quarter eagle possesses a number of distinguishing characteristics in addition to the date size, including the presence of the Plain 4 in the date, whereas the much-rarer Small Date has a Crosslet 4. Researchers estimate that about 88% of all 1843-C quarter eagles were the Large Dates, but they are scarce in Uncirculated grade. This pleasing example shows strong detailing on the obverse, unusual for the variety. A shallow scrape appears on the cheek of Liberty, and on the reverse a diagonal abrasion occurs in the field below AT in STATES. The yellow-gold centers are surrounded by deep reddish patina at the margins. Census: 2 in 60, 16 finer (12/12). NGC ID# 25GN, PCGS# 7728, CoinPlex ID# L2M1843CLD

- 6877 1843-D Small D VF25 PCGS. CAC. Variety 4-G.** A problem-free Dahlonega quarter eagle with attractive apricot toning and an absence of relevant marks. The wings display substantial feather detail. Encapsulated in a green label holder. From *The William R. Green Collection*. PCGS# 7730, NGC ID# 25GP, CoinPlex ID# L2M1843D

**1843-D Liberty Five, AU53
Small D, Variety 4-H**

- 6878 1843-D Small D AU53 NGC. Variety 4-H (formerly 4-D).** From a mintage of 36,209 pieces, the 1843-D is the most available quarter eagle from the Dahlonega Mint. Four die varieties have been identified, with this coin representing the 4-H variety, with the Small D placed low. This well-detailed example displays lustrous greenish-gold surfaces, with some reverse die cracks that indicate a late state of the dies. From *The Ives Devos Collection*. NGC ID# 25GP, PCGS# 7730, CoinPlex ID# L2M1843D

- 6879 1843-O Large Date, Plain 4 AU55 NGC. Variety 1. CAC.** The mintmark is repunched south, as always for this scarce New Orleans issue. Orange-gold surfaces display a subtle greenish hue and well defined design features, save for weakness on the claws. This piece possesses excellent eye appeal. NGC ID# 25GS, PCGS# 7732, CoinPlex ID# L2M1843OLD

**Near-Mint Large Date, Plain 4
1843-O Quarter Eagle**

- 6880 1843-O Large Date, Plain 4 AU58 NGC. Variety 1.** The mintmark is repunched beneath its base. The Large Date variety is much scarcer than the Small Date. The present straw-gold near-Mint New Orleans representative has minimal marks and an above-average strike. Luster dominates the motifs and the reverse legends. Census: 40 in 58, 16 finer (12/12). NGC ID# 25GS, PCGS# 7732, CoinPlex ID# L2M1843OLD

- 6881 1844-C VF35 PCGS. Variety 1.** Sole dies for the year. Generous yellow-orange luster remains despite considerable wear on softly struck high points. Several shallow pinscratches are noted in the field below Liberty's chin. Population: 11 in 35, 78 finer (12/12). PCGS# 7735, NGC ID# 25GU, CoinPlex ID# L2M1844C

- 6882 1844-D XF40 PCGS. Variety 5-I (formerly 5-H).** The mintmark is not attached to the top of the 1 in the denomination. Greenish-gold patination is blushed with traces of apricot on the obverse. The central areas are weak as usual. Housed in a green label holder. PCGS# 7736, NGC ID# 25GV, CoinPlex ID# L2M1844D

1845 Quarter Eagle, MS63

6883 1845 MS63 NGC. Although this earlier Liberty quarter eagle issue had a production of 91,051 pieces, it was little-saved at the time of release, and Mint State examples are very elusive. This piece displays yellow-gold surfaces laced with traces of olive-green. The fields are satin and reveal only minor surface marks. Census: 16 in 63, 7 finer (12/12). NGC ID# 25GW, PCGS# 7737, CoinPlex ID# L2M1845

6884 1845-D — Mount Removed — NGC Details. AU. Variety 6-J (formerly 6-I). Edge and rim discoloration near 12 o'clock indicates where the coin was once mounted to jewelry. Both sides are thickly hairlined, but this green-gold quarter eagle will nonetheless be of interest to budget-minded Dahlonega gold collectors. From *The Ives Devos Collection*. NGC ID# 25GX, PCGS# 7738, CoinPlex ID# L2M1845D

6885 1846-D/D — Improperly Cleaned — NGC Details. AU. Variety 7-L (formerly 7-K). This is a late die state of the D/D variety with a faint trace of the grossly misplaced D over the 1 in the fraction. This piece is cleaned with light yellow surfaces, the reverse showing considerable splashes of orange toning. NGC ID# 25H3, PCGS# 97742, CoinPlex ID# L2M1846DD

1847 Quarter Eagle, MS61 A Mint State Rarity

6886 1847 MS61 NGC. The 1847 quarter eagles are scarce in all grades, surviving from a mintage of only 29,814 coins. This Mint State example displays lustrous green-gold surfaces with delicate orange peripheries. The surfaces show scattered marks consistent with the grade. Census: 5 in 61, 8 finer (12/12). NGC ID# 25H5, PCGS# 7744, CoinPlex ID# L2M1847

6887 1847-D XF45 NGC. CAC. Variety 9-N (formerly 9-M). Sea-green and rose-red shades invigorate this attractively toned Dahlonega quarter eagle. No marks are visible, and the motifs are evenly detailed. A scant 15,784 pieces were produced. From *The Ives Devos Collection*. NGC ID# 25H7, PCGS# 7746, CoinPlex ID# L2M1847D

1847-D Two and a Half, AU58 Smooth and Partly Lustrous

6888 1847-D AU58 NGC. CAC. Variety 9-N (formerly 9-M). A pleasing lemon-gold Borderline Uncirculated Dahlonega quarter eagle. A broad band of luster fills the peripheries and the motifs show friction only on high points such as the hairbun, eyebrow, and hair above the ear. No marks are remotely consequential. Exceptional for the grade. Census: 40 in 58 (1 in 58+), 22 finer (12/12). Ex: *Long Beach Signature* (Heritage, 2/2010), lot 1463, which realized \$4,600. NGC ID# 25H7, PCGS# 7746, CoinPlex ID# L2M1847D

6889 1849-D PCGS Genuine. Variety 12-N (formerly 12-M). The PCGS number ending in .98 suggests Damage as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of an AU specimen that was formerly used as jewelry. Both sides display myriad parallel hairlines, and the reverse displays traces of solder residue near UNITED and AMERICA. The rarer of the two 1849-D die varieties. PCGS# 7754, NGC ID# 25HF, CoinPlex ID# L2M1849D

6890 1849-D XF40 NGC. Variety 12-N (formerly 12-M). The rarer of the two die pairs, with the date placed lower in the field than on the usual Variety 11-N. From a tiny mintage of 10,945 pieces, this Dahlonega Mint quarter eagle has ample glimpses of luster across unblemished tan-gold surfaces. From *The Ives Devos Collection*. NGC ID# 25HF, PCGS# 7754, CoinPlex ID# L2M1849D

Near-Mint 1849-D Quarter Eagle

6891 1849-D AU58 NGC. Variety 11-N (formerly 11-M). Rich butter-gold toning graces this briefly circulated Dahlonega two and a half. Pockets of bright luster fill design elements. An above average strike with some blending evident on the right (facing) claw. Thorough evaluation locates only trivial marks. Census: 40 in 58, 10 finer (11/12). Ex: *San Francisco ANA Signature* (Heritage, 7/2005), lot 7351. NGC ID# 25HF, PCGS# 7754, CoinPlex ID# L2M1849D

**1850 Quarter Eagle, MS63
Elusive in Mint State**

6892 1850 MS63 PCGS. Here is an amazing Select Mint State quarter eagle that features bright lemon-yellow surfaces and satin luster with reflective fields and splashes of delicate blue toning on the high points. Large deposits of California gold meant higher mintages in the early 1850s, and the 1850 quarter eagle production topped the quarter-million mark. However, higher grade survivors are still elusive. Population: 14 in 63, 4 finer (12/12). PCGS# 7755, NGC ID# 25HG, CoinPlex ID# L2M1850

6893 1850-C XF40 PCGS. Variety 2. "Very scarce" per Winter. The mintmark is more to the right with the arrow fletching overlapping the upper part of the loop of the C. Luminous yellow-to-orange surfaces have coppery spots in the denomination area and a few digs in the reverse fields. PCGS# 7756, NGC ID# 25HH, CoinPlex ID# L2M1850C

6894 1850-C XF45 NGC. Variety 2. The rarer of the two known varieties, though any 1850-C quarter eagle is highly elusive. A green-gold Choice XF Charlotte example with a sharp strike at the borders though the centers are typically brought up. Smooth aside from a thin diagonal mark beneath the eagle's neck. NGC ID# 25HH, PCGS# 7756, CoinPlex ID# L2M1850C

Near-Mint 1850-D Two and a Half

6895 1850-D AU58 PCGS. Variety 13-N (formerly 13-M). This Borderline Uncirculated low mintage example displays uniform apricot color and has an above average strike given its Dahlonega origin. Generally unabraded though a few small marks are confined to the left obverse field. Void of any flan issues. Population: 16 in 58, 7 finer (11/12). PCGS# 7757, NGC ID# 25HJ, CoinPlex ID# L2M1850D

**1851-C Two and a Half, AU55
Better Charlotte Issue**

6896 1851-C AU55 NGC. Variety 1. This wheat-gold Choice AU Charlotte example displays ample luster. The strike is good though the curls near the ear lack full detail. The surfaces appear unabraded aside from a line beneath Liberty's eye and faded hair-thin marks near star 12. Minor vertical roller marks, as made, are visible at the centers. Census: 17 in 55, 29 finer (12/12). NGC ID# 25HM, PCGS# 7760, CoinPlex ID# L2M1851C

6897 1851-O AU58 NGC. Variety 1. The second 1 in the date is boldly repunched below its left base with a trace of repunching of the 5 below and left of that digit. This rich yellow-gold specimen has nearly full luster with hints of light blue. *From The Flagg Family Collection.* NGC ID# 25HP, PCGS# 7762, CoinPlex ID# L2M1851O

**1851-O Quarter Eagle, MS61
Popular Repunched Date**

6898 1851-O MS61 PCGS. Variety 1. Repunched Date. The 51 in the date are widely repunched southwest of the prominent placement of the date. The mintage was substantial with 148,000 pieces produced, but only 200 to 250 are believed known today in all grades. This is among the finest with few in higher grades. The surfaces are bright yellow-gold and the central strike on the obverse is strong, but the center of the reverse shows the expected weakness of detail. Lightly abraded overall. PCGS# 7762, NGC ID# 25HP, CoinPlex ID# L2M1851O

**Mint State 1852-O Two and a Half
Conditionally Rare New Orleans Issue**

6899 1852-O MS61 NGC. Variety 2. The mintmark is large and donut-shaped, reminiscent of the 1854-O "Huge O" quarter. This issue is far scarcer in Mint State than its Philadelphia counterpart. The present honey-gold New Orleans representative is refreshingly unabraded and shows occasional minor inexactness of strike. Census: 15 in 61, 11 finer (12/12). NGC ID# 25HU, PCGS# 7766, CoinPlex ID# L2M1852O

Elusive Gem 1853 Quarter Eagle
Only One Numerically Finer NGC Example

- 6900 1853 MS65 NGC.** Frosty and attractive, this 1853 two and a half has just a hint of pale olive-gold iridescence. Most design features are sharp save for the letter B in LIBERTY, the eagle's right thigh (viewer's left) and left claw, which show a touch of striking softness as made. Readily available in the MS60 to 63 grade range due to the existence of a hoard, but as with so many other issues in the 19th-century U.S. gold series, only a small coterie of Uncirculated survivors can claim membership in the MS65 category, a claim that is attested by NGC population data. Census: 19 in 65, 1 finer (11/12).
Ex: Long Beach Signature (Heritage, 6/2005), lot 7559. NGC ID# 25HV, PCGS# 7767, CoinPlex ID# L2M1853

- 6901 1853-D — Reverse Repaired — NGC Details. XF. Variety 17-N (formerly 16-M).** The reverse field is smoothed beneath STATES OF. Both sides display parallel hairlines, but the pumpkin-gold surfaces are otherwise unblemished. This rare Dahlonega issue has a mintage of only 3,178 pieces.
From The Ives Devos Collection. NGC ID# 25HW, PCGS# 7768, CoinPlex ID# L2M1853D

1854-C Two and a Half, Choice AU
Seldom Found Finer

- 6902 1854-C AU55 NGC. Variety 1.** Only one die pairing was required to strike the meager mintage of 7,295 quarter eagles in Charlotte in 1854. Of the 105 to 145 pieces believed known in all grades, only 34 to 43 coins have survived in AU. As with most 1854-C two and a halves, this piece shows central striking weakness. While not extensively abraded, as usual, there is one significant scrape in the left obverse field. Even yellow-gold color.
Ex: Cal-State Auction (John Cobb, 1967), lot 99, flip included. NGC ID# 25HY, PCGS# 7770, CoinPlex ID# L2M1854C

1854-C Quarter Eagle, MS61

- 6903 1854-C MS61 NGC. Variety 1.** A lovely apricot-gold example of this low mintage Charlotte issue, this piece is unabraded and displays the usual C-mint incompleteness of strike on the central reverse. The obverse has a railroad rim between 9 and 4 o'clock, as struck. Shallow strike-throughs (as made) cause a slightly granular surface on the fields near the bust tip and behind the eagle's neck. Census: 8 in 61, 10 finer (12/12). NGC ID# 25HY, PCGS# 7770, CoinPlex ID# L2M1854C

1856 Quarter Eagle, MS64
Frosty Yellow Luster

- 6904 1856 MS64 PCGS. CAC.** An impressive Choice Mint State specimen, this 1856 quarter eagle has frosty yellow luster with faint green and rose overtones. Trivial hairlines prevent a higher grade. Despite a mintage of 384,240 coins, the 1856 is a rarity in higher grades with a combined PCGS and NGC population of just 46 in MS64, and only 17 finer. The quarter eagle specialist will appreciate this bidding opportunity. Population: 18 in 64, 10 finer (12/12). PCGS# 7777, NGC ID# 25J7, CoinPlex ID# L2M1856

- 6905 1856-C XF40 NGC. Variety 1.** Sole dies. Yellow-gold surfaces have a surprising pale radiance. Long, shallow depressions are noted at the lower right obverse and upper right reverse. NGC ID# 25J8, PCGS# 7778, CoinPlex ID# L2M1856C

- 6906 1856-O AU53 NGC. Variety 2.** Rich yellow color, almost butter-deep, with generous underlying luster despite light wear. The portrait has several light abrasions, but the reverse presents well. NGC ID# 25JA, PCGS# 7780, CoinPlex ID# L2M1856O

**Sharp 1857 Quarter Eagle, MS65
Seldom Offered in This Grade**

6907 1857 MS65 PCGS. CAC Gold Label. Liberty Head quarter eagles of 1857 are seldom offered at the Gem and finer levels of preservation. Indeed, PCGS and NGC combined have graded only three MS65s and four coins finer. The lustrous yellow-gold surfaces of the present Gem display whispers of greenish-gray and apricot, and the design features are sharply struck, save for the often-seen weakness in the eagle's left (facing) leg. This is a really great looking coin!
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 7782, NGC ID# 25JC, CoinPlex ID# L2M1857

6908 1857-O AU58 NGC. CAC. Variety 1. A straw-gold New Orleans representative. The strike is above average though the eagle's lower body is incompletely impressed. Neither side shows marks save for a single thin line left of the date. A mere 34,000 pieces were struck. NGC ID# 25JE, PCGS# 7784, CoinPlex ID# L2M1857O

**Rare 1857-S Quarter Eagle, MS61
Attractive for the Grade**

6909 1857-S MS61 NGC. The 1857-S quarter eagle appears infrequently at auction, and when it does is usually in one of the About Uncirculated grades. It is estimated that only a dozen or so Mint State specimens are known today, most of which appear to be in the lower levels thereof. NGC and PCGS have certified 16 pieces in MS61, the grade of the present offering, and just 12 examples finer. Some of these are likely resubmitted coins. Both sides display orange-gold color and sharply struck design features. The fields are somewhat prooflike and yield mild contrast with the motifs, especially on the reverse. Distributed light marks do not significantly detract. This is an attractive piece for the designated grade. Census: 13 in 61, 6 finer (12/12). NGC ID# 25JF, PCGS# 7785, CoinPlex ID# L2M1857S

6910 1859 Old Reverse, Type One MS61 NGC. Flashy fields are pale yellow-gold with just a hint of copper. This Old Reverse example is sharply struck, though an old pinscratch is noted under the eagle's left (facing) wing. PCGS# 97788, CoinPlex ID# L2M1859OLDREV

**1859 Quarter Eagle, MS62
Old Reverse Hub**

6911 1859 Old Reverse, Type One MS62 PCGS. CAC. This sharply detailed MS62 piece has brilliant yellow surfaces and satin luster. The transition from Type One to Type Two lasted for three years, beginning in 1859 and continuing through 1861. Population: 5 in 62, 7 finer (12/12). PCGS# 97788, CoinPlex ID# L2M1859OLDREV

**1859 Quarter Eagle, MS63
New Reverse Hub**

6912 1859 New Reverse, Type Two MS63 PCGS. CAC. This boldly defined quarter eagle is fully brilliant and highly lustrous with outstanding eye appeal. The surfaces are exceptional for the grade. The new reverse design hub has long, slender arrows that nearly reach the letters. This condition rarity should prove to be a nice addition to an advanced collection. Population: 15 in 63, 4 finer (12/12). PCGS# 7788, NGC ID# 25JK, CoinPlex ID# L2M1859NEWREV

6913 1859-D — Improperly Cleaned — NGC Details. AU. Variety 22-N (formerly 21-M). This extremely low-mintage issue, struck in the amount of 2,200 pieces, is the final Dahlonega entry of the two and a half denomination. The caramel-gold surfaces are mildly glossy from cleaning, but actual circulation wear is negligible and there are no visible abrasions. The centers and dentils are softly impressed.
From The Ives Devos Collection. NGC ID# 25JM, PCGS# 7789, CoinPlex ID# L2M1859D

**XF 1860-C Quarter Eagle
Attractive Peach Toning**

6914 1860-C XF40 PCGS. Variety 1. Lovely peach-gold toning enriches this lightly circulated Charlotte quarter eagle. The high points are gunmetal-gray. The strike shows selected inexactness but abrasions are moderate and the shallow reverse strike-throughs are of mint origin. The final Charlotte issue with a low mintage of 7,469 pieces. PCGS# 7792, NGC ID# 25JT, CoinPlex ID# L2M1860C

AU53 1860-C Quarter Eagle

- 6915 1860-C AU53 NGC. Variety 1.** A single variety is known for this Charlotte issue. The nominal production of 7,400 examples of the 1860-C quarter eagle puts it about on par with several other Charlotte issues of the late 1850s. This AU53 example retains nice eye appeal with attractive yellow-gold color and only minor surface marks. Census: 16 in 53, 53 finer (12/12). NGC ID# 25JT, PCGS# 7792, CoinPlex ID# L2M1860C

Near-Mint 1860-C Quarter Eagle

- 6916 1860-C AU58 PCGS. Variety 1.** An attractive near-Mint representative, this example displays wheat-gold color with hints of orange. Several shallow and small strike-throughs on the reverse field are as minted. Minor surface marks appear, including a few on Liberty's face. Population: 5 in 58, 3 finer (12/12). PCGS# 7792, NGC ID# 25JT, CoinPlex ID# L2M1860C

1860-C Quarter Eagle, MS61 Last Charlotte Mint Two and a Half

- 6917 1860-C MS61 NGC. Variety 1.** This is an attractive representative from the last issue of quarter eagles produced at the Charlotte Mint. Only one die variety is known, with the strike more pronounced on the obverse. This piece displays lovely gold color that includes hints of green and red along with satiny luster and a small degree of reflectivity. The reverse exhibits the surfaces these pieces are known for. There are no mentionable marks. Census: 5 in 61, 4 finer (12/12). NGC ID# 25JT, PCGS# 7792, CoinPlex ID# L2M1860C

- 6918 1860-S AU55 NGC.** An attractive example of an issue that is rarely seen in Mint State grades, this piece exhibits strong design motifs with greenish-orange patina. Both sides are minimally marked. NGC ID# 25JU, PCGS# 7793, CoinPlex ID# L2M1860S

- 6919 1861 Old Reverse, Type One AU58 NGC.** An attractive near-Mint example. The upper arrowheads touch, indicative of the scarce Type One reverse, which makes its final appearance on the 1861 release. Significant clash marks appear in the obverse and reverse fields, a typical die state for the 1861 Old Reverse pieces. Census: 41 in 58, 40 finer (12/12). NGC ID# 25JW, PCGS# 97794, CoinPlex ID# L2M1861OLDREV

- 6920 1861 New Reverse, Type Two MS64 PCGS. CAC.** This beautifully struck near-Gem displays hints of green and orange. Minor grazes and marks held this very attractive example from a higher grade. Population: 94 in 64 (3 in 64+), 32 finer (12/12). PCGS# 7794, NGC ID# 25JX, CoinPlex ID# L2M1861NEWREV

MS66 1861 Two and a Half Type Two Reverse

- 6921 1861 New Reverse, Type Two MS66 NGC.** An outstanding example of this Civil War issue. The strike is needle-sharp, and the lime-green and butter-gold surfaces are unperturbed and highly lustrous. One small area of the field near the beak retains the planchet texture, as made. Plentiful in typical Mint State but very rare in the present exemplary quality. Census: 5 in 66, 0 finer (11/12). Ex: St. Louis Central States Signature (Heritage, 5/2005), lot 8466, which realized \$6,325. NGC ID# 25JX, PCGS# 7794, CoinPlex ID# L2M1861NEWREV

- 6922 1862/1 AU58 NGC.** The upright of a 1 is clearly visible beneath the left side of the 2 on this lustrous near-Mint overdate. A few tiny surface marks are noted, with a small obverse rim mark at 11:30. This is a scarce and important variety, and an excellent opportunity for the specialist. Census: 23 in 58, 11 finer (12/12). NGC ID# 25JZ, PCGS# 7797, CoinPlex ID# L2M1862OVR1

1862 Quarter Eagle Lustrous Borderline Uncirculated Specimen

- 6923 1862 AU58 NGC.** The 1862 quarter eagle is considerably scarcer than its mintage of 98,543 pieces. The obverse fields are brightly reflective, but none is observed on the reverse. Each side displays deep, rich reddish patina, indicative of an uncleaned coin. Sharply struck; a few small abrasions are scattered over each side. Census: 54 in 58, 51 finer (12/12). NGC ID# 25JZ, PCGS# 7796, CoinPlex ID# L2M1862

**Near-Mint 1863-S Quarter Eagle
Sharply Struck and Pleasing**

- 6924 1863-S AU58 PCGS.** The skimpy mid-Civil War mintage of the 1863-S quarter eagle was only 10,800 coins, and the survivors appear to have circulated extensively. The average certified survivor is XF to Choice XF. This near-Mint State coin shows light field chatter but no mentionable marks, with light-yellow fields and darker golden-orange device high points. The strike is well-impressed, save for minor softness on the lower eagle's legs and claws. Population: 4 in 58, 3 finer (12/12). PCGS# 7799, NGC ID# 25K3, CoinPlex ID# L2M1863S

**1866 Quarter Eagle, XF40
Low Mintage of Only 3,080 Pieces**

- 6925 1866 XF40 NGC.** This post-Civil War quarter eagle issue had a tiny mintage of 3,080 business strikes, and finding an attractive example is a challenge regardless of grade. This reddish-gold XF40 example shows faint glimmers of luster in fields that show few significant marks. A degree of strike softness is noted at the upper portrait and lower eagle. Census: 5 in 40, 30 finer (12/12). NGC ID# 25K7, PCGS# 7803, CoinPlex ID# L2M1866
- 6926 1866-S AU55+ NGC.** Still-glossy orange-gold surfaces and sharply struck central devices show only minor wear. A rim nick is noted between stars 11 and 12. Census: 25 in 55+, 29 finer (12/12). NGC ID# 25K8, PCGS# 7804, CoinPlex ID# L2M1866S

**1866-S Quarter Eagle, MS61
A Mint State Rarity**

- 6927 1866-S MS61 NGC.** Although the mintage of 38,960 seems adequate that survivors would be available, nearly all of those coins entered circulation, and the few that do survive have an average certified grade of only XF45. This Mint State specimen has satiny light yellow luster with splashes of orange toning near the borders. Census: 5 in 61, 3 finer (12/12). NGC ID# 25K8, PCGS# 7804, CoinPlex ID# L2M1866S

**Mint State 1869-S Quarter Eagle
Only Four Finer NGC-Graded Examples**

- 6928 1869-S MS61 NGC.** Both sides of this example display satiny yellow luster with strong design definition. Scattered surface marks on each side limit the grade. Only 29,500 1869-S quarter eagles were minted, and few survive in Mint State grades as the issue served its purpose in commerce. The average certified grade is just XF45. Census: 9 in 61, 4 finer (12/12). NGC ID# 25KE, PCGS# 7810, CoinPlex ID# L2M1869S

- 6929 1873 Closed 3 MS64 PCGS.** The Closed 3 variety is more difficult than its Open 3 counterpart and, while sometimes available in average Mint State condition, Choice pieces are seldom located. This is lovely, well frosted example that is just a couple of paper-thin marks on the obverse from consideration as a Gem. Both sides are framed in natural olive patina. Population: 48 in 64, 9 finer (12/12). From *The Flagg Family Collection*. PCGS# 7818, NGC ID# 25KM, CoinPlex ID# L2M1873CL3

Elusive Prooflike 1874 Quarter Eagle, MS61

- 6930 1874 MS61 Prooflike NGC.** Only 3,920 pieces were struck for this issue and examples designated as Prooflike are prohibitively rare. The mirrored fields do provide contrast to the devices. This piece displays attractive straw-gold color and exhibits only minor marks. Census: 1 in 61 Prooflike, 1 finer (12/12). From *The Richmond Hill Collection*. PCGS# 77821

- 6931 1878 MS65 NGC.** An impressive Liberty quarter eagle, this 1878 has bold design motifs with frosty yellow luster and pristine surfaces. Scattered marks appear on each side. Census: 30 in 65 (1 in 65+), 6 finer (12/12). From *The Flagg Family Collection*. NGC ID# 25KY, PCGS# 7828, CoinPlex ID# L2M1878

- 6932 1879 MS64 PCGS.** Well struck with bright satiny luster, pretty coloration, and a handful of tiny contact marks on the obverse. Tantalizingly near to Gem quality. Population: 60 in 64 (3 in 64+), 16 finer (12/12). PCGS# 7830, NGC ID# 25L2, CoinPlex ID# L2M1879

**Choice AU 1883 Quarter Eagle
Rare Low-Mintage Date**

6933 1883 AU55 PCGS. Only 1,920 Liberty quarter eagles were struck in 1883, making the issue quite rare in all grades today. This attractive Choice AU example features well-detailed design elements and lightly abraded surfaces that show prooflike reflectivity in sheltered areas. Eye appeal is strong for the grade. Population: 21 in 55 Deep Cameo, 24 finer (12/12). PCGS# 7835, NGC ID# 25L7, CoinPlex ID# L2M1883

6934 1884 MS61 NGC. An extremely low mintage of just 1,950 pieces, with a market valuation at little more than common dates, makes this an important, underrated opportunity. This Mint State piece has brilliant yellow luster, sharp design motifs, and mirrored surfaces. Census: 31 in 61, 28 finer (12/12).
From The Richmond Hill Collection. NGC ID# 25L8, PCGS# 7836, CoinPlex ID# L2M1884

6935 1889 MS64 PCGS. CAC. Rich honey-gold color adds to the attractiveness of this lustrous near-Gem. Upon close examination subtle shades of peach and light green appear. The surfaces include a few tiny copper spots and contact marks. Population: 49 in 64 (1 in 64+), 9 finer (12/12). PCGS# 7841, NGC ID# 25LD, CoinPlex ID# L2M1889

**1892 Quarter Eagle, MS63
Better Date**

6936 1892 MS63 PCGS. CAC. The 1892 Liberty quarter eagle is a better date in the series, from a low mintage of 2,440 pieces. This attractive Select example displays sharply detailed design elements and vibrant mint luster that mixes with prooflike reflectivity in some areas. Housed in a green label holder. Population: 19 in 63, 30 finer (11/12). PCGS# 7844, NGC ID# 25LG, CoinPlex ID# L2M1892

6937 1894 MS63 NGC. Orange patina mixes with the normal yellow-gold color over portions of this coin that exhibits flashy fields and frosted devices. The color is particularly bright on the reverse. This Select Mint State example possesses razor-sharp strike detail and minimal marks for the grade. Census: 33 in 63, 52 finer (11/12).
Ex: Orlando FUN Bullet Sale (Heritage, 1/2004), lot 32072. NGC ID# 25LJ, PCGS# 7846, CoinPlex ID# L2M1894

**1894 Quarter Eagle, MS64
Low Mintage, Low Population**

6938 1894 MS64 PCGS. An impressive Choice Mint State quarter eagle, surviving from a low mintage of just 4,000 business strikes, this piece has brilliant yellow luster with bold design definition and a bright copper toning spot at the AT of STATES. Population: 23 in 64 (3 in 64+), 21 finer (12/12). PCGS# 7846, NGC ID# 25LJ, CoinPlex ID# L2M1894

6939 1894 MS63 Prooflike NGC. A sensational Select Mint State piece, this low mintage 1894 quarter eagle has brilliant yellow surfaces with fully prooflike fields and exceptional eye appeal. This important date is rare with mirrored surfaces. Census: 3 in 63 Prooflike, 2 finer (12/12). PCGS# 77846

Prooflike Gem 1894 Quarter Eagle

6940 1894 MS65 Prooflike NGC. CAC. A rarity in high grades from an original business strike mintage of just 4,000 coins, this piece exhibits razor-sharp surfaces. The coin is essentially defect-free (as one would expect for the grade), and displays a prooflike appearance with frosted devices. A bright, copper-golden finish is seen over each side. Census: 1 in 65 Prooflike, 0 finer (11/12).
Ex: St. Louis Central States Signature (Heritage, 5/2005), lot 8492, which realized \$6,325. PCGS# 77846

**Low-Mintage 1895 Quarter Eagle, MS65
Only 6,000 Pieces Produced**

6941 1895 MS65 PCGS. A brightly lustrous Gem with outstanding surface quality and a sharp strike. Seldom seen this nice, with higher grade certified examples quite scarce. Only 6,000 business strikes were originally produced. Population: 11 in 65, 11 finer (11/12).
Ex: Long Beach Signature (Heritage, 9/2003), lot 7729.
From The Flagg Family Collection. PCGS# 7847, NGC ID# 25LK, CoinPlex ID# L2M1895

**1895 Two and a Half, MS66
Highly Lustrous**

- 6942 1895 MS66 PCGS.** Incredibly lustrous, frosty surfaces are tinted in delicate green-gold hues and provide all the flash anyone could ask for in a Liberty quarter eagle, regardless of date. Only a few pinpoint facial marks disturb the near-flawless surfaces. As an issue, the 1895 is one of just 6,000 business strikes and can sometimes be found in Uncirculated grades, but rarely does one exhibit the pristine qualities of this piece. Population: 11 in 66, 0 finer (11/12).
Ex: New York Signature (Heritage, 11/2003), lot 7314.
From The Flagg Family Collection. PCGS# 7847, NGC ID# 25LK, CoinPlex ID# L2M1895

1896 Quarter Eagle, MS65

- 6943 1896 MS65 PCGS.** Only 19,070 quarter eagles were minted in 1896, and that was actually the second-highest mintage of any issue since 1879. This sharply struck Gem has pristine surfaces with trivial marks on its brilliant and frosty lemon-yellow surfaces. Population: 67 in 65, 25 finer (12/12). PCGS# 7848, NGC ID# 25LL, CoinPlex ID# L2M1896
- 6944 1897 MS65 PCGS.** A lustrous and exquisitely preserved Gem with lemon-yellow surfaces and hues of beautiful rose color. A very impressive example that would be an outstanding addition to a type set. Less than 30,000 pieces were struck.
From The Flagg Family Collection. PCGS# 7849, NGC ID# 25LM, CoinPlex ID# L2M1897
- 6945 1901 MS66 PCGS.** Generous apricot-gold luster with occasional tinges of peach. A remarkably well-defined turn-of-the-century quarter eagle, ideal for the type collector. Population: 78 in 66 (2 in 66+), 11 finer (12/12). PCGS# 7853, NGC ID# 25LS, CoinPlex ID# L2M1901
- 6946 1902 MS65+ NGC.** Brilliant gold color and shimmering surfaces provide this high-end Gem with tremendous eye appeal. The coin exhibits a sharp strike and displays only minor contact marks. NGC ID# 25LT, PCGS# 7854, CoinPlex ID# L2M1902
- 6947 1902 MS66 NGC.** Impressively detailed with a subtly frosted character to the light yellow luster. This Premium Gem offers high-end eye appeal for the type or date enthusiast. NGC ID# 25LT, PCGS# 7854, CoinPlex ID# L2M1902
- 6948 1903 MS66 NGC. CAC.** This needle-sharp sun-gold type coin is essentially pristine and boasts blazing luster. Small cherry-red alloy spots are near star 4, the left (facing) wing, and the second S in STATES. Housed in an old pre-hologram holder. NGC ID# 25LU, PCGS# 7855, CoinPlex ID# L2M1903

- 6949 1904 MS66 NGC.** An impressive Premium Gem, this quarter eagle has brilliant yellow luster with wisps of orange. The exceptional strike adds to its eye appeal. A delightful piece for the date or type collector. NGC ID# 25LV, PCGS# 7856, CoinPlex ID# L2M1904

1904 Quarter Eagle, MS67+

- 6950 1904 MS67+ NGC. CAC.** Well-struck, this attractive high-end Superb Gem displays excellent design details. Bold color along with a few hints of green add to the visual appeal. Only a few tiny surface marks appear. This is one of only nine pieces at the 67+ grade level at NGC, with five finer (12/12). NGC ID# 25LV, PCGS# 7856, CoinPlex ID# L2M1904
- 6951 1907 MS66 NGC.** Well-defined with suggestions of pink and green on a broadly lustrous yellow-gold base. A high-end survivor from late in the Liberty quarter eagle series. NGC ID# 25LY, PCGS# 7859, CoinPlex ID# L2M1907
- 6952 1907 MS66 PCGS.** An extraordinary Premium Gem representing the final Liberty quarter eagle, this piece has frosty yellow luster and bold design motifs. An important entry for a date or type collection.
From The Richard P. Ariagno, M.D. Collection. PCGS# 7859, NGC ID# 25LY, CoinPlex ID# L2M1907
- 6953 1907 MS66+ PCGS. CAC.** Shimmering yellow-gold surfaces add to the visual allure of this high-end Premium Gem. Hints of green appear when the piece is examined closely. This beautifully preserved example displays bold detail. PCGS# 7859, NGC ID# 25LY, CoinPlex ID# L2M1907

PROOF LIBERTY QUARTER EAGLES

**PR62 1890 Two and a Half
A Scant 93 Proofs Struck**

- 6954 1890 PR62 PCGS.** An orange-gold specimen with a razor-sharp strike and impressive field reflectivity. Cameo contrast is significant though undesignated due to the age of the green label holder. Inspection beneath a lens reveals only trivial imperfections. Just 93 proofs were struck for this scarcer date. PCGS# 7916, NGC ID# 288D, CoinPlex ID# L2P1890

1900 Quarter Eagle, PR62 Cameo

6955 1900 PR62 Cameo NGC. The cameo contrast is evident although hairlines in the fields on both sides are a grade-limiting factor. The coin exhibits a strong strike with the design elements displaying bold detail. Several spots of orange color are visible. Census: 9 in 62 Cameo, 86 finer (12/12).
From *The Richmond Hill Collection*. NGC ID# 288P, PCGS# 87926, CoinPlex ID# L2P1900CA

Choice Proof 1902 Quarter Eagle
Only 193 Examples Struck

6956 1902 PR64 NGC. A fairly generous mintage of 193 proof Liberty quarter eagles was accomplished in 1902, using the all-brilliant finish that severely limited the cameo contrast seen on proofs of earlier times. This sharply detailed Choice specimen displays deeply reflective lemon-yellow fields, with a few minor hairlines and contact marks. Census: 22 in 64, 18 finer (11/12). NGC ID# 288S, PCGS# 7928, CoinPlex ID# L2P1902

Proof 1903 Two and a Half
Uncirculated Details

6957 1903 — Altered Surfaces — PCGS Genuine. Proof, Unc. Details. A razor-sharp canary-gold specimen. The obverse field shows subtle smoothing near the portrait of Liberty. The reverse appears to be unimpaired and is highly attractive despite a few minuscule contact marks. Cameo contrast is blatant on the reverse, though the cheek lacks frost, typical for proofs from that year. Just 197 proofs were struck. PCGS# 7929, NGC ID# 288T, CoinPlex ID# L2P1903

Choice Proof 1904 Liberty Quarter Eagle
Rare Ultra Cameo Example

6958 1904 PR64 Ultra Cameo NGC. Only 170 proof Liberty quarter eagles were struck in 1904. Although a few dates of the period claim even lower mintages, the 1904 is the most challenging 20th century issue of the series to find in unimpaired condition. In addition, few proofs of the era are seen with Cameo surfaces, since the Mint switched to an all-brilliant finish in 1902.

This marvelous Choice example displays deeply mirrored fields that contrast profoundly with the unusually frosty devices to produce a stunning cameo effect. The design elements are sharply detailed and the light yellow-gold surfaces are free of mentionable distractions. Census: 4 in 64 Ultra Cameo, 8 finer (12/12). NGC ID# 288U, PCGS# 97930, CoinPlex ID# L2P1904DC

**1906 Quarter Eagle, PR65
Borderline Cameo**

- 6959 1906 PR65 PCGS.** The 1906 quarter eagle is the next-to-last Liberty Head proof struck of the denomination, a quantity totaling 160 coins during the era when the Philadelphia Mint was producing low- to no-contrast proofs. This Gem proof displays light, even reddish-gold color throughout each side. The fields are deeply reflective, as expected, but the devices show a surprising amount of frosted contrast, even if insufficient for a Cameo designation. A couple of tiny contact marks in the fields are all that preclude an even finer grade. Population: 12 in 65, 30 finer (10/12). PCGS# 7932, NGC ID# 288W, CoinPlex ID# L2P1906

INDIAN QUARTER EAGLES

- 6960 1908 MS64 NGC.** Popular as a first-year type coin, the 1908 Indian quarter eagle is reasonably available in high grades. This lovely near-Gem example displays attractive luster, with a hint of faint olive-green toning. NGC ID# 288Y, PCGS# 7939, CoinPlex ID# I2M1908
- 6961 1908 MS64 NGC.** Lovely orange-yellow luster is understated but insistent. A great first-year near-Gem, pleasingly detailed with an obverse that presents well. NGC ID# 288Y, PCGS# 7939, CoinPlex ID# I2M1908

**Gem 1908 Indian Two and a Half
Well-Detailed Example**

- 6962 1908 MS65 NGC.** This Gem from the first year of the Indian design exhibits well-detailed design elements, with just a touch of softness on the lower headdress feathers. The lustrous surfaces display green hues. Only minor signs of contact appear, further adding to the excellent eye appeal. NGC ID# 288Y, PCGS# 7939, CoinPlex ID# I2M1908

**1908 Two and a Half, MS65
First-Generation Holder**

- 6963 1908 MS65 PCGS. CAC.** Predominantly peach-gold though hints of sea-green adorn the peripheries. Precisely struck and coruscating with a refreshingly mark-free appearance. Both sides exhibit a partial wire rim. Ideal for an advanced gold type set, and housed in a first generation holder. PCGS# 7939, NGC ID# 288Y, CoinPlex ID# I2M1908
- 6964 1909 MS63 PCGS.** From a mintage of 441,760 pieces, the 1909 Indian quarter eagle is the third-rarest date of the series in terms of total number of specimens known. This lovely example displays attractive eye appeal, with a bold strike and great color. PCGS# 7940, NGC ID# 288Z, CoinPlex ID# I2M1909
- 6965 1909 MS64 NGC.** Soft, frosty green-gold surfaces display brilliant mint luster on both sides of this Choice Mint State 1909 quarter eagle. A few trivial luster grazes are all that prevent a Gem grade. NGC ID# 288Z, PCGS# 7940, CoinPlex ID# I2M1909
- 6966 1910 MS63 PCGS. CAC.** Mattelike orange-gold surfaces are high-end for the assigned grade, both technically and aesthetically. This boldly struck piece has a single thin mark on the Indian's cheek that largely accounts for the Select designation. PCGS# 7941, NGC ID# 2892, CoinPlex ID# I2M1910
- 6967 1910 MS64+ NGC.** Sharply struck and fully brilliant, this Choice Mint State quarter eagle exhibits frosty mint surfaces with brilliant lemon-yellow color. A few minuscule marks and rim nicks prevent a higher grade. NGC ID# 2892, PCGS# 7941, CoinPlex ID# I2M1910
- 6968 1911 MS64 NGC.** Light peach aspects are most prominent at the upper reverse of an otherwise yellow-gold coin. This pleasing near-Gem shows a few small abrasions, but the all-around eye appeal is solid. NGC ID# 2893, PCGS# 7942, CoinPlex ID# I2M1911
- 6969 1911 MS64 NGC.** Broadly shining apricot-gold luster is the great reward for this near-Gem Indian quarter eagle. The solidly struck obverse presents well, though a dig appears in the field behind the eagle's head. NGC ID# 2893, PCGS# 7942, CoinPlex ID# I2M1911

**1911-D Two and a Half
Attractive AU Sharpness Example**

6970 1911-D — Improperly Cleaned — NGC Details. AU. The surfaces are moderately hairlined on this piece, but in compensation there are few abrasions noted of any size, and the noted cleaning is not overly distracting. The attractive apricot-gold color and the 1911-D's status as a perennial-favorite key date ensure its appeal to many bidders. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

**1911-D Quarter Eagle, AU55
A Pleasing Key-Date Example**

6973 1911-D AU55 ANACS. This Choice AU key-date representative displays just slight wear on the high points, leaving strong definition on the design elements. Both sides have pleasing peach-gold coloration and ample luster. The D mintmark shows but is not bold. All in all, a nice example of this key date. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

Pursued 1911-D Quarter Eagle, AU Details

6971 1911-D — Cleaned — ANACS. AU50 Details. The Denver mintmark has low relief but its broad outline is complete. This moderately circulated key date example is luminous from cleaning but the almond-gold surfaces show few marks. The Indian two and a half is the only pre-1933 Federal gold series that can be completed by date and mintmark by the collector of average means. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

**1911-D Two and a Half, AU58
Key Issue in the Indian Quarter Eagle Series**

6974 1911-D AU58 NGC. The AU58 grade level for the 1911-D quarter eagle is the perfect one for collectors assembling an otherwise Mint State set without the expense associated with this key issue. The present example boasts soft, glowing luster over orange-gold surfaces with just a whisper of high-point rub. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

**AU Sharpness Strong D
1911-D Two and a Half**

6972 1911-D Strong D — Cleaning — PCGS Genuine. AU Details. The Denver mintmark is sharp on this series key quarter eagle. The neck plumage and headdress show a trace of wear, and the surfaces are slightly glossy and mildly hairlined from a wipe. Abrasions are missing except for a single thin line between the final two stars. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

**Satiny 1911-D Quarter Eagle
Strong D Mintmark**

6975 1911-D AU58 PCGS. This satiny near-Mint specimen has a few trivial marks and hairlines on its rich honey-gold surfaces, retaining nearly full luster. The mintmark is sharp and complete. The present sale offers collectors with a choice of several examples of this key issue. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

1911-D Quarter Eagle, AU58
Lustrous Lemon-Yellow Surfaces

- 6976** 1911-D AU58 NGC. Both sides of this near-Mint specimen have minor surface marks, including trivial rim marks at the lower left reverse, although they fail to disturb the bold D mintmark on this example. Lustrous lemon-yellow surfaces show only a trace of high-point wear. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

Borderline Uncirculated 1911-D Quarter Eagle Δ490

Strong D, Vibrant Mint Luster

- 6977** 1911-D AU58 PCGS Secure. The 1911-D is the rarest and most sought-after issue of the Indian quarter eagle series. This sharply detailed near-Mint example displays vibrant mint luster on both sides and the light orange-gold surfaces show only a few minor abrasions, with outstanding visual appeal for the grade. The Strong D mintmark adds to the desirability of this specimen. *From The Ives Devos Collection.* PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

Borderline Uncirculated 1911-D Quarter Eagle, AU58
Bold Mintmark

- 6978** 1911-D AU58 PCGS. CAC. The mintmark is bold on this lovely near-Mint quarter eagle key. The 1911-D is famous as the rarity in the Indian quarter eagle series, due to its low mintage of 55,680 coins. The next lowest mintage was 1914, with 240,000 pieces minted. This example has brilliant yellow luster with sharp details and wisps of green and orange toning. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

Uncirculated Details 1911-D Quarter Eagle

- 6979** 1911-D — Improperly Cleaned — NGC Details. Unc. The mintmark is sharp. The NGC disclaimer in this case is harsher than the suspected cleaning, as plenty of eye appeal and collectibility remains on this piece, which shows no sign of wear and is only mildly glossy. There are no visible marks on the khaki-gold surfaces. This key-date quarter eagle should certainly find a warm reception in its next home. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

Scarce Uncirculated Details
1911-D Two and a Half

- 6980** 1911-D — Improperly Cleaned — NGC Details. Unc. A sharp Denver Mintmark and full design definition ensures the demand for this lightly abraded key date quarter eagle. The pumpkin-gold surfaces are moderately luminous but acceptable to many collectors. The 1911-D has by far the lowest production of the type. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

Uncirculated Sharpness
1911-D Two and a Half

- 6981** 1911-D — Damaged, Cleaned — NGC Details. Unc. The yellow-gold surfaces are bright from cleaning and a moderate-size dig shows on the obverse rim at 2 o'clock and on the corresponding part of the reverse. The design features are well defined. A key to the series, the 1911-D is sought by thousands of collectors of the series. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

**Elusive 1911-D Two and a Half
Uncirculated Details**

6982 1911-D — Removed From Jewelry — NGC Details. Unc. The mintmark is distinct. This key date quarter eagle is bright from polishing but has no rim or edge discoloration or damage. Both sides are free from visible marks. The 1911-D has less than one-fourth the mintage of the 1914, the next lowest production from the popular series. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

**Pursued 1911-D Two and a Half
Uncirculated Details**

6983 1911-D — Improperly Cleaned — NGC Details. Unc. A bold Denver mintmark ensures the desirability of this mildly bright but only moderately abraded key date example. The cheekbone shows a slight color change but the strike is sharp with excellent feather detail within the headdress. Satin luster shimmers from design elements. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

**Low-Mintage 1911-D Two and a Half
Uncirculated Sharpness**

6984 1911-D — Cleaning — PCGS Genuine. Unc. Details. Strong D. Careful rotation finally reveals delicate hairlines on the left obverse. Each side has a couple of light pinscratches. However, this well-struck honey-gold key date quarter eagle will satisfy many collectors of the series. The mintmark is sharp, and the devices shimmer with luster. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

**Mint State 1911-D Two and a Half
Object of Ceaseless Demand**

6985 1911-D MS61 NGC. The D mintmark is bold and the surfaces are quite appealing on both sides of this Mint State 1911-D quarter eagle. Deep reddish-orange color complements surfaces that are only lightly sprinkled with grade-consistent marks, largely confined to the reverse. As the low-mintage series key struck in the meager amount of only 55,600 coins, the 1911-D quarter eagle enjoys ceaseless demand. This piece will fit nicely into an otherwise MS62-MS63 set. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

**1911-D Strong D Quarter Eagle, MS62
Remarkably Strong Strike Overall**

6986 1911-D Strong D MS62 PCGS. A recent little informal survey we did in our Permanent Auction Archives showed us that at Heritage, at least for a small sample and short duration, the average Mint State 1911-D quarter eagle draws nearly five bidders for each winner. This backs up the 1911-D's long-held notoriety as the low-mintage key to the series — as well as the winner of the high-demand sweepstakes. While it is true that the 1914 and 1914-D quarter eagles may be “nearly as rare” or even rarer in some Mint State grades, many collectors care not a whit about those issues, unless they are actually attempting to assemble a complete set in Uncirculated. The 1914 and 1914-D lack both the demand and the cachet associated with the 1911-D as a result.

This example is strongly struck throughout, not just on the mintmark. However, the mintmark stands boldly above the reverse field. Surprisingly for the grade, there are no obvious or distracting marks on either side. The surfaces deepen to a rich reddish-orange around the margins.

From The Teich Family Collection. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

**1911-D Quarter Eagle, MS62
Nice for the Grade**

6987 1911-D MS62 NGC. With just 55,680 pieces struck, the 1911-D is the lowest-mintage issue in the Indian Head quarter eagle series. The lustrous yellow-gold surfaces of this MS62 example display well struck design features, including uniform definition in the feathers of the headdress. The D mintmark shows clearly, and the few minute marks are inconsequential. This is a rather nice piece for the designated grade. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D

6988 1912 MS63 PCGS. Subtle hints of olive-green appear on both sides of this example. A lovely Select Mint State coin that features straw-gold surfaces, this specimen has only minor surface marks. PCGS# 7944, NGC ID# 2896, CoinPlex ID# I2M1912

6989 1912 MS63 NGC. This is a lovely orange-gold Select example of this scarcer Indian quarter eagle issue. The strike is sharp and there are no detractors. NGC ID# 2896, PCGS# 7944, CoinPlex ID# I2M1912

**1912 Quarter Eagle, MS64+
Gorgeous Honey-Gold Surfaces**

6990 1912 MS64+ NGC. The 1912 is surprisingly scarce given its 616,000-coin mintage, the third-highest in the series. This gorgeous honey-gold high-end near-Gem displays bold design motifs and attractive luster with hints of olive-green. The surfaces reveal only minor marks. Census: 9 in 64+, 60 finer (12/12). NGC ID# 2896, PCGS# 7944, CoinPlex ID# I2M1912

6991 1913 MS64 NGC. CAC. This yellow-gold near-Gem displays well defined design elements, including the eagle's shoulder feathers. A couple of unobtrusive marks on the lustrous surfaces preclude Gem status. NGC ID# 2897, PCGS# 7945, CoinPlex ID# I2M1913

6992 1914 MS62 NGC. Scattered surface marks on each side of this frosty yellow-gold quarter eagle limit the grade. The strike is sharp and eye appeal is excellent. NGC ID# 2898, PCGS# 7946, CoinPlex ID# I2M1914

6993 1914 MS62 NGC. Great color, boldly struck design details, and lustrous surfaces combine for attractive eye appeal on this representative from a low-mintage issue. Several surface marks consistent with the grade appear on each side. NGC ID# 2898, PCGS# 7946, CoinPlex ID# I2M1914

6994 1914 MS62 NGC. From a mintage of 240,000 pieces, the 1914 Indian quarter eagle is the second-scarcest date of the series. This lovely example displays pleasing greenish-gold surfaces. NGC ID# 2898, PCGS# 7946, CoinPlex ID# I2M1914

Lovely 1914 Quarter Eagle, MS63

6995 1914 MS63 PCGS. A bold strike and minimal abrasions add to the eye appeal of this lovely piece. Hints of red, olive-green, and orange appear on the reverse of this Select example. The surfaces exhibit minimal contact marks. Interestingly, the recessed design led some members of the public to incorrectly fear these coins would be a greater repository for germs. PCGS# 7946, NGC ID# 2898, CoinPlex ID# I2M1914

**Beautifully Toned 1914 Two and a Half
Vibrant Near-Gem Example**

6996 1914 MS64 PCGS. A desirable near-Gem representative, this piece displays vibrant intermingled toning in shades of rich orange, peach, light ice-green and silver. The bold accents of color further accentuate the boldly-impressed design elements, creating tremendous visual appeal. PCGS# 7946, NGC ID# 2898, CoinPlex ID# I2M1914

6997 1914-D MS63 PCGS. A lovely Select Mint State example of this scarcer date D-mint Indian, this piece displays excellent detail. Both sides of this lustrous coin exhibit attractive light gold surfaces. PCGS# 7947, NGC ID# 2899, CoinPlex ID# I2M1914D

6998 1914-D MS63 NGC. Distinctive rims, as seen on this example, are a characteristic of all 1914-D quarter eagles. This Select Mint State example displays flashy surfaces. NGC ID# 2899, PCGS# 7947, CoinPlex ID# I2M1914D

**1914-D Quarter Eagle, MS64
Challenging Any Finer**

6999 1914-D MS64 PCGS. CAC. The 1914-D quarter eagle, from a mintage of 448,000 pieces, is relatively available through near-Gem, but is challenging any finer. A melange of pumpkin-gold, mint-green, and lavender patination visits the lustrous surfaces of this MS64 example. The design elements are well brought up, including the eagle's leg and shoulder feathers, areas that are frequently weak. There are no marks worthy of mention. PCGS has seen 41 coins finer. PCGS# 7947, NGC ID# 2899, CoinPlex ID# I2M1914D

**Choice 1914-D Two and a Half
Rich Orange-Gold Toning**

7000 1914-D MS64 PCGS. CAC. Rich orange-gold and olive shades ensure the originality of this crisply struck and coruscating near-Gem. The mintmark is deeply entered, and neither side shows any abrasions. An exceptional example of a better date, and a good value relative to the few pieces graded finer. Encased in a green label holder. PCGS# 7947, NGC ID# 2899, CoinPlex ID# I2M1914D

7001 1915 MS64 NGC. Prevailing khaki-gold color cedes near the rims and in the incused devices to deeper, rich golden-orange color, to beautiful effect. The surfaces show few mentionable marks, in keeping with the near-Gem grade. NGC ID# 289A, PCGS# 7948, CoinPlex ID# I2M1915

**Gem 1915 Two and a Half
Green Label Holder**

7002 1915 MS65 PCGS. Predominantly peach-gold but the margins exhibit sea-green patina. A nicely struck and minimally abraded Gem distinguished by a slender vertical toning streak through the Indian's nose. The final issue for ten years since the denomination was inconvenient for large-scale foreign trade payments. Encapsulated in a green label holder. As of (11/12), PCGS has certified just five coins in higher grades. PCGS# 7948, NGC ID# 289A, CoinPlex ID# I2M1915

Patinated 1915 Quarter Eagle, MS65

7003 1915 MS65 PCGS. Pumpkin-gold and apple-green compete for territory throughout this satiny and well defined Gem. Marks are absent save for a single faint horizontal line near star 11. There is no shortage of Uncirculated 1915 quarter eagles in the numismatic marketplace, but only a tiny percentage of those pieces meet the rigorous standards of the MS65 grade. Housed in a green label holder. PCGS# 7948, NGC ID# 289A, CoinPlex ID# I2M1915

Gorgeous Gem 1915 Quarter Eagle

7004 1915 MS65 NGC. The surfaces are virtually pristine on this Gem, providing this example with tremendous eye appeal. Beautiful apricot-gold color and attractive luster appear. The design is boldly impressed, displaying exceptional detail. The 1915 quarter eagle is a median issue within the series, neither rare nor common. However, Gem examples are quite elusive, and anything finer is a notable rarity. Census: (4 in 65+), 7 finer (12/12). NGC ID# 289A, PCGS# 7948, CoinPlex ID# I2M1915

7005 1925-D MS65 NGC. Generous orange overtones across an apricot base. The 1925-D, which this Gem represents, was the first quarter eagle issue struck after the post-1915 hiatus and the last of the denomination at Denver. NGC ID# 289B, PCGS# 7949, CoinPlex ID# I2M1925D

**1926 Quarter Eagle, MS65
Vivid Two-Toned Surfaces**

7006 1926 MS65 PCGS. The 1926 Indian quarter eagle is an available issue in high grade, making the date a favorite choice of type collectors. The design elements of this impressive Gem are sharply detailed throughout, and the lustrous surfaces display vivid shades of green and rose-gold patina. From *The Richard P. Ariagno, M.D. Collection*. PCGS# 7950, NGC ID# 289C, CoinPlex ID# I2M1926

7007 1927 MS64 PCGS. CAC. This near-Gem has frosty yellow-gold luster with splashes of deeper lemon and a few small violet toning spots. An impressive example with trivial marks on its surfaces. *From The Teich Family Collection.* PCGS# 7951, NGC ID# 289D, CoinPlex ID# I2M1927

7008 1927 MS65 PCGS. Variegated deep apricot and mint-green luster exudes from the well preserved surfaces of this Gem. A solid strike imparts strong detail to the design elements. Finer specimens are highly elusive. PCGS# 7951, NGC ID# 289D, CoinPlex ID# I2M1927

7009 1929 MS64 NGC. CAC. The last of the Indian quarter eagle issues, represented by a near-Gem with broadly canary-gold luster that has tinges of apricot. Delicate reed marks at the upper reverse preclude Gem status. NGC ID# 289F, PCGS# 7953, CoinPlex ID# I2M1929

PROOF INDIAN QUARTER EAGLES

1908 Quarter Eagle, PR58 Popular as First Year of Issue

7010 1908 PR58 PCGS. The 1908 proof quarter eagle was struck using the heavy matte texture, and is popular as the first year of issue. Both sides of this PR58 specimen display yellow-gold color, and the design elements are quite well defined, save for the eagle's shoulder feathers. The only noticeable mark occurs below the U of TRUST, and it is not all that bad. Each side exhibits a partial wire rim. PCGS# 7957, NGC ID# 289G, CoinPlex ID# I2P1908

Matte Proof 1912 Two and a Half Uncirculated Details

7011 1912 — Altered Surfaces — Genuine PCGS. Proof, Unc. Details. One of only 197 proofs struck, the present specimen displays the finely grained surfaces characteristic of a matte Indian quarter eagle. A couple of faint hairlines are on the upper left reverse field but there are no other detractors. The strike is precise, as expected for the issue. PCGS# 7961, NGC ID# 289L, CoinPlex ID# I2P1912

Rare 1913 Quarter Eagle, PR58 Highly Attractive

7012 1913 PR58 PCGS Secure. The surface texture and finish of the 1912 and 1913 proof quarter eagles display a fine sandblast texture that reflects light with reflective microscopic facets. This differs considerably from the darker matte finish of the 1911. As a date, the 1913 proof is considered rare, with about 90 examples graded by PCGS and NGC combined, some of which are likely resubmissions. The bright orange-gold surfaces of this PR58 specimen exhibit well defined design elements. Magnification brings out a few unobtrusive marks in the left reverse field. This is a highly attractive coin for a proof that has seen slight circulation. PCGS# 7962, NGC ID# 289M, CoinPlex ID# I2P1913

THREE DOLLAR GOLD PIECES

7013 1854 AU55 PCGS. A one-year subtype of the denomination with small reverse letters. All later issues had taller letters in DOLLARS. This Choice AU specimen has blue-green overtones on its lustrous yellow surfaces. *From The Gensch Numismatic Trust Collection.* PCGS# 7969, NGC ID# 25M3, CoinPlex ID# G3M1854

7014 1854 AU58 PCGS. A lightly rubbed example of this first-year three dollar gold issue. Orange surfaces have bright luster through the fields and the occasional yellow accent. If this coin saw circulation, it served its original purpose far more than many of the pieces that followed. PCGS# 7969, NGC ID# 25M3, CoinPlex ID# G3M1854

7015 1854 — Cleaning — PCGS Genuine. UNC Details. The first year of issue, and this Mint State piece has brilliant yellow luster with faint hairlines suggesting that it was once or twice cleaned. An attractive piece that will provide a nice coin at a reasonable price. PCGS# 7969, NGC ID# 25M3, CoinPlex ID# G3M1854

1854-D Three Dollar, AU Details

- 7016 1854-D — Altered Surfaces — Genuine PCGS. AU Details.** When a collector stops to think about it, the 1854-D three dollar gold issue has much in common with the 1851-O three cent silver issue. Both are odd-denomination issues; both are branch mint issues from the first year of a new series; and both are one-offs, struck only in the first year and not followed up with later strikings in the series.

The differences, however, are crucial. While the 1851-O three cent silver saw a moderate mintage that makes it occasionally available even in high grade, nothing could be further from the truth where the 1854-D three is concerned. The low mintage of 1,120 pieces was struck at a time when few collectors even *knew* about mintmarks, much less collected according to their presence or absence on coins, and few were set aside for posterity. This AU PCGS example has surfaces that are a bit too bright, but the alteration mentioned on the insert is not immediately apparent. Surprisingly well struck. PCGS# 7970, NGC ID# 25M4, CoinPlex ID# G3M1854D

- 7017 1854-O — Improperly Cleaned — NGC Details. AU. Variety 1.** This New Orleans type coin is mildly bright from a wipe but has ample luster and bold design detail. Marks are absent aside from a hair-thin line near Liberty's mouth and a small dig above the bust tip. NGC ID# 25M5, PCGS# 7971, CoinPlex ID# G3M1854O

- 7018 1854-O — Scratch — PCGS Genuine. AU Details. Variety 2.** The field near the upper right wreath end shows faded pinscratches. Lesser marks are noted near the IT in UNITED. The strike-through near the TA in STATES is of mint origin. The remaining luster is yellow-gold, while the fields and high points are olive-gray. PCGS# 7971, NGC ID# 25M5, CoinPlex ID# G3M1854O

- 7019 1854-O — Improperly Cleaned — NGC Details. AU. Variety 1.** The scarcer die state with full detail on the wreath ribbon. This yellow-gold example is bright and the fields display wispy pinscratches. One mint-made retained lamination at 3 o'clock on the reverse. NGC ID# 25M5, PCGS# 7971, CoinPlex ID# G3M1854O

Lovely Near-Mint 1854-O Three Dollar Lapped Reverse, Variety 2

- 7020 1854-O AU58 NGC. Variety 2.** The near-Mint State grade of the present 1854-O three dollar puts it in the small minority of survivors, as most certified examples grade no better than Choice XF. This piece is one of 89 submissions in this grade at NGC, including a sure but unknown number of duplications, and there are 19 finer (12/12). The sandy-gold surfaces on this piece are still quite lustrous, and the strike is bold overall, save for the lapped bow on the wreath that signifies the commoner Variety 2, actually a die state. A few stray obverse marks are strictly in concert with the grade. Despite the moderate mintage of 24,000 coins, the New Orleans Mint would never follow up with a second O-mint three dollar issue. This is a lovely high-end example for the grade. NGC ID# 25M5, PCGS# 7971, CoinPlex ID# G3M1854O

1855-S Three Dollar Gold, XF45
Low-Mintage, Heavily Circulated Issue

7021 1855-S XF45 NGC. The San Francisco Mint coined a small total of 6,600 three dollar gold pieces in 1855, in its second year of operations. The issue circulated extensively for many years, and most examples seen are in the VF grade range. This Choice XF specimen retains most of its original design detail and the lightly abraded yellow-gold surfaces show prooflike reflectivity in sheltered areas. Census: 45 in 45, 55 finer (11/12).
From The Ives Devos Collection. NGC ID# 25M7, PCGS# 7973, CoinPlex ID# G3M1855S

7022 1856 AU55 NGC. CAC. A lovely example with only a trace of wear on the high points, this 1856 retains nearly full luster on its brilliant light yellow surfaces. Scattered inconsequential marks are evident on each side.
From The Richmond Hill Collection. NGC ID# 25M8, PCGS# 7974, CoinPlex ID# G3M1856

7023 1856-S XF40 NGC. CAC. Small S. The scarcer mintmark size variety. Light orange and lavender overtones grace this faintly luminous San Francisco three. Distinctly worn with a couple of copper spots but surprisingly few abrasions of individual significance. NGC ID# 25M9, PCGS# 7975, CoinPlex ID# G3M1856S

7024 1856-S — Improperly Cleaned — NGC Details. AU. Medium S. Orange-gold surfaces reveal wispy hairlines under magnification. This is a well struck pieces save for softness on the bow knot. NGC ID# 25M9, PCGS# 7975, CoinPlex ID# G3M1856S

Smooth 1856-S Three Dollar, AU53

7025 1856-S AU53 NGC. Medium S. A smooth green-gold S-mint three dollar piece. The devices show slight wear but luster dominates the legends. One small obverse rim mark at 4 o'clock will identify this example in other appearances. San Francisco was the only branch mint to strike the denomination after 1854. NGC ID# 25M9, PCGS# 7975, CoinPlex ID# G3M1856S

1856-S Three Dollar, AU53
Medium S Mintmark

7026 1856-S AU53 PCGS. Medium S. Excluding the unique 1870-S, there are only four San Francisco issues of the three dollar denomination. All are scarce to rare, with the 1856-S in the former category. The present wheat-gold example has light wear but is minimally marked and shows luster across the legends, wreath, and headdress. PCGS# 7975, NGC ID# 25M9, CoinPlex ID# G3M1856S

Choice AU 1856-S Three Dollar
Medium S

7027 1856-S AU55 NGC. Medium S. The most available of the few San Francisco issues of the denomination, the 1856-S is nonetheless rare in Mint State. Most collectors settle for an XF or AU example. The present straw-gold Choice AU representative displays flashy luster within the legends, wreath, and coronet. The surfaces are uncommonly smooth save for a single thin mark behind Liberty's neck. NGC ID# 25M9, PCGS# 7975, CoinPlex ID# G3M1856S

7028 1857-S XF40 NGC. Yellow-gold and tan-gold patina resides on both sides of this XF three dollar, each of which shows wear on the high points. The few minute marks are unbothersome. NGC ID# 25MB, PCGS# 7977, CoinPlex ID# G3M1857S

7029 1857-S XF40 NGC. The peach-gold surfaces of this XF40 three dollar display luster in the protected areas. This is a well defined and minimally marked piece. NGC ID# 25MB, PCGS# 7977, CoinPlex ID# G3M1857S

1858 Three Dollar Gold, AU53
Elusive Low-Mintage Date

- 7030 1858 AU53 PCGS.** The 1858 three dollar gold piece is one of the most challenging issues of the decade, from a low mintage of 2,133 pieces. This attractive AU53 specimen shows just a touch of wear on the well-detailed design elements and the lightly abraded orange-gold surfaces show pleasing highlights of rose color. Population: 23 in 53, 38 finer (12/12). PCGS# 7978, NGC ID# 25MC, CoinPlex ID# G3M1858

Select 1859 Three Dollar Gold
Seldom Encountered in Finer Grades

- 7031 1859 MS63 PCGS Secure.** Only 15,558 three dollar gold pieces were struck at the Philadelphia Mint in 1859, making Mint State examples quite rare in today's market. This attractive Select specimen displays well-detailed design elements and well-preserved yellow and rose-gold surfaces. Strong satiny mint luster mixes with areas of prooflike reflectivity on both sides. Population: 31 in 63 (1 in 63+), 21 finer (12/12). PCGS# 7979, NGC ID# 25MD, CoinPlex ID# G3M1859

-
- 7032 1860 — Improperly Cleaned — NGC Details. Unc.** Pink-gold luster illuminates design elements of this nicely struck representative. The fields and high points are lime-green. The obverse displays faint horizontal hairlines. Only 7,036 pieces were struck, and relatively few were set aside by local numismatists. Ex: *Public Auction Sale (Stack's, 12/1971)*, lot 823. From *The Richmond Hill Collection*. NGC ID# 25ME, PCGS# 7980, CoinPlex ID# G3M1860

1860 Three Dollar, MS63
Only Five Finer Coins at NGC

- 7033 1860 MS63 NGC.** Unlike many later dates in the three dollar gold series, the 1860 seems to have circulated extensively at the time of issue. As a result, the date is even more difficult to locate than the small mintage of 7,036 pieces suggests. This well-detailed Select specimen displays pleasing yellow-gold surfaces with vibrant satiny mint luster. Census: 13 in 63, 5 finer (11/12). From *The Ives Devos Collection*. NGC ID# 25ME, PCGS# 7980, CoinPlex ID# G3M1860
-
- 7034 1860-S XF40 NGC.** An important opportunity for the advanced collector, this scarce S-Mint three dollar gold piece exhibits noticeable luster with splashes of orange toning on its yellow-gold surfaces. NGC ID# 25MF, PCGS# 7981, CoinPlex ID# G3M1860S
- 7035 1860-S XF40 NGC.** The 1860-S is the rarest of the early San Francisco Mint three dollar coins. The issue circulated extensively with few put aside by collectors. Even circulated pieces are rare, and most of these are below the AU level. The bright brassy-gold surfaces of this XF40 specimen are well defined except for high-point wear, and are minimally abraded for a coin having seen a degree of circulation. NGC ID# 25MF, PCGS# 7981, CoinPlex ID# G3M1860S

**Choice AU 1860-S Three Dollar
Very Rare in Higher Grades**

- 7036 1860-S AU55 PCGS.** The 1860-S three dollar gold piece is much more difficult to locate than its reported mintage of 7,000 pieces would suggest. It is likely that a large portion of the mintage was never distributed, as many examples were found to be underweight. This attractive Choice AU specimen offers well-detailed design elements and vivid orange-gold surfaces that show prooflike reflectivity in sheltered areas. Population: 9 in 55, 10 finer (11/12). PCGS# 7981, NGC ID# 25MF, CoinPlex ID# G3M1860S

**1860-S Three Dollar, AU55
Low-Mintage San Francisco Issue**

- 7037 1860-S AU55 PCGS.** This is the final S-mint in the three dollar gold piece, and has a low mintage of only 7,000 pieces, making it a scarce and valuable date. Over a third of that number are believed to have been melted as underweight in 1869. This lightly circulated example retains much of its original semireflective flash and has a few varying sized marks on the obverse from its short stay in commerce. Population: 9 in 55, 10 finer (11/12).
Ex: Long Beach Signature (Heritage, 9/2003), lot 7881.
From The Flagg Family Collection. PCGS# 7981, NGC ID# 25MF, CoinPlex ID# G3M1860S

**1860-S Three Dollar, AU58
Extremely Rare Any Finer**

- 7038 1860-S AU58 NGC.** The 1860-S three dollar saw a mintage of 7,000 pieces, nearly 2,600 of which were melted because they were found to be lightweight. Somewhat more than 100 coins are believed to exist, with Very Fine being the standard grade. About Uncirculated examples are very elusive, and a mere four or five Mint State specimens are estimated to have survived.
The present near-Mint State example displays generous luster on its brass-gold surfaces that are imbued with traces of apricot and mint-green. The design elements are well defined save for some softness in Liberty's hair, a typical characteristic of the issue. A few minute marks take nothing from the coin's overall eye appeal. Census: 19 in 58, 4 finer (11/12).
From The Ives Devos Collection. NGC ID# 25MF, PCGS# 7981, CoinPlex ID# G3M1860S

1862 Three Dollar, AU55
Minimal Evidence of Handling

- 7039 1862 AU55 PCGS.** The 1862 three dollar is scarce in all grades due to the low mintage of 5,750 circulation strikes and wartime hoarding of all gold and silver coins during the Civil War. An estimated 160 to 210 coins are believed known in circulated grades, most of which are in lower grades than this Choice AU. Each side has rich orange-gold color. Because little of the original finish has been worn away, there are significant die striations of the kind always seen in the fields of 1862 threes. Small abrasions are scattered about. PCGS# 7983, NGC ID# 25MH, CoinPlex ID# G3M1862

Attractive 1863 Three Dollar, AU58
Scarce in All Grades

- 7042 1863 AU58 NGC.** As the relatively low mintage of 5,000 circulation strikes would seem to indicate, the 1863 three dollar piece is scarce in all grades. The yellow-gold surfaces of this near-Mint State specimen retain a generous amount of luster in the protected areas, and the design features are generally well defined, including the lower-left wreath, an area usually weakly struck. This is an attractive example of this elusive issue and worthy of a generous bid. NGC ID# 25MJ, PCGS# 7984, CoinPlex ID# G3M1863

MS62 1862 Three Dollar Gold
Civil War Issue

- 7040 1862 MS62 PCGS Secure. CAC.** Only 5,750 three dollar gold pieces were struck in 1862, and the issue is rare in all Mint State grades today. This impressive MS62 example is well-detailed and lustrous, with pleasing orange and rose-gold surfaces that show only minor marks. Population: 15 in 62, 28 finer (12/12). PCGS# 7983, NGC ID# 25MH, CoinPlex ID# G3M1862

Choice AU 1864 Three Dollar Gold
Low-Mintage Civil War Issue

- 7043 1864 AU55 PCGS. CAC.** The 1864 three dollar gold piece is an overlooked Civil War era rarity. Of the 2,630 three dollar gold pieces struck in 1864, less than 10% are believed extant today in all grades. Both sides of this piece exhibit a very similar look in terms of color and surfaces, creating attractive overall eye appeal. Population: 26 in 55, 49 finer (12/12). PCGS# 7985, NGC ID# 25MK, CoinPlex ID# G3M1864

1863 Three Dollar, AU55
Prominent Die Clashing

- 7041 1863 AU55 NGC.** This Choice AU Civil War date retains significant portions of the original mint frost this issue is so well known for in Uncirculated grades. Most examples, including this one, show prominent die clashing on each side. In fact, examination shows the dies were double clash with a slight rotation between. The orange-gold surfaces show numerous but light abrasions. NGC ID# 25MJ, PCGS# 7984, CoinPlex ID# G3M1863

- 7044 1866 AU55 NGC.** Like almost all post-Civil War three dollar gold issues, the 1866 starts with a low mintage and rarely changes hands, generally trading only among odd-denomination devotees. This Choice AU example should make a welcome addition to a similarly graded date set, with ample remaining luster in the butter-yellow fields and only occasional hints of peripheral alloy. Well struck and attractive.
From The Grand Lake Collection. NGC ID# 25MM, PCGS# 7987, CoinPlex ID# G3M1866

1866 Three Dollar, AU58
Pleasing Eye Appeal

- 7045 1866 AU58 PCGS.** The 1866 three dollar gold piece has a production of just 4,000 business strikes, of which only 200 or so are believed to exist. Attractively toned orange-gold surfaces retain ample luster and all design elements exhibit sharp detail. A few unobtrusive marks do not detract from the coin's overall pleasing eye appeal. PCGS# 7987, NGC ID# 25MM, CoinPlex ID# G3M1866

1866 Three Dollar Gold, MS61
Rare Issue in Higher Grades

- 7046 1866 MS61 NGC.** A scarce Uncirculated survivor from the original mintage of only 4,000 coins. Pumpkin-orange and straw-gold shades compete for territory both sides. Marks are limited to a few thin abrasions in the fields. Although later dates were set aside in number by Philadelphia-area dealers, the 1866 was little saved, with only two pieces reported by NGC in grades above MS63. Census: 24 in 61, 16 finer (11/12).
From The Ives Devos Collection. NGC ID# 25MM, PCGS# 7987, CoinPlex ID# G3M1866

Near-Mint 1867 Three Dollar
Reflective Fields

- 7047 1867 AU58 NGC. CAC.** Pale yellow luster is broadly reflective despite a degree of rub on the highest design elements. Small planchet flaws and a curved mark near the rim are visible at the lower obverse, but the reverse is relatively clean. Great all-around eye appeal for a tough post-Civil War issue. Census: 44 in 58, 26 finer (11/12). NGC ID# 25MN, PCGS# 7988, CoinPlex ID# G3M1867

- 7048 1868 AU55 PCGS.** Ample orange-gold luster illuminates the legends of this better date three. Minor field marks correspond to brief circulation. From a low business strike mintage of 4,850 pieces. Karl Stecher, Sr. purchased this piece from the Gutttag Bros. of New York during the 1930s. A Gutttag Bros. envelope with notation "1868 Three Dollar Gold V. fine" accompanies the lot.
Ex: Stecher Collection (Heritage, 5/2007), lot 1848, which realized \$2,300. PCGS# 7989, NGC ID# 25MP, CoinPlex ID# G3M1868

1869 Three Dollar, MS62
Nice Field-Motif Contrast

- 7049 1869 MS62 PCGS.** Both sides of this 1869 three dollar piece display somewhat prooflike fields that yield nice contrast the motifs, especially when the coin is tilted just slightly under a light source. Sharp detail on the design elements further enhances the coin's eye appeal, as does the relative lack of noticeable marks. The 1869, from a mintage of just 2,500 business strikes, is rare in all grades. All in all, this is a great coin for the designated grade. PCGS# 7990, NGC ID# 25MR, CoinPlex ID# G3M1869

1870 Three Dollar Gold, AU58

- 7050 1870 AU58 NGC. CAC.** Though understandably overshadowed by its unique S-mint counterpart, the Philadelphia 1870 three dollar gold piece is elusive in its own right. This pale yellow-gold example retains attractive luster and displays just a touch of rub on portions of the devices. Census: 86 in 58, 27 finer (12/12). NGC ID# 25MS, PCGS# 7991, CoinPlex ID# G3M1870

Mint State 1870 Three Dollar Gold
Scarce Low-Mintage Issue

- 7051 1870 MS61 NGC.** From a business-strike mintage of 3,500 pieces, the 1870 three dollar gold piece is scarce-to-rare in all grades. This attractive Mint State specimen features well-detailed design elements and prooflike greenish-gold fields that show only minor signs of contact. Census: 15 in 61, 11 finer (11/12).
From The Ives Devos Collection. NGC ID# 25MS, PCGS# 7991, CoinPlex ID# G3M1870

7052 1874 AU55 PCGS. CAC Gold Label. Housed in a green-label PCGS holder, this high-mintage 1874 three dollar gold piece has impressive honey-gold surfaces with frosty mint luster and traces of wear on the high points. Both sides have exceptional surfaces with minimal marks.

From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 7998, NGC ID# 25MX, CoinPlex ID# G3M1874

7053 1874 AU58 NGC. CAC. Faint traces of rose toning reside on the lustrous yellow surfaces of this brilliant three dollar piece. The third highest mintage of the denomination means that examples are always available to date and type collectors.

From The Ives Devos Collection. NGC ID# 25MX, PCGS# 7998, CoinPlex ID# G3M1874

**1874 Three Dollar, MS62
Excellent Type Coin**

7054 1874 MS62 PCGS. The 1874 three dollar, with a relatively large mintage of 41,800 circulation strikes, is one of the most common dates of the series. One reason for the higher mintage was the destruction and recoinage of old gold coins, mandated in the Mint Act of 1873. The lustrous orange-gold surfaces of this MS62 example exhibit well struck devices save for some localized softness in the wreath. A scattering of light marks determines the grade. This is an excellent coin for a high grade type collection. PCGS# 7998, NGC ID# 25MX, CoinPlex ID# G3M1874

7055 1878 AU58 NGC. This wheat-gold Borderline Uncirculated gold type coin is free from noticeable marks and displays only slight wear on the curls. The reverse is lightly die doubled, visible primarily on the right border of the right-side cotton leaves. NGC ID# 25MZ, PCGS# 8000, CoinPlex ID# G3M1878

7056 1878 AU58 NGC. A wonderful near-Mint example of the 1878 three dollar gold piece, the second highest mintage issue in the series. This piece has a trace of wear on its lustrous light yellow surfaces with scattered marks of little consequence.

From The Flagg Family Collection. NGC ID# 25MZ, PCGS# 8000, CoinPlex ID# G3M1878

**MS62 1878 Three Dollar Gold
Last Type Issue in the Series**

7057 1878 MS62 PCGS. The last of the three great type coin issues in the three dollar series, the 1878 had a mintage about 60% of the prodigious 1874 date; the 1854 is technically a one-year subtype. This MS62 example of the 1878 features a typical appearance with a mix of frosty and reflective surface texture complementing rich luster and attractive orange-gold color. A few scattered contact marks are to be expected. PCGS# 8000, NGC ID# 25MZ, CoinPlex ID# G3M1878

**1878 Three Dollar, MS63
Attractive Luster and Color**

7058 1878 MS63 PCGS. CAC. The 1878 three dollar gold piece is one of the trio of relatively high-mintage dates in the series that type collectors usually seek out when choosing a representative of this odd denomination (the other dates are the 1854 and 1874). This well-detailed Select example displays vibrant mint luster and well-preserved surfaces.

From The Ives Devos Collection. PCGS# 8000, NGC ID# 25MZ, CoinPlex ID# G3M1878

**1879 Select Three Dollar Piece
Highly Attractive Color**

7059 1879 MS63 PCGS. Despite the relatively low mintage of 3,000 business strikes the 1879 shows a fairly large number of Mint State examples, mostly falling into the MS63 to MS64 range, with Gems being very scarce. Both sides of this Select example display highly attractive peach-gold color and semiprooflike fields that yield moderate contrast with the devices, especially when the coin is tilted under a light source. A vertical hairline on Liberty's head is the only mentionable mark. PCGS# 8001, NGC ID# 25N2, CoinPlex ID# G3M1879

**1879 Three Dollar Gold, MS64 Prooflike
Prized Low-Mintage Issue**

7060 1879 MS64 Prooflike NGC. The 1879 three dollar gold piece claims a business-strike mintage of just 3,000 pieces, and it is likely that some of these coins were never distributed. This well-detailed Choice example displays deeply reflective yellow-gold fields, with just a few minor hairlines and contact marks. Census: 12 in 64 Prooflike, 0 finer (11/12).

From The Ives Devos Collection. PCGS# 78001

Near-Mint State 1880 Three Dollar
Well Struck and Semiprooflike

- 7061 1880 AU58 PCGS. With 1,000 circulation strikes produced, the 1880 three dollar has one of the lowest mintages in the entire series. This near-Mint State example displays semiprooflike fields that offer relatively strong contrast with the devices. Blushes of soft purple and lilac, especially on the obverse, reside on the orange-gold surfaces. This is a well struck specimen that is devoid of mentionable marks. PCGS# 8002, NGC ID# 25N3, CoinPlex ID# G3M1880

1881 Three Dollar, AU58
Mintage 500 Business Strikes

- 7062 1881 AU58 NGC. By 1881 the three dollar gold piece was not a circulating coin, though 500 business strikes were produced that year. This lightly rubbed example is ideal for the date collector looking for a piece in the AU-Mint State range. Significant reflectivity remains in striking yellow-gold fields. Census: 32 in 58, 34 finer (11/12). NGC ID# 25N4, PCGS# 8003, CoinPlex ID# G3M1881

1881 Three Dollar, MS63
Only 500 Pieces Struck

- 7063 1881 MS63 NGC. This attractive three dollar gold piece shows the reflective surfaces usually seen on this low-production three dollar. The surfaces display minimal abrasions for the grade, just a few wispy marks scattered about. Only 500 business strikes were originally produced, the lowest production run in the series. All were struck at one time and delivered in one group in June or July. Between 20 and 30 individual pieces are believed to exist today in mint condition, and few are known in higher grades. Census: 8 in 63, 3 finer (11/12).
Ex: Long Beach Signature (Heritage, 9/2003), lot 7897.
From The Flagg Family Collection. NGC ID# 25N4, PCGS# 8003, CoinPlex ID# G3M1881
-

**Near-Gem 1881 Three Dollar
One of 500 Business Strikes**

- 7064 1881 MS64 PCGS.** Of all three dollar gold issues produced in business-strike format, the 1881 has the second-lowest mintage, after the unique 1870-S, at just 500 pieces struck. It is among the most challenging accessible issues, and while its price does not rival, for example, the 1854-D three dollar, it is a recognizably difficult date for even dedicated collectors to find. This near-Gem has bold semireflective luster, though the yellow-gold devices have just enough striking softness to dispel suggestions of proof status. Reed marks just to the left of Liberty's neck contribute to the grade, but the coin is practically a Gem otherwise. Population: 6 in 64, 1 finer (12/12). PCGS# 8003, NGC ID# 25N4, CoinPlex ID# G3M1881

- 7065 1882 — Surface Damage — PCGS Genuine.** In our opinion, this coin has the details of an AU specimen that is scratched. The scratch is relatively short but is deep and passes vertically through the 2 in the date. Otherwise unabraded save for faint marks on the upper left obverse field. The honey-gold surfaces display substantial luster. Just 1,500 pieces were struck. PCGS# 8004, NGC ID# 25N5, CoinPlex ID# G3M1882

**1882 Three Dollar, MS61
Low-Mintage, High-Survival Date**

- 7066 1882 MS61 ANACS.** Both sides of this 1882 three dollar piece exhibit lustrous yellow-gold surfaces imbued with traces of soft mint-green patina. The design elements show some areas of softness, especially in portions of Liberty's hair and the wreath. A couple of minute spots are noted on the lower reverse. While the 1882 is a low-mintage date (1,500 circulation strikes), a relatively large number have survived in Mint State grades.
From The Ives Devos Collection. NGC ID# 25N5, PCGS# 8004, CoinPlex ID# G3M1882

**1882 Three Dollar, MS62
Excellent Eye Appeal**

- 7067 1882 MS62 PCGS.** Well-struck design features appear to float over the partially prooflike fields when the coin is rotated under a light source, and both sides display attractive yellow-gold color imbued with splashes of lavender and ice-blue. Some insignificant hairlines in the obverse fields account for the grade. That said, the coin's overall eye appeal appears to transcend the MS62 grade level. PCGS# 8004, NGC ID# 25N5, CoinPlex ID# G3M1882

Attractive 1883 Three Dollar, MS62
Elusive in Mint State

- 7068 **1883 MS62 NGC.** A good number of the 900 1883 three dollar circulation strikes has survived to the present day, mostly in AU grade. Mint State coins, such as the present MS62 specimen, are more elusive. Yellow-gold partially prooflike surfaces display splashes of apricot at the borders. The design elements are well impressed and neither side reveals significant marks. An attractive piece for the designated grade. NGC ID# 25N6, PCGS# 8005, CoinPlex ID# G3M1883

1883 Three Dollar Gold, MS62
Low-Mintage Collector Favorite

- 7069 **1883 MS62 PCGS.** Well known for its low mintage of just 900 pieces, the 1883 three dollar gold piece is a scarce date, but not as rare as the tiny production figure would indicate. The present coin is a sharply detailed MS62 specimen, with mirrored prooflike fields that show both green and orange-gold color. Population: 36 in 62, 56 finer (11/12).
From The Ives Devos Collection. PCGS# 8005, NGC ID# 25N6, CoinPlex ID# G3M1883

Select Mint State 1884 Three Dollar
Unusual Color at Obverse Margins

- 7070 **1884 MS63 PCGS.** Partly reflective, as is usual for this issue of just 1,000 business strikes, but the real story of this high-end Select example is its color. Among the gleam of butter-yellow and canary-gold are narrow green and blue bands at the obverse margin, evocative of the copper alloy that hardens the .900 fineness of late 19th century "coin gold." A striking and conditionally elusive representative well-suited for the collector aiming for an all-but complete set of three dollar gold pieces — the unique 1870-S, of course, forever being out of reach. Population: 25 in 63, 33 finer (12/12). PCGS# 8006, NGC ID# 25N7, CoinPlex ID# G3M1884

**Underrated 1885 Three Dollar Gold, MS62
Only 801 Business Strikes Minted**

- 7071 1885 MS62 NGC.** The 1885 three is one of the major, low-mintage rarities in the series from a mintage of just 801 business strikes and 109 proofs. However, it clearly has not realized the high potential that many other three dollar pieces have attained. This example is brilliant with hints of green, sharply struck, and reflective. A delightful example of an underrated issue. Census: 18 in 62, 30 finer (11/12).
From The Ives Devos Collection. NGC ID# 25N8, PCGS# 8007, CoinPlex ID# G3M1885

- 7072 1886 AU50 ANACS.** Generous luster remains on the apricot-gold surfaces of this near-Mint State three dollar, and slight high-point wear minimally affects the design features that were subject to an impressive strike. Scattered circulation marks, consistent with the grade, are visible under magnification. Housed in a small format holder. NGC ID# 25N9, PCGS# 8008, CoinPlex ID# G3M1886

**Near-Mint 1886 Three Dollar
Low Production of 1,000 Pieces**

- 7073 1886 AU58 NGC.** Here is a rare issue with a mintage of only 1,000 circulation strikes. This piece has prooflike surfaces with a trace of cameo contrast. Both sides are lightly marred in the fields, with a trace of highpoint wear. A couple of small marks are evident on Liberty's jaw. Census: 44 in 58, 40 finer (11/12).
From The Ives Devos Collection. NGC ID# 25N9, PCGS# 8008, CoinPlex ID# G3M1886

**1887 Three Dollar Gold, MS64
Great Eye Appeal**

- 7074 1887 MS64 PCGS. CAC.** The majority of the 6,000 three dollar pieces minted in 1887 likely were melted before they left the Mint. It is estimated that no more than 300 coins, mostly in Mint State, have survived. This near-Gem example displays lustrous yellow-gold surfaces and sharply struck design elements. A few scattered marks visible with a glass precludes Gem classification. Nevertheless, this piece yields great eye appeal. Population: 68 in 64, 33 finer (11/12). PCGS# 8009, NGC ID# 25NA, CoinPlex ID# G3M1887

**1888 Three Dollar, AU58
Above-Average Strike**

- 7075 1888 AU58 NGC. CAC.** Ample luster remains in the protected areas of this near-Mint State three dollar. Both sides display brass-gold color and well struck design elements, including the latter three digits that are often weakly impressed. The few circulation marks do not disturb. The 1888 is one of the most common dates of the series. NGC ID# 25NB, PCGS# 8010, CoinPlex ID# G3M1888

- 7076 1888 — Altered Surfaces — PCGS Genuine. Unc. Details.** The right obverse field is smoothed. A sharply struck and prooflike canary-gold example. From business dies, however, since UNITED is die doubled. Just 5,000 pieces were struck. PCGS# 8010, NGC ID# 25NB, CoinPlex ID# G3M1888

**1889 Three Dollar, MS61
Last-Year Issue**

- 7077 1889 MS61 NGC.** The 1889 three dollar gold piece is important to type collectors as the last date of this odd denomination. Date collectors also prize the issue, because of its low mintage of just 2,300 pieces. This lovely example features attractive light gold color with tiny specks of olive-green intermingled. The surface marks are minor, leading to nice eye appeal.
From The Richmond Hill Collection. NGC ID# 25NC, PCGS# 8011, CoinPlex ID# G3M1889

Sharp 1889 Three Dollar, MS61
Final Year in the Series

- 7078 1889 MS61 NGC. CAC. This last year of the three dollar gold piece saw a mintage of 2,300 circulation strikes, many of which were never released. It is estimated that 300 to 400 coins still exist, mostly in Mint State. Lustrous brassy-gold surfaces exhibit a sharp strike. A few light contact marks barely keep this pleasing specimen from a higher grade. In other words, this is a sharp coin for the grade designation. NGC ID# 25NC, PCGS# 8011, CoinPlex ID# G3M1889

PROOF THREE DOLLAR GOLD PIECES

Proof 1881 Three Dollar
Mintage of 54 Pieces

- 7079 1881 — Improperly Cleaned — NGC Details. Proof. Mint records indicate that only 54 proofs were struck. Most survivors sell for five figures when available. However, the present attractive specimen is comparatively affordable due to a light cleaning. Sharply struck and flashy with rich peach-gold toning. The fields display scattered trivial contact. NGC ID# 28AP, PCGS# 8045, CoinPlex ID# G3P1881

Collectible PR58 1888 Three Dollar

- 7080 1888 PR58 PCGS. CAC. A flashy and pinpoint-sharp representative of this elusive proof issue. From proof dies, identified by the date location, which is placed slightly left relative to the also scarce business strikes. Although the present coin momentarily entered circulation, it was soon set aside and is nearly unabraded. Certified in a green label holder.
Ex: Houston Signature (Heritage, 12/2009), lot 1627, which realized \$5,750.
From The Ives Devos Collection. PCGS# 8052, NGC ID# 28AX, CoinPlex ID# G3P1888

EARLY HALF EAGLES

AU Details BD-3 1803/2 Half Eagle

- 7081 1803/2 — Bent — NGC Details. AU. BD-3, R.4. A boldly repunched T in UNITED attributes this scarce early half eagle variety. The present well-defined example shows a slight bend on the left obverse field and is moderately bright from cleaning. The reverse has a small rim ding at 1 o'clock and displays Mint-made adjustment marks near OF and the fletchings.
From The Richmond Hill Collection. NGC ID# 25NY, PCGS# 8084, CoinPlex ID# E5M1803OVR2

AU 1803/2 Half Eagle, BD-3
Original Rich Toning

- 7082 1803/2 AU50 PCGS Secure. BD-3, R.4. All 1803-dated half eagles are overdates. Two obverse dies are known, one with a perfect T in LIBERTY and the other with the right foot absent from that letter punch, as seen on the present coin. This is a well defined but lightly circulated example with olive-gold high points and rose-red toning in design recesses. Void of visible abrasions though vertical mint-made roller marks pass through the portrait. PCGS# 8084, NGC ID# 25NY, CoinPlex ID# E5M1803OVR2

Near-Mint 1803/2 Half Eagle
BD-4, Partly Lustrous

- 7083** 1803/2 AU58 PCGS. CAC. BD-4, R.4. Bass-Dannreuther Die State b/c. A perfect T in LIBERTY attributes this scarce die marriage. BD-4 shares the same reverse as BD-3, and is identified by repunching on the T in UNITED. The present near-Mint representative exhibits light mint-made roller marks on portions of the obverse but actual post-strike abrasions are inconsequential. Luster fills the borders and devices. A slender die crack traverses the reverse between 3:30 and 10 o'clock, passing through much of the heraldic eagle. A lovely sun-gold example of the early half eagle type. PCGS# 8084, NGC ID# 25NY, CoinPlex ID# E5M1803OVR2

1804 Small 8 Five, BD-2, AU
Very Scarce Early 19th Century Variety

- 7084** 1804 Small 8 AU50 PCGS. CAC Gold Label. BD-2, High R.4. Bass-Dannreuther Die State b (early)/d. The very scarce BD-2 variety is variously called either the Small 8 or Normal 8 variety to distinguish it from the Large 8 varieties, all of which feature a large 8 over the original smaller 8. The 4 in the date is small. This AU example shows deep, rich orange-gold color with lighter yellow-gold device outlines. On the obverse, a die crack runs from the rim through the 0 in the date and onto the bust before terminating. On the reverse, a die crack bisects the coin, from the rim at E(RICA) to the upper leaf, right (facing) wing, horizontal shield lines, left shield point, wing tip, and back to the rim. Scattered, trivial marks appear but are grade-consistent and undisturbing, given the generous eye appeal. There are no visible planchet adjustment marks on this piece, certified in a green-label holder. From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 8085, NGC ID# 25P2, CoinPlex ID# E5M1804

**Choice AU 1804 BD-5 Half Eagle
Blundered Obverse Die**

- 7085 1804 Small 8 Over Large 8 AU55 PCGS. BD-5, High R.6.** Bass-Dannreuther Die State a/k. The obverse die is perfect, the reverse die is boldly clashed and has two lengthy spindly die cracks. Lapping has removed much of cloud 3. The engraver used the wrong punch for the 8, making use of a punch intended for a larger diameter coin such as a half dollar, silver dollar, or eagle. Exact measurement of the original 8, compared to measurements of that digit from other denominations might indicate the actual punch used.

Three different reverse dies were used with the single blundered obverse die, and BD-5 is the rarest of the three varieties by a significant margin. Only about three dozen examples are known in all grades.

This Choice AU specimen has brilliant yellow surfaces with satin luster and light wear on the highest design points. Lovely orange toning accents are evident near the borders on each side. Here is an important specimen for the variety specialist. PCGS# 8086, NGC ID# 25NZ, CoinPlex ID# E5M1804SMOVL8

**1807 Bust Left Five Dollar
BD-8, AU Details**

- 7086 1807 Bust Left — Obverse Scratched — NGC Details. AU. BD-8, R.2.** The more available of the two Reich Head varieties for the date. Several faint pinscratches are near the mouth and the straw-gold obverse appears cleaned. The cheek has two strike-throughs, as coined. The reverse is pleasing and displays considerable orange-gold luster.
From The Richmond Hill Collection. NGC ID# 25P9, PCGS# 8101, CoinPlex ID# E5M1807LEFT

**1807 Capped Bust Right Five, BD-6, AU55
Last Year of the Type**

- 7087 1807 Bust Right AU55 NGC. CAC. BD-6, High R.4.** Bass-Dannreuther Die State a/b. The 1807 Capped Bust Right half eagle is the final issue of the type, with a reported mintage of 32,448 pieces. The present coin represents the BD-6 variety, with a recut 1 in the date. Probably no more than 80-100 examples of the BD-6 variety survive in all grades. This Choice AU specimen retains most of its original design detail and mint luster, and the light greenish-gold surfaces show a few minor abrasions.
From The Richmond Hill Collection. NGC ID# 25P9, PCGS# 8092, CoinPlex ID# E5M1807LEFT

**1807 Capped Bust Left Five, MS61
Popular First-Year Type Coin, BD-8**

7088 1807 Bust Left MS61 NGC. BD-8, R.2. Bass-Dannreuther Die State d/b. The design of the half eagle was changed in 1807, from the old Capped Bust Right design to John Reich's Capped Bust Left motif. According to Mint records, 51,605 pieces of the new design were produced, with two die varieties known for the date and type. This coin represents the more available BD-8 variety, with the feather tip pointing to the tip of the 5 in the denomination. The surviving population for the BD-8 probably numbers between 500 and 750 pieces, making this issue a popular one with type collectors.

The present coin is a sharply detailed Mint State example, with vivid greenish-gold surfaces and strong mint luster. A few minor contact marks on both sides do little to detract from the outstanding eye appeal. The obverse shows remnants of adjustment marks in the dentils at 9 o'clock. Census: 34 in 61, 86 finer (12/12). NGC ID# 25P9, PCGS# 8101, CoinPlex ID# E5M1807LEFT

**Choice AU 1809/8 Half Eagle, BD-1
Beautiful Two-Toned Surfaces**

7089 1809/8 AU55 NGC. CAC. BD-1, High R.3. Bass-Dannreuther Die State b / b, extremely faint die cracks on each side. Beautiful auburn-orange color clings to the rims on each side with lighter yellow-gold centers on this lightly circulated 1809/8 overdate five. A loupe reveals mainly a couple of thin marks amid a bold strike, although a small patch of digs appears at the lower reverse, not overly distracting. A nice Choice AU example of this fairly available issue.

From The Richmond Hill Collection. NGC ID# 25PC, PCGS# 8104, CoinPlex ID# E5M1809OVR8

**XF Details 1811 Half Eagle
Tall 5, BD-1**

7090 1811 Tall 5 — Tooled — PCGS Genuine. XF BD-1, High R.3. This early half eagle offers a wealth of detail and shows golden-tan toning at the borders. Inspection beneath a loupe confirms the coin is bright from cleaning and has a tooled field near the eagle's head. The obverse field and Liberty's neck are also tooled but to a lesser degree. The Reich Head type (1807 to 1812) is collectible by date though a couple of 1810 *Guide Book* varieties are very rare. PCGS# 8110, CoinPlex ID# E5M1811TALL5

**1812 Wide 5D Half Eagle, Fine 12
Unusual Low Grade and Color**

7091 1812 Fine 12 NGC. BD-1, R.3. Wide 5D. Although well worn, this attractive half eagle possesses excellent eye appeal that is the result of its rainbow appearance. Both sides have lilac and blue-green toning over the yellow-gold surfaces. Seldom do early gold pieces come in such a low grade (or with an abundance of color), and these are desirable for collectors on a budget.

Ex: Long Beach Signature (Heritage, 6/2010), lot 1615. NGC ID# 25PL, PCGS# 8112, CoinPlex ID# E5M1812

**AU Sharpness 1812 Five Dollar
Narrow 5D, BD-2**

- 7092** 1812 — Improperly Cleaned — NGC Details. AU. BD-2, High R.4. The Narrow 5D variety for the date, which is scarcer than its Wide 5D BD-1 counterpart. The straw-gold surfaces are mildly bright from an inoffensive cleaning. Remaining luster illuminates the bold design elements. One thin mark is noted above the first A in AMERICA.
From The Richmond Hill Collection. NGC ID# 25PL, PCGS# 8112, CoinPlex ID# E5M1812

**1812 Half Eagle, BD-1, Wide 5D
AU Sharpness**

- 7093** 1812 — Removed From Jewelry — NGC Details. AU. BD-1, R.3. Wide 5D. Evidence of former mounting occurs at various places around the rims, some partially obscured by the new pronged NGC holder. The surfaces may have also been cleaned long ago, but neither caveat takes away from what must be considered excellent overall eye appeal, with a wealth of detail remaining throughout the amber-gold surfaces. Scattered small marks appear on each side consistent with the AU Details grade.
Ex: Americana Sale (Stack's, 1/2009), lot 8651, flip accompanies. NGC ID# 25PL, PCGS# 8112, CoinPlex ID# E5M1812

**1812 Half Eagle, AU50
Scarce Close 5D, BD-2 Variant**

- 7094** 1812 AU50 PCGS. CAC Gold Label. BD-2, High R.4. Bass-Dannreuther Die State c/b, obverse die rust, clashing on reverse. The Close or Narrow 5D variety, BD-2, is far more elusive than its Wide 5D counterpart, BD-1; Bass-Dannreuther estimate that only 80 to 100 survive of BD-2 compared to 300-450 of BD-1. This AU50 PCGS example is certified in a green-label holder and shows medium yellow-gold color with very clean surfaces and no major marks. Minor planchet adjustment marks appear near the obverse rim from stars 3-7, and some dark smoky-gray verdigris appears on the reverse in the motto and STAT above. A lovely, completely original early five.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 8112, NGC ID# 25PL, CoinPlex ID# E5M1812

**1812 Half Eagle, BD-1
Wide 5D, Butter-Gold AU53**

- 7095** 1812 AU53 PCGS. Wide 5D, BD-1, R.3. This butter-gold early five dollar type coin offers its share of billowy luster and has nearly full design detail. A small strike-through is near the chin, the cheek is slightly bright, and the fields have occasional small patches of closely spaced marks. Certified in a green-label holder.
Ex: Long Beach Signature (Heritage, 2/2010), lot 1559. PCGS# 8112, NGC ID# 25PL, CoinPlex ID# E5M1812

Mint State 1812 Wide 5D Half Eagle, BD-1

- 7096** 1812 MS60 NGC. Wide 5D, BD-1, R.3. Bass-Dannreuther Die State a/b. A few small scrapes appear on Liberty's face and cheek, along with one in the right (facing) field behind her head, but this Mint State piece nonetheless is quite appealing, with a strong strike and appealing yellow-gold color. The reverse shows some planchet roughness and moderate marks along with the curved die line running through the horizontal shield lines and to the eagle's left (facing) wing; there is, however, no sign of the second line that Bass-Dannreuther describes. The 1812 BD-1 half eagle is favored by type collectors, as many issues from this decade (and the next, for that matter) are extremely elusive. NGC ID# 25PL, PCGS# 8112, CoinPlex ID# E5M1812
-

1813 Half Eagle, BD-2, AU Great Type Example

- 7097** 1813 AU50 PCGS. CAC Gold Label. BD-1, R.2. Bass-Dannreuther Die State b/b, light clashing within LIBERTY. The two varieties BD-1 and BD-2 of 1813 share an obverse, but the BD-1 shows the first S in STATES further to the right in relation to the E that begins the motto. This lightly circulated coin shows few signs of contact and no adjustment marks over surfaces that boast rich orange-gold color and super eye appeal. A great type coin, certified in a green-label holder and having the all-important Gold Sticker from CAC.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 8116, NGC ID# 25PM, CoinPlex ID# E5M1813
-

AU Sharpness BD-1 1814/3 Half Eagle

- 7098** 1814/3 — Scratches — NGC Details. AU. BD-1, High R.4. Bass-Dannreuther Die State c/d. The only die marriage for the date. A few thin marks (near star 5 and the 4 in the date) account for the NGC notation. The present lemon-gold example has substantial luster along with prominent clash marks and a hint of high point wear. NGC ID# 25PN, PCGS# 8117, CoinPlex ID# E5M1814OVR3
-

CLASSIC HALF EAGLES

- 7099** 1834 Plain 4 AU50 NGC. First Head, Breen-6501, McCloskey 3-B, R.1. Among the most accessible Classic half eagle issues. This lightly rubbed but still-lustrous piece has generous peach overtones across apricot surfaces. An old cut appears at the top of Liberty's cheek. NGC ID# 25RR, PCGS# 8171, CoinPlex ID# E5M1834PL4
- 7100** 1834 Plain 4 AU58 NGC. Second Head, Breen-6502, McCloskey 2-A, R.1. Both sides display light traces of wear with excellent luster and hints of iridescent toning on the green-gold surfaces. A nice coin for either the type or date collector.
From the Clyde Godfrey Collection. NGC ID# 25RR, PCGS# 8171, CoinPlex ID# E5M1834PL4
- 7101** 1834 Plain 4 — Improperly Cleaned — NGC Details. Unc. Breen-6501, McCloskey 3-B, R.1. An available First Head variety interesting for its vertical die break through Liberty's eye. The honey-gold fields are mildly reflective and bright from a moderate cleaning. There are no noticeable marks.
Ex: S.S. Forrest, Jr. Collection (Stack's, 9/1972), lot 217, which realized \$450.
From The Richmond Hill Collection. NGC ID# 25RR, PCGS# 8171, CoinPlex ID# E5M1834PL4

7102 1835 AU55 NGC. First Head, Breen-6504, McCloskey 1-B, R.3. Two parallel die cracks connect the two lower arrowheads on this piece, and those cracks join to form a die break in later states. This Choice AU piece has light yellow luster with splashes of rose toning and hints of reflectivity.
From The Flagg Family Collection. NGC ID# 25RV, PCGS# 8173, CoinPlex ID# E5M1835

7103 1835 AU58 NGC. Second Head, Breen-6505, McCloskey 3-D, R.3. Reddish-gold and orange toning is slightly deeper on the obverse of this near-Mint State half eagle. The design elements are well impressed, except for the often seen softness in the upper-left shield corner.
From The Flagg Family Collection. NGC ID# 25RV, PCGS# 8173, CoinPlex ID# E5M1835

**Green-Gold 1835 Five Dollar, MS62
McCloskey 1-A**

7104 1835 MS62 PCGS. CAC. Breen-6504, McCloskey 1-A, R.2. This sharply struck second-year Classic five is predominantly peach-gold but exhibits apple-green toning near the rims. Inspection beneath a lens reveals only minor abrasions. Luster fills the motifs and borders. Breen's first head subtype with slight curl differences from the second and third heads. Population: 15 in 62, 26 finer (11/12). PCGS# 8173, NGC ID# 25RV, CoinPlex ID# E5M1835

7105 1836 AU58 NGC. First Head, Breen-6507, McCloskey 1-A, R.4. Yellow-gold surfaces boast rich luster and excellent eye appeal on this lightly circulated 1836 Classic Head, the very scarce First Head variety. Despite the scattered small marks, this piece represents a lot of value for this underrated series. NGC ID# 25RY, PCGS# 8174, CoinPlex ID# E5M1836

7106 1836 AU58 NGC. Second Head, Large Date, Breen-6509, McCloskey 4-C, R.3. Peach-laced yellow-gold surfaces have pale luster that is a trifle radiant. Small marks are scattered on each side, the deepest a reed mark in the left reverse field. NGC ID# 25RY, PCGS# 8174, CoinPlex ID# E5M1836

**XF45 1838-D Five Dollar
Only Dahlonega Classic Five**

7107 1838-D XF45 ANACS. Variety 1-A, R.3. The only dies for the sole Dahlonega issue of the Classic half eagle type. This is a luminous apricot-gold example that displays considerable design detail despite moderate high point wear. Abrasions are inconsequential aside from a mark above the eagle's beak. NGC ID# 25S6, PCGS# 8178, CoinPlex ID# E5M1838D

**1838-D Classic Five, AU55
One-Year Type and First D-Mint Five**

7108 1838-D AU55 NGC. Variety 1-A, R.3. The 1838-D is probably the most popular Dahlonega half eagle. It is a one-year type and represents the first year of the Dahlonega mint. At the Choice AU level it represents excellent value, with few examples known in higher grades. There are an estimated 300 to 350 coins believed known in all grades, with only 42 to 65 Almost Uncirculated pieces estimated extant. This is a bright yellow-gold example with just a hint of reddish patina. The strike details are strong on each side, and there are just a few slight abrasions scattered about.
From The Ives Devos Collection. NGC ID# 25S6, PCGS# 8178, CoinPlex ID# E5M1838D

**1838-D Half Eagle, AU55
Only D-Mint Classic Head Five**

- 7109 1838-D AU55 NGC. Variety 1-A, R.3.** The 1838-D Classic Head half eagle is always in demand from both date and type collectors. The 1838-D is the only Classic Head five struck at the Dahlonega Mint, and it represents the first year of operations at that storied facility. Fewer than 350 specimens of the 1838-D survive in all grades, and the issue is very scarce in AU55 or finer grades. The present coin displays lightly abraded orange and peach-gold surfaces, with well-detailed design elements that show just a touch of high-point wear. Mint luster is slightly subdued, but still appealing. Census: 22 in 55, 29 finer (12/12). NGC ID# 25S6, PCGS# 8178, CoinPlex ID# E5M1838D

LIBERTY HALF EAGLES

- 7110 1839 AU55 NGC.** The eagle displays a sharp strike on this Choice AU example that retains areas of original mint luster. The color is primarily a bright yellow-gold that enhances the attractiveness of this piece. Census: 37 in 55, 62 finer (12/12). NGC ID# 25S7, PCGS# 8191, CoinPlex ID# L5M1839
- 7111 1839-C — Filed Rims — PCGS Genuine. Variety 1.** The PCGS number ending in .82 suggests Filed Rims as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of an XF specimen that has filed rims and has been whizzed. No rim filing is readily evident but the green-gold surfaces are hairlined and display the uniform gloss characteristic of whizzing. A few moderate field marks are noted. PCGS# 8192, NGC ID# 25S8, CoinPlex ID# L5M1839C

AU 1839-C Five Dollar

- 7112 1839-C AU50 NGC. Variety 1.** The 1839-C is the sole Charlotte Liberty issue with an obverse mintmark, and it is the only C-mint issue of the introductory design subtype. The strongly curved bust truncation, as well as Liberty's sleepy expression, were replaced in 1840. The present straw-gold representative is sharply defined except on the claws and left-side stars. Small marks are scattered but unobtrusive. Census: 8 in 50, 38 finer (12/12).
Ex: Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2257, which realized \$5,175. NGC ID# 25S8, PCGS# 8192, CoinPlex ID# L5M1839C

**XF 1839-D Half Eagle
Obverse Mintmark Issue**

- 7113 1839-D XF40 PCGS. Variety 2-A.** A sharp and bright lemon-gold example with no more than its share of distributed tiny marks. The last Dahlonega date to feature an obverse mintmark, and of course, the only D-mint issue of this single-year subtype. The portrait of Liberty is sleepy-eyed and has a curved bust truncation, although the *Guide Book* currently fails to note these distinctions. Only 18,939 pieces were produced.
Ex: Tide Collection (Heritage, 10/2006), lot 2731, which realized \$4,025. PCGS# 8193, NGC ID# 25S9, CoinPlex ID# L5M1839D

**AU Details Obverse Mintmark
1839-D Half Eagle**

- 7114 1839-D — Cleaning — PCGS Genuine. AU Details. Variety 2-A.** This obverse mintmark Dahlonega half eagle has nearly complete design definition but both sides are mildly bright and a moderate mark behind the mouth has been unobtrusively smoothed. No other abrasions are remotely worthy of mention. An opportunity to obtain a lightly circulated example at an affordable cost. PCGS# 8193, NGC ID# 25S9, CoinPlex ID# L5M1839D

1840-C Half Eagle, AU55
Low-Mintage Charlotte Issue

- 7115 1840-C AU55 NGC. Variety 2.** The present partially lustrous straw-gold example displays a typical strike for the issue, with more detail present on the upper obverse devices than the lower elements. The obverse border exhibits scattered minute strike-throughs, as made, but post-strike marks are minimal. Census: 14 in 55, 17 finer (11/12). Ex: Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2260, which realized \$5,462.50. NGC ID# 25SD, PCGS# 8196, CoinPlex ID# L5M1840C

1840-D Half Eagle, AU50
Tall D Variety

- 7116 1840-D Tall D AU50 NGC. CAC. Variety 3-B.** The design of the half eagle was modified in 1840, with the portrait of Liberty restyled and the mintmark moved to the reverse. The reported mintage for the issue was 22,896 pieces, and the surviving population probably numbers between 120 and 140 examples in all grades. This lightly circulated specimen is well-detailed and lustrous, with vivid greenish-gold surfaces. Census: 9 in 50, 33 finer (11/12). From The Ives Devos Collection. NGC ID# 25SG, PCGS# 8198, CoinPlex ID# L5M1840D

1840-D Five Dollar, AU53
Tall D Mintmark

- 7117 1840-D Tall D AU53 PCGS. CAC. Variety 3-B.** This caramel-gold and olive-green Dahlonega half eagle is impressively devoid of marks and shows exemplary definition for the AU53 grade. Only Liberty's lovelock is lightly brought up. The first D-mint issue with a reverse mintmark, the 1840-D has a low mintage further divided by two different mintmark sizes. Population: 5 in 53, 17 finer (12/12). PCGS# 8198, NGC ID# 25SG, CoinPlex ID# L5M1840D

Uncirculated Tall D 1840-D Five
Ex: Duke's Creek

- 7118 1840-D Tall D MS61 NGC. Variety 3-B.** Ex: Duke's Creek. A meticulously struck yellow-gold representative that exhibits pleasing surfaces for the grade. A curious lump beneath the final star is as made, and was caused by a small dent on the obverse die. A small rim nick is noted at 10:30 on the reverse, and the reverse rim has a slight depression near the F in OF. A trace of grease is struck-in near star 12. The 1840-D is the first half eagle issue with the D mintmark located on the reverse. Two different mintmark punches were used to strike the allotment of 22,896 pieces; a Small D (Variety 4-C) and a Tall D. The latter is less rare, although any 1840-D in Mint State is significant, since a combined total of only 18 examples are certified by such as NGC and PCGS (12/12). Ex: Duke's Creek Collection of Dahlonega Gold (Heritage, 4/2006), lot 1517, which realized \$15,525. NGC ID# 25SG, PCGS# 8198, CoinPlex ID# L5M1840D

**Near-Mint 1840-O Half Eagle
Large O Mintmark**

- 7119 1840-O AU58 NGC. Variety 2.** The Large O variety of this scarce New Orleans issue, the first of the half eagle denomination from the facility. Just 40,120 pieces were struck. This green-gold example is higher grade than most since peripheral luster is obvious and the sole visible mark is a brief pinscratch above the bust tip. One mint-made strike-through above star 13. Census: 23 in 58, 17 finer (11/12). NGC ID# 25SK, PCGS# 8200, CoinPlex ID# L5M1840O

**Choice AU 1841-D Five Dollar
Small D Variety**

- 7121 1841-D Small D AU55 NGC. Variety 5-D.** A so-called "Compass Point" reverse with a broken second vertical shield stripe. This apricot-gold Dahlonega half eagle has pleasing sharpness on the curls and wings. The eagle's claws show softness characteristic of the mint. Glimmers of luster are prevalent and there are no obtrusive marks. Ex: Orlando FUN Signature (Heritage, 1/2010), lot 3943, which realized \$4,916.25. NGC ID# 25SR, PCGS# 8204, CoinPlex ID# L5M1841D

Rare Uncirculated 1841-C Five

- 7120 1841-C MS61 NGC. Variety 1.** A well struck almond-gold representative of this early Charlotte emission. The borders on both sides display a number of small strike-throughs, as coined, but there are no remotely relevant abrasions. Luster is especially evident on the portrait, eagle, and legends. From the initial mintage of 21,467 pieces, perhaps only a couple hundred coins have survived, typically in VF to AU grades. Uncirculated examples are extremely rare. Census: 4 in 61, 2 finer (12/12). Ex: Long Beach Signature (Heritage, 2/2006), lot 2872, which realized \$13,800. NGC ID# 25SP, PCGS# 8203, CoinPlex ID# L5M1841C

**Rare Medium D
1841-D Five Dollar, AU53**

- 7122 1841-D Medium D AU53 NGC. Variety 5-B.** The Medium or Tall D variety is even scarcer than its Small D counterpart (Variety 5-D). The present wheat-gold example is well struck and displays ample glimpses of luster near the rims and on the motifs. Field abrasions are minor though the portrait has a couple of slender moderate marks. Ex: Baltimore Auction (Bowers and Merena, 11/2010), lot 5068, which realized \$2,702. PCGS# 98204, CoinPlex ID# L5M1841DTALLDT

**Small Date 1842-C Half Eagle, VF25
Rarest Charlotte Five Issue**

- 7123 1842-C Small Date VF25 PCGS. Variety 1.** The 1842-C Small Date is the rarest Charlotte Mint half eagle, and given the rapidly rising price as one advances in grade, the VF25 level provides a rare opportunity for acquisition at an affordable price. The present peach-gold representative has sharp wing plumage and a soft strike on the curls. Only lightly abraded for the grade with moderately granular surfaces. PCGS# 8208, NGC ID# 25SV, CoinPlex ID# L5M1842CSD

- 7124 1842-D Small Date XF40 NGC. Variety 8-E.** Both sides of this XF40 half eagle display deep yellow-gold color and generally well defined design elements. Distributed light marks are within the confines of the grade designation. NGC ID# 25SX, PCGS# 8210, CoinPlex ID# L5M1842DSD

- 7125 1842-D Small Date XF40 ANACS. Variety 8-E.** This bright sun-gold Dahlonega half eagle has surprising sharpness for an XF coin and the reverse legends display flashy luster. A reeding mark on the cheekbone is the most relevant post-striking fault. NGC ID# 25SX, PCGS# 8210, CoinPlex ID# L5M1842DSD

**1842-D Five Dollar, XF45
Small Date, Small Letters**

- 7126 1842-D Small Date XF45 PCGS. Variety 8-E.** A richly detailed Choice XF representative of this popular early Dahlonega variety, the last with small letters in the reverse legend. The almond-gold surfaces exhibit traces of luster and the smattering of small abrasions expected for the grade.
Ex: Stamford Coinfest (Heritage, 10/2010), lot 4777, which realized \$2,587.50. PCGS# 8210, NGC ID# 25SX, CoinPlex ID# L5M1842DSD

**Near-Mint 1842-D Half Eagle
Small Date Logotype**

- 7127 1842-D Small Date AU58 PCGS. Variety 8-E.** A well struck Borderline Uncirculated Dahlonega half eagle, ideal for a high quality yet affordable type set from the antebellum Georgian facility. The wheat-gold fields show only minor contact, and luster fills the legends and devices. Population: 11 in 58, 8 finer (11/12).
Ex: Dallas Signature (Heritage, 12/2004), lot 6638, which realized \$6,325. PCGS# 8210, NGC ID# 25SX, CoinPlex ID# L5M1842DSD

**AU 1842-D Half Eagle
Scarce Large Date, Large Letters**

- 7128 1842-D Large Date AU50 PCGS. Variety 9-F (formerly 9-G).** This radiant apricot-gold Dahlonega half eagle is lustrous for the designated grade and shows only slight wear on the plumage and on Liberty's curls, eyebrow, and shoulder. The fields display minor marks, mostly clustered near star 13. The Large Date variety is substantially scarcer than the Small Date. Population: 5 in 50, 14 finer (12/12).
Ex: Long Beach Signature (Heritage, 2/2010), lot 1574, which realized \$9,200. PCGS# 8211, NGC ID# 25SY, CoinPlex ID# L5M1842DLD

- 7129 1843-C Large Diameter XF40 NGC. Variety 2.** This Charlotte five has unusually wide rims. Presumably the wrong collar die was used, perhaps the Broad Mill collar of 1840. The curls are softly struck, as are the eagle's neck and fletchings. A couple of thin marks are noted near star 2 and Liberty's mouth.
Ex: Long Beach Signature (Heritage, 2/2008), lot 2494, which realized \$2,300. NGC ID# 25T3, PCGS# 8214, CoinPlex ID# L5M1843C

Choice XF 1843-C Five Dollar

- 7130 1843-C XF45 PCGS. Variety 2.** A crisply impressed lemon-gold Choice XF Charlotte five. Luster gleams from design elements. No marks are remotely consequential aside from a minor obverse rim nick at 4:30. A charming example of this low mintage Southern gold issue.
Ex: Orlando FUN Signature (Heritage, 1/2012), lot 6338, which realized \$3,737.50. PCGS# 8214, NGC ID# 25T3, CoinPlex ID# L5M1843C

- 7131 1843-D Medium D XF40 PCGS. CAC. Variety 11-G (formerly 10-H).** A well defined Dahlonega representative with noticeable luster about the legends. Small marks are distributed, but none merit mention save for a tick on the reverse rim at 1:30.
Ex: Fort Worth ANA Signature (Heritage, 3/2010), lot 2273, which realized \$2,300. PCGS# 8215, NGC ID# 25T4, CoinPlex ID# L5M1843D

- 7132 1843-D Small D — Reverse Planchet Flaw — NGC Details. AU. Variety 10-F (formerly 10-G).** The right reverse has a lamination that is most apparent near the ME in AMERICA. The right wing is also affected. Technically a mint error, the grade of the coin is instead limited by brief circulation and a shallow abrasion on the cheek. A scarce Dahlonega variety. PCGS# 98215, CoinPlex ID# L5M1843DSD

**Undisturbed AU53 1843-O Five Dollar
Rare High Date, Small Letters Variety**

- 7133 1843-O Small Letters AU53 NGC. Variety 1.** The 84 in the date is repunched southeast. The rare high date variety of the Small Letters Reverse, which in itself is significantly scarcer than its Large Letters counterpart. Struck prior to Variety 2, since there are no die cracks on the reverse. A lovely green-gold New Orleans five with minimally abraded surfaces and an above average strike for the No Motto type. Census: 7 in 53, 19 finer (12/12). NGC ID# 25T5, PCGS# 8217, CoinPlex ID# L5M1843OSL

**1844-C Five Dollar, XF40
Above-Average Surfaces**

- 7134 1844-C XF40 NGC. Variety 1.** Die State II, displaying a reverse crack from the first A in AMERICA through the wing to the eagle's neck. A smaller crack has developed from the rim to the left wing tip. The bright yellow-gold surfaces display traces of luster adhering to the design elements. Generally well defined except for the usual localized softness in Liberty's hair. Scattered marks are fewer and less severe than typically seen on most 1844-C specimens. All in all, this is a better-than-average example of this issue. NGC ID# 25T8, PCGS# 8220, CoinPlex ID# L5M1844C

- 7135 1844-C — Smoothed — PCGS Genuine. AU Details. Variety 1.** A better Charlotte issue with a meager mintage of 23,631 pieces. This boldly detailed apricot-gold example has a smoothed left obverse field, and the remainder of the coin is mildly glossy from cleaning. The borders display scattered strike-throughs, as made. An early die state without any cracks. PCGS# 8220, NGC ID# 25T8, CoinPlex ID# L5M1844C

- 7136 1844-D XF40 NGC. Variety 12-G (formerly 11-H).** The more common variety, though the usual repunching on the 1 in the date is hard to detect. Moderately abraded with a few rim bumps and a surprising brightness to the yellow-orange surfaces. NGC ID# 25T9, PCGS# 8221, CoinPlex ID# L5M1844D

- 7137 1844-D XF40 NGC. Variety 12-G (formerly 11-H).** The date ascends from left to right relative to the bust, unlike the rare Variety 13-G. A straw-gold Dahlonega type coin that lacks any individually consequential marks. Glimpses of luster are particularly noticeable within the reverse legends. *From The Ives Devos Collection.* NGC ID# 25T9, PCGS# 8221, CoinPlex ID# L5M1844D

**Borderline Uncirculated
1844-D No Motto Five**

- 7138 1844-D AU58 NGC. Variety 12-G (formerly 11-H).** A lovely Borderline Uncirculated Dahlonega type coin. Vibrant luster fills the devices and borders, and the strike is crisp throughout. Small marks are present but are trivial for the grade. The original apricot toning favorably compares with the colorless examples sometimes encountered. Ideal for the value-conscious Southern gold collector. *Ex: Rosemont Central States (Heritage, 4/2011), lot 6484, which realized \$10,925.* NGC ID# 25T9, PCGS# 8221, CoinPlex ID# L5M1844D

1845 Half Eagle, Boldly Struck MS62

- 7139 1845 MS62 NGC. CAC.** Three mints made half eagles in 1845, but Philadelphia's total was by far the largest, well over 400,000 pieces struck for circulation. This MS62 example is surprisingly scarce, as most survivors of the issue are in the AU grades at best. The yellow-gold surfaces are surprisingly clean for the grade, even though a small, curving mark appears below Liberty's ear. The strike is quite sharp throughout, and a bit of die clashing appears on the reverse. A nice piece for the grade. Census: 14 in 62 (1 in 62+), 11 finer (12/12). NGC ID# 25TB, PCGS# 8223, CoinPlex ID# L5M1845

- 7140 1845-D XF40 NGC. Variety 14-H (formerly 12-I).** Medium-high date far to the left, the usual variety. Wheat-gold surfaces are minimally marked and yield relatively well defined devices. This is a reasonably available date from a mintage of 90,629 pieces. NGC ID# 25TC, PCGS# 8224, CoinPlex ID# L5M1845D

- 7141 1845-D — Improperly Cleaned — NGC Details. AU. Variety 14-H (formerly 12-I).** A well struck Dahlonega five with minimal wear and no detrimental marks. Moderately hairlined and possibly lacquered but an opportunity to acquire a fully detailed example at an affordable cost. *From The Ives Devos Collection.* NGC ID# 25TC, PCGS# 8224, CoinPlex ID# L5M1845D

- 7142 1845-D — Obverse Damage — NGC Details. AU. Variety 14-H (formerly 12-I).** A slender intermittent mark ascends the bust between the truncation and the ear. The field near the profile has a lesser thin abrasion. The yellow-gold surfaces are mildly bright, but overall, this is an attractive example that has a sharp strike and substantial remaining luster. NGC ID# 25TC, PCGS# 8224, CoinPlex ID# L5M1845D

**1845-D Half Eagle, AU55
Sharply Defined**

- 7143 1845-D AU55 NGC. Variety 14-H (formerly 12-I).** The more common die pair, with the date farther to the left. The 1845-D is relatively common in Very Fine and Extremely Fine grades, and even low-end AUs can be located with ease. Choice AU specimens such as the one in this lot, however, are scarce, and anything finer is very rare. The yellow-gold surfaces exhibit traces of red around the borders, especially on the obverse, and the design elements are sharply defined and display luster in the protected areas. Census: 43 in 55, 84 finer (11/12). NGC ID# 25TC, PCGS# 8224, CoinPlex ID# L5M1845D

**Well-Struck Borderline Uncirculated
1845-D Five Dollar**

- 7144 1845-D AU58 NGC. Variety 14-H (formerly 12-I).** The borders display a broad band of bright luster on this briefly circulated No Motto half eagle. Each side has one or two moderate marks but the overall appearance is clean and attractive. Well struck throughout, uncommon for the Georgian facility and thus an ideal candidate for a type set from the Dahlonega Mint. NGC ID# 25TC, PCGS# 8224, CoinPlex ID# L5M1845D

1846-D Half Eagle, AU58

- 7145 1846-D AU58 NGC. Variety 17-I (formerly 16-K).** Lemon-gold toning clings to protected areas of this briefly circulated Dahlonega type coin. The fields display marks but none merit singular mention. The strike is above average though the eagle's neck and fletchings show the blending usual for the Southern facility. Census: 12 in 58, 3 finer (12/12).
Ex: Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2283, which realized \$6,900. NGC ID# 25TH, PCGS# 8228, CoinPlex ID# L5M1846D

**1846-D/D Liberty Half Eagle, AU50
Popular Guide Book Variety**

- 7146 1846-D/D AU50 NGC. Variety 17-J (formerly 15-L).** The 1846-D/D half eagle is a scarce *Guide Book* variety, with an unknown mintage and a surviving population of 125-150 examples in all grades. This lightly circulated specimen features well-detailed design elements and lustrous greenish-gold surfaces, with outstanding eye appeal for the grade. Census: 11 in 50, 59 finer (11/12).
From The Ives Devos Collection. PCGS# 8229, CoinPlex ID# L5M1846DD

**AU58 1846-D Half Eagle
Prominent Repunched Mintmark**

- 7147 1846-D/D AU58 NGC. Variety 18-J (formerly 15-L).** Substantial radiant luster and original sun-gold color combine with an above average strike to ensure the eye appeal of this Borderline Uncirculated Dahlonega half eagle. The mintmark is widely and boldly repunched, the most dramatic such variety of the denomination. Only minimally abraded for the AU58 level.
Ex: Long Beach Signature (Heritage, 2/2010), lot 1582, which realized \$5,750. PCGS# 8229, CoinPlex ID# L5M1846DD

**Near-Mint 1846-D/D Five
Widely Repunched Mintmark**

- 7148 1846-D/D AU58 NGC. Variety 17-J.** The low date variant of the strongly repunched 1846-D/D. Both varieties are equally scarce. This well struck straw-gold near-Mint half eagle displays ample luster and only minimal marks. Minor retained laminations (as made) are near star 2 and behind the lovelock.
Ex: Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2284, which realized \$6,325. PCGS# 8229, CoinPlex ID# L5M1846DD

Smooth AU53 1846-O Five Dollar

- 7149 1846-O AU53 PCGS. Variety 1.** This better No Motto New Orleans issue has a mintage of 58,000 pieces. It is usually seen with a low mintmark, as is the case here, though a rare centered mintmark variety exists. The present original olive and peach-gold representative is lightly abraded and well defined. PCGS# 8230, NGC ID# 25TK, CoinPlex ID# L5M1846O

**Lemon-Gold 1847 Five Dollar
MS63, Repunched Date**

7150 1847 MS63 PCGS. The top of the 7 in the date is clearly repunched. Unlisted in *Cherrypickers'*, although four other MPD or RPD varieties for the 1847 are in that popular reference. The present lemon-gold Select No Motto type coin has an excellent strike. The margins teem with luster, as do the motifs. One hair-thin line above the bust truncation. Population: 19 in 63 (1 in 63+), 5 finer (11/12). PCGS# 8231, NGC ID# 25TL, CoinPlex ID# L5M1847

7151 1847-C XF40 NGC. The sole known dies. The yellow-gold surfaces show a subtle greenish tint and distributed minuscule marks. The design elements are generally well defined despite some localized strike softness. NGC ID# 25TN, PCGS# 8233, CoinPlex ID# L5M1847C

7152 1847-D XF40 PCGS. Variety 20-I (formerly 17-I). This green-gold Dahlonega type coin displays luster throughout the legends. Minor marks are scattered but none merit individual mention. The moderate incompleteness of strike is usual for the facility. PCGS# 8234, NGC ID# 25TP, CoinPlex ID# L5M1847D

XF 1847-D Half Eagle

7153 1847-D XF40 PCGS. Variety 20-I (formerly 17-I). The mintmark leans slightly to the right, one way to distinguish Variety 20-I from its Variety 19-K 1847-D alternative. This is an attractive khaki-gold example, smooth save for moderate marks near the chin and on the cheek. The fletchings and curls show incompleteness of strike but luster glimmers from the plumage and peripheral legends. PCGS# 8234, NGC ID# 25TP, CoinPlex ID# L5M1847D

7154 1847-D — Obverse Rim Damage — NGC Details. AU. Variety 19-K (formerly 16-L). The left upright of the mintmark and left upright of the E in FIVE are exactly aligned on this reverse die. This green-gold half eagle has pale orange peripheral toning. Aside from faint file marks, the obverse rim damage is not immediately apparent. NGC ID# 25TP, PCGS# 8234, CoinPlex ID# L5M1847D

**1847-D Half Eagle, AU53
Partially Prooflike Surfaces**

7155 1847-D AU53 PCGS. Variety 20-I (formerly 16-L). The 1847-D Liberty half eagle claims a substantial mintage of 64,405 pieces, making it one of the more available D-mint issues. Probably 200-225 examples of the 1847-D are still extant in all grades. This attractive specimen displays well-detailed design elements and lightly abraded orange-gold surfaces that show traces of prooflike reflectivity in sheltered areas. Population: 16 in 53, 36 finer (11/12). *From The Ives Devos Collection.* PCGS# 8234, NGC ID# 25TP, CoinPlex ID# L5M1847D

1848-C Five Dollar, AU53

7156 1848-C AU53 NGC. Variety 1. This is a pleasing AU representative from the only known die pair for the 1848-C half eagles. A large date fills much of the space between the bust and border. As expected at this grade level, a number of surface marks are present, however considerable luster remains and an attractive orange color appears around the devices. Census: 24 in 53, 56 finer (12/12). NGC ID# 25TT, PCGS# 8237, CoinPlex ID# L5M1848C

7157 1848-D XF40 ANACS. Variety 22-O (formerly 19-N). This is the 1848-D/D variety, but a later die state with only slight evidence of the first mintmark impression. It is still perceptible as a horizontal line through the center of the upright. A glossy and hairlined green-gold representative of the scarce Dahlonega issue. *From The Ives Devos Collection.* NGC ID# 25TU, PCGS# 8238, CoinPlex ID# L5M1848D

Scarce 1848-D Half Eagle, XF40
Above-Average Strike and Surfaces
Very Rare Variety

- 7158 1848-D XF40 PCGS. CAC Gold Label. Variety 21-N.** This previously unlisted, and very rare, variety shows die lines connecting the eagle's right (facing) leg with the upper arrowhead and shaft. It also shows a crack from the R in AMERICA to the right (facing) wing. The 1848-D is scarce in any grade, and usually comes poorly struck and with severe abrasions. The present XF example is an important exception. The design elements, while showing high-point wear, exhibit nice detail, and both sides reveal just the expected number of marks associated with light circulation. Blushes of light green visit the orange-gold surfaces. Housed in a green label holder. From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 8238, NGC ID# 25TU, CoinPlex ID# L5M1848D

Bold AU 1848-D Half Eagle

- 7159 1848-D AU50 PCGS. Variety 21-L (formerly Variety 18-M).** This honey-gold Dahlonega example provides glimmers of luster and lacks any individually relevant marks. The strike is fairly strong except on the lovelock. The reverse is bisected by a die crack between 4 and 11 o'clock, usual for the die marriage. The left-side stars are lapped, as made. Housed in a green label holder. Population: 19 in 50, 35 finer (11/12). PCGS# 8238, NGC ID# 25TU, CoinPlex ID# L5M1848D

Near-Mint 1849-C Liberty Head Half Eagle

- 7160 1849-C AU58 NGC. Variety 1.** A mintage of 64,823 pieces makes the 1849-C half eagle an available date from the Charlotte mint, and a favorite issue with mintmark type collectors. There are two known varieties, with the placement of the date serving as the primary diagnostic. This example is a premium-quality, near-Mint piece, with greenish-gold surfaces and ample mint luster. The strike is sharp for a C-mint issue, with just a little softness evident on the eagle's leg. Census: 20 in 58, 24 finer (12/12). Ex: Houston Signature (Heritage, 12/2010), lot 4420. NGC ID# 25TW, PCGS# 8241, CoinPlex ID# L5M1849C

AU 1849-D Half Eagle

- 7161 1849-D AU50 NGC. Variety 25-R (formerly 22-N).** A yellow-gold Dahlonega type example that shows more luster than is often seen for the AU50 grade. The strike is above average though the fletchings are soft. The yellow-gold surfaces show moderate marks near stars 6 and 12 and on the cheekbone. A rare variety relative to the usually seen 25-Q. Ex: Long Beach Signature (Heritage, 2/2008), lot 2508; Long Beach Signature (Heritage, 2/2010), lot 1585, which realized \$2,760. NGC ID# 25TX, PCGS# 8242, CoinPlex ID# L5M1849D

Borderline Uncirculated 1849-D Five
Fewer Than 40,000 Pieces Struck

- 7162 1849-D AU58 NGC. Variety 25-Q (formerly 22-L).** The high mintmark variety of this elusive Dahlonega issue. The present sun-gold example displays ample bright luster and the luminous surfaces are only lightly abraded. The strike is good though the forehead curls and the fletchings show inexactness. Ex: Long Beach Signature (Heritage, 6/2010), lot 1630, which realized \$6,037.50. NGC ID# 25TX, PCGS# 8242, CoinPlex ID# L5M1849D

**1849-D Half Eagle, MS62
Rare Variety 25-R**

- 7163 1849-D MS62 NGC. Variety 25-R (formerly 22-N).** Ex: Ashland City Collection. From a mintage of 39,036 pieces, the 1849-D Liberty half eagle is a rare issue in Mint State. According to Doug Winter (2003), the Variety 25-R appears to be very rare. On the obverse, the date is well centered in the space between the neck and the denticles. On the reverse, the mintmark is high and touches the stem but not the tail feather. Die polish lines are noted beneath and to the left of the mintmark. This piece is well struck and lustrous, with pleasing light-green coloration. Wispy marks in the obverse and reverse fields limit the grade. Census: 4 in 62, 1 finer (12/12). NGC ID# 25TX, PCGS# 8242, CoinPlex ID# L5M1849D

**1850-C Five Dollar, MS61
Minimally Abraded**

- 7164 1850-C MS61 NGC. Variety 2.** A butter-gold Charlotte five from an active era for the facility, when bullion arrived from both local mines and the California Gold Rush. The present piece is minimally abraded and shows softness of impression only on the lower middle portion of the eagle.
Ex: Orlando FUN Signature (Heritage, 7/2010), lot 4667, which realized \$8,625. NGC ID# 25TZ, PCGS# 8244, CoinPlex ID# L5M1850C

Choice AU 1850-D Half Eagle

- 7165 1850-D AU55 NGC. Variety 28-S (formerly 24-P).** An untoned representative of a scarce Dahlonega issue. The strike is generally crisp for the facility, though the first three stars and the eagle's extremities show minor incompleteness. The untoned surfaces show minor marks including a line on Liberty's jaw. Census: 25 in 55, 19 finer (11/12). NGC ID# 25U3, PCGS# 8245, CoinPlex ID# L5M1850D

1850-D Five Dollar, AU55

- 7166 1850-D AU55 PCGS. Variety 28-S (formerly 24-P).** The '50-D is conditionally rare, given its median grade of XF45 at PCGS. The present Choice AU coin has lemon-gold surfaces with portions of mint luster surrounding the devices on each side. An above average strike is seen on each side, and no marks are noticeable aside from a single diagonal line on the cheek. Population: 14 in 55, 10 finer (9/12).
Ex: Central States Signature (Heritage, 4/2006), lot 2703; Long Beach Signature (Heritage, 9/2009), lot 1576. PCGS# 8245, NGC ID# 25U3, CoinPlex ID# L5M1850D

**1850-D Five Dollar, AU58
Rare Finer**

- 7167** 1850-D AU58 NGC. Variety 28-S (formerly 24-P). A nicely struck canary-gold Dahlonega representative with luster throughout the legends, curls, and eagle. The first four stars are lightly brought up but the remainder of the strike is good. The mintmark is low relief but fully outlined. There are no singularly detracting abrasions. Census: 16 in 58, 3 finer (12/12).
Ex: Milwaukee Central States Signature (Heritage, 4/2010), lot 3615, which realized \$6,900. NGC ID# 25U3, PCGS# 8245, CoinPlex ID# L5M1850D

**Borderline Uncirculated
1850-D Five Dollar**

- 7168** 1850-D AU58 NGC. Variety 27-S (formerly 23-O). The mintmark is low relief but is nearly fully outlined, and the diagnostic heavy peripheral cracks are visible on left reverse. This near-Mint State specimen displays yellow-gold surfaces that retain luster in the recesses. Well struck save for the typical softness on the eagle's legs. Scattered light marks do not detract. Census: 16 in 58, 3 finer (12/12).
Ex: Milwaukee Central States Signature (Heritage, 4/2010), lot 3616. NGC ID# 25U3, PCGS# 8245, CoinPlex ID# L5M1850D

**AU 1851-D Half Eagle
Rich Pumpkin-Gold Toning**

- 7169** 1851-D AU50 PCGS. Variety 31-P (formerly 26-R). A well defined pumpkin-gold example of a popular Dahlonega issue. Remaining luster at the margins and motifs are more extensive than expected for the AU50 grade, and the luminous surfaces are minimally abraded aside from a single faint pinscratch beneath the chin.
Ex: Milwaukee Central States Signature (Heritage, 4/2010), lot 3620, which realized \$3,220. PCGS# 8248, NGC ID# 25U7, CoinPlex ID# L5M1851D

- 7170** 1851-D — Improperly Cleaned — NGC Details. AU. Variety 31-P (formerly 26-R). The first 1 in the date is clearly repunched, and the mintmark is bold and does not touch the branch. Lightly cleaned yellow-gold and greenish surfaces exhibit well impressed design elements. A few minute marks are unobtrusive.
From The Ives Devos Collection. NGC ID# 25U7, PCGS# 8248, CoinPlex ID# L5M1851D

**Choice AU 1851-D Half Eagle
Repunched Date**

- 7171** 1851-D AU55 NGC. Variety 31-P (formerly 26-R). The first 1 in the date is clearly repunched, and the mintmark is bold and does not touch the branch. Many issues in the Dahlonega five series have several die varieties, and even different mintmark sizes, despite invariably low mintages. The present honey-gold Choice AU representative has a good strike despite blending on the forehead curl and fletchings. Faint marks are confined to the field near OF.
Ex: Lucy Llewellyn Collection of Southern Gold (Fort Worth, 3/2010), lot 2303, which realized \$4,312.50. NGC ID# 25U7, PCGS# 8248, CoinPlex ID# L5M1851D

- 7172** 1852 MS61 PCGS. An impressive No Motto half eagle, surviving from a mintage of more than half a million coins, this piece has brilliant and frosty yellow luster, distinctive rose overtones, and faint blue accents. The first four stars are joined by die cracks. Population: 17 in 61, 70 finer (12/12). PCGS# 8250, NGC ID# 25UA, CoinPlex ID# L5M1852

- 7173** 1852-D XF45 NGC. Variety 32-V (formerly 27-U). This lemon-gold Choice XF Dahlonega example has the original surfaces desired by specialists. Traces of dark debris still cling to design crevices. Marks are trivial for the grade save for a small tick on the cheek and a thin line near the left (facing) wingtip.
Ex: Long Beach Signature (Heritage, 2/2010), lot 1590, which realized \$2,070. NGC ID# 25UC, PCGS# 8252, CoinPlex ID# L5M1852D

- 7174** 1852-D XF45 PCGS. Variety 32-V (formerly 27-U). This tan-gold Choice XF Dahlonega half eagle has a typical strike on the extremities of the eagle and the high points of Liberty, but actual wear is moderate and there are no detracting abrasions. PCGS# 8252, NGC ID# 25UC, CoinPlex ID# L5M1852D

**1852-D Five Dollar, AU55
Partial Mint Luster**

- 7175** 1852-D AU55 NGC. Variety 32-V (formerly 27-U). The usual die pair for this popular Dahlonega type issue, coined when the Mint regularly received shipments of California Gold Rush bullion. The present yellow-gold half eagle has luster throughout the legends, curls, and eagle. The fields show moderate marks.
Ex: Milwaukee Central States Signature (Heritage, 4/2010), lot 3623, which realized \$3,450. NGC ID# 25UC, PCGS# 8252, CoinPlex ID# L5M1852D

**1853-C Half Eagle, AU50
Chestnut-Gold Surfaces**

- 7176 1853-C AU50 NGC. Variety 1.** This lightly abraded chestnut-gold AU Charlotte type coin displays hints of sea-green toning that are limited to the margins. The strike is above average despite minor blending on the eagle's neck and Liberty's curls. Traces of luster contribute further to the attractive eye appeal. NGC ID# 25UE, PCGS# 8254, CoinPlex ID# L5M1853C

- 7177 1853-D Large D — Improperly Cleaned — NGC Details. XF. Variety 35-AA (formerly 29-U).** On this scarcer die variety, the mintmark touches both the fletchings and branch and shows repunching at the base. Luminous from cleaning with sun-gold surfaces accented by mauve high points. Marks are minor save for a single hair-thin line on the cheek. NGC ID# 25UF, PCGS# 8255, CoinPlex ID# L5M1853D

AU53 1853-D Half Eagle

- 7178 1853-D Large D AU53 NGC. Variety 34-Y (formerly 29-V).** The obverse is primarily yellow-gold while the reverse displays medium peach shades. Portions of the dentils and motifs show incompleteness but the overall strike is good for the issue. Minor marks are present but none are of any importance. Bright luster emerges from the legends, eagle, and curls. A popular Dahlonega issue. NGC ID# 25UF, PCGS# 8255, CoinPlex ID# L5M1853D

Smooth AU53 Large D 1853-D Five Dollar

- 7179 1853-D Large D AU53 NGC. Variety 34-Y (formerly 29-V).** A lightly circulated honey-gold No Motto Dahlonega type coin. Impressively detailed, and luster encompasses all protected areas. One slender strike-through (as coined) on the reverse rim at 3 o'clock, but neither side displays any relevant abrasions. Though PCGS has graded six pieces as Medium D, all examples seen are in fact the Large D variety and we doubt the Medium D exists for the issue. Ex: Fort Worth ANA Signature (Heritage, 3/2010), lot 2311, which realized \$2,530. NGC ID# 25UF, PCGS# 8255, CoinPlex ID# L5M1853D

Flashy AU53 1853-D Half Eagle

- 7180 1853-D Large D AU53 PCGS. Variety 34-X.** Five die varieties are known for this Dahlonega type issue. 34-X and 34-Z appear to be the rarest two combinations, while 34-Y is the most available. The present butter-gold example has mildly prooflike fields that lack any singularly mentionable marks. The left borders and portions of the devices are lightly brought up but the luster extent is pleasing for the designated grade. PCGS# 8255, NGC ID# 25UF, CoinPlex ID# L5M1853D

Borderline Uncirculated 1853-D Five

- 7181 1853-D Large D AU58 NGC. Variety 34-Y (formerly 29-V).** A honey-gold Dahlonega type coin that boasts an above-average strike, although the fletchings and lovelock are incompletely brought up, as always. A few of the vertical shield stripes are flat from contact, but the obverse is surprisingly unabraded. Ex: Fort Worth ANA Signature (Heritage, 3/2010), lot 2312, which realized \$4,025. NGC ID# 25UF, PCGS# 8255, CoinPlex ID# L5M1853D

Uncirculated 1853-D Half Eagle

- 7182 1853-D Large D MS60 NGC. Variety 34-Y (formerly 29-V).** This lovely Dahlonega type coin is free from visible marks and the light gold surfaces display abundant luster. The strike is good for the issue though the eyebrow and nose tip show blending of detail. We know of five die varieties for the 1853-D, all of which feature a Large D mintmark. Census: 6 in 60, 32 finer (12/12). NGC ID# 25UF, PCGS# 8255, CoinPlex ID# L5M1853D

1854-C Half Eagle, AU58
Only Seven Finer Coins at NGC

- 7183 1854-C AU58 NGC. Variety 22-J.** Both sides of this attractive near-Mint specimen are primarily yellow-gold with occasional green-gold overtones, and the luster is vaguely prooflike. Softly struck in the centers, as often seen, but with only hints of actual friction. On the obverse, a significant abrasion visits the cheek, and faint pinscratches are present at the field to the left of the forehead. Census: 15 in 58, 7 finer (11/12).
From The Ives Devos Collection. NGC ID# 25UH, PCGS# 8257, CoinPlex ID# L5M1854C

- 7184 1854-D Large DXF40 NGC. CAC. Variety 36-AA.** The mintmark is placed high and deeply entered with light repunching beneath the base. A caramel-gold example of this popular Dahlonega issue. A trace of aqua patina visits the obverse border. Essentially unabraded though slender strike-throughs (as coined) connect stars 11 to 13.
From The Ives Devos Collection. NGC ID# 25UK, PCGS# 8258, CoinPlex ID# L5M1854D

Smooth AU 1854-D Half Eagle
Large D Mintmark

- 7185 1854-D Large D AU50 PCGS. Variety 36-AA.** Housed in a green label holder, this Dahlonega type coin offers pumpkin-gold fields and olive-green high points. The strike is good by Southern branch mint standards, though the dentils are softly impressed. Uncommonly devoid of abrasions. Bright luster is especially prevalent on the reverse.
Ex: Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2314, which realized \$5,462.50. PCGS# 8258, NGC ID# 25UK, CoinPlex ID# L5M1854D

AU55 1854-D Half Eagle
Large D, Original Orange Toning

- 7186 1854-D Large D AU55 PCGS. Variety 36-AA.** A charming pumpkin-gold Choice AU half eagle from the legendary Dahlonega Mint. Unlike so many examples seen, the present piece is devoid of noticeable marks. Luster fills the legends and individually outlines the stars. The strike is a bit soft on the fletchings and lovelock though the rest of the devices are crisp. Population: 23 in 55, 48 finer (12/12). PCGS# 8258, NGC ID# 25UK, CoinPlex ID# L5M1854D

Mint State 1854-D Half Eagle
Large D Mintmark

- 7187 1854-D Large D MS61 PCGS. Variety 37-BB (formerly 31-X).** A beautiful peach-red representative of this scarce Dahlonega issue. Both sides are surprisingly unabraded. The strike is typical on the fletchings and forehead curls but the remainder of the design is bold. Population: 8 in 61, 12 finer (12/12).
Ex: Houston Signature (Heritage, 11/2007), lot 61647; Long Beach Signature (Heritage, 9/2010), lot 5345, which realized \$8,050. PCGS# 8258, NGC ID# 25UK, CoinPlex ID# L5M1854D

1854-D Five Dollar, MS62
Rich Gold Color

- 7188 1854-D Large D MS62 NGC. Variety 36-AA.** The base of the mintmark is lightly repunched. Liberty, the eagle, and the stars are nicely struck on this high grade Dahlonega half eagle, though the dentils are softly defined on both sides. The honey-gold surfaces are refreshingly unabraded save for faint marks near OF and a line on the cheek. Luster dominates the borders and motifs. Census: 19 in 62, 5 finer (11/12).
Ex: Long Beach Signature (Heritage, 6/2010), lot 1633, which realized \$9,775. NGC ID# 25UK, PCGS# 8258, CoinPlex ID# L5M1854D

7189 1854-D Medium D VF30 NGC. Variety 37-CC (formerly 31-W). Scarcer than its Large D counterpart, and in greater demand than the Weak D variety. A midgrade apricot-gold Dahlonega five with original surfaces and only a single remotely noticeable mark, located near star 11.
Ex: Fort Worth ANA Signature (Heritage, 3/2010), lot 2315, which realized \$1,725. PCGS# 88258, CoinPlex ID# L5M1854DMEDD

7190 1854-D Weak D — Mount Removed — NGC Details. AU. Variety 37-DD. Formerly listed as 31-T, 31-Y, and 31-Z. The mintmark is weak but fully visible on this example. Black and rose appear on the edge of the coin at 12 o'clock where a former jewelry mount was removed. A few faint hairlines are evident, but this is still an attractive Dahlonega half eagle. PCGS# 98258, CoinPlex ID# L5M1854DWKD

**AU58+ No Motto 1855-C Five
Sharply Struck**

7191 1855-C AU58+ NGC. CAC. Variety 1. This orange-gold near-Mint Charlotte five has a refreshingly sharp strike given its remote branch mint origin. Only the fletchings and left-side stars lack an intricate impression. Marks are unexpectedly few, and luster emerges from design elements. Census: 20 in 58 (2 in 58+), 14 finer (11/12). NGC ID# 25UR, PCGS# 8262, CoinPlex ID# L5M1855C

**Choice XF 1855-D Half Eagle
Large D Mintmark**

7192 1855-D Large D XF45 NGC. Variety 38-EE (formerly 32-AA). The mintage of Dahlonega half eagles diminished to 22,432 pieces in 1855, and Doug Winter calls the issue “a scarce and underrated coin.” The present honey-gold representative is only lightly abraded. A slender strike-through beneath the second S in STATES is as made. The upper right stars are lapped.
Ex: Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2317, which realized \$2,300. NGC ID# 25US, PCGS# 8263, CoinPlex ID# L5M1855D

**1855-D Five Dollar, AU53
Large D Variety**

7193 1855-D Large D AU53 NGC. Variety 38-EE (formerly 32-AA). This low mintage Dahlonega half eagle exhibits unmarked caramel-gold surfaces. The strike is good overall, although the eagle's neck and Liberty's lovelock show softness. The right-side stars are attenuated from die lapping, as produced.
Ex: Milwaukee Central States Signature (Heritage, 4/2010), which realized \$3,515.55. NGC ID# 25US, PCGS# 8263, CoinPlex ID# L5M1855D

**Scarce 1855-D Half Eagle, AU53
Medium D**

7194 1855-D Medium D AU53 NGC. Variety 38-CC (formerly 32-W). The advent of the San Francisco Mint reduced the flow of West Coast gold to Dahlonega. As a result, the 1855-D mintage was 22,432 pieces, the lowest half eagle production at the facility since 1839, though later issues had even smaller emissions. The present example has rose-red borders with light apricot toning at the centers. The centers are incompletely brought up though the remainder of the design is bold.
Ex: Orlando FUN Signature (Heritage, 1/2010), lot 3963, which realized \$3,737.50. PCGS# 98263, CoinPlex ID# L5M1855DMEDD

**Scarce 1855-D Five Dollar, AU55
Minimally Abraded for Issue**

7195 1855-D Medium D AU55 NGC. Variety 38-CC (formerly 32-W). This variety is identified by the upright of the D over the gap between the VE in FIVE. The 1855-D is the scarcest Dahlonega half eagle struck during the 1850s and is usually in the VF to XF range. It is very scarce in AU. The yellow-gold surfaces of this Choice AU piece display luster in the recesses, and reveal fewer and less severe marks than typically seen on most surviving examples. The eagle's neck and adjacent shield are weakly struck as typical. PCGS# 98263, CoinPlex ID# L5M1855DMEDD

**1855-D Half Eagle, AU58
Scarcer Medium D Variety**

- 7196 1855-D Medium D AU58 NGC. Variety 38-CC (formerly 32-W).**

The 1855-D Liberty half eagle is an underrated issue, with a surviving population of 125-150 examples in all grades. The variety with a Medium D mintmark is considerably more difficult to locate than its Large D counterpart. This well-detailed lemon-gold example has nearly full luster with hints of deeper gold color. Census: 17 in 58, 6 finer (12/12). PCGS# 98263, CoinPlex ID# L5M1855DMEDD

- 7197 1856-C XF45 PCGS. Variety 1.** The only known dies for 1856-C half eagles. This Choice XF piece has lovely honey-gold surfaces with traces of luster and myriad surface marks on each side, none of consequence. Population: 24 in 45, 49 finer (12/12). PCGS# 8267, NGC ID# 25UW, CoinPlex ID# L5M1856C

- 7198 1856-D XF40 PCGS. Variety 39-FF (formerly 33-BB).** Originally toned in peach and green-gold shades. Luster outlines the letters and devices. The fields display scattered faint marks. Fewer than 20,000 pieces were struck. Encapsulated in a green label holder. Ex: *Houston Signature* (Heritage, 12/2010), lot 4428, which realized \$2,760. PCGS# 8268, NGC ID# 25UX, CoinPlex ID# L5M1856D

**Select 1857 Five Dollar
Lustrous No Motto Type Coin**

- 7199 1857 MS63 PCGS.** Beautiful blended orange and sea-green toning drapes this coruscating and crisply struck No Motto type coin. A few delicate obverse hairlines are all that limit the grade. The 1857 is fairly plentiful in XF and AU but is seldom encountered in the present quality. Housed in a green label holder. Population: 10 in 63, 4 finer (12/12). Ex: *Derrick Snider Collection* (Heritage, 8/2006), lot 1864, which realized \$7,475. PCGS# 8271, NGC ID# 25V2, CoinPlex ID# L5M1857

- 7200 1857-C — Improperly Cleaned — NGC Details. AU. Variety 1.** Careful rotation reveals faint vertical hairlines throughout both sides, though other abrasions are minimal for a lightly circulated antebellum gold coin. Well struck by the standards of the Charlotte Mint, with definition lacking only on portions of the dentils. NGC ID# 25V3, PCGS# 8272, CoinPlex ID# L5M1857C

- 7201 1857-C — Improperly Cleaned — NGC Details. AU.** Just one die pair is known for this scarce and later Charlotte issue. Semibright brass-gold surfaces exhibit well defined design features, save for the often seen eagle's neck feathers. NGC ID# 25V3, PCGS# 8272, CoinPlex ID# L5M1857C

**1857-C Half Eagle, AU50
Popular Mintmark Type Coin**

- 7202 1857-C AU50 PCGS. CAC. Variety 1.** From a mintage of 31,360 pieces, the 1857-C Liberty half eagle is one of the more available dates of the C-mint series, with a surviving population of 225-275 examples in all grades. This lightly circulated AU specimen offers well-detailed design elements and vivid orange-gold surfaces, with highlights of green and rose. Population: 20 in 50, 56 finer (11/12). PCGS# 8272, NGC ID# 25V3, CoinPlex ID# L5M1857C

1857-D Half Eagle, XF40

- 7203 1857-D XF40 PCGS. CAC. Variety 41-GG (formerly 34-DD).** This piece displays attractive sun-gold color with areas of bright yellow highlights. This issue is known for an incompleteness of strike at the centers as is the case with this example. Only minor contacts appear, adding to the eye appeal of this lightly circulated representative. This coin resides in an old green label holder. From *The SPQR Collection of CAC Gold Sticker Coins*. PCGS# 8273, NGC ID# 25V4, CoinPlex ID# L5M1857D

Partly Lustrous 1857-D Five, AU55

- 7204 1857-D AU55 NGC. Variety 41-GG (formerly 34-DD).** Luster fills the borders and motifs of this evenly struck sun-gold Choice AU Dahlonega five. Only the dentils are lightly brought up. No marks are of any consequence aside from a single pinscratch on the field beneath the hair bun. From a small mintage of 17,046 pieces. Census: 18 in 55, 35 finer (11/12). NGC ID# 25V4, PCGS# 8273, CoinPlex ID# L5M1857D

**Near-Mint 1857-D Half Eagle
17,046 Pieces Struck**

- 7205 1857-D AU58 NGC. Variety 41-GG (formerly 34-DD).** A refreshingly unabraded Borderline Uncirculated Dahlonega half eagle that has peripheral luster and original yellow gold color. Slightly soft on the fletchings and forehead curls. A lower mintage issue, since California had its own mint and the Georgian gold fields provided diminishing returns. Census: 23 in 58 (1 in 58+), 12 finer (11/12). *Ex: Long Beach Signature (Heritage, 5/2009), lot 1669, which realized \$4,887.50.* NGC ID# 25V4, PCGS# 8273, CoinPlex ID# L5M1857D

**1857-D Five Dollar, AU58
Low-Mintage Dahlonega Issue**

- 7206 1857-D AU58 NGC. Variety 41-GG (formerly 34-DD).** A lovely peach-gold Borderline Uncirculated Dahlonega five. The surfaces are uncommonly smooth though, as an identifier, we note a few ticks near the upper arrowhead. Mintages had diminished by 1857, and examples such as the present piece that retain partial mint luster and their original "skin" are in high demand. Census: 22 in 58 (1 in 58+), 12 finer (12/12). NGC ID# 25V4, PCGS# 8273, CoinPlex ID# L5M1857D
- 7207 1857-S AU53 PCGS.** Yellow-to-orange surfaces have partial remaining luster. Decently detailed for the date, though scattered abrasions and a dig between stars 2 and 3 influence the technical grade. Population: 10 in 53, 30 finer (12/12). PCGS# 8275, NGC ID# 25V6, CoinPlex ID# L5M1857S

**1858-D Half Eagle, AU53
Scarce Late-Series Issue**

- 7208 1858-D AU53 NGC. Variety 42-GG (formerly 35-CC).** The 1858-D is seldom seen in any grade and is especially elusive in Almost Uncirculated. Only 125-150 pieces are estimated known in all grades, and of that number only 30-36 examples are believed extant in AU. This piece has little wear and noticeable traces of bright mint luster around the margins and devices. The centers are slightly soft, as almost always seen, and each side is peppered with numerous small, but individually insignificant abrasions. Census: 9 in 53, 62 finer (12/12). NGC ID# 25V9, PCGS# 8278, CoinPlex ID# L5M1858D

**Near-Mint 1858-D Half Eagle
Challenging Dahlonega Issue**

- 7209 1858-D AU58 NGC. Variety 42-GG (formerly 35-CC).** By 1858, gold deposits at Dahlonega were dwindling, and the 1858-D has a mintage of only 15,362 pieces. The present smooth caramel-gold Borderline Uncirculated example is nicely struck overall despite minor weakness on the forehead curls and fletchings. A shallow mint-made lamination is noted near the second S in STATES. Census: 33 in 58, 9 finer (11/12). *Ex: Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2327, which realized \$5,175.* NGC ID# 25V9, PCGS# 8278, CoinPlex ID# L5M1858D
- 7210 1858-S — Improperly Cleaned — NGC Details. AU.** Obviously cleaned with surfaces that are a tad bright; however, this is an exceptional piece with bold design motifs and minimal, scattered marks. A condition rarity from a low mintage of just 18,600 coins. NGC ID# 25VA, PCGS# 8279, CoinPlex ID# L5M1858S

AU50 1859-C Half Eagle

- 7211 1859-C AU50 NGC. Variety 1.** A single die pair is known for this late Charlotte issue, with all 1859-C five dollar pieces, regardless of grade, exhibiting distinct characteristics, including lack of definition on a majority of the eagle. Although there are a number of theories as to the reason for the striking problems, there is not a conclusive answer. This lightly circulated straw-gold example displays luminous and minimally marked surfaces. Census: 10 in 50, 83 finer (12/12). NGC ID# 25VC, PCGS# 8281, CoinPlex ID# L5M1859C

**Near-Mint 1859-D Half Eagle
Medium D Mintmark**

- 7212 1859-D Medium D AU58 NGC. Variety 43-CC (formerly 36-CC).** The 1859-D has the second lowest mintage in the Dahlonega five series with only 10,366 pieces struck. The present Borderline Uncirculated representative has lightly abraded wheat-gold surfaces. Luster dominates the legends and outlines other design elements. The centers show selected incompleteness of strike usual for the Georgian facility. Census: 23 in 58, 10 finer (11/12). Ex: *Milwaukee Central States (Heritage, 4/2010), lot 3632, which realized \$5,175.* NGC ID# 25VD, PCGS# 8282, CoinPlex ID# L5M1859D

**1859-D Large D Five Dollar, XF40
Very Rare Variant**

- 7213 1859-D Large D XF40 PCGS. Variety 44-HH (formerly 37-EE).** Of the two varieties used to strike the 10,366 pieces of the 1859-D, the Large D is much scarcer. The discovery coin appears to have been in Bass. Few are known in any grade. Even at the XF40 level, only two pieces have been certified with two finer (an AU55 and 58). The central strike is weak, as one would expect, and there are a few small to medium-sized abrasions, again as expected. Overall, the surfaces are orange-gold with underlying bright yellow-gold. PCGS# 98282, CoinPlex ID# L5M1859DLGD

**Large D 1859-D Half Eagle, AU55
Important Dahlonega Condition Rarity**

- 7214 1859-D Large D AU55 PCGS. CAC. Variety 44-HH (formerly 37-EE).** The 1859-D has a memorably low mintage of only 10,366 pieces, second lowest in the Dahlonega five series. The apricot-gold surfaces show the usual softness of strike on the eagle's neck and the curls around Liberty's face, but only slight abrasions are scattered over each side, none of which are worthy of mention. One small mint-made strike-through is noted on the chin. PCGS# 98282, CoinPlex ID# L5M1859DLGD

**1859-S Half Eagle, AU50
Very Rare in High Grade**

- 7215 1859-S AU50 PCGS.** The 1859-S Liberty half eagle claims a tiny mintage of 13,220 pieces, and the issue was heavily circulated in the 19th century. High-grade specimens are very rare today. This lightly circulated example displays well-detailed design elements, with pleasing yellow and orange-gold surfaces. Population: 3 in 50, 11 finer (12/12). PCGS# 8283, NGC ID# 25VE, CoinPlex ID# L5M1859S

**1860 Liberty Five, MS62
Underrated Date, Very Rare in Mint State**

- 7216 1860 MS62 NGC.** The 1860 Liberty half eagle boasts a low mintage of 19,763 pieces, and few examples were saved by contemporary collectors. The date is often overlooked today, because of the popularity of the Southern mint issues, but the 1860 is prized by specialists, as only a handful of specimens are extant in Mint State. This impressive MS62 example is sharply detailed throughout, and the well-preserved greenish-gold surfaces radiate vibrant mint luster. Census: 2 in 62, 3 finer (11/12). NGC ID# 25VF, PCGS# 8284, CoinPlex ID# L5M1860

AU 1860-C Half Eagle

7217 1860-C AU50 NGC. **Variety 1.** All 1860-C fives have an indistinct appearance on the eagle, as made from an improperly annealed die. For that reason, the issue is graded on the basis of luster extent and sharpness on the portrait. The present piece has better luster than expected for the AU50 level, and the bust truncation and other high points show only trivial wear. The straw-gold surfaces are minimally abraded and free from planchet deficiencies. NGC ID# 25VG, PCGS# 8285, CoinPlex ID# L5M1860C

1860-C Liberty Five, MS62
Only One Finer Coin at PCGS

7218 1860-C MS62 PCGS Secure. **Variety 1.** The mintage of C-mint half eagles was sharply reduced in 1860, to a meager 14,813 pieces, the lowest total since 1846. The surviving population probably numbers between 150 and 200 examples in all grades, with most examples seen in the VF-XF grade range. Mint State specimens are very rare. This attractive MS62 piece displays well-detailed design elements, with just a hint of softness on Liberty's hair and the central reverse. The pleasing orange-gold surfaces are highlighted by shades of lilac and rose, with vibrant mint luster on both sides. Only a few minor contact marks are evident. Population: 3 in 62, 1 finer (12/12). PCGS# 8285, NGC ID# 25VG, CoinPlex ID# L5M1860C

7219 1860-D Medium D — Improperly Cleaned — NGC Details. **XF. Variety 45-JJ (formerly 38-FF).** Both sides have the telltale hairlines of a lightly cleaned gold piece, in this case exhibiting considerable pale bluish-green toning on its light yellow surfaces. Myriad surface marks fail to diminish the eye appeal of this scarcity. NGC ID# 25VH, PCGS# 8286, CoinPlex ID# L5M1860D

7220 1860-D Medium D — Improperly Cleaned — NGC Details. **XF. Variety 45-HH (formerly 38-EE).** A lightly cleaned low-mintage Dahlonga five that has peach-tinged luster and a few closely spaced pinscratches near the left (facing) wingtip. The upper right reverse exhibits a faint retained lamination.
Ex: The Lucy Llewellyn Collection of Southern Gold (Heritage, 3/2010), lot 2334. NGC ID# 25VH, PCGS# 8286, CoinPlex ID# L5M1860D

Smooth 1860-D Five Dollar
Medium D, AU53

- 7221 1860-D Medium D AU53 NGC. CAC. Variety 45-JJ (formerly 38-FF). This late-era Dahlonega half eagle has pleasing honey-gold toning and more extensive luster than expected for the grade. Nearly unabraded, though one thin mark is near the profile and faint scuffs are between the ED in UNITED. The strike is good with the exception of the obverse rim at 8 o'clock, and opposite on the reverse at 10 o'clock, where the planchet may have been attenuated. A slender retained lamination passes through the left (facing) wing. NGC ID# 25VH, PCGS# 8286, CoinPlex ID# L5M1860D

Medium D 1860-D Five Dollar
Borderline Uncirculated

- 7222 1860-D Medium D AU58 PCGS. Variety 45-JJ (formerly 38-FF). A radiant lemon-gold Borderline Uncirculated example of this late-era Dahlonega half eagle. The luminous fields are only lightly abraded, and the strike is good despite moderate blending on the eagle's neck and the curls near the ear. Population: 20 in 58, 24 finer (12/12). Ex: Long Beach Signature (Heritage, 2/2008), lot 2548. PCGS# 8286, NGC ID# 25VH, CoinPlex ID# L5M1860D

Smooth MS62 1860-D Half Eagle
Medium D Variety

- 7223 1860-D Medium D MS62 PCGS. Variety 45-JJ (formerly 38-FF). A lemon-gold example of this late Dahlonega issue that surely qualifies as Condition Census, since the third party population data is inflated by resubmissions over the past quarter-century. Nicely struck, with blending of detail limited to the eagle's neck and Liberty's lovelock. The satiny apricot-gold surfaces are essentially unabraded aside from small marks near star 4. Despite a scant mintage of 14,635 pieces, three die varieties are known, distinguished by the mintmark size and location. Population: 9 in 62, 2 finer (11/12). PCGS# 8286, NGC ID# 25VH, CoinPlex ID# L5M1860D

**Uncirculated Sharpness
1861-C Five Dollar**

- 7224 1861-C — Improperly Cleaned — NGC Details. Unc. Variety 1.** Only 6,879 half eagles were struck at the Charlotte Mint in 1861, the last year of operations for that facility. Per Breen, 887 of those pieces were delivered by the C.S.A. in May 1861. This coin shows the reverse die break through the letters in AMERI that indicate the final die state of this issue, so this coin is potentially one of those issued after the Mint was seized. The strike is good and no wear is evident, but the surfaces are mildly bright from a wipe. NGC ID# 25VL, PCGS# 8289, CoinPlex ID# L5M1861C

**XF Details 1862-S Half Eagle
Just 9,500 Pieces Struck**

- 7225 1862-S — Damaged — NGC Details. XF.** The San Francisco Mint concentrated on double eagle production during the 1860s. The 1862-S five has a mintage of just 9,500 pieces. The present wheat-gold example is minutely granular and displays a number of pinpoint marks. There are no singularly relevant abrasions. NGC ID# 25VR, PCGS# 8293, CoinPlex ID# L5M1862S

Choice XF 1867-S Half Eagle

- 7226 1867-S XF45 NGC.** The protected areas display an attractive orange frost on this Choice XF example. Only 29,000 pieces were produced at the San Francisco Mint for this year. Myriad small surface abrasions pepper the surfaces on each side and a few small rim cuts appear. Census: 14 in 45, 26 finer (12/12). NGC ID# 25W4, PCGS# 8314, CoinPlex ID# L5M1867S

**1867-S Five Dollar, Almost Uncirculated
Low-Availability S-Mint Issue**

- 7227 1867-S AU50 NGC.** One of only 29,000 half eagles produced, the 1867-S undoubtedly saw extensive circulation during the frontier era. The fact that no Mint State examples have been certified by either major service dramatically illustrates this point. The present AU representative is tinged in coppery-gold and steel-blue patina and shows the normal quota of abrasions. A curious area of softness is noticed at the juncture of the eagle's shield and right (facing) wing. Census: 6 in 50, 20 finer (11/12).
Ex: *Central States Signature* (Heritage, 5/2004), lot 9500.
From *The Flagg Family Collection*. NGC ID# 25W4, PCGS# 8314, CoinPlex ID# L5M1867S

**1871-CC Five Dollar, VF20
Minimally Abraded for the Grade**

- 7228 1871-CC VF20 PCGS. Variety 1-A.** The 1871-CC half eagle claims a mintage of 20,770 pieces, and few examples were saved by contemporary collectors. The surviving population numbers no more than 140-150 pieces in all grades, with most examples seen in VF condition. This pleasing VF specimen shows the usual amount of wear for the issue, with no large or distracting abrasions. Population: 7 in 20, 64 finer (11/12). PCGS# 8323, NGC ID# 25WD, CoinPlex ID# L5M1871CC

**Near-Mint 1872-S Eagle
Tied With Four Others for Finest Known**

- 7229 1872-S AU58 NGC.** Virtually all of the 36,400 pieces struck of the 1872-S eagle were placed into circulation where they were either worn to grades below the XF level or lost. A limited number of XF coins did manage to survive, along with an even smaller quantity of AU pieces. This is one of only five NGC-graded examples at this level, with none finer, and PCGS has graded no examples at this level or higher (12/12). This lovely reddish-gold example displays slight reflectivity in the fields and a strong strike, except on the eagle's neck and upper arrow fletchings, as usual. NGC ID# 25WH, PCGS# 8327, CoinPlex ID# L5M1872S

**1873 Half Eagle, MS63
Elusive Closed 3 Logotype**

7230 1873 Closed 3 MS63 NGC. The 1873 Liberty half eagle with the Closed 3 in the date is slightly more elusive than its Open 3 counterpart. This attractive Select specimen features well-detailed design elements and lustrous greenish-gold surfaces, with a scattering of minor obverse contact marks that explain the grade. Census: 4 in 63, 7 finer (12/12). NGC ID# 25WJ, PCGS# 8329, CoinPlex ID# L5M1873CL3

7231 1875-S XF40 PCGS. Ex: The New Millenium Collection. This somewhat abraded half eagle has abundant remaining luster for the grade. The strike is reasonable, and rub is mostly limited to the bust truncation and forehead. Very scarce in any condition, as a mere 9,000 pieces were struck. Population: 6 in 40, 21 finer (12/12). PCGS# 8338, NGC ID# 25WV, CoinPlex ID# L5M1875S

**1875-S Half Eagle, AU55
Far Finer than Usual**

7232 1875-S AU55 NGC. A very high grade for this low mintage, heavily circulated issue, as the average certified grade barely reaches XF40. This example displays ample remaining design detail for the grade. Originally well struck, it is now modestly worn with numerous small abrasions on each side. Census: 10 in 55, 7 finer (12/12). NGC ID# 25WV, PCGS# 8338, CoinPlex ID# L5M1875S

**1878-S Gold Half Eagle, MS63
Only Seven Finer PCGS-Graded Examples**

7233 1878-S MS63 PCGS. CAC. The design elements retain attractive detail on this Select Mint State example. This San Francisco issue representative displays attractive luster and areas of reflectivity. The gold color is accented by highlights of orange. Population: 8 in 63, 7 finer (12/12). PCGS# 8347, NGC ID# 25X6, CoinPlex ID# L5M1878S

Underrated Near-Gem 1878-S Half Eagle

7234 1878-S MS64 PCGS. The S mintmark is quite tiny and faint on the reverse, almost as though a punch were used for a smaller denomination. This near-Gem boasts splendid surfaces, rich reddish-gold color with excellent luster. The strike is a tad soft on the portrait of Liberty, but there are no singular marks on either side. An underrated issue at this grade level, despite the moderate mintage of more than 144,000 pieces. Population: 6 in 64, 1 finer (12/12). PCGS# 8347, NGC ID# 25X6, CoinPlex ID# L5M1878S

7235 1879-S MS63 PCGS. Well-defined with generous wheat-gold luster that shows appreciable apricot accents. Bright with few marks of any individual significance. Population: 25 in 63, 9 finer (12/12). PCGS# 8350, NGC ID# 25X9, CoinPlex ID# L5M1879S

7236 1880-S MS64+ PCGS. CAC. Boldly impressed with a generally flaxen character to the subtly frosted luster. The smooth reverse adds occasional orange accents. Population: 85 in 64 (8 in 64+), 2 finer (12/12). PCGS# 8353, NGC ID# 25XC, CoinPlex ID# L5M1880S

**1882 Half Eagle, MS65
Condition Rarity**

7237 1882 MS65 PCGS. Although a relatively common issue in lower Mint State grades, precious few 1882 half eagles survive as Gems. The strong strike and soft, frosted luster are characteristic of the issue, but a near absence of surface marks places it head and shoulders above the typical example. Some olive-green patina borders each side. Population: 14 in 65, 0 finer (12/12). PCGS# 8358, NGC ID# 25XG, CoinPlex ID# L5M1882

**Borderline Uncirculated 1882-CC Five
Smooth and Partly Lustrous**

- 7238 1882-CC AU58 NGC. Variety 1-A.** A wheat-gold near-Mint Carson City representative whose sharp strike and smooth surfaces ensure significant eye appeal. Bright luster dominates the peripheries and motifs. The 1882-CC is collectible in circulated grades but is rare in Mint State. Struck from lightly clashed dies. NGC ID# 25XH, PCGS# 8359, CoinPlex ID# L5M1882CC

**1882-CC Five Dollar, AU58
Difficult To Locate in Mint State**

- 7239 1882-CC AU58 NGC. Variety 1-A.** A single die pair is currently identified for the 1882-CC half eagles. While NGC and PCGS have certified several 1882-CC fives in About Uncirculated grades, the number of examples in Mint State drops off considerably, and these are mostly in the lower levels of Uncirculated. Yellowish-tan patination cascades over the sides of this near-Mint State specimen, each of which is devoid of mentionable marks. The design elements are sharply and evenly defined. *From The Richmond Hill Collection.* NGC ID# 25XH, PCGS# 8359, CoinPlex ID# L5M1882CC

- 7240 1882-S MS64+ PCGS. CAC.** This shimmering, bright gold five dollars exhibits hints of orange-gold color. The design elements display a bold strike. A small copper spot appears near 1 o'clock on the obverse. Only 11 examples have received higher numeric grades from PCGS (12/12). PCGS# 8360, NGC ID# 25XJ, CoinPlex ID# L5M1882S

**Gem 1883 Liberty Half Eagle
Conditionally Rare in High Grades**

- 7241 1883 MS65 PCGS.** From a mintage of 233,461 pieces, the 1883 Liberty half eagle is surprisingly difficult to locate in high grade, although circulated examples remain plentiful. This attractive Gem displays pleasing peach-gold surfaces with only minor signs of contact. The design elements are sharply detailed throughout, and vibrant satiny mint luster enhances the considerable eye appeal. A true condition rarity, the 1883 is seldom offered in Gem condition. We expect spirited competition when this lot is called, as a comparable specimen may not become available for years. Population: 3 in 65, 1 finer (12/12). PCGS# 8361, NGC ID# 25XK, CoinPlex ID# L5M1883
-

**1883-CC Half Eagle, AU53
Very Scarce in This Grade**

- 7242 1883-CC AU53 NGC. Variety 1-A.** The only known variety. The 1883-CC half eagle is a scarce issue most often seen in VF and XF grades. It is very scarce in AU and quite rare in Mint State. The brassy-gold surfaces of this AU53 example display luster in the interstices. The design elements are typically struck, showing a few areas of localized softness. No mentionable marks are noted. Census: 17 in 53, 45 finer (11/12).
From The Flagg Family Collection. NGC ID# 25XL, PCGS# 8362, CoinPlex ID# L5M1883CC

**Choice AU 1884-CC Half Eagle
Sharply Struck With Rich Luster**

- 7243 1884-CC AU55 NGC.** Only a single pair of dies was required to strike off the 16,402 examples of the 1884-CC half eagle. This Choice AU example shows a few light, scattered marks along with most of the original luster over sharply struck surfaces that are a rich orange-red color. There is eye appeal to spare on this piece. NGC ID# 25XP, PCGS# 8365, CoinPlex ID# L5M1884CC

**Scarce 1884-CC Five Dollar, AU55
Above-Average Strike, Unusually Clean Surfaces**

- 7244 1884-CC AU55 NGC. Variety 1-A. CAC.** Only one die pair is known for the 1884-CC half eagles, producing 16,402 coins. The issue is scarce in circulated grades and rare in Mint State. The apricot-gold surfaces of this Choice AU specimen retain ample luster. The design elements exhibit above-average definition, particularly in the star centers, Liberty's hair, and the eagle's leg and neck feathers, all areas that are often weak. Additionally, both sides are devoid of mentionable marks, an important attribute for the coin as most examples are characterized by heavy abrasions and copper spots. NGC ID# 25XP, PCGS# 8365, CoinPlex ID# L5M1884CC

- 7245 1886 MS64 NGC.** Despite a substantial mintage of nearly 400,000 half eagles in 1886, this issue is a condition rarity and the average certified grade fails to reach MS60. This Choice Mint State piece has satiny yellow luster with splashes of orange toning and exceptional eye appeal. Census: 14 in 64, 2 finer (12/12). NGC ID# 25XU, PCGS# 8369, CoinPlex ID# L5M1886

- 7246 1890 MS61 NGC.** An important low-mintage issue at a time when minting efforts were geared toward silver dollars and double eagles. This light yellow piece has brilliant luster and scattered marks. A condition rarity in the Liberty half eagle series. Census: 10 in 61, 5 finer (12/12).
From The Flagg Family Collection. NGC ID# 25Y2, PCGS# 8375, CoinPlex ID# L5M1890

**1890-CC Half Eagle, MS62
Rare Any Finer**

- 7247 1890-CC MS62 PCGS. Variety 1-A.** The sole variety. The 1890-CC is one of the most common Carson City half eagles through the About Uncirculated and lower Mint State grades. It becomes more difficult to locate in MS62 and is rare any finer. The yellow-tan surfaces display well impressed design elements save for the often seen softness on the eagle's neck. A few darker streaks are visible in the upper left obverse field.
From The Flagg Family Collection. PCGS# 8376, NGC ID# 25Y3, CoinPlex ID# L5M1890CC

- 7248 1891-CC MS61 NGC. Variety 1-A.** A highly lustrous Nevada half eagle, this example has frosty bright yellow surfaces with hints of pinkish peripheral toning on each side. The 1-A die marriage seems slightly more common than the other variety, 2-A.
From The Flagg Family Collection. NGC ID# 25Y5, PCGS# 8378, CoinPlex ID# L5M1891CC

- 7249 1891-CC MS62+ PCGS. CAC. Variety 1-A.** A die crack from the bust tip to star 1 continues through several stars on this common variety. Both sides are frosty and lustrous with brilliant light yellow surfaces. Only a few of the myriad marks stand out among the others. PCGS# 8378, NGC ID# 25Y5, CoinPlex ID# L5M1891CC

- 7250 1892-CC AU58 NGC.** This largely unblemished Carson City half eagle is about as nice as can be found for the Borderline Uncirculated grade. The cartwheel luster is close to complete and the strike is sharp throughout, though a few rim bumps are visible on the obverse.
Ex: Long Beach Signature (Heritage, 5-6/2007), lot 2381. NGC ID# 25Y7, PCGS# 8380, CoinPlex ID# L5M1892CC

1892-CC Half Eagle, Deeply Lustrous MS63

- 7251 1892-CC MS63 PCGS. Variety 1-A.** The fairly large mintage of nearly 83,000 coins plus good survival makes the 1892-CC a popular issue from the next-to-last year of Carson City coinage. Glowing golden-orange luster encompasses both side of this Select example, which boasts excellent eye appeal despite a few grade-defining marks. Population: 13 in 63, 0 finer (11/12).
From *The Flagg Family Collection*. PCGS# 8380, NGC ID# 25Y7, CoinPlex ID# L5M1892CC

- 7252 1893-CC AU58 NGC. CAC. Variety 1-A.** A precisely struck and refreshingly unabraded final year wheat-gold CC-mint half eagle. The borders and devices are lustrous, particularly on the reverse.
Ex: *Martin L. Diffenbacher, Jr. Collection (Heritage, 1/2009)*, lot 5473.
From *The Ives Devos Collection*. NGC ID# 25YB, PCGS# 8384, CoinPlex ID# L5M1893CC

Scarce 1893-CC Half Eagle, MS62

- 7253 1893-CC MS62 PCGS. Variety 2-A.** A mintage of 60,000 pieces ensures the scarcity of the final Carson City half eagle issue. Three die varieties are known, with Variety 1-B as the "key." This lustrous sun-gold example exhibits a crisp strike and no more than the expected number of small marks. Population: 36 in 62, 12 finer (11/12). PCGS# 8384, NGC ID# 25YB, CoinPlex ID# L5M1893CC

- 7254 1897 MS64+ NGC.** Generally well-defined, though a touch of blending is noted on Liberty's upper hair strands. Luster ranges from yellow-orange to peach-touched. High all-around appeal. NGC has graded only 80 examples as MS65 or better (12/12). NGC ID# 25YM, PCGS# 8394, CoinPlex ID# L5M1897

- 7255 1899 MS64 NGC. CAC.** Impressive orange-gold luster with a frosty "skin" to each side. Only the first star is soft on an otherwise boldly struck reverse. A quality turn-of-the-century near-Gem. NGC ID# 25YS, PCGS# 8398, CoinPlex ID# L5M1899

1900 Liberty Half Eagle, MS65 Popular Type Coin

- 7256 1900 MS65 PCGS. CAC.** The 1900 Liberty half eagle is popular with type collectors because of its availability in high grade, and its turn-of-the-century date. This well-detailed Gem offers lustrous orange and peach-gold surfaces, with satiny mint luster, and only the most insignificant signs of contact. Population: 87 in 65, 8 finer (12/12). PCGS# 8400, NGC ID# 25YU, CoinPlex ID# L5M1900

- 7257 1901 MS65 PCGS.** Light yellow at the interiors with splashes of peach at the margins and a few "copper dots" at the lower reverse. Great detail for this turn-of-the-century issue. Population: 54 in 65, 12 finer (12/12). PCGS# 8402, NGC ID# 25YW, CoinPlex ID# L5M1901

Smooth Gem 1905 Half Eagle

- 7258 1905 MS65 PCGS.** The 1905 is plentiful in typical Mint State but at the Gem level it becomes scarce, especially when compared to type issues such as the 1901-S. The present boldly struck orange-gold example boasts vibrant luster and has minimal evidence of marks. Housed in an old green label holder. Population: 40 in 65 (1 in 65+), 13 finer (11/12). PCGS# 8411, NGC ID# 25Z6, CoinPlex ID# L5M1905

**Superb Gem 1905 Liberty Half Eagle
High-End Type or Date Collector Coin**

- 7259 1905 MS67 NGC.** Boldly impressed with generous peach luster and silky-smooth surfaces. Only a few tiny grazes skim the lightly patinated fields and central devices. The 1905 half eagle did not have a remarkably high mintage, topping out at just over 300,000 pieces, and above the Gem level the issue emerges as conditionally scarce. PCGS has graded no representatives of the 1905 half eagle as Superb Gems; NGC, for its part, recognizes just four MS67 examples and an MS68 coin alone is finer (12/12). This would make an elite type coin for the 20th century gold enthusiast. NGC ID# 25Z6, PCGS# 8411, CoinPlex ID# L5M1905

**1905-S Liberty Five, MS65
Only Three Finer Pieces at PCGS**

- 7260 1905-S MS65 PCGS. CAC.** The 1905-S Liberty half eagle is more elusive than its substantial mintage of 880,700 pieces would suggest, and it is a prime condition rarity at the Gem level. This impressive MS65 specimen exhibits sharply detailed design elements and brightly lustrous yellow and rose-gold surfaces. Population: 2 in 65, 3 finer (12/12). PCGS# 8412, NGC ID# 25Z7, CoinPlex ID# L5M1905S

**Gem 1906-D Liberty Five
First D-Mint Issue**

- 7261 1906-D MS65 PCGS.** The Denver Mint achieved a respectable mintage of 320,000 Liberty half eagles in 1906, during its first year of operations. The issue is quite popular with mintmark type collectors. This delightful Gem is sharply detailed, with satiny mint luster and pleasing peach-gold surfaces. A few minor contact marks in the fields do not detract from the overall appeal. Population: 46 in 65 (2 in 65+), 6 finer (12/12). PCGS# 8414, NGC ID# 25ZA, CoinPlex ID# L5M1906D

**1906-D Half Eagle, MS66
Only One Certified Finer**

- 7262 1906-D MS66 NGC.** The 1906-D half eagle, with a mintage of 320,000 pieces is an available issue in lower Mint State grades, but Premium Gems such as the present piece are elusive. This specimen is a richly frosted yellow-gold survivor that is free of most distracting abrasions, save for a tiny mark on Liberty's chin. This piece boasts an excellent strike save for the extreme high points, and this coin's originality adds to a long list of positive attributes. Census: 10 in 66, 0 finer (12/12). NGC ID# 25ZA, PCGS# 8414, CoinPlex ID# L5M1906D

- 7263 1906-S MS64 PCGS. CAC.** Remarkably well-defined with the pale yellow-gold luster on each side deepening only slightly on the approach to the margins. Scattered wispy marks preclude Gem status, but this is eye-appealing for an MS64 coin. Population: 34 in 64, 16 finer (12/12). PCGS# 8415, NGC ID# 25ZB, CoinPlex ID# L5M1906S

1907 Half Eagle, MS65

- 7264 1907 MS65 PCGS. CAC.** While 1907 was the final year of the Liberty design for quarter eagles, eagles, and double eagles, it was the penultimate year for the half eagles, as the Philadelphia Mint coined nearly half a million 1908 Liberty fives. This 1907 is a delightful Gem with frosty yellow-gold luster and wispy peripheral blue highlights. PCGS has only certified 18 finer examples (12/12). PCGS# 8416, NGC ID# 25ZC, CoinPlex ID# L5M1907

**Gem 1907-D Half Eagle
Three Points Above Average**

- 7265 1907-D MS65 PCGS. CAC.** The second Denver Mint Liberty half eagle, and the final issue of the design at that mint. The average certified grade of the 1907-D is MS62. This Gem has frosty yellow luster with sharp design motifs and pristine surfaces. The upright D mintmark is separated from the branch and feathers, and is centered over the V in FIVE. PCGS has only certified 17 finer (12/12). PCGS# 8417, NGC ID# 25ZD, CoinPlex ID# L5M1907D

**1907-D Half Eagle, MS67
Only One Certified Finer**

- 7266 1907-D MS67 NGC.** Tilted Mintmark. This variety has the mintmark tilted or canted sharply to the left with the upright of the mintmark nearly parallel to the left diagonal of the V in FIVE. The NGC Census Report states that just four examples of this date have been certified at the Superb Gem MS67 grade level, but also that one coin has actually been graded finer! We would like to see that coin, for we cannot imagine any example of this date with more aesthetic appeal than this example. A sharply struck example with every minute detail in the die fully defined. Both sides of this Superb Gem have rich orange-gold color with frosty luster. The few scattered marks that are present can only be seen with extremely close examination. An impressive example of the final (and only the second) Denver Mint half eagle of this design. A popular collecting option, especially years ago, is to assemble a complete set of half eagles from the different Mints. With the exception of the West Point Mint, with its W mintmark that has only recently been used, the Liberty half eagle series is the only single design to permit such a set of coinage. This example would be a nice centerpiece for just such a collection. Census: 4 in 67, 1 finer (12/12). NGC ID# 25ZD, PCGS# 8417, CoinPlex ID# L5M1907D

PROOF LIBERTY HALF EAGLE

PR61 1906 Five Dollar

- 7267 1906 PR61 NGC.** A proof mintage of only 85 pieces led to the rarity of this issue. The reverse of this eagle is particularly attractive, with richly mirrored fields. Hairlines, as seen to the left of the portrait, held this piece from a higher grade. A small planchet flaw appears at the dentils on the obverse between the first star and the 1 in the date. Census: 6 in 61, 19 finer (12/12). From *The Richmond Hill Collection*. NGC ID# 28DC, PCGS# 8501, CoinPlex ID# L5P1906

INDIAN HALF EAGLES

- 7268 1908 MS63 PCGS. CAC.** An attractive first-year Indian Head five, this coin displays pale yellow surfaces. Although there are a number of minor surface marks, they do little to diminish the attractiveness of this piece. PCGS# 8510, NGC ID# 28DE, CoinPlex ID# I5M1908

1908 Indian Five, MS64
First-Year Type Coin

- 7269 1908 MS64 NGC. CAC.** The 1908 Indian half eagle is usually available in high grade, and its status as the first year of the design makes it especially popular with type collectors. This attractive Choice specimen exhibits well-detailed design elements, with vibrant mint luster and pleasing yellow and rose-gold surfaces. NGC ID# 28DE, PCGS# 8510, CoinPlex ID# I5M1908
- 7270 1908-D MS63 PCGS.** A coruscating orange-gold half eagle with pleasing crispness of strike on the headdress and plumage. Impressively free from marks. Certified in a green label holder. PCGS# 8511, NGC ID# 28DF, CoinPlex ID# I5M1908D

1908-D Indian Half Eagle, MS64
First-Year D-Mint, Typically Sharply Struck

- 7271 1908-D MS64 PCGS.** This first-year D-mint Indian five is an in-demand candidate for type set purposes, usually a well-produced issue. This near-Gem displays deep reddish-golden color with a couple of medium-sized marks that prevent the MS65 grade. This piece is typically sharply struck with full satin luster. Ex: *Long Beach Signature (Heritage, 9/2003)*, lot 8042. From *The Flagg Family Collection*. PCGS# 8511, NGC ID# 28DF, CoinPlex ID# I5M1908D

Choice 1908-D Indian Half Eagle
Conditionally Rare in Higher Grades

- 7272 1908-D MS64 PCGS. CAC.** The 1908-D Indian half eagle is an underrated issue, from a small mintage of 148,000 pieces. This attractive Choice specimen exhibits well-detailed design elements and vibrant mint luster, with vivid orange and rose-gold surfaces. PCGS has certified only 11 coins in higher numeric grades (12/12). PCGS# 8511, NGC ID# 28DF, CoinPlex ID# I5M1908D

1908-S Five Dollar, MS62
Attractive Color

- 7273 1908-S MS62 PCGS.** The 1908-S is one of the most common dates in the Indian Head half eagle series despite its relatively low mintage of 82,000 pieces. Many survivors are likely from a hoard attributed to Virgil Brand. Attractive orange-gold color adorns the lustrous surfaces of this MS62 example. A few minute marks preclude a finer grade. Housed in a green label holder. PCGS# 8512, NGC ID# 28DG, CoinPlex ID# I5M1908S

MS64+ 1909 Indian Five Dollar

7274 1909 MS64+ PCGS. CAC. This high-end near-Gem example displays attractive color and includes a few darker splashes. The Indian design exhibits a lovely satin luster. A die break appears at the top of the first three numbers in the date. A few more noticeable surface marks appear near IN GOD WE TRUST. PCGS# 8513, NGC ID# 28DH, CoinPlex ID# I5M1909

7275 1909-D MS64 NGC. This sharply struck near-Gem exhibits pleasing luster on its yellow-gold surface. A few minute marks determine the grade. NGC ID# 28DJ, PCGS# 8514, CoinPlex ID# I5M1909D

7276 1909-D MS64 NGC. This well-struck butter-gold near-Gem Indian type coin provides coruscating luster and good eye appeal. The obverse is refreshingly unabraded, and the reverse displays only a couple of minor marks near the motto. NGC ID# 28DJ, PCGS# 8514, CoinPlex ID# I5M1909D

1909-D Half Eagle, MS65 Virtually Unobtainable Finer

7277 1909-D MS65 PCGS Secure. The 1909-D is the most common date in the Indian five dollar series, and is available through near-Gem. Gems, such as the present offering, can be located with patience and searching, but anything finer is virtually unobtainable. The brass-gold surfaces display very pleasing luster, and a solid strike imparts sharp detail to the design features, including the eagle's shoulder. A few tiny marks are unimportant. PCGS has seen only five pieces finer and NGC two finer. PCGS# 8514, NGC ID# 28DJ, CoinPlex ID# I5M1909D

Gem 1909-D Five Dollar Outstanding Type Coin

7278 1909-D MS65 PCGS. CAC. A high grade orange-gold Indian type coin with occasional glimpses of olive-green toning. Precisely struck and coruscating with exceptionally clean surfaces. Housed in a green label holder. A high mintage issue, but most Uncirculated examples grade MS62 or MS63. Only a few pieces have been certified above Gem. PCGS# 8514, NGC ID# 28DJ, CoinPlex ID# I5M1909D

Coveted 1909-O Half Eagle AU Sharpness

7279 1909-O — Improperly Cleaned — NGC Details. AU. In its final year of operation and after a 15-year hiatus, the New Orleans Mint struck 34,200 half eagles in 1909. Despite the low production relatively few examples were saved, since collectors of the day instead chased San Francisco cents. The present well defined representative has a bold mintmark and mildly luminous apricot-gold surfaces. NGC ID# 25ZK, PCGS# 8515, CoinPlex ID# I5M1909O

1909-O Half Eagle, AU53 In-Demand Key Series Issue

7280 1909-O AU53 NGC. The low-mintage 1909-O half eagle, struck in the meager amount of only 34,200 pieces, is a popular issue in any grade approaching Mint State. This AU53 NGC-certified example displays antique-gold satiny surfaces that show few relevant marks and excellent eye appeal, a nice example of this in-demand key date. NGC ID# 25ZK, PCGS# 8515, CoinPlex ID# I5M1909O

1909-S Half Eagle, MS62
Elusive in Mint State

- 7281 1909-S MS62 PCGS.** Despite a mintage approaching 300,000 pieces, the 1909-S Indian Head five dollar is an elusive issue in all Mint State grades, and virtually unobtainable in Gem. Pumpkin-gold patination bathes the lustrous surfaces of this MS62 example. The design elements are well impressed, save for the typically seen softness on the eagle's shoulder. A few unobtrusive marks limit the grade. Population: 88 in 62 (2 in 62+), 44 finer (12/12). *From The Richmond Hill Collection.* PCGS# 8516, NGC ID# 25ZL, CoinPlex ID# I5M1909S

1910 Half Eagle, MS64
Borderline Condition Rarity

- 7282 1910 MS64 NGC.** CAC. Despite a mintage of more than 600,000 coins, the 1910 remains as one of the important condition rarities in the Indian half eagle series. The average certified grade is only MS60. A frosty near-Gem, this 1910 half eagle has brilliant yellow-gold surfaces with bold design motifs. A few trivial marks are evident on the reverse, preventing a higher grade. NGC has only certified 31 finer examples (12/12). NGC ID# 28DK, PCGS# 8517, CoinPlex ID# I5M1910
- 7283 1910-D MS62 PCGS.** Orange-tinged gold is lustrous with light to moderate abrasions. After a mammoth mintage of half eagles in 1909, Denver cut back to under 200,000 pieces in 1910. PCGS# 8518, NGC ID# 28DL, CoinPlex ID# I5M1910D
- 7284 1911 MS63 PCGS.** CAC. A variety of yellow, gold, and silver hues provides an attractive appearance to this coin. The piece is well-struck and lustrous. PCGS# 8520, NGC ID# 28DP, CoinPlex ID# I5M1911
- 7285 1911 MS63 NGC.** CAC. The orange cast to the surfaces fades at certain angles to the light but never entirely goes away. A lightly marked but all-around attractive example of this relatively accessible Indian half eagle type issue. NGC ID# 28DP, PCGS# 8520, CoinPlex ID# I5M1911
- 7286 1911-D AU55 NGC.** An important issue among Indian half eagles, the 1911-D is overshadowed by its similarly dated cousin, the famous 1911-D quarter eagle. This Choice AU specimen has satiny yellow luster with wisps of pale blue overtones. A lovely example. NGC ID# 28DR, PCGS# 8521, CoinPlex ID# I5M1911D

Near-Mint 1911-D Five Dollar

- 7287 1911-D AU58 PCGS.** CAC. An attractive representative, this 1911-D half eagle is just a hair's breadth away from Mint State, displaying most of its original luster intact over attractive apricot-gold surfaces. Areas of wear appear at the extreme high points of the headdress and the forward eagle's wing on the reverse. Minor abrasions are scattered throughout, with no mentionable marks present. PCGS# 8521, NGC ID# 28DR, CoinPlex ID# I5M1911D

1912-S Half Eagle, MS62
Challenging Issue in High Grade

- 7288 1912-S MS62 PCGS.** CAC. The 1912-S Indian half eagle is very scarce in lower Mint State grades, and one of the most challenging issues of the series in high grade. This attractive MS62 example exhibits well-detailed design elements and lustrous orange-gold surfaces. Population: 72 in 62 (1 in 62+), 35 finer (11/12). PCGS# 8524, NGC ID# 25ZN, CoinPlex ID# I5M1912S
- 7289 1913 MS63 PCGS.** Lustrous orange-gold with small copper spots at parts of the margins on both sides. Decently detailed with a number of small abrasions that collectively put this coin in the Select category. Housed in a green label holder. PCGS# 8525, NGC ID# 28DT, CoinPlex ID# I5M1913

Choice 1913 Indian Half Eagle
Sharply Detailed Specimen

- 7290 1913 MS64 PCGS.** CAC. The 1913 Indian half eagle is an available date in most grades, and a favorite choice of type collectors. This sharply detailed Choice specimen offers vivid green and orange-gold surfaces, with vibrant mint luster and ample eye appeal. The surfaces are remarkably free of distractions. PCGS# 8525, NGC ID# 28DT, CoinPlex ID# I5M1913

**Mint State 1913-S Five Dollar
Lavish Reddish-Gold Color**

- 7291 1913-S MS61 PCGS.** Engaging luster complements the lavish reddish-gold color on each side of this Mint State 1913-S half eagle. A couple of hits on the Indian's cheek help account for the grade, but much eye appeal is present. At one time the 1913-S was thought to be among the rarest issues in the series, but some overseas hoards have added to the supply of lower-Mint State examples. PCGS# 8526, NGC ID# 25ZP, CoinPlex ID# I5M1913S

Challenging 1913-S Half Eagle, MS63

- 7292 1913-S MS63 ANACS.** The 1913-S is a challenging half eagle to locate in Mint State, especially the better grades. This attractive Select example displays deep reddish patina with slight lilac accents over the high points. The devices are well-struck overall, and minimal abrasions are present. A nice representative of this elusive S-mint five.
Ex: Long Beach Signature (Heritage, 9/2012), lot 4968. NGC ID# 25ZP, PCGS# 8526, CoinPlex ID# I5M1913S

- 7293 1914 MS63 PCGS.** Hazy honey-gold surfaces exhibit frosty yellow luster with bold design definition and trivial marks on this Select Mint State Indian half eagle.
From The Flagg Family Collection. PCGS# 8527, NGC ID# 28DU, CoinPlex ID# I5M1914

- 7294 1914 MS63 PCGS.** Attractive straw-gold color and hints of peach add to the attractiveness of this well-struck example. The 1914 is a slightly better date in this short and obtainable series. PCGS# 8527, NGC ID# 28DU, CoinPlex ID# I5M1914

**Select 1914-D Indian Five
Lustrous and Colorful**

- 7295 1914-D MS63 PCGS.** The 1914-D Indian half eagle claims a mintage of 247,000 pieces, and the issue is a median rarity in the series. This impressive Select specimen features well-detailed design elements and lustrous orange-gold surfaces, with accents of lilac. Housed in a green label holder. PCGS# 8528, NGC ID# 28DV, CoinPlex ID# I5M1914D

- 7296 1915 AU58 PCGS. CAC Gold Label.** Did PCGS get this coin wrong? CAC thinks so, and though the line between friction and a soft strike is ambiguous on the highest design elements, the generous yellow-orange luster and relative lack of marks make for a wonderful example. Housed in a small-format PCGS holder. PCGS# 8530, NGC ID# 28DX, CoinPlex ID# I5M1915

Toned Choice 1915 Half Eagle

- 7297 1915 MS64 PCGS. CAC.** This boldly struck near-Gem type coin offers vibrant peach-gold luster. The obverse is well preserved and the reverse shows only scattered minor abrasions. Certified in a green label holder. The Philadelphia Mint had struck half eagles every year since 1817, but because of World War I, 1915 was the final issue from the facility until 1929. PCGS# 8530, NGC ID# 28DX, CoinPlex ID# I5M1915

**Mint State 1915-S Five Dollar
Elusive Midseries S-Mint Issue**

- 7298 1915-S MS61 PCGS.** Lovely golden-yellow color and rich luster lend an air of cachet to this 1915-S Mint State half eagle, a nice example of this elusive midseries S-mint, one of the most difficult in the series. Despite a few small pecks on the Indian's cheek and scattered about the fields on both sides, much appeal remains, and the strike is bold throughout. PCGS# 8531, NGC ID# 25ZR, CoinPlex ID# I5M1915S

MS62 1915-S Half Eagle
Scarce Issue, Seldom Seen Finer

7299 1915-S MS62 NGC. A couple of small ticks on the Indian's cheek and a larger one on the upper lip are among few mentionable marks on this MS62 1915-S, a scarcer issue within the series and seldom seen at the Select grade level. Other contact marks are scattered in the reverse fields. Reddish-orange color and soft yet thorough luster increase the eye appeal. NGC has seen only 21 submissions finer (12/12). NGC ID# 25ZR, PCGS# 8531, CoinPlex ID# 15M1915S

7300 1916-S MS61 NGC. Yellow-gold surfaces exhibit whispers of soft rose over portions of the central devices. A well directed strike leaves relatively strong definition on the design elements. The mintmark appears as a blob. NGC ID# 28DY, PCGS# 8532, CoinPlex ID# 15M1916S

7301 1916-S MS61 PCGS. CAC. Deep rose gold surfaces display brilliant and frosty mint luster with traces of sky-blue peripheral toning on the obverse. This sharply detailed piece is the last Indian half eagle until 1929. The denomination was only minted at San Francisco in 1916. PCGS# 8532, NGC ID# 28DY, CoinPlex ID# 15M1916S

Well-Struck 1916-S Five Dollar, MS62

7302 1916-S MS62 PCGS. The 1916-S five dollar is readily obtainable in grades through MS63 due to a hoard of about 200 Mint State examples discovered in the early to mid-1980s. The lustrous yellow-gold surface of this MS62 specimen are well-struck, though the mintmark is mushy, as often seen. A few minute marks are visible in the reverse fields. PCGS# 8532, NGC ID# 28DY, CoinPlex ID# 15M1916S

Well-Detailed 1916-S Half Eagle, MS62

7303 1916-S MS62 PCGS. CAC. Despite the relatively small mintage of 240,000 pieces, the 1916-S Indian five dollar piece can be located without too much difficulty owing to a few hundred Mint State pieces found in a hoard in the 1980s. Wheat-gold surfaces yield soft luster and well-struck design features. The mintmark is quite mushy, as sometimes seen. PCGS# 8532, NGC ID# 28DY, CoinPlex ID# 15M1916S

Affordable 1929 Half Eagle

7304 1929 Genuine PCGS. The PCGS number ending in .92 suggests Cleaning as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of an XF specimen that has been improperly cleaned. This piece shows a few splashes of pale orange toning on its light yellow surfaces. A remarkable 1929 half eagle, one of the few worn pieces in existence.
From The Teich Family Collection. PCGS# 8533, NGC ID# 2800, CoinPlex ID# 15M1929

EARLY EAGLES

Late-State BD-1 1800 Ten Dollar, XF45
Struck After 1801-Dated Coins

- 7305 1800 XF45 PCGS. BD-1, High R.3. Bass-Dannreuther Die State c/e. Later state of obverse with heavy crack linking the BER of LIBERTY and extensions to either side, as well as crumbling of rim denticles at star 11. The semireflective character of the remaining luster, its yellow-gold uncommonly bright for a centuries-old coin, suggests recently lapped dies, and the cracking at the tailfeathers on the reverse reemphasizes the lateness of the die state. Only one 1800-dated obverse was used to strike eagle or ten-dollar gold coins, and the obverse was used only in conjunction with a reverse held over from 1799, but based on die-state evidence, this coin was struck *after* the coins from the 1801 BD-1 die pair. In the austere early years of the U.S. Mint, the date of an obverse die was less important than whether it could still be used. PCGS# 8563, NGC ID# 2626, CoinPlex ID# E101800

AU Sharpness 1801 Ten Dollar, BD-2

- 7306 1801 — Smoothed — PCGS Genuine. AU Details. BD-2, R.2. As is usual for BD-2, nine vertical mint-made “spines” are concealed within Liberty’s cap. The straw-gold obverse is thickly hairlined and a large cluster of small marks on the right obverse field has been whizzed. The butter-gold reverse is mildly cleaned but otherwise pleasing. An obverse strike-through at 5 o’clock is mint-produced, and the same is true for the light parallel adjustment marks near the lower reverse border. PCGS# 8564, NGC ID# 2627, CoinPlex ID# E101801

LIBERTY EAGLES

- 7307 1839 Type of 1838, Large Letters — Cleaning — PCGS Genuine. XF Details. The Type of 1838 with the curved bust line, an important type only issued during the first two years of Liberty eagle coinage. This example has been lightly cleaned but retains excellent eye appeal. The surfaces are light yellow with scattered marks. PCGS# 8576, NGC ID# 262E, CoinPlex ID# LTM1839LL

1839 Type of 1838 Eagle, AU50
Large Letters Reverse

- 7308 1839 Type of 1838, Large Letters AU50 NGC. The distinctly curved bust line is indicative of the first head style, known as the Type of 1838 as that was the first year of the design. These coins, with the Large Letters reverse, are sometimes described as overdates, although the slight doubling is more likely a repunched date. This pleasing piece has light green-gold surfaces with traces of luster and minimal handling marks. Census: 16 in 50, 83 finer (11/12). NGC ID# 262E, PCGS# 8576, CoinPlex ID# LTM1839LL

1840 Eagle, AU55

7309 1840 AU55 NGC. Myriad surface marks are visible on both sides of this green-gold early Liberty ten. Traces of pastel orange toning appear along the border to frame the devices on each side of this Choice AU example. Light high-point wear does little to diminish the satin luster. Census: 27 in 55, 25 finer (12/12). NGC ID# 262G, PCGS# 8581, CoinPlex ID# LTM1840

7310 1841 AU55 NGC. Rich yellow gold surfaces exhibit a hint of green on this lightly worn piece, with myriad marks on each side that are inconsequential. Census: 29 in 55, 31 finer (12/12). *From The Flagg Family Collection.* NGC ID# 262H, PCGS# 8582, CoinPlex ID# LTM1841

1841-O Ten Dollar, XF Sharpness
Very Scarce O-Mint Issue

7311 1841-O — Obverse Scratched — NGC Details. XF. Variety 1. The 1841-O is the second scarcest O-mint ten in terms of overall rarity. It is the rarest in terms of high-grade rarity with only 50 to 60 pieces known in all grades, few of which are known better than XF. The yellow-gold surfaces take on significantly deeper orange-gold color around the devices on each side, and there are numerous small abrasions scattered about. The only mark of note is a long but shallow scratch above the date. NGC ID# 262J, PCGS# 8583, CoinPlex ID# LTM1841O

1847-O Eagle, MS62
High Mintage Condition Rarity

7312 1847-O MS62 PCGS. Although the 571,500 coin mintage was higher than any other New Orleans Mint eagle, this issue is still a major rarity in Mint State grades. The average grade of more than 1,000 certified examples of this issue is less than 50. This impressive specimen features brilliant green-gold luster with frosty surfaces and has few peers. Several of the obverse stars are flat due to an uneven strike, with remaining detail quite sharp. Star 6 is bold with complete radials, while most other stars show partial detail, and some show no detail at all. Population: 2 in 62, 4 finer (12/12). PCGS# 8598, NGC ID# 2632, CoinPlex ID# LTM1847O

7313 1849 AU58 NGC. The semibright surfaces of this near-Mint State eagle are devoid of significant marks. The devices are nicely defined except for softness on the eagle's neck and left (facing) leg. This issue is rare in Mint State grades. NGC ID# 2635, PCGS# 8601, CoinPlex ID# LTM1849

7314 1850 Large Date AU55 PCGS. CAC. A canary-gold No Motto example that is devoid of distracting marks. Luster emerges from design elements, especially on the reverse. The strike is bold save for the stars, which were deeply hubbed and have lightly impressed centers. Population: 13 in 55, 17 finer (12/12). PCGS# 8603, NGC ID# 2637, CoinPlex ID# LTM1850LD

7315 1850 Small Date XF45 PCGS. CAC. The more challenging "Small Date," which seems to float within the exergue under the bust. Moderately abraded yellow-gold with a blunt strike on the peripheral elements but better-defined centers. For the variety, Population: 24 in 45, 39 finer (12/12). *Ex: Rosemont Central States Signature (Heritage, 4/2011), lot 6626.* PCGS# 8604, NGC ID# 2638, CoinPlex ID# LTM1850SD

- 7316 1850 Small Date AU50 PCGS.** A light peach overtone graces pale yellow surfaces. Subtle luster remains on moderately abraded surfaces. This Small Date piece shows typical peripheral striking softness. Population: 16 in 50, 23 finer (12/12). PCGS# 8604, NGC ID# 2638, CoinPlex ID# LTM1850SD

Better Date 1850-O Ten, AU53

- 7317 1850-O AU53 PCGS. Variety 1.** A mintage of 57,500 pieces makes the 1850-O much scarcer than its 1851-O successor. This apricot-gold New Orleans No Motto example displays moderate marks but none are worthy of individual mention. Luster fills the legends and eagle and confirms only brief antebellum circulation. PCGS# 8605, NGC ID# 2639, CoinPlex ID# LTM1850O

- 7318 1851-O XF40 PCGS. CAC Gold Label. Variety 1.** Housed in a green-label PCGS holder is a remarkable Liberty eagle with rich yellow surfaces and considerable luster for the grade. From *The SPQR Collection of CAC Gold Sticker Coins*. PCGS# 8607, NGC ID# 263B, CoinPlex ID# LTM1851O

- 7319 1851-O AU55 NGC. Variety 1.** A butter-gold New Orleans No Motto ten with radiant, lightly abraded surfaces. Bright luster fills the legends, plumage, and hair. One slight reverse rim ding at 7:30. The shield ring atop the second vertical stripe is always present on this issue. NGC ID# 263B, PCGS# 8607, CoinPlex ID# LTM1851O

**Near-Mint 1851-O Ten Dollar
No Noticeable Marks**

- 7320 1851-O AU58 NGC. Variety 1.** A shield ring rests atop the second vertical stripe, as always for this New Orleans No Motto type issue. This minimally abraded representative has well struck motifs though a few stars are lightly brought up. The wheat-gold fields exhibit luster at the borders and throughout the devices. NGC ID# 263B, PCGS# 8607, CoinPlex ID# LTM1851O

- 7321 1852 AU55 PCGS. CAC Gold Label.** Delicate violet-blue tints visit the still-lustrous fields of this otherwise yellow-orange Liberty ten. Scattered light abrasions are noted on the well struck portrait and within the ring of softly struck stars. Population: 18 in 55, 26 finer (12/12). From *The SPQR Collection of CAC Gold Sticker Coins*. PCGS# 8608, NGC ID# 263C, CoinPlex ID# LTM1852

1852 Eagle, MS61

Only Five Finer NGC-Graded Examples

- 7322 1852 MS61 NGC. CAC.** Although the mintage was substantial with 263,106 coins struck, these pieces circulated heavily and as a result the average grade of the surviving population falls in the XF range, with Mint State pieces rarely encountered. Attractive orange-gold color appears on this piece. Numerous surface marks are present, including several on Liberty. Nonetheless, this is a high-grade survivor. Census: 24 in 61, 5 finer (12/12). From *The Richmond Hill Collection*. NGC ID# 263C, PCGS# 8608, CoinPlex ID# LTM1852

Gorgeous 1853/'2' Eagle, AU58

- 7323 1853/'2' AU58 NGC. CAC. FS-301.** Numismatists disagree on exactly "what" is underneath the 3, hence the 1853/'2' designation on the NGC slab. Even so, the variety is listed in the *Guide Book* with no hedging or quotation marks. There is certainly the curve of something near the lower ball of the 3, and this near-Mint State example displays gorgeous eye appeal otherwise. The surfaces are relatively unperturbed, with flowing luster and a decent strike. Census: 24 in 58, 1 finer (12/12). NGC ID# 263E, PCGS# 8611, CoinPlex ID# LTM18532

**Borderline Uncirculated 1853-O Eagle
Attractive Antebellum Issue**

- 7324 1853-O AU58 NGC. Variety 4.** Low date, repunched 53. This antebellum O-mint issue was struck in the small amount of 51,000 coins, most of which circulated rather widely. This near-Mint piece is one of 45 such graded at NGC with but four finer (12/12). Attractive yellow-gold color complements surfaces that are well-struck, particularly on the reverse, and show few marks of any size. From *The Flagg Family Collection*. NGC ID# 263F, PCGS# 8612, CoinPlex ID# LTM1853O

**1854 Eagle, AU58
Only Six Finer PCGS-Graded Examples**

7325 1854 AU58 PCGS. Butter-gold in color, this near-Mint representative of this better date No Motto ten displays hints of rose along with areas of lemon hues at the extreme outer edges. Only 54,250 pieces were produced. The majority of the surface marks appear in the fields, with a few horizontal marks present near Liberty's neck. Population: 13 in 58, 6 finer (12/12). PCGS# 8613, NGC ID# 263G, CoinPlex ID# LTM1854

7326 1854-O Large Date AU53 PCGS. Variety 2. Lowest mintmark placement among Large Date variants for the year. Softly struck stars surround a better-defined portrait. An old pinscratch passes behind Liberty's head. Population: 15 in 53, 29 finer (12/12). PCGS# 98614, CoinPlex ID# LTM1854OLD

7327 1855 AU58 NGC. A thin mark appears between Liberty's throat and star 1 on this near-Mint specimen, with brilliant luster and bright yellow surfaces that show only a trace of wear. *From The Richmond Hill Collection.* NGC ID# 263L, PCGS# 8616, CoinPlex ID# LTM1855

7328 1855 AU58 NGC. A plentiful date in the Liberty eagle series from the mid-1850s, this near-Mint example has brilliant light yellow luster with excellent surfaces for the grade. A splendid specimen for a date or type collection. *From The Flagg Family Collection.* NGC ID# 263L, PCGS# 8616, CoinPlex ID# LTM1855

**Choice AU 1855-O Liberty Eagle
Recovered From the S.S. Republic**

7329 1855-O AU55 NGC. Variety 2. Ex: *S.S. Republic*. The date is low in the field and not blatantly repunched as on Variety 1. Pale yellow-gold surfaces are radiant with semireflectivity on the reverse. The stars show striking softness, but the interiors have better detail. This lot comes with an informative DVD, presentation box (lid separated), and slipcover. NGC ID# 263M, PCGS# 8617, CoinPlex ID# LTM18550

**Lovely MS62 1856 Ten Dollar
Only Three Finer NGC-Graded Examples**

7330 1856 MS62 NGC. The 1856 eagle was produced to the extent of a mere 60,490 business strikes, and Mint State examples are quite rare. This attractive piece exhibits bright yellow-gold color. An interesting horizontal die line extends from the back of the hair framing Liberty's face through the middle of the Y in LIBERTY and ends at one of the beads in the triple-beaded cord wrapping the bun. Census: 3 in 62, 3 finer (12/12). NGC ID# 263P, PCGS# 8619, CoinPlex ID# LTM1856

**1856-O Ten Dollar, AU58
Variety One, Late Die State**

7331 1856-O AU58 NGC. Variety 1. This die state clearly shows die rust around LIBE on the coronet. The 1856-O is a very rare New Orleans eagle, and one that is seldom seen in any grade. Only 14,500 business strikes were produced, and this piece seems sharper than average, for the issue, with crisply defined centers. Typically marked, with prooflike surfaces and bright green-gold color, there is also a moderate haze in the fields, and light wear is evident on the highest points of each side. Only five coins have been graded higher, by NGC and PCGS combined. *Ex: New York Signature (Heritage, 11/2003), lot 7662.* *From The Flagg Family Collection.* NGC ID# 263R, PCGS# 8620, CoinPlex ID# LTM1856O

7332 1856-S AU55 NGC. CAC. The Large S mintmark variety, which is scarcer than its Medium S counterpart. The peach-gold surfaces of this Choice AU eagle retain luster in the recessed areas of the well struck design elements. The few minute marks are undisturbing. NGC ID# 263S, PCGS# 8621, CoinPlex ID# LTM1856S

1859 Eagle, AU58, Low-Mintage P-Mint

- 7333 1859 AU58 NGC.** Likely due to its P-mint status, the 1859 eagle is underrated despite its small mintage of 16,013 circulation strikes. Most examples found are worn down to the Choice XF level or thereabouts. This near-Mint State example boasts engaging, bright mint luster over orange-gold surfaces that show a peppering of small marks on each side. Census: 26 in 58, 8 finer (11/12). From *The Flagg Family Collection*. NGC ID# 263Z, PCGS# 8628, CoinPlex ID# LTM1859

1859 Liberty Ten, MS60 Important Condition Rarity

- 7334 1859 MS60 NGC.** A spectacular prooflike example of this scarce, low mintage issue. Only 16,093 pieces were produced, and a substantial number show incredibly deep mirrors, as on this coin. The only "hoard" of this date to surface was a group of nine pieces from the *S.S. Republic*. The central design elements are fully struck, while the peripheral stars are all weak. Numerous small abrasions are peppered over each side and account for the MS60 grade. Nevertheless, because of the deep prooflike fields, this coin has eye appeal that transcends the grade. Census: 3 in 60, 5 finer (12/12). NGC ID# 263Z, PCGS# 8628, CoinPlex ID# LTM1859

- 7335 1860 AU50 NGC.** Rounded or five-fold hairbun subtype. A lightly circulated yellow-gold No Motto ten with moderately marked surfaces. A mere 15,055 eagles were struck at Philadelphia in 1860, and survivors are elusive.

Ex: *Houston Signature* (Heritage, 12/2010), lot 4509, which realized \$1,380. NGC ID# 2644, PCGS# 8631, CoinPlex ID# LTM1860

- 7336 1860 AU50 PCGS.** Bulging bun subtype. Luster concentrates in the recessed areas of this yellow-gold AU eagle, and the design features are very well defined. Distributed minute marks are unobtrusive. Population: 19 in 50, 32 finer (12/12). PCGS# 8631, NGC ID# 2644, CoinPlex ID# LTM1860

- 7337 1860 AU50 PCGS. CAC.** Bulging Bun subtype. Satiny and luminous with pools of original luster hidden in the protected areas of the margins. Modestly rubbed with even orange-gold color overall. The only marks of any note are a series of four nearly horizontal ones in the right obverse field. Population: 18 in 50, 30 finer (6/11). PCGS# 8631, NGC ID# 2644, CoinPlex ID# LTM1860

- 7338 1860 AU53 PCGS. CAC.** Six-fold or "bulging" bun subtype. Light wear across the high points with numerous small, scattered marks. Well-defined for the issue and undoubtedly high-end in the context of the low mintage. Population: 11 in 53, 21 finer (12/12). PCGS# 8631, NGC ID# 2644, CoinPlex ID# LTM1860

- 7339 1860-O AU50 NGC. Variety 1.** The New Orleans Mint produced just 11,100 eagles in 1860, the final issue of the denomination from the facility prior to 1879. Among the 300 or so survivors is the present straw-gold example. A broad outline of luster surrounds design elements, and though tiny marks are scattered, none distract. NGC ID# 2645, PCGS# 98631, CoinPlex ID# LTM1860O

- 7340 1861 AU55 NGC.** Rounded Bun subtype. Luster dominates the borders of this briefly circulated honey-gold No Motto Civil War type coin. The distributed abrasions are characteristic of the grade. Ex: *Houston Signature* (Heritage, 12/2008), lot 2131. NGC ID# 2647, PCGS# 8633, CoinPlex ID# LTM1861

- 7341 1861 AU55 PCGS.** Rounded Bun subtype. The borders offer hints of apple-green, though apricot toning fills the fields and devices. Moderate marks are distributed but of little consequence. Certified in a green label holder.

Ex: *Houston Signature* (Heritage, 12/2008), lot 2132, which realized \$1,495. PCGS# 8633, NGC ID# 2647, CoinPlex ID# LTM1861

1861-S Ten Dollar, VF30 Scarce Low-Mintage Issue

- 7342 1861-S VF30 NGC.** Hints of luster cling to this orange and chestnut patinated Civil War-era ten. The obverse marks are entirely inconsequential, and traces of verdigris in the protected areas lend originality. The 1861-S is rare in all grades, unsurprisingly so given its low mintage of 15,500 pieces.

Ex: *Central States Signature* (Heritage, 4/2006), lot 3957; *FUN Signature* (Heritage, 1/2008), lot 4421; *Los Angeles Signature* (Heritage, 8/2009), lot 2590. NGC ID# 2648, PCGS# 8634, CoinPlex ID# LTM1861S

1862-S Ten Dollar, VF25 Evenly Worn Example

- 7343 1862-S VF25 PCGS.** An interesting straw-gold and mustard-gold lower grade example of this challenging Civil War-era S-mint issue with a mintage of only 12,500 pieces. A significant pinscratch is visible in the right obverse field. Population: 1 in 25, 38 finer (11/12). Ex: *FUN Signature* (Heritage, 1/2009), lot 5550. PCGS# 8636, NGC ID# 264A, CoinPlex ID# LTM1862S

**Rare 1863 Ten Dollar
AU Details, Civil War Date**

- 7344 1863 — Tooled, Cleaned — NGC Details. AU.** The 1863 is a formidable Civil War rarity. A meager 1,218 business strikes were issued, along with 30 proofs. The few gold collectors of the day secured the latter and ignored the former. NGC has certified just 18 pieces in all grades, excluding the present lightly circulated but thickly hairlined example. The fields are carefully tooled in places, most noticeably above TEN. NGC ID# 264B, PCGS# 8637, CoinPlex ID# LTM1863

**1864 Eagle, Bright About Uncirculated
Low-Mintage Civil War Date**

- 7345 1864 AU50 ANACS.** As a result of the hoarding and exporting that gold and silver coins experienced during the Civil War, not a single 1864-dated gold coin from any mint saw a mintage of more than 6,000 pieces. The 1864 eagle was produced to the extent of 3,530 circulation strikes, and today any 1864 eagle is a great rarity. This nice AU example boasts lovely, deep orange-gold color, with no mentionable impairments, bright semiprooflike fields, and much eye appeal.
Ex: Long Beach Signature (Heritage, 5/2008), lot 3407. NGC ID# 264D, PCGS# 8639, CoinPlex ID# LTM1864

**Very Rare 1864-S Ten Dollar
AU Details**

- 7346 1864-S — Reverse Damage, Scratches — NGC Details. AU.** The Liberty ten dollar series has more than its share of rare issues, particularly prior to 1879, when large numbers of eagles began to accumulate in European bank vaults as payments for foreign trade. The rarest business issue is, of course, the 1875 with a mintage of 100 pieces. The second rarest is neither the 1870-CC nor the 1883-O. It is the 1864-S. None have appeared in a Heritage Signature auction since August 2000. The NGC Census lists just seven pieces in all grades. Though the typical example costs tens of thousands of dollars, the present piece is much more affordable. The straw-gold surfaces are cleaned, and a horizontal pinscratch is above the eagle. The obverse rim is filed near a bump at 9 o'clock. The reverse has rim roughness near 5 o'clock and 7:30. But the opportunity to acquire any 1864-S is fleeting, especially for less than the cost of a new Chevy Volt. NGC ID# 264E, PCGS# 8640, CoinPlex ID# LTM1864S

**1865-S Liberty Ten, Fine 12
Rare Normal Date Variant**

- 7347 1865-S Fine 12 NGC.** The 1865-S Liberty eagle claims a small mintage of 16,700 pieces, split between the Normal Date variety and a variety with the date punched over an inverted 186. The Normal Date, represented by the present coin, is actually the more elusive variety, and examples are prized by collectors in all grades. This well-worn Fine 12 example retains all major design features in outline, with some interior detail still intact. Census: 3 in 12, 27 finer (12/12). NGC ID# 264G, PCGS# 8642, CoinPlex ID# LTM1865S

1865 '865 Over Inverted 186' Ten, XF Details
Rarely Seen Blundered Date

- 7348 1865-S 865 Over Inverted 186 — Improperly Cleaned — NCS. XF Details.** A famous inverted date blunder, similar to that seen on the 1844, 44 Over 81 cent. A normal date 1865-S also exists, and both varieties share a low mintage of 16,700 pieces. Most survivors grade between VF and AU. Only a single Mint State example is known, recovered from the S.S. *Brother Jonathan*. This brighter representative still has substantial luster for the XF level, although the centers show moderate incompleteness of strike.
Ex: *Long Beach Signature* (Heritage, 9/2009), lot 1652. NGC ID# 28ED, PCGS# 8643, CoinPlex ID# LTM1865S865OVRINV186

1866-S Liberty Ten, VF30
Elusive No Motto Issue

- 7349 1866-S No Motto VF30 PCGS. CAC.** The 1866-S Liberty eagle was the last issue struck without the motto IN GOD WE TRUST. The issue claims a small mintage of 8,500 pieces, and the survival rate is quite low. This pleasing VF30 specimen retains all major design detail and the light orange-gold surfaces show only minor abrasions. Population: 4 in 30, 21 finer (11/12). PCGS# 8644, NGC ID# 264H, CoinPlex ID# LTM1866SNM

AU Sharpness 1867-S Ten Dollar

- 7350 1867-S — Improperly Cleaned — NGC Details. AU.** Due to the preference of bankers and importers for the twenty dollar denomination, San Francisco mintages of eagles were minimal throughout the 1860s, though some were struck every year. The 1867-S is typically rare with a mintage of 9,000 pieces. No Mint State survivors are known, and the NGC Census shows a total of just 38 graded. The present apricot-gold example shows light wear and is mildly glossy from cleaning. Neither side shows any distracting abrasions. NGC ID# 264M, PCGS# 8652, CoinPlex ID# LTM1867S

1871-S Eagle, XF45
Above Average Condition

- 7351 1871-S XF45 PCGS. CAC.** The 1871-S ten had a mintage of 16,500 coins, and that modest production was the fifth highest eagle coinage since the San Francisco Mint opened in 1854. Like most S-Mint gold pieces, most of the mintage entered circulation, with only a small number of survivors. This Choice XF specimen has hints of delicate orange toning on its green-gold surfaces, retaining traces of luster. As expected, surface marks are noticeable, but inconsequential. Population: 18 in 45, 17 finer (12/12). PCGS# 8662, NGC ID# 264Y, CoinPlex ID# LTM1871S

1871-S Liberty Eagle, AU53
Very Scarce Issue in All Grades

- 7352 1871-S AU53 PCGS. CAC.** The 1871-S Liberty eagle claims a mintage of 16,500 pieces, and the survival rate for this issue is unusually low, making the date quite elusive in all grades. Most examples seen are in the VF-XF grade range. This attractive AU53 specimen retains much of its original mint luster over lightly abraded orange and rose-gold surfaces. Population: 6 in 53 Deep Cameo, 5 finer (12/12). PCGS# 8662, NGC ID# 264Y, CoinPlex ID# LTM1871S

- 7353 1874 MS61 NGC.** The yellow-gold surfaces of this MS61 ten dollar reveal just minimal interruption in the luster flow from scattered light marks. The design elements are well defined except for the usual weakness in the arrow feathers. NGC ID# 2657, PCGS# 8669, CoinPlex ID# LTM1874

1874-S Eagle, AU53
Above Average Specimen

- 7354 1874-S AU53 PCGS.** Faint orange toning appears in the fields and on the devices of this pleasing AU example, with light yellow mint luster in the protected areas around the design elements, showing traces of reflectivity. Both sides of this highly appealing eagle show the usual scattered marks expected for the grade. The average certified grade of the 1874-S is just XF40. Population: 5 in 53, 4 finer (12/12). PCGS# 8671, NGC ID# 2659, CoinPlex ID# LTM1874S

**XF 1876-CC Ten Dollar
Just 4,696 Pieces Struck**

- 7355 1876-CC XF40 PCGS. CAC. Variety 1-A.** Better struck than is usual for this rare Centennial Carson City issue, which is normally seen with mushy centers. The present coin, though, shows pleasing definition for the XF40 grade. No marks are of any relevance, and luster emerges from all design crevices. Certified in an old green label holder. Population: 15 in 40, 45 finer (12/12). PCGS# 8675, NGC ID# 265D, CoinPlex ID# LTM1876CC

**Choice XF 1876-S Eagle
Centennial-Year S-Mint Memento**

- 7356 1876-S XF45 PCGS.** It is a bit strange that the Centennial S-mint eagle was struck in such a small amount — 5,000 pieces — since the California Gold Rush and the San Francisco Mint both played pivotal roles in America's great westward expansion during the mid-19th century. Most of those coins circulated immediately in the Old West, rather than being "thrown back" as mementos. This Choice XF example displays moderate wear and contact marks that are grade-consistent, complementing rich orange-gold to reddish-orange color. Population: 20 in 45, 13 finer (12/12). PCGS# 8676, NGC ID# 265E, CoinPlex ID# LTM1876S

Choice AU 1877-S Ten Dollar

- 7357 1877-S AU55 NGC.** Attractive orange and gold colors appear on this Choice AU S-mint issue representative. This was one of just 17,000 pieces minted. The design elements retain attractive detail with only minor wear appearing on the devices. A number of scattered abrasions appear as expected at this grade level, with the eagle's neck exhibiting several marks. Census: 46 in 55, 17 finer (12/12). NGC ID# 265H, PCGS# 8679, CoinPlex ID# LTM1877S

Low-Mintage 1877-S Eagle, AU58

- 7358 1877-S AU58 PCGS.** Rich luster prevails amid lovely golden-orange color and a strong strike on this low-mintage Liberty eagle. The 1877-S was produced to the extent of a mere 17,000 pieces during a year that the San Francisco Mint was focused on Trade dollars and double eagles. Scattered marks appear in the fields. Population: 4 in 58, 0 finer (12/12). PCGS# 8679, NGC ID# 265H, CoinPlex ID# LTM1877S

- 7359 1879-S MS62 PCGS.** Although a common coin in grades up to and including AU58, very few Mint State examples of this San Francisco mint issue have survived. In fact, to date only nine coins have merited a numerical grade higher than MS62 at either PCGS or NGC. This example is solid for the grade, with nice luster and only the typical small abrasions present to limit the grade. Population: 20 in 62, 6 finer (12/12).
From The Flagg Family Collection. PCGS# 8686, NGC ID# 265R, CoinPlex ID# LTM1879S

**1881 Eagle, MS64
High-Mintage, Low-Availability Issue**

- 7360 1881 MS64 PCGS. CAC.** For an issue with a mintage exceeding 3.8 million pieces, the 1881 eagle is surprisingly scarce at the near-Gem level of the present example. PCGS has seen only 17 at this level, with a single Gem finer (12/12). This is a well-struck example that sports bold eye appeal over orange-gold surfaces with great luster, despite the few marks that preclude an even finer grade. PCGS# 8691, NGC ID# 265W, CoinPlex ID# LTM1881

**Near-Gem 1882 Eagle
Beautiful Copper-Orange Color**

7361 1882 MS64 PCGS. CAC. Like the 1881, the 1882 eagle was a high-mintage affair, produced at a time when the Treasury was consciously trying to promote the circulation of gold coins in denominations lower than twenty dollars. The 1882 saw a production in excess of 2.3 million pieces, yet this MS64 piece is one of only 34 such submissions at PCGS, and there is a single “miracle coin” finer, in MS66 PCGS (12/12). Rich luster is evident over beautiful copper-orange surfaces that are well-struck and relatively mark-free. A great type coin. PCGS# 8695, NGC ID# 2662, CoinPlex ID# LTM1882

7362 1882-O AU55 NGC. Variety 1. A flashy Choice AU example of this very scarce and low mintage New Orleans issue. Well struck and without relevant marks. A lamination, as struck, affects the left (facing) wing. Housed in a former generation holder. NGC ID# 2664, PCGS# 8697, CoinPlex ID# LTM1882O

7363 1883 MS62 PCGS. Gleaming fields and well-defined devices show splashes of richer yellow against a pale canary-gold backdrop. This moderately abraded coin is housed in a green label holder. PCGS# 8699, NGC ID# 2666, CoinPlex ID# LTM1883

7364 1883 MS63 NGC. Brass-gold luster shows on both sides of this Select ten dollar, each of which is sharply defined. The most noticeable contact occurs above star 2, yet it is not all that bad. The 1883 eagle is scarce and rarely seen above MS63. *From The Flagg Family Collection.* NGC ID# 2666, PCGS# 8699, CoinPlex ID# LTM1883

**1883-S Eagle, MS62
Low Mintage of Only 38,000 Pieces**

7365 1883-S MS62 PCGS. Gorgeous deep reddish-orange color and flaming luster are hallmarks of this splendid coin, one of the nicest survivors from the low mintage of 38,000 pieces; in fact, all of the branch mint 1883 eagles are low-mintage productions, the 1883-O far more so at 800 coins. A few scattered marks account for the grade, but the strike is razor-sharp. A super candidate for type purposes. *From The Flagg Family Collection.* PCGS# 8702, NGC ID# 2669, CoinPlex ID# LTM1883S

**1884-S Ten Dollar, MS63
Tied for Finest Known**

7366 1884-S MS63 PCGS. The 1884-S issue had a mintage of 124,250. However, neither PCGS nor NGC has awarded a higher numeric grade to a single example beyond the MS63 level, with this piece tied with only 15 others for finest known at both services combined (12/12). Areas of orange and green appear on this lovely piece that displays sharply struck design features and pleasing luster. Light marks preclude a higher grade. PCGS# 8705, NGC ID# 266C, CoinPlex ID# LTM1884S

**Choice 1886-S Liberty Ten
Unknown in Higher Numeric Grades**

7367 1886-S MS64 NGC. The 1886-S Liberty eagle is a plentiful issue in lower grades, thanks to numerous specimens that have surfaced in European holdings over the years. The 1886-S is quite rare in MS64 condition, however, and numerically finer coins are currently unknown. This impressive Choice example is sharply detailed throughout, with pleasing greenish gold surfaces that show prooflike reflectivity in sheltered areas. Census: 20 in 64 (2 in 64+) Ultra Cameo, 0 finer (12/12). NGC ID# 266G, PCGS# 8709, CoinPlex ID# LTM1886S

**Near-Gem 1886-S Ten Dollar
Above-Average Surfaces**

- 7368 1886-S MS64 PCGS. CAC.** The 1886-S ten dollar, sporting a mintage of 826,000 pieces, is a very common date, with hundreds of coins available in each grade from MS61 to MS63. Near-Gems, however, are very rare, and higher-grade examples are virtually unobtainable, or at least none have been certified by PCGS or NGC. The present MS64 specimen displays partially prooflike fields and mildly frosted motifs. This results in a degree of field-device contrast, especially on the reverse. Distributed tiny marks are visible on each side, a typical condition of the 1886-S, helping to account for the lack of Gem examples. Nevertheless, none of these are serious on this particular coin; indeed, the surfaces are above average quality, attested by the CAC sticker. Population: 13 in 64, 0 finer (11/12). PCGS# 8709, NGC ID# 266G, CoinPlex ID# LTM1886S

**1887-S Liberty Ten, MS64
Tied for Finest at PCGS**

- 7369 1887-S MS64 PCGS.** With a substantial mintage of 817,000 coins, the 1887-S eagle is considered a common date. However, nearly all survivors are in lower Mint State grades. In fact, this piece is tied for the finest that PCGS has certified, with only one finer coin at NGC. This amazing near-Gem has brilliant orange toning at the centers in a frame of light greenish-yellow. A remarkable specimen for the connoisseur. Population: 2 in 64, 0 finer (12/12). PCGS# 8711, NGC ID# 266J, CoinPlex ID# LTM1887S

Lustrous 1890-CC Eagle, MS62

- 7370 1890-CC MS62 PCGS. Variety 1-A.** Unlike its 1891-CC successor, the 1890-CC is very scarce in Mint State. The first Carson City issue since 1884, the mintage was just 17,500 pieces, and from that production exactly one coin has been certified by either service above the MS63 level. The present lightly abraded apricot-gold MS62 representative displays a sharp strike and unbroken cartwheel luster. Population: 38 in 62, 5 finer (11/12). PCGS# 8718, NGC ID# 266S, CoinPlex ID# LTM1890CC

**Conditionally Scarce 1890-CC MS62 Ten Dollar
Above-Average Strike**

- 7371 1890-CC MS62 PCGS. Variety 1-A.** The only variety for the year. The 1890-CC is available with little difficulty through MS61. MS62 examples are very scarce and finer specimens are rare. The lustrous yellow-gold surfaces of this MS62 coin are imbued with hints of apricot and mint-green. The design elements exhibit an above-average strike, including the star centrils, Liberty's hair, and the eagle's neck feathers, areas that are usually weak. Scattered light marks preclude a higher grade. Population: 38 in 62, 5 finer (11/12). *From The Flagg Family Collection.* PCGS# 8718, NGC ID# 266S, CoinPlex ID# LTM1890CC

- 7372 1891-CC AU50 PCGS. Variety 3-C, FS-501.** The curve from an underlying C projects out from the bottom right side of the main mintmark on this later-date Carson City eagle. Generous semireflective luster remains on lightly abraded apricot-gold surfaces. PCGS# 8720, NGC ID# 266U, CoinPlex ID# LTM1891CC

- 7373 1891-CC AU58 PCGS. CAC. Variety 4-C, FS-501.** The mintmark is clearly repunched. Vibrant cartwheel luster dominates this sun-gold Carson City type coin. The strike is precise, and though minor marks are present, none threaten the grade. PCGS# 8720, NGC ID# 266U, CoinPlex ID# LTM1891CC

- 7374 1891-CC MS61 NGC. Variety 2-B.** Each C in the mintmark is centered over a serif of the N in TEN, one over the left serif and the other over the right serif, on this reverse die. A second reverse die has the second C centered over the center of the N, and a third reverse has the second C repunched. This lovely Mint State piece has numerous marks as expected for the grade, with frosty yellow luster and subtle orange overtones. *From The Flagg Family Collection.* NGC ID# 266U, PCGS# 8720, CoinPlex ID# LTM1891CC

- 7375 1891-CC MS61 NGC. Variety 1-A.** The second C of the mintmark is centered over the N in TEN on this die marriage. This example has myriad marks as expected, with frosty yellow luster and traces of dark toning. *From The Flagg Family Collection.* NGC ID# 266U, PCGS# 8720, CoinPlex ID# LTM1891CC

- 7376 1891-CC MS62 PCGS. Variety 1-A.** A sun-gold representative whose dynamic luster and bold strike affirm the eye appeal. The most available of the Carson City ten issues in Mint State. Moderate field abrasions correlate to the designated grade. PCGS# 8720, NGC ID# 266U, CoinPlex ID# LTM1891CC

- 7377 1891-CC MS62 NGC. Variety 1-A.** A lustrous and boldly struck honey-gold Carson City eagle. The obverse has fewer marks than is associated with the grade, though the reverse field exhibits abrasions beneath the wings and near the first T in TRUST. NGC ID# 266U, PCGS# 8720, CoinPlex ID# LTM1891CC

- 7378 1891-CC MS62 PCGS. CAC.** Both sides are brightly frosted and richly colored with an orange-gold appearance. The strike is strong throughout, and there are only minimal abrasions as expected for the grade. The 1891-CC is one of the more generously produced CC tens with 103,732 pieces struck. *Ex: Santa Clara Bullet Sale (Heritage, 11/2001), lot 1538.* PCGS# 8720, NGC ID# 266U, CoinPlex ID# LTM1891CC

7379 1892-CC AU58 NGC. FS-501. Variety 1-A. As is the case with all '92-CC tens, IN GOD WE TRUST is die tripled. The obverse is also interesting since the 89 in the date shows repunching. This honey-gold Carson City near-Mint example is well struck and has nearly unbroken cartwheel luster. A few moderate abrasions are noted near the profile.
From The Richmond Hill Collection. NGC ID# 266W, PCGS# 8722, CoinPlex ID# LTM1892CC

7380 1893 MS64 NGC. An extraordinary example of this common date, seldom seen in finer grades. NGC has only certified 29 better ones, and only four finer examples appear in the PCGS *Population Report* (12/12). This Choice specimen is highly lustrous with rich orange color over light yellow surfaces.
From The Flagg Family Collection. NGC ID# 266Z, PCGS# 8725, CoinPlex ID# LTM1893

7381 1895 MS64 PCGS. CAC. Impressively detailed with satiny yellow-orange surfaces. Though a few small marks and scrapes affect each side, this is a noteworthy near-Gem of an issue that is rare any finer. Population: 59 in 64 (4 in 64+), 2 finer (12/12). PCGS# 8732, NGC ID# 2678, CoinPlex ID# LTM1895

7382 1897 MS64+ PCGS. CAC. A stunning near-Gem, this 1897 Liberty ten has pristine, nearly mark-free surfaces that combine pinkish-orange centers with mint-green peripheries. Although just over 100 MS64 examples are PCGS certified, that service has only graded eight finer pieces (12/12). PCGS# 8737, NGC ID# 267D, CoinPlex ID# LTM1897

7383 1897 MS64+ PCGS. CAC. The 1897 eagle saw a large mintage of just about 1 million pieces, but it is nonetheless an excellent product overall, as this near-Gem plainly shows. The orange-reddish patina is the first of many positive attributes, which also include a bold strike, good surface preservation, and tremendous eye appeal. A couple of small color smudges on the reverse are all that appear to preclude a Gem grade. Population: 6 in 64+, 8 finer (12/12). PCGS# 8737, NGC ID# 267D, CoinPlex ID# LTM1897

**1898 Liberty Ten, MS66+
Only Two Certified Finer**

7384 1898 MS66+ NGC. Offered here is an incredible Premium Gem 1898 eagle. A bold strike and frosty yellow luster are evident on both sides, with pristine, mark-free surfaces. The obverse has a tiny mark at the bottom of the 8, and a trivial copper spot on the nose. Census: 7 in 66 (1 in 66+), 2 finer (12/12). NGC ID# 267G, PCGS# 8740, CoinPlex ID# LTM1898

7385 1899-O MS62 PCGS. Variety 1. This low mintage and conditionally rare peach-gold New Orleans ten has good luster and a sharp strike. Minor marks are present but are noticeable only beneath the first T in TRUST. Population: 35 in 62 (1 in 62+), 17 finer (11/12). PCGS# 8743, NGC ID# 267K, CoinPlex ID# LTM1899O

**1899-O Liberty Ten, MS64
Only One Finer at PCGS**

7386 1899-O MS64 PCGS. CAC. The New Orleans Mint operated from 1838 to 1861, then remained dormant for several years during and after the Civil War, until finally reopening in 1879. The facility continued to strike coins for another 31 years until its final year of production in 1909. The 1879 reopening almost certainly occurred as a result of the Bland-Allison Act and the need for large quantities of Morgan dollars. Other denominations merely came along for the ride, such as the 1899-O eagle, with a mintage of 37,047 coins. Among exceptional survivors from that production is the present Choice Mint State piece with its brilliant yellow luster and satin surfaces, showing only minor surface marks and a few trivial copper toning spots. Population: 3 in 64, 1 finer (12/12). PCGS# 8743, NGC ID# 267K, CoinPlex ID# LTM1899O

**Near-Gem 1899-S Eagle
Conditionally Challenging Issue**

- 7387 1899-S MS64 PCGS.** A radiant lemon-gold near-Gem of this surprisingly conditionally scarce ten dollar issue. Despite a mintage of 841,000 pieces, the 1899-S is perhaps 300 times scarcer than the 1901-S in the present grade. Well struck and lustrous with minor obverse field marks. Housed in a green label holder. Population: 12 in 64, 4 finer (11/12). PCGS# 8744, NGC ID# 267L, CoinPlex ID# LTM1899S

**Shining Gem 1899-S Eagle
Bold Inner Detail**

- 7388 1899-S MS65 NGC. CAC.** An ideal selection for the collector assembling a high-end mintmarked 19th century type set, this Gem eagle was struck just before the turn of the century. While the stars show uneven striking quality, the interiors are uniformly crisp, and thanks to generous yellow-to-orange cartwheel luster, this Gem has incredible visual appeal. A small mark on Liberty's cheekbone and another near her visible nostril are well within the bounds of the assigned grade. A condition rarity so fine, yet underrated as such as a San Francisco product. Census: 3 in 65, 1 finer (11/12). NGC ID# 267L, PCGS# 8744, CoinPlex ID# LTM1899S

**1900 Liberty Eagle, MS65
Only Four Numerically Finer Coins at NGC**

- 7389 1900 MS65 NGC.** The 1900 Liberty eagle is an available date, from a mintage of 293,840 pieces. As Jeff Garrett and Ron Guth say, "For type purposes, this is one of the best dates in the series." The present coin is a sharply detailed Gem, with vibrant frosty mint luster, and exceptional eye appeal. Census: 61 in 65 (1 in 65+), 4 finer (11/12). NGC ID# 267M, PCGS# 8745, CoinPlex ID# LTM1900

**Premium Gem 1900 Liberty Ten
None Certified Finer**

- 7390 1900 MS66 NGC.** A simply stunning survivor from this turn-of-the-century ten dollar issue, one of five MS66 coins in the combined certified population with none finer (11/12). The strike is almost uniformly sharp, with only trifling softness visible on a handful of the obverse stars. While both sides show several small marks and luster grazes, these are unobtrusive. Strong, slightly satiny apricot-gold luster completes the remarkable eye appeal. An ideal selection for the high-end date collector. NGC ID# 267M, PCGS# 8745, CoinPlex ID# LTM1900

- 7391 1901-S MS63 PCGS. CAC Gold Label. Breen-7075.** Lovely lemon-gold toning embraces this lustrous, boldly struck, and impressively unabraded Liberty type coin. The base of the 19 is repunched, as is the top of the 0. Housed in a first generation holder. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 8749, NGC ID# 267S, CoinPlex ID# LTM1901S

- 7392 1901-S MS63 PCGS. CAC Gold Label. Breen-7075.** The date is nicely repunched, especially on the base of the first 1. The initial logotype slanted upward. The reverse border is lightly strike doubled due to a slightly loose reverse die, misinterpreted as die doubling under Breen-7074. Beautiful peach toning fills the margins of this highly lustrous gold type coin. Well struck and carefully preserved with an especially clean reverse. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 8749, NGC ID# 267S, CoinPlex ID# LTM1901S

- 7393 1901-S MS64+ PCGS. CAC.** Well-defined on the central devices but with localized softness on the stars. Yellow-orange luster is sumptuous under a delicate layer of patina. Great all-around eye appeal. PCGS# 8749, NGC ID# 267S, CoinPlex ID# LTM1901S

- 7394 1901-S MS64+ PCGS. CAC.** Strong detail overall with just a few weak stars at the right obverse. Yellow-orange luster tends to the former color with a light layer of patina across each side. A great type selection. PCGS# 8749, NGC ID# 267S, CoinPlex ID# LTM1901S

7395 1901-S MS65 NGC. Bold all-around detail with ample peach splashes on a yellow-gold base. Remarkably smooth for a coin of its size with a delicate “skin” that shows few disturbances. NGC ID# 267S, PCGS# 8749, CoinPlex ID# LTM1901S

7396 1902-S MS64+ PCGS. CAC. This sun-gold and lime-green near-Gem is well struck and attractive. Cartwheel luster sweeps surfaces that display only light, scattered marks. PCGS# 8751, NGC ID# 267U, CoinPlex ID# LTM1902S

Gem 1902-S Liberty Eagle Ideal Type Coin

7397 1902-S MS65 NGC. The 1902-S Liberty eagle boasts a large mintage of 469,500 pieces. The issue is usually available in high grade, making it an ideal choice for type collectors. This delightful Gem displays sharply detailed design elements and smooth peach-gold surfaces, with vibrant frosty mint luster on both sides. Eye appeal is exceptional. NGC has graded only 14 coins in higher numeric grades (11/12). NGC ID# 267U, PCGS# 8751, CoinPlex ID# LTM1902S

7398 1904 MS64 NGC. Both sides of this near-Gem are awash with peach-gold luster and exhibit sharply struck design elements. A few minute marks are not distracting. Census: 37 in 64, 7 finer (12/12). NGC ID# 267Y, PCGS# 8755, CoinPlex ID# LTM1904

7399 1905 MS64 NGC. The 1905 eagle “comes nice” occasionally, but Gems are difficult to find, despite a few remarkably high-grade examples known. This near-Gem is blessed with a full strike over lovely yellow-gold surfaces. The paucity of mentionable contact marks puts this piece on the cusp of a finer grade. NGC has seen 34 numerically finer (12/12). NGC ID# 2682, PCGS# 8757, CoinPlex ID# LTM1905

1905 Eagle, MS65 Important Condition Rarity

7400 1905 MS65 PCGS. Despite a mintage that topped the 200,000 coin mark, survivors are usually in AU or lower Mint State grades with an average certified grade of just MS61. This Gem is so much nicer, exhibiting pristine yellow surfaces with frosty luster and hints of pale blue overtones. Population: 15 in 65, 10 finer (12/12). PCGS# 8757, NGC ID# 2682, CoinPlex ID# LTM1905

7401 1906 MS63 PCGS. CAC. Excellent detail with glimpses of orange against a light yellow backdrop. Wispy abrasions and a few reed marks have little effect on the all-around eye appeal but do influence the technical grade. PCGS# 8759, NGC ID# 2684, CoinPlex ID# LTM1906

Choice 1906 Liberty Eagle Very Rare in Finer Grades

7402 1906 MS64 PCGS. The 1906 Liberty eagle is reasonably available in lower Mint State grades, but examples in Choice condition are elusive, and finer coins are very rare. This attractive apricot-gold example is well-detailed and lustrous, with a few scattered contact marks that explain the grade. Population: 31 in 64, 11 finer (11/12). PCGS# 8759, NGC ID# 2684, CoinPlex ID# LTM1906

1906 Liberty Ten, MS64 Only 11 Finer at PCGS

7403 1906 MS64 PCGS. The Philadelphia Mint coined 165,420 eagles in 1906, and surviving specimens are usually found in the lower Mint State grades, with an average certified grade of MS61. Despite the mintage, few have survived above MS63, and the combined population of this issue is 64 examples in MS64, and only 19 finer. This Choice Mint State specimen has brilliant and frosty yellow luster with bold design motifs and trivial marks. Delicate blue toning adds to the eye appeal. Population: 31 in 64, 11 finer (12/12). PCGS# 8759, NGC ID# 2684, CoinPlex ID# LTM1906

7404 1906-D MS64 PCGS. CAC. Rich apricot and orange hues dominate the eye appeal of this near-Gem from the first year of operation for the Denver Mint. Luster is swirling and generally satin with a few shiny grazes. PCGS# 8760, NGC ID# 2685, CoinPlex ID# LTM1906D

7405 1907 MS64 PCGS. CAC. Beautiful peach-gold toning cedes to olive-green near the rims. Lustrous and precisely struck with scattered light field grazes. This coin marks the final year of the Christian Gobrecht eagle design, which remained in production for more than 60 years after his 1844 death. PCGS# 8763, NGC ID# 2688, CoinPlex ID# LTM1907

INDIAN EAGLES

- 7406** 1907 No Periods MS62 PCGS. Impressive yellow-gold luster hosts wisps of orange overtones, with darker toning splashes on each side. A few trivial rim marks apparently account for the grade. *From The Flagg Family Collection.* PCGS# 8852, NGC ID# 28GF, CoinPlex ID# ITM1907NM
- 7407** 1907 No Periods MS62 NGC. The No Periods type was a modification of the original Saint-Gaudens design with periods. This piece has brilliant orange luster with faint splashes of darker patina on each side. The surfaces show minimal marks. *From The Flagg Family Collection.* NGC ID# 28GF, PCGS# 8852, CoinPlex ID# ITM1907NM
- 7408** 1907 No Periods MS62+ PCGS. Brilliant gold and orange colors emanate from this lovely example. The surfaces are brilliant and lustrous. A small planchet flaw (as made) runs through the O of OF on the reverse. PCGS# 8852, NGC ID# 28GF, CoinPlex ID# ITM1907NM

Select No Periods 1907 Eagle Well-Preserved Obverse

- 7409** 1907 No Periods MS63 PCGS. A coruscating green-gold representative of the first year Indian ten. The strike is sharp and the obverse is refreshingly free from abrasions, as is the reverse except for a slender mark between the O in OF and the eagle's back wing. Certified in an old green label holder. PCGS# 8852, NGC ID# 28GF, CoinPlex ID# ITM1907NM

1907 Indian Ten, MS64 Barber's No Periods Design

- 7410** 1907 No Periods MS64 NGC. This Choice Mint State Indian ten has a sharp strike and frosty lemon-yellow luster with brilliant mint surfaces that play host to a few trivial handling marks as expected for the grade. A single copper toning spot appears at 1:30 on the obverse border. NGC ID# 28GF, PCGS# 8852, CoinPlex ID# ITM1907NM

Choice 1907 Indian Eagle Popular No Periods Type

- 7411** 1907 No Periods MS64 PCGS. CAC. A lemon-gold near-Gem whose uncommonly unabraded fields and devices are bathed in coruscating mint luster. Well struck despite trivial softness on the right (facing) claw. The first two stars display minor strike doubling. A pleasing representative of the two-year No Motto subtype. PCGS# 8852, NGC ID# 28GF, CoinPlex ID# ITM1907NM

Premium Gem 1907 No Periods Eagle Richly Colored

- 7412** 1907 No Periods MS66 PCGS. The vivid surfaces on this Premium Gem 1907 No Periods eagle show color ranging from the prevailing rich, mellow reddish-orange to daubs of lemon-yellow and cherry, and it takes a loupe to see the few scattered, tiny marks that are noted strictly for accuracy and to explain why this marvelous coin is not an MS67. The No Periods is a relatively available issue in lower grades, but Premium Gems such as this piece are far more elusive. First-year-of-type collectors, be forewarned, such marvels appear only fleetingly before disappearing again into strong hands. Population: 98 in 66 (13 in 66+), 7 finer (12/12). *From The Richard P. Ariagno, M.D. Collection.* PCGS# 8852, NGC ID# 28GF, CoinPlex ID# ITM1907NM

7413 1908 No Motto MS62 NGC. A lustrous butter-gold example of this low mintage Indian issue. The fields and eagle are minimally abraded though the portrait displays minor marks. A scant 33,500 pieces were struck.
Ex: Raymond J. Wayman Collection (Stack's, 9/1981), lot 189, which realized \$1,150.
From The Richmond Hill Collection. NGC ID# 28GG, PCGS# 8853, CoinPlex ID# ITM1908NM

7414 1908 No Motto MS62 PCGS. The 1908 No Motto Indian eagle claims a minuscule mintage of 33,500 pieces, but the issue is not too difficult to locate in lower Mint State grades. This attractive MS62 specimen exhibits well-detailed design elements and vivid lemon-yellow surfaces, with vibrant mint luster. PCGS# 8853, NGC ID# 28GG, CoinPlex ID# ITM1908NM

**1908 No Motto Ten Dollar, MS63
Nice Eye Appeal**

7415 1908 No Motto MS63 PCGS. Very attractive orange-gold patina resides on the lustrous surfaces of this Select Indian Head ten dollar. Sharply struck design features further enhance the coin's eye appeal, as does the relative paucity of significant marks. Housed in a green label holder. Nice examples in Mint State can be located with patience and searching. PCGS# 8853, NGC ID# 28GG, CoinPlex ID# ITM1908NM

7416 1908-D No Motto MS62 PCGS. A scarce issue from a mintage of 210,000 coins, the 1908-D No Motto eagle is encountered less often than the With Motto variety. This attractive example has satiny yellow-gold luster. PCGS# 8854, NGC ID# 28GH, CoinPlex ID# ITM1908DNM

7417 1908 Motto MS63 PCGS. An impressive Indian eagle with the addition of IN GOD WE TRUST on the reverse, this Select Mint State piece has brilliant lemon-yellow surfaces with trivial marks.
From The Flagg Family Collection. PCGS# 8859, NGC ID# 28GJ, CoinPlex ID# ITM1908MOT

7418 1908 Motto MS63 PCGS. Brassy-gold luster enhances the appearance of this sharply struck eagle. A number of surface marks appear that contributed to the grade. PCGS# 8859, NGC ID# 28GJ, CoinPlex ID# ITM1908MOT

7419 1908 Motto MS63 NGC. Uncommonly well-defined for a Saint-Gaudens eagle, especially through the hair over Liberty's ear. Orange-kissed yellow-gold surfaces have subtle texture but also a smoothness in the way luster rolls across each side. NGC ID# 28GJ, PCGS# 8859, CoinPlex ID# ITM1908MOT

**Gem 1908 Motto Ten Dollar
Die Doubled Reverse**

7420 1908 Motto MS65 NGC. CAC. A gorgeous butter-gold Gem that boasts potent luster, a sharp strike, and exemplary preservation. The reverse is lightly die doubled, most noticeably on the G in GOD though the base of DOLLARS and the top of STATES also exhibit a spread toward the rim. The variety is unlisted in Breen or *Cherry-pickers'* but is nonetheless of interest to specialists. The 1908 Motto is usually encountered in AU58 to MS63 grades with scuffy surfaces, but Gems of the present quality are elusive and highly desirable. Certified in a pre-hologram older NGC holder. Census: 68 in 65 (1 in 65+), 43 finer (11/12). NGC ID# 28GJ, PCGS# 8859, CoinPlex ID# ITM1908MOT

Select Mint State 1908-D Motto Ten Dollar

- 7421 1908-D Motto MS63 PCGS.** Lustrous orange-gold surfaces add to the visual appeal of this Select Mint State example, with steel-gray color appearing on portions of the eagle. The obverse displays an attractive matte-like appearance. This piece resides in a green label holder. PCGS# 8860, NGC ID# 28GK, CoinPlex ID# ITM1908DMOT

1908-S Indian Eagle, MS62
Elusive Low-Mintage Issue

- 7422 1908-S MS62 ANACS.** From a low mintage of 59,850 pieces, the 1908-S Indian eagle is an elusive issue in all Mint State grades. This sharply detailed MS62 example displays frosty mint luster on both sides, and the pleasing copper-gold surfaces show hints of powder-blue patina at the peripheries. NGC ID# 28GL, PCGS# 8861, CoinPlex ID# ITM1908S

1909 Indian Eagle, MS63
Lovely Eye Appeal

- 7423 1909 MS63 PCGS.** CAC. Several Indian eagle issues are scarce or rare in higher grades, and one of those is the 1909, despite a mintage of 184,789 coins. This lovely example displays considerable eye appeal. A number of shades of yellow, gold, and orange appear and the piece exhibits an attractive frosty luster. The number of marks is surprisingly few and they are unimportant. PCGS# 8862, NGC ID# 28GM, CoinPlex ID# ITM1909

Brilliant Near-Gem 1909 Eagle

- 7424 1909 MS64 PCGS.** Residing in a green label holder, this near-Gem representative displays brilliant gold color and cartwheel luster. This example exhibits bold design details. A copper spot appears at the rim near 3 o'clock on the obverse. There are no mentionable marks. Population: 75 in 64, 25 finer (12/12). PCGS# 8862, NGC ID# 28GM, CoinPlex ID# ITM1909

1909-D Ten Dollar, MS62
Underrated Date

- 7425 1909-D MS62 PCGS.** CAC. Although 121,540 eagles were produced in 1909-D, the issue is much scarcer than might be supposed and is underrated. This frosty and highly lustrous yellow-gold specimen has the usual quota of surface marks expected for the grade, exhibiting brilliant surfaces and subtle splashes of color on each side. PCGS# 8863, NGC ID# 28GN, CoinPlex ID# ITM1909D

- 7426 1909-S AU58 PCGS.** CAC. Lustrous surfaces shift from yellow to orange depending on the angle to the light. Light wear visits the high points, but the few abrasions present generally are minor. PCGS# 8864, NGC ID# 28GP, CoinPlex ID# ITM1909S

**1909-S Ten Dollar, MS64
Scarce in This Grade, Minimally Abraded**

7427 1909-S MS64 PCGS. CAC. The 1909-S ten dollar piece is more difficult to obtain in the better Mint State grades than its rather generous mintage of 292,350 pieces would suggest. Most Uncirculated 1909-S eagles in today's market can be traced to a hoard that surfaced in the late 1970s. Since that hoard included coins that predominantly grade MS60 to MS63, the 1909-S remains scarce in MS64 and rare as a Gem.

Both sides of this yellow-gold near-Gem yield pleasing luster that is somewhat satiny. The design elements are well struck and the few marks worth mentioning are very minor and mostly concealed within the feathers of the headdress and the eagle. The latter attribute is significant because most survivors possess a generous number of moderate-size bagmarks. Population: 50 in 64 (5 in 64+), 27 finer (11/12). PCGS# 8864, NGC ID# 28GP, CoinPlex ID# ITM1909S

**Choice 1910-D Indian Eagle
Excellent Mintmark Type Coin**

7428 1910-D MS64 ANACS. The 1910-D Indian eagle is one of the most available issues of the series, making it a natural choice of mintmark type collectors. This impressive Choice example displays sharply detailed design elements and vibrant mint luster, with light yellow-gold surfaces that show few signs of contact. NGC ID# 28GS, PCGS# 8866, CoinPlex ID# ITM1910D

1912 Ten Dollar, Highly Lustrous MS64

7429 1912 MS64 NGC. A shimmering satin-textured yellow-gold eagle with a light pinkish patina seen on much of the obverse devices. Pleasingly distraction-free with only light scattered marking that keep this piece from the elusive Gem level. Sharply struck overall. Ex: *Long Beach Signature* (Heritage, 9/2003), lot 8216. From *The Flagg Family Collection*. NGC ID# 28GW, PCGS# 8871, CoinPlex ID# ITM1912

**1912-S Indian Eagle, MS63
Challenging Issue in High Grade**

7430 1912-S MS63 PCGS. From a mintage of 300,000 pieces, the 1912-S Indian eagle was not heavily saved by contemporary collectors, and the issue is one of the most challenging of the series in high grade. This well-detailed Select specimen offers lustrous orange-gold surfaces, with hints of rose. Population: 68 in 63 (3 in 63+), 80 finer (11/12). PCGS# 8872, NGC ID# 28GX, CoinPlex ID# ITM1912S

Popular Low-Mintage 1913-S Eagle, AU58

- 7431 1913-S AU58 PCGS.** The 1913-S Indian eagle is a popular S-mint issue within the series, due in part to its low mintage of only 66,000 coins. In Mint State, however, the issue is second-rarest in the series behind the 1911-D. This near-Mint State piece offers splendid reddish-gold color over surfaces that retain nearly full luster, and there are few mentionable marks. PCGS# 8874, NGC ID# 28GZ, CoinPlex ID# ITM1913S

Near-Mint 1913-S Eagle

- 7432 1913-S AU58 NGC.** The San Francisco Mint struck half eagles, eagles, and double eagles in 1913, and all three issues are scarce, especially the two larger denominations with mintages of 66,000 and 34,000 pieces respectively. This near-Mint example has scattered marks and traces of high-point wear, retaining nearly full satin luster.
Purchased from Stack's, privately (10/15/1971).
From The Richmond Hill Collection. NGC ID# 28GZ, PCGS# 8874, CoinPlex ID# ITM1913S

1913-S Ten Dollar, AU58 In-Demand, Low-Mintage Issue

- 7433 1913-S AU58 PCGS.** The mintage of the 1913-S ten was a meager 66,000 pieces, although most survivors did not circulate to any great degree. This near-Mint State example is certified in a green-label holder and shows excellent eye appeal. The high points are just a hair's breadth away from Uncirculated, and deep orange-gold surfaces are highly lustrous and exhibit few marks for the grade.
From The Flagg Family Collection. PCGS# 8874, NGC ID# 28GZ, CoinPlex ID# ITM1913S

- 7434 1914 MS63 PCGS.** A radiant lemon-gold representative of this lower mintage Philadelphia issue. Dynamic cartwheel luster sweeps boldly struck surfaces. Marks are minimal for the Select level. Housed in a green label holder. PCGS# 8875, NGC ID# 28H2, CoinPlex ID# ITM1914

- 7435 1914 MS63 PCGS.** A satiny Select Mint State 1914 Indian ten, this piece has lemon-yellow surfaces with brilliant mint luster and bold design motifs.
From The Flagg Family Collection. PCGS# 8875, NGC ID# 28H2, CoinPlex ID# ITM1914

1914-D Near-Gem Eagle Well-Produced Issue

- 7436 1914-D MS64 PCGS.** The surfaces on this near-Gem are orange-gold to yellow-gold with a hint of mint near the extreme rims on each side. There are few marks of any size, whether on the Indian's cheek or elsewhere. Super eye appeal prevails throughout, and the sharp strike and rich luster are typical of the issue. PCGS# 8876, NGC ID# 28H3, CoinPlex ID# ITM1914D

1914-D Eagle, MS64 Only 31 Finer at PCGS

- 7437 1914-D MS64 PCGS.** A splendid near-Gem, this 1914-D has brilliant and frosty yellow luster with scattered, grade-consistent marks on each side. The strike is a trifle weak as expected for the issue. This important date is usually found in AU or low Mint State grades, rarely in Choice Mint State, and seldom in Gem or finer grades. PCGS# 8876, NGC ID# 28H3, CoinPlex ID# ITM1914D

- 7438 1914-S AU58 PCGS.** Light peach overtones grace amply lustrous surfaces. Though a touch of rub and moderate marks affect each side, this remains a highly desirable example of a surprisingly challenging S-mint issue. PCGS# 8877, NGC ID# 28H4, CoinPlex ID# ITM1914S

1914-S Eagle, MS62, Popular S-Mint Ten

- 7439 1914-S MS62 PCGS.** The 1914-S eagle is a popular S-mint issue within the Indian Head eagle series. The orange-gold surfaces on this MS62 example show generous luster but a few marks are scattered around that define the grade, including some on Liberty's cheek. A horizontal grease mark (as struck) appears under the Indian's chin.
From The Flagg Family Collection. PCGS# 8877, NGC ID# 28H4, CoinPlex ID# ITM1914S

7440 1915 MS63 PCGS. Highly lustrous and nicely struck with moderate grazes on the butter-gold fields. Last of the Philadelphia issues for 11 years, since the World War impacted foreign trade requiring Federal gold for payments. Housed in a green label holder. PCGS# 8878, NGC ID# 28H5, CoinPlex ID# ITM1915

Near-Gem 1915 Eagle

7441 1915 MS64 PCGS. The 1915 ten dollar is one of the better produced Indian Head eagles, with most examples, the present near-Gem included, possessing great luster and a sharp strike. Beautiful orange and lime colors grace this lovely example. A couple of tiny marks on the cheek are all that preclude a coveted Gem assessment. Ex: *Palm Beach Signature* (Heritage, 3/2005), lot 7102. PCGS# 8878, NGC ID# 28H5, CoinPlex ID# ITM1915

Choice 1915 Eagle Boldly Struck and Lustrous

7442 1915 MS64 NGC. Engaging mint luster greets the viewer, complementing mellow orange-gold color on this near-Gem 1915 eagle, an excellent candidate for inclusion in a nice high-grade type set. Gems are far more expensive, a grade level from which this piece is barred only by a few marks on Liberty's cheek and jawline. The strike is equally as bold as the luster. NGC ID# 28H5, PCGS# 8878, CoinPlex ID# ITM1915

1915 Eagle, MS65 Only Nine Finer at PCGS

7443 1915 MS65 PCGS. The 1915 Indian eagle claims a mintage of 351,000 pieces, and the date is very scarce in MS65 condition. This spectacular Gem exhibits razor-sharp definition on all design elements, with vibrant mint luster and vivid greenish-gold surfaces. Population: 45 in 65 (1 in 65+), 9 finer (12/12). PCGS# 8878, NGC ID# 28H5, CoinPlex ID# ITM1915

7444 1915-S AU55 NGC. A delightful straw-gold example of this S-Mint rarity, from a mintage of just 59,000 coins, this example exhibits a trace of high-point wear with a few minuscule splashes of darker toning on each side. From *The Richmond Hill Collection*. NGC ID# 28H6, PCGS# 8879, CoinPlex ID# ITM1915S

Near-Mint State 1915-S Ten Dollar Vibrant Luster

7445 1915-S AU58 PCGS. CAC. A scant 59,000 pieces were issued for this elusive San Francisco issue. An attractive near-Mint representative with gorgeous color and vibrant mint luster, this piece displays tremendous eye appeal. Highlights of bright orange appear primarily on the obverse. PCGS# 8879, NGC ID# 28H6, CoinPlex ID# ITM1915S

1916-S Ten Dollar, MS63

7446 1916-S MS63 PCGS. The canary-gold color adds to the attractiveness of this lustrous example. The design elements are well-impressed. There are no surface marks worthy of mention. This Select Mint State example displays pleasing eye appeal and resides in a green label holder. PCGS# 8880, NGC ID# 28H7, CoinPlex ID# ITM1916S

Select 1916-S Ten Dollar

7447 1916-S MS63 PCGS. The 1916-S is the final issue from the teens and most certified examples are clustered between AU58 and MS62. Relatively few coins offer the smooth surfaces, unbroken sweeping luster, and rich khaki-gold toning of the present lot. The strike is good, and the preservation is imposing despite a single faint diagonal graze on the right reverse field. PCGS# 8880, NGC ID# 28H7, CoinPlex ID# ITM1916S

7448 1926 MS64 NGC. Bright luster emanates from the yellow-gold surfaces of this attractive near-Gem eagle. Sharply defined design features add to the coin's eye appeal. A few minute marks are in concert with the designated grade. NGC ID# 28H9, PCGS# 8882, CoinPlex ID# ITM1926

- 7449 1926 MS64 PCGS. CAC.** Housed in a green-label PCGS holder is a Choice Mint State 1926 Indian ten with frosty yellow luster and splendid overtones of orange and bluish-green. A few trivial marks in the fields prevent a Gem grade. PCGS# 8882, NGC ID# 28H9, CoinPlex ID# ITM1926
- 7450 1926 MS65 PCGS.** A frosty Gem example of the popular type issue with swirls of peach against a backdrop of rich yellow-gold. The stars above Liberty's bonnet show a degree of flatness. PCGS# 8882, NGC ID# 28H9, CoinPlex ID# ITM1926
- 7451 1932 MS64 PCGS.** Wafts of lilac accent the deep yellow patina that envelops both sides. A number of tiny marks do not affect the eye-catching luster. Housed in a green-label PCGS holder. PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932
- 7452 1932 MS64 NGC.** Shimmering sun-gold luster has hints of orange. This near-Gem is generous with the eye appeal and has only a few marks of any depth, though one is just to the right of Liberty's lips. NGC ID# 28HB, PCGS# 8884, CoinPlex ID# ITM1932
- 7453 1932 MS64+ PCGS.** A stunning beauty, this near-Gem 1932 Indian ten, while common as a date, has uncommon aesthetic appeal. Both sides are frosty and brilliant with rich orange-gold at the centers and lighter yellow near the borders. A few small reverse marks prevent a Gem grade. PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932
- 7454 1932 MS64+ NGC.** Subtly frosted, swirling luster is apricot-gold with a good measure of peach. A pleasingly preserved coin that straddles the line between Choice and Gem. NGC ID# 28HB, PCGS# 8884, CoinPlex ID# ITM1932
- 7455 1932 MS64+ PCGS. CAC.** Attractive yellow-gold color and well-struck design elements add to the visual appeal of this lovely, high-end near-Gem example. The surfaces are only lightly marked. PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932
- 7456 1932 MS65 NGC.** A lemon-gold Gem whose booming luster and precise strike combine with clean surfaces for pleasing eye appeal. One small mark noted on the reverse rim at 4:30. The only readily collected gold issue of any denomination from the 1930s. Certified in a prior generation holder. NGC ID# 28HB, PCGS# 8884, CoinPlex ID# ITM1932
- 7457 1932 MS65 PCGS. CAC.** The impressive Indian head eagle design was seen for the last time in large-scale production in 1932, as the following year saw a mere 312,500 pieces coined before President Franklin Roosevelt recalled gold coinage. This Gem exhibits pristine yellow-gold surfaces with brilliant luster and exceptional eye appeal. PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932

**1932 Eagle, MS66
Top-Notch Example**

- 7458 1932 MS66 PCGS. CAC.** The 1932 eagle is the only readily collectible gold coin from the decade of the 1930s, curiously produced in prodigious quantities — 4.4 million pieces — the year before President Franklin Delano Roosevelt's Gold Recall. The eye appeal on this Premium Gem is every bit a bounteous as the grade implies. Virtually unmarked surfaces range from reddish-gold to lemon-yellow amid rich luster and a flawless strike. Only a peppering of light marks on the reverse possibly precludes an even finer grade. *From The Richard P. Ariagno, M.D. Collection.* PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932

LIBERTY DOUBLE EAGLES

**1850 Double Eagle, XF
First Year of the Denomination**

- 7459 1850 XF40 PCGS. CAC Gold Label.** Despite 20 points of wear, the surfaces retain considerable charm on this XF 1850 double eagle, the historic first issue in what would become America's largest circulating denomination of the classic gold era. The surfaces show mostly light field chatter but a few larger marks intermingle, including a couple on Liberty's cheek. Color ranges from yellow-gold to brownish-gold. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 8902, NGC ID# 268F, CoinPlex ID# 20M1850

**Choice XF 1850 Double Eagle
First Year of Regular Output**

- 7460 1850 XF45 NGC.** The famous 1849 double eagle is a prototype, and regular production of the twenty dollar gold denomination began in 1850. This first-year Choice XF coin is softly struck with light, broad wear on the raised devices but considerable yellow-orange luster remaining in moderately abraded fields. The rims show several bumps. NGC ID# 268F, PCGS# 8902, CoinPlex ID# 20M1850

**Choice VF 1850-O Twenty Dollar
First-Year O-Mint**

- 7461 1850-O VF35 PCGS. CAC Gold Label. Variety 2.** The scarcer variety with mintmark well below the tail feathers and die chips on Liberty's neck at the bend. The 1850-O is always popular as the first year of the new denomination, precipitated by the great California Gold Rush and struck in New Orleans. Extensive field chatter combines with a few larger marks on this Choice VF example, which nonetheless retains considerable appeal and is certified in a green-label holder. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 8903, NGC ID# 268G, CoinPlex ID# 20M1850O

- 7462 1851 AU53 NGC.** Yellow-gold surfaces display traces of light tan and distributed minute marks. The design elements are generally well defined. NGC ID# 268H, PCGS# 8904, CoinPlex ID# 20M1851

Choice XF 1851-O Twenty Dollar

- 7463 1851-O XF45 PCGS. Variety 2.** A pleasing New Orleans twenty whose peach-gold surfaces are only lightly abraded and exhibit considerable luster. The cheek and curls show wear but the eye appeal is substantial. The Louisiana facility struck the denomination for its first twelve years, and again in 1879, but most O-mint issues are rare, focusing Southern type demand on the 1851-O. PCGS# 8905, NGC ID# 268J, CoinPlex ID# 20M1851O

**1851-O Twenty Dollar, AU55
Scarce in AU, Rare Any Finer**

- 7464 1851-O AU55 NGC. Variety 1.** The mintmark slightly to left of center over N, a die chip in front of Liberty's eye, and a die crack connecting tops of TED of UNITED confirm the variety. The ample mintage of 315,000 pieces ensures the readily availability of the 1851-O through XF. AU examples are scarce and Mint State specimens are rare. This Choice AU coin displays apricot-gold color and traces of luster in the recessed areas. Some light striking is noted in Liberty's hair and the obverse stars, which is typical for the issue. Distributed light marks are not detracting. NGC ID# 268J, PCGS# 8905, CoinPlex ID# 20M1851O

- 7465 1853 XF40 PCGS. Gold CAC.** Not only does this coin sport a gold CAC sticker, but it is also a green-label PCGS certified specimen. Both sides have splendid honey-gold surfaces with traces of luster, unusual for the grade. This is an impressive example. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 8908, NGC ID# 268M, CoinPlex ID# 20M1853

**Small Date 1854 Twenty, XF45
Repunched Date, Breen-7167**

- 7466 1854/1854 Small Date XF45 NGC. CAC. Breen-7167.** The date is clearly repunched, visible beneath the flag of the 1 and above the 4. NGC has designated the RPM as VP-001, their own attribution number for the variety. This yellow-gold double eagle displays distributed small marks, none of which are singularly obtrusive. Luster glints from the design elements. *Ex: Los Angeles Signature (Heritage, 8/2009), lot 2674.* NGC ID# 268P, PCGS# 8911, CoinPlex ID# 20M1854

**Repunched Date, Small Date
1854 Twenty Dollar**

- 7467 1854/1854 Small Date AU55 NGC. Breen-7167.** The date was initially entered with an upward slant. A half-hearted attempt was made to efface the errant logotype before it was entered a second time in a correct position. Traces from the first impression are prominent near the 1 and 4 in the date. The present example has original peach-gold toning and displays substantial glowing luster. As is usual for a lightly circulated double eagle, moderate marks are evident with a preponderance on the obverse. NGC ID# 268P, PCGS# 8911, CoinPlex ID# 20M1854

**1855 Double Eagle, Eye-Appealing AU58
Italic 5s in Date**

- 7468 1855 AU58 NGC.** This 1855 Philadelphia double eagle reminds us both of the California Gold Rush that began a few years previously to the issue of this piece, as well as the "old coppers" that still circulated at this time, bearing the italic 5s as in the date here. This piece shows just a whisper of high-point rub with excellent eye appeal and few mentionable marks. Census: 68 in 58 (1 in 58+), 17 finer (11/12). *From The Flagg Family Collection.* NGC ID# 268V, PCGS# 8914, CoinPlex ID# 20M1855

Choice XF 1855-S Double Eagle

- 7469 1855-S XF45 PCGS. CAC Gold Label.** A charming peach-gold representative from the second year of the San Francisco Mint. Coinage at the facility was interrupted that year by a shortage of parting acids, which forced private gold issues by Wass, Molitor and Kellogg & Co. The present Federal double eagle is less abraded than expected for the grade and shows considerable luster within design elements. Certified in a green label holder. PCGS# 8916, NGC ID# 268X, CoinPlex ID# 20M1855S

**AU53 1855-S Twenty Dollar
From the S.S. Central America**

- 7470 1855-S AU53 PCGS. CAC. Variety 14C.** Ex: S.S. *Central America*. SSCA 6378. While the majority of double eagles recovered from the S.S. *Central America* were 1857-S examples, a small number of prior issues were also part of the recovered treasure. They were duly designated by die variety by Robert Evans, including the present "S Tilted Right" representative. Well defined and only lightly abraded with minimal wear and medium apricot toning. Certified in a gold label holder. PCGS# 8916, NGC ID# 268X, CoinPlex ID# 20M1855S
- 7471 1855-S — Altered Surfaces — PCGS Genuine. Unc. Details.** The luster has an odd, quasi-uniform reflectivity that is evocative of "whizzing." This is unusual on a coin with Uncirculated details such as this. A number of shallow scrapes and pinscratches also are present. PCGS# 8916, NGC ID# 268X, CoinPlex ID# 20M1855S

**Choice AU 1857-S Double Eagle
Famous Shipwreck Issue**

- 7472 1857-S AU55 NGC.** Many high-grade examples of the 1857-S Liberty double eagle were recovered from the wreck of the S.S. *Central America*, and the issue is listed among the *100 Greatest U.S. Coins*. This well-detailed Choice AU specimen displays lustrous greenish-gold surfaces, with only minor abrasions and considerable eye appeal. NGC ID# 2696, PCGS# 8922, CoinPlex ID# 20M1857S

**Choice AU Central America 1857-S Twenty
Seldom-Seen Variety 20-D, Bold 7, Faint S**

- 7473 1857-S AU55 PCGS. CAC Gold Label. Variety 20-D.** Ex: S.S. *Central America*. SSCA 1990. This seldom-seen variety has the Bold 7 in the date coupled with the Faint S mintmark. Beautiful orange-gold surfaces show exuberant luster interspersed with prooflikeness in the fields, and light field chatter consistent with the grade. This Choice AU example provides an excellent alternative to the much-pricier Mint State 1857-S twenties. From *The SPQR Collection of CAC Gold Sticker Coins*. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

1857-S Double Eagle, AU55

- 7474 1857-S AU55 PCGS. CAC.** Though there is no such indication on the insert, the present coin is probably from the S.S. *Central America* shipwreck, since it is the Faint S Variety 20D, one of the reverses described by SSCA conservator Robert Evans in the July 2000 *Numismatist*. A majority of SSCA Variety 20D examples are graded either AU55 or AU58, under PCGS #70003. The present piece is sharply struck and exhibits substantial luster. The lemon-gold surfaces display the expected number of small abrasions. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**Near-Mint 1857-S Twenty Dollar
Popular Type One Issue**

- 7475 1857-S AU58 PCGS.** A delightful orange-gold example, possibly from the popular S.S. *Central America* treasure. Both sides have excellent, nearly full luster with only slight wear on the high points of the design. At one time considered a rare date, but now one of the common issues among Type One double eagles. Ex: *Houston Signature* (Heritage, 12/2008), lot 2402. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**Near-Mint 1857-S Twenty Dollar
S.S.C.A. Shipwreck, Better Variety 20F**

7476 1857-S AU58 PCGS. CAC. Variety 20F. Ex: S.S. *Central America*. SSCA 1963. The “No Serif, Right S” reverse, indicating the left serif of the U in UNITED is absent, and the mintmark is positioned further to the right (relative to the N in TWENTY) than the other 1857-S varieties. Of likely greater significance to the collector, the present piece provides essentially unbroken cartwheel luster and offers exceptionally clean surfaces. Housed in a gold label holder. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**SSCA 1857-S Double Eagle, MS62
Spiked Shield Variety**

7477 1857-S MS62 PCGS. Variety 20A. Ex: S.S. *Central America*. SSCA 7551. The well-known “Spiked Shield” variety from the legendary treasure shipwreck. A die line pierces the left shield border and is the source of the nickname. The present sharply struck example has potent luster and minimal marks, but indications of the tan patina from its lengthy underwater repose are evident here and there. Housed in a gold label holder. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**1857-S Double Eagle, Broken A Variety
MS63 S.S. *Central America* Example**

7478 1857-S MS63 PCGS. Variety 20E, Broken A. Ex: S.S. *Central America*. SSCA 7438. The middle stroke of the A in STATES is missing on its left side. The July 2000 *Numismatist* article by Robert Evans notes that the Broken A variety is “unique to this die and has been documented only on 1857 double eagles recovered from the *Central America*.” This Select example boasts lovely orange-gold centers brightening at the rims to lemon-yellow, a typical appearance for the issue. The strike and eye appeal are both equally bold. Certified in the special PCGS gold-foil-insert labels. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**Select 1857-S Twenty Dollar
S.S. *Central America***

7479 1857-S MS63 PCGS. CAC. Variety 20A. Ex: S.S. *Central America*. SSCA 3046. Dazzling luster and an intricate strike ensure the eye appeal of this treasure ship example. The reverse is close to pristine while the obverse is smooth aside from wispy contact near stars 5 and 6. The borders have light peach toning aside from a small obverse spot at 6 o'clock. Encapsulated in a gold label holder. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**Near-Gem 1857-S Spiked Shield Twenty
S.S. *Central America* Gold Label**

7480 1857-S MS64 PCGS. CAC. Ex: S.S. *Central America*. SSCA 4030. An attractive near-Gem Spiked Shield example of the famous treasure/type coin, pale yellow on the reverse with a deeper overall tone on the obverse and the usual shift from richer color at the rims to lighter interiors. The shift is marked by a milky line on the lustrous obverse. Comes with certificate of authenticity, faux-book case, and presentation box. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**Choice 1857-S Liberty Twenty
Vibrant Luster, Vivid Color**

7481 1857-S MS64 PCGS. CAC. This coin is not specifically pedigreed to the S.S. *Central America*, but the surfaces are vibrant and highly lustrous, a characteristic almost never seen on 1857-S double eagles that don't come from that famous shipwreck. Sharply struck throughout, the coin shows only the slightest abrasions that would keep it from a full Gem grade, only a few paper-thin luster grazes on the cheek and a small cluster of milling marks on the neck. An exceptionally attractive Type One Double Eagle. Population: 73 in 64, 35 finer (11/12). PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**Gem 'Spiked Shield' 1857-S Twenty
From the S.S. Central America**

- 7482 1857-S MS65 PCGS. CAC. Variety 20A.** Ex: S.S. *Central America*. SSCA 2166. The "Spiked Shield" variety, associated with high grade 1857-S twenties recovered from the famous treasure ship, which sank in the Atlantic Ocean on September 12, 1857. The shipwreck was located in 1988 by an expedition led by Tommy Thompson, though legal battles with descendant firms of the insurers delayed hobby distribution for an additional dozen years. The coins were expertly conserved by Robert Evans, who also assigned names to the different reverse dies. The "Spiked Shield" is readily distinguished by two die lines near the lower left shield border. The present well struck butter-gold Gem possesses exemplary luster and only minor obverse grazes. A magnificent souvenir. Housed in a gold label holder. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**1857-S Liberty Double Eagle, MS65
Ex: S.S. Central America**

- 7483 1857-S MS65 PCGS. CAC. 20A Spiked Shield.** Ex: S.S. *Central America* SSCA 1115. Type One double eagles were almost never seen in Mint State condition before 1985, but the discovery of the S.S. *Central America* fundamentally changed the market for these coins when more than 5,000 1857-S double eagles were recovered from the wreck. At least eight different varieties were identified, including the "Spiked Shield" variety, recognized by the two die lines near the lower-left shield border.

The present coin is an attractive Gem, with sharply detailed design elements and well-preserved yellow and rose-gold surfaces that show only minimal signs of contact. Especially vibrant mint luster is evident on both sides and eye appeal is terrific. The 1857-S is listed among the *100 Greatest U.S. Coins*. Population: 32 in 65 (1 in 65+), 3 finer (12/12). PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**1860 Twenty Dollar, Choice AU
Bright Yellow-Gold Surfaces**

- 7484 1860 AU55 PCGS.** Surprisingly lustrous with bright lemon-gold surfaces. Faintly worn on the softly struck high points with small, scattered abrasions that appear on and near the portrait. This would make a nice AU type coin representative of a Type One twenty.
Ex: *FUN Signature (Heritage, 1/2009)*, lot 5699. PCGS# 8929, NGC ID# 269D, CoinPlex ID# 20M1860

**1860 Double Eagle, AU58
Significant Mint Luster Remains**

- 7485 1860 AU58 NGC.** Somewhat subdued but still attractive yellow-gold surfaces exhibit frosty luster. The design elements are boldly defined, and only a trace of wear is evident on Liberty's cheek. This is a lovely representative. NGC has certified 50 finer examples of the date (11/12).
Ex: *Houston Signature (Heritage, 12/2008)*, lot 2411. NGC ID# 269D, PCGS# 8929, CoinPlex ID# 20M1860

- 7486 1861 AU50 PCGS.** An exceptional example of the popular 1861 double eagle, once considered the only common Type One double eagle until several treasures were discovered on the ocean floor off North Carolina, Florida, and San Francisco. This pleasing AU has brilliant yellow luster with scattered, inconsequential marks. PCGS# 8932, NGC ID# 269G, CoinPlex ID# 20M1861

- 7487 1861 AU53 PCGS.** Hazy toning slightly subdues the butter-yellow surfaces of this attractive and still lustrous double eagle. A dark spot at Liberty's forelock will serve to identify this specimen. PCGS# 8932, NGC ID# 269G, CoinPlex ID# 20M1861

Near-Mint 1861 Double Eagle

- 7488 1861 AU58 PCGS.** This near-Mint example displays brilliant gold color and retains attractive luster. Several reed marks appear, including on Liberty's cheek. The 1861 Liberty twenty is an available date and a favorite choice of collectors seeking an example of the Type One double eagle. PCGS# 8932, NGC ID# 269G, CoinPlex ID# 20M1861

**MS61 1861 Double Eagle
Warm Luster**

- 7489 1861 MS61 NGC.** This high-mintage issue struck in the first year of the Civil War is among the more popular Philadelphia dates for gold type enthusiasts. Though the MS61 example offered here shows numerous fine abrasions and two lines of reed marks at the right reverse, its yellow-orange luster is generous and the obverse is pleasing for the grade. NGC ID# 269G, PCGS# 8932, CoinPlex ID# 20M1861

**Rare 1861-O Double Eagle
VF35 Sharpness**

- 7490 1861-O — Graffiti, Cleaned — ANACS. VF35 Details. Variety 1.** A rare New Orleans double eagle from the tumultuous final year of its operation prior to its 1879 renaissance. The canary-gold surfaces are moderately glossy and bright. The letter W is faintly pinscratched on the upper left obverse field. The wingtips show wear but much plumage remains. NGC ID# 269J, PCGS# 8934, CoinPlex ID# 20M1861O

**1862 Double Eagle, XF40
Low-Mintage Civil War Date**

- 7491 1862 XF40 NGC.** The economic stresses of the Civil War caused the mintage of Philadelphia double eagles to decline dramatically in 1862, and this date is one of the scarcest Type One twenties. The pleasing greenish-gold surfaces of this attractive XF specimen are lightly worn and lightly abraded for the grade. Census: 9 in 40, 69 finer (11/12). NGC ID# 269M, PCGS# 8937, CoinPlex ID# 20M1862

- 7492 1863 — Rim Filing — NGC Details. AU.** The obverse rim is filed near 6 o'clock and the reverse rim shows filing near 11:30. We note a moderate rim mark at 11 o'clock on the reverse. The obverse is lightly cleaned. Otherwise, this butter-gold low mintage Civil War double eagle is well defined and displays substantial luster. NGC ID# 269P, PCGS# 8939, CoinPlex ID# 20M1863

About Uncirculated 1864 Twenty
Rich Golden Color

7493 1864 AU50 PCGS. This otherwise straw-gold twenty emits a burst of gorgeous orange coloration when tilted under a light source. Luster is plentiful within the protected areas of the obverse stars and most of the reverse. Population: 38 in 50, 93 finer (11/12).
Ex: FUN Signature (Heritage, 1/2009), lot 5709. PCGS# 8941, NGC ID# 269S, CoinPlex ID# 20M1864

7494 1864-S VF35 PCGS. Gold CAC. This green-label PCGS holdered double eagle presents considerable eye appeal, sufficient to garner a gold CAC sticker. Both sides have light yellow surfaces with rich navy-blue patina and scattered surface marks on each side.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 8942, NGC ID# 269T, CoinPlex ID# 20M1864S

7495 1865 XF40 NGC. CAC Gold Label. The yellow-gold surfaces of this double eagle possess a good amount of luster for an XF40. The design elements are generally well defined, and the few minute marks are not detracting.
From The SPQR Collection of CAC Gold Sticker Coins. NGC ID# 269U, PCGS# 8943, CoinPlex ID# 20M1865

Well-Struck 1865-S Twenty Dollar, MS60

7496 1865-S MS60 NGC. Breen-7221. Small S mintmark. Breen states: "Uncs. are from a tiny hoard discovered about 1967." Most 1865-S survivors are in Very Fine and Extremely Fine grades. The wheat-gold surfaces of this MS60 specimen are somewhat satiny and reveal light marks scattered about, and the design features are relatively well-struck. NGC ID# 269V, PCGS# 8944, CoinPlex ID# 20M1865S

1865-S Double Eagle, MS65
Possibly Ex: Brother Jonathan

7497 1865-S MS65 PCGS. A delicate die crack begins at the bust point and meanders through most or all of the stars and continues through the base of the date, nearly encircling the obverse. The reverse has a short diagonal die line at the left top of the second T in TWENTY and other die flaws through the horizontal shield stripes. The obverse of this Gem Type One double eagle exhibits bright yellow luster while the reverse has subdued apricot toning over its frosty yellow surface. Both sides are boldly defined throughout. This is possibly an example from the S.S. *Brother Jonathan* treasure and has the look of many coins from that treasure, although the slab is not so identified. Population: 22 in 65, 2 finer (12/12).
From The Richard P. Ariagno, M.D. Collection. PCGS# 8944, NGC ID# 269V, CoinPlex ID# 20M1865S

**1866-S Twenty, AU Sharpness
Elusive No Motto Example**

- 7498 1866-S No Motto — Harshly Cleaned — NGC Details. AU.** From a mintage estimated at 120,000 pieces, probably no more than 200 1866-S No Motto double eagles are extant today in all grades, making the issue one of the most challenging of the Type One series. This lightly circulated orange-gold specimen shows some signs of a cleaning in prior years. NGC ID# 269W, PCGS# 8945, CoinPlex ID# 20M1866SNM

**1866-S Motto Double Eagle, AU55
Conditionally Scarce and Well-Struck**

- 7501 1866-S Motto AU55 PCGS. CAC.** The 1866-S With Motto double eagles are easily found in Very Fine and Extremely Fine grades. AU pieces are scarce in the high end thereof, such as this Choice AU. Wheat-gold surfaces display luster in the protected areas and reveal light, unobtrusive marks. The design elements are well-impressed. PCGS# 8950, NGC ID# 269Y, CoinPlex ID# 20M1866SMOT

**1866 Motto Double Eagle, AU55
Scarce at This Grade Level**

- 7499 1866 AU55 NGC.** The plentiful mintage of 698,745 business strikes makes the 1866 Motto twenty dollar available through the Extremely Fine level of preservation. The issue becomes scarce in About Uncirculated and quite rare in Mint State. The brass-gold surfaces of this Choice AU example retain luster in the protected areas and reveal the typical number of marks from brief circulation. The design elements are generally well struck. NGC ID# 269X, PCGS# 8949, CoinPlex ID# 20M1866

**1867-S Double Eagle, Choice AU
Elusive in Mint Condition**

- 7502 1867-S AU55 NGC.** The 1867-S double eagle saw a fairly large mintage approaching 1 million coins in post-Civil War San Francisco, but most either circulated extensively or were melted over the decades. Mint State survivors are rare. This Choice AU example displays deep reddish-orange patina over surfaces that still boast considerable luster and a scattering of contact marks. *From The Flagg Family Collection.* NGC ID# 26A2, PCGS# 8952, CoinPlex ID# 20M1867S

**Near-Mint 1866 Double Eagle
First Year With Motto**

- 7500 1866 AU58 PCGS. CAC.** Representatives from 1866, the first year of the design that included IN GOD WE TRUST, are very popular with collectors. This near-Mint example displays sun-gold surfaces along with considerable luster. Surface marks are scattered throughout both sides. Population: 56 in 58 (1 in 58+), 25 finer (12/12). PCGS# 8949, NGC ID# 269X, CoinPlex ID# 20M1866

**Near-Mint 1868-S Liberty Twenty
Conditionally Scarce Type Two Issue**

- 7504 1868-S AU58 NGC.** The vivid orange-gold surfaces of this attractive Type Two double eagle are lightly abraded and retain most of their original mint luster. Just a touch of wear shows on the high points of the well-detailed design elements and eye appeal is quite strong for the grade. NGC has graded 33 numerically finer examples (11/12). NGC ID# 26A4, PCGS# 8954, CoinPlex ID# 20M1868S

**1868-S Liberty Double Eagle, AU58
Type Two Twenty in Relatively High Grade**

- 7505 1868-S AU58 NGC. CAC.** Like all Type Two double eagles, the 1868-S is seldom encountered in Mint State grades. This attractive near-Mint specimen offers well-detailed design elements and lightly abraded yellow-gold surfaces, with accents of green and rose, and traces of original mint luster. NGC has certified 33 numerically finer specimens (11/12). NGC ID# 26A4, PCGS# 8954, CoinPlex ID# 20M1868S

**1872-CC Double Eagle, AU
Rare Any Finer**

- 7506 1872-CC AU50 NGC. Variety 2-A.** This relatively common variety is unlisted in Doug Winter's 2001 series reference, attributed by the 1 in the date close to the bust and a narrow CC. The 1872-CC is a rarity in the context of the Carson City series, especially in Mint State. Most pieces are in Very Fine and Extremely Fine. The brassy-gold surfaces of this AU example display luster in the protected areas. Contact marks are evenly distributed, as typical of the issue. *From The Flagg Family Collection.* NGC ID# 26AE, PCGS# 8964, CoinPlex ID# 20M1872CC

**1872-S Double Eagle, MS61
Only Nine Finer Coins at NGC**

- 7507 1872-S MS61 NGC. CAC.** Most Type Two double eagles can be located in lower grades without much difficulty, but high-grade examples are always quite elusive. A case-in-point is the 1872-S Liberty twenty, which claims a large mintage of 780,000 pieces, but is very scarce in all Mint State grades. This attractive MS61 specimen offers lustrous yellow-gold surfaces and well-detailed design elements, with a scattering of minor contact marks that explains the grade. Census: 76 in 61, 9 finer (11/12). NGC ID# 26AF, PCGS# 8965, CoinPlex ID# 20M1872S

- 7508 1873 Open 3 MS62 PCGS.** The left obverse field has a noticeable luster graze, but the surfaces are otherwise untroubled. Well struck and with attractive apricot color. Although the 1873 Open 3 is among the more available Type Two issues due to its mintage of 1.7 million pieces, little regard was given for decades to the storage of survivors, which were regarded solely as bullion. *From The Flagg Family Collection.* PCGS# 8967, NGC ID# 26AH, CoinPlex ID# 20M1873OP3

- 7509 1873-S Closed 3 AU55 NGC.** Pale yellow-gold luster remains intact in protected areas of the fields. Surprisingly bright overall despite the light wear and numerous small abrasions affecting each side. NGC ID# 26AL, PCGS# 8969, CoinPlex ID# 20M1873SCL3

- 7510 1874-CC VF35 PCGS. Variety 4-A.** This Choice VF Type Two Carson City double eagle is toned rich orange-gold and shows glimpses of remaining luster, especially on the reverse. Marks from Old West commerce are more prevalent on the right reverse. PCGS# 8971, NGC ID# 26AP, CoinPlex ID# 20M1874CC

- 7511 1874-CC — Obverse Damage — NGC Details. AU. Variety 1-A.** Bright yellow-gold surfaces display well struck design elements, especially on the reverse. Numerous marks are visible on the obverse, including a shallow scrape on the neck and jaw. NGC ID# 26AP, PCGS# 8971, CoinPlex ID# 20M1874CC

**MS62 1875 Twenty Dollar
Only Available U.S. Gold Issue of the Year**

- 7512 1875 MS62 PCGS.** The 1875 double eagle is the only readily collectible gold issue of 1875, giving it an unusual niche in American numismatics. This MS62 example displays top-notch eye appeal with lovely peach-gold color and good luster, despite the sprinkling of small- to medium-sized marks on Liberty's face and elsewhere that account for the grade. PCGS# 8973, NGC ID# 26AS, CoinPlex ID# 20M1875

1875-CC Double Eagle, MS61

- 7513 1875-CC MS61 NGC. Variety 2-B.** All Carson City twenties are scarcer than their San Francisco counterparts. The 1875-CC is nonetheless collectible, especially in VF and XF where it trades for only a moderate premium above melt. Uncirculated examples are elusive, and the issue becomes undeniably rare at the MS63 level. The present MS61 representative has good luster and the strike is sharp except on the left-side obverse stars. Abrasions are fewer than expected for the grade, particularly on the reverse. NGC ID# 26AT, PCGS# 8974, CoinPlex ID# 20M1875CC

- 7514 1876 MS60 NGC. Gold CAC. Heavy Motto. Clearly better than an MS60 with bold and rewarding yellow-gold luster. While this well struck piece does show numerous light abrasions, the MS60 designation awarded in an earlier time is downright uncharitable. From The SPQR Collection of CAC Gold Sticker Coins. NGC ID# 26AV, PCGS# 8976, CoinPlex ID# 20M1876**

1876-S Double Eagle, MS62

- 7515 1876-S MS62 PCGS. CAC.** An impressive Type Two twenty, this S-Mint issue represents the last of the design, as the Type Three modification was introduced in 1877. An impressive specimen, this example deserves a higher grade, in our opinion, with brilliant and reflective yellow surfaces showing minimal marks on each side. Frequently seen at this grade level, collectors have an ideal opportunity to choose just the right piece, such as the present specimen. *From The Teich Family Collection. PCGS# 8978, NGC ID# 26AX, CoinPlex ID# 20M1876S*

Mint State 1882-CC Double Eagle Variety 1-B, Prominent Reverse Die Cracks

- 7516 1882-CC MS60 NGC. Variety 1-B,** second C in mintmark higher than the first. A couple of heavy scrapes appear on and before Liberty on this coin and scattered smaller marks appear on both sides, but it nonetheless possesses far more eye appeal than the numeric grade might imply. Full mint luster is present, with deep red-orange color and a bold strike throughout. The interesting peripheral die cracks encircling much of the reverse (characteristic of this variety) and tinges of lighter yellow-gold intermingling on each side increase the appeal. *From The Richmond Hill Collection. NGC ID# 26BF, PCGS# 8997, CoinPlex ID# 20M1882CC*

Well-Defined 1882-S Double Eagle, MS62

- 7517 1882-S MS62 PCGS. CAC.** Orange-laced yellow-gold brightness is a defining characteristic of this San Francisco double eagle's eye appeal. The details are pleasing, marks generally shallow, and copper spots light. As often seen with Type Three S-mint twenties, Select and finer coins are condition rarities. PCGS# 8998, NGC ID# 26BG, CoinPlex ID# 20M1882S

Well-Defined 1883-CC Double Eagle, AU55 Elusive in Mint State

- 7518 1883-CC AU55 NGC.** Attributable by the rightmost C in the mintmark being partially over the D in DOLLAR, and there is also a diagonal spike from the dentils over the E in STATES. This popular Carson City Mint issue is common in circulated grades but elusive in Mint State. This Choice AU example retains luster in the recesses of its wheat-gold surfaces. The design elements are well defined, and the light marks scattered about are within the context of a briefly circulated gold coin. *From The Flagg Family Collection. NGC ID# 26BH, PCGS# 8999, CoinPlex ID# 20M1883CC*

- 7519 1883-S MS62 PCGS.** The bright cartwheel luster is imposing, and the surfaces are not unduly marked. A small alloy spot resides below the B in PLURIBUS. *From The Flagg Family Collection. PCGS# 9000, NGC ID# 26BJ, CoinPlex ID# 20M1883S*

- 7520 1884-CC XF40 PCGS. Variety 1-A.** The only variety currently known. This sharply defined XF twenty displays orange-gold color and has luster in the recessed areas. A few bluish-purple streaks are noted in the lower-right obverse field. PCGS# 9001, NGC ID# 26BK, CoinPlex ID# 20M1884CC

Appealing 1884-CC Double Eagle, XF40 Minimally Marked and Lustrous

- 7521 1884-CC XF40 PCGS. Variety 1-A. CAC Gold Label.** One variety is currently known. The 1884-CC double eagle is readily available through the MS61 grade level. Most survivors, however, are heavily abraded. The wheat-gold surfaces of the present XF40 example are refreshingly clean for a large, heavy gold coin that has seen some circulation. Likewise, ample luster is evident for the grade level, and the design elements are sharply defined. This piece displays pleasing eye appeal for the designated grade. Housed in a green label holder. *From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 9001, NGC ID# 26BK, CoinPlex ID# 20M1884CC*

1884-CC Twenty Dollar, AU53

- 7522** 1884-CC AU53 NGC. **Variety 1-A.** A sun-gold example of this popular Carson City issue. Briefly circulated but well defined with luster especially plentiful on the reverse. Marks are moderate overall though we note a slender horizontal abrasion on the cheek and a thin diagonal line on the tail feathers. NGC ID# 26BK, PCGS# 9001, CoinPlex ID# 20M1884CC
-

**Sharp 1884-CC Twenty Dollar, MS61
Quite Possibly Undergraded**

- 7523** 1884-CC MS61 PCGS. **Variety 1-A.** The only variety currently known. Highly attractive apricot-gold patination cascades over both sides of this MS61 twenty dollar, complemented by an exquisite strike. A few marks and scuffs are scattered about, but these are far fewer and less serious than typically found on surviving examples of this issue. Additionally, both sides display pleasing luster. All in all, this is a sharp coin that is only a breath away from the next highest grade. *From The Flagg Family Collection.* PCGS# 9001, NGC ID# 26BK, CoinPlex ID# 20M1884CC
-

**AU 1885-CC Twenty Dollar
Low-Mintage Carson City Issue**

- 7524** 1885-CC AU50 NGC. **Variety 1-A.** Rich peach toning embraces this briefly circulated but attractive double eagle. The mintage is even lower than usual for the facility due to an early closure that year. Luster individually outlines obverse stars and fills the reverse design. Marks are inconsequential aside from a small cluster beneath the right (facing) wing. *From The Richmond Hill Collection.* NGC ID# 26BN, PCGS# 9004, CoinPlex ID# 20M1885CC
-

1885-CC Twenty, AU Details

- 7525** 1885-CC — Improperly Cleaned — NGC Details. **AU. Variety 1-A.** The olive-green and apricot-gold surfaces are subdued and hairlined but luster is prominent on the reverse and apparent on the obverse. Minimally bagmarked but we note a faint pinscratch near the hairbun and a slight obverse rim ding at 2:30. This Old West issue has a very low mintage, likely due to the closure of the Carson City Mint on March 8. NGC ID# 26BN, PCGS# 9004, CoinPlex ID# 20M1885CC
-

**1885-CC Double Eagle, AU53
Well-Struck and Minimally Marked**

- 7526** 1885-CC AU53 PCGS. **Variety 1-A. CAC Gold Label.** One die pair is known for this very scarce Carson City issue. The 1885-CC twenty dollar, with a mintage of 9,450 pieces, is one of the rarest Carson City double eagles struck in the 1880s. This AU53 specimen displays considerable luster on its wheat-gold surfaces and is quite well struck. Both sides are minimally marked, an unusual attribute for the issue that is excessively bagmarked. Housed in a green label holder. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 9004, NGC ID# 26BN, CoinPlex ID# 20M1885CC
-

**Sharply Struck 1887-S Double Eagle, MS62
Fewer Marks Than Typically Seen**

- 7527** 1887-S MS62 PCGS. **CAC.** Large numbers of the 1887-S twenty dollar were shipped for international trade, and many have returned to the States. Locating an example in circulated or low-end Uncirculated should pose no problem. MS63 pieces are scarce and finer examples are very rare. The yellow-gold surfaces of this MS62 specimen exhibit sharply struck design elements and yield only slight interruptions in the luster flow. Distributed minuscule marks limit the grade, but these are much fewer and less severe than typically found on surviving pieces. PCGS has graded 70 coins finer, and NGC 22 finer. PCGS# 9007, NGC ID# 26BS, CoinPlex ID# 20M1887S
-

1888-S Select Double Eagle

- 7528 1888-S MS63 NGC.** Although the 1888-S is one of the most common double eagles from the San Francisco Mint struck in the 1880s and is readily available in grades through MS62, once the MS63 level is reached it becomes more challenging. The lustrous honey-gold surfaces of this Select specimen exhibit sharply defined motifs, with Liberty's hair being especially strong. Scattered light marks determine the grade. NGC has graded only 32 examples finer, with 31 at the MS64 level and 1 in MS65 (12/12). NGC ID# 26BU, PCGS# 9009, CoinPlex ID# 20M1888S

MS62+ Liberty Twenty Scarce Low-Mintage Date

- 7529 1889 MS62+ PCGS.** Due to the low production number for this issue of only 44,070 pieces, representatives are relatively scarce. An attractive coin, this piece is well-struck and exhibits lovely yellow-gold color and pleasing mint luster. This is one of only two PCGS-graded examples at the 62+ level, with 20 finer (12/12). PCGS# 9010, NGC ID# 2695, CoinPlex ID# 20M1889

1890 Double Eagle, MS62 Difficult To Locate Finer

- 7530 1890 MS62 PCGS.** The 1890 double eagle is a lower-mintage issue of 75,940 business strikes. Most coins seen are in the MS60 to MS62 range. Select examples are scarce and finer coins are rare. Variegated peach-gold and light green patina graces the lustrous surfaces of this MS62 example and a well executed strike delivers crisp detail to the design features. A few scuffs and minute marks prevent a higher grade. PCGS has graded 38 pieces finer and NGC 21 finer. PCGS# 9013, NGC ID# 26BX, CoinPlex ID# 20M1890

1890 Double Eagle, MS62

- 7531 1890 MS62 NGC.** Brilliant luster and bright butter-gold color combine to provide this example with lovely eye appeal. Hints of orange and rose also appear. The piece displays numerous minor abrasions throughout, including Liberty's face, holding it from a higher grade. Census: (1 in 62+), 21 finer (12/12). *From The Richmond Hill Collection.* NGC ID# 26BX, PCGS# 9013, CoinPlex ID# 20M1890

- 7532 1890-CC XF40 NGC. Variety 2-B.** An informal survey of auction appearances suggests that the 2-B die pair is slightly scarcer than the 1-A die variety. This is a splendid specimen with honey-gold surfaces and traces of luster. An attractive and appealing example. NGC ID# 26BY, PCGS# 9014, CoinPlex ID# 20M1890CC

- 7533 1890-CC XF40 NGC. Variety 1-A.** A late die state of Reverse A showing the feathers at the right side of the tail missing some detail due to die lapping. This XF specimen has pleasing honey-gold surfaces with exceptional surfaces. NGC ID# 26BY, PCGS# 9014, CoinPlex ID# 20M1890CC

- 7534 1890-CC XF45 PCGS. Variety 1-A.** Two obverse dies and two reverse dies were paired to create two varieties. Variety 1-A has the mintmark entirely over the space between Y and D, and Variety 2-B has the second C over the upright of the D. This Choice XF specimen has lightly marked yellow-gold surfaces with a small splash of dark patina. PCGS# 9014, NGC ID# 26BY, CoinPlex ID# 20M1890CC

AU 1890-CC Double Eagle Early Die State Variety 1-A

- 7535 1890-CC AU50 NGC. CAC. Variety 1-A.** A peach-gold representative of this popular Carson City type issue. The curls show light wear but considerable luster outlines design elements. Marks are fewer than expected for the alloy, denomination, and grade. Variety 1-A exhibits minor reverse die doubling, strongest near the P in PLURIBUS. The scarce early die state with intact feathers on the eagle's tail. NGC ID# 26BY, PCGS# 9014, CoinPlex ID# 20M1890CC

1890-CC Double Eagle, AU53

- 7536** 1890-CC AU53 PCGS. CAC. Variety 1-A. This wheat-gold Carson City double eagle has light wear on Liberty's curls, but luster dominates the reverse and outlines individual obverse stars. Marks are surprisingly minimal for the grade, though a few ticks are noted at 4 o'clock on the reverse. The usual late die state with lapped right-side tail feathers. PCGS# 9014, NGC ID# 26BY, CoinPlex ID# 20M1890CC

Near-Mint 1890-CC Twenty
Doubled Die Reverse

- 7537** 1890-CC AU58 NGC. Variety 1-A. A lustrous sun-gold near-Mint Carson City type coin with surprisingly few marks. The cheek shows slight rub but the cartwheel luster is otherwise intact. An early die state example that shows minor die doubling on STATES, TWENTY, and PLURIBUS. *From The Richmond Hill Collection.* NGC ID# 26BY, PCGS# 9014, CoinPlex ID# 20M1890CC

- 7538** 1890-S AU55 PCGS. Gold CAC. A green-label PCGS holder hosts a gold CAC sticker, and houses a stunning Choice AU S-Mint double eagle. Both sides of this lovely specimen have brilliant and frosty yellow mint luster, and the obverse combines rose patina and pale blue toning to provide a highly appealing display. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 9015, NGC ID# 26BZ, CoinPlex ID# 20M1890S

- 7539** 1891-S MS63 PCGS. CAC. Housed in a first-generation PCGS holder, this Select Mint State S-Mint twenty combines frosty yellow luster with distinctive rose-gold toning highlights. Small splashes of darker patina highlight the devices. PCGS# 9018, NGC ID# 26C4, CoinPlex ID# 20M1891S

1891-S Double Eagle, MS64
Lovely Eye Appeal

- 7540** 1891-S MS64 PCGS. CAC. Medium S. Despite the substantial mintage of 1.2 million pieces, the 1891-S Liberty double eagle is very scarce in MS64 condition, and Gems are virtually unobtainable. Accents of green and peach combine for attractive eye appeal on this well-struck near-Gem example. Rich cartwheel luster and relatively few abrasions are additional attributes of this piece. Population: 86 in 64, 1 finer (12/12). PCGS# 9018, NGC ID# 26C4, CoinPlex ID# 20M1891S

-
- 7541** 1893 AU58 PCGS. CAC Gold Label. A well struck example with potent luster and unabraded fields. The cheek displays subtle abrasions, but the eye appeal is nonetheless pleasing. Certified in a first generation holder. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 9022, NGC ID# 26C8, CoinPlex ID# 20M1893

Near-Mint 1893-CC Double Eagle

- 7542** 1893-CC AU58 PCGS. Variety 2-A. The final Carson City issue has a low mintage of 18,402 pieces but is nonetheless collectible in attractive grades. This lustrous example has a trace of wear on the shoulder curl but comes very close to Mint State. No marks are remotely consequential, and the strike is crisp throughout. Toned orange-gold aside from a dash of powder-blue on the portrait. PCGS# 9023, NGC ID# 26C9, CoinPlex ID# 20M1893CC

1893-CC Variety 2-A Twenty, Unc Details

- 7543** 1893-CC — Obverse Improperly Cleaned — NGC Details. MS60. Variety 2-A. A small spike extends into the field from Liberty's neck on this obverse die. The reverse of this early die state specimen, lacking the die crack that eventually forms through TAT, has evidence of strike or bounce doubling. The obverse shows light hairlines on this reflective yellow-gold double eagle. NGC ID# 26C9, PCGS# 9023, CoinPlex ID# 20M1893CC
-

**Near-Gem 1893-S Double Eagle
Generous Luster and Patina**

- 7544 1893-S MS64 PCGS. CAC.** Generous peach-gold luster shimmers under a rich "skin" of vault patina. The surfaces are minimally abraded, and only a shallow diagonal line on Liberty's cheek precludes an even finer grade. The stars around the portrait show a touch of striking softness. The 1893-S twenty is a borderline condition rarity as a near-Gem and unquestionably so finer. Population: 39 in 64, 2 finer (12/12). PCGS# 9024, NGC ID# 26CA, CoinPlex ID# 20M1893S

**1896 Double Eagle, MS64+
Rare Any Finer**

- 7545 1896 MS64+ PCGS. CAC.** A broadly lustrous yellow-gold example with a few splashes of apricot and orange. The devices are well-defined, and though the rims have bumps and a cut appears in the hair to the right of Liberty's eye, the all-around visual appeal befits a near-Gem. PCGS has graded only five examples as MS65 or better (12/12). PCGS# 9029, NGC ID# 26CF, CoinPlex ID# 20M1896

Near-Gem 1896 Liberty Twenty Dollar

- 7546 1896-S MS64 PCGS.** The attributes of this lovely near-Gem include deep gold color with hints of orange and attractive luster. The piece exhibits detailed design elements. Minor contact marks appear on both sides, including Liberty's face. Examples are scarce beyond this grade level at both major grading services, with NGC having graded no finer MS64 pieces and only one MS65. PCGS has awarded only one 64+ grade, with 2 finer (12/12). PCGS# 9030, NGC ID# 26CG, CoinPlex ID# 20M1896S

- 7547 1897 MS64 PCGS. CAC.** A boldly struck yellow-orange piece with glimmers of frostiness on the high points and generous cartwheel luster sweeping through the fields. A few small marks on the portrait contribute to the grade. PCGS# 9031, NGC ID# 26CH, CoinPlex ID# 20M1897

- 7548 1899 MS64 NGC.** This sharply struck near-Gem twenty displays strong luster and attractive yellow-gold color. Some minor grazes prevent Gem classification. NGC ID# 26CM, PCGS# 9035, CoinPlex ID# 20M1899

Lovely 1902 Twenty Dollar, MS61

- 7549 1902 MS61 NGC.** Bold orange-gold color and vibrant cartwheel luster add to the attractiveness of this moderately abraded example. The 1902 has an unusually low mintage of 31,140 pieces, less than 5% of the 1904 production. As one might expect, the 1902 is relatively scarce in Mint State. *From The Richmond Hill Collection.* NGC ID# 26CU, PCGS# 9041, CoinPlex ID# 20M1902

**Low-Mintage 1902 Double Eagle, MS62
Sharply Struck and Richly Lustrous**

- 7550 1902 MS62 PCGS. CAC.** The low-mintage 1902 Liberty twenty, struck to the extent of 31,140 circulation strikes, stands in stark contrast to the 1904 issue two years later, a gargantuan production of more than 6.2 million coins. This MS62 1902 twenty offers rich luster over reddish-orange surfaces with some light charcoal accents in the fields. The strike is excellent. PCGS# 9041, NGC ID# 26CU, CoinPlex ID# 20M1902

- 7551 1903 MS64+ NGC. CAC.** An impressive Choice Mint State piece, this exceptional double eagle has frosty yellow-gold luster with pinkish overtones and pristine surfaces. *From The Richmond Hill Collection.* NGC ID# 26CW, PCGS# 9043, CoinPlex ID# 20M1903

- 7552 1904 MS60 PCGS. CAC Gold Label.** Housed in a first generation holder, this lustrous Liberty type coin exhibits eye appeal that clearly surpasses the MS60 grade. The reverse is particularly smooth. Crisply struck with vibrant caramel-gold color. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

- 7553 1904 MS60 PCGS. CAC Gold Label.** A peach-gold representative with glimpses of forest-green toning near the rims. Marks are surprisingly absent given the assigned initial Mint State grade. Encapsulated in a first generation holder. *From The SPQR Collection of CAC Gold Sticker Coins.* PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

7554 1904 MS61 PCGS. Gold CAC. A green-label PCGS holder and a gold CAC sticker; as good as it gets for a 1904 double eagle. The date is far the most plentiful in the Liberty Head double eagle series. While examples are seen daily, few could match the quality of this piece for its grade. Both sides have pristine surfaces with brilliant butter-yellow luster and bold design motifs.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

7555 1904 MS61 PCGS. CAC Gold Label. Certified in a first generation holder, the present double eagle type coin has the look of a higher grade, as there are few abrasions and none of those are notable. The strike is a bit soft at the centers and on the left side obverse stars.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

7556 1904 MS64+ PCGS. A satiny near-Gem, this Liberty double eagle has brilliant yellow luster with exceptional eye appeal. Both sides are pristine and mark-free, save for trivial contact points visible under a glass. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

7557 1904 MS64+ NGC. Orange-gold luster rolls on this double eagle from the definitive type issue for the Liberty design. A shallow scrape in the hair below the coronet is the difference between MS64+ and a far more expensive Gem grade. NGC ID# 26CY, PCGS# 9045, CoinPlex ID# 20M1904

7558 1904 MS64 PCGS. CAC. An exceptional Choice Mint State example of the common date Liberty twenty, the issue most often chosen for type sets, and this piece with easily please almost any collector. Both sides have frosty yellow luster with minimal surface marks. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

7559 1904 MS64 PCGS. CAC. A wonderful Choice Mint State specimen, this 1904 double eagle has satiny yellow and honey-gold luster with exceptional surfaces and only a few small splashes of dark patina on the reverse. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

7560 1904 MS64 PCGS. CAC. The 1904, a common date from a mintage of more than 6 million pieces, is an important issue for type collectors who only seek one example of a design. This Choice Mint State example has satin luster with lovely yellow and orange-gold surfaces. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

7561 1904 MS65 PCGS. A wonderful Gem, this sharply struck satin Gem combines light yellow luster with rich deep orange peripheries to create a stunning visual appearance. An excellent candidate to begin a date or type collection.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

MS65+ 1904 Double Eagle

7562 1904 MS65+ NGC. A lovely high-end Gem, this piece displays brilliant gold color with hints of orange, green, and yellow. The design elements are well-defined and only minor grazes and tiny marks appear. The 1904 double eagle is among the most famous type issues in all of U.S. coinage. NGC ID# 26CY, PCGS# 9045, CoinPlex ID# 20M1904

1904 Twenty Dollar, Premium Gem Almost Impossible To Locate Finer

7563 1904 MS66 NGC. The 1904 Liberty double eagle is known for high quality, but this remarkable Premium Gem stands out as an elite example of this popular issue. The design elements display razor-sharp definition throughout, and the attractive peach-gold surfaces radiate vibrant mint luster with terrific eye appeal. NGC has graded only one numerically finer example (11/12). NGC ID# 26CY, PCGS# 9045, CoinPlex ID# 20M1904

Outstanding 1904 Double Eagle, MS66 A Great Type Coin

7564 1904 MS66 NGC. CAC. The 1904 double eagle is more plentiful in Mint State than any other Liberty Head twenty. The coin is thus sought after as a type coin, especially for high-grade collections. Bright yellow-gold luster exudes from both sides of this Premium Gem, each of which exhibits sharply struck design elements and impeccable preservation. NGC has seen a solitary piece finer and PCGS two finer. This coin displays outstanding overall quality. NGC ID# 26CY, PCGS# 9045, CoinPlex ID# 20M1904

1904 Twenty Dollar, MS64 Prooflike Only 11 Finer NGC Prooflike Examples

7565 1904 MS64 Prooflike NGC. CAC. Although this is the most common Liberty Head double eagle date, the issue is nevertheless very scarce with the Prooflike designation. This Choice example is fully struck and intensely lustrous with untoned surfaces. Scattered small abrasions appear on both sides. Census: 48 in 64 Prooflike, 11 finer (11/12). PCGS# 79045

7566 1904-S MS63 PCGS. CAC Gold Label. Although the 1904-S is a common date, it is likely that few are certified in first generation holders with gold label seals, as is the case with the present lustrous and crisply struck sun-gold example.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 9046, NGC ID# 26CZ, CoinPlex ID# 20M1904S

Gem 1904-S Double Eagle
Reddish-Gold Example, Seldom Seen Finer

- 7567 1904-S MS65 PCGS.** The 1904-S is a date that is available up to MS64 but is elusive as a Gem or higher. The present example is fully lustrous with a sharp impression. Subtle reddish-gold color evenly covers each side, and the surfaces are nearly mark-free. PCGS and NGC combined have seen only three finer (12/12).
From The Richard P. Ariagno, M.D. Collection. PCGS# 9046, NGC ID# 26CZ, CoinPlex ID# 20M1904S
-

1905 Double Eagle, MS62
Top-Notch Eye Appeal

- 7568 1905 MS62 PCGS.** Like the 1902, the 1905 is another low-mintage Liberty twenty, in this case 58,900 pieces struck for circulation. This MS62 example displays top-notch eye appeal despite the few small marks that determine the grade. The surfaces are orange-gold to yellow-gold with softly frosted luster and a bold strike. PCGS# 9047, NGC ID# 26D2, CoinPlex ID# 20M1905
-

- 7569 1906 MS61 NGC.** A lovely example of the low-mintage 1906 double eagle, one of only 69,596 double eagles minted during the year. This one has satiny yellow luster with moderate marks as expected for the grade.
From The Flagg Family Collection. NGC ID# 26D4, PCGS# 9049, CoinPlex ID# 20M1906

- 7570 1907 MS61 PCGS. CAC Gold Label.** The final Philadelphia Liberty issue is plentiful overall, but undoubtedly rare in a first generation holder with a Gold CAC seal. The orange-gold centers are bounded by apple-green tints. Lustrous and well struck with scattered small marks.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 9052, NGC ID# 26D7, CoinPlex ID# 20M1907
-

1907-D Double Eagle, MS65
Fully Struck

- 7571 1907-D MS65 PCGS.** This amazingly clean Gem displays a full strike and frosty, radiantly lustrous surfaces on obverse and reverse alike. The subtle color variations include peach, reddish-gold, and pastel-green. While the reverse seems pristine, the obverse has a few very superficial marks at the lower portion. One of only two Denver Mint Liberty double eagles and always a popular issue. Scarce in finer grades.
Ex: Kutasi Collection (Heritage Auctions, 1/2007), lot 3256. PCGS# 9053, NGC ID# 26D8, CoinPlex ID# 20M1907D
-

HIGH RELIEF DOUBLE EAGLES

1907 High Relief Twenty, Pronounced Wire Rim

- 7572 1907 High Relief, Wire Rim Genuine PCGS.** The PCGS number ending in .92 suggests Cleaning as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of an Uncirculated specimen that has been cleaned. The wire rim of extruded metal is complete around the reverse and nearly so around the obverse, indicating this was among the first High Reliefs struck before the collar was redesigned in order to subdue the wire rim (it was never really eliminated). The strike details are fully developed on each side, including full separation of the letters on the upper reverse from the rim. The surfaces are nearly devoid of contact marks. Each side is a bit bright from cleaning and there is a slight accent of reddish patina around the margins. *From The Teich Family Collection.* PCGS# 9135, NGC ID# 26F2, CoinPlex ID# SGM1907HRWIRE

1907 AU Details High Relief Twenty Wire Rim Variant

- 7573 1907 High Relief, Wire Rim — Polished — ANACS. AU50 Details.** The surfaces are certainly overbright, and the Polished designation is an accurate one; however, there is still considerable appeal to this High Relief. There is just minimal evidence of circulation, as seen by the friction on the knee and loss of luster in the fields (but much of that is undoubtedly from cleaning). The brightness on each side simulates the bright yellow-gold color often seen on these specially produced coins. No mentionable contact marks are on either side. NGC ID# 26F2, PCGS# 9135, CoinPlex ID# SGM1907HRWIRE

Unc Details 1907 High Relief A Relatively Affordable Example

- 7574 1907 High Relief, Wire Rim — Rim Damage, Reverse Scratches — NGC Details. Unc.** It is not uncommon to see a partial wire rim around either official "Flat Rim" or "Wire Rim" High Reliefs. This piece shows damage in some areas where the wire rim appears, in the form of many small dents and dings in the wire rim. In other areas the rim appears to have been filed away, particularly but not limited to the upper reverse around STATES, where scraping is obvious. Some pinscratching also appears near the lower reverse, below the eagle's claws and near the sun. The many small impairments still fail to dampen the incredible appeal these coins possess, but they may provide an affordable entry point for some fortunate bidder. On a more macro level, this piece remains a gorgeous coin. NGC ID# 26F2, PCGS# 9135, CoinPlex ID# SGM1907HRWIRE

1907 High Relief Saint-Gaudens Twenty Gem Example of This Collection Capstone

7575 1907 High Relief, Wire Rim MS65 PCGS. The MCMVII High Relief, Wire Rim (and Flat Rim, for that matter) Saint-Gaudens double eagles have this in common with a few other coins in the classic American series: Even though they are available for a price in high grade, the *collecting public simply cannot get enough of these extraordinary coins*. Another numismatic issue that comes to mind that has some similar characteristics is the 1909-S VDB cent, say in Gem Red condition. Even at that level the coins are not rare, but every example finds a willing home at a strong price. There is unceasing demand for such coins, and collectors are happy to obtain one in any reasonable grade.

But a crucial difference between the two is that the High Reliefs are also *the key late-career numismatic masterwork of the most important American coin artist-sculptor of the early 20th century*, a work that Augustus Saint-Gaudens launched almost literally from his deathbed, with the persistent prodding of President Theodore Roosevelt.

They are great coins.

But they are also *great art*, and collectors everywhere consider the acquisition of a nice specimen to be the capstone of their numismatic career.

The Lincoln cent designer, Victor D. Brenner, was an extremely talented designer and also favored (after Saint-Gaudens' death) by President Roosevelt to design the new cent, but he was no Saint. His design of President Lincoln and the Wheat Ear reverse on the lowly cent coin is a humble, personal tribute to one of our nation's greatest chief executives.

There is nothing humble about a High Relief.

The figure is larger than life even in coin format, the denomination is the largest among U.S. regular issues of the era, and the design as implemented is the most innovative ever transferred from art plaster to coin gold. The coin is a tribute to Saint-Gaudens. In fact, the full-figured, striding Liberty on the obverse is a reworking of an earlier sculpture of Saint-Gaudens' own, the magnificent Goddess of Victory figure that fronts the Sherman Monument in New York's Central Park at 60th Street and Fifth Avenue.

The present example, certified MS65 by PCGS, will certainly be the subject of intense bidding when it crosses the auction block. This Gem displays the expected bright, satiny mint luster and the yellow-gold surfaces show just a hint of light reddish patina. The sharply struck surfaces show no mentionable contact marks on either side.

This coin is certain to make a Happy New Year for some forthright bidder.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9135, NGC ID# 26F2, CoinPlex ID# SGM1907HRWIRE

SAINT-GAUDENS DOUBLE EAGLES

- 7576 1907 Arabic Numerals MS64 NGC.** Light olive-green toning visits this otherwise straw-gold near-Gem. Lustrous and nicely struck with a smooth reverse and a few marks near the branch stem. Pedigreed to a famous auction sale.
Ex: Amon G. Carter, Jr. Family Collection (Stack's, 1/1984), lot 1009.
From The Richmond Hill Collection. NGC ID# 26F5, PCGS# 9141, CoinPlex ID# SGM1907
- 7577 1907 Arabic Numerals MS64 PCGS.** Splashes of peach enrich the lustrous yellow-gold surfaces on this first-year low-relief Saint-Gaudens twenty. The margins show a degree of die erosion, though this is irrelevant to the technical grade. Housed in a green label holder. PCGS# 9141, NGC ID# 26F5, CoinPlex ID# SGM1907
- 7578 1908 No Motto MS65 PCGS.** The Wells Fargo Hoard consisted of a large number of 1908 No Motto coins, but the present piece likely predates that hoard as there is no mention on the PCGS holder. This example has rich lemon-yellow peripheries with straw-gold interiors. A lovely specimen for the date or type collector.
From The Gensch Numismatic Trust Collection. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 7579 1908 No Motto MS65 PCGS.** A stunning Gem No Motto twenty struck early in the year, this piece exhibits frosty yellow luster brilliant lemon surfaces. Scattered marks are consistent with the grade.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 7580 1908 No Motto MS65+ NGC. CAC.** This high-end Gem is awash in bright brassy-gold luster and displays sharply struck design elements. While this is a highly obtainable issue, MS65+ examples and finer are somewhat more challenging to locate.
From The Richmond Hill Collection. NGC ID# 26F6, PCGS# 9142, CoinPlex ID# SGM1908NM
- 7581 1908 No Motto MS66 PCGS.** Long Rays obverse. An attractive orange-gold Premium Gem example of the No Motto subtype, coined only during portions of 1907 and 1908. Lustrous and attractive with minor softness of strike on the eagle's leg feathers. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 7582 1908 No Motto MS66+ PCGS.** Short Rays obverse. The surfaces of this high-end Premium Gem are wonderfully lustrous. The well-struck coin displays bright yellow-gold color with hints of red-orange. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 7583 1908 No Motto MS66+ PCGS.** Long Rays obverse. A magnificent butter-gold representative that boasts dynamic luster and exemplary preservation, this example displays a bold strike. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 7584 1908 No Motto MS66 PCGS. CAC.** Short Rays obverse. Shimmering golden-orange color envelops both sides of this lovely Premium Gem. The Capitol building exhibits a crisp strike and a minimal number of surface marks appear, adding to the eye appeal of this example. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 7585 1908 No Motto, Wells Fargo Nevada MS66 PCGS.** Short Rays obverse. A beautiful pumpkin-gold representative of the famous No Motto holding. The strike is crisp except on the leg feathers, and marks are absent save for a brief slender line near the stem of Liberty's branch. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

7586 1908 No Motto, Wells Fargo Nevada MS66 PCGS. Short Rays obverse. This is an impressive representative of the formidable Wells Fargo hoard of 1908 No Motto double eagles. These pieces were selected for their quality and set aside for decades, to the benefit of today's gold collectors. This lustrous and nearly unmarked Premium Gem is well-struck aside from Liberty's nose and the eagle's leg. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

7587 1908 No Motto, Wells Fargo Nevada MS66 NGC. Short Rays obverse. Attractive luster prevails on this strongly patinated apricot-gold example from the Wells Fargo hoard. Only minor, scattered contact marks appear on this Premium Gem. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

7588 1908 No Motto, Wells Fargo Nevada MS66+ PCGS Secure CAC. A boldly defined light yellow-gold Premium Gem with a PCGS Plus designation, this piece has frosty light yellow luster with a few scattered surface marks, mostly only visible under a glass. An outstanding type coin. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

Superb Gem 1908 Twenty Dollar

7589 1908 No Motto, Wells Fargo Nevada MS67 NGC. Short Rays obverse. Gorgeous golden-orange color and cartwheel luster emanate from this Superb Gem example. The coin is well-struck, including the Capitol building which displays tremendous detail. A few minor surface marks appear, however the coin retains tremendous eye appeal. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

1908 Double Eagle, MS67 Wonderful Eye Appeal

7590 1908 No Motto, Wells Fargo Nevada MS67 PCGS. Short Rays obverse. Bright yellow-gold color and cartwheel luster provide this piece with tremendous eye appeal. Very few surface marks are present and they are all minor in nature. This is a wonderful representative. Although known as the "Wells Fargo Hoard," that is a bit of a misnomer as the group was stored at an unknown location for decades and was only housed at Wells Fargo for a brief period before being disbursed in the 1990s.
From The Richard P. Ariagno, M.D. Collection. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

**1908-D Double Eagle, MS64+
No Motto**

7591 1908-D No Motto MS64+ PCGS. This lovely Choice Mint State Denver Mint double eagle has rich orange toning over its brilliant and frosty yellow surfaces. Both sides have full luster with minimal marks and trivial field grazes. Just shy of Gem quality, this lovely No Motto twenty will appeal to the Saint-Gaudens enthusiast. PCGS# 9143, NGC ID# 26F7, CoinPlex ID# SGM1908DNM

**Gem 1908 Double Eagle
Scarcer Motto Variety**

7594 1908 Motto MS65 PCGS. Unlike its No Motto counterpart (4,271,551 coins produced), the 1908 Motto double eagle is a scarce issue from a low mintage (156,258 pieces). This attractive Gem displays well-defined design elements, great color, attractive luster, and relatively few abrasions. Population: 63 in 65, 12 finer (12/12). PCGS# 9147, NGC ID# 26F8, CoinPlex ID# SGM1908MOT

**Gem No Motto Long Rays
1908-D Double Eagle**

7592 1908-D No Motto MS65 PCGS. Long Rays Obverse. The mintmark is lightly repunched within the loop. This is a lustrous Gem with appealing peach and lemon toning. The strike is precise and though small abrasions are scattered, only a mark on Liberty's mouth merits passing mention. Very rare any finer. PCGS# 9143, NGC ID# 26F7, CoinPlex ID# SGM1908DNM

**1908-D Double Eagle, MS65
First Year With Motto**

7595 1908-D Motto MS65 PCGS. The 1908-D With Motto Saint-Gaudens double eagle is a scarce issue at the Gem level, despite the appearance of some high-grade examples in a Central American hoard in 1983. This spectacular Gem displays sharply detailed design elements and vibrant mint luster, with pleasing orange-gold surfaces. PCGS has graded 28 coins in higher numeric grades (11/12). PCGS# 9148, NGC ID# 26F9, CoinPlex ID# SGM1908DMOT

**1908-D Double Eagle, MS65
Short-Lived No Motto Type**

7593 1908-D No Motto MS65 PCGS. The 1908-D No Motto Saint-Gaudens twenty is more difficult to locate than its Philadelphia counterpart, despite the appearance of some high-grade examples in a Central American hoard in the 1980s. This spectacular Gem exhibits well-struck devices, vibrant mint luster, and pleasing greenish-gold surfaces. PCGS has graded only nine examples in higher numeric grades. PCGS# 9143, NGC ID# 26F7, CoinPlex ID# SGM1908DNM

**Near-Mint 1908-S Double Eagle
Just 22,000 Coins Minted**

7596 1908-S AU58 NGC. With a mintage of just 22,000 pieces, the 1908-S is the (chronologically) first notable With Motto rarity in the Saint-Gaudens double eagle series. This example, which shows only a touch of rub on lightly marked surfaces with bright orange-gold luster, offers an attractive and less expensive alternative to a fully Mint State piece.
From The Richmond Hill Collection. NGC ID# 26FA, PCGS# 9149, CoinPlex ID# SGM1908S

Low-Mintage 1909-D Twenty, MS62

- 7597 1909-D MS62 NGC.** A scant mintage of 52,500 pieces focuses collector attention on this early Motto Saint-Gaudens issue. This is a lustrous sun-gold representative whose sharp strike and lightly marked surfaces ensure the eye appeal. The strike is good although the eagle's breast shows slight blending of detail.
Ex: 50th Anniversary Sale (Stack's, 10/1985), lot 581.
From The Richmond Hill Collection. NGC ID# 26FD, PCGS# 9152, CoinPlex ID# SGM1909D

- 7598 1909-S MS64 NGC. CAC.** Here is a delightful Choice Mint State example with rich orange-gold luster and lilac overtones, exhibiting frosty mint surfaces. This S-Mint twenty is a common issue, but it is uncommon with so much eye appeal. NGC ID# 26FE, PCGS# 9153, CoinPlex ID# SGM1909S

Gem 1909-S Double Eagle Repunched Mintmark

- 7599 1909-S MS65 PCGS.** The mintmark is nicely repunched southeast. A different variety than either FS-501 or Breen-7375. A lustrous green-gold Gem that boasts a crisp strike and uncommonly mark-free surfaces. A slender aqua spot beneath Liberty's torch is all that limits the grade. PCGS has certified only a handful of pieces in higher grades. PCGS# 9153, NGC ID# 26FE, CoinPlex ID# SGM1909S

1909-S Saint-Gaudens Twenty, MS65 Eight Numerically Finer PCGS Coins

- 7600 1909-S MS65 PCGS.** This impressive Gem displays pleasing light rose-gold surfaces that show few signs of contact. The design elements are sharply rendered in most areas, with a touch of softness on the lowest stars. Vibrant mint luster adds to the outstanding visual appeal. PCGS has certified eight coins in numerically finer grades (11/12). PCGS# 9153, NGC ID# 26FE, CoinPlex ID# SGM1909S

Gem 1909-S Twenty Dollar Gold

- 7601 1909-S MS65 NGC.** The 1909-S Saint-Gaudens double eagle is a relatively scarce issue at the Gem level, and finer examples are very rare. This lovely Gem exhibits sharply detailed design elements and vibrant mint luster, with deep gold color and few minor surface marks. Census: (2 in 65+), 9 finer (12/12). NGC ID# 26FE, PCGS# 9153, CoinPlex ID# SGM1909S

Notable MS65+ 1909-S Double Eagle Very Rare Any Finer

- 7602 1909-S MS65+ PCGS. CAC.** Light peach-gold luster softly shimmers on this S-mint Gem. The strike is pleasing overall, as is the preservation. While the 1909-S was a high-mintage issue that today is available for a price even at the MS65 level, finer coins are a condition rarity; PCGS, for example, lists just eight pieces as MS66 or better (12/12). PCGS# 9153, NGC ID# 26FE, CoinPlex ID# SGM1909S

- 7603 1910 MS64+ PCGS.** A lovely near-Gem, this PCGS Plus designated Saint exhibits frosty honey-gold luster with satin surfaces and sharp details. A delightful example that is elusive in finer grades. PCGS# 9154, NGC ID# 26FF, CoinPlex ID# SGM1910

Attractive Gem 1910 Twenty Dollar

- 7604 1910 MS65 PCGS.** This Gem specimen is well worthy of the grade, with beautiful orange-gold color and generous cartwheel luster over relatively unabraded and appealing well-struck surfaces. Only five pieces have received higher grade designations from PCGS, 1 in 65+ and 4 finer (12/12). PCGS# 9154, NGC ID# 26FF, CoinPlex ID# SGM1910

**Gem 1910-D Saint-Gaudens Twenty
Conditionally Scarce in Higher Grades**

- 7605 1910-D MS65 NGC.** The 1910-D Saint-Gaudens double eagle is not difficult to locate in Gem condition, but it is very scarce in higher grades, as NGC has graded only 49 numerically finer examples (11/12). This attractive Gem is well-detailed and brightly lustrous, with light orange-gold surfaces that show few signs of contact. From *The Richard P. Ariagno, M.D. Collection*. NGC ID# 26FG, PCGS# 9155, CoinPlex ID# SGM1910D

- 7606 1910-D MS65 PCGS.** Gorgeous color, bright and lustrous surfaces, along with strong details combine for tremendous eye appeal on this Gem. This is a lovely representative. PCGS# 9155, NGC ID# 26FG, CoinPlex ID# SGM1910D

**Premium Gem 1910-D Double Eagle
Extremely Rare Any Better**

- 7607 1910-D MS66 PCGS. CAC.** Light apricot tints enliven this Premium Gem's yellow-gold luster, understated but unperturbed. The central zones are decently detailed and remarkably smooth. The only mark worth individual mention is a tiny nick just below the rim of Liberty's torch. PCGS has graded only two examples of the issue as MS67 or better (12/12). PCGS# 9155, NGC ID# 26FG, CoinPlex ID# SGM1910D

**1911 Double Eagle, MS64, Seldom Seen Finer
Rich Luster and Color**

- 7608 1911 MS64 PCGS.** The 1911 Philadelphia double eagle is much more often seen in near-Gem condition, as on this piece, than in Gem, where the certified populations decrease by an order of magnitude. This piece boasts gorgeous two-toned color, rich reddish-orange color near the rims, ceding to lighter hues in the centers. This boldly struck piece is certified in a green-label holder. PCGS has seen only 47 submissions finer (12/12). PCGS# 9157, NGC ID# 26FJ, CoinPlex ID# SGM1911

**MS66 1911-D Double Eagle
Boldly Struck, Reddish-Tinged Surfaces**

- 7609 1911-D MS66 PCGS.** Rich mint luster whirls around each side of this Premium Gem, which shows a fine-grained mattelike texture. The reddish-tinged surfaces display an underlying green-gold coloration. The unusually sharp strike further the eye appeal, making this a memorable example. Ex: *Atlanta ANA Signature (Heritage, 4/2006)*, lot 2353. From *The Richard P. Ariagno, M.D. Collection*. PCGS# 9158, NGC ID# 26FK, CoinPlex ID# SGM1911D

**1911-D Double Eagle, MS67
An Important Condition Rarity**

- 7610 1911-D MS67 NGC.** The 1911-D is one of the most available dates in the Saint-Gaudens double eagle series. More than 11,000 coins have been certified in Mint State grades by NGC. At the Superb Gem level, however, only 35 examples are known (with none higher); some of these are likely resubmissions. As one might expect, a Superb Gem example of the 1911-D twenty, such as this, is seldom offered at auction. The striking details are uniformly strong throughout. The apricot-gold matte-like finish displays an overlay of soft, frosted mint luster, and there are no mentionable or noticeable abrasions on either side. Struck with the normal (not doubled) mintmark. This piece exhibits great overall eye appeal and is worthy of a very generous bid. NGC ID# 26FK, PCGS# 9158, CoinPlex ID# SGM1911D

Gem 1911-S Double Eagle

- 7611 1911-S MS65 NGC.** This example has a very pleasing appearance. Rich honey-gold color along with a few splashes of orange appears on this lovely Gem. The lustrous surfaces gleam and the centers are well-struck, although areas of the border display slight softness. There are no surface marks worthy of mention. NGC ID# 26FL, PCGS# 9159, CoinPlex ID# SGM1911S

**Lustrous, Sharp 1911-S Double Eagle, MS65+
Elusive in This Grade Designation and Finer**

- 7612 1911-S MS65+ PCGS Secure.** The 1911-S double eagle is available through MS65, but finer coins are elusive (including this high-end MS65 piece). Both sides display magnificent luster on peach-gold surfaces along with sharply struck design elements, including the panels on the Capitol Building, Liberty's fingers, and the eagle's plumage. A few minute marks in the left obverse field are mentioned solely for identification purposes. Population: 3 in 65+, 27 finer (11/12). PCGS# 9159, NGC ID# 26FL, CoinPlex ID# SGM1911S

**Near-Gem 1913 Double Eagle
Rare in Finer Grades**

- 7613 1913 MS64 PCGS.** Rich orange-gold luster is near-uniform on the obverse, while the reverse has a few windows of lighter yellow and two copper spots. Overall detail is solid, if a little soft on Liberty's torch hand. A few short marks combine to account for the grade. Finer examples are conditionally rare; PCGS has rated just 10 coins as Gems or better (12/12). PCGS# 9161, NGC ID# 26FN, CoinPlex ID# SGM1913

**1913-D Double Eagle, MS65
Conditionally Rare in Higher Grades**

- 7614 1913-D MS65 PCGS.** The 1913-D Saint-Gaudens double eagle is a condition rarity in grades above the Gem level, as PCGS has certified only five coins in higher numeric grades (11/12). This delightful Gem features well-detailed design elements and light orange-gold surfaces, with vibrant mint luster and outstanding eye appeal. PCGS# 9162, NGC ID# 26FP, CoinPlex ID# SGM1913D

**Low-Mintage 1913-S Double Eagle, MS64+
Richly Toned and Sharply Struck**

7615 1913-S MS64+ PCGS. This coin boasts a marvelous strike in most areas, including Liberty's sandal and the oak leaves on the lower obverse, the torch flame, Liberty's face and hair, but even so the Capitol dome is a bit flat as are the I in LIBERTY and the top of the torch. Rich mint luster puts this piece close to a Gem grade, as does the lovely two-toned color, deeper in the centers. A quite elusive coin at the Gem level, the 1913-S saw a mintage of only 34,000 pieces. Population: 9 in 64+, 22 finer (12/12). PCGS# 9163, NGC ID# 26FR, CoinPlex ID# SGM1913S

**1914 Double Eagle, MS64
Better-Date Philadelphia Issue**

7616 1914 MS64 PCGS. From a low mintage of 95,250 pieces, the 1914 Saint-Gaudens double eagle is a scarce date in MS64 condition, and rare in finer grades. This attractive Choice example features well-struck design elements, with pleasing orange and rose-gold surfaces, and frosty mint luster. PCGS# 9164, NGC ID# 26FS, CoinPlex ID# SGM1914

**Low-Mintage 1914 Double Eagle, MS64+
Seldom Seen in Finer Grades**

7617 1914 MS64+ PCGS. Bright luster and excellent surface preservation put this 1914 Saint oh-so-close to a Gem grade. The strike is boldly brought up even while not full, and there are only a few scattered, minor marks. The 1914 Philadelphia issue was a low-mintage affair of 95,200 pieces, a sometimes forgotten P-mint that is nonetheless quite elusive in Gem or higher grades. Population: 14 in 64+, 39 finer (12/12). PCGS# 9164, NGC ID# 26FS, CoinPlex ID# SGM1914

**Gem 1914-D Twenty Dollar
Rich Orange-Gold Color**

7618 1914-D MS65 PCGS. The exposed right (facing) thigh of Liberty, despite a single nick, shows fewer marks than usually seen at this grade level, and the rich orange-gold color complements a decent while incomplete strike, well brought up in most areas save for the Capitol building. This Gem is an excellent coin for type purposes, as Premium Gems are far more elusive. *From The Richard P. Ariagno, M.D. Collection.* PCGS# 9165, NGC ID# 26FT, CoinPlex ID# SGM1914D

**1914-D Saint-Gaudens Twenty, MS65
Scarce Issue in Higher Grades**

7619 1914-D MS65 PCGS. The 1914-D Saint-Gaudens double eagle is not too difficult to locate in Gem condition, but the issue is very scarce in higher grades. This attractive Gem exhibits sharp definition on all design elements, with vivid green and orange-gold surfaces that radiate vibrant mint luster. Eye appeal is outstanding. PCGS# 9165, NGC ID# 26FT, CoinPlex ID# SGM1914D

7620 1914-S MS65 PCGS. The San Francisco Mint obviously had some coiners who were concerned about quality control in the mid-teens, as this Gem 1914-S double eagle amply demonstrates. The strike is bold, if not quite full, on many of the areas of the lower obverse and the eagle's feathers as well, places that are typically soft on an issue such as, say, the 1924. Soft frosty luster and a paucity of marks make this piece a fine addition to any grouping of Saints. *From The Richard P. Ariagno, M.D. Collection.* PCGS# 9166, NGC ID# 26FU, CoinPlex ID# SGM1914S

7621 1914-S MS65 NGC. The overall eye appeal of this Gem is considerable. The piece displays rich butter-yellow surfaces and well-impressed devices. Softly lustrous with scattered contact marks on each side. NGC ID# 26FU, PCGS# 9166, CoinPlex ID# SGM1914S

7622 1914-S MS65 PCGS. An attractive butter-gold Gem, this piece displays booming luster and a bold strike. A number of minor contact marks appear when the piece is closely examined. PCGS# 9166, NGC ID# 26FU, CoinPlex ID# SGM1914S

7623 1914-S MS65 NGC. Among Saint-Gaudens double eagles from the first half of the series, the 1914-S is one of the most available issues. The date is particularly popular with mintmark type collectors. This spectacular Gem is sharply detailed and lustrous. NGC ID# 26FU, PCGS# 9166, CoinPlex ID# SGM1914S

7624 1914-S MS65+ PCGS Secure. Thick, creamy mint luster is the hallmark of this high-end Gem S-mint from the early years of the Saint-Gaudens series, an excellent example for type purposes. The bold strike encompasses the Capitol building, Liberty's sandal, and all of the other sometimes-soft details on the lower obverse periphery. The reverse is equally bold. PCGS# 9166, NGC ID# 26FU, CoinPlex ID# SGM1914S

**Choice 1915 Double Eagle
Rare Date in Finer Grades**

7625 1915 MS64 NGC. CAC. The 1915 Saint-Gaudens double eagle claims a low mintage of 152,000 pieces, and the issue is scarce at the MS64 level. This attractive Choice specimen is sharply detailed throughout, with lightly marked rose-gold surfaces. Vibrant mint luster adds to the considerable visual appeal. NGC has graded 40 coins in higher numeric grades (11/12). NGC ID# 26FV, PCGS# 9167, CoinPlex ID# SGM1915

**1915 Twenty, MS65
Only One Certified Finer**

7626 1915 MS65 NGC. Production of Saint-Gaudens double eagles at the Philadelphia Mint was limited to less than 200,000 coins in any year from 1911 through 1915. In the latter year, only 152,000 of these large gold pieces were struck at the Pennsylvania facility. Perhaps needless to say, but the small mintages led to small survival totals, and conditionally rare issues. Exactly one coin, for example, has received a higher certified grade than this MS65. Both sides of this Gem are sharply detailed with satiny yellow-gold luster and minimal marks that are consistent with the grade. This attractive piece is destined for a top collection of Saint-Gaudens double eagles. Census: 39 in 65, 1 finer (12/12). NGC ID# 26FV, PCGS# 9167, CoinPlex ID# SGM1915

7627 1915-S MS65 PCGS. Richly frosted and thickly lustrous orange-gold surfaces provide tremendous eye appeal on this Gem, which additionally boasts a bold strike. An interesting, thin die crack connects BER with the torch flame. A singular mark appears at the base of T(WENTY) on the reverse. A great type coin.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9168, NGC ID# 26FW, CoinPlex ID# SGM1915S

7628 1915-S MS65 PCGS. A small diagonal mark in the upper right obverse field is one of the few distractions on this attractive antique-gold Gem 1915-S, an issue that is available up to this level but much more elusive in MS66. The strike is fairly sharp, furthering the good eye appeal.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9168, NGC ID# 26FW, CoinPlex ID# SGM1915S

7629 1915-S MS65 PCGS. Deep gold color and brilliant surfaces contribute to the eye appeal of this Gem. None of the minor contact marks are worthy of mention. This is a lovely example. PCGS# 9168, NGC ID# 26FW, CoinPlex ID# SGM1915S

7630 1915-S MS65 PCGS. The shimmering yellow-gold surfaces provide this Gem with plenty of eye appeal. Areas of golden-orange color appear as well. The surfaces are lightly marked. PCGS# 9168, NGC ID# 26FW, CoinPlex ID# SGM1915S

7631 1915-S MS65 PCGS. This impressive Gem displays lustrous surfaces that are a vivid orange-gold color. The design elements exhibit bold detail. A small, thin vertical streak of color appears near the center of the eagle's tailfeathers. PCGS# 9168, NGC ID# 26FW, CoinPlex ID# SGM1915S

7632 1915-S MS65 PCGS. Yellow-gold overall with a faint orange cast, this Gem exhibits a few small marks but no concentrated or singularly mentionable flaws. A quality S-mint example. PCGS# 9168, NGC ID# 26FW, CoinPlex ID# SGM1915S

7633 1915-S MS65 NGC. A sharply struck Gem of this scarcer date in the teens that poses a challenge any finer than MS65, this piece displays excellent luster characteristics with lovely, bright golden color. The reverse is almost entirely free of contact marks. NGC ID# 26FW, PCGS# 9168, CoinPlex ID# SGM1915S

7634 1915-S MS65 NGC. This sun-gold Gem has potent luster and a well preserved obverse. The wings have minor marks. A pair of minute rose-red alloy spots are concealed near the obverse rays. Housed in a prior generation holder.
Ex: Garden State Collection (Heritage, 6/2004), lot 9482. NGC ID# 26FW, PCGS# 9168, CoinPlex ID# SGM1915S

7635 1916-S MS65 PCGS. A sharply struck Gem with vibrant luster and medium orange-gold and lime-green toning. Exceptionally preserved despite minor contact on the sun and a tick on the forehead. Housed in a first generation holder. PCGS# 9169, NGC ID# 26FX, CoinPlex ID# SGM1916S

7636 1916-S MS65 PCGS. The 1916-S Saint-Gaudens double eagle is not too difficult to locate in high grade, but its availability has been overstated in the past. This delightful Gem displays sharply detailed design elements and frosty mint luster, with attractive rose-gold surfaces that show few signs of contact.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9169, NGC ID# 26FX, CoinPlex ID# SGM1916S

7637 1916-S MS65 PCGS. The 1916-S was the only double eagle issue for the year. This lovely Gem displays attractive color and bright mint luster. Minor surface marks appear. PCGS# 9169, NGC ID# 26FX, CoinPlex ID# SGM1916S

7638 1916-S MS65 NGC. As World War I raged on, the San Francisco Mint was the sole producer of gold coins, minting half eagles, eagles, and double eagles. Afterward, production was halted until 1920. This well-struck Gem exhibits attractive gold luster. NGC ID# 26FX, PCGS# 9169, CoinPlex ID# SGM1916S

7639 1916-S MS65 NGC. From a mintage of 796,000 pieces, the 1916-S Saint-Gaudens double eagle is a popular type coin. This Gem displays attractive color and bright mint luster. Minor surface marks appear. NGC ID# 26FX, PCGS# 9169, CoinPlex ID# SGM1916S

1920 Saint-Gaudens Double Eagle, MS64

7640 1920 MS64 PCGS. The 1920 Saint-Gaudens double eagle is an underrated condition rarity. While Choice specimens are not too difficult to locate, examples in higher grades are virtually unobtainable. This coin is well-struck with vivid orange-gold color and vibrant mint luster. PCGS has awarded a higher numeric grade to only a single example (12/12). PCGS# 9170, NGC ID# 26FY, CoinPlex ID# SGM1920

Choice 1920 Saint-Gaudens Twenty Only One Finer Coin at PCGS

7641 1920 MS64 PCGS. The 1920 Saint-Gaudens double eagle is a plentiful issue in lower Mint State grades, but it is one of the rarest coins of the series in grades above MS64. This sharply detailed Choice example displays pleasing orange-gold surfaces, with hints of rose. Vibrant mint luster adds to the considerable eye appeal. PCGS has graded only one coin in higher numeric grades (11/12). PCGS# 9170, NGC ID# 26FY, CoinPlex ID# SGM1920

7642 1922 MS62 NGC. CAC Gold Label. This is another P-mint Saint-Gaudens certified in the old-style NGC holder and with the CAC gold label accompanying. Even though graded MS62, this 1922 double eagle displays rich satin luster over beautiful orange-yellow surfaces with few marks. Not a Gem, but a lovely coin.
From The SPQR Collection of CAC Gold Sticker Coins. NGC ID# 26G3, PCGS# 9173, CoinPlex ID# SGM1922

Gem 1922 Saint-Gaudens Twenty Very Rare in Better Grades

7643 1922 MS65 PCGS. Few coin populations "fall off a cliff" so dramatically as the 1922 double eagle between MS65 and MS66. While PCGS alone has certified more than 1000 1922 double eagles as MS65, there are only seven pieces rated MS66 or better in the *Population Report*. This is an attractive Gem with strong apricot-gold cartwheel luster.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9173, NGC ID# 26G3, CoinPlex ID# SGM1922

**Gem 1922 Double Eagle
Brilliant Satin Luster**

7644 1922 MS65 PCGS. The surfaces are largely peach-gold with a hint of hazel at the rims. A stunning presentation, one essentially free of singular distractions, even under a loupe, with brilliant, satiny luster. PCGS has graded seven finer (12/12).

Ex: Central States Signature (Heritage, 4/2006), lot 4675.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9173, NGC ID# 26G3, CoinPlex ID# SGM1922

Colorful 1922 Double Eagle, MS65

7645 1922 MS65 PCGS. Deep honey-gold color along with splashes of red, orange, and russet provides this Gem with exceptional visual appeal. Gleaming luster is present. The piece exhibits a bold strike and only minor marks. PCGS and NGC have each only graded seven numerically finer examples (12/12). PCGS# 9173, NGC ID# 26G3, CoinPlex ID# SGM1922

Lovely 1922 Double Eagle Gem

7646 1922 MS65 NGC. The lustrous surfaces on both sides of this well-struck Gem reveal gorgeous honey-gold color. No mentionable contact marks are present. Fortunately, for collectors, the 1922 Saint-Gaudens double eagle is readily available in grades up to, and including, the Gem level, however the issue is conditionally very rare in higher grades. NGC ID# 26G3, PCGS# 9173, CoinPlex ID# SGM1922

**Select 1922-S Saint-Gaudens Twenty
Nice Luster**

7647 1922-S MS63 PCGS. The 1922-S Saint-Gaudens double eagle was once a great rarity in the series, but the issue surfaced in several foreign holdings over the years, and it can only be called scarce today. This impressive MS63 example is well-struck, with a touch of softness on the lower obverse. The lightly marked greenish-gold surfaces are brightly lustrous. PCGS# 9174, NGC ID# 26G4, CoinPlex ID# SGM1922S

**1923 Saint-Gaudens Double Eagle, MS65
Only Three Numerically Finer PCGS Coins**

7648 1923 MS65 PCGS. The 1923 Saint-Gaudens double eagle is scarce at the MS65 level, and prohibitively rare in higher grades. This delightful Gem exhibits well-detailed design elements and vibrant frosty mint luster, with pleasing orange and rose-gold surfaces. Eye appeal is exceptional. PCGS has graded only three coins in numerically finer grades (11/12). PCGS# 9175, NGC ID# 26G5, CoinPlex ID# SGM1923

7649 1923-D MS65 PCGS. This well-struck Gem glows with soft but thorough luster over surfaces that offer beautiful color and a bold strike. The 1923-D is a well-made issue, and the mintmark makes it doubly popular. Peace dollars and double eagles were the only products of the Denver Mint in 1923. *From The Richard P. Ariagno, M.D. Collection. PCGS# 9176, NGC ID# 26G6, CoinPlex ID# SGM1923D*

7650 1923-D MS65 PCGS. Areas of orange accentuate this Gem that is otherwise an attractive medium-gold color. The well-struck coin displays rich luster. PCGS# 9176, NGC ID# 26G6, CoinPlex ID# SGM1923D

7651 1923-D MS66 NGC. Orange-gold patina envelops this lovely Premium Gem displaying scintillating luster. Well defined throughout, this is an attractive representative of this popular date and mint. NGC ID# 26G6, PCGS# 9176, CoinPlex ID# SGM1923D

7652 1923-D MS66 PCGS. CAC. This is a coin that has it all: rich, thick luster, few marks of any size, a bold strike that brings up all the small details near the obverse periphery, super color ranging from khaki-gold to orange-gold, and excellent eye appeal. The 1923-D is doubly popular as one of the few widely available Saint-Gaudens issues that also boasts a mintmark. But PCGS has seen only 62 submissions finer than this Premium Gem (12/12). PCGS# 9176, NGC ID# 26G6, CoinPlex ID# SGM1923D

- 7653 1924 MS62 NGC. CAC Gold Label.** This piece with the CAC gold sticker is housed in an NGC “no-line fatty” holder. The Select grade is easy to see being achieved, but a couple of prominent digs on Liberty’s lower gown seem to be grade-limiting any further. The lustrous surfaces are a beautiful apricot-gold.
From The SPQR Collection of CAC Gold Sticker Coins. NGC ID# 26G7, PCGS# 9177, CoinPlex ID# SGM1924
- 7654 1924 MS65 PCGS.** The obverse shows only small scattered marks on Liberty’s exposed right (facing) leg, strictly consistent with the grade. Rich color and thick luster are much more pervasive, with a decent strike save for the pesky Capitol dome. A great type coin.
From The Gensch Numismatic Trust Collection. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7655 1924 MS65 PCGS.** Each side of this boldly lustrous coin is free of all but minuscule signs of contact, although a couple of small alloy spots appear on the obverse. This Gem 1924 double eagle is encapsulated in an early PCGS green-label holder printed with a dot-matrix printer.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7656 1924 MS65 PCGS.** The strike on the lower periphery is better on the present Gem example than on many survivors of the 1924 double eagles. Note the good detail in the leaves and the full toes and sandal ornament, but the Capitol dome is weakly struck. Mellow luster and lovely color put this piece in the “keeper” category. A few tiny scrapes appear in the reverse fields near the rim.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7657 1924 MS65 PCGS.** This Gem 1924 double eagle might prove an ideal type coin for many collectors, showing rich orange color against flowing luster and surfaces that are free of all but the most inconsequential marks.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7658 1924 MS65 NGC.** The design elements display sharp detail on this piece with vibrant mint luster and attractive color. A few minor contact marks do little to detract from the eye appeal of this lovely Gem. NGC ID# 26G7, PCGS# 9177, CoinPlex ID# SGM1924
- 7659 1924 MS65 PCGS. CAC.** The Capitol dome is better-struck than on many examples, and this Gem 1924 also features thick, rich mint luster over attractive antique-gold surfaces that show few mentionable marks. A small spot of copper patina shows on the E of LIBERTY, totally undistracting. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7660 1924 MS65 PCGS. CAC.** The Capitol building is flatly struck on many examples of the 1924 double eagle, as here, but rich, flowing luster and admirable orange-gold color are the hallmarks of this Gem. Few marks of any importance are present. Excellent eye appeal. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7661 1924 MS65+ PCGS. CAC.** Close to Premium Gem quality, this MS65+ 1924 double eagle displays a range of colors, from yellow-orange near the rims to deeper lilac hues in the centers. A few scattered, minor marks are more than compensated for by the rich luster and strong eye appeal. A great type coin. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7662 1924 MS66 ★ NGC.** The Star designation from NGC for exceptional eye appeal is here awarded based both on the thick, rich mint luster and the deep orange-gold coloration, complementing surfaces that show few mentionable marks and a decent strike. NGC ID# 26G7, PCGS# 9177, CoinPlex ID# SGM1924
- 7663 1924 MS66 PCGS. CAC.** The 1924 double eagle’s status as the most available Saint-Gaudens twenty is ironic, as virtually the entire issue was sent overseas at the time of issue, making it impossible for collectors to obtain examples until decades later. This Premium Gem boasts near-pristine surfaces with a range of colors from golden-yellow to deep orange with lilac interspersed. The strike is flat on the Capitol but bold overall. PCGS# 9177, NGC ID# 26G7, CoinPlex ID# SGM1924
- 7664 1925 MS63 PCGS. CAC Gold Label.** This makes a beautiful color combination, the PCGS green-label holder and the CAC gold label. The coin is super nice too, rich, deep, mellow reddish-gold with bounteous luster and every hallmark of an even finer grade.
From The SPQR Collection of CAC Gold Sticker Coins. PCGS# 9180, NGC ID# 26GA, CoinPlex ID# SGM1925
- 7665 1925 MS65 NGC.** The frosted antique-gold surfaces show only scattered light abrasions consistent with the grade amid rich luster and some small copper alloy spots that appear on each side. Such alloy spots are not technically grade-affecting.
From The Richmond Hill Collection. NGC ID# 26GA, PCGS# 9180, CoinPlex ID# SGM1925
- 7666 1925 MS65 PCGS. FS-801.** The eagle’s plumage near the leg is clearly die doubled, though the first generation holder does not indicate the variety. Dusky apple-green and chestnut-gold toning drapes lustrous and carefully preserved surfaces. PCGS# 9180, NGC ID# 26GA, CoinPlex ID# SGM1925
- 7667 1925 MS65 NGC.** This Gem 1925 offers excellent eye appeal over antique-gold surfaces despite a few small marks that preclude the Premium Gem level, chiefly in the right (facing) obverse field. The luster is rich and frosty.
From The Richard P. Ariagno, M.D. Collection. NGC ID# 26GA, PCGS# 9180, CoinPlex ID# SGM1925
- 7668 1925 MS66 NGC.** Gleaming luster complements rich peach-gold color on this lovely and boldly struck Premium Gem 1925 double eagle, which shows not a hint of distraction. Only a small handful of examples are certified finer, regardless of service.
From The Richard P. Ariagno, M.D. Collection. NGC ID# 26GA, PCGS# 9180, CoinPlex ID# SGM1925
- 7669 1925 MS66+ PCGS Secure.** Deep, rich orange-gold color and thorough luster are the hallmarks of this excellent type representative, so close to the Superb Gem level and with no mentionable distractions of any sort. A boldly struck and pleasing example, basically as “good as it gets.” Population: 9 in 66+, 5 finer (12/12). PCGS# 9180, NGC ID# 26GA, CoinPlex ID# SGM1925
- 7670 1925 MS66+ NGC. CAC.** Frosted on the high points with orange elements to a yellow-gold base. An excellent coin for the type collector, as MS67 pieces are far more challenging condition rarities; the two grading services have certified only 24 numerically finer coins between them (12/12). NGC ID# 26GA, PCGS# 9180, CoinPlex ID# SGM1925

1925-S Twenty, AU55
An Obtainable Mintmarked 1920s Issue

- 7671 1925-S AU55 PCGS.** Unlike many issues in the Saint-Gaudens series from the 1920s, there appears to have been considerable effort made to place this issue in the channels of commerce. Approximately twice as many circulated pieces are known as Uncirculated ones. This is a pleasing light golden example that retains much of the original luster, just a bit thinned out overall. Slight high-point friction is seen on each side and there are no large or mentionable abrasions. PCGS# 9182, NGC ID# 26GC, CoinPlex ID# SGM1925S

1925-S Twenty Dollar, MS62
Lustrous and Relatively Unmarked

- 7672 1925-S MS62 NGC.** Although struck in formidable quantity, the 1925-S had the same fate as all other San Francisco issues from the Roaring Twenties. The coins were mostly held back by the Treasury and eventually melted after Roosevelt's 1933 gold recall. The 1925-S is more available in circulated grades than in Mint State, presumably due to a small local release. But the present lustrous yellow-gold example is unworn and surprisingly void of consequential marks. NGC ID# 26GC, PCGS# 9182, CoinPlex ID# SGM1925S

- 7673 1926 MS65 PCGS.** The 1926 Saint-Gaudens issue is seen in Gem condition far less often than the 1924, but Gem examples of both are widely available and show little price differentiation. This Gem 1926 boasts excellent luster over orange-gold surfaces free from singular marks.
From The Richard P. Ariagno, M.D. Collection. PCGS# 9183, NGC ID# 26GD, CoinPlex ID# SGM1926

- 7674 1926 MS65+ PCGS.** This high-end Gem displays the bountiful luster and bold strike that this issue is known for. The few scattered marks consistent with the grade are confined mostly to the obverse fields away from the focal points, although Liberty's exposed right (facing) leg shows a couple as well. The 1926 is far more elusive in high Mint State than the 1924. PCGS# 9183, NGC ID# 26GD, CoinPlex ID# SGM1926

Eye-Catching MS66+ 1926 Double Eagle
On the Verge of Condition Rarity

- 7675 1926 MS66+ NGC.** This Philadelphia issue, though not minted to the same extent as several nearby years, was saved in sufficient quantity that even MS66 pieces can be had with little searching, albeit at a price. This subtly toned and brightly lustrous MS66+ piece, however, is on the verge of an entirely different plane of rarity. NGC has graded only seven pieces as MS67 or finer (12/12). NGC ID# 26GD, PCGS# 9183, CoinPlex ID# SGM1926

1926-S Double Eagle, MS64+
Conditional Rarity

- 7676 1926-S MS64+ PCGS. CAC.** At one time, the branch Mint double eagles of the 1920s were considered major rarities, and some remain rare, especially those from Denver. However, the S-Mint issues were also in high demand through the 1940s, 1950s, and 1960s. Today, they remain in high demand, although population figures have helped to redefine the actual rarity, especially after numerous pieces in European holdings have been returned to the U.S. This near-Gem specimen has brilliant yellow luster with frosty surfaces and bold design motifs. A few rim marks and other trivial blemishes will prove of little concern to prospective bidders. PCGS has only certified 34 finer examples of this scarcity (12/12). PCGS# 9185, NGC ID# 26GF, CoinPlex ID# SGM1926S

7677 1927 MS63 NGC. CAC Gold Label. The CAC gold label indicates a coin that will trade at a higher level than CAC's strict standards, and this 1927 twenty certainly appears to fill a higher grade niche. Generous luster, a paucity of marks, and rich color are all equally responsible.

From The SPQR Collection of CAC Gold Sticker Coins. NGC ID# 26GG, PCGS# 9186, CoinPlex ID# SGM1927

7678 1927 MS65 PCGS. This Gem example of the 1927 double eagle would make an excellent representative for a type or date set, as the strike is quite bold, and only a few scattered marks appear in the obverse fields, consistent with the grade.

From The Gensch Numismatic Trust Collection. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

7679 1927 MS65 NGC. The 1924, 1927, and 1928 Saint-Gaudens issues are among a group of P-mints frequently chosen for type purposes. This is a well-preserved and well-struck frosty Gem with beaming luster over medium yellow-gold surfaces.

Ex: Palm Beach Signature (Heritage, 11/2004), lot 9178.

From The Richard P. Ariagno, M.D. Collection. NGC ID# 26GG, PCGS# 9186, CoinPlex ID# SGM1927

7680 1927 MS65 PCGS. The 1927 double eagle is a high-mintage but high-availability issue in the series, as it was released in generous numbers and yet not subjected to the extensive melting of post-1928 issues. This Gem boasts splendid luster and color with few mentionable marks, as expected at this grade level. A super type coin.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

7681 1927 MS65 PCGS. CAC. Flashy luster is the hallmark of this splendid Gem strike, one of the available P-mint issue so popular with collectors. This example shows only scattered ticks, quite minor and seemingly high-end for the grade. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

7682 1927 MS65+ PCGS. CAC. Close to the Premium Gem level numerically and aesthetically, this MS65+ 1927 twenty sports rich luster over surfaces that are minimally abraded and sharply struck. Consistent orange-gold color and the CAC approval both boost the collector appeal. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

7683 1927 MS66 PCGS. Few marks of any significance appear on either side of this lovely Premium Gem, an example boasting excellent luster, a bold strike as usual, and consistent orange-color with some tinges of lilac in the centers. A beautiful coin for type collectors.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

7684 1927 MS66 PCGS. This lovely Premium Gem would make an ideal type coin, with sharply detailed design elements, vibrant mint luster, and attractive orange-gold surfaces. PCGS has awarded higher numeric grades to a mere 13 pieces (11/12). PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

7685 1927 MS66 PCGS. CAC. The 1927 is another P-mint Saint-Gaudens issue that is available for a price yet in hot demand from type collectors, and the present Premium Gem is as good as it gets, since PCGS has seen only 13 numerically finer (12/12). This example is certified in a green-label holder and shows excellent luster over lavish surfaces that range from lemon-yellow to apricot-gold with a few coppery areas. A super example. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

1927 Double Eagle, MS66+ Tremendous Eye Appeal

7686 1927 MS66+ PCGS. CAC. The 1927 is the second most common date in the Saint-Gaudens twenty dollar series. Satiny luster adorns the peach-gold surfaces of this high-end Premium Gem and a solid strike leaves full definition on the design elements. The few scattered reverse marks are insignificant. All in all, this piece displays tremendous eye appeal. PCGS has graded just 13 pieces finer. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

7687 1928 MS65 PCGS. Consistent, mellow orange-red color is the hallmark of this fully lustrous Gem, a popular type issue in the Saint-Gaudens series. The bold strike and paucity of mentionable contact combine to produce excellent eye appeal.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9189, NGC ID# 26GK, CoinPlex ID# SGM1928

7688 1928 MS65 PCGS. A Gem example of this relatively available P-mint type coin. There are just a few too many small marks, still undistracting, to achieve the Premium Gem level. The obverse is a khaki-gold color with deeper reddish-orange notes on the reverse. This piece is quite well-struck, although most examples of the issue are. A tiny alloy spot appears on one of the left-side sun rays.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9189, NGC ID# 26GK, CoinPlex ID# SGM1928

7689 1928 MS66 PCGS. The 1924 and 1928 double eagles are two of the most popular and in-demand double eagles in high grade, as they survive in plentiful numbers and are well-produced issues as well. This Premium Gem boasts thorough luster over sharply struck apricot-gold surfaces with minimal marks and excellent eye appeal.

From The Richard P. Ariagno, M.D. Collection. PCGS# 9189, NGC ID# 26GK, CoinPlex ID# SGM1928

7690 1928 MS66 PCGS. CAC. The 1928 double eagle is the last of the great high-availability P-mints in the Saint-Gaudens series, one that is neither low-mintage nor high-meltage, and as such, Premium Gems are in great demand. This orange-gold example boasts flowing luster with some tinges of deeper color in the centers. The few minor luster grazes on this well-struck coin are distant from the focal points. PCGS# 9189, NGC ID# 26GK, CoinPlex ID# SGM1928

TERRITORIAL GOLD

(1837-1842) Bechtler Quarter Eagle, VF30
Popular K-10 Variety

- 7691 (1837-42) C. Bechtler Quarter Eagle, 67G. 21C. VF30 ANACS. K-10, R.5. The light yellow-gold surfaces of this popular Carolina quarter eagle are accented by hues of rose and amber, with much original mint luster underneath. Several die breaks and planchet flaws are evident, including a large depression at 7 o'clock on the obverse rim. Interestingly, the engraver used inverted V's for A's in the reverse lettering. PCGS# 10067

1860 Clark, Gruber Ten Dollar
K-3, Pikes Peak, AU Details

- 7692 1860 Clark, Gruber & Co. Ten Dollar — Cleaning — PCGS Genuine. AU Details. K-3, R.5. It is an oft-told tale that the East Coast engraver for the higher denomination 1860 Clark, Gruber gold coins had never seen Pikes Peak, which explains his depiction of it as a triangular volcano. On the 1861 coins, the design was scrapped in favor of imitative Federal types, which allowed greater acceptance in local circulation. The present 1860 ten is well struck and has only a trace of wear. The orange-gold fields are lustrous but mildly glossy from cleaning. Listed on page 390 of the 2013 *Guide Book*. PCGS# 10137

Very Fine K-12c Copper Die Trial
1861 Clark, Gruber Twenty

- 7693 1861 Clark, Gruber \$20 Copper Die Trial VF20 PCGS. K-12c, R.6. This olive-brown copper die trial was apparently carried as a pocket piece, since it could not possibly have passed for a twenty in Old West commerce. A lens reveals occasional faded thin marks, most apparent between stars 5 and 6. The obverse die was later used to strike the gold 1861 Clark, Gruber twenties, but the reverse die differs from the regular issue. Certified in a green label holder. Listed (as a gold issue) on page 391 of the 2013 *Guide Book*. From The SPQR Collection. PCGS# 10153

1852/1 Humbert Ten, XF
K-8 Dies, Late Reverse State

- 7694 1852/1 Humbert Ten Dollar XF40 NGC. K-8, R.4. The first variety of 1852 Humbert ten, the K-8 was struck from a reverse die showing the Y in ASSAYER centered over the space between I and A in CALIFORNIA, with the original 1851-dated die overdated to an 1852/1. This piece shows grade-consistent wear, but the reverse die is a very late state, so that the diagonal crack in the die has become so prominent that the two sides of the reverse are no longer quite coplanar; that is, the upper-right portion, separated at the bordering crack, appears lowered on the coin (raised on the die) compared to the remaining portion. The original "bullet-shaped" die lump below the F in CALIFORNIA has merged with some of the surroundings to become a large, formless mass running down to the lower border. An interesting example of this very scarce Territorial, and undoubtedly among the last struck from this close-to-failing die. The medium orange-gold surfaces show a nice original look. Listed on page 378 of the 2013 *Guide Book*. PCGS# 10190

Choice XF 1852/1 Humbert Ten, K-8

- 7695** 1852/1 Humbert Ten Dollar XF45 NGC. K-8, R.4. The U.S. Assay Office in California planned to strike ten dollar pieces in 1851 but the authority to strike denominations of less than fifty dollars did not arrive until 1852. Thus, the present variety is overdated 1852/1, and is likely the earliest of the four known Humbert ten die marriages. As seen on most if not all examples, a bold die crack bisects the reverse between 12 and 5 o'clock. The wheat-gold surfaces exhibit substantial luster and show marks beneath the scroll and on the central reverse. Listed on page 378 of the 2013 *Guide Book*. PCGS# 10190
-

1853 Assay Office Twenty, 884 Thous., K-17
AU Details, Rare and Desirable

- 7696** 1853 Assay Office Twenty Dollar, 884 Thous. — Altered Surface — Genuine PCGS. AU Details. K-17, Low R.7. With a Low R.7 rarity ranking, the K-17 Assay Office twenties with fineness 884 THOUS are far more elusive than their 900 fine counterparts, which took over when customs officials were ordered not to accept any private gold coins that failed to comply with the federal standard. This example shows excellent detail remaining, but there are scattered ticks and scrapes noted on both sides, most singular a dig in the engine-turned reverse below the legend. There is some field smoothing/repair above the eagle's head, with some darker field color there. Nonetheless, this remains a rare and desirable piece, listed on page 379 of the 2013 *Guide Book*. PCGS# 10010
-

**1854 Kellogg & Co. Twenty Dollar
AU Sharpness, Gagin-2**

- 7697** 1854 Kellogg & Co. Twenty Dollar — Obverse Damage — NGC Details. AU. K-2, R.4. Due to a delay in the 1854 opening of the San Francisco Mint, Kellogg & Co. struck twenty dollar pieces to help alleviate the lack of gold coin vital to West Coast commerce. The present representative has a small attempted puncture midway between star 1 and the chin. Otherwise, this is an appealing example with substantial bright luster and rich sun-gold and peach toning. Listed on page 378 of the 2013 *Guide Book*. PCGS# 10222

1855 Kellogg Twenty, K-3b, AU Details

- 7698** 1855 Kellogg & Co. Twenty Dollar — Cleaning — Genuine PCGS. AU Details. K-3b, R.5. Short Arrows, O of CO in hair. The surfaces are a tad overbright from the noted cleaning but there is still much eye appeal present, the product of the wealth of detail remaining on each side. There are some small to medium marks scattered about, and a small "173" is scratched into the reverse, to the left of the shield. The Kellogg twenties of 1855 were among the last Gold Rush issues from private minters, as San Francisco had already opened its mint and that facility was slowly filling the void for gold coinage. Listed on page 387 of the 2013 *Guide Book*. PCGS# 10225

**1849 Mormon Gold Five, K-2, VF Details
Accessible Example of This Rare Type**

- 7699** 1849 Mormon Five Dollar — Holed / Plugged — Genuine PCGS. VF Details. K-2, R.5. The former hole has been repaired (with design details re-engraved) fairly expertly, although the telltale is an area of darker reddish-orange on the prevailing orange-gold surfaces, at the SS in HOLINESS and correspondingly on the other side. Tiny marks are distributed and two scratches are noted near the date and to the right of the miter. This piece provides an acceptable entry point to a rare Mormon issue that might otherwise be out of reach for many collectors. Listed on page 389 of the 2013 *Guide Book*. PCGS# 10262

**VF Details 1860 Mormon Five Dollar, K-6
Accessible Example of Rare Type**

- 7700** 1860 Mormon Five Dollar — Plugged — NCS. VF Details. K-6, High R.5. This Mormon gold type, struck a decade after the last Mormon issue in 1850, emerged from changed political circumstances, including the formation of the Utah Territory and the temporal authority of a governor from outside the religion. It is noteworthy for its use of the Deseret alphabet, a shorthand-derived phonetic system promoted by Brigham Young, and its rarity in all conditions due to the ordered cessation and destruction of the pieces. While this coin's condition concerns are valid, the area of the violet-copper discoloration on each side is far larger than the actual plug, which is a small and well-defined circle that does not affect the motto in Deseret script. A valuable example of an issue that might otherwise be inaccessible. Listed on page 390 of the 2013 *Guide Book*. PCGS# 10268

CALIFORNIA FRACTIONAL GOLD

- 7701** 1853 Liberty Octagonal 50 Cents, BG-304, Low R.5, MS64 NGC. A scarce Period One variety that bears the initials of its maker, Frontier, Deviercy & Co. The green-gold surfaces are smooth and satiny. Among the finest known examples. Census: 2 in 64, 0 finer (11/12). PCGS# 10424, CoinPlex ID# CAL1853BG304

**1876 Indian Octagonal Quarter, MS66
Finest Known at Either Service**

- 7702 1876 Indian Octagonal 25 Cents, BG-786, Low R.6, MS66 NGC.** NGC's Census reveals they have graded five examples of the BG-786 variety, with this example the highest-graded of the group by three points. In addition, PCGS has graded only one piece at the MS65 level, with none finer (12/12). Both sides exhibit the prooflike surfaces these are known for, and they are virtually pristine. The obverse displays bold design definition, especially the Indian's headdress. The reverse exhibits a softer strike. PCGS# 10613, CoinPlex ID# CAL1876BG786

- 7703 1872/1 Indian Octagonal 25 Cents, BG-790, R.3, MS66 Deep Prooflike NGC.** NGC has certified three BG-790 quarters as Deep Prooflike, two at the MS64 level and the present MS66 example (12/12). The prominently mirrored sun-gold fields exhibit exemplary contrast with the nicely struck Indian and wreath. A couple of letters in the reverse legend are lightly brought up. PCGS# 910617

- 7704 1868 Indian Octagonal 25 Cents, BG-799T, High R.5, MS65 PCGS.** Lemon-gold toning adorns this flashy and pristine Gem. Only the O in DOLLAR shows any indication of inexactness. Encased in an old green label holder. Population: 6 in 65 (1 in 65+), 1 finer (12/12). PCGS# 10646, CoinPlex ID# CAL1868BG799T

**Finest Certified BG-799V Octagonal
1852 Indian Quarter, MS66 Prooflike**

- 7705 1852 Indian Octagonal 25 Cents, BG-799V, High R.7, MS66 Prooflike NGC.** The present lot is the finer of only two examples certified by NGC (12/12). PCGS has yet to certify any above the MS65 level, which makes the present lot the single finest graded at either major service. It is a sharply struck yellow-gold example with flashy fields and an unabraded appearance. Minute strike-throughs are distributed, as coined. PCGS# 710648

- 7706 1873 Liberty Round 25 Cents, BG-817, R.3, MS66 PCGS.** This butter-gold representative is nicely mirrored and is pristine save for a single brief hair-thin line near 12 o'clock. Lightly brought up at the centers, as usual for the Period Two variety. Population: 4 in 66, 0 finer (12/12). PCGS# 10678, CoinPlex ID# CAL1873BG817

- 7707 1873 Liberty Octagonal 50 Cents, BG-915, Low R.4, MS66 PCGS.** A flashy and smooth honey-gold Premium Gem. Delicate tan toning resides near the lower reverse border. A good strike with minor inexactness on the denomination. Population: 3 in 66, 0 finer (12/12).
Ex: West Palm Beach FUN Signature (Heritage, 7/2009), lot 9441, which realized \$1,585.85. PCGS# 10773, CoinPlex ID# CAL1873BG915

- 7708 1873 Liberty Octagonal 50 Cents, BG-915, Low R.4, MS66 Prooflike NGC.** As of (12/12), NGC has encapsulated only two examples of BG-915 as Prooflike, one in the MS64 grade, and the present piece at the MS66 level. Since none are designated above the MS66 level by either service, and none are designated as Deep Prooflike, we conclude this example is the single finest certified. The canary-gold fields are flashy and pristine, and all but a couple of letters are fully struck. PCGS# 710773

- 7709 1870 Goofy Head Octagonal 1 Dollar, BG-1118, Low R.5, MS62 PCGS.** A few tiny fields ticks and some luster grazes on the obverse help determine the grade on this Goofy Head dollar from 1870, with medium yellow-gold color and good eye appeal. Certified in an early-generation green-label PCGS holder. Population: 7 in 62, 4 finer (12/12). PCGS# 10929, CoinPlex ID# CAL1870BG1118

**Octagonal Indian 1873 Dollar
MS64, BG-1123**

- 7710 1873 Indian Octagonal 1 Dollar, BG-1123, High R.4, MS64 PCGS.** A well preserved canary-gold representative that shows noticeable cameo contrast between the Indian portrait and the glassy field. The fields retain some of the planchet surface, including roller marks and light striations, as coined. Within the Period Two series, the dollar denomination is scarcer and more popular than the quarter and half dollar. Population: 7 in 64, 5 finer (11/12). PCGS# 10934, CoinPlex ID# CAL1873BG1123

- 7711 1874 Indian Octagonal 1 Dollar, BG-1124, High R.4, MS64 NGC.** This flashy butter-gold octagonal dollar appears free from any marks. The centers and the right reverse border show moderate softness of strike. Minor strike-throughs (as made) are noted on the reverse at 9 o'clock and beneath the second L in DOLLAR. PCGS# 10935, CoinPlex ID# CAL1874BG1124

**1874 Indian Octagonal Dollar, BG-1124
MS64 Deep Mirror Prooflike**

- 7712 1874 Indian Octagonal 1 Dollar, BG-1124, High R.4, MS64 Deep Mirror Prooflike NGC.** Fully prooflike in finish, this lemon-tinged example has a good strike and mark-free surfaces. Small mint-made strike-throughs affect stars 4 and 12. The dies are widely rotated. Census: 1 in 64 Deep Mirror Prooflike, 1 finer (11/12).
Ex: Long Beach Signature (Heritage, 6/2006), lot 4327, which realized \$2,990. PCGS# 710935

End of Session Six

Terms and Conditions of Auction

Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., or Heritage Auctions, Inc., or Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., or Currency Auctions of America, Inc., as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
- Seventeen and one-half percent (17.5%) on Currency, US Coin, and World & Ancient Coin Auction lots, except for Gallery Auction lots as noted below;
- Nineteen and one-half percent (19.5%) on Americana & Political, Arms & Armor, Civil War & Militaria, Comic, Manuscript, Movie Poster, Space Exploration, Sports Collectibles, Texana, Wine, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
- For lots in all other categories not listed above, twenty-five percent (25%) on the first \$50,000 (minimum \$14), twenty percent (20%) of any amount between \$50,000 and \$1,000,000, and twelve percent (12%) of any amount over \$1,000,000.

Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

Bidding Options:

8. Bids in Signature, Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-443-8425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments for Signature auctions; Internet-only auction bidding increments are approximately half of these amounts (see HA.com/c/ref/web-tips.xz#guidelines-increments).

Current Bid.....	Bid Increment
<\$10.....	\$1
\$10 - \$29.....	\$2
\$30 - \$49.....	\$3
\$50 - \$99.....	\$5
\$100 - \$199.....	\$10
\$200 - \$299.....	\$20
\$300 - \$499.....	\$25
\$500 - \$999.....	\$50
\$1,000 - \$1,999.....	\$100
\$2,000 - \$2,999.....	\$200
\$3,000 - \$4,999.....	\$250
\$5,000 - \$9,999.....	\$500
\$10,000 - \$19,999.....	\$1,000

Current Bid.....	Bid Increment
\$20,000 - \$29,999.....	\$2,000
\$30,000 - \$49,999.....	\$2,500
\$50,000 - \$99,999.....	\$5,000
\$100,000 - \$199,999.....	\$10,000
\$200,000 - \$299,999.....	\$20,000
\$300,000 - \$499,999.....	\$25,000
\$500,000 - \$999,999.....	\$50,000
\$1,000,000 - \$1,999,999.....	\$100,000
\$2,000,000 - \$2,999,999.....	\$200,000
\$3,000,000 - \$4,999,999.....	\$250,000
\$5,000,000 - \$9,999,999.....	\$500,000
>\$10,000,000.....	\$1,000,000

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.
14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 1-800-872-6467.
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. (Note: Coins are only subject to sales tax in California on invoices under \$1500 and in Texas on invoices under \$1000. Check the Web site at: <http://coins.ha.com/c/ref/sales-tax.xz> for more details.) Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction.

Terms and Conditions of Auction

29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

Delivery; Shipping; and Handling Charges:

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website www.HA.com/common/shipping.php for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.
35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
- 36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Ron Brackemyre at 800- 872-6467 ext. 1312.
- 36B. Auctioneer shall not be liable for any loss caused by or resulting from:
- a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
 - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

Cataloging, Warranties and Disclaimers:

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions. .
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

Release:

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or inconsequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

Dispute Resolution and Arbitration Provision:

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.
46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Dispute Resolution for Consumers and Non-Consumers: Any claim, dispute, or controversy in connection with, relating to and /or arising out of the Auction, participation in the Auction, award of lots, damages of claims to lots, descriptions, condition reports, provenance, estimates, return and warranty rights, any interpretation of these Terms and Conditions, any alleged verbal modification of these Terms and Conditions and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation shall or any other matter: a) if presented by a consumer, be exclusively heard by, and the parties consent to, exclusive in personam jurisdiction in the State District Courts of Dallas County, Texas. THE PARTIES EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY. Any appeals shall be solely pursued in the appellate courts of the State of Texas; or b) for any claimant other than a consumer, the claim shall be presented in confidential binding arbitration before a single arbitrator, that the parties may agree upon, selected from the JAMS list of Texas arbitrators. The case is not to be administered by JAMS; however, if the parties cannot agree on an arbitrator, then JAMS shall appoint the arbitrator and it shall be conducted under JAMS rules. The locale shall be Dallas Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. Any party on any claim involving the purchase or sale of numismatic or related items may elect arbitration through binding PNG arbitration. Any claim must be brought within one (1) year of the alleged breach, default or misrepresentation or the claim is waived. This agreement and any claims shall be determined and construed under Texas law. The prevailing party (party that is awarded substantial and material relief on its claim or defense) may be awarded its reasonable attorneys' fees and costs.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

Miscellaneous:

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

State Notices:

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Notice as to an Auction in Texas. In compliance with TDLR rule 67.100(c)(1), notice is hereby provided that this auction is covered by a Recovery Fund administered by the Texas Department of Licensing and Regulation, P.O. Box 12157, Austin, Texas 78711 (512) 463-6599. Any complaints may be directed to the same address.

Notice as to an Auction in Ohio: Auction firm and Auctioneer are licensed by the Dept. of Agriculture, and either the licensee is bonded in favor of the state or an aggrieved person may initiate a claim against the auction recovery fund created in Section 4707.25 of the Revised Code as a result of the licensee's actions, whichever is applicable.

Terms and Conditions of Auction

Additional Terms & Conditions:

COINS & CURRENCY

COINS and CURRENCY TERM A: Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS and CURRENCY TERM B: Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (1-800-872-6467) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS and CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS and CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcg.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

COINS and CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

COINS and CURRENCY TERM F: Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS and CURRENCY TERM G: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

COINS and CURRENCY TERM H: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

COINS and CURRENCY TERM I: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS and CURRENCY TERM J: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS and CURRENCY TERM K: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM L: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM M: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS and CURRENCY TERM N: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

COINS and CURRENCY TERM O: Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

For wiring instructions call the Credit department at 1-800-872-6467 or e-mail: CreditDept@HA.com

New York State Auctions Only

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, Michael J. Sadler, # 1304630, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders. Rev 11-19-12

HERITAGE®

WORLD & ANCIENT COIN AUCTIONS

Heritage is proud to present

The Norman Jacobs Collection of India and Thailand

Magnificent Rarities from cabinet of Asian scholar and prominent numismatist, Dr. Norman Jacobs.

In Asia, in the post-war period, and during much of the 1950's and 1960's, Dr. Jacobs was able to put together an amazing group of Asian rarities from Japan to India, Korea to Thailand. Heritage will be displaying over 100 items of India and Thailand at the 2013 NYINC at the Maxwell Suite at the Waldorf Astoria January 9-13.

Please stop by to visit us and see these and other wonderful rarities.

FINE & RARE WINES

Our Experience. Your Wine. Great Results.

Heritage Auctions dominates the fine art and vintage collectibles market.

Now, we're bringing our expertise, marketing power and record-breaking results to fine and rare wines.

And you're sure to benefit.

- Wine consignors pay no consignment and insurance fees.
- We'll beat any terms you're getting from a competitor.
- If you prefer selling your wine outright, call us and we'll make a cash offer on a single bottle or your entire cellar.
- Our aggressive marketing strategy gives your consignments international exposure.

Our goal is more money in your pocket.

How can you lose?

Call today to learn how Heritage can realize the full potential of your cellar.

US COINS AUCTION

FEBRUARY 7-9, 2013 | LONG BEACH | LIVE & ONLINE

The **OLDEST** numismatic partnership in America
brings you the **NEWEST OPPORTUNITY**
to maximize your consignment results...

LONG BEACH: FEBRUARY 7-9, 2013
CONSIGNMENT DEADLINE: DECEMBER 26, 2012

**Heritage has been holding Official Auctions at the
Long Beach Coin Expo for more than 25 years.**

In head-to-head competition, Heritage achieved higher prices in nearly two-thirds of comparisons. Comparing auction results from 75,000 sales of identically graded coins (from the same services) by all of our competitors combined, HA.com delivered the majority of highest prices. When compared against the prices realized of our primary competitor, Heritage earned consignors like you more money in nearly two-thirds of all comparisons.

**Call us today at 800-872-6467 ext. 1000
to discuss consignment opportunities.**

The Business Climate is Perfect at Long Beach.

Join us at the Long Beach Expo • February 7 - 9, 2013

Located within sight of major attractions like the Queen Mary and The Aquarium of the Pacific in beautiful Long Beach, California, the Expo brings together more than 10,000 dealers and collectors three times each year. The weather is great, and so is the business climate on our 100,000-square-foot bourse floor!

Literally hundreds of dealers are on hand buying and selling U.S. and World coins. And there are activities for collectors of all levels and ages at every show, including:

- A multi-million-dollar Signature Auction held by Heritage Auctions, the official auctioneer of the Long Beach Expo
- Onsite coin grading by PCGS
- Numerous youth activities including the popular kids' treasure hunt sponsored by the Full Step Nickel Club

U.S. Coin Auction #1181

Submit Your Bids By Fax | FAX HOTLINE: 214-409-1425

ALL INFORMATION MUST BE COMPLETED AND FORM SIGNED

NAME _____ CLIENT # (if known) _____ BIDDER # _____

ADDRESS _____ E-MAIL ADDRESS _____

CITY/STATE/ZIP _____ CELL PHONE _____

DAYTIME PHONE (_____) _____ EVENING PHONE (_____) _____

Would you like a FAX or e-mail confirming receipt of your bids? If so, please
print your FAX # _____

or e-mail address here: _____

I would like to limit my bidding to a total of \$ _____

at the hammer amount for all lots listed on this bid sheet. I am aware
that by utilizing the Budget Bidding feature all bids on this sheet will be
affected. If I intend to have regular bidding on other lots I will need to
use a separate bid sheet.

Payment by check may result in your property not being released until
purchase funds clear our bank. Checks must be drawn on a U.S. bank.
(Bid in whole dollar amounts only.)

All bids are subject to the applicable Buyer's Premium. See HA.com for details.

Non-Internet bids (including but not limited to, podium, fax, phone and mail
bids) may be submitted at any time and are treated similar to floor bids. These
types of bids must be on-increment or at a half increment (called a cut bid). Any
podium, fax, phone or mail bids that do not conform to a full or half increment
will be rounded up or down to the nearest full or half increment and will be
considered your high bid.

Current Bid	Bid Increment	
< - \$10	\$1	\$10,000 - \$19,999..... \$1,000
\$10 - \$29	\$2	\$20,000 - \$29,999..... \$2,000

TX Auctioneer licenses: Samuel Foose 11727; Robert Korver 13754; Scott Peterson 13256; Bob Merrill 13408; Mike Sadler 16129; Andrea Voss 16406; Jacob Walker 16413; Tim Rigdon 16519; Cori Mikeals 16582; Stewart Huckaby 16590; Wayne Shoemaker 16600; Chris Dykstra 16601; Teia Baber 16624; Marc Goebel 17103; Jennifer Marsh 17105; Shawn Schiller 17111; Stephanie O'Barr 17116; Mark Prendergast 17118; Fiona Elias 17126; Brian Nalley 17134; Mike Provenzale 17157.

SPECIAL INTERNET BIDDING FEATURE

Online proxy bidding ends at HA.com two hours prior to the opening of the live auction. Check the Time Remaining on individual lots for details. After Internet proxy bidding closes, live bidding will take place through Heritage Live™, our bidding software that lets you bid live during the actual auction. Your secret maximum will compete against those bids, and win all ties. To maximize your chances of winning, enter realistic secret maximum bids before live bidding begins. (Important note: Due to software and Internet latency, bids placed through Live Internet Bidding may not register in time and those bidders could lose lots they would otherwise have won, so be sure to place your proxy bids in advance.)

PRELIMINARY LOT VIEWING

By Appointment Only – Please contact Roy Porras at 214-409-1295 or RoyP@HA.com, to schedule an appointment.

8255 1857 Small Date MS61 Brown NGC. NGC Census: (0/0). PCGS Population (0/22).

FLYING EAGLE CENTS

- 8256 1857 — Clashed With 50C — VF35 NGC.** NGC Census: (34/2491). PCGS Population (104/3215). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$98.
- 8257 1857 XF40 PCGS.** DDO FS-101, S-4 (FS-002). PCGS Population (142/3071). NGC Census: (69/2414). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$130.
- 8258 1857 — Improperly Cleaned, Clashed With 50C — NGC Details. AU.** NGC Census: (48/2299). PCGS Population (96/2825). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$165.
- 8259 1857 — Improperly Cleaned — NGC Details. AU.** NGC Census: (48/2299). PCGS Population (96/2825). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$165.
- 8260 1857 AU50 NGC.** NGC Census: (46/2294). PCGS Population (96/2824). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$165.
- 8261 1857 AU55 PCGS.** PCGS Population (147/2602). NGC Census: (86/2175). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$210.
- 8262 1857 AU58 NGC.** NGC Census: (146/2030). PCGS Population (206/2396). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$285.
- 8263 1857 — Improperly Cleaned — NGC Details. Unc.** NGC Census: (14/2015). PCGS Population (40/2356). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$330.
- 8264 1857 — Improperly Cleaned — NGC Details. Unc.** NGC Census: (14/2012). PCGS Population (40/2356). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$330.
- 8265 1857 MS62 NGC.** NGC Census: (293/1617). PCGS Population (403/1897). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$480.
- 8266 1857 MS62 PCGS.** PCGS Population (403/1897). NGC Census: (292/1618). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$480.
- 8267 1857 MS63 NGC.** NGC Census: (501/1116). PCGS Population (761/1136). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$750.
- 8268 1857 MS63 NGC.** NGC Census: (496/1120). PCGS Population (759/1136). Mintage: 17,450,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$735.
From The Gensch Numismatic Trust Collection.
- 8269 1858 Large Letters — Improperly Cleaned — NGC Details. AU.** NGC Census: (2/348). PCGS Population (44/1496). Mintage: 24,600,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$180.
- 8270 1858 Large Letters — Reverse Damage — NGC Details. AU.** NGC Census: (2/348). PCGS Population (44/1496). Mintage: 24,600,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$180.
- 8271 1858 Large Letters AU53 ANACS.** NGC Census: (0/348). PCGS Population (30/1466). Mintage: 24,600,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$185.
- 8272 1858 Large Letters AU55 NGC.** NGC Census: (7/341). PCGS Population (69/1397). Mintage: 24,600,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$230.
- 8273 1858 Large Letters — Improperly Cleaned — NGC Details. Unc.** NGC Census: (0/329). PCGS Population (19/1286). Mintage: 24,600,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$320.
- 8274 1858 Large Letters MS63 NGC.** NGC Census: (94/203). PCGS Population (388/678). Mintage: 24,600,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$775.
- 8275 1858 Small Letters AU55 NGC.** NGC Census: (0/3). PCGS Population (41/647). Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$240.
- 8276 1858 Small Letters — Improperly Cleaned — NGC Details. Unc.** NGC Census: (0/3). PCGS Population (2/585). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$320.
- 8277 1858 Small Letters — Obverse Damaged — NGC Details. Unc.** NGC Census: (0/3). PCGS Population (2/586). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$320.
- 8279 1859 AU55 PCGS. CAC.** PCGS Population (108/1685). NGC Census: (1/16). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$160.
- 8280 1859 AU58 NGC.** NGC Census: (1/15). PCGS Population (201/1486). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$200.
- 8281 1859 MS62 NGC.** NGC Census: (2/11). PCGS Population (183/1264). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$380.
- 8282 1859 MS62 NGC.** Ex: Eagle Eye Photo Seal. NGC Census: (2/11). PCGS Population (183/1262). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$380.
- 8283 1859 MS63 PCGS.** PCGS Population (511/749). NGC Census: (3/8). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$555.
- 8284 1859 MS64 PCGS.** PCGS Population (592/161). NGC Census: (6/2). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$990.
- 8285 1859 MS64 NGC.** NGC Census: (6/2). PCGS Population (591/159). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$990.
- 8286 1860 MS62 PCGS. CAC.** PCGS Population (123/906). NGC Census: (123/766). Mintage: 20,566,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$190.
- 8287 1860 MS64 NGC.** NGC Census: (368/178). PCGS Population (409/205). Mintage: 20,566,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$430.
- 8288 1860 MS64+ NGC.** NGC Census: (368/178). PCGS Population (409/205). Mintage: 20,566,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$430.

INDIAN CENTS

- 8278 1859 AU53 PCGS.** PCGS Population (48/1794). NGC Census: (0/17). Mintage: 36,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$150.

8289 1860 MS65 PCGS. PCGS Population (159/46). NGC Census: (139/39). Mintage: 20,566,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$975.
From The Richard P. Ariagno, M.D. Collection.

8290 1861 AU50 NGC. NGC Census: (26/1614). PCGS Population (39/1152). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$125.

8291 1861 AU55 NGC. NGC Census: (70/1532). PCGS Population (59/1067). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$140.

8292 1861 MS61 ANACS. NGC Census: (52/1366). PCGS Population (16/953). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$165.

8293 1861 MS61 NGC. NGC Census: (52/1366). PCGS Population (16/953). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$165.

8294 1861 MS62 NGC. NGC Census: (176/1190). PCGS Population (93/860). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$230.

8295 1861 MS64 NGC. NGC Census: (570/372). PCGS Population (400/240). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$480.

8296 1861 MS64 NGC. NGC Census: (570/372). PCGS Population (401/240). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$480.
From The J.D. Tanner Collection.

8297 1861 MS64 NGC. NGC Census: (570/372). PCGS Population (401/240). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$480.
From The J.D. Tanner Collection.

8298 1861 MS64 PCGS. CAC. PCGS Population (401/240). NGC Census: (570/372). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$480.

8299 1861 MS65 PCGS. PCGS Population (174/66). NGC Census: (288/84). Mintage: 10,100,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$950.
From The Richard P. Ariagno, M.D. Collection.

8300 1862 MS64 PCGS. PCGS Population (605/284). NGC Census: (1020/426). Mintage: 28,075,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$350.

8301 1862 MS64 NGC. NGC Census: (1020/426). PCGS Population (605/282). Mintage: 28,075,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$350.

8302 1862 MS64 NGC. NGC Census: (1020/426). PCGS Population (606/282). Mintage: 28,075,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$350.

8303 1862 MS65 NGC. NGC Census: (346/80). PCGS Population (215/68). Mintage: 28,075,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$825.

8304 1863 AU55 PCGS. Gold CAC. PCGS Population (112/2492). NGC Census: (58/3734). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$62.
From The SPQR Collection of CAC Gold Sticker Coins.

8305 1863 MS62 NGC. Gold CAC. NGC Census: (632/2598). PCGS Population (391/1768). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$140.
From The SPQR Collection of CAC Gold Sticker Coins.

8306 1863 MS63 NGC. NGC Census: (932/1672). PCGS Population (760/1013). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$180.

8307 1863 MS63 NGC. NGC Census: (936/1672). PCGS Population (761/1014). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$180.

8308 1863 MS64 NGC. NGC Census: (1220/448). PCGS Population (765/242). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$300.

8309 1863 MS64 PCGS. PCGS Population (767/245). NGC Census: (1222/450). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$310.

8310 1863 MS64 PCGS. PCGS Population (767/245). NGC Census: (1222/450). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$310.
From The Richard P. Ariagno, M.D. Collection.

8311 1863 MS64 NGC. NGC Census: (1222/450). PCGS Population (767/246). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$310.

8312 1863 MS64+ PCGS. PCGS Population (767/246). NGC Census: (1222/450). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$310.

8313 1863 MS65 PCGS. PCGS Population (209/36). NGC Census: (410/40). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$850.

8314 1863 MS65 NGC. NGC Census: (408/40). PCGS Population (209/36). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$850.

8315 1863 MS65 PCGS. CAC. PCGS Population (209/36). NGC Census: (410/40). Mintage: 49,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$850.

8316 1864 Copper-Nickel MS62 PCGS. PCGS Population (180/1031). NGC Census: (192/781). Mintage: 13,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$190.

8317 1864 Copper-Nickel MS63 NGC. NGC Census: (263/519). PCGS Population (421/612). Mintage: 13,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$280.

8318 1864 Copper-Nickel MS63 PCGS. Gold CAC. PCGS Population (421/609). NGC Census: (263/516). Mintage: 13,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$275.
From The SPQR Collection of CAC Gold Sticker Coins.

8319 1864 Copper-Nickel MS64 PCGS. PCGS Population (480/133). NGC Census: (392/128). Mintage: 13,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$460.

8320 1864 Bronze No L MS64 Red and Brown NGC. NGC Census: (330/620). PCGS Population (363/219). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$220.

8321 1864 Bronze No L MS65 Red and Brown NGC. NGC Census: (474/146). PCGS Population (196/23). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$380.

8322 1864 Bronze No L MS65 Red PCGS. PCGS Population (107/36). NGC Census: (51/29). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$875.

8323 1864 L On Ribbon XF45 PCGS. CAC. PCGS Population (149/481). NGC Census: (78/515). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$214.

8324 1864 L On Ribbon — Damaged — NGC Details. AU. NGC Census: (36/477). PCGS Population (89/389). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$240.

8325 1864 L On Ribbon AU53 NGC. NGC Census: (24/453). PCGS Population (46/343). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$255.

8326 1864 L On Ribbon AU58 NGC. NGC Census: (98/290). PCGS Population (73/189). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$300.

8327 1864 L On Ribbon AU58 PCGS. CAC. PCGS Population (73/189). NGC Census: (98/290). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$300.

8328 1864 L On Ribbon MS63 Red and Brown PCGS. PCGS Population (137/317). NGC Census: (65/284). Mintage: 39,233,712. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$565.

8329 1865 Fancy 5 MS64 Red and Brown NGC. NGC Census: (371/324). PCGS Population (256/77). Mintage: 35,429,288. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.

8330 1865 Fancy 5 MS64 Red and Brown NGC. NGC Census: (371/324). PCGS Population (256/77). Mintage: 35,429,288. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.

8331 1865 Fancy 5 MS64 Red and Brown NGC. NGC Census: (371/324). PCGS Population (256/77). Mintage: 35,429,288. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.

8332 1866 XF45 NGC. NGC Census: (87/732). PCGS Population (83/353). Mintage: 9,826,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$159.

8333 1866 MS63 Brown PCGS. PCGS Population (50/69). NGC Census: (133/224). Mintage: 9,826,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$300.

8334 1866 MS63 Red and Brown PCGS. CAC. PCGS Population (88/292). NGC Census: (44/260). Mintage: 9,826,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$380.

8335 1867 — Rotated Dies — XF45 NGC. NGC Census: (38/363). PCGS Population (68/263). Mintage: 9,821,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$159.

8336 1867 AU50 NGC. NGC Census: (21/338). PCGS Population (40/222). Mintage: 9,821,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$175.

8337 1867 AU55 NGC. NGC Census: (38/256). PCGS Population (50/150). Mintage: 9,821,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$190.

8338 1867 AU58 NGC. CAC. NGC Census: (36/220). PCGS Population (45/105). Mintage: 9,821,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$200.

8339 1867 MS64 Red and Brown NGC. NGC Census: (277/247). PCGS Population (255/51). Mintage: 9,821,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$775.

8340 1868 MS64 Red and Brown PCGS. PCGS Population (223/97). NGC Census: (146/114). Mintage: 10,266,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$585.

8341 1868 MS65 Red and Brown PCGS. PCGS Population (93/4). NGC Census: (100/14). Mintage: 10,266,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$775.

8342 1869 Fine 12 NGC. NGC Census: (21/530). PCGS Population (25/644). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$195.

8343 1869 VF35 NGC. NGC Census: (22/442). PCGS Population (39/489). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$301.

8344 1869 — Cleaned, Environmental Damage — NGC Details. XF. NGC Census: (37/406). PCGS Population (60/431). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350.

8345 1869 — Reverse Scratched — NGC Details. AU. NGC Census: (27/309). PCGS Population (61/286). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$390.

8346 1869/69 — Altered Color — NGC Details. AU. FS-301. NGC Census: (27/310). PCGS Population (61/285). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$390.

8347 1869 AU58 PCGS. CAC. PCGS Population (58/150). NGC Census: (42/209). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$450.

8348 1869/69 — Altered Color — NGC Details. Unc. FS-301. NGC Census: (0/209). PCGS Population (2/148). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$470.

- 8349 1869 MS63 Red and Brown NGC.** NGC Census: (52/297). PCGS Population (100/327). Mintage: 6,420,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$750.
- 8350 1870 Fine 12 NGC.** NGC Census: (26/738). PCGS Population (25/493). Mintage: 5,275,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$175.
- 8351 1870 — Corrosion — NGC Details. XF.** NGC Census: (44/587). PCGS Population (61/312). Mintage: 5,275,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$310.

8745 2001 MS69 Red PCGS. PCGS Population (41/0). NGC Census: (1/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in MS69: \$220.

PROOF LINCOLN CENTS

8746 1910 PR64 Red and Brown PCGS. PCGS Population (89/77). NGC Census: (55/52). Mintage: 4,118. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR64: \$850.

8747 1911 PR64 Brown NGC. NGC Census: (33/33). PCGS Population (40/41). Mintage: 1,725. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR64: \$575.

8748 1913 PR64 Red and Brown PCGS. PCGS Population (127/93). NGC Census: (71/76). Mintage: 2,983. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR64: \$700.

8749 1937 PR65 Red and Brown PCGS. PCGS Population (26/3). NGC Census: (42/4). Mintage: 9,320. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR65: \$135.

8750 1937 PR65 Red PCGS. PCGS Population (397/178). NGC Census: (163/97). Mintage: 9,320. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR65: \$260.
From The Western Reserve Collection.

8751 1937 PR65 Red NGC. NGC Census: (163/97). PCGS Population (397/178). Mintage: 9,320. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR65: \$260.

8752 1937 PR66 Red NGC. NGC Census: (85/12). PCGS Population (168/10). Mintage: 9,320. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$720.

8753 1937 PR66 Red PCGS. PCGS Population (168/10). NGC Census: (85/12). Mintage: 9,320. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$720.

8754 1938 PR65 Red NGC. NGC Census: (238/140). PCGS Population (536/266). Mintage: 14,734. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR65: \$160.

8755 1938 PR66 Red PCGS. PCGS Population (236/30). NGC Census: (127/13). Mintage: 14,734. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$320.

8756 1939 PR66 Red PCGS. PCGS Population (286/27). NGC Census: (151/28). Mintage: 13,520. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$280.

8757 1940 PR66 Red PCGS. PCGS Population (213/10). NGC Census: (109/6). Mintage: 15,872. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$280.

8758 1941 PR66 Red PCGS. PCGS Population (101/3). NGC Census: (0/0). Mintage: 21,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$375.

8759 1942 PR66 Red PCGS. PCGS Population (98/3). NGC Census: (68/1). Mintage: 32,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$640.

8760 1950 PR67 Red PCGS. PCGS Population (38/0). NGC Census: (96/6). Mintage: 51,386. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR67: \$240.

8761 1951 PR67 Red PCGS. PCGS Population (97/4). NGC Census: (186/19). Mintage: 57,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR67: \$170.

8762 1952 PR68 Red NGC. NGC Census: (90/0). PCGS Population (5/0). Mintage: 81,980. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR68: \$550.

8763 1953 PR68 Red PCGS. DDO, FS-101 (FS-021.7). PCGS Population (20/3). NGC Census: (159/3). Mintage: 128,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR68: \$175.

8764 1953 PR67 Cameo PCGS. PCGS Population (34/1). NGC Census: (68/13). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR67: \$550.

8765 1953 PR67 Cameo NGC. NGC Census: (68/13). PCGS Population (35/1). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR67: \$550.

8766 1954 PR68 Red PCGS. PCGS Population (36/0). NGC Census: (207/41). Mintage: 233,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR68: \$170.

8767 1954 PR68 Red PCGS. PCGS Population (36/0). NGC Census: (209/41). Mintage: 233,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR68: \$160.

8768 1954 PR68 Red PCGS. PCGS Population (36/0). NGC Census: (209/41). Mintage: 233,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR68: \$160.

8769 1954 PR69 Red NGC. NGC Census: (41/0). PCGS Population (0/0). Mintage: 233,300.

8770 1955 PR69 Red NGC. NGC Census: (43/0). PCGS Population (0/0). Mintage: 378,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR69: \$260.

8771 1956 PR68 Cameo PCGS. PCGS Population (26/0). NGC Census: (51/4). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR68: \$300.

8772 1958 PR68 Cameo NGC. NGC Census: (72/3). PCGS Population (24/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR68: \$515.

8773 1961 PR69 Cameo PCGS. PCGS Population (15/0). NGC Census: (58/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR69: \$130.

8774 1963 PR69 Deep Cameo PCGS. PCGS Population (89/0). NGC Census: (32/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR69: \$300.

8775 1964 PR69 Deep Cameo PCGS. PCGS Population (208/1). NGC Census: (86/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR69: \$140.

8776 1971-S Doubled Die Obverse, Type Two PR67 Red PCGS. FS-101 (FS-032). PCGS Population (21/2). NGC Census: (12/6).

8777 1971-S Doubled Die Obverse, Type Two PR67 ★ Red NGC. VP-002. NGC Census: (12/6). PCGS Population (21/2).

8778 1981-S Type Two PR69 Red Ultra Cameo NGC. NGC Census: (147/0). PCGS Population (226/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR69: \$185.

8779 1981-S Type Two PR69 Deep Cameo PCGS. PCGS Population (226/0). NGC Census: (147/0). Numismedia Wsl. Price for problem free NGC/PCGS coin in PR69: \$185.

TWO CENT PIECES

8780 1864 Large Motto MS64 Brown NGC. NGC Census: (439/269). PCGS Population (270/51). Mintage: 19,847,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$195.

8781 1864 Large Motto — Struck Thru & Rotated Die — MS64 Brown NGC. NGC Census: (440/270). PCGS Population (271/51). Mintage: 19,847,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$195.

8782 1864 Large Motto MS65 Brown NGC. NGC Census: (238/32). PCGS Population (49/2). Mintage: 19,847,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$340.

8783 1864 Large Motto MS64 Red and Brown NGC. NGC Census: (537/666). PCGS Population (948/310). Mintage: 19,847,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$300.

8784 1864 Large Motto MS64 Red and Brown NGC. NGC Census: (539/667). PCGS Population (955/311). Mintage: 19,847,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$285.

8785 1864 Large Motto MS64 Red and Brown ANACS. NGC Census: (539/667). PCGS Population (955/311). Mintage: 19,847,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$285.

8786 1864 Large Motto MS64 Red and Brown PCGS. Gold CAC. PCGS Population (953/311). NGC Census: (539/667). Mintage: 19,847,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$285.

9661 1929-S MS66 Full Bands PCGS. PCGS Population (115/29). NGC Census: (21/10). Mintage: 4,730,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$685.

9662 1929-S MS66 Full Bands PCGS. PCGS Population (114/29). NGC Census: (21/10). Mintage: 4,730,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$685.

9663 1930-S MS65 Full Bands PCGS. PCGS Population (154/77). NGC Census: (25/15). Mintage: 1,843,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$600.

9664 1930-S MS65 Full Bands PCGS. PCGS Population (154/77). NGC Census: (25/15). Mintage: 1,843,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$600.

9665 1931 MS66 PCGS. CAC. PCGS Population (27/5). NGC Census: (38/1). Mintage: 3,150,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$280.

9666 1931 MS64 Full Bands NGC. NGC Census: (41/67). PCGS Population (149/179). Mintage: 3,150,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$200.

9667 1931 MS66 Full Bands PCGS. PCGS Population (64/12). NGC Census: (12/0). Mintage: 3,150,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$800.

9668 1931-D MS66 NGC. NGC Census: (33/3). PCGS Population (25/4). Mintage: 1,260,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$360.

9669 1931-D MS64 Full Bands PCGS. PCGS Population (322/536). NGC Census: (87/198). Mintage: 1,260,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$190.

9670 1931-D MS65 Full Bands PCGS. CAC. PCGS Population (331/204). NGC Census: (135/63). Mintage: 1,260,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$340.

9671 1931-S MS65 NGC. NGC Census: (87/61). PCGS Population (90/50). Mintage: 1,800,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$225.

9672 1931-S MS64 Full Bands PCGS. PCGS Population (57/107). NGC Census: (12/17). Mintage: 1,800,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$635.

9673 1934 MS67 Full Bands PCGS. PCGS Population (168/21). NGC Census: (60/8). Mintage: 24,080,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$380.

9674 1934-D MS66 PCGS. PCGS Population (101/13). NGC Census: (85/12). Mintage: 6,772,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$140.

9675 1934-D MS66+ Full Bands PCGS. PCGS Population (124/35). NGC Census: (26/10). Mintage: 6,772,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$440.

9676 1935 MS65 Full Bands PCGS; 1940 MS66 Full Bands PCGS; 1940-D MS65 Full Bands PCGS; 1940-S MS65 Full Bands PCGS; 1942 MS67 PCGS; 1942 MS65 Full Bands PCGS and a 1943-D MS65 Full Bands PCGS. (Total: 7 coins)

9677 1935 MS67 Full Bands PCGS. CAC. PCGS Population (230/9). NGC Census: (113/1). Mintage: 58,830,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$250.

9678 1935-D MS66 Full Bands PCGS Secure. PCGS Population (81/23). NGC Census: (32/5). Mintage: 10,477,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$560.

9679 1935-S MS65 PCGS; 1943-S MS66 PCGS and a 1944-S MS65 PCGS. (Total: 3 coins)

9680 1935-S MS65 Full Bands PCGS. PCGS Population (227/218). NGC Census: (51/93). Mintage: 15,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$260.

9681 1935-S MS66 Full Bands PCGS. PCGS Population (138/80). NGC Census: (67/26). Mintage: 15,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$380.

9682 1935-S MS66 Full Bands PCGS. PCGS Population (138/80). NGC Census: (67/26). Mintage: 15,840,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$380.

9683 1936 MS65 Full Bands PCGS. Gold CAC. PCGS Population (719/854). NGC Census: (182/275). Mintage: 87,504,128. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$56.
From The SPQR Collection of CAC Gold Sticker Coins.

9684 1936-D MS67 Full Bands PCGS. PCGS Population (101/9). NGC Census: (30/1). Mintage: 16,132,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$550.

9685 1936-S MS67 Full Bands PCGS. PCGS Population (162/2). NGC Census: (49/1). Mintage: 9,210,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$320.
From The Richard P. Ariagno, M.D. Collection.

9686 1936-S MS67 Full Bands PCGS. PCGS Population (163/2). NGC Census: (49/1). Mintage: 9,210,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$320.

9687 1938-D MS67 Full Bands PCGS. PCGS Population (268/11). NGC Census: (162/5). Mintage: 5,537,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$200.

9688 1938-S MS67 ★ NGC. NGC Census: (59/2). PCGS Population (33/1). Mintage: 8,090,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$185.

9689 1939 MS66 Full Bands PCGS. Gold CAC. PCGS Population (306/104). NGC Census: (91/38). Mintage: 67,749,320. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$140.
From The SPQR Collection of CAC Gold Sticker Coins.

9690 1939 MS67 Full Bands PCGS. PCGS Population (98/6). NGC Census: (38/0). Mintage: 67,749,320. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$585.

9691 1939-D MS66 Full Bands PCGS. Gold CAC. PCGS Population (1908/602). NGC Census: (694/470). Mintage: 24,394,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$46.
From The SPQR Collection of CAC Gold Sticker Coins.

9692 1939-S MS66 Full Bands PCGS. PCGS Population (100/34). NGC Census: (22/10). Mintage: 10,540,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$760.

9693 1940-D MS67 Full Bands PCGS. PCGS Population (309/22). NGC Census: (197/4). Mintage: 21,198,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$130.

9694 1940-D MS67+ Full Bands PCGS. CAC. PCGS Population (309/22). NGC Census: (197/4). Mintage: 21,198,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$130.

9695 1941 MS67+ Full Bands PCGS. CAC. PCGS Population (257/6). NGC Census: (287/5). Mintage: 175,106,560. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$175.

9696 1941-S MS67 Full Bands PCGS. PCGS Population (290/5). NGC Census: (329/6). Mintage: 43,090,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$190.

9697 1942/1 Good 4 PCGS. PCGS Population (3/1986). NGC Census: (1/1339). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 4: \$375.

9698 1942/1 — Improperly Cleaned — NGC Details. VF. NGC Census: (62/1182). PCGS Population (133/1658). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$425.

9699 1942/1 — Improperly Cleaned — NGC Details. XF. NGC Census: (178/654). PCGS Population (297/711). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$500.
From The Hilltop Collection.

9700 1942/1 XF40 NGC. NGC Census: (178/654). PCGS Population (297/711). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$500.

9701 1942/1 XF45 NGC. FS-010.7. NGC Census: (151/492). PCGS Population (234/473). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$605.
From The Western Reserve Collection.

9702 1942/1 XF45 PCGS. PCGS Population (234/477). NGC Census: (155/499). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$602.

9703 1942/1 — Cleaned — ANACS. XF45 Details. NGC Census: (155/499). PCGS Population (234/477). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$602.

9704 1942/1 AU50 NGC. NGC Census: (74/425). PCGS Population (120/357). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$790.

9705 1942/1 AU50 NGC. NGC Census: (74/425). PCGS Population (120/357). Mintage: 205,432,336. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$790.

9706 1942/1-D XF40 PCGS. PCGS Population (108/230). NGC Census: (73/250). Mintage: 60,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$610.
From The Western Reserve Collection.

9707 1942/1-D — Improperly Cleaned — NCS. XF Details. NGC Census: (75/252). PCGS Population (108/233). Mintage: 60,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$610.

9708 1942-D MS67 NGC and a 1945-D MS67 NGC. (Total: 2 coins)

9709 1942-S MS67 Full Bands PCGS. PCGS Population (143/3). NGC Census: (83/2). Mintage: 49,300,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$320.

9710 1943 MS67 Full Bands NGC. NGC Census: (170/1). PCGS Population (206/3). Mintage: 191,710,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$200.

9711 1943 MS67 Full Bands PCGS. PCGS Population (207/3). NGC Census: (170/1). Mintage: 191,710,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$200.

9712 1943 MS67 Full Bands NGC. CAC. NGC Census: (170/1). PCGS Population (207/3). Mintage: 191,710,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$200.

9713 1943 MS67 Full Bands NGC. CAC. NGC Census: (170/1). PCGS Population (207/3). Mintage: 191,710,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$200.

9714 1943-S MS67 ★ Full Bands NGC. NGC Census: (174/7). PCGS Population (180/15). Mintage: 60,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$240.

9715 1943-S MS67 ★ Full Bands NGC. NGC Census: (174/7). PCGS Population (181/15). Mintage: 60,400,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$240.

9716 1944-S MS67 Full Bands NGC. CAC. NGC Census: (235/7). PCGS Population (259/4). Mintage: 49,490,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$160.

9717 1945-S MS67+ PCGS. PCGS Population (336/1). NGC Census: (1026/362). Mintage: 41,920,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$53.

9718 1945-S MS68 NGC. NGC Census: (359/3). PCGS Population (1/0). Mintage: 41,920,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS68: \$260.

9719 1945-S MS68 NGC. NGC Census: (359/3). PCGS Population (1/0). Mintage: 41,920,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS68: \$260.

9720 1945-S MS68 NGC. NGC Census: (359/3). PCGS Population (1/0). Mintage: 41,920,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS68: \$260.

9721 1945-S Micro S MS67 PCGS. PCGS Population (176/1). NGC Census: (125/7). Mintage: 41,920,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$325.

9722 1945-S Micro S MS66 Full Bands NGC. NGC Census: (24/2). PCGS Population (94/18). Mintage: 41,920,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$975.

PROOF MERCURY DIMES

9723 1937 PR65 PCGS. PCGS Population (562/713). NGC Census: (295/617). Mintage: 5,756. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR65: \$430.
From The Western Reserve Collection.

9724 1937 PR66 PCGS. PCGS Population (495/214). NGC Census: (399/219). Mintage: 5,756. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$490.

9725 1937 PR66 NGC. NGC Census: (399/219). PCGS Population (495/214). Mintage: 5,756. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$465.

9726 1937 PR66 PCGS. Gold CAC. PCGS Population (495/214). NGC Census: (399/219). Mintage: 5,756. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR66: \$490.
From The SPQR Collection of CAC Gold Sticker Coins.

9727 1937 PR67 PCGS. PCGS Population (188/26). NGC Census: (183/36). Mintage: 5,756. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR67: \$745.

10063 1917 Type Two MS62 PCGS. PCGS Population (58/388). NGC Census: (68/282). Mintage: 13,880,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$155.

10064 1917 Type Two MS63 NGC. NGC Census: (71/211). PCGS Population (119/269). Mintage: 13,880,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$200.

10065 1917 Type Two MS63 PCGS. PCGS Population (119/269). NGC Census: (71/211). Mintage: 13,880,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$200.

10066 1917 Type Two MS63 Full Head PCGS. PCGS Population (215/581). NGC Census: (153/422). Mintage: 13,880,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$330.

10067 1917 Type Two MS65 Full Head PCGS. PCGS Population (187/71). NGC Census: (129/58). Mintage: 13,880,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$760.
From The Richard P. Ariagno, M.D. Collection.

10068 1917 Type Two MS65 Full Head PCGS. CAC. PCGS Population (187/71). NGC Census: (129/58). Mintage: 13,880,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$760.

10069 1917-D Type Two — Environmental Damage — PCGS Genuine. Unc Details. NGC Census: (2/308). PCGS Population (3/387). Mintage: 6,224,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$180.

10070 1917-D Type Two — Environmental Damage — PCGS Genuine. Unc Details. NGC Census: (2/308). PCGS Population (3/387). Mintage: 6,224,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$180.

10071 1917-D Type Two — Environmental Damage — PCGS Genuine. Unc Details. NGC Census: (2/308). PCGS Population (3/387). Mintage: 6,224,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$180.

10072 1917-D Type Two AU55 Full Head PCGS. PCGS Population (17/360). NGC Census: (6/253). Mintage: 6,224,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$245.

10073 1917-S Type Two AU50 NGC. NGC Census: (6/450). PCGS Population (25/592). Mintage: 5,552,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$125.

10074 1917-S Type Two AU55 NGC. NGC Census: (26/417). PCGS Population (62/512). Mintage: 5,552,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$170.
From The Hilltop Collection.

10075 1917-S Type Two — Obv Improperly Cleaned — NGC Details. Unc. NGC Census: (1/338). PCGS Population (5/411). Mintage: 5,552,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$200.

10076 1917-S Type Two MS63 NGC. NGC Census: (85/177). PCGS Population (120/225). Mintage: 5,552,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$300.

10077 1917-S Type Two MS62 Full Head NGC. NGC Census: (31/137). PCGS Population (39/227). Mintage: 5,552,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$510.

10078 1918 MS63 Full Head NGC. NGC Census: (57/193). PCGS Population (75/257). Mintage: 14,240,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$350.

10079 1918 MS64 Full Head PCGS. PCGS Population (138/119). NGC Census: (113/80). Mintage: 14,240,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$565.

10080 1918-D AU53 NGC. NGC Census: (13/338). PCGS Population (14/536). Mintage: 7,380,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$155.
From The Hilltop Collection.

10081 1918-D MS60 NGC. Gold CAC. NGC Census: (1/248). PCGS Population (3/371). Mintage: 7,380,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$215.
From The SPQR Collection of CAC Gold Sticker Coins.

10082 1918-D MS61 NGC. NGC Census: (12/237). PCGS Population (2/369). Mintage: 7,380,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$230.

10083 1918-D MS63 Full Head PCGS. PCGS Population (62/191). NGC Census: (38/102). Mintage: 7,380,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$850.

10084 1919 — Artificially Toned — NGC Details. Unc. NGC Census: (1/478). PCGS Population (7/636). Mintage: 11,324,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$175.

10085 1919-D — Improperly Cleaned — NGC Details. VF. NGC Census: (17/298). PCGS Population (20/512). Mintage: 1,944,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$300.

10086 1919-D — Improperly Cleaned — NGC Details. VF. NGC Census: (17/298). PCGS Population (20/512). Mintage: 1,944,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$300.
From The Hilltop Collection.

10087 1919-D VF35 PCGS. PCGS Population (22/432). NGC Census: (10/262). Mintage: 1,944,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$392.

10088 1919-D — Improperly Cleaned — NGC Details. XF. NGC Census: (22/240). PCGS Population (39/392). Mintage: 1,944,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$450.

10089 1919-S VF20 NGC. NGC Census: (16/321). PCGS Population (14/519). Mintage: 1,836,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$245.

10090 1919-S — Improperly Cleaned — NGC Details. VF. NGC Census: (16/320). PCGS Population (14/518). Mintage: 1,836,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$245.
From The Hilltop Collection.

10091 1919-S — Improperly Cleaned — NGC Details. XF. NGC Census: (24/253). PCGS Population (54/362). Mintage: 1,836,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$375.

10092 1919-S — Whizzed, Reverse Repaired — NGC Details. AU. NGC Census: (13/206). PCGS Population (32/276). Mintage: 1,836,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$460.

10093 1919-S AU55 NGC. NGC Census: (38/153). PCGS Population (50/205). Mintage: 1,836,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$650.

10094 1920 MS64 PCGS. PCGS Population (467/275). NGC Census: (355/261). Mintage: 27,860,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$280.

10095 1920 MS64 NGC. NGC Census: (356/261). PCGS Population (469/275). Mintage: 27,860,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$280.

10096 1920 MS64 PCGS. PCGS Population (469/275). NGC Census: (356/261). Mintage: 27,860,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$280.

10097 1920 MS66 NGC. NGC Census: (65/15). PCGS Population (54/6). Mintage: 27,860,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$735.

10098 1920 MS63 Full Head PCGS. PCGS Population (106/272). NGC Census: (51/173). Mintage: 27,860,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$360.

10099 1920-D AU58 NGC. NGC Census: (24/138). PCGS Population (52/227). Mintage: 3,586,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$275.

10100 1920-S MS60 NGC. NGC Census: (3/284). PCGS Population (3/345). Mintage: 6,380,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$225.

10101 1920-S MS63 NGC. NGC Census: (63/154). PCGS Population (90/186). Mintage: 6,380,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$700.

10102 1921 VG10 NGC. NGC Census: (31/635). PCGS Population (53/980). Mintage: 1,916,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG10: \$207.

10103 1921 Fine 15 PCGS. PCGS Population (46/900). NGC Census: (23/576). Mintage: 1,916,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 15: \$353.

10104 1921 VF30 PCGS. CAC. PCGS Population (57/754). NGC Census: (26/501). Mintage: 1,916,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF30: \$544.

10105 1921 — Improperly Cleaned — NGC Details. XF. NGC Census: (26/462). PCGS Population (50/650). Mintage: 1,916,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$640.

10106 1921 — Reverse Damage — NGC Details. XF. NGC Census: (26/462). PCGS Population (50/650). Mintage: 1,916,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$640.
From The Hilltop Collection.

10107 1921 — Rim Damage — NGC Details. AU. NGC Census: (10/417). PCGS Population (37/561). Mintage: 1,916,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$825.

10108 1921 — Cleaned — PCGS Genuine. AU Details. NGC Census: (10/417). PCGS Population (37/561). Mintage: 1,916,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$825.
From The Wes Rasmussen Collection.

10109 1923 MS64 ANACS. NGC Census: (317/507). PCGS Population (423/555). Mintage: 9,716,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$290.

10110 1923 MS65 PCGS. PCGS Population (320/235). NGC Census: (292/215). Mintage: 9,716,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$440.

10111 1923 MS65 PCGS. PCGS Population (320/235). NGC Census: (292/215). Mintage: 9,716,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$440.

10112 1923 MS66 NGC. NGC Census: (171/44). PCGS Population (220/15). Mintage: 9,716,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$580.

10113 1923-S — Environmental Damage — NGC Details. XF. NGC Census: (21/315). PCGS Population (52/619). Mintage: 1,360,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,125.

10114 1923-S — Improperly Cleaned — NGC Details. XF. NGC Census: (21/313). PCGS Population (52/616). Mintage: 1,360,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,125.

10115 1924-D — Improperly Cleaned — NGC Details. Unc. NGC Census: (0/1152). PCGS Population (1/1404). Mintage: 3,112,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$220.

10116 1924-D MS62 NGC. NGC Census: (34/1107). PCGS Population (54/1348). Mintage: 3,112,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$260.

10117 1924-D MS64 PCGS. PCGS Population (572/583). NGC Census: (305/712). Mintage: 3,112,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$360.

10118 1924-D MS66 NGC. NGC Census: (247/37). PCGS Population (89/6). Mintage: 3,112,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$620.

10119 1925 MS62 NGC. NGC Census: (67/362). PCGS Population (83/600). Mintage: 12,280,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$165.

10120 1925 MS64 PCGS. PCGS Population (273/153). NGC Census: (164/85). Mintage: 12,280,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$280.

10121 1925 MS66 NGC. NGC Census: (12/1). PCGS Population (23/1). Mintage: 12,280,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$725.

10122 1925 MS63 Full Head PCGS. PCGS Population (135/436). NGC Census: (80/309). Mintage: 12,280,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$315.

10123 1926 MS63 PCGS. Gold CAC. PCGS Population (242/499). NGC Census: (145/376). Mintage: 11,316,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$180.
From The SPQR Collection of CAC Gold Sticker Coins.

10124 1926 MS64 ANACS. NGC Census: (242/135). PCGS Population (315/185). Mintage: 11,316,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$280.

10125 1926-D MS64 NGC. NGC Census: (949/260). PCGS Population (1405/200). Mintage: 1,716,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$270.

10126 1926-D MS64 PCGS. PCGS Population (1401/201). NGC Census: (942/258). Mintage: 1,716,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$270.

10127 1926-D MS64 NGC. NGC Census: (946/259). PCGS Population (1403/199). Mintage: 1,716,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$270.

10128 1927 MS64 PCGS. PCGS Population (252/111). NGC Census: (194/105). Mintage: 11,912,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.

10129 1927-S VF20 ANACS. NGC Census: (44/490). PCGS Population (135/819). Mintage: 396,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$240.

10130 1927-S VF25 NGC. NGC Census: (55/435). PCGS Population (97/722). Mintage: 396,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF25: \$318.
From The Hilltop Collection.

10131 1927-S VF30 NGC. NGC Census: (54/381). PCGS Population (99/623). Mintage: 396,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF30: \$464.

10132 1928 MS64 PCGS. PCGS Population (196/95). NGC Census: (161/128). Mintage: 6,336,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$280.

10133 1928-D MS63 PCGS. Gold CAC. PCGS Population (319/1475). NGC Census: (135/1013). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$175.
From The SPQR Collection of CAC Gold Sticker Coins.

10134 1928-D MS64 PCGS. PCGS Population (835/640). NGC Census: (507/506). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.

10135 1928-D MS64 PCGS. PCGS Population (837/640). NGC Census: (508/506). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.

10136 1928-D MS64 PCGS. PCGS Population (837/640). NGC Census: (508/506). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.

10137 1928-D MS64 PCGS. Gold CAC. PCGS Population (835/640). NGC Census: (507/506). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$275.
From The SPQR Collection of CAC Gold Sticker Coins.

10138 1928-D MS65 NGC. NGC Census: (395/111). PCGS Population (563/77). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$380.

10139 1928-D MS65 PCGS. PCGS Population (563/77). NGC Census: (395/111). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$380.

10140 1928-D MS65 PCGS. PCGS Population (563/77). NGC Census: (395/111). Mintage: 1,627,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$380.

10141 1928-S MS66 NGC. NGC Census: (119/20). PCGS Population (143/5). Mintage: 2,644,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$615.

10142 1928-S MS61 Full Head ANACS. NGC Census: (4/400). PCGS Population (0/393). Mintage: 2,644,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$190.

10143 1928-S MS65 Full Head PCGS. PCGS Population (126/108). NGC Census: (114/167). Mintage: 2,644,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$725.
From The Richard P. Ariagno, M.D. Collection.

10144 1929 MS65 Full Head NGC. NGC Census: (137/65). PCGS Population (293/95). Mintage: 11,140,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$640.

10145 1929 MS66 Full Head NGC. NGC Census: (56/9). PCGS Population (90/5). Mintage: 11,140,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$1,150.

10146 1929-S MS66 NGC. NGC Census: (120/21). PCGS Population (105/9). Mintage: 1,764,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$580.

10147 1929-S MS65 Full Head NGC. NGC Census: (127/105). PCGS Population (162/123). Mintage: 1,764,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$700.

10148 1930 MS64 NGC. NGC Census: (175/116). PCGS Population (342/247). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$270.

10149 1930 MS64 Full Head PCGS. PCGS Population (896/967). NGC Census: (777/643). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$380.

10150 1930 MS64 Full Head PCGS. CAC. PCGS Population (896/967). NGC Census: (777/643). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$380.

10151 1930 MS65 Full Head PCGS. PCGS Population (668/304). NGC Census: (430/202). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$600.
From The Gensch Numismatic Trust Collection.

10152 1930 MS65 Full Head NGC. NGC Census: (436/206). PCGS Population (669/302). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$600.

10153 1930 MS65 Full Head PCGS. PCGS Population (665/302). NGC Census: (436/206). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$600.

10154 1930 MS66 Full Head PCGS. PCGS Population (271/31). NGC Census: (175/30). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$950.

10155 1930 MS66 Full Head NGC. NGC Census: (175/30). PCGS Population (271/31). Mintage: 5,632,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$950.

10156 1930-S MS62 NGC. NGC Census: (54/362). PCGS Population (88/758). Mintage: 1,556,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$155.

10157 1930-S MS63 PCGS. PCGS Population (180/578). NGC Census: (67/295). Mintage: 1,556,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$175.

WASHINGTON QUARTERS

10158 1932 MS66 PCGS. CAC. Ex: Poole Collection. PCGS Population (165/2). NGC Census: (88/2). Mintage: 5,404,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$665.
From The David Poole Collection of Silver Washington Quarters.

End of Session Seven

SESSION EIGHT

Heritage Live!®, Internet, Fax, and Mail Only Session

Sunday, January 13, 2013 | 10:00 AM CT | Dallas, Texas | Lots 10350 - 12625

A 17.5% Buyer's Premium (\$14 minimum) Will Be Added To All Lots

To view full descriptions, enlargeable images and bid online, visit HA.com/1181

SPECIAL INTERNET BIDDING FEATURE

Online proxy bidding ends at HA.com two hours prior to the opening of the live auction. Check the Time Remaining on individual lots for details. After Internet proxy bidding closes, live bidding will take place through HERITAGE Live®, our bidding software that lets you bid live during the actual auction. Your secret maximum will compete against those bids, and win all ties. To maximize your chances of winning, enter realistic secret maximum bids before live bidding begins. (Important note: Due to software and Internet latency, bids placed through Live Internet Bidding may not register in time and those bidders could lose lots they would otherwise have won, so be sure to place your proxy bids in advance.)

EARLY HALF DOLLARS

10350 1795 2 Leaves — Cleaning — PCGS Genuine. Good Details. NGC Census: (32/871). PCGS Population (44/1347). Mintage: 299,680. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 4: \$850.

10351 1795 2 Leaves — Obverse Scratched — NGC Details. Good. O-110. NGC Census: (32/871). PCGS Population (44/1346). Mintage: 299,680. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 4: \$850.

10352 1795 2 Leaves Good 6 NGC. O-117a. NGC Census: (30/841). PCGS Population (93/1249). Mintage: 299,680. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 6: \$1,008.

10353 1795 2 Leaves VG8 ANACS. NGC Census: (80/761). PCGS Population (148/1101). Mintage: 299,680. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$1,300.

10354 1795 2 Leaves — Cleaned, Obverse Damage — NGC Details. Fine. O-104. NGC Census: (124/540). PCGS Population (187/686). Mintage: 299,680. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$2,100.

10355 1795 Two Leaves — Cleaned — ANACS. AG3 Details. O-110A. NGC Census: (0/0). PCGS Population (0/57).

10356 1803 Large 3 — Scratches — NGC Details. VG. O-102a. NGC Census: (9/1045). PCGS Population (8/411). Mintage: 188,234. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$250.

10357 1803 Large 3 VG8 NGC. NGC Census: (9/1050). PCGS Population (8/412). Mintage: 188,234. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$250.

10358 1803 Large 3 — Cleaned — PCGS Genuine. XF Details. NGC Census: (44/842). PCGS Population (49/77). Mintage: 188,234. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,700.

10359 1803 Large 3 — Improperly Cleaned — NGC. XF. NGC Census: (44/843). PCGS Population (49/77). Mintage: 188,234. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,700.

10360 1803 Large 3, O-103, R.3 — Cleaned, Obverse Damage — NGC Details. Fine. O-103. NGC Census: (0/0). PCGS Population (0/9).

10361 1805 Fine 12 PCGS. PCGS Population (28/378). NGC Census: (13/938). Mintage: 211,722. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$385.

10362 1805 VF20 NGC. O-111. NGC Census: (13/896). PCGS Population (43/299). Mintage: 211,722. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$765.

10363 1805 VF30 PCGS. PCGS Population (52/199). NGC Census: (33/829). Mintage: 211,722. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF30: \$1,149.

10364 1806/5 Fine 12 NGC. NGC Census: (6/977). PCGS Population (13/178). Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$425.

10365 1806 Pointed 6, No Stem — Improperly Cleaned — NGC Details. Fine. O-109. NGC Census: (0/0). PCGS Population (16/298).

10366 1806 Pointed 6, No Stem — Obverse Scratched — NGC Details. XF. O-109. NGC Census: (0/0). PCGS Population (36/124).

10367 1806 Pointed 6, Stem — Improperly Cleaned — NGC Details. Fine. O-120a. NGC Census: (58/1686). PCGS Population (70/873). Mintage: 839,576. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$350.

10368 1806 Pointed 6, Stem — Damaged, Improperly Cleaned — NGC Details. VF. NGC Census: (75/1565). PCGS Population (87/710). Mintage: 839,576. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$585.

10369 1806 Pointed 6, Stem VF20 PCGS. PCGS Population (87/710). NGC Census: (75/1565). Mintage: 839,576. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$585.

10370 1806 Pointed 6, Stem — Improperly Cleaned — NGC Details. VF. O-115a. NGC Census: (75/1554). PCGS Population (86/710). Mintage: 839,576. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$585. *From The Hilltop Collection.*

10371 1806 Pointed 6, Stem — Polished — NCS. XF Details. O-118. NGC Census: (112/1205). PCGS Population (89/302). Mintage: 839,576. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,475.

10372 1807 Draped Bust Good 6 NGC. O-108. NGC Census: (14/1641). PCGS Population (23/1205). Mintage: 301,076. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 6: \$191.

10373 1807 Draped Bust Good 6 NGC. O-109A. NGC Census: (14/1632). PCGS Population (22/1202). Mintage: 301,076. Numismedia Wsl. Price for problem free NGC/PCGS coin in Good 6: \$191.

10374 1807 Draped Bust — Cleaned, Obverse Scratched — NGC Details. Fine. O-106. NGC Census: (68/1506). PCGS Population (71/1027). Mintage: 301,076. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$325.

BUST HALF DOLLARS

10375 1807 Capped Bust, Large Stars 50/20 VF35 NGC. O-112. NGC Census: (0/0). PCGS Population (2/37). Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$1,112.

10376 1808 Fine 12 PCGS. O-110a. PCGS Population (18/589). NGC Census: (16/432). Mintage: 1,368,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in Fine 12: \$100.

10377 1808 — Improperly Cleaned — NGC Details. VF. O-110a. NGC Census: (17/402). PCGS Population (30/520). Mintage: 1,368,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$210. (#6090)

10378 1808 AU50 NGC. NGC Census: (40/210). PCGS Population (48/212). Mintage: 1,368,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$725.

10379 1808 — Improperly Cleaned — NGC Details. AU. NGC Census: (40/210). PCGS Population (48/212). Mintage: 1,368,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$725.

10380 1809 Normal Edge — Rotated Dies, Improperly Cleaned — NGC Details. XF. NGC Census: (43/583). PCGS Population (63/352). Mintage: 1,405,810. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350.

10381 1809 Normal Edge AU53 PCGS. CAC. PCGS Population (44/173). NGC Census: (23/451). Mintage: 1,405,810. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$690.

10382 1809 Normal Edge AU55 ANACS. O-105. NGC Census: (46/405). PCGS Population (66/106). Mintage: 1,405,810. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$1,050.

10383 1809 III Edge — Improperly Cleaned — NGC Details. XF. O-107. NGC Census: (9/211). PCGS Population (16/74). Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$525.

10384 1809 III Edge XF45 PCGS. CAC. PCGS Population (19/55). NGC Census: (15/199). Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$656.

10385 1810 — Cleaned — PCGS Genuine. XF Details. NGC Census: (41/486). PCGS Population (98/380). Mintage: 1,276,276. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350.

10386 1810 XF45 PCGS. O-108a. PCGS Population (79/301). NGC Census: (72/414). Mintage: 1,276,276. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$420.

10387 1811 Large 8 — Improperly Cleaned — NGC Details. XF. NGC Census: (29/704). PCGS Population (26/288). Mintage: 1,203,644. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$275.

10388 1811 Small 8 VF30 PCGS. PCGS Population (32/360). NGC Census: (0/0).

10389 1811 Small 8 — Smoothed — PCGS Genuine. XF Details. NGC Census: (0/0). PCGS Population (42/283).

10390 1811 Small 8 AU50 PCGS. PCGS Population (34/198). NGC Census: (0/0).

10391 1812/1 Small 8 VF35 PCGS. O-102. PCGS Population (12/104). NGC Census: (5/79). Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$397.

10392 1812/1 Small 8 XF40 NGC. O-102. NGC Census: (9/69). PCGS Population (18/86). Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$475.

10393 1812 — Obverse Scratched — NGC Details. XF. NGC Census: (49/632). PCGS Population (111/613). Mintage: 1,628,059. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350.

10394 1812 — Improperly Cleaned — NGC Details. XF. O-104. NGC Census: (49/632). PCGS Population (111/613). Mintage: 1,628,059. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350.

10395 1812 — Cleaned — ANACS. XF40 Details. O-108. NGC Census: (49/635). PCGS Population (111/614). Mintage: 1,628,059. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$350.

10396 1812 AU53 PCGS. PCGS Population (70/369). NGC Census: (52/463). Mintage: 1,628,059. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$565.

10397 1813 VF30 PCGS. PCGS Population (49/498). NGC Census: (25/665). Mintage: 1,241,903. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF30: \$232.

10398 1813 XF45 NGC. NGC Census: (66/552). PCGS Population (76/317). Mintage: 1,241,903. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$409.

10399 1813 XF45 NGC. O-109. NGC Census: (66/553). PCGS Population (76/317). Mintage: 1,241,903. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$409.

10400 1814 VF30 NGC. NGC Census: (29/526). PCGS Population (35/469). Mintage: 1,039,075. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF30: \$252.

10401 1817 XF40 NGC. NGC Census: (31/317). PCGS Population (67/359). Mintage: 1,215,567. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$300.

10402 1817 AU50 NGC. NGC Census: (26/241). PCGS Population (60/222). Mintage: 1,215,567. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$450.

10403 1817 — Obverse Scratched — NGC Details. AU. NGC Census: (26/241). PCGS Population (60/222). Mintage: 1,215,567. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$450.

"Heritage Magazine for the Intelligent Collector is a big, beautiful publication with writing that is both entertaining and informative and photos that are glorious to behold."

— Tony Isabella, Comics Buyer's Guide

With each issue, *Heritage Magazine for the Intelligent Collector* gives readers priceless insights into the vintage collectibles and fine art that matter most to the world's most passionate collectors.

► INSIGHTFUL INTERVIEWS & FEATURES

Each issue includes exclusive interviews with world-class collectors who share their wisdom and knowledge about collecting.

► FULL-COLOR PHOTOGRAPHY

Eye-popping photography gives you a detailed look at the world's top collectibles and fine art. A Free Pull-Out Poster is included in each issue.

► COLUMNS BY TOP EXPERTS

Some of the top collecting experts tackle topics such as intelligent collecting, trusts and estates, and collecting with kids, and focus on specific categories such as coins, fine and rare wines, vintage jewelry and comics and comic art.

► AUCTION PREVIEWS & PRICES REALIZED

Get a sneak peek at upcoming blockbuster auctions, in addition to prices realized for some of the world's most sought-after treasures.

► COLLECTING CATEGORIES COVERED

SESSION NINE

Heritage Live!®, Internet, Fax, and Mail Only Session

Monday, January 14, 2013 | 10:00 AM CT | Dallas, Texas | Lots 12626 - 15011

A 17.5% Buyer's Premium (\$14 minimum) Will Be Added To All Lots

To view full descriptions, enlargeable images and bid online, visit HA.com/1181

SPECIAL INTERNET BIDDING FEATURE

Online proxy bidding ends at HA.com two hours prior to the opening of the live auction. Check the Time Remaining on individual lots for details. After Internet proxy bidding closes, live bidding will take place through HERITAGE Live®, our bidding software that lets you bid live during the actual auction. Your secret maximum will compete against those bids, and win all ties. To maximize your chances of winning, enter realistic secret maximum bids before live bidding begins. (Important note: Due to software and Internet latency, bids placed through Live Internet Bidding may not register in time and those bidders could lose lots they would otherwise have won, so be sure to place your proxy bids in advance.)

GOLD DOLLARS

- 12626 1849 Open Wreath XF45 ANACS.** NGC Census: (2/1495). PCGS Population (17/1112). Mintage: 687,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$194.
- 12627 1849 Open Wreath AU58 NGC.** NGC Census: (181/1242). PCGS Population (103/868). Mintage: 687,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$260.
- 12628 1849 Open Wreath MS62 PCGS.** PCGS Population (246/493). NGC Census: (388/553). Mintage: 687,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$715.
- 12629 1850 — Improperly Cleaned — NGC Details.** AU. NGC Census: (6/458). PCGS Population (14/313). Mintage: 481,953. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$200.
From The Hilltop Collection.
- 12630 1850 MS61 NGC.** NGC Census: (104/227). PCGS Population (28/158). Mintage: 481,953. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$700.
From The Flagg Family Collection.
- 12631 1850 MS63 NGC.** NGC Census: (69/52). PCGS Population (45/48). Mintage: 481,953. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$1,000.
From The Flagg Family Collection.
- 12632 1851 AU55 NGC.** NGC Census: (147/3828). PCGS Population (219/2083). Mintage: 3,317,671. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$210.
- 12633 1851 AU58 PCGS.** PCGS Population (354/1726). NGC Census: (514/3313). Mintage: 3,317,671. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$225.
- 12634 1851 MS61 NGC.** NGC Census: (834/2383). PCGS Population (245/1404). Mintage: 3,317,671. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$700.
From The Flagg Family Collection.
- 12635 1851-C — Surface Damage — PCGS Genuine.** AU Details. NGC Census: (10/328). PCGS Population (59/214). Mintage: 41,267. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,450.
- 12636 1851-O AU50 PCGS.** Gold CAC. PCGS Population (22/340). NGC Census: (12/746). Mintage: 290,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$215.
From The SPQR Collection of CAC Gold Sticker Coins.
- 12637 1851-O AU58 NGC.** NGC Census: (261/382). PCGS Population (58/183). Mintage: 290,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$315.
- 12638 1851-O AU58 NGC.** NGC Census: (261/384). PCGS Population (58/186). Mintage: 290,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$315.
- 12639 1852 MS61 NGC.** NGC Census: (806/2100). PCGS Population (196/1151). Mintage: 2,045,351. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$700.
From The Flagg Family Collection.
- 12640 1852 MS63 NGC.** NGC Census: (518/427). PCGS Population (387/263). Mintage: 2,045,351. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$1,000.
- 12641 1852-D — Obverse Scratched — NGC Details.** AU. NGC Census: (6/80). PCGS Population (12/46). Mintage: 6,360. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,975.
- 12642 1852-O XF40 PCGS.** Gold CAC. PCGS Population (11/172). NGC Census: (10/423). Mintage: 140,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$210.
From The SPQR Collection of CAC Gold Sticker Coins.
- 12643 1852-O AU58 PCGS.** PCGS Population (29/61). NGC Census: (148/151). Mintage: 140,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$500.
- 12644 1853 — Surface Tooled — PCGS Genuine.** Mintage: 4,076,051.
- 12645 1853 — Reverse Scratched — NGC Details.** AU. NGC Census: (13/9605). PCGS Population (104/5626). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$200.
- 12646 1853 — Improperly Cleaned — NGC Details.** AU. NGC Census: (13/9615). PCGS Population (104/5636). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$200.
- 12647 1853 AU58 PCGS.** PCGS Population (1230/3683). NGC Census: (1468/7937). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$225.
- 12648 1853 MS60 NGC.** NGC Census: (238/7704). PCGS Population (160/3524). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$365.
- 12649 1853 — Damaged — NGC Details.** Unc. NGC Census: (239/7719). PCGS Population (160/3525). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$365.
- 12650 1853 MS61 NGC.** NGC Census: (2259/5445). PCGS Population (504/3020). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$700.
From The Flagg Family Collection.

- 12651 1853 MS62 PCGS.** PCGS Population (1300/1718). NGC Census: (3127/2314). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$715.
- 12652 1853 MS62 PCGS.** PCGS Population (1299/1720). NGC Census: (3128/2315). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$715.
- 12653 1853 MS63 NGC.** NGC Census: (1244/1070). PCGS Population (968/750). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$1,000.
- 12654 1853 MS63 ANACS.** NGC Census: (1245/1070). PCGS Population (971/753). Mintage: 4,076,051. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$1,000.
- 12655 1853-O MS61 NGC.** NGC Census: (258/417). PCGS Population (51/205). Mintage: 290,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$710.
From The Flagg Family Collection.
- 12656 1853-O MS62 NGC.** NGC Census: (261/156). PCGS Population (112/93). Mintage: 290,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$1,000.
- 12657 1854 Type Two — Damaged — NGC Details. VF.** NGC Census: (0/5458). PCGS Population (1/3413). Mintage: 783,943. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$240.
- 12658 1854 Type Two — Improperly Cleaned — NGC Details. AU.** NGC Census: (206/5024). PCGS Population (369/2580). Mintage: 783,943. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$420.
- 12659 1854 Type Two AU50 NGC.** NGC Census: (207/5026). PCGS Population (369/2581). Mintage: 783,943. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$420.
- 12660 1854 Type Two AU55 NGC.** NGC Census: (930/3778). PCGS Population (575/1696). Mintage: 783,943. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$500.
- 12661 1854 Type Two AU58 PCGS.** PCGS Population (530/1171). NGC Census: (2210/1575). Mintage: 783,943. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$680.
From The Richard P. Ariagno, M.D. Collection.
- 12662 1854 Type Two AU58 NGC.** NGC Census: (2214/1577). PCGS Population (529/1172). Mintage: 783,943. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$680.
- 12663 1855 — Damaged — NGC Details. AU.** NGC Census: (209/4665). PCGS Population (372/2490). Mintage: 758,269. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$440.
- 12664 1855 — Damaged — NGC Details. AU.** NGC Census: (210/4666). PCGS Population (372/2492). Mintage: 758,269. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$440.
- 12665 1855 AU53 NGC.** NGC Census: (311/4347). PCGS Population (291/2197). Mintage: 758,269. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$450.
From The Hilltop Collection.
- 12666 1855 AU55 NGC.** NGC Census: (888/3459). PCGS Population (528/1669). Mintage: 758,269. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$520.
- 12667 1855-C — Mount Removed — NGC Details. VF.** NGC Census: (3/148). PCGS Population (4/118). Mintage: 9,803. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$1,875.
- 12668 1855-O VF35 NGC. Gold CAC.** NGC Census: (6/450). PCGS Population (6/298). Mintage: 55,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF35: \$786.
From The SPQR Collection of CAC Gold Sticker Coins.
- 12669 1855-O — Harshly Cleaned — NGC Details. AU.** NGC Census: (37/365). PCGS Population (55/182). Mintage: 55,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,550.
- 12670 1855-O — Mount Removed — NGC Details. AU.** NGC Census: (36/367). PCGS Population (55/182). Mintage: 55,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,550.
- 12671 1856 Slanted 5 AU55 ANACS.** NGC Census: (162/1682). PCGS Population (202/772). Mintage: 1,762,936. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$265.
- 12672 1856 Slanted 5 MS63 PCGS.** PCGS Population (169/91). NGC Census: (160/104). Mintage: 1,762,936. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$860.
- 12673 1856 Slanted 5 MS63 PCGS. Gold CAC.** PCGS Population (169/91). NGC Census: (160/104). Mintage: 1,762,936. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$660.
From The SPQR Collection of CAC Gold Sticker Coins.
- 12674 1857 AU55 NGC.** NGC Census: (72/979). PCGS Population (128/534). Mintage: 774,789. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$265.
- 12675 1857 MS61 NGC.** NGC Census: (281/407). PCGS Population (63/297). Mintage: 774,789. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$730.
From The Flagg Family Collection.
- 12676 1857 MS61 NGC.** NGC Census: (281/407). PCGS Population (63/297). Mintage: 774,789. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$730.
From The Flagg Family Collection.
- 12677 1857 MS63 PCGS.** PCGS Population (97/67). NGC Census: (83/49). Mintage: 774,789. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$660.
From The Gensch Numismatic Trust Collection.
- 12678 1857-C — Mount Removed — NGC Details. AU.** NGC Census: (12/90). PCGS Population (28/33). Mintage: 13,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$2,700.
From The Richmond Hill Collection.
- 12679 1858 MS63 PCGS. CAC.** PCGS Population (27/36). NGC Census: (18/16). Mintage: 117,995. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$975.
- 12680 1859 MS60 NGC.** NGC Census: (15/248). PCGS Population (11/185). Mintage: 168,244. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$360.
- 12681 1859 MS61 NGC.** NGC Census: (73/175). PCGS Population (30/155). Mintage: 168,244. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$730.
From The Flagg Family Collection.
- 12682 1859-S AU53 NGC.** NGC Census: (16/78). PCGS Population (5/29). Mintage: 15,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$1,075.
- 12683 1860 AU55 NGC.** NGC Census: (4/138). PCGS Population (9/111). Mintage: 36,668. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$265.
- 12684 1860-S — Improperly Cleaned — NCS. Unc Details.** NGC Census: (1/36). PCGS Population (0/27). Mintage: 13,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$2,200.
- 12685 1862 — Scratched — ANACS. AU Details, Net VF30.** NGC Census: (0/2762). PCGS Population (0/2285). Mintage: 1,361,390. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF30: \$209.

12686 1862 — Bent — NGC Details. AU. NGC Census: (2/2753). PCGS Population (38/2230). Mintage: 1,361,390. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$225.
From The Hilltop Collection.

12687 1862 AU58 NGC. NGC Census: (247/2461). PCGS Population (326/1720). Mintage: 1,361,390. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$300.

12688 1862 MS63 NGC. NGC Census: (431/483). PCGS Population (497/388). Mintage: 1,361,390. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$860.

12689 1865 — Improperly Cleaned — NGC Details. Unc. NGC Census: (1/31). PCGS Population (2/35). Mintage: 3,725. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$1,525.
From The Richmond Hill Collection.

12690 1866 AU50 PCGS. Gold CAC. PCGS Population (3/77). NGC Census: (1/64). Mintage: 7,130. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$550.
From The SPQR Collection of CAC Gold Sticker Coins.

12691 1867 — Damaged — PCGS Genuine. AU Details. NGC Census: (1/58). PCGS Population (2/59). Mintage: 5,250. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$550.
From The Richmond Hill Collection.

12692 1869 MS61 NGC. NGC Census: (18/46). PCGS Population (6/55). Mintage: 5,925. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$950.

12693 1871 MS61 NGC. NGC Census: (22/65). PCGS Population (5/83). Mintage: 3,930. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$765.
From The Flagg Family Collection.

12694 1872 MS61 PCGS. PCGS Population (4/48). NGC Census: (8/25). Mintage: 3,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$1,050.

12695 1873 Open 3 MS61 NGC. NGC Census: (399/1341). PCGS Population (210/1143). Mintage: 123,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$540.

12696 1873 Closed 3 AU58 PCGS. CAC. PCGS Population (12/47). NGC Census: (21/69). Mintage: 1,825. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$950.

12697 1874 AU58 PCGS. Gold CAC. PCGS Population (264/2726). NGC Census: (186/3355). Mintage: 198,820. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$280.
From The SPQR Collection of CAC Gold Sticker Coins.

12698 1874 — Obverse Damaged — NGC Details. Unc. NGC Census: (67/3289). PCGS Population (108/2620). Mintage: 198,820. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$360.

12699 1876 AU50 PCGS. Gold CAC. PCGS Population (3/131). NGC Census: (0/107). Mintage: 3,245. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$350.
From The SPQR Collection of CAC Gold Sticker Coins.

12700 1878 — Improperly Cleaned — NGC Details. Unc. NGC Census: (4/102). PCGS Population (4/111). Mintage: 3,020. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$575.
From The Richmond Hill Collection.

12701 1879 MS63 NGC. NGC Census: (16/100). PCGS Population (26/165). Mintage: 3,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$660.

12702 1880 MS62 Prooflike NGC. NGC Census: (5/29). PCGS Population (0/0). Mintage: 1,636.
From The Richmond Hill Collection.

12703 1882 MS64 NGC. CAC. NGC Census: (33/90). PCGS Population (48/93). Mintage: 5,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$915.

12704 1885 — Bent — NGC Details. Unc. NGC Census: (2/362). PCGS Population (8/359). Mintage: 11,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$360.

12705 1885 MS62 ANACS. NGC Census: (59/281). PCGS Population (70/267). Mintage: 11,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$740.

12706 1886 — Improperly Cleaned — NGC Details. Unc. NGC Census: (6/237). PCGS Population (6/325). Mintage: 5,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$340.
From The Richmond Hill Collection.

12707 1886 MS62 PCGS. PCGS Population (68/238). NGC Census: (65/152). Mintage: 5,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$740.

12708 1886 MS64 NGC. NGC Census: (57/51). PCGS Population (81/61). Mintage: 5,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$915.
From The Flagg Family Collection.

12709 1887 MS63 NGC. NGC Census: (65/252). PCGS Population (124/295). Mintage: 7,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$860.

12710 1887 MS64 NGC. NGC Census: (105/147). PCGS Population (130/165). Mintage: 7,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$915.

12711 1888 — Obverse Scratched — NGC Details. Unc. NGC Census: (6/668). PCGS Population (6/862). Mintage: 15,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$340.
From The Richmond Hill Collection.

12712 1889 MS60 PCGS. Gold CAC. PCGS Population (20/2246). NGC Census: (9/1766). Mintage: 29,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$360.
From The SPQR Collection of CAC Gold Sticker Coins.

12713 1889 MS61 NGC. NGC Census: (69/1703). PCGS Population (74/2172). Mintage: 29,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$730.

12714 1889 MS62 NGC. NGC Census: (220/1477). PCGS Population (227/1945). Mintage: 29,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$570.
From The Richmond Hill Collection.

CLASSIC QUARTER EAGLES

12715 1835 XF45 NGC. NGC Census: (27/233). PCGS Population (30/113). Mintage: 131,402. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$789.

12716 1836 Block 8 XF45 NGC. NGC Census: (0/0). PCGS Population (56/121).

12717 1836 Block 8 — Tooled — PCGS Genuine. AU Details. NGC Census: (0/0). PCGS Population (19/102).

12718 1836 Block 8 — Improperly Cleaned — NGC Details. AU. NGC Census: (0/0). PCGS Population (19/102). *From The Hilltop Collection.*

12719 1838 — Damaged, Improperly Cleaned — NCS. AU Details. NGC Census: (18/181). PCGS Population (19/80). Mintage: 47,030. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,125.

12720 1839-O — Polished, Reverse Scratched — NGC Details. AU. NGC Census: (27/205). PCGS Population (31/80). Mintage: 17,781. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$2,825.

LIBERTY QUARTER EAGLES

12721 1840-O VF20 NGC. NGC Census: (1/109). PCGS Population (0/76). Mintage: 33,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$450.

12722 1840-O XF45 NGC. NGC Census: (13/82). PCGS Population (11/40). Mintage: 33,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$1,153.

12723 1842-O — Improperly Cleaned — NGC Details. AU. NGC Census: (13/61). PCGS Population (6/32). Mintage: 19,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$2,100.

12724 1843 XF40 ANACS. NGC Census: (1/170). PCGS Population (5/64). Mintage: 100,546. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$340.

12725 1843 AU55 NGC. NGC Census: (43/73). PCGS Population (13/19). Mintage: 100,546. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$645.

12726 1843-D Small D — Improperly Cleaned — NGC Details. XF. NGC Census: (22/205). PCGS Population (39/148). Mintage: 36,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$1,400.

12727 1843-O Small Date, Crosslet 4 — Improperly Cleaned — NGC Details. AU. NGC Census: (59/454). PCGS Population (39/112). Mintage: 288,002. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$350.

12728 1843-O Small Date, Crosslet 4 AU55 NGC. NGC Census: (137/245). PCGS Population (31/61). Mintage: 288,002. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$450.

12729 1843-O Small Date, Crosslet 4 AU55 NGC. NGC Census: (137/245). PCGS Population (31/60). Mintage: 288,002. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$450.

12904 1929 AU58 PCGS. Gold CAC. PCGS Population (790/11466). NGC Census: (403/18211). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$320. *From The SPQR Collection of CAC Gold Sticker Coins.*

12905 1929 — Improperly Cleaned — NGC Details. Unc. NGC Census: (215/17996). PCGS Population (411/11055). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$330.

12906 1929 — Obverse Improperly Cleaned — NGC Details. Unc. NGC Census: (215/18041). PCGS Population (411/11081). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$330.
From The Richard P. Ariagno, M.D. Collection.

12907 1929 MS60 NGC. Gold CAC. NGC Census: (215/17974). PCGS Population (411/11051). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$320.
From The SPQR Collection of CAC Gold Sticker Coins.

12908 1929 MS61 PCGS. PCGS Population (1681/9370). NGC Census: (2399/15575). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$375.
From The Flagg Family Collection.

12909 1929 MS61 NGC. NGC Census: (2409/15621). PCGS Population (1682/9397). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$375.
From The J.D. Tanner Collection.

12910 1929 MS62 NGC. NGC Census: (7168/8446). PCGS Population (4114/5266). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$410.

12911 1929 MS62 NGC. NGC Census: (7168/8446). PCGS Population (4114/5266). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$410.

12912 1929 MS63 NGC. NGC Census: (5537/2909). PCGS Population (3644/1622). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$625.

12913 1929 MS63 NGC. NGC Census: (5530/2907). PCGS Population (3640/1620). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$625.

12914 1929 MS63 NGC. NGC Census: (5530/2907). PCGS Population (3640/1620). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$625.

12915 1929 MS64+ PCGS. PCGS Population (1504/120). NGC Census: (2691/222). Mintage: 532,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$1,100.

THREE DOLLAR GOLD PIECES

12916 1854 — Plugged, Polished, Repaired — ANACS. VG8 Details. NGC Census: (3/3651). PCGS Population (3/2870). Mintage: 138,618. Numismedia Wsl. Price for problem free NGC/PCGS coin in VG8: \$425.
From The Ives Devos Collection.

12917 1854 — Improperly Cleaned — NGC Details. AU. NGC Census: (183/3112). PCGS Population (331/2114). Mintage: 138,618. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,100.

12918 1854 — Improperly Cleaned — NGC Details. AU. NGC Census: (183/3113). PCGS Population (331/2117). Mintage: 138,618. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,100.

12919 1856 — Improperly Cleaned — NGC Details. XF. NGC Census: (17/659). PCGS Population (15/488). Mintage: 26,010. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$975.

12920 1856-S VF25 NGC. NGC Census: (14/464). PCGS Population (23/346). Mintage: 34,500. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF25: \$920.

12921 1857 XF45 PCGS. PCGS Population (57/257). NGC Census: (32/513). Mintage: 20,891. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$1,020.

12922 1857 AU53 NGC. NGC Census: (77/401). PCGS Population (55/156). Mintage: 20,891. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$1,225.
From The Ives Devos Collection.

12923 1859 AU50 NGC. NGC Census: (33/431). PCGS Population (53/283). Mintage: 15,558. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,400.

12924 1863 — Plugged, Whizzed — NGC Details. AU. NGC Census: (8/177). PCGS Population (15/107). Mintage: 5,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$2,250.

12925 1874 — Mount Removed, Whizzed — ANACS. VF30 Details. NGC Census: (11/2548). PCGS Population (11/2097). Mintage: 41,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF30: \$798.

12926 1874 XF45 PCGS. PCGS Population (143/1888). NGC Census: (89/2411). Mintage: 41,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$970.

12927 1874 AU53 NGC. NGC Census: (169/2141). PCGS Population (195/1516). Mintage: 41,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$1,150.
From The Hilltop Collection.

12928 1878 — Improperly Cleaned — NGC Details. AU. NGC Census: (64/4852). PCGS Population (204/5080). Mintage: 82,304. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,100.

12929 1878 — Damaged — NCS. AU Details. NGC Census: (64/4852). PCGS Population (204/5080). Mintage: 82,304. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,100.

12930 1878 — Harshly Cleaned — NGC Details. AU. NGC Census: (64/4855). PCGS Population (204/5089). Mintage: 82,304. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,100.

12931 1878 AU55 NGC. NGC Census: (422/4275). PCGS Population (561/4331). Mintage: 82,304. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$1,200.

12932 1878 — Improperly Cleaned — NGC Details. Unc. NGC Census: (118/2811). PCGS Population (114/3288). Mintage: 82,304. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$2,000.

12933 1889 — Mount Removed — NGC Details. AU. NGC Census: (3/287). PCGS Population (16/347). Mintage: 2,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,425.

CLASSIC HALF EAGLES

12934 1834 Plain 4 — Improperly Cleaned — NGC Details. XF. NGC Census: (147/1648). PCGS Population (163/867). Mintage: 657,460. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$670.
From The Hilltop Collection.

12935 1834 Plain 4, Script 8 — Obverse Damage — NGC Details. XF. NGC Census: (148/1648). PCGS Population (163/867). Mintage: 657,460. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$670.

12936 1834 Plain 4 — Improperly Cleaned — NGC Details. AU. NGC Census: (136/1244). PCGS Population (150/477). Mintage: 657,460. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,025.

12937 1834 Plain 4 AU55 NGC. NGC Census: (362/686). PCGS Population (138/236). Mintage: 657,460. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$1,250.
From The Flagg Family Collection.

12938 1834 Plain 4 AU55 NGC. NGC Census: (363/686). PCGS Population (139/236). Mintage: 657,460. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$1,250.

12939 1835 — Improperly Cleaned — NGC Details. VG. NGC Census: (3/620). PCGS Population (0/431). Mintage: 371,534. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$535.

12940 1836 — Reverse Improperly Cleaned — NGC Details. AU. NGC Census: (85/650). PCGS Population (84/283). Mintage: 553,147. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,075.

LIBERTY HALF EAGLES

12941 1840-O Narrow Mill — Cleaning — PCGS Genuine. AU Details. NGC Census: (16/84). PCGS Population (13/30). Mintage: 40,120. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,400.

12942 1840-O Narrow Mill — Improperly Cleaned — NGC Details. AU. NGC Census: (16/84). PCGS Population (13/30). Mintage: 40,120. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,400.

12943 1843 — Improperly Cleaned — NGC Details. AU. NGC Census: (38/329). PCGS Population (35/112). Mintage: 611,205. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$480.
From The Richmond Hill Collection.

12944 1843 AU58 NGC. NGC Census: (130/68). PCGS Population (24/23). Mintage: 611,205. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$625.

12945 1843-O Large Letters XF45 PCGS. PCGS Population (13/34). NGC Census: (32/95). Mintage: 101,075. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$1,146.

12946 1843-O Large Letters — Improperly Cleaned — NGC Details. AU. NGC Census: (18/77). PCGS Population (13/21). Mintage: 101,075. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$1,650.

12947 1844 — Improperly Cleaned — NGC Details. AU. NGC Census: (23/199). PCGS Population (23/88). Mintage: 340,330. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$510.
From The Hilltop Collection.

12948 1844-D — Improperly Cleaned — NGC Details. VF. NGC Census: (1/193). PCGS Population (10/196). Mintage: 88,900. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$950.

12949 1844-O — Rim Damage — NGC Details. XF. NGC Census: (38/504). PCGS Population (37/217). Mintage: 364,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$525.

12950 1844-O AU55 NGC. NGC Census: (103/179). PCGS Population (32/53). Mintage: 364,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$850.

12951 1844-O AU55 NGC. NGC Census: (105/180). PCGS Population (32/53). Mintage: 364,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$850.

12952 1846 Large Date XF40 PCGS. PCGS Population (16/138). NGC Census: (12/303). Mintage: 395,942. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$500.

12953 1846 Large Date — Obverse Scratched — NGC Details. AU. NGC Census: (29/243). PCGS Population (32/68). Mintage: 395,942. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$510.

12954 1847 XF45 NGC. NGC Census: (55/569). PCGS Population (65/365). Mintage: 915,981. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF45: \$504.

12998 1886 MS62 PCGS. PCGS Population (75/60). NGC Census: (111/65). Mintage: 388,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.
From The Flagg Family Collection.

12999 1886 MS62 PCGS. PCGS Population (75/60). NGC Census: (111/65). Mintage: 388,300. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.
From The Flagg Family Collection.

13000 1886-S Repunched Date AU50 ANACS. NGC Census: (14/7201). PCGS Population (39/3879). Mintage: 3,268,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$470.

13001 1886-S MS60 PCGS. Gold CAC. PCGS Population (269/3118). NGC Census: (298/6435). Mintage: 3,268,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$505.
From The SPQR Collection of CAC Gold Sticker Coins.

13002 1886-S MS62 NGC. NGC Census: (2914/1459). PCGS Population (1406/1018). Mintage: 3,268,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13003 1886-S MS62 NGC. NGC Census: (2912/1459). PCGS Population (1406/1018). Mintage: 3,268,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13004 1886-S MS64 NGC. NGC Census: (337/48). PCGS Population (227/13). Mintage: 3,268,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$1,225.
From The Flag Family Collection.

13005 1887-S MS63 PCGS. PCGS Population (271/54). NGC Census: (365/64). Mintage: 1,912,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$800.
From The Flag Family Collection.

13006 1891-CC — Improperly Cleaned — NGC Details. AU. NGC Census: (58/1668). PCGS Population (94/1200). Mintage: 208,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$700.

13007 1891-CC — Improperly Cleaned — NGC Details. AU. NGC Census: (58/1668). PCGS Population (94/1202). Mintage: 208,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU50: \$700.

13008 1892 MS61 NGC. NGC Census: (592/1007). PCGS Population (152/471). Mintage: 753,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$550.
From The Flag Family Collection.

13009 1892-CC AU55 PCGS. CAC. PCGS Population (78/130). NGC Census: (115/321). Mintage: 82,968. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$850.

13010 1892-S MS62 PCGS. PCGS Population (62/32). NGC Census: (61/9). Mintage: 298,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$650.
From The Flag Family Collection.

13011 1893 MS62 PCGS. PCGS Population (1144/958). NGC Census: (2561/2099). Mintage: 1,528,197. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13012 1893 MS64+ NGC. CAC. NGC Census: (414/68). PCGS Population (193/30). Mintage: 1,528,197. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$1,300.

13013 1893-O MS61 NGC. NGC Census: (82/78). PCGS Population (35/57). Mintage: 110,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS61: \$1,025.
From The Flag Family Collection.

13014 1893-S MS62 NGC. NGC Census: (346/157). PCGS Population (174/128). Mintage: 224,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.
From The Flag Family Collection.

13015 1894 MS62 NGC. NGC Census: (1154/758). PCGS Population (434/287). Mintage: 957,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13016 1894-O AU53 NGC. Gold CAC. NGC Census: (13/256). PCGS Population (16/111). Mintage: 16,600. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU53: \$425.
From The SPQR Collection of CAC Gold Sticker Coins.

13017 1894-S AU58 NGC. NGC Census: (46/25). PCGS Population (11/13). Mintage: 55,900. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$675.
From The Flag Family Collection.

13018 1895-S AU58 NGC. NGC Census: (97/24). PCGS Population (20/15). Mintage: 112,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$700.
From The Flag Family Collection.

13019 1897 AU55 PCGS. Gold CAC. PCGS Population (81/1577). NGC Census: (46/3687). Mintage: 867,883. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$480.
From The SPQR Collection of CAC Gold Sticker Coins.

13020 1899 — Reverse Improperly Cleaned — NGC Details. Unc. NGC Census: (218/11352). PCGS Population (249/4865). Mintage: 1,710,729. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$505.

13021 1899 — Scratched — PCGS Genuine. Unc Details. NGC Census: (218/11352). PCGS Population (249/4865). Mintage: 1,710,729. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$505.

13022 1899 MS62 NGC. NGC Census: (3743/5886). PCGS Population (1898/2211). Mintage: 1,710,729. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13023 1899 MS63 NGC. Gold CAC. NGC Census: (3261/2603). PCGS Population (1461/745). Mintage: 1,710,729. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$580.
From The SPQR Collection of CAC Gold Sticker Coins.

13024 1900 MS62 PCGS. PCGS Population (3076/3307). NGC Census: (5667/5224). Mintage: 1,405,730. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13025 1900 MS62 PCGS. PCGS Population (3076/3307). NGC Census: (5667/5224). Mintage: 1,405,730. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13026 1900 MS62 NGC. NGC Census: (5658/5215). PCGS Population (3076/3304). Mintage: 1,405,730. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13027 1900 MS62 NGC. NGC Census: (5663/5220). PCGS Population (3075/3304). Mintage: 1,405,730. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.
From The Flag Family Collection.

13028 1900 MS63 NGC. NGC Census: (3413/1811). PCGS Population (2346/961). Mintage: 1,405,730. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$615.

13029 1900 MS64 PCGS. PCGS Population (867/95). NGC Census: (1579/227). Mintage: 1,405,730. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$990.

13030 1901 MS62 NGC. NGC Census: (1703/1524). PCGS Population (998/1067). Mintage: 615,900. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13031 1901 MS62 NGC. NGC Census: (1695/1522). PCGS Population (994/1064). Mintage: 615,900. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$535.
From The Richmond Hill Collection.

13032 1901 MS63 NGC. Gold CAC. NGC Census: (878/644). PCGS Population (661/403). Mintage: 615,900. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$580.
From The SPQR Collection of CAC Gold Sticker Coins.

13033 1901-S MS62 NGC. NGC Census: (1960/2887). PCGS Population (1411/2592). Mintage: 3,648,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13034 1901-S MS62 NGC. NGC Census: (1956/2884). PCGS Population (1411/2585). Mintage: 3,648,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$530.

13035 1901-S MS63 PCGS. Gold CAC. PCGS Population (1368/1217). NGC Census: (1285/1599). Mintage: 3,648,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$615.
From The SPQR Collection of CAC Gold Sticker Coins.

- 13639 1936-D Boone MS66 PCGS.** PCGS Population (252/22). NGC Census: (203/9). Mintage: 5,005. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$245.
- 13640 1936-D Boone MS66 PCGS.** PCGS Population (250/22). NGC Census: (203/9). Mintage: 5,005. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$245.
From The Richard P. Ariagno, M.D. Collection.
- 13641 1936-D Boone MS67 NGC. CAC.** NGC Census: (9/0). PCGS Population (22/0). Mintage: 5,005. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$1,525.
- 13642 1936-S Boone MS63 PCGS. Gold CAC.** NGC Census: (31/822). PCGS Population (125/1077). Mintage: 5,006. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$115.
From The SPQR Collection of CAC Gold Sticker Coins.
- 13643 1936-S Boone MS66 PCGS.** PCGS Population (229/55). NGC Census: (237/33). Mintage: 5,006. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$320.
From The Richard P. Ariagno, M.D. Collection.
- 13644 1936-S Boone MS67 NGC.** NGC Census: (32/1). PCGS Population (53/2). Mintage: 5,006. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$900.
- 13645 1936-S Boone MS67 NGC.** NGC Census: (32/1). PCGS Population (53/2). Mintage: 5,006. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$900.
- 13646 1937 Boone MS66 PCGS.** PCGS Population (383/77). NGC Census: (260/54). Mintage: 9,810. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$280.
From The Richard P. Ariagno, M.D. Collection.
- 13647 1937 Boone MS66 PCGS. Gold CAC.** PCGS Population (383/77). NGC Census: (259/54). Mintage: 9,810. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$280.
From The SPQR Collection of CAC Gold Sticker Coins.
- 13648 1937 Boone MS67 PCGS.** PCGS Population (74/3). NGC Census: (54/0). Mintage: 9,810. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$835.
From The Big E Collection.
- 13649 1937-D Boone MS66 PCGS.** PCGS Population (147/45). NGC Census: (112/26). Mintage: 2,506. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$400.
From The Richard P. Ariagno, M.D. Collection.
- 13650 1937-S Boone MS66 PCGS.** PCGS Population (126/36). NGC Census: (156/32). Mintage: 2,506. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$510.
From The Richard P. Ariagno, M.D. Collection.
- 13651 1938 Boone MS66 NGC.** NGC Census: (85/5). PCGS Population (135/22). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$625.
- 13652 1938 Boone MS66 PCGS.** PCGS Population (135/22). NGC Census: (85/5). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$625.
- 13653 1938 Boone MS66 PCGS. CAC.** PCGS Population (135/22). NGC Census: (85/5). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$625.
From The Big E Collection.
- 13654 1938 Boone MS66+ PCGS. CAC.** PCGS Population (133/22). NGC Census: (85/5). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$625.
- 13655 1938-D Boone MS65 PCGS.** PCGS Population (267/218). NGC Census: (174/163). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$370.
- 13656 1938-D Boone MS66 PCGS.** PCGS Population (164/53). NGC Census: (131/32). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$530.
- 13657 1938-D Boone MS66 PCGS.** PCGS Population (165/53). NGC Census: (131/32). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$530.
From The Big E Collection.
- 13658 1938-D Boone MS66 PCGS.** PCGS Population (164/53). NGC Census: (131/32). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$530.
From The Richard P. Ariagno, M.D. Collection.
- 13659 1938-S Boone MS65 PCGS.** PCGS Population (208/163). NGC Census: (158/139). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$480.
- 13660 1938-S Boone MS66 PCGS.** PCGS Population (130/33). NGC Census: (107/32). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$700.
From The Big E Collection.
- 13661 1938-S Boone MS66 PCGS.** PCGS Population (129/32). NGC Census: (107/32). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$700.
From The Richard P. Ariagno, M.D. Collection.
- 13662 1938-S Boone MS66 NGC.** NGC Census: (107/32). PCGS Population (130/33). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$700.
- 13663 1938-S Boone MS67 NGC.** NGC Census: (31/1). PCGS Population (31/2). Mintage: 2,100. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS67: \$1,375.
- 13664 1936 Bridgeport MS63 PCGS. Gold CAC.** PCGS Population (554/4130). NGC Census: (209/2633). Mintage: 25,015. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$135.
From The SPQR Collection of CAC Gold Sticker Coins.
- 13665 1936 Bridgeport MS65 PCGS. CAC.** PCGS Population (1602/713). NGC Census: (1185/388). Mintage: 25,015. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS65: \$190.
- 13666 1936 Bridgeport MS66 NGC.** NGC Census: (363/25). PCGS Population (655/59). Mintage: 25,015. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$380.
- 13667 1936 Bridgeport MS66 NGC.** NGC Census: (363/25). PCGS Population (655/60). Mintage: 25,015. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$380.
- 13668 1936 Bridgeport MS66 PCGS.** PCGS Population (654/59). NGC Census: (363/25). Mintage: 25,015. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS66: \$380.
From The Big E Collection.

14996 1921 Uncertified GSA Morgan Dollar and a 1921 Uncertified GSA Peace Dollar. Mintage: 44,690,000. (Total: 2 coins)

REDFIELD DOLLARS

14997 1878 7/8TF Strong MS65 Paramount (MS63 NGC). NGC Census: (1498/1099). PCGS Population (2394/1649). Mintage: 544,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$240.

14998 1878 7/8TF Weak MS60 Paramount (MS61 NGC). NGC Census: (0/0). PCGS Population (73/2573). Mintage: 544,000.

14999 1882-S MS63 NGC. NGC Census: (10936/53285). PCGS Population (16357/50123). Mintage: 9,250,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$54.

15000 1889-S MS63 NGC. NGC Census: (1390/1550). PCGS Population (2461/2721). Mintage: 700,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$300.

15001 1891-CC MS62 NGC. Top 100, VAM-3. NGC Census: (1910/4086). PCGS Population (2828/8194). Mintage: 1,618,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$450.

15002 1898-S MS62 NGC. NGC Census: (354/1280). PCGS Population (522/2686). Mintage: 4,102,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$275.

15003 1899-O MS60 Paramount (MS63 NGC). NGC Census: (13734/31104). PCGS Population (15965/29134). Mintage: 12,290,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$57.

15004 1926-S MS65 Paramount (MS64 NGC). NGC Census: (1753/427). PCGS Population (2013/652). Mintage: 6,980,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$195.

NUGGETS

15005 1857 S.S. Central America, California Gold Rush Pinch PCGS. 1.5 grams.

15006 1857 S.S. Central America, California Gold Rush Pinch PCGS. 1.5 grams.

15007 1857 S.S. Central America, California Gold Rush Pinch PCGS. 1.5 grams.

15008 1857 S.S. Central America, California Gold Rush Pinch PCGS. 1.5 grams.

15009 1857 S.S. Central America, California Gold Rush Pinch PCGS. 1.5 grams.

MINT SETS

15010 1959 Sealed Mint Set Uncertified.

15011 1948 Double Mint Set in Original Holders and Envelope. Complete at 28 pieces, moderate to heavy patina. (Total: 28 coins)

End of Auction

Terms and Conditions of Auction

Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., or Heritage Auctions, Inc., or Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., or Currency Auctions of America, Inc., as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
- Seventeen and one-half percent (17.5%) on Currency, US Coin, and World & Ancient Coin Auction lots, except for Gallery Auction lots as noted below;
- Nineteen and one-half percent (19.5%) on Americana & Political, Arms & Armor, Civil War & Militaria, Comic, Manuscript, Movie Poster, Space Exploration, Sports Collectibles, Texana, Wine, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
- For lots in all other categories not listed above, twenty-five percent (25%) on the first \$50,000 (minimum \$14), twenty percent (20%) of any amount between \$50,000 and \$1,000,000, and twelve percent (12%) of any amount over \$1,000,000.

Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

Bidding Options:

8. Bids in Signature, Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-443-8425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments for Signature auctions; Internet-only auction bidding increments are approximately half of these amounts (see HA.com/c/ref/web-tips.xz#guidelines-increments).

Current Bid.....	Bid Increment
<\$10.....	\$1
\$10 - \$29.....	\$2
\$30 - \$49.....	\$3
\$50 - \$99.....	\$5
\$100 - \$199.....	\$10
\$200 - \$299.....	\$20
\$300 - \$499.....	\$25
\$500 - \$999.....	\$50
\$1,000 - \$1,999.....	\$100
\$2,000 - \$2,999.....	\$200
\$3,000 - \$4,999.....	\$250
\$5,000 - \$9,999.....	\$500
\$10,000 - \$19,999.....	\$1,000

Current Bid.....	Bid Increment
\$20,000 - \$29,999.....	\$2,000
\$30,000 - \$49,999.....	\$2,500
\$50,000 - \$99,999.....	\$5,000
\$100,000 - \$199,999.....	\$10,000
\$200,000 - \$299,999.....	\$20,000
\$300,000 - \$499,999.....	\$25,000
\$500,000 - \$999,999.....	\$50,000
\$1,000,000 - \$1,999,999.....	\$100,000
\$2,000,000 - \$2,999,999.....	\$200,000
\$3,000,000 - \$4,999,999.....	\$250,000
\$5,000,000 - \$9,999,999.....	\$500,000
>\$10,000,000.....	\$1,000,000

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.
14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 1-800-872-6467.
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. (Note: Coins are only subject to sales tax in California on invoices under \$1500 and in Texas on invoices under \$1000. Check the Web site at: <http://coins.ha.com/c/ref/sales-tax.xz> for more details.) Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction.

Terms and Conditions of Auction

29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

Delivery; Shipping; and Handling Charges:

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website www.HA.com/common/shipping.php for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.
35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
- 36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Ron Brackemyre at 800- 872-6467 ext. 1312.
- 36B. Auctioneer shall not be liable for any loss caused by or resulting from:
- a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
 - b. Breakeage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

Cataloging, Warranties and Disclaimers:

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions. .
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

Release:

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or inconsequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

Dispute Resolution and Arbitration Provision:

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.
46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Dispute Resolution for Consumers and Non-Consumers: Any claim, dispute, or controversy in connection with, relating to and /or arising out of the Auction, participation in the Auction, award of lots, damages of claims to lots, descriptions, condition reports, provenance, estimates, return and warranty rights, any interpretation of these Terms and Conditions, any alleged verbal modification of these Terms and Conditions and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation shall or any other matter: a) if presented by a consumer, be exclusively heard by, and the parties consent to, exclusive in personam jurisdiction in the State District Courts of Dallas County, Texas. THE PARTIES EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY. Any appeals shall be solely pursued in the appellate courts of the State of Texas; or b) for any claimant other than a consumer, the claim shall be presented in confidential binding arbitration before a single arbitrator, that the parties may agree upon, selected from the JAMS list of Texas arbitrators. The case is not to be administered by JAMS; however, if the parties cannot agree on an arbitrator, then JAMS shall appoint the arbitrator and it shall be conducted under JAMS rules. The locale shall be Dallas Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. Any party on any claim involving the purchase or sale of numismatic or related items may elect arbitration through binding PNG arbitration. Any claim must be brought within one (1) year of the alleged breach, default or misrepresentation or the claim is waived. This agreement and any claims shall be determined and construed under Texas law. The prevailing party (party that is awarded substantial and material relief on its claim or defense) may be awarded its reasonable attorneys' fees and costs.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

Miscellaneous:

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

State Notices:

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Notice as to an Auction in Texas. In compliance with TDLR rule 67.100(c)(1), notice is hereby provided that this auction is covered by a Recovery Fund administered by the Texas Department of Licensing and Regulation, P.O. Box 12157, Austin, Texas 78711 (512) 463-6599. Any complaints may be directed to the same address.

Notice as to an Auction in Ohio: Auction firm and Auctioneer are licensed by the Dept. of Agriculture, and either the licensee is bonded in favor of the state or an aggrieved person may initiate a claim against the auction recovery fund created in Section 4707.25 of the Revised Code as a result of the licensee's actions, whichever is applicable.

Terms and Conditions of Auction

Additional Terms & Conditions:

COINS & CURRENCY

COINS and CURRENCY TERM A: Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

COINS and CURRENCY TERM B: Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (1-800-872-6467) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

COINS and CURRENCY TERM C: Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

COINS and CURRENCY TERM D: Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcg.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

COINS and CURRENCY TERM E: Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

COINS and CURRENCY TERM F: Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

COINS and CURRENCY TERM G: Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

COINS and CURRENCY TERM H: Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

COINS and CURRENCY TERM I: Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

COINS and CURRENCY TERM J: All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

COINS and CURRENCY TERM K: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM L: Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

COINS and CURRENCY TERM M: NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

COINS and CURRENCY TERM N: For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

COINS and CURRENCY TERM O: Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

For wiring instructions call the Credit department at 1-800-872-6467 or e-mail: CreditDept@HA.com

New York State Auctions Only

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, Michael J. Sadler, # 1304630, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders. Rev 11-19-12

HERITAGE®

WORLD & ANCIENT COIN AUCTIONS

Heritage is proud to present

The Norman Jacobs Collection of India and Thailand

Magnificent Rarities from cabinet of Asian scholar and prominent numismatist, Dr. Norman Jacobs.

In Asia, in the post-war period, and during much of the 1950's and 1960's, Dr. Jacobs was able to put together an amazing group of Asian rarities from Japan to India, Korea to Thailand. Heritage will be displaying over 100 items of India and Thailand at the 2013 NYINC at the Maxwell Suite at the Waldorf Astoria January 9-13.

Please stop by to visit us and see these and other wonderful rarities.

FINE & RARE WINES

Our Experience. Your Wine. Great Results.

Heritage Auctions dominates the fine art and vintage collectibles market.

Now, we're bringing our expertise, marketing power and record-breaking results to fine and rare wines.

And you're sure to benefit.

- Wine consignors pay no consignment and insurance fees.
- We'll beat any terms you're getting from a competitor.
- If you prefer selling your wine outright, call us and we'll make a cash offer on a single bottle or your entire cellar.
- Our aggressive marketing strategy gives your consignments international exposure.

Our goal is more money in your pocket.

How can you lose?

Call today to learn how Heritage can realize the full potential of your cellar.

US COINS AUCTION

FEBRUARY 7-9, 2013 | LONG BEACH | LIVE & ONLINE

The **OLDEST** numismatic partnership in America
brings you the **NEWEST OPPORTUNITY**
to maximize your consignment results...

LONG BEACH: FEBRUARY 7-9, 2013
CONSIGNMENT DEADLINE: DECEMBER 26, 2012

**Heritage has been holding Official Auctions at the
Long Beach Coin Expo for more than 25 years.**

In head-to-head competition, Heritage achieved higher prices in nearly two-thirds of comparisons. Comparing auction results from 75,000 sales of identically graded coins (from the same services) by all of our competitors combined, HA.com delivered the majority of highest prices. When compared against the prices realized of our primary competitor, Heritage earned consignors like you more money in nearly two-thirds of all comparisons.

**Call us today at 800-872-6467 ext. 1000
to discuss consignment opportunities.**

The Business Climate is Perfect at Long Beach.

Join us at the Long Beach Expo • February 7 - 9, 2013

Located within sight of major attractions like the Queen Mary and The Aquarium of the Pacific in beautiful Long Beach, California, the Expo brings together more than 10,000 dealers and collectors three times each year. The weather is great, and so is the business climate on our 100,000-square-foot bourse floor!

Literally hundreds of dealers are on hand buying and selling U.S. and World coins. And there are activities for collectors of all levels and ages at every show, including:

- A multi-million-dollar Signature Auction held by Heritage Auctions, the official auctioneer of the Long Beach Expo
- Onsite coin grading by PCGS
- Numerous youth activities including the popular kids' treasure hunt sponsored by the Full Step Nickel Club
